

# THE ELDORADO SUCCESS

OF AND FOR ELDORADO AND SCHLEICHER COUNTY. ALL THE TIME

VOL. XXXII

Eldorado, Schleicher County, Texas. Friday, September 2, 1932.

No. 36

## Schools To Open Next Monday

The Eldorado Public School begins the 36th session on Next Monday Morning, September 5th. At 9:00 o'clock there will be a short program in the school auditorium, featured by short talks by citizens of the community and there will also be several musical selections. After this program the books will be issued and the pupils dismissed for the day. Parents are especially invited to be present on the first day of school and urged to visit the school during the year.

Only two new teachers have been employed in the Eldorado Independent District. These are Mr. J. H. Kelley, of Lubbock, for high school mathematics and Miss Dovie Newman, of Burleson County, for the teacher in the Alexander School. The number of teachers in the district has been reduced this year by cropping one teacher in the Eldorado school. Both the new teachers in the school system this year have had several years of successful experience. Mr. Kelley holds a B. A. degree from the University of Texas and has taught mathematics in high school for a number of years. Miss Newman has taught for a number of years in the rural schools of Burleson County.

The teachers in the Eldorado Independent District are as follows:

- R. D. Holt, superintendent.
- J. Carleton Smith, high school principal.
- Miss Willie Allen, high school English.
- Miss Grace Karr, high school public speaking.
- Mr. J. H. Kelley, high school mathematics.
- Miss Dena Meyer, high school Spanish.
- Miss Mozelle Turney, home economics and library.
- Mr. Dave Williamson, high school science.
- Mrs. Hollis Miller, Eldorado Grammar School.
- Miss Ruth Howell, Eldorado Grammar School.
- Mr. W. P. Terry, Eldorado Grammar School.
- Miss Grace Karr, Eldorado Grammar School.
- Mrs. Payne Robinson, third grade.
- Mrs. Otis Buie, third grade.
- Mrs. B. Watson, second grade.
- Miss Una Lee, first grade.

## Schleicher Drenched Tuesday Night

An all night rain Tuesday night on top of what we have had for the past week, has thoroughly drenched Schleicher County, and especially at Eldorado. A slow rain set in Tuesday evening and continued all night and into Wednesday and the country is wetter than in several months. The farmers will need some real sunshine for the next two months to gather the large cotton crop that is in prospect. Many had planned to begin about the 10th of September, but the rain will probably slow up the opening of the fleecy staple, and continued rainy weather would damage the crop, but with a few days of sunshine ninety days of harvesting the bumper crop will begin.

Additional rain reports. Thursday morning and still raining, 4-1-2 inches has fallen in Eldorado in the past three days, and still raining. The country is almost impassable when off the highway. It looks like now we will need horses to get about.

## E. W. Brooks Store Moving To Parker Building

Mr. E. W. Brooks is moving his Stock of Dry Goods to the W. H. Parker Building this week, where he will have more room and cheaper insurance.

Mr. J. F. Jeter, Reynolds School.  
Miss Blanche Newlin, Reynolds School.  
Mrs. Mary Davis, Mexican School.  
Miss Dovie Newman, Alexander School.

It is expected that the enrollment in the Eldorado Public Schools this session will be large although the high school enrollment is not expected to reach the enrollment of 126 of last year, which was the largest number to ever attend the school. The scholastic census this year is 550 for the district. The budget of the schools have been decreased for this year by more than \$5,000 practically all of which has been saved in teachers' salaries.

## J. A. Ruff Brings First Bale Of Cotton

J. A. Ruff, one of Schleicher County's earliest settlers, was in Eldorado Friday bringing a bale of cotton to be ginned, getting here about eleven o'clock, which was the first bale of cotton to reach any gin in Schleicher County for this season. He carried it to the Luttrell Gin, but did not get it ginned until afternoon.

At three o'clock a Mexican from the J. T. Jackson farm came to The Eldorado Gin and was ginned out at once. He also got his ginning free for being the first bale on this yard, and was the first bale ginned but the honor went to Mr. Ruff, as he came in first.

## Eldorado Defeats Sherwood In Sunday's Game

The Eldorado Independents went to Sherwood Sunday for a game and defeated the Sherwood boys 8 to 5. Which gives the Eldorado Independents the highest standing of the league and onl one more game to play and that is with Rowena and the locals have won over them, and can win the highest place without winning this game.

The Eldorado Independents have only lost one game and forfeited that to Barnhart early in the season, which should not have been done.

The Eldorado team is under the management of L. T. Barber who succeeded Lewis Ballew, when Mr. Ballew moved back to the ranch.

## "Here Comes Arabella"

On Friday and Saturday nights, September 9th and 10th, "Here Comes Arabella" will be presented at the Ritz Theatre at 8:00 P. M. The play is a delightful three-act musical comedy, and is being presented under the auspices of the M. E. Missionary Society. The title role is played by Herma Lee Hooker who is a little orphan child stolen by the gypsies in child-hood. Bob Adair, the artist, who falls in love with Arabella, is played by William McAngus.

Sixteen nobly songs and dances are most charmingly introduced by the graceful chorus girls who are beautifully costumed. About 20 of the kiddies of Eldorado will present "The Ladies' Aid" and "Robin Red-breast" chorus.

The play is being directed by Miss Sally Pippin who represents The Wayne P. Sewell Producing Co., of Atlanta Georgia. "Rosetime" presented here in June, is also a Sewell production. Supporting Miss Hooker and Mr. McAngus are as follows: Sydney Hopewell

- Coach Williamson
- Jack and Bill, College boys
- Alvin Luedcke and Ebon Nix
- Henrietta, Imogene and Creptabelle, Flappers
- Mary DeLong, Elizabeth Ballew, Victoria Jones
- Aunt Pru, Aunt Debby, Bob's Old Maid Aunts
- Mrs. J. D. McWhorter
- Mrs. Roy Andrews
- Uncle Josh, Bob's uncle
- Mr. Frank Bradley
- Village Gossips
- Mrs. Frank Bradley
- Mrs. O. E. Conner
- Mrs. Lark McClary
- Luvinski Jewish theatrical producer.
- Tickets will be sold in advance. Get them Early.

## WILL BEGIN MUSIC CLASS

I will begin my music class with the beginning of the school and would like to get in touch with anyone that is wanting to give their children music.

MRS. H. W. SMITH

J. C. Bullion was in Eldorado Saturday visiting his friend Joe Christian, and meeting other old friends.

## Former Eldoradoan Found Dead In Irion County

Robert Holland age 40, was found dead Sunday afternoon on the Nolke ranch in Irion County, on which he was employed. When he failed to return to the ranch Saturday a searching party was formed and the hunt was kept up until he was found Sunday afternoon. Friend from Eldorado went Sunday morning and joined the hunt and were present when the body was found. The body was found by H. V. Shelby and Boyce Tankersley, Dr. T. R. Morehead was called and a statement of facts was taken and it was found that a razor blade and an open knife was found near the body, and that the throat was cut, also the wrist.

Mr. Holland has been a ranchman in this immediate section for many years having ranched near Sonora where he married and is survived by his wife and a daughter, Roberta. Mrs. Holland was formerly a Word. They moved to Eldorado about two years ago and was associated with Mrs. Holland's brother, W. R. Word, and operated a bakery. They just recently moved to the Irion County ranch.

Mr. Holland was a member of the Methodist Church and the funeral service was conducted by the Methodist pastor at Sonora, where the body was laid to rest Monday afternoon with the Robert Massie Company of San Angelo in charge. Mr. Holland was also a member of the Masonic Order.

Mrs. Holland and Roberta have the sympathy of their many friends in Eldorado in their sad bereavement.

## Sun Eclipse Not Seen In Eldorado

Owing to the heavy clouds and rain Wednesday, the eclipse of the sun could not be seen by Eldoradoans, and the smoked glasses were not needed. The Eclipse was about 46 per cent covered and the only thing noticeable was that the day seemed to grow darker. The partial eclipse covered a period of time from 1.27 to 3.37 and reached the greatest coverage at 2.34.

## TO THE VOTERS OF SCHLEICHER COUNTY

I want to take this means of expressing my appreciation and thanks to each of you for the support you extended to me in the primaries. I wish I could see and thank each one personally for every little kindness.

I run a clean race, of which I am proud, and am glad to say that I have said nothing to hurt any ones feelings or reputation. Very truly yours, Lelah Belle Davis Muller

## TO THE VOTERS OF SCHLEICHER COUNTY

I wish to express my sincere thanks to my many loyal friends for their support in the last primary.

Assuring those who did not vote for me that I have no ill feelings toward them. With best wishes to all, I am Your very truly DON McCORMICK

## W. R. NICKS WELL TO BEGIN OPERATION WITHIN TWO WEEKS

W. F. Meador reports Thursday that the W. R. Nicks well near Eldorado, a most promising test, will begin active work within two weeks, that all papers would probably be passed Thursday September 1st, in fact they are closing the deal and passing papers as we go to press.

Mr. and Mrs. Jess Ramey and daughter, Mrs. Otis Kent, were in the city Saturday shopping and fishing.

## Old Timers Enjoy Party At Wilson Home

Last Friday night many old timers among the older set of our city and community, met at the L. T. Wilson home two miles south of Eldorado and enjoyed the evening in talking, playing snap, and many other old time games, together with some forty-two.

Even our old timer C. C. West was there chasing the ladies in snap, also W. B. Cobb. After about three hours of fun making the crowd all were requested to register and then were escorted to the yard where a Watermelon feast was had. Those who attended were as follows. Mr. and Mrs. Otis Kent, Mrs. G. A. Neill, Mrs. Tishy Pretty Katliff, Mr. Ed Ratiiff, Mrs. Lenard Keeney, Mrs. J. H. Glenn, Mr. and Mrs. A. P. Bailey, Miss Pauline West, Thomas Parson, Lois Carr, Mr. and Mrs. W. B. Cobb, Mr. and Mrs. T. K. Jones, Mr. and Mrs. A. B. White Mr. and Mrs. A. T. Wright, Mrs. O. E. Conner, Mrs. J. L. Shugart, Miss Margarete Kent, Mr. and Mrs. O. W. Wade, Mr. and Mrs. C. H. Taylor, Mrs. Thelma Carver, Mr. and Mrs. T. W. Johnson, Mr. and Mrs. J. C. Carr, Mr. and Mrs. C. C. West, Mr. and Mrs. W. N. Ramsay, Mr. and Mrs. J. B. Christian, Mr. and Mrs. R. L. Sample, Mr. and Mrs. B. E. Moore, Mr. and Mrs. Doc Kerr, Mr. and Mrs. L. Kent, Mrs. Irene Knemeyer, Ray Boyer, Mr. and Mrs. F. M. Bradley, Mr. and Mrs. L. E. Sumner, Mr. and Mrs. Geo. Williams, Mr. and Mrs. Payne Robinson, Mr. and Mrs. W. R. Lewis, Victor Kent, Mrs. E. Boyer, Hassel Ratiiff, Mr. and Mrs. J. M. Logan and children, Delma Logan, Mr. and Mrs. W. H. Clevenger, Mrs. M. A. Doyle.

## Methodist Church To Stage Play At Local Theatre

The ladies of the Methodist Church will give a play, "Here Comes Arabella" coached by Miss Sally Pippin, at the local Theatre Building on September 9th and 10th, two nights. The play will use about 125 local people as did the play recently given by the Presbyterian ladies and will be full of fun for all.

L. Kent was in from the stockfarm Friday expressing thanks for his long prosperous stay in Schleicher County.

## Schleicher County Polls Record Breaking Vote

In the run-off Primary Saturday, Schleicher County voted stronger than ever before in the history of the county, although her voting strength is over 800 votes. In the assessors race there were 785 votes polled, which showed the largest vote of the county.

F. M. Bradley was re-elected County Judge, Don McCormick was re-elected Tax-Assessor, W. N. Ramsay was elected County Clerk, Ovid Wade was re-elected Commissioner of Precinct One, and T. C. Meador was elected Commissioner of Precinct Four. Schleicher County gave Gov. Ross Sterling the big end of the votes being 462 for Sterling against 284 for Ferguson. Sterling lead being 178.

Elsewhere you will find the complete returns of Schleicher county as received by The Success Office Saturday night in its usual way of gathering returns, and which has always proven correct.

## Call Session Of Legislature Met Tuesday

The members of the Legislature met at Austin Tuesday to consider the lifting of the bonded indebtedness of the various counties of the state which had voted road bonds, and place the load on the State to be paid out of the road Highway funds.

Gov. Sterling urged upon them to enact the law and one to remit the penalty on past due taxes if same was paid by Jan. 31, 1933, and then go home. He said the work could be accomplished in a week.

## OUR APPRECIATIONS

We take this means of thanking the voters of Schleicher County, for their confidence they have in me by returning me to the office of County Judge. Especially do I wish to thank those that interested themselves in my behalf, without your assistance and influence my efforts might have failed. I assure you that I am appreciative of your vote and kind words.

F. M. BRADLEY

Mr. and Mrs. H. W. McClatchey were in from the ranch Saturday looking after business and shopping.

 We appreciate any item of news you might know. Call 77 and we will do the broadcasting.

SEPTEMBER 2, 1932

Now since the election is over as far as the people are concerned, we can begin to talk prosperity. Cotton selling at nine cents and wool and cattle advancing. We can at least forget the depression and look forward to that better day.

One only has to be in position to learn the real sentiment of the mothers. This week The Success has had many calls from mothers anxiously awaiting the outcome of the Saturday primary. And when they were informed that the Ferguson were leading, you could almost see their anxiety over the phone. Mothers seemed to be the most interested and especially those that called The Success. As this is written Wednesday morning there is no telling which of the Aspirants will finally be nominated, but as one good mother put it, "Let us pray that the outcome will be in favor of Sterling."

It looks like Wednesday that it will take an official count to find out which of the candidates in the Governors race will be in the lead.

Monday is the day that we all meet at the school building. The one day that the Eldorado Citizens attend the school. Eldorado has always been proud of her schools and by that action has always had a good school.

The Faultless Starch people are running some nice advertising in The Success and will continue on through this month at least. It is a product that is found in almost every home in Eldorado, in fact we believe it is the only kind of starch found in our city, and it is a product that has given universal satisfaction.

### WORTH REMEMBERING

There is only one kind of fire apparatus that can be called inexpensive. There is only one kind that a community is justified in buying. And that kind is simply the best that is made.

There are a limited number of firms making fire apparatus, and nothing else. Their products are called "standard" and are the result of generations of experimentation, developed, progress. To them a fire engine is not simply a truck chassis fitted with this and that piece of equipment. It is the outgrowth of the most painstaking craftsmanship—a craftsmanship which has its eye on quality alone—and the finished apparatus must be a fit weapon to take its place in the war against fire.

A multitude of American communities have suffered serious fire needlessly, because apparatus failed when most needed. A multitude of others have seen potentially destructive fires conquered by first-class apparatus in the hands of a trained personnel. The fire apparatus dollars we spend are returned to us time and again—in greater safety for ourselves and our property.

No community can afford to be without the best fire protection. The only expensive apparatus is that which is second rate. That is worth remembering next time you take a look at your fire department.

OPENING Nursery—I will care for your children for any period of time at a reasonable rate.  
 MRS. VERNON PORTER

Mr. and Mrs. Lennard Isaacs were in from the ranch Saturday visiting and getting election returns.

LOST—Between the Otis Buis and Paul Nixon Farm, a black barrow pig, will pay a reward for information and recovery.  
 OSCAR GIBSON

A. J. Mund was in from the ranch Saturday looking after business and mingling with friends.

## CONNECTICUT CLOCKS AND TEXAS MERCHANTS

Despite the popularity of that editorial ditty which begins "They get up in the morning to the alarm of a Connecticut clock—" there is very really "wrong" with Texas.

And for what little may be wrong, Texas merchants are more responsible than Connecticut clocks. Indeed, if you look deep enough, you may find at the bottom of the condition that is responsible for home-town people sending their money to mail order markets, a home-town merchant who does not advertise in the home-town paper.

Thousands upon thousands of Texas people have good reason for buying away from home. Glance at any number of home-town newspapers and you'll understand. An old time advertising axiom has it: "To sell'em, you first must tell'em." And that is precisely what a lot of Texas merchants are not doing.

When local Texas merchants begin to do a good job of "telling" their home-town people through the columns of the home-town paper, the sluggish streams of business will break through the dams of indifference and begin to flow again. And when Texas people have acquired the habit of buying at home, it will be easier for them to practice the virtue of buying Texas-made products; and when they buy Texas-made products they will be well on the way to espousal of those policies calculated to build an industrial Texas.

When you dig down to bed rock, the thing mainly wrong with Texas is the local merchant who has declared a moratorium of advertising. We can tolerate the Connecticut alarm clock if it will but awaken Texas people to the fact that each new day is another opportunity to put Texas dollars to work in Texas.—Texas Opinion.

### EGG AND POULTRY PRODUCTION SHOULD SEE BETTER PRICES

AUSTIN, Texas, Aug. 30.—Poultry and egg shipments to other states from Texas during July amounted to 96 cars or 16 per cent less than the 115 cars shipped out of the State in July, 1931, according to the Bureau of Business Research of The University of Texas. The decline occurred in poultry shipments which were 30 per cent less than in July a year ago. Egg shipments of 83 cars were 13 per cent greater than the 33 cars shipped in the corresponding month last year.

"Receipts of eggs from other states totaled only four cars compared with seven cars in July, 1932," the report said. "Two cars were shipped in from Oklahoma and one each from Kansas and Missouri."

"Egg prices in New York showed marked improvement during the early part of July, as a result of the relatively small receipts of good eggs; but much of the gain was lost later in the month when the higher prices attracted larger supplies."

"Storage holdings of eggs as of August 1 was much below those of last year. Total case equivalent of both shell and frozen eggs on August 1, 1932, was 9,236,000 cases or 27 per cent less than the 12,781,000 cases on the corresponding date last year."

"While the storage situation is favorable for stronger egg prices an offsetting factor recently has been a relative increase in receipts at the principal markets compared with last year. While receipts continue to lag behind those of last year the difference is not so great as it was earlier in the year."

Mr. and Mrs. Frank Webb had as their guests over the week-end, on the Willoughby ranch, Mr. and Mrs. G. F. Gibson and daughter, Geraldine, of Morris Ranch, Texas. Mrs. Gibson being a sister to Mrs. Webb. And Miss Gladys Mae Hoffman of Menard, who is a niece of Mrs. Webb, and Mrs. John Campbell, of Winter Haven, Texas. Mr. and Mrs. Oscar Gibson also spent Sunday visiting with the Webbs and relatives.

## TEN CENA COTTON before

Christmas is now being freely predicted in market circles. And when it is recalled that the moratorium sent cotton well above ten cents a pound in June a year ago, this is not an extravagant expectation, if in the meantime steps are taken to reach a final settlement of such disturbing postwar problems as the war debts. The moratorium of last year came almost too late, and after the first wave of optimism which it caused, there was a recession. But by October the outlook was getting better again, and by the time Premier Laval visited the United States forces were in operation which, had they not been interrupted, would have started recovery in the Spring. However, they interrupted, and rudely so. Before adjourning for the Christmas holidays Congress adopted a declaration against any further modification of the war debts, and all that had been accomplished by negotiation among world leaders to start things up ward was thus brought to naught. Prices began to slide, and on June 9 last cotton reached five cents a pound on the New York market. In other words, in less than a year, from June 27, 1931, to June 9, 1932, middling spot cotton on the New York market went down from 10.35 cents a pound, where the moratorium had put it, to five cents a pound. And the chief influence in bringing about this dire result was the action of the American Congress in closing up the moratorium by making some adjustment of the war debts. The object of the moratorium was to give time for such an adjustment, but the gentlemen of Congress, including most of the saviors of the farmers from the cotton-belt, ruled otherwise. And all of the distress and privation of the South, which the difference between 10.35 cents a pound and 5 cents a pound for cotton meant, is chargeable in great degree to the political wisdom of those same gentlemen. The question of whether we are to have ten-cent cotton or better by the end of the calendar year is now very largely a question of whether we are going to have some of the same brand of political wisdom next December when the question of the debts is up again. The only thing that can prevent a repetition of the performance of last December is an aroused public opinion in the South, militantly expressed to such an extent as to compel Southern statesmen to represent the true interests of the South and of the Nation instead of raising the narrow, ignorant, and demagogic cry of "make the foreigners pay."—Texas Weekly.

### FOR RENT—Two large rooms. Apply at SUCCESS OFFICE.

J. C. Johnson was in from the farm Saturday buying supplies.

## NEW OIL STRIKE ON UNIVERSITY LANDS

AUSTIN, Texas, Aug. 30.—There are prospects for another potential oil field on land owned by The University of Texas, according to information received here. Upon a block of 80,640 acres of land belonging to that institution in Ward County, a test by Renaud & Prettyman penetrated the pay sand at a depth of 2,684 feet and made an initial showing of 72 barrels hourly. This is the first producing well to be drilled on University land in that county. In Andrews County where there is located a block of 294,400 acres of land belonging to the University some oil has been found and later developments may prove-up some of that acreage, operators believe. It is from the Big Lake field, on University land in Reagan County, that most of the oil has been obtained that has brought millions of dollars of revenue in the form of royalties to that institution and the A. & M. College. The block of land owned by the University in that county embraces 194,560 acres, comparatively little of which has been explored for oil.

 J. L. RATLIFF

### THE GOVERNMENT PRINTING RACKET

The United States Government scatters approximately 300,000 pamphlets, documents and bound books over the country every working day.

In the 1931 fiscal year the Printing Office issued almost 3,500,000,000 copies of printed matter. It is now doing still better. In the six months following July 1, 1931, the amount of type set was 129,000,000 ems greater than in the same period the previous year.

This is at a time when taxes of all kinds have jumped, in the face of a lowered national income. The government printing department offers a fertile field for some real and needed economy.

### Bad Taste in Mouth, Sour Stomach

For quick relief from constipation troubles, such as are mentioned below, get a 25-cent package of Theodor's BLACK-DRAUGHT and begin taking it today.

"I have suffered a great deal from biliousness and constipation," writes Mrs. D. C. Jones, of Waterloo, Ala. "When I get bilious I have a bad taste in my mouth, have sour stomach, my color is bad, and I get dizzy and feel awfully bad. I have headache constantly. When I take Black-Draught it relieves me and I feel like a new person. I don't think there is a better medicine than Black-Draught."  
 Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

### ACTION—NOT SIGNATURES—NEEDED

In an editorial in its weekly publication, the Dairymen's League Cooperative Association of New York points out that the signing of a contract does not achieve organization. The contract is simply an indication of a desire to cooperate with other producers. The real test comes afterward.

The Dairymen's League is in a good position to know what is talking about. It is being bitterly opposed in its effort to perfect its organization and enlist more dairymen in its territory in the movement to put agriculture on a higher plane. The contracts that have been signed by its members mean only part at a time like this—what counts most is the amount of effort and loyalty the individual farmer gives to the cooperative. As the editorial says: "The success of a cooperative organization does not depend so much upon what is put into a contract . . . as it does upon what the member puts into the organization after he has signed. . . ."

The cooperative movement in the New York Milk Shed will succeed or fail, to precisely the degree the members stand behind the organization. So will any other cooperative, anywhere, dealing in anything. A multitude of economists, public officials, farm leaders, and industrialists have pointed out, time and again, that cooperation is the farmer's salvation. It is now up to the farmer to do the rest.

Mrs. Putman, who has been in San Angelo for several weeks with her son Clarence, who underwent an operation for appendicitis, have returned home, coming in Monday. Mr. Putman is much improved, but not entirely over the operation.

### TEXAS MATERIALS TO BE USED ON TEXAS HIGHWAYS

Texas sand, gravel, stone, cement and asphalt are to be used in the construction of Texas highways, according to recent order of the State Highway Commission. It follows an order that only Texas-fabricated steel shall be used in Texas highway and bridge construction.

Oren Nicks and family of Fort Stockton were here the past week end visiting friends and looking after business.

Hal Ramsey and family were here Monday visiting Mrs. J. D. Ramsey, Mr. Ramsey's mother.

### SEVEN YEARS OF RAILROADING

A Statistical Railroad Summary for 1925-1931 has just been issued.

The principal deductions to be gained from it are that the rails have steadily lowered their cost of operation, have made remarkable progress in achieving further economies, have increased the speed and efficiency of operation, have advanced the safety of both passengers and employees—and have seen their earnings drop lower and lower.

Many, many moons have passed since the rails were able to earn the 5-3-4 per cent on their investment, held to be a Fair Return by the Transportation Act. Not since they were returned to private hands after the war have earnings been that high. During the first six months of this year, for example, their earnings were at the average rate of but 1.01 per cent on their investment.

How long this state of affairs can continue has been a burning question for several years. Either we give the railroads a fair deal, by subjecting their competitors to the same type of regulation as we subject the railroads, or the future of transport is black indeed.

If the railroads go to the wall the public will be the principal sufferer—and it will suffer plenty. No industry is more necessary to our social and economic well-being. Mr. Average Citizen should realize that he is vitally interested in this situation.

Sam Kellen, and Dewitt Cage, two earstwhile gentlemen, of Robstown and Kingsville, were in Eldorado Tuesday, on a tour of West Texas, looking for a location to buy cotton, and dropped in to see The Success editor, and were amazingly surprised to find such a fine city as Eldorado. They had read in The Success where we were going to harvest a bumper crop and after coming over from San Angelo, they wanted to know where the cotton section was. They had been to Brady and Brownwood, at which they will probably locate in the near future.

If these gentlemen could have stayed over until daylight and took a good look at this section it is doubtful if they would have ever gone back after their families, for when a man once gets to the land of Paradise he wants to stay and send for others of his friends.

Marion Owens was in from the farm Saturday attending the election and buying supplies.

George Caraway was in from Station A Tuesday, came in to the ball game, but Winters did not show up.

### ON TEXAS FARMS

By W. H. Darrow,  
Extension Service Editor

C. L. Beason, county agent of Brazos county, tells a good one. A 4-H club boy attending the annual short course at College Station found that his one and only shirt was too dirty to stay longer, so he walked home 10 miles, had the shirt washed, and walked back again to take in the program. The boy won the right to represent his club by the excellence of his corn demonstration.

Of the 30 Wichita county farmers cooperating with the county agent in raising alfalfa by demonstration methods, Fen-ton Dale of Iowa Park reported the highest July yield with 3,500 pounds of hay per acre on 5 acres.

Soy beans continue to spread throughout the State, especially in East Texas, in the wake of demonstrations conducted by county agents for several years. The experience of J. H. Hauges of San Augustine county is typical of many. He harvested 11-4 tons of soy bean hay per acre from a 2-acre demonstration and finds his dairy cows relish this high protein feed.

For three weeks a canning laboratory equipped by a civic organization in Munday has been in use 24 hours daily by women who do not have canning equipment in their homes. The work is supervised by home demonstration club women.

The burner from an oil burning chicken brooder was brought into the house by J. J. New of Wharton county to furnish an additional stove for the use of his wife during the

### Relieves Women's Pains

Here is an example of how Cardui has helped thousands of women: "I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day. "My mother had taken Cardui, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardui, the purely vegetable medicine which so many women take and recommend, is sold by local druggists.

### IDAHO WOOL CLIP SELLS AT 13 CENTS

SHOSHONE, Idaho, Aug. 30.—A price for wool claimed to be the highest paid this year in Idaho was received here today for the half million pound clip gathered from this territory.

The price was 13 cents, almost double the seven-cent price offering at shearing time. Eisman and Company of Boston made the purchase from D. Sid Smith, the Gooding clip, Ben Darrah and others in the vicinity.

Some local wool men are holding their clips in expectancy of a 20-cent price within the next few weeks.—San Angelo Morning-Times.

Mrs. Thelma Carver, of Barnhart, was visiting Mr. and Mrs. C. H. Taylor the first of the week.

Mr. and Mrs. Tommy Redford were in from the ranch Saturday, shopping.

Mrs. R. A. King was in from the ranch Saturday shopping and visiting.

Buster Dickens was in from the Dicken's stockfarm Saturday.

busy canning season. The idea proved good. \*\*\*

Canning more than 500 containers of vegetables on halves for other people has supplied Mrs. C. E. Marsh, Menard county home demonstration club member, with enough money to buy paper and lumber to finish a bedroom for her boys.

## Sterling Men Threaten To Jump Party

If Fergusons Wins Many Likely To Back G. O. P. Nominee

(San Angelo Morning-Times) Threats of a bolt in Texas Democratic party ranks are being made as Mrs. Miriam A. Ferguson's lead mounts in the gubernatorial vote count. If Mrs. Ferguson is awarded the party nomination many Sterling supporters appear likely to jump the party so far as the state governor's race is concerned.

Of approximately 30 Sterling supporters interviewed in San Angela Tuesday, all but one or two vehemently asserted they "would vote for the Republican—if it is necessary to prevent another Ferguson regime."

One Sterling campaign leader said he intends to mark out the name of both Mrs. Ferguson and Orville Bullington, her Republican opponent, if those names are on the ticket in November.

In one group, eight men declared simultaneously that they probably would "go Republican so far as the governor's race is concerned next November."

All hoped that something would happen "so we won't have to bolt, however."

### A TIP FOR ECONOMY SEEKERS

(This Week's Opinion)

Should a six-year-old child be sent to school?

Upon the answer to that question hangs a saving of several million dollars to the taxpayers of this state. "There never was, and probably never will be, a school that can do as much for a six-year-old child as its parents," declares the Bonham Daily Favorite, and concludes: "In our humble opinion, the schools never were intended to be used as nurseries."

"It is a fact," concedes the Texas Outlook, official organ of Texas teachers, "that we are wasting more money in our effort to instruct children prematurely in the public schools than we are wasting in all other school efforts put together."

The state of Texas contributes \$17.50 to the education of each six year old child. Common and independent school districts dig deep in their pockets to add a tremendous sum to the state apportionment. Yet the teachers call this expenditure of effort and money "waste."

Million dollar savings do not grow on trees. Neither do precious, little, six year old boys and girls. If the teachers are right, why not conserve the children and the money, too?

The Bonham newspaper and the teachers' magazine have provided the legislative economy bloc with a valuable tip.

### TRANSPORT FACTS

There is, as a rule, too much prejudice and not enough logic in discussions of the transportation problem.

It is an inescapable fact, no matter how much is said concerning the decline of the railroad, that rail transport is the backbone of the nation's industries.

It is also a fact that there is room for buses, trucks, waterways, oil pipe lines and other means of transport. The problem is how to correlate these agencies so that each may be run on a profitable basis and serve the shipping and traveling public well.

The public interest is the main thing at stake. The people want fast, economical and adequate transport, at reasonable rates. They want great industries, such as the railroad, to maintain a high standard of purchasing and employment. Until the national government perfects a transport policy that affects all interstate carriers impartially in regulation and taxation, the public interest is not served and the stockholders and employes of the railroads are unjustly discriminated against.

## Only One Time To Be Educated

By H. W. Stilwell

It is perhaps wise for any individual today to postpone any activity that can be put off, and by the same token it is perhaps a part of wisdom for communities to postpone for awhile all enterprises that can be left to the future. As an individual householder, I can very easily delay building an addition to my home, setting out shrubbery, or buying any new furniture; for next year the addition can be built to the same part of the house that I might have in mind now, or the shrubbery planted on the very same spot of ground that I now contemplate beautifying, or the new pieces of furniture set in the same rooms that in my opinion now need new furniture. Likewise a community can one year from today, or even ten years from today, put down a piece of pavement on identically the same ground that needs it now, or erect a building on the same site that is now in mind. But as a householder, I cannot put off feeding my children; for if I do not feed them this year, next year they will not be here to be fed. Nor can the community neglect today to educate its children; for if the present day child is not educated today while he is a child, he will have passed on from childhood into the responsibilities of mature life without adequate education.

Childhood has always been considered the time for training the young. If the child of this generation is not trained, the adult population of tomorrow is ignorant. There will be other children tomorrow, but the child of today is only a child today.

Education, therefore, is a duty which no generation can neglect. No parent can for any moment feel that he can let any one of his children grow up in ignorance, and every parent is willing to make any sacrifice whatever for the education of his child. The parental heart always prays the prayer of the Trojan Hector: "O Zeus, grant that my child may grow up to be a better man than his father."

Cities, communities, and school districts are made up of parents who love their own children. They will not knowingly permit the future of their child to be blighted with the curse of ignorance. They will not, unless blinded by carefully concealed designs, permit material interests to be placed above human rights of their own flesh and blood. Since this is the only time that their children will ever have to get an education, they will see to it that the schools are kept open and their efficiency unimpaired. They will be perfectly willing to postpone until a future date any private or public enterprise that can be left to the future, but they will not permit their children to suffer physical hunger in their home or mental and spiritual starvation through the closing of schools in their communities.

### TOO MANY SADDLES

(Sterling City News Record) Two young men driving a dilapidated model T. Ford dropped in here last Sunday and offered to sell two second hand saddles very cheap.

Suspecting that something was wrong, Sheriff Vern Davis and Constable W. Y. Bengel held the young men for questioning. Their answers to inquiries not being satisfactory, Sheriff Davis phoned to the sheriff of Sdurry County the facts in the case, who in turn phoned to the sheriff of Fisher County and found that someone near Roby had two saddles missing.

Officers from Snyder and Roby arrived here in the afternoon and took charge of the young men and carried them to Fisher County on a charge of theft of the two saddles.

The Ball Brothers plant at Wichita Falls has resumed operations after a shutdown since January, giving employment to 100 workers. The unusual amount of vegetable canning in Texas this year is expected to create an exceptionally heavy demand for the output of the plant, glass jars.
