New Improvement At Carlsbad Cavern

CARLSBAD, N. M., Jan. 25.—The National Park Service, through Thomas Boles, superintendent, Carlsbad Caverns National Park, today made the important announcement that the recently completed electric passenger elevator, through the 750-foot shaft, would be placed in public operation on Sunday, January 24. At the same time, the Government's guide fee through the caverns, will be reduced from \$2.00 to \$1.50 each person, and a fee charged for elevator service at fifty cents for each one-way trip. There will be no change in the regulation that children under 16 years of age are admitted free, when accompanied by parents or guardian. Children will be charged 25c elevator fee, however.

The elevator at Carlsbad Caverns was installed with the view of accessibility to persons that could not comfortably negotiate the trail system, and the National Park Service urges the visitors to enter and leave the cavern via trail. Each person thus would save 50c.

Governor Arthur Seligman, of New Mexico, on Saturday January 23rd, will formally dedicate the elevator at the invitation of the Secretary of the Interior and the Director of the National Park Service. The New Mexico Newspaper Association will be in session here on January 22-23, and will participate in the ceremony, together with many persons whose interest and work for the caverns have so rapidly placed it in the front rank of America's show-places.

Parker & Son Pleased With Saturday Demonstration

H. G. Parker, manager of the W. H. Parker & Son Grocery, is well pleased with the results obtained from his Saturday's demonstration and sale. W. H. Parker & Son are old time merchants of our city, and one feature of his advertising was to give away, every two hours, a basket filled with groceries, valued at \$2.50. Eight of these were given away during the day Maxwell House Coffee and Grape Nut Flakes were served Free during the day.

PRESERVE US FROM PRESERVATIVES

Says A. T. Wright, publisher of the Eldorado Success, in last week's issue of that journal:

"The editor and wife and daughter, Beatrice, went to Brady Saturday to visit A. D. Wright and wife and eat a birthday dinner with A. D. Albert still swears he is younger than the editor, but looks like he might be our father. Albert has resided at Brady some 32 years, and that might account for his aged appearance. Of course, Harry Schwenker will not agree, but he has never acknowledged that San Saba women can make better pecan pies than the Brady women. But, if he had been present Saturday, he would have had to acknowledge that Albert looked several years older, and through that admission admit that Eldorado would preserve and maintain youth better than Brady."

There are all manner of preservatives—social uplifts, facial uplifts, paints, powders, wood alcohol, embalming fluids and various and sundry preservatives of both external and internal application. However, the Standard editor cannot qualify as an expert upon any of these. Nor are there available any testimonials from Albert Wright as to what method he has pursued in maintaining the same youthful form and figure, as well as complexion and good looks as those he was graced with when we first saw him for nearly a quarter of a century ago. If the Eldorado editor is any more youthful in appearance than is his Brady Brother, Albert, then the eminent Brother Editor should be called to account for playing hookey from kindergarten.

Two Southern Men Appointed By Hoover

Jesse H. Jones of Houston and H. C. Couch of Arkansas were nominated Monday, by President Hoover, to help put the two billion dollar Finance Corporation into the business channels of the Nation. Both of these men are millionaires themselves and are leaders of the Democratic party in their respective states. This project should relieve the financial situation over the country to some extent, and maybe thaw out some of the frozen assets.

D. E. DeLong reports his stock wintering fine, and that the wet winter has been very beneficial to the ranchmen. Mr. DeLong tries to see the bright side of every cloud, but has failed so far to see the bright side of this depression, but is still looking and expecting good times again.

WHERE THE TAXPAYERS' MONEY GOES

Under the caption, "Pauperizing the Farmer," the Chicago Tribune recently commented on farmers in the Northwest who were encouraged to borrow money from the Government to buy seed last spring. About \$4,000,000 was due September 30—and, according to the accounting of October 2, but \$147,000 had been paid. A great part of the money will probably never be paid. As the old saying has it, you can't get blood from a stone.

The Tribune says: "They (Professional farm relievers) have encouraged farmers to borrow. . . The result has been that the marginal farmers who cannot earn a living farming have been kept in business by the Government dole, and in consequence the campaigns which have been waged for reduction of surpluses have failed."

Thus farm relief, instead of improving the condition of the farmer, may, instead, plunge him further into depression. This is one more evidence that political panaceas, at the taxpayers' expense, not only usually fail but often aggravate the very condition they seek to remedy.

Life Insurance A Good Asset

IN ANY EMERGENCY

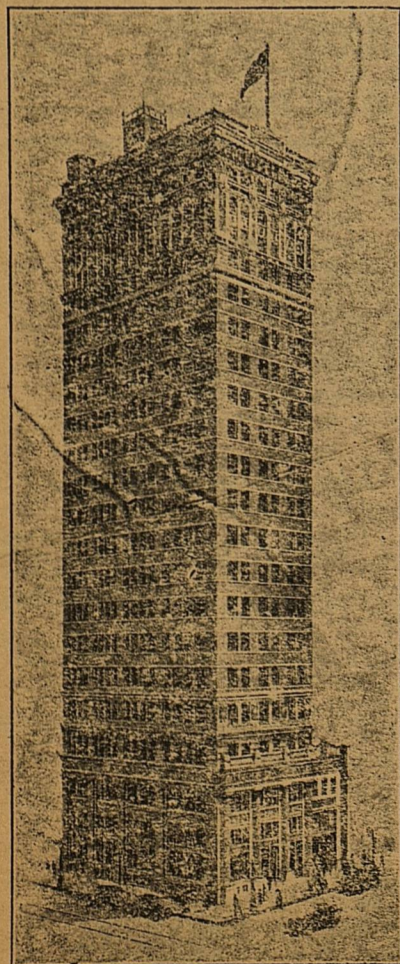

In a normal business lifetime every man meets at least three periods of emergency, variously described as economic convulsions, business depressions, or panics. Whatever the cause, these emergency periods apparently occur once in about eight years, causing the premature economic death of many persons. Depressions come with the appalling certainty of the one great emergency which prudent men have long met through life insurance. Sound business demands that emergencies be met through a fund that is at once safe, immediately available, and low in cost. Meeting emergencies is but one of the functions which Amicable Life policy contracts daily perform.

JANUARY, 29, 1932

Eldorado will be a town of Roses; Mr. Wood of the City Variety Store, reports that his Saturday Sale of Rose bushes was 200, and other orders to be filled. We have always had lots of nice Roses, but next spring we will make our city bloom like the rose of Sharon.

This week end is your last chance to make a 1932 voter out of yourself. Pay that polltax, and enjoy your voting franchise. A real citizen has an interest in his county, State and National government. To participate in our county and state election we are required to have a polltax receipt. So let's arm our selves with one, before Saturday night.

Coke Stevenson of Junction has been mentioned for Governor of Texas. We would not insist on his announcing at this time, but if he does we will lend him a helping hand. It's not often a man can be beaten for a second term, but Governor Ross Sterling seems to have some strong opposition.

The boys of the 4-H Club have some mighty fine lambs and calves getting in readiness for the Ft. Worth Fat Stock Show. San Angelo is wanting them exhibit there before they go on to Ft. Worth. Just what will be done about it is not yet decided. If they attend both places it will take about two weeks for both exhibits.

The cold weather Saturday made it hard on a good many fat hogs. But hog killing times are good on the citizenship. We have not had many days this winter when it would do to kill hogs, but an ideal time was had last week end.

And now comes an oil man from Wichita Falls asking the people to elect him Governor, saying, he wanted to turn the government of the State back to the people. We have had an oil man for the past two years and he has not made a bad governor but we doubt if the people will elect another oil man in his place. We need a man for Governor who is not tied up with the big concerns of the State.

We had much rather live in a growing town than a stand still town, that being the case we have always been pushing and pulling for better a town. We have not been by our selves. Eldorado for the past ten years has continued to grow.

As far as The Success knows, there has no one in Eldorado announced for governor nor president.

Garden Of Experience

F. G. Clark
 CHEEK

The most daring exhibition of cheek that has dawned upon our consciousness in many years, is that exhibited recently by New York City through her mayor. New York City has been systematically pillaged for more than a hundred years.

Aaron Burr began it when he changed Tammany Hall, at that time a social organization, into a thoroughly organized political grafting machine. Since that time, this institution, except for short intervals, has had complete control of the city, both politically and financially. The officers, elected by voters, have been mere figureheads. The real ruler is the head of Tammany Hall. As leader, he gets the lion's share of the graft, then the balance is distributed proportionately down through the ranks of the henchmen to the patrolman on the beat and the minor judges on the bench. Man after man has retired from the leadership of Tammany Hall with his pockets swelling with millions of the city's money, not one dollar of which was honestly earned. Not only he, but many minor officers, have retired with millions.

The Seabury committee are uncovering fraud in appalling amounts. It was found that one sheriff, during a four year term banked more than two million dollars and we submit that \$500,000 per year is some salary for a mere sheriff. The shameless graft has gone on, constantly growing, until this great city of seven million souls and twenty billions in real estate values, has come to the end of its resources. The last dollar has disappeared from the treasury. And now what? The mayor, Jimmy Walker, aided and abetted by Senator Copeland, had the cheek to ask Congress to turn a portion of the two billion fund, raised for the purpose of infusing new life into the business of the nation, into the depleted treasury of the graft ruined city. They might as well say: "We have stolen the last dollar, please pour in some more so we can steal that too."

While other cities have not had the cheek to ask for Government aid, they, by copying New York, have brought themselves to the same pass. It is a notorious fact that for many years, bosses have ruled our large cities and the rulers, elected by the voters, have been but dummies in their hands.

In the meantime, the tax pay-

HALF WORLD'S POPULATION DEPENDS ON SILVER

Persons casting about for the cause of world depression would do well to give thoughtful consideration to the silver problem. The price of this metal, which constitutes the money and savings of nearly half the population of the world, has fallen to unprecedented low levels. Until early in the nineteenth century the monetary systems of the world had usually both a gold and silver basis. Since then the great nations have been shifting away from silver, to adopt the gold standard. Demand for silver has consequently gone down.

The difficulty lies in the fact that there is too great a scarcity of gold to make it a practical medium for handling international business. The purchasing power of entire nations has been lowered to a fraction of their former strength.

Swift and decisive international action must be achieved if substantial progress in rehabilitating silver is to be made. The problem of silver is a world problem, vitally affecting trade of the world, and it must be treated accordingly.

If you expect to reap any benefit from your home town life, contribute something to it.

It takes cooperation on the part of both Merchants and people to keep Schleicher County money in Schleicher County. The local merchants must first learn that their bargains must be advertised and reach the local people, and be as attractive as other towns, and it behooves each individual then to support the local Merchants and other business institutions and keep the home fires burning. When we help others in our town and county, we help ourselves.

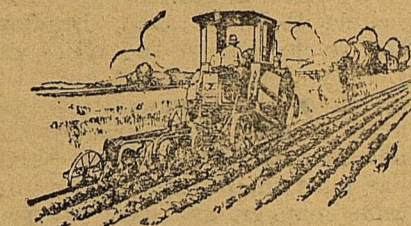

Mrs. W. H. McClatchey and daughter, Miss Mable, were shopping and visiting in the city Saturday.

er foots the bill. When the funds are exhausted, the slogan of the boss is: "Don't economize raise the taxes." And this has gone on till the taxpayer is about ready to revolt. Indeed he has already done so in Chicago.

The situation has grown more acute since property and commodity values have fallen and the dollar has remained at par. It takes three times the cotton to pay our tax that it did two years ago. The cost of government has gone up while the quality has gone down. Wake up, tax payer, and demand to know what is being done with your money.

Willie was dejectedly walking home from school and his woe-begone appearance attracted the attention of a kind-hearted old lady.

"What is troubling you, my little man?"

"Dyspepsia and Rheumatism," replied Willie.

"Why that's absurd," remarked the old lady. "How can that be?"

"Teacher kept me in after school because I couldn't spell them," was Willie's dismal answer.

THREE NEW PUPILS

Nell Campbell
Three new pupils have entered the Eldorado High School for the second semester. They are Sammie Leudecke, Jack Shugart and Lois Whitley. Sammie, who is a Junior, started to school here at the first of the year, but attended only a short while. The subjects she is taking now are Public Speaking, English, Spanish, Texas History and typing. She is a member of the Home Economics club. We are all very glad to have her return to school.

Jack Shugart, a Freshman, attended school in Dallas before he came here. He is taking English, Algebra, History, General Science and typing. He is a member of the scribblers club.

Lois Whitley, who is also a Freshman, attended the Cliff School, which is about fourteen miles from Eldorado before she started here. She is taking English, Algebra, History and typing. She is a member of the English Club and has also joined the girl's hiking club.

We are glad to have these new pupils and hope that they will be pleased with our school.

SO THEY SAY

Mr. Holt (To History students at the beginning of the second semester) — We're beginning with a clean slate and I'm sure you are all going to make A's on History.

Jess Ella (With heartbreaking pathos) — I've spent all of my life trying to make other people happy!

Albert (With surprise when told that they would now study the Constitution of the U. S.) — I didn't know the U. S. had a

Why Gusta V. always asks why you do not have your report written up?

Why there were no boys in commercial law class which was taught by Mr. Smith?

Why the fire alarm always rings just when you are fixing to have an interesting exam on Plane Geom. or some other such subject?

GUESS WHO

Thelma Taylor
1. I am a little girl
With red cheeks and raven hair.
And write often teased by Jack Ratliff
Which I don't think is quite fair.
He pulls my hair and such, alas
I'll make a jab at him with my compass.
Miss Bradshaw always shames me
Says I've a temper fit to kill
And if Jack doesn't watch his step
I just think I really will.

2. I am a little boy who is always very good
Cause if you had my manners
I know you would
Be just as quiet and never talk
Chew gum or throw away the chalk.

If you don't catch the idea that this conveys
I'll tell you IT'S THE DISCIPLINE COMMITTEE'S WAYS.

1. Pauline Kent.
2. Pokey Kent.

SPORTSMANSHIP AT GAMES

- To the visiting team, pep squad and rooters in general, first consideration should always be given
- A discourtesy is shown opposing teams:
 - When errors, penalties or fumble are applauded
 - When good plays by the opposing are discredited
 - When the stand refuses to remain quiet on signals by the opposing team, when yelling interferes
- Any man, on either team, deserves a cheer when a substitute is sent in for him—so does the substitute
- A loyal rooter watches the yell leaders and cooperates with them—they work much harder and miss more of the game than the rest of the rooters in the stand
- Your town and your school are judged by you—your dress, your Speech, your manners. Be worthy.
- A true sport does not "rub it in" on the other fellow—he is a good winner, and a good winner is a good loser.

A DISGRACE TO INTELLIGENCE

At the end of 1931, the National Safety Council said that it had become increasingly evident that the traffic toll would reach an all-time record of 35,000 fatalities for the year.

Here is a record that none of us want. It was within our power to prevent it last year, exactly as it is in our power to prevent the establishment of another grisly record of automobile deaths in 1932. Safety on streets and highways comes as

a result of the realization of the individual's duty to drive his car at all times in a prudent and intelligent manner. Carelessness, ignorance, drunkenness at the wheel, an irresponsible attitude, lack of ordinary courtesy—these things have caused practically all of the 35,000 deaths. The really unavoidable accident is extremely rare.

An informed and active public consciousness can do much, as the National Safety Council has found out. In nearly one-half of our cities united action on the part of public officials, civic or-

ganizations and public spirited individuals held the death rate in check. But in the remainder there has been a woeful spirit of apathy toward a problem that menaces the lives of us all.

We have entered a new year—a year of many problems. And we should remember that one of the most important of these is to do our bit to promote the cause of carefulness and competence in automobile driving.

HOGS FEED THEMSELVES IN SWISHER COUNTY

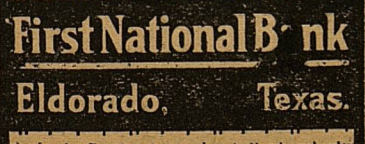

TLLIA, Jan. 25.—More than 150 Swisher county farmers are feeding hogs by the self feeder method as an outgrowth of six demonstrations by 4-H club boys in 1930 in which this system was found to produce better gains at less cost and with less labor. The ration used as reported by C. B. Martin, county agent, consists of wheat and kafir fed free choice with a protein supplement made of half tankage and half cottonseed meal.

SECOND MEETING OF SCHLEICHER COUNTY TEACHERS STUDY CLUB A SUCCESS

The Schleicher County Teachers Study Club met for the second time since its organization in the high school auditorium Friday night, January 22. Those interested in the success of the club were encouraged by the large number of teachers and patrons of the school who were present.

The meeting was called to order by the chairman, Mr. T. S. Redford of the Bailey Ranch school, and the club selected Friday night, February 19, as the time of its next meeting. The program for the evening was begun with a few musical numbers given by Miss Lucile McWhorter and her "Redbugs," the Rudd school band. The depressed state of mind of the club being cleared up by the last number, "The Depression's Over," the talks on the program were begun. Miss Lucile McWhorter gave a paper on "Character the Supreme Aim of Education," Mrs. Payne Robinson, one on "The Teachers Part in Character Education," and Coach Dave Williamson talked on "Character and Athletics."

Mr. Redford presented to the club the program for the next meeting, on which the principal speakers are to be Mr. W. P. Terry, Sup't. R. D. Holt, and Miss Zaidie McAngus of the Alexander school. The principal theme of the program is to be "George Washington and Discipline," the plan being to make it both a tribute to Washington and an up-to-date discussion of the present problems of discipline in the schools. There will also be musical numbers and

readings to lend interest and variety to the meeting.

These monthly meetings are open to the public, and any persons interested in the welfare of the schools of Schleicher County are urged to manifest that interest by attending the programs. The teachers of the county are to be commended for their interest in this constructive plan for self-improvement and they will welcome the attendance of any patrons interested in teaching and school problems.

School Notes

WHAT WE FACE IN THE STUDY HALL

Aletha Faught
We face the blackboard. It is very hard to look at however, for it isn't all there is up there. If you look closer you will see a long list of failures which doesn't look very good to many of us. Perhaps I had better explain what failures are. They are a list of names of students who are failing some subject.

There is usually some announcement which we all manage to overlook while looking above the board at the mounted eagle and the picture of George Washington and our state capitol.

It was a hard matter to get near enough the blackboard Monday and Tuesday to see our exam grades posted on it.

Below the blackboard is a long reference shelf containing big and little reference books. They give us many pains as we have a time for the right book.

To the left is a magazine stand with English, Science, Current History, Time, Good Housekeeping, Path-finder, and several other magazines. A pencil sharpener and a waste paper basket together with the other things listed manage to hold one's attention pretty well.

Those present were: Jack Kerr, Mary Dell Williams, Margaret Kent, Jack Ratliff, Fae Keeney, Grace Ratliff, Lola Davis, Linna Parker, Leila Parker, Leola Boyer, Bernard Carr, L. C. May, Ray Boyer, Dahlia Fae Johnson, Mildred Smith, Conn Isaacs, Walter Ramsay, and Misses Howell, Karr, Turney and Meyer.

The refreshments were coffee chili and pickles. Numbers were drawn to see who would wash dishes and Misses Howell, Turney, and Meyer got unlucky numbers so they helped clean up the kitchen.

THE FUTURE "FISH"

Nell Campbell
The Seventh grade certainly seems to be progressing, not only in their studies but in athletics as well. The girl's baseball teams, which were reported on some weeks ago, have been playing almost every day at noon and certainly must have a "dandy" team by now. They all seem to enjoy playing very much and many who never dreamed of such things as playing base ball are right in the middle of every game and get a real "kick" out of it, too.

They are doing more than playing baseball. They are really doing some work on their studies. They have completed their Geography and Civics and are beginning Health and Agriculture this semester.

Well, I think we had better keep up with these Seventh-graders because remember they are to be next year's "Fish."

ALUMNI AND SOCIETY

Thelma Taylor
Jack, Carl and Billy Kerr went to see what our future home looks like so they could tell us how to prepare ourselves. They said the picture "Over the Hill To the Poor House", was O. K. but the real thing might be sadder still, so I guess we'll have to change our destination (if possible).

Jim West went to Sonora last Friday night (I wonder what for) and then came back to the dance at the Skating Rink. He goes over there every once in a while to see certain friends.

What a pity everyone who went to the "Poor House" Sunday didn't stay while they were there!

Alicia Burk, Mary Dell Williams and Roberta Milligan went to their country mansions for the week end and reported very "Handsome" times.

Cecil McClatchey, ex-student of E. H. S. was in Eldorado Friday night at the dance. Mabel was here also.

—E.-H.-S.—
F. B. Gunn, of Ardmore, Oklahoma, was here Saturday and Sunday looking after business and meeting friends. He returned Monday. He has leased his ranch and farm to Sol Kelly.
