El Dorado, Schleicher County, Friday, March 15, 1929

No. 11

CHARLES DUBOIS SUCCUMBS AFTER LONG ILLNESS

Was Pioneer Justice Of
Peace and District
Judge 8 Years

C. E. Dubois, 67, one of West Texas' pioneer barristers, who served in San Angelo as justice of the peace when the city was little more than a frontier post, and later was named district judge here for eight years, died Tuesday morning from a complicated illness dating back four months when he underwent an operation in San Antonio.

Mr. Dubois was buried Wednesday afternoon following funeral services at 4 o'clock from the home of Mrs. S. B. Runyon, 225 South Koenigheim Street. The Rev. Elmer Ridgeway, pastor of the First Baptist Church, conducting the services with the Robert Massie Company in charge of arrangements.

Survivors are an only daughter, Mrs. Runyon; a niece, Miss Addie Runyon; a nephew, John Runyon; and a cousin, Mrs. C. J. Wheeler of Marshall Mo. Mrs. Dubois formerly Miss Allie Rawls, whom he wedded Feb. 7, 1892, died here August 21, 1902, and was buried in Fairmont Cemetery.

Judge Dubois came to San Angelo in the early eighties and was one of the first to practice law in this town. He was a member of the peace and justice of the peace and district judge in his office. When the Santa Fe came to San Angelo in 1883, he was admitted to the bar and in 1894 was elected county attorney.

He succeeded the late J. W. Timmins who died in office of district judge in 1916. He held the office for eight years, being succeeded by John F. Sutton on the bench. The late jurist had also served as U. S. commissioner here in the early days, and prior to his coming here had served as a school teacher.

In the pioneer service he rendered here, Judge Dubois had things so arranged he could take care of either county or city offenses. At that time he was both justice of the peace and recorder of the corporation court. When Iro Yates, then city marshal brought in a prisoner, the recorder did his duty. If a complaint

GEORGE WILLIAMS WINS WITH PRIZE SHEEP AT SHOW IN SAN ANTONIO

George Williams returned from San Antonio last week where he had been to exhibit his fine sheep at the live stock exposition. Mr. Williams with his B6type Ramboulet rams qualified as grand champion. In the registered Ramboulet sheep division, he won first place in the class 3 ram lambs entry and third place class 24 lamb flock entry.

Mr. Williams has one of the best bred flocks in West Texas and has no trouble in disposing of his surplus lambs each year, he has always exhibited his sheep at the West Texas Fairs and gets blue ribbons at all of them.

Mrs. A. E. Kent of Eldorado sent last Friday night here with her daughter, Mrs. Alvis Waldrep. On Saturday, Mr. Waldrep took Mrs. Waldrep and Mrs. Kent to Penelope, near Waco, where they will visit Mrs. Dr. Foster for the next week or ten days.

BRIDGE CLUB GIVES SHOWER

At the regular meeting of the Eldorado Bridge Club last week at the home of Mrs. M. H. Crabb, the club showered Master James Brian Roberts, recently adopted by Mr. and Mrs. Sam Robert of our city. Mrs. Roberts returned the first part of last week from Dallas where the child was taken from the Orphans Home. The baby boy is three months old and is assured the best will be offered in this home. Many gifts were given at the party.

was filed by a county officer, Judge Dubois reached for another book and exercised his authority as justice of the peace. He once related that Mr. Yates brought the same man into court twenty times in one day.

Judge Dubois was a member of the Elks Club here and in his late years made that his headquarters, particularly at the time the bowling alley was maintained there. He, the late George Bird, W. A. Wright and Deacon Sharp frequented the alleys, forming a combination hard to beat.—San Angelo Standard.

WINCE MURPHY PAVES WAY FOR WIN OF CUP

Last Saturday the Eldorado High School track team went to Sonora to enter the Invitation Track Meet held every year and offers a large Silver Loving Cup to the winners of the meet. At the last years meet Christoval carried away the cup and almost grabbed it again but was taken right out of their clutches by the swiftness of "Little" Wince Murphy. Wince was high point man with 16½ points to his credit.

The winning of the large trophy all of the boys entering are credited with much help. But the men that are really entitled to the credit and the ones that placed when a point would count are the ones to receive the most credit. In the low hurdles Eldorado had no sure entry so the burden rested on Wince who had not practiced but a few times. Coach Williamson entered him and told him what it meant to win this race and the result was that Eldorado won it easily.

In the relay race, the race that meant the cup, Cicero Swift gave the Eldorado team such a lead that it was very easy for them to win this race and bring home the trophy.

This cup will be kept here until the next meet and it will then be put up again. To win the full possession of it the same school must win for three consecutive years.

The track team next year will fight for and we hope that they will hold this cup and keep the record set by the boys this year. The Murphy Brothers, Glenn Ratliff, Edward Rathf and Roscoe Parker the main entries will not be in the meet next year. The burden will fall upon Cicero Swift one of the best men on the team this year.

There are plenty of good material coming on for the next years meet and we are going to try and hold the cup another year.

This same team will enter the district meet in Angelo and our guess is that some of them will win places and get a trip to Austin to the State Meet.

TWO BILLS TURNED IN BY GRANDJURY

There were only two bills turned in by the Grandjury, both being against E. A. Penn for sheep theft. He was arrested and placed in the jail here. Bond has not been given but set at \$3,000. The trial was continued until the next term of Court.

STREET LIGHTS NEAR COMPLETION.

The street lights in Eldorado are being installed this week and we will have plenty of lights soon.

This will be one of the most beneficial assets the town of Eldorado has. It is a recommendation for any town of its size to have this class of street lighting. The contract was made with the West Texas Utilities Co. some time ago, but they were slow about installing them the reason was lack of power from the Sonora line to run them.

The Utility Co. is installing the lights without cost to anyone with the exception of a flat monthly rate forenergy used. The citizens of Eldorado and Schleicher county should feel grateful toward this company for their service in good helping to give Eldorado these kinds of lights.

Mr. Westbrook, local manager says this will be the best lighted little town in the state, and as it appears now, he has not exaggerated a bit.

We donot know just when the lights will be turned on but at the rate of installation now it will not be but a few days.

ROBERT'S CLOTHING STORE

PROGRAM AT SCHOOL AUDI- TORIUM MARCH 22.

The Public Speaking Class of Mrs. Edwards' will give a program Friday night March 22nd at 8 P. M. at School Auditorium for the benefit of P. T. A. fund. Admission 35c for adults and 25 c for children under twelve.

HIGH LINE NEARS ELDORADO

The High line from San Angelo, being constructed by the West Texas Utilities Co. is almost to Eldorado and will soon be completed, then giving the people of our town all the electricity needed.

The line at present will not support the many electrical machinery that the people would use if they had the strength needed. But after the other line is turned on, the power will come direct from San Angelo, one of the strong stations of the West Texas Utilities and will furnish all electricity needed.

Mr. W. C. Doyle visited relatives and friends in Ballinger Sunday and Monday.

Miss Carrie Brown of Big Lake visited the Finley girls of Eldorado last week.

INCORPORATION TO BE VOTED ON SATURDAY

The day of days for Eldorado is Saturday March 16th, and this will either be the building of the foundation for the growing Eldorado or a barrier built in front to stop the progress of our town. The incorporation of Eldorado is very essential for its forward growth. Every true, progressive citizen should be very strong for the incorporation of our town.

It is true that the incorporation failed at one time but that is a stronger reason why we should re-incorporate and place Eldorado under an organized government. The failing of the incorporation will greatly aid the next one, as the officials can easily profit from the mistakes made during the other term. Their experience will be much greater and their work will be much easier to do.

One may glance around and see the many improvements that have been made in Eldorado without any organization of city government, but just think of the more progressive movements that could be made if we had an organized body. There is no doubt that an organized government is better for town improvement than the individual.

All records of growing show they did not get very far in their progress until they were placed under city government and with progressive men as leaders.

Eldorado is just in its childhood and its growth depends on the people, its growth must be guarded and every possible aid should be given it in order that it will not be a "runt" and looked upon as a dead town with no progressive spirit among its citizens.

Be For The Uppbuilding Of The Town And Vote FOR The Incorporation Saturday.—Adv.

A. L. STEWARDSON TO BUY RANCH NEAR GIRVIN

Mr. A. L. Stewardson and son Billy, returned to Eldorado Tuesday afternoon from Girvin, where they had been to look at an eighteen section ranch that they are contemplating on buying. Mr. Stewardson recently sold his ranch in Schleicher County. They are going back there the last of this week to close the deal if possible.

Mr. Oran Nicks, son-in-law of Mr. Stewardson will be in partners with him and will move there later if the deal goes thru. Mr. Nicks has been ranching in Schleicher County for some time.

Mr. and Mrs. Haywood Bird spent Sunday in Miles guest of Mr. Bird's mother, Mrs. Bird visited her son here last week.

STUDY THE REMARKABLE VALUES

Never before in this town have High-Grade Used Cars been priced as low. Come and see how nearly perfect they are mechanically, and see how they look almost like new in appearance.

PUBLISHED EVERY FRIDAY

A. T. Wright, Owner. L. T. Barber, Editor and Publisher.
Subscription Rate One Year \$1.25.
Entered as Second Class matter July 9th, 1906, at the post office at El Dorado, Texas, under Act of Congress of March 3rd, 1879.

FRIDAY, MARCH 16th, 1929.

Next Saturday is the day we vote on incorporation. Be on hand to vote no matter which way you vote. Let's have a good vote.

The Success is for incorporation but that don't mean that you are if you oppose The Success be out and help defeat it. If you are in favor of incorporation be out and help us put it over.

From the way Wince Murphy stepped out last Saturday at the track Meet at Sonora he must be figuring on entering some of the horse races this summer. Anyway he helped to bring back the loving cup and is wearing the high point medal.

George Williams and his fine sheep at the San Antonio Live Stock Exposition brought back the Blue Ribbons. George seems to know his stuff on the raising of prize winning sheep.

The West Texas Utilities Company are making great headway on the street lights and expect to have them shining by the middle of next week. Then won't Eldorado shine.

The nightwatchman will not have to carry his flashlight around with him when the street lights are turned on. He can see you much farther away.

Now is the time to invest in Schleicher County property. When the Santa Fe comes rolling into Eldorado, land is sure to advance.

The Hoover Democrats must be Republicans since the Legislature said so.

The man who, when he was a little boy, looked forward to the time when he could have a bicycle, a dollar watch and a safety razor, now has a son who won't be satisfied with anything.

Politics is a game usually played behind closed doors. One of the rules is, when you don't agree with the other players, you're out.

The difference between a wet and a dry is the difference between believing that Prohibition causes crime and that crime caused Prohibition.

Even in times of peace patriotic citizens can always join the army of boosters for Eldorado. This army is commanded by General Interest, and it promotes Ma for Good.

Cities that used to have walls around them were no worse than the modern towns which are surrounded by walls of indifference to what goes on outside.

A knocker is a fellow who would rather crack his knuckles on the door of opportunity than push a button to ring the bell.

Saint Paul, Minn.—Nick O. Teen broke the worlds record for indifference yesterday when he had to scrape an onion to cry because his girl turned him down.

Macon, Whoopie.—Leaps and Bounds radio factory soon will start production of a million sets a day of the newly invented radio that automatically turns itself off when the advertising starts, and on again with the music.

SCHELL BROS. TRAINED ANIMAL SHOWS

Schell Bros. Trained Animal Shows come to Eldorado on Saturday March 30, for two performances, afternoon and night, rain or shine. The Schell Bros. show is larger and greater than ever, with nothing old but everything new. The slogan of this mammoth organization is "different, up-to-date and ahead of that."

The Schell Bros. are the most progressive and wide awake men in the snow business; nothing escapes their eagle eye; their name stands for everything that is clean, wholesome, meritorious, glorious and unblemished. Merit and magnitude always considered, suggestiveness and fort of women and children their first duty.

The monster spectacle Sunny Spain is the town talk of every town visited, it is unapproachable in wealth and gorgeous glittering trappings, costly velvet costumesh, sleek and shinging Arabian horses, goats and strange wild animals, glistening gilded chariots, brass band, Egyptian caravans, camels and elephants and funny clowns galore, making a princely display of a Truly Schell Bros. snow is unique in its magnitude of superb entertainment. Leaving the wild animal department, great delight is furnished by an unprecedented long list of European novelty acts. Prof. Edwards' trained ponies are the delight of the children. Madame Rodgers' High School act is most diverting; the Witties in their entrancing iron jaw and human butterfly diversity; The Great Benson, wire walker and acrobat, presents an artistic array of new and novel feats in head and hand balancing; while an imported act of unusual excellence is taht given by Prof. and Mrs. Rodgers with the only horse in the world doing the Spanish Tango.

U. S. Sugar Men Demand Limit on Free Imports From Philippines

Cutting Sugar Beet Seed.

WASHINGTON, D. C.—The beet sugar crop of the United States has shown a falling off of 42,419 long tons in the last eight years, or 4.23 per cent, while the cane sugar production of the Philippine Islands, which is shipped

Fertilizing Sugar Beet Fields.

into this country duty free, has increased by 419,157 long tons, or 163.8 per cent, according to Harry A. Austin, secretary of the U. S. Beet Sugar Association. "Output of beet sugar totaled 927,000 long tons in 1928, compared with 909,419 long tons in 1920," said Mr. Austin. "Production of Philippine cane sugar reached 675,000 long tons in 1928, compared with only 255,848 long tons in 1920. "Free entry of unlimited quantities of Philippine sugar will endanger the American sugar beet farmer's interests and deprive him of a valuable cash crop."

LOUISIANA WINS FIGHT TO SAVE CANE SUGAR CROP

NEW ORLEANS, LA.—Louisiana's sugar cane industry, threatened with complete destruction several years ago, has recovered to such an extent that the state will produce 300,000 tons of sugar for American tables in 1929, according to E. A. Burguières, president of the American Sugar Cane League.

"Recovery of the Louisiana sugar industry is one of the most remarkable achievements of agricultural science," declared Mr. Burguières. "Between 1922 and 1927 the state's cane sugar yield fell from 305,000 tons to only 43,000 tons. Spread of the cane borer and other plant parasites threatened to ruin all sugar plantations.

"Agronomists employed by the American Sugar Cane League discovered in Java a new hardy variety of cane called 'P. O. J.', after the Dutch name of the Java Experimental Station, 'Proestation Oost Java.' The new cane was of high sugar content and heavy yield with strong roots and resistant to disease. "Samples of the new cane, brought to Louisiana by the U. S. Department of Agriculture a few years ago and distributed among planters, prospered in Louisiana soil and resisted attacks of the cane borer. In 1928 about 150,000 acres were planted and the state's sugar production reached 190,000 tons. With increased acreage in 1929, Louisiana's sugar output will again reach 300,000 tons.

"Cuban sugar produced by tropical labor far below American living standards and shipped into this country under a 20 per cent lower tariff than other foreign countries pay threatens to swamp the domestic industry. The only solution for this problem is an increase in the tariff that will enable Louisiana sugar producers to meet the competition of Cuba."

MANUFACTURE OF CORN SUGAR AIDS FARM PROSPERITY

CHICAGO.—Use of corn in the manufacture of sugar and allied products is helping to solve the problem of creating a profitable cash market for the surplus corn production of America's 6,000,000 farms.

Of 2,770,000,000 bushels of corn grown on American farms every year, 87½ per cent is used for feeding live stock. The other 12½ per cent finds its way to the markets, where the price is set which determines the value of the entire corn crop, according to Jay Chapin, secretary of the Associated Corn Products Manufacturers.

"The corn products industry is using 85,000,000 bushels of American grown corn every year," said Mr. Chapin. "Of this about 30 per cent goes into the manufacture of corn sugar. If this great quantity of corn were not used for sugar making it would have to be exported and take its chances for profit in the world market in competition with foreign corn produced at a lower cost than American farmers can produce the crop.

"Greater development of the corn sugar industry would be to the interest of every American farmer growing corn. It would increase the market for his surplus corn, tend to stabilize the prices and add millions of dollars annually to the nation's farm revenue. Elimination of the present discrimination in the federal regulations against corn sugar used in commercial canning and preserving would be an important step in this direction. The use of corn sugar in manufactured food products without being so labeled should be no more of an impairment of the nation's pure food laws than the use of beet or cane sugar for such purposes. The American Farm Bureau Federation recently went on record at its annual convention with resolutions urging that 'corn sugar be given its rightful place in the trade practices of the nation and so provide an increased market for one of our staple crops.'"

"The corn products industry is using 85,000,000 bushels of American grown corn every year," said Mr. Chapin. "Of this about 30 per cent goes into the manufacture of corn sugar. If this great quantity of corn were not used for sugar making it would have to be exported and take its chances for profit in the world market in competition with foreign corn produced at a lower cost than American farmers can produce the crop.

The American Farm Bureau Federation recently went on record at its annual convention with resolutions urging that 'corn sugar be given its rightful place in the trade practices of the nation and so provide an increased market for one of our staple crops.'"

HOUSEWIVES FIND SUGAR COST EASY ON FAMILY PURSE

WASHINGTON, D. C.—American housewives can buy two pounds of sugar today for the same price that one pound cost their grandmothers back in 1876, according to Harry A. Austin, secretary of the U. S. Beet Sugar Association.

"Sugar is the only staple food commodity served on the American table that has not capitulated to the high cost of living in the last generation," said Mr. Austin. "Sugar has actually decreased 50 per cent in price, while the cost of thirty-one other leading food commodities has risen from 60 to 100 per cent.

"Fifty years ago the wholesale price of sugar on the New York market was 13.53 cents a pound. Today it is less than half that amount. "Sugar supplies 13 per cent of all the energy obtained from food consumed annually by the people of the United States, while it costs less than 6 per cent. A pound of sugar will supply 1,820 calories of energy, while a pound of beefsteak, costing from eight to ten times as much, produces only 1,550 calories."

TRACK MEET AT SONORA

High jump—Jennings and Roberts of Lake View tied for first place. Height, 5 feet. Coats (Ozona) for third place.
 100 yard dash—W. Murphy (Eldorado) first; Rogers (Christoval) second; Swift (Eldorado) third. Time 10 flat.
 880 yard run—Bawcom (Christoval) first; W. Jennings (Lake view) second; Stephens (Christoval) third; Elledge, (Ozona) fourth. Time 2:19:2
 440 yard dash—P. Murphy (Eldorado) first; Deland (Ozona)

second; Kyle (Ozona) third; Taylor (Ozona) fourth. Time 21:03
 220 yard high hurdles—W. Jennings (Lake View) first; Bawcom (Christoval) second; Brown (Sonora) third; Swinney (Ozona) fourth. Time 21:03.
 220 yard Low Hurdles—W. Murphy (Eldorado) first; Jennings (Lake View) second; Bawcom (Christoval) third; Roberts (Lake View) fourth. Time 29:02
 Pole Vault—Stephens and Rodgers of Christoval tied for first place. Parker (Eldorado) third; Jennings (Lake View) fourth. Height 8 feet 9 inches.
 220 yard dash—Wince Murphy (Eldorado) first; Swift (Eldorado) second; Jennings (Lake View) third; Lavelle (Junction) fourth. Time, 24:1
 Broad Jump—Rogers (Christoval) first; Lavelle (Junction) second; P. Murphy (Eldorado) third; Brown (Rock Springs) fourth.; Distance, 19 feet 6 1-2 inches.
 Mile Run—Lavelle (Junction) first; Stephens (Christoval) third; Harzke (Christoval) fourth. Time, 5:27.
 Mile Relay—Eldorado Wince Murphy, Ratliff, Swift, Prince Murphy, first.
 Discuss—Browning (Rock Springs) first; McClelland (Sonora) second; Lavelle (Junction) third; Beazley (Junction) fourth. Distance 80 feet, 2 inches.
 Javelin—Logan (Sonora) first; Hubbell (Junction) second; Smart (Rock Springs) third; Ratliff (Eldorado) fourth. Distance 123 feet, 2 inches.
 Shotput—Beasley (Junction) first; Jennings (Lake View) second; Swinney (Ozona) third; Hill (Sonora) fourth. Distance, 35 feet.

FIVE RECORDS BROKEN AT SONORA BY ELDORADO BOYS

Not only did the Eldorado boys win the track meet at Sonora Saturday, but they set some new records for the future teams to try for.
 Wince Murphy attached his name to three records: The 100 yard dash, 10 seconds flat; 220 yard dash, 24 1-5 seconds, and the 220 low hurdles in 29.2 seconds. Prince Murphy set the other record in the 440 yard dash in the excellent time of 54 seconds. In addition to these new records, the relay team of Prince Murphy, Wince Murphy, Ed Ratliff and Cicero Swift set a fast record of 4:01 for the Mile relay. DID YOU SEE? Glenn Ratliff win the first points of the meet for Eldorado by jumping five feet for a 3rd place tie?
 Wince Murphy starting behind the crowd in the 100 yard dash and leading at 50 yards?
 Cicero Swift running four races and place as good as third in all of them?
 Roscoe Parker vaulting 8 1-2 feet to win 3rd place?
 Prince Murphy step that quarter of a mile in 54 seconds.
 Coach Williamson on his toes all the time, giving encouraging advice to his runners, making entries here and there to add a point and how he smiled when when those boys won that relay?
 That relay team beat Christoval 150 yards when they were a point behind?
 Edward Ratliff win a point in the javelin throw to cinch the meet?
 Hayne Graves barely behind a 3rd place in the 100 and 440 even after a night of illness.
 Kenneth Green and Albert McGinty getting experience necessary to win the meet next year.
 The big loving cup that the team brought home from its first track meet?
 Essay Writers Start Work
 Sixteen essay writers are working away, reading and outlining articles from the "Review of Reviews." The essay contest is more difficult this year than it

ASSEMBLY PROGRAM.

The student body gathered in the auditorium Monday morning to celebrate the winning of the cup at the Sonora meet. Mr. Williamson first made a talk. Wince Murphy was High-Point man and Prince Murphy was second high man. There were six Senior boys who took part in the meet; there were only two boys who took part who were not Seniors. Mr. Holt made a talk on the honor and praise due the coach and track team. The student body responded with hearty applause to express their great joy at having in our school such a beautiful loving cup.

SUGAR TARIFF BOOST URGED BY U. S. FARMERS

Farm Bureau Federation Demands Adequate Protection for Domestic Sugar Industry.

CHICAGO.—Recent action of the American Farm Bureau Federation, representing 750,000 farmers, in adopting resolutions at its annual convention here urging congress to increase the tariff on foreign sugar and limit the duty-free entry of sugar from the Philippines and Porto Rico is seen as recognition that the present economic plight of the domestic sugar industry is also a factor in the farm relief problem.

S. H. Love.

"We urge that the situation regarding entry of sugar into the United States be brought to the attention of members of congress without delay," the resolutions set forth, "and we respectfully ask them to use their best efforts to place a limit on the free entry of sugar from the Philippines and Porto Rico to a point which will guarantee reasonable protection to the United States sugar industry; and that the tariff rate against all foreign sugar be increased so as to give adequate protection to this great American enterprise."

Future of Crop at Stake.
 "Future of sugar beets as a profitable American farm crop is at stake," said Stephen H. Love, president of the U. S. Beet Sugar Association. "More than 100,000 farmers in the United States raise sugar beets, from which they realize annually from \$50,000,000 to \$80,000,000, while the beet sugar industry covering eighteen states represents an investment in factories alone of over \$250,000,000."
 "Interests of the farmers who raise the raw materials and the manufacturers who produce the finished product are identical. If the invasion of the United States market by foreign sugar produced by cheap labor under living conditions far below the American standard forces the price of domestic sugar below the cost of production, the American beet farmer and cane grower are faced with competition they cannot meet. Ninety-nine per cent of all the sugar imported into this country is supplied either duty-free from our insular possessions, or enters from Cuba, which enjoys a tariff rate 20 per cent below that paid by any other foreign country."

Cuban Situation Menacing.
 "The Cuban situation is becoming menacing to the domestic sugar industry. This year with a crop restricted to 4,000,000 tons, Cuban raw sugar is selling in New York at 2 cents a pound, or approximately 1 1/2 cents per pound less than it costs the American farmer to produce sugar in the beets even before the process of manufacture has begun."
 "In 1929 Cuba will have no crop restriction and will produce at least a million more tons of sugar than in 1928. The only salvation for the domestic sugar industry is an increase in the tariff sufficient to keep Cuba from dumping this enormous increase on the American market at ruinous prices."

DUTY-FREE SUGAR THREATENS RUIN TO U. S. MARKET

DENVER.—Expansion of the sugar industry in the Philippines at the expense of the beet sugar industry of the United States is the plan of Philippine leaders, who hope to erect a sugar producing empire in the islands rivaling that of Java, with 1,000,000 tons' production by 1935 and a potentially unlimited output in the future in spite of their present statements to the contrary, according to W. D. Lippitt of Denver, an official of the Great Western Sugar Company.
 "Since the introduction of Congressman Thierberke's resolution proposing to limit the amount of Philippine sugar entering this country free of duty to 500,000 tons annually," said Mr. Lippitt, "Philippine leaders have declared that further expansion of their sugar industry is unlikely. Yet only four years ago a statement in the Central and Planters News, the official publication of the Philippine Sugar Planters' Association, predicted a crop of 1,000,000 and commenting on the unlimited possibilities of future exploitation declared, 'Another ten years of development will place us in a class with Java in so far as the production of sugar is concerned.'"
 "Imports of duty-free sugar from the Philippines in recent years have shown the highest rate of increase of any source supplying the United States, while the domestic industry has suffered losses in the majority of sugar producing states. The problem is chiefly agricultural, due to the production of sugar on the islands under low oriental standards of living and wages, with which the American farmer cannot compete."

CHEVROLET SALES CO. NOW CHEVROLET MOTOR CO

O. W. Evans has sold an interest in the Chevrolet Sales Co. to his brother Clarence Evans, and the name of the Company was changed to the Chevrolet Motor Company, with Mr. Clarence Evans in charge. Mr. O. W. Evans goes to Brownwood to reenter the oil business.
 Mr. and Mrs. Carl Brown entertained their friends with a dance Friday night, the Eldoado ochasta finished the music.

E. C. MADDOX GIVEN ONE YEAR IN WHISKEY CASE

E. C. Maddox of Sonora plead guilty to bootlegging whiskey and was sentenced to one year in the State Penitentiary. He was arrested some time last summer when he ran into a car on the highway near Eldorado.

Little Miss Hazel Hudgens of San Angelo is visiting her Uncle and Aunt, Mr. and Mrs. S. L. Wright this week.

Miss Carrie Brown was over from Big Lake the past week end visiting Miss Fay Finley.

Miss Lodice Putman and Mrs. Williams of Big Lake were in Eldorado for the past week end visiting.

Mr. and Mrs. Joe Jackson were in from the ranch Friday visiting and trading.

YES, PADDIE, MY BOY, I WAS QUITE A SAILOR IN MY YOUNGER DAYS. THE OCEAN ALWAYS CAST A SPELL OF ADVENTURE OVER ME. YES SIR, I HAVE SAILED THE SEVEN SEAS AND HAVE HAD MANY THRILLING ADVENTURES!
 OH! GEE! POP! SO YOU WERE A SAILOR. TELL ME SOME MORE, WILL YOU?
 I WAS ONLY SIXTEEN WHEN I FIRST SAILED ON A SHIP AND A BEAUTIFUL THING SHE WAS TOO.

A STORM BLEW UP AT SEA, A TERRIFIC BOLT OF LIGHTNING STRUCK OUR VESSEL, SHE SPLIT IN TWO.

AND NATURALLY WE WERE SHIP WRECKED! I WAS THE ONLY SURVIVOR AND LIVED FOR A WHOLE WEEK ON A CAN OF SARDINES—

GEE, POP, YOU DIDN'T HAVE MUCH ROOM TO MOVE AROUND ON— DID YOU?
 HERE LIES AN ATHEIST, ALL DRESSED UP AND NO PLACE TO GO.

Animal Crackers
 I JUST SAW A STRANGE INSCRIPTION ON A TOMBSSTONE DOWN THE WAY!
 WHAT DID IT SAY?
 HERE LIES AN ATHEIST, ALL DRESSED UP AND NO PLACE TO GO.

has been before; however the work is more interesting and more is to be gained from entering. Carrying off the medal here will be no small accomplishment when competing with fifteen other students.

PAINFUL INDIGESTION

"I SUFFERED a good while before I found something that would help me," writes Mr. E. W. Berry, of Neosho, Mo. "My trouble was indigestion, pains in my chest and a tight, bloated feeling that would make me feel smothered."
"Speaking of this to a friend of mine, he told me that Black-Draught was good for this trouble. I went over bought a package. It certainly did help me, so I continued to use it."
"I am in the transfer business, and sometimes when I would be hungry and ready to eat, I would have a call and would have to eat later. Then I would eat too much or too hurriedly. This would cause indigestion. After I started using Black-Draught, I found it did me a world of good. It is splendid for biliousness and stomach troubles."

Count, Tenn.—Notary Public in annual convention here today passed a resolution condemning income tax payers who cuss instead of swear when having their returns notarized.
A scientist declares life to be possible at absolute zero. There are a lot of absolute blanks running around, too.

The Junior Editor became ambitious last Monday and made an attempt to stop the job press with one of his fingers and as the electricity was pretty strong, the result was that he is now minus one finger nail. But he has been getting out of some pretty hard work this week.

HUNG JURY IN WILLIAMS, GIBBONS SUIT

The case of Gibbons Commission Co, suing Lee Williams for commission on 498 head of mules resulted in a hung jury, eleven in favor of the Commission Co., and one for Mr. Williams. The jury retired about twelve o'clock and after several hours deliberation could not come to any agreement and were dismissed.

IT'S A GIRL.

The Success received word that a baby girl was born to Mr. and Mrs. Clyde Meador. This is the first girl in the Meador family. We have not seen Papa Pecos yet but we imagine that all the buttons are "busted", off his vest. Both baby and mother doing nicely, and we hope Pete will speak to us the next time he is in town.

NOTICE.

I have leased what is known as the old Midway Service Station in Eldorado and am now open for business. Standard gas and oils, Kelly Springfield and Buckeye Tires, and Lube, in fact every thing that goes to make a first class Service Station service and a satisfied customer is our motto. Will appreciate any part or all of your trade. We fix flats.
R. C. MORGAN & SON.

Josh Alexander and Mrs. Alexander were in Eldorado the first of this week shaking hands with old friends and visiting their daughter Mrs. Bailey Montgomery on the ranch in the Rudd neighborhood. Mr. and Mrs. Alexander lived in our community for a number of years and have a host of friends here.

The General Sammons has almost given up the idea of playing golf and has started tennis. He was given some very instructive lessons last Friday and we think that he will improve as he plays.

J. W. Hoover, new president of the Eldorado Golf Club is now ready to play golf right. He went the other day and shot a 39. He will be out more often now trying to par the course.

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Drug stores also sell bottles of 24 and 100.

MRS. O. CAIN, STATE CHAIRMAN OF JUVENILE PROTECTION SOCIETY SPEAKS IN ELDORADO

Title of Lecture: "Juvenile Protection and Awakened Motherhood."

I have just returned from a one thousand mile trip facing Parent Teacher Associations, Welfare Clubs and other educational societies during my tour. In all my audiences I have found some parents and some teachers interested in childhood.

An old school master of Mass., was always observed to remove his hat in the presence of children. When asked what his reason was for doing so he replied: "No one can tell the extent of the future or the nature of the future of these children and it is in honor of them and their lives that I bare my head in their presence."

Twenty years of study of the psychology of youth and home have acquainted me with the conditions in most homes, and up on investigation I have found these conditions to a certain extent to be true.

Some of our delinquent children come from the railroad districts, some from the slums of our great cities and some from the factories. Mothers who live up on avenues are not alone in their need of knowledge for the protection of their children. Each community needs more protection for its youth. In speaking to you I am speaking to people who are awakened to the real spirit of parent hood. Many problems are found in the study of Juvenile Protection as we go into different places that have been bettered. Always we find problems to be solved and questions to be answered.

The Texas Congress of Mothers came into being in response for a definite need for a inner country, better schools, better churches. It is the child's need that leads them into this service. All parents in your community should be interested in your community as a safe place for youth. We find that the Parent Teachers Association is one organization that every one should take an in-

terest in for they are interested in the nature of the child.

The child has a three fold nature: Physical, Mental and Spiritual. Food, exercise and protection are essential to the physical body. Comprehend the child as a mental and spiritual being as well. See the mental and spiritual possibilities in the soul of the child. Do all that is in your power to give the mental and spiritual sides food and protection. Juvenile Protection is an effort to awaken parents everywhere to the mental and spiritual protection of the child.

Education implies body, mind and spirit. We have not begun to comprehend the meaning of mental and spiritual health, they are as important as the physical health. Picture shows are a menace to children of our communities. They tend to destroy the mental body of the child and to tear down the code of morals some of the mothers have spent so long in building up. An education is not made up of books alone but preparation for life. The awakened parent will recognize his or her responsibility in the home and community, they should better the environments of their children in order to build a healthy mental and spiritual body for the child. It is true that some children are made delinquent by the conditions existing in the community in which they live, our children are educated by the environments of our communities as well as by the schools.

We want the fathers to see that the function of the home is character building. It is impossible for the mother to take care of this duty alone, father and mother are necessary in the creation of life both are necessary in the lives of the children. Fathers some times say "I provide the home and the money and clothes for the children—let the wife raise them."

mean everything that home should mean to the child, then you have succeeded well but you have not missed. The mother has to go out and make the world a safe place for her children but the greater responsibility is in the beginning of the child's life. Schools and churches are a necessity to Juvenile Protection but they cannot altogether give the child a clean mental and spiritual body. When we realize that after all the school and churches can do, the child is after all in

your care then we will have better communities. If the home fails then there is no other agency that can make that part good. This lecture given by Mrs. Cain will be continued next week.

C. O. B. was ni fom the stock fam Fiday, telling about the fine fruits he geneally grows on his place, besides growing fruits and crops, Mr. Bruten raises turkeys honey and buys cotton for past time, he believes in diversifying, less than a sport model car, a racoon coat and a million dollar movie contract.

John Gray was called to Rockdale Monday to the funeral of his father who died Monday morning Mr. Gray was about 80 years of age and had been in bad health for several years.

HAWAII WORLD'S PREMIER PRODUCER OF SUGAR TO ACRE

WASHINGTON, D. C.—Hawaii's sugar production reached 804,000 short tons in 1928, setting a high output record for all time, according to the annual report of the Hawaiian Sugar Planters' Association, made public here by Royal D. Mead, vice president.

"Practically the entire Hawaiian production will find its way into American sugar bowls this year," declared Mr. Mead. "The territory has become one of the most important contributors to the domestic sugar industry of the United States."

"Scientific development of cane culture has given Hawaii world leadership in the production of sugar per acre in recent years. Between 1923 and 1928 the output of sugar in the islands has risen from 4.65 tons per acre to 7 tons per acre. Crop improvement work is constantly being undertaken by the Experimental Station of the Hawaiian Sugar Planters' Association on the island of Oahu near Honolulu. Irrigation, fertilization, development of new and heavy-yielding types of cane and control of plant diseases and plant parasites have all contributed to the high development of Hawaii's sugar industry."

"More than \$170,000,000 of American capital is invested in the territory's sugar plantations and raw sugar factories. The value of the islands' sugar crop averages about \$75,000,000 annually."

HARDWARE

HIGHEST QUALITY HARDWARE AT THE LOWEST PRICES

Hardware that stands Hard Wear—the best on the Market—will be found here at the lowest prices. Everything you need. Make a list of your hardware needs, and come here and see how efficiently and economically we can fill them.
