

THE ELDORADO SUCCESS

OF AND FOR ELDORADO AND SCHLEICHER COUNTY. ALL THE TIME

VOL. XXXI

Eldorado, Schleicher County, Texas, Friday, January, 30, 1931.

No. 5

Have You Joined The "Eat More Lamb" Club?

Hundreds of clippings from newspapers over the United States indicate the interest being shown in the sheepmen's attempt to stabilize the lamb industry and to promote the consumption of lamb and mutton. The establishing of the "Eat More Lamb" Club of Texas as the fund raising medium for the advertising lamb and mutton is being commented on and discussed throughout the United States, and especially in the other sheep raising states. The Texas sheepmen should be proud to have taken the initiative in this lamb advertising campaign and that their leaders are such capable men as Sel Mayer, I. H. Martin, T. L. Drisdale, J. T. Baker, V. I. Pierce, H. W. Rieck, and E. S. Mayer. Other states are now waiting to see how the Texas sheepmen succeed in raising their part of the national quota. As Texas is now leading the way let's continue the drive and be the first state to raise the full quota. Will Texas sheepmen raise their part of the National Fund? To date, over half of the Texas quota has been subscribed. The sheepmen have entered into the work of the fund raising with enthusiasm. Over 500 sheepmen have joined. They believe in the "Eat More Lamb" Club campaign! They realize that great good can be had from this promotional method.

Moreover, in a few important sheep raising counties the sheepmen are hesitating to join in the campaign work. The "Eat More Lamb" Club needs the assistance of EVERY sheepman and every person interested either directly or indirectly in the prosperity of the sheep industry. Concerted effort is united effort, and it is only by the united effort of the sheepmen that the goal of stabilized prices—increased prosperity—is to be reached. Sheepmen! Have you joined the "Eat More Lamb" Club? See your county chairman and enlist today.

TERRACED LANDS PROVE PROFITABLE IN McCULLOCH COUNTY

BRADY, Jan. 25.—A survey of 33 terraced farms in McCulloch County, shows that in the face of what is said to have been the driest year in the county's history, terraced land made 138 pounds of lint cotton to the acre and 1500 pounds of milo maize per acre. The county average cotton yield was one bale to 10 acres and 600 pounds of milo maize heads per acre. James D. Prewitt, farm demonstration agent, gathered the figures on terraced crops from his demonstrations, which showed that terracing made a difference of \$10.80 per acre in cotton returns this year.

Mr. Billy Stewardson in visiting in Eldorado this week from the ranch near Fort Stockton.

Mrs. F. Ramsel Building New Home Near Eldorado

Mrs. F. Ramsel, who ranches 18 miles northwest of Eldorado, let a contract last week to Wright and Jordan of Brady for the erection of a new home on her ranch. Mr. Jordan came over Friday to begin the work.

Urah Savage, one time a citizen of Eldorado but now near Amarillo, Texas, was here this week visiting his sister Mrs. Frank Douglas. Mr. Savage lived in Eldorado some 20 years ago and found quite a few of his old friends still here. While here he called at The Success Office for a visit, he notes many changes in our city and our people.

Mrs. Maurice Jones of Brady, and little Miss Wilda Francis are in Eldorado this week, guest of Mr. and Mrs. Kenneth Gary. They were accompanied by Mr. Brock, Mrs. Gary's father.

Schleicher County Receives More Rain

Schleicher county has witnessed another soaking rain Monday and Tuesday making travel almost impossible. But broadening the smiles on the faces of our ranchmen and farmers.

This year is full of promises so far and an effort on the part of our people will see a year of bounteous crops and fat stock.

We are told in the 90th Psalm that the days of our years are three-score years and ten; and if by reason of strength they be fourscore years, yet is their strength labour and sorrow; for it is soon cut off, and we fly away.

Yet some people tell us that the human life is growing longer, not so, it is just climbing back to where it should be. The average of human life if for below the three-score and ten years. But it should be 70 years. The old must die to make room for the young, thus it has been planned and science can not change the plan.

Sonora Wool & Mohair Co. Bids For Schleicher County Business

The Sonora Wool and Mohair Company are soliciting the Wool and Mohair business of Schleicher county, through the columns of The Success, and are offering accommodations unsurpassed by others, have a large warehouse and accommodations to handle your Wool and Mohair to your entire satisfaction. The men who head the institution are acquainted with your needs and the ranching business of this section. See their ad and get in touch with them.

CHURCHES TO WAR FOR PROHIBITION BISHOP DECLARES

CHARLOTTE, N. C., Jan. 26.—Bishop Edwin D. Mouzon, of the Methodist Episcopal Church, South, in a statement here Sunday, asserted "politicians can take warning that the church and the bishops will be found standing for prohibition" in the event that question is an issue in the next presidential election.

"I am a churchman and not in politics," Bishop Mouzon said. "I am not interested in politics and would not make a statement of a political nature. I am a prohibitionist and am committed to support prohibition. The Methodist church has always been for prohibition and it is committed to fight prohibition. It is a moral issue with me and not a political question. I am not interested in its political aspects, but I am very highly interested in its success as a moral measure."

"The politicians can take warning that the church and the bishops will be found standing for prohibition. I am not in politics, I repeat, but the next campaign if an attack is made on prohibition."

"If they tried to bring back slavery the Methodist church would be found opposing it. If they tried to operate gaming boards to support the Government, the Methodist church would be found opposing it. If they try to bring back the corner saloon, they will hear from the Methodist church and they will hear from me."

INTERESTING BREVITIES

During 1929 sixteen million people and 8,000 industries located in 3,000 towns and cities in thirty of the forty-eight states used 1,900,000,000 cubic feet of natural gas, equivalent in heat units to 113,000,000 tons of bituminous coal.

Seven towns in Dallas, Tarrant and Johnson Counties, heretofore served electrically by the Northern Texas Traction Co., are now being served by the Texas Electric Service Co., bringing the number of towns served by that company to sixty-two.

Through introducing natural gas into a bed of incandescent coke, the Federal Bureau of Mines recently recovered seven pounds of carbon black from 1,000 cubic feet of gas. The average is 1.6 pounds to the thousand feet. Texas in 1929 produced 228,183,000 pounds of the carbon black or about 62 per cent of the nation's production.

With the extension of telephone service to the Arctic Circle in Europe and to the 40th parallel in South America it is now possible to make call from the United States to either of those regions with a maximum direct distance of 10,000 miles. Talking with Sweden from Texas points costs around \$45 for three minutes conversation.

A keen angler took a friend for a day's sport. The friend knew nothing of fishing, but decided to try his luck. After a long silence by the banks of a stream the novice said, "I say, how much do those little red things cost?" "You mean the floats? Oh, they're cheap. Why?" "I owe you for one. Mine's just sunk."

Forrest Alexander Receives Appointment To West Point

Mr. W. O. Alexander, Cashier of the First National Bank here, received a wire from Congressman Hudspeth Tuesday, stating that his son, Forrest Alexander, had been given an appointment to West Point and that papers would arrive shortly for his examination and preparation for the work.

The Success congratulates Forrest Alexander for his receiving the appointment and trust that he can make all grades and fiscal tests, and enter the school at West Point.

This is the second appointment that Eldorado has received at the hand of Congressman Hudspeth, A. T. Wright, Jr., to Annapolis, and Forest Alexander to West Point. We trust these two lads won't fight when, if they do, meet in athletic contest.

Mr. Hudspeth who has represented this Congressional district will retire at the end of his term, which is near at hand.

BRADY MAN HEADS WEST TEXAS UTILITY ICE PROPERTIES

ABILENE, Texas, January, 26.—Dan R. Junell, for the past four years manager of the recently-purchased Crystal Ice Company at Brady, has been made Supervisor of Ice Properties for the West Texas Utilities Company, according to an announcement from the company's executive offices here, Junell has established headquarters at Abilene, and is now visiting the larger ice companies of Texas gaining information regarding new methods which may be used in the company's business. He will move his family to Abilene on the 20th of January.

The new position has been created to foster the development of ice business, in which the company is interested to the extent of 26 plants, and ice sales stations in 34 towns throughout the properties.

Junell has had many years of experience in the ice business, as well as in the light and power industry. He was associated with the Light & Power Company of Sulphur Springs two weeks ago and broke her hip, and never recovered. She was 77 years old and spent the past four months in Eldorado with her son. She fell at Brownfield on her way to New Mexico.

Jimmie Flack will assume the management of the Crystal Ice Company. Flack is also in charge of operations at Rochelle, and merchandise Salesman in the towns of Rochelle, Melvin and Eden.

ON TEXAS FARMS

By W. H. Darrow
Demonstrators in Harris county report that their pastures are worth from \$40 to \$100 per acre in replacing feeds.

Cotton planted by the two-row-and-skip-one plan on the farm of T. Harry Brown in Caldwell county made an estimated increased yield of 126 pounds seed cotton per acre, says the county agent, and left the middles free for a crop of cowpeas to turn under.

A dairyman in King county cut down on feed from 28 pounds of roughness and 12 pounds of cottonseed per cow daily, to 12 pounds of roughness and seven pounds of cottonseed. The feed cost of producing buerfat was reduced from 34 cents to 18 cents per pound.

The average value of home raised canned stuff in the 4-H pantry demonstrators' pantries in San Saba county is given as \$192.

Home demonstration club women and girls in Shackelford county report having canned 10,326 quarts of meat worth \$4,357.52.

An American farmer was interviewing a negro who applied for work. "Are you familiar with mules?" the negro was asked. "No, sah," was the reply. "Neb hab been. Ah knows too much about dem. to be familiar wid dem."

Minnie—Do you buy shoes that cheap. Why?
Tonka—You should hear my husband holler when he gets the bills for them.

Eldoradoans Attend Will Rogers Charity Show

Eldorado was well represented at the Will Rogers Charity Show in San Angelo Tuesday night. The witness of the weather, and not Rodgers himself, caused him to be late at the show. He stopped with his brother at Kerrville for dinner and passed through Eldorado just after dark on his way to San Angelo, where a crowded auditorium was awaiting him, from reports of those that attended Will entertained the crowd to the entire satisfaction, and from reports from the show \$6,500.00 was paid in to hear the Texas Comedian, of which he received nothing, and he even told his hearers that he would leave before the shooting started.

Will is a great character and is one of the best posted men in the United States on current events. His talks are brim full of humor, but behind the scene or between the lines is a jug full of sound logic, he mixes with the world's leaders, and feeds them all out of the same spoon and so far has managed to stay out of jail. He even entertained Jim and Dan shoving one out the back door while the other came in the front.

Will Rogers is a cowboy humorist.

THESE DELTA COUNTY HENS BETTER THAN AVERAGE

COOPER, Jan. 24.—Delta county demonstrators report that egg production for the month of December is 6.7 eggs per hen, which is better than the calendar standard by 1.7 eggs, according to Laura Morgan, home agent for the county. Three demonstrators report egg sales amounting to .65 for the month. One of them, Mrs. A. C. Voyles of Enloe, reports a profit of \$825 for the year, following the suggestions for flock management on the poultry calendar.

Fred O. (Mayor) Green, returned the latter part of last week from Green Gap, New Mexico, where he was called to the funeral of his mother Mrs. G. C. Green who fell about two weeks ago and broke her hip, and never recovered. She was 77 years old and spent the past four months in Eldorado with her son. She fell at Brownfield on her way to New Mexico.

Mrs. H. M. Freund was shopping and trading in the city Monday.

R. N. Brown and family who have been in Northeast Texas for several weeks are back at home in Eldorado, returning last week.

If you are out of employment there is two opportunities open, a filling station or a Hamburger stand.

Mr. and Mrs. Jim were business visitors in the City of San Angelo, Tuesday.

LET THOSE PAY WHO CAN

With the above words spread across their battle flags, the forces which seek to replace the state's present system of ad valorem taxation with a "more equitable" system of income taxation have moved to the attack.

The probabilities are that more strength is represented in this movement than many opponents of the income tax would care to admit. Not only are a number of strong legislators identified with the list of income tax proponents, but in the past few weeks an amazing number of equally strong newspapers have become converts.

It may be that much of the strength of the movement lies in the fact that its leaders do not underestimate the enormity of the task they have undertaken.

Elbert Barron, of Sherman, is expected to lead the legislative fight in the House, and it is thought that Senator De Berry may act in a similar capacity in the Senate.

FORD SMOOTHNESS

The new Ford has more than twenty ball and roller bearings

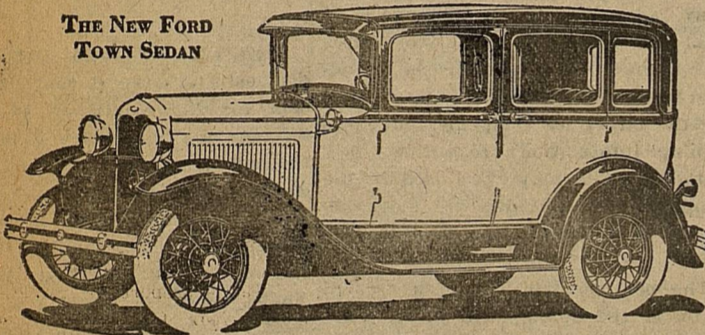

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all — an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used regardless of their higher cost. The deciding factor is the performance of the car.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline, increases speed and power, gives quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.

The Success appreciates the fact that a car was placed on the Santa Fe track here to load out our poultry, but regret to hear that the price paid was lower here than at San Angelo. This should not have been the case. They will have to be a united effort on the part of the poultry raisers in this county to get a car here next month who will pay the same price here as other places.

The days of rest has finally reached Schleicher county, the only work we have to do, is to try and get about. Mud here, and there and mud everywhere. We are not complaining at the wet weather, we are just enjoying a rest.

WHAT THE TRUCKS ARE DOING

(Editorial, Robert Lee, Tex. Observer)
About the most unreasonable thing that has ever been permitted to occur in Texas is the bus and truck business higgling the public out of their highways and at the same time, hogging the railroads out of the business they are justly entitled to.

This editor has boosted, for his last highway in Texas, whereby he and his friends, neighbors and the railroads are to be taxed for the money to build them with, only to be crowded off into the ditch every few minutes along the route, to keep from being killed or run over by a truck or bus. You got that didn't you? If so, catch your breath and read this next paragraph.

There ought to be a law in every State in the Union that no trucking be done where it parallels a railroad, except where a man owned his own truck and was hauling his own property. In other words, cut out all commercial trucking and, bussing on the highways, except from railroad points

to inland towns and communities. If that paragraph soaked in, read this next one.

It is no more right to tax the railroads to build highways that take their business away from them, than it is to confiscate a rich man's money by law and give it to the poor.

We need our railroads and they've got to have this business to exist and furthermore, the trucks and busses have no right to hog the public out of their highways, built by and for them.

For our part, we ask of our Legislators to introduce a bill at Austin intended to put the trucks and busses off the highways of Texas. Messers. Walter Woodward and G. Y. Lee, take notice.

The railroads this year, on cotton alone, and in Texas alone have been hogged out of one and a half million dollars, and while they were losing this business they were paying an annual tax bill of \$10,000.00. And the trucks loaded with cotton were so

thick on the highways in East Texas this fall that it was dangerous for a man to travel the highways in his car, let alone women and children. When one starts out down the highway, he starts out on a truck dodging performance. The law won't allow the railroads to work a man over 16 hours and ought not to. Some truck drivers drive as long as they can sit up and see, and if you don't think it's dangerous to meet one of 'em in the road at night when he's overworked, you've got another think coming.

Since its popular and right to "cuss" all public carriers, and since everything has as many as two sides to it, and we heard of a blindmen who had seven sides. We agree with the Observer that some changes in the law is necessary if a poor man ever expects to get his nose away from the grindstone. When Eldorado had ungraded dirt roads, loads drawn by horses, we got our freight for 30 cents per hundred weight, now we have hard surfaced roads, built at the expense of the public and are paying from 40 to 70 cents per hundred weight for our freight, and on top of this have a rail-

road too boot, one just as cheap as the other, both doing just what our railroad commissioners tell them to do and charge, you have no choice, no competition, just pay the price or let

Painful Condition

"WHEN I was just a girl at home," writes Mrs. B. F. Riggan, of Baird, Texas, "I took Cardui for cramping and pains in my side and back, and it helped me at that time.

"After I was married, I found myself in a weak, run-down condition. I suffered a great deal with my back, which was so weak it hurt me to get up or when I would stand on my feet. I fell off in weight.

"A friend of mine, seeing how bad I felt, advised me to take Cardui, which I did. By the time I had taken two bottles, I felt stronger and better than I had in a long time."

Take The Lord's Black-Draught for Constipation, Indigestion, Bile...

it alone. The railroad Commissioners sets the price, take their power away and freight rates from San Angelo to Eldorado would get back to 25c per hundred weight, where a load is furnished. As the present law stands the City of San Angelo is not allowed to have another railroad building into her borders from Abilene, no matter how bad the road is needed and how bad it wants to build it has to have permission from the railroad Commissioners to build. We used to be a democrat, believed in free trade, but we have been underprotection so long, we doubt if we could exist under free trade, keen competition and justice to all. What we need now is wider highways, more gasoline tax and less tax on cars, the man who uses the highway the most should pay the tax, and they can't be used much with out the use of gasoline. Competition is the life of trade, we have none on our freight rates, pay the fixed price or let it be.

Long lived, hardy, beautiful Chinese Arbor Vitae is the best evergreen for windbreak, hedge, screen or background. Lowest prices ever known are offered by RAMSEY'S AUSTIN NURSERY, Austin, Texas.

J. H. Rodgers while doing some work in Eldorado Saturday, got a kink of some kind in his back and has been confined to his bed since, his many friends hope that he will soon be up again.

Health Protection with an Electric Refrigerator

Health authorities agree that foods can be safely preserved only at temperatures of less than 50 degrees Fahrenheit, as this low temperature eliminates or effectively retards the growth of injurious bacteria.

With Electric Refrigeration you are able to maintain this low temperature—a constant assurance of health protection and Food Safety.

While most vital and important, safety is only one of the Frigidaire's outstanding advantages. The convenient, economical and easy preparation of delicious and attractive frozen desserts and salads is of major importance in the simplification of entertainment problems.

New Low Rates Decrease Cost of Operation

... And now, with the West Texas Utilities Company's new low rate schedule, Electric Refrigeration is more economical than ever.

For the first time in Frigidaire history, a unit has been developed to sell for less than \$200.00! Eighteen months' terms if desired. See the new G Models on display.

WHY GO TO COLLEGE?

A small tot, not yet old enough to walk firmly, is told, "Don't get near the stove, dear. It is hot and it will burn." Does the child mind? In most cases he straightens his little back, and wobbles over to the stove, lays his little hand on the hot iron just to see what it will do. He certainly finds out. He does not touch it again, but he need not have learned that lesson by pain, if he had only listened to his mother.

The child grows into a sturdy youngster. He starts to school with a vague idea of what it is all about. He meets his teacher, and wonders why she is to teach him. While she is patiently explaining the mysteries of reading, the child is far more interested in the grasshopper secreted in his desk. Why do people hate to be told things?

With much prompting, the youngster goes through high school. His parents tell him the benefits of the training, but he does not see the need. But, he argues, all the kinds go, football is there, happy days are there, and so he goes.

College appears on the horizon, but along with it appears the cloud of hard work, hours of concentration, and restricted privileges. Friends tell him the value of college. But he is older now. He can get a job without going to college. He can get a job, spend money, have more friends, and a better time. And so he does. Think of the few who go to college from the great mass who march to school on their first day.

Time goes on, and with its passing come responsibilities. Trouble comes, and still he is stubborn to advice. He still depends upon brain-work. Work, work, will it never stop? Will he never get ahead? Not until he learns his lesson. Finally he does. He is an old man; and we see him telling his son the advantages of college, wondering why youth does not understand.

THE TRUTH ABOUT GIRLS

By Gusta V. Graves

Some girls say that they powder their nose to keep them from shining. Now, I have my doubts about that. Think I don't know? I know, you know, she knows, and we all know why a girl takes out those shiny little boxes, opens it up, and puts that white looking stuff on her face. To keep away the shiny nose may be one reason, but here is the main one: she is trying to look her best so as to catch the eye of a promising young male. The girls in these modern times start husband hunting quite boldly. When going down the street if a boy who has the ill-luck of being handsome (I say ill-luck because if he is good-looking all the girls start after him, and really the poor boy hardly knows whether a storm is coming from off the Pacific or a land slide is coming from a neighboring hill) you can see them form a huddle and whisper "Oh, what a catch!" "Well, how come mother's boy here?" "Lucky girl that gets him!" "I think I shall try my hand," and so on until really I am weary.

HOW MANY CAN YOU ANSWER?

By Bernice Bricker

1. Who is remembered as America's greatest peacemaker?
2. Who is the new Secretary of Labor in Hoover's cabinet?
3. What is the name of the Spanish club?
4. How many countries are there in South America?
5. Who wrote "Silas Marner"?
6. Who was called "Old Hickory"?
7. What American is known the world over for his proverbs?
8. What will be the salary of the Governor of Texas in the future?
9. Who is the greatest play wright that ever lived?
10. What is the Spanish word for "gate"?

ANSWERS TO QUESTIONS

1. Henry Clay.
2. William N. Doak.
3. "Los Trabajadores", or "the workers."
4. Thirteen. They are: Venezuela, Colombia, Uruguay, Paraguay, Chile, Argentina, Brazil, Bolivia, Peru, Ecuador, British, Dutch and French Guiana.
5. George Elliot.
6. Andrew Jackson.
7. Benjamin Franklin.
8. \$10,000.
9. William Shakespeare.
10. Puerta.

OUR SENIORS

By Dixie Faught

Miss Hazel Bruton was born at San Angelo, Texas, November, 29, 1913. She lived two years there, then her parents moved to Kariff, a settlement near Eldorado, Schleicher County. They lived there a few years, then moved to a farm about four miles out of the city of Eldorado. She has lived there since. She started to Eldorado High School in the first grade and has remained here until the present time. She is a senior this year and will probably be valedictorian of the 1930-31 senior class, that is, if she continues to hold the lead she now has. Hazel has never failed on any subject since she started to school.

She is a quiet, likable person and has a winning personality. In fact, she is so quiet that she does not even share with any of her schoolmates her love affairs and other hardships. We are sure that she has such "things," because no girl of her personality ever lived seventeen years without falling into some such "trap." If one asks her "Hazel don't you like some man just a little?" she shrugs her shoulders and answers; "No, positively not and I never intend to." Of course that probably a blind or if it isn't she will probably change her mind some day, so don't be discouraged, boys.

-E.-H.-S.-

HIGH SCHOOL TO HAVE INTERCLASS GAMES

Interest has been aroused in having a tournament of interclass basketball games, both among the boys and girls in high school and those in the sixth

and seventh grades. These games will be beneficial both in that they will satisfy the requirements of the State Department of Education that we have physical training, and because an untold amount of fun should be derived from them.

Both the boy's and girl's groups will be run off in the form of a round robin each class playing every other class once. The class having the greatest number of victories at the close of the tournament will be acknowledged winner and will be given twenty points toward the class championship for the year.

Miss Orsborn will act as the referee for all the girl's games, and Mr. Williamson will act in the same capacity for all boy's games. The coaches for the girl's class team are as follows: Seniors, Miss Allen; Juniors, Miss Bradshaw; Sophomores, Miss Turney; Freshmen, Miss Meyer. The coach for the boy's classes in high school will be Mr. Smith, and Mr. Redford will be coach of the sixth and seventh grades, which will compete with the high school classes.

None of the students who are going out for basketball at the present time, or who have gone out during the year, are eligible. Due to the small number of seniors both in the boys and girls divisions, the senior class will have the privilege of drafting one player from each of the other three classes.

These games are to commence just as soon as the weather permits, and will probably last until about the middle of February. All students who are not going out for the regular boy's or girl's basketball team are urged to turn in their names and join in the games for the support of their class. Class loyalty and feeling is already becoming manifest and there is evidence that there will be much close rivalry before the tournament is over.

-E.-H.-S.-

PERSEVERANCE

William E. Pullman, general receiver of customs in the Republic of Santo Domingo, tells this true anecdote and parable about himself and the president of the United States.

Mr. Pullman's narrative is styled as follows:

"Mr. Hoover and I were very much alike up to a certain point. We ran parallel. But there came to be a difference. I'll tell it to you. It explains why he is in Washington and why I'm in Santo Domingo.

"I was born in the Mississippi Valley. Mr. Hoover was born in the Mississippi Valley.

"I went to Oregon. Mr. Hoover went to Oregon.

"I got to Portland. Mr. Hoover got to Portland.

"We were then about 17 years old. I heard of the new university at Palo Alto, in California. Mr. Hoover heard of it.

"Mr. Hoover determined to take the examination for entrance into it. So did I. The examiners came to Portland. They displayed the examinations. I looked them over. So did Mr. Hoover.

"I saw I could not pass them. Mr. Hoover saw that he, too, could not pass them.

"Then came the difference.

"Seeing that I could not pass the examinations I did not take them. Mr. Hoover, seeing that he could not pass the examinations, took them anyway.

"He failed in them. He was not stopped. He went to Palo Alto. He walked onto the campus. He took the examinations again. Still he failed in some of them. He was not stopped. He took them again. He remained and he was graduated.

"I got a job pushing a truck.

"That's why I'm in Santo Domingo and he's in the White House."

Frank Irving Fletcher says: The best pupils become scholars. The best scholars remain pupils.

MRS. M. H. CRABB ENTERTAINS ELDORADO BRIDGE CLUB

Mrs. M. H. Crabb entertained the Eldorado Bridge Club Thursday, January 22 at her home on the stockfarm near Eldorado.

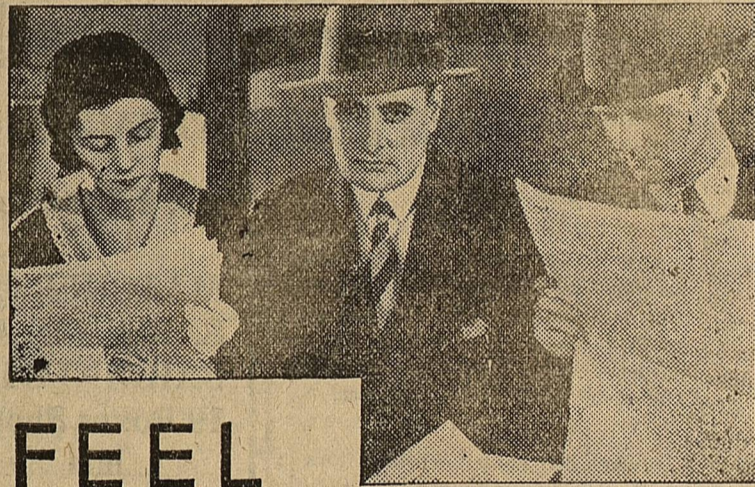

After the arriving of guests, several hands of Contract Bridge were discussed. Delicious refreshments were served to a number of sixteen. Every one out for the prizes which were awarded Mrs. Lewis Ballew high club and Mrs. A. P. Bailey high guest.

Club members present were: Mesdames Lewis Ballew, H. T. Finley, L. T. Barber, Jim Hoover, Tom Henderson, J. C. Crosby, Muller, Terry Crain, Luke Thompson, J. W. Lawhon, and Joe Williams.

Guests present were: Mesdames G. C. Crosby, A. P. Bailey, Richey, B. B. Brittain and Miss Annice Putman.

Max Leaman left Sunday for Austin where he will enter Texas University, he was carried to Austin by his brother Izzy.

Mr. and Mrs. Q. Lyles of Crockett county were visiting friends in Eldorado the first of the week, guest of Mr. and Mrs. E. C. Hill.

FEEL MEAN?

Don't be helpless when you suddenly get a headache. Reach in your pocket for immediate relief. If you haven't any Bayer Aspirin with you, get some at the first drugstore you come to. Take a tablet or two and be rid of the pain. Take promptly. Nothing is gained by waiting to see if the pain will leave of its own accord. It may grow worse! Why postpone relief? There are many times when

Bayer Aspirin will "save the day." It will always ease a throbbing head. Quiet a grumbling tooth. Relieve nagging pains of neuralgia or neuritis. Check a sudden cold. Even rheumatism has lost its terrors for those who have learned to depend on these tablets.

Gargle with Bayer Aspirin at the first suspicion of sore throat, and reduce the infection. Look for Bayer on the box - and the word Genuine in red. Genuine Bayer Aspirin does not depress the heart.

NOTICE

TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINBELOW MENTIONED STREETS OR AVENUES IN THE CITY OF ELDORADO, TEXAS, AND TO ALL OWNING ANY INTERESTS IN ANY SUCH PROPERTY:

The governing body of the City of Eldorado has ordered that the hereinbelow mentioned portions of Murchison Avenue from Main Street to Divide Street, Murchison Avenue from Main Street to Cottonwood Street, Cottonwood Street from Murchison Avenue to Callender Avenue, Gillis Avenue from Main Street to Divide Street, Gillis Avenue from Main Street to Cottonwood Street and Callender Avenue from Cottonwood Street to Pecan Street be paved with three-fourths (3/4) inch premixed Uvalde County Rock Asphalt or its equal on a six inch sledge stone base or, three-fourths inch premixed Uvalde County Rock Asphalt or its equal on a base consisting of six inches of compacted caliche topped with two inches of compacted crushed limestone. Contract for the making and construction of such improvements has been made and entered into with Dexter Construction Company. Estimates of the cost of such improvement for such portion of said streets has been prepared and approved.

The said portion of said streets to be improved together with the estimated cost for such portion of said streets and the amount or amounts per square yard proposed to be assessed against the abutting property thereon on such portions of streets are as follows, to-wit:

On Murchison Avenue from Main Street to Divide Street designated as District No. 2, Murchison Avenue from Main Street to Cottonwood Street designated as District No. 3, Cottonwood Street from Murchison Avenue to Callender Avenue designated as Unit or District No. 4, Gillis Avenue from Main Street to Divide Street designated as Unit or District No. 5, Gillis Avenue from Main Street to Cottonwood Street designated as Unit or District No. 6, and Callender Avenue from Cottonwood Street designated as Unit or District No. 7; the estimated cost of improvement is \$10,000.00. The estimated amount per lineal foot to be assessed against abutting property and owners thereof for Eldorado standard concrete curb and gutters is \$1.12; for

headers \$0.50 per lineal foot; the estimated amount per square yard to be assessed against abutting property and owners thereof for improvements exclusive of curb and gutter is, for three-fourths inch premixed Uvalde County Rock Asphalt or its equal on a six inch sledge stone base, \$1.36; for three-fourth inch premixed Uvalde County Rock Asphalt or its equal on a base consisting of six inches of compacted caliche topped with two inches of compacted crushed limestone \$1.16 per square yard.

A hearing will be given and held by and before the governing body of the City of Eldorado, Texas, on the 17th day of June, A. D., 1931, at 2:30 o'clock P. M., in the County Court House, in the City of Eldorado, Texas, to all owning or claiming any property abutting upon said portion of said streets and to all owning or claiming any interest in any such property. At said time and place all owning or claiming any such abutting property or any interest therein shall be and appear and will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements on the portions of said streets upon which the property abutts and concerning the regularity, validity and sufficiency of the contract for, and all preceding relating to such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the city and under the proceedings of the city with reference to said matter. Following such hearing assessments will be levied against abutting property and owners thereof and such assessments when levied shall be a personal liability of the owners of such property and a first and prior lien upon the property as Street designated as District No. 3, provided by the law in force in the city and under which the proceedings are taken, being the act past at the first called session of the Fortieth Legislature of the State of Texas, and known Chapter 106 of the acts of said Legislature.

Of all said matters and things, all owning or claiming any such property or any interest therein as well as all owners in anywise interested or affected will take notice.

DONE by order of the City Council of the City of Eldorado, this 27th day of January, A. D., 1931.

F. M. BRADLEY, City Secretary of Eldorado, Texas.

FORD MAKES CHANGES

IN BODY TYPE CARS

Twenty-three new body types, designed to meet the specialized needs of various classes of commercial transportation, have been added to the standard line of Ford trucks and light duty cars, the Ford Motor Company announced.

Several of the new trucks and commercial cars already are in production. The others will be placed on a production basis within the next two months.

The addition of the score of new body types, ranging from a smart town car delivery for the use of exclusive shops to police patrols and coal and coke trucks, was made in accordance with the Ford Motor Company's policy of offering a complete line of commercial vehicles to meet all sorts of transportation requirements. There are now more than fifty Ford commercial body types available on the Model A and Model AA chassis. Furthermore the truck chassis may be had in either 131.5 inch wheelbase or 157 inch wheelbase, with or without dual rear wheels, and with a choice of gear ratios.

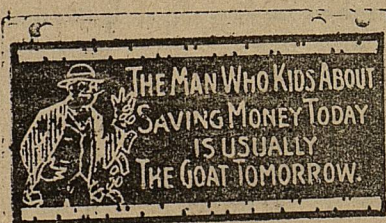

Included in the new offerings mount

ed on the Model AA 131-inch truck chassis are four coal and coke bodies, two garbage bodies, ice body, standard police patrol, de luxe police patrol, panel body, ambulance, funeral coach, service car for garages, stock rack body, express truck with or without canopy top, de luxe delivery, and heavy duty express. On the 157-inch Model AA wheelbase there are a stock rack body, panel body and express body with or without canopy top.

Three of the new Fords are mounted on the Model A passenger car chassis. They are the town car delivery, drop floor panel and special delivery natural wood).

Mrs. A. W. Brooks, home demonstration club member of Fairview club in Harrison county has had from 18 varieties of vegetables in her garden every month of the year. She had seven varieties in December.

Sixteen 4-H pantry demonstrators in Walker County averaged 400 containers of home raised canned products on their shelves this year, and 12 operators among home demonstration club women averaged 328 cans per pantry.
