Eldorado Slugs Way Into League Win By Defeating Rowena 11 To 5

The Eldorado baseball team batted its way into the league leadership last Sunday by trouncing the strong Rowena team 11 to 5. Ratliff led the attack with four safeties out of the same number of trips to the plate. Isaacs was next with four out of six.

This win gave Eldorado undisputed championship in League No. 1. The Red Roosters of San Angelo won League No. 2 and a five game series between the two winners will open with a double header at San Angelo next Sunday. These games promise to be real games as both teams will reinforce some, and especially on the mound as the first four games are to be double headers. Duke will probably start the opener for the Roosters. He is one of the ex-Herder twirlers and holds a fair rep as a pitcher. The starting pitcher for the Eldorado boys has not been given out yet.

First Inning
Ratliff, leading off hit for two bases to right field. Isaacs followed with a drive to right center for two bases, scoring Ratliff. Williams struck out. Gardner got a base on balls. Barber grounded to second and was tossed out at first, both men advancing. McLeod doubled to left center scoring Gardner and Isaacs. Bailey grounded out, short to first. Three hits, three runs, no errors.

Kettler, first man for Rowena went out pitcher to first. Schumann went the same way. Feist grounded out third to first. No runs, no hits, no errors.

Second Inning
Hudson singled past third. Ard was given a base on an error. Ratliff sacrificed, both runners advancing. Isaacs got his second hit of the game, scoring Hudson. Williams popped out to first. Gardner hit a high one behind short which was dropped, scoring two men. Barber grounded out, second to first.

Three runs, two hits, two errors.
Rosser first man for Rowena doubled and went to third on Zentner's pop fly which was dropped in right field after Gordon struck out. Cooper walked filling the bases. Rosser scored on J. Zentner's long fly to right. Pohler walked, again filling the bases. Kettler went out on strikes.

One run, two hits, no errors.

Eighth Inning
Haynes led off with a long single to center and went to second on Ratliff's sacrifice. Isaacs flew out to right. Williams went out to center.

No runs, one hit, no errors.
Rosser hitting for Pohler flew out to left. Kettler singled to right but was forced at second on Schumann's grounded. Schumann stole second. Feist lifted a high to left for the third out.

No runs, one hit, no errors.

Ninth Inning
Eldorado went on another spree in the ninth and scored four runs. Gardner walked, Barber bunted safely down first base. McLeod also reached first on a well placed bunt, filling the bases. Bailey singled to center scoring two. Hudson moved McLeod and Bailey up on a sacrifice to third. J. Ballew hitting for Haynes struck out. Ratliff got his fourth hit for the day scoring two runs. Isaacs also got his fourth hit but the ball hit Ratliff going to second retiring the side.

Four runs, five hits, no errors.
Rowena went out in easy manner in their part of the ninth. Rosser grounded out third to first. Gordon rolled easily to the pitcher and the third out by Zentner was a easy roller to Williams at sec-

Sterling Takes Vote Contest To Courts

Gov. R. S. Sterling filed a suit in Austin Tuesday to contest the votes in a number of counties at the recent August election, in other charges he alleges that Mrs. Ferguson is not qualified to take the oath of office, and signs the constitution of the State in the petition. The suit was brought in Judge W. F. Robertson, in Travis County. Many illegal acts were cited in various ways and in many counties, negroes were allowed to vote in four counties, and that people were brought in from other states to vote in Texas.

The court proceedings will probably be pushed for speedy action and if the allegations are true some heavy penalties should be administered and Ross Sterling should be declared the nominee.

RETURNED FOR WORK

Miss Estelle Cocke of the School of Fine Arts, in San Angelo, who taught expression here last year, has returned for her second year's work in Eldorado. She spent the past summer in Dallas studying this special work. She is offering a class in dancing for all who take expression work with no extra charge. She is teaching at the home of Mrs. D. E. DeLong and if she has not seen you personally and you are interested you may find her at DeLong's any Monday or Thursday.

Schleicher Cotton Crop Not Damaged Much

With the sun out for several days, the bumper cotton crop in Schleicher County will soon be in the making. It is not thought that the recent rains have damaged the crop very much. The Success predicts that Schleicher County will gin more cotton this season than last, not less than 6,500 bales will be ginned in the county, but with the crop being short all over the country the crop will be a short one according to government reports. If the sun shines all this week the gins should be running next week almost steady and within two weeks it should be a day and night proposition to keep the crop moving. Many of the farmers think they will get at least three fourth bale to the acre.

LIONS CLUB TO MARK STREETS

At the regular meeting of the Lions Club Wednesday a committee was appointed to see about getting the streets in Eldorado marked off in parking spaces, to be used for having the public to park in a proper way and at the same time increase the parking space by all parking right and at the same angle.

Judge Bradley also reported that he had received some flour from the Red Cross Association for distribution among the needy of this county, and Don McCormick was appointed to assist him in disposing of it to worthy ones in need.

The Boy Scout work will be up for discussion next Wednesday at the regular meeting. Lion Jarvis suggested a downtown rest room for ladies during the next three months.

CARD OF THANKS

To any and all who in anyway helped to make "Here Comes Arabella" a success, we extend our sincere thanks. The net sum of \$78.56 was realized, made possible, only through your hearty cooperation.

Fourth Quarterly Conference Held Sunday Night

Rex. S. L. Batchelor, Presiding Elder of this district, was here Sunday night and preached a fine sermon at the Methodist Church. At the close of which he held the fourth quarterly conference, and the various reports indicated that there will be a considerable shortage in finances on this years work. The conference adjourned to meet later and complete the work as there is almost two months before the annual conference. This conference was rather unexpected at this time as the church had no previous announcement of the meeting.

Jury List Selected Friday

Judge Sutton came out Friday and opened District Court and named a jury commission, who in turn selected a jury list for District court. This was not done at the regular term of District Court, as the court adjourned to remeet, and this is the first session after it adjourned, Sheriff Conner got busy Saturday and had most of the jurymen summoned by night. The list can be found in this issue of The Success.

SEPTEMBER 16, 1932

The dove season is now open and lots of doves to be had, if one can find the money to purchase the ammunition.

The Literary Digest is again taking a poll of the Presidential candidates to see in advance who the winning man will be, but in these times when people can bolt the party ticket and then come back and get a nomination on that ticket, doesn't count much. The more you can say mean about the party seems to be best assurance of the party liking you. And again it is several moons before the presidential election and a fellow might belong to several parties by that time, so what will the Digest ballot amount to if either candidate should get the most votes this early in the game.

Some anxiety prevailed in Eldorado Sunday when the Sunday Morning-Times brought out the accidental death of a 20 year old boy near Rotan which was found dead by the railroad track. The friends of Denis Rodgers and also those of Wallace Davis, knowing that both boys were away from home became uneasy, thinking that it might possibly be one of them as the dead boy had a milk stopper or cap with Eldorado on it in his pocket. Mr. Rodgers put in a phone call to Rotan and learned that it was not his son. It developed later that the boy was from Eldorado Arkansas, and was identified Monday.

With a sunshiney week this week cotton picking will begin in earnest next week and when the gins begin to run day and night, business is bound to pick up to some extent. The recent rains have not brogum much damage to the cotton crop here as far as we can learn, and will probably mature a top crop and many bolls that would not have matured without it. It has delayed the opening of the cotton for several days but has not done any considerable damage.

The Success is glad to report that Terry Crain, who has been confined to his home for the past three weeks, was able to be down town Monday, and his many friends sincerely hope that he will soon be back in his business to stay.

A wheel ran off of Ray Alexander's Ford Tuesday morning while making a turn in Main street, but no one being near Ray had no trouble in steering the car to the curb without damage to anyone.

As the world passes on one can often witness sights he never sees before. Last Saturday a man and woman came into our city, the man drawing a small wagon loaded with bedding and other items, with the woman pushing from the rear. They at once summoned help and thru sympathy got it. After being here a few days, some one gave them a horse so they could move on, but we understand they refused to take it. They seem to have no where to go and had nothing in view for the future. They were satisfied to be fed by the public. Saturday morning they moved down Main street going back north from which they came. The good book teaches that this kind will be with us always, and whensoever ye will ye may do them good, but this country is not accustomed to meeting such instances every day and such cases generally fare well. The County and city should have, and have had a fund for such purposes and these cases should be taken to them, where they could be cared for in case they needed it and were worthy of help. In some instances they are in better condition than the ones trying to assist them, and in some cases they do not want anything and make no effort to get anything, we had them of old, we have them now, and we will have them while the world passes on.

BAPTIST CONVENTION DATES CHANGED

The Executive Board of the Baptist General Convention of Texas meeting in Dallas, September 13, voted to change the date for the meeting of the Baptist Convention from November 9 to November 16. The Convention voted last year to meet in Abilene in 1932.

Plans were completed for the raising of \$600,000 for missions and benevolences by means of the Every-member Canvass Campaign now in progress among the 490,000 Baptists of Texas. Dr. J. Howard Williams, Executive Secretary of the Board, was placed in charge of the campaign, and he has appointed seventeen organizers in as many districts representing every portion of Texas.

The campaign will continue until October 30. The final week October 23-30, is designated as pledge week, at which time every Baptist in the state will be solicited for a pledge to the \$600,000 fund.

The money raised by this campaign is to be used by the Baptists for their work of missions and benevolences; every Baptist institution is to share in the funds, whether it is in Texas, in China or elsewhere. The proportion of the funds to go to each institution will be worked out at the meeting of the State Convention to be held in Abilene November 16.

Willie Isaacs was in from the ranch Saturday mingling with friends.

Saturday was a real sunshiney day, the first in several days.

With a few weeks of clear weather the cotton crop of Schleicher County (will begin to move to market.

Its hard for a Texas Legislature to redistrict the State when the job they hold will be put in jeopardy, consequently the people who are entitled to representation must do with out until some future day, when justice rises above selfishness.

West Texas was entitled to three additional congressmen and got none, out of the Congressmen at large races.

Another rise in the Rio Grande at Presidio Monday washed out the international bridge there, the rise came from the Mexico side of the Rio Grande.

Garden Of Experience

F. G. CLARK.

Next to the church, the public school is our richest asset.

The welfare of a country is underbraced by two factors: 1. Morality. 2. Intelligence. The first is achieved thru the church and the second thru the public school. Of these morality is the more important, because it directs the use of intelligence. Education is the sharpening of the tools with which man is equipped for service, but if he is immoral, he will turn these sharpened tools to destructive uses rather than constructive. and thus become a menace to society rather than a help.

His moral bent should be considered first and his intellectual equipment second. The more highly you educate a rogue the more serious menace he becomes to society.

Popular education determines the general level of a nations intelligence, and this enables our leaders to achieve effective results. A great leader can accomplish but little, unless he has followers who can intelligently follow him.

Russia has produced great leaders like Peter the Great and Tolstoi, but the great mass of the common people were not prepared, educationally, to follow them when eighty per cent of the people are illiterate, the only hope of the nation is to organize a public school system and thus remedy the defect.

An ignorant people are helpless and hopeless. An ignorant people are like a tethered cow, who has wound herself about the stake, until, with her head touching it, she can but bawl her helplessness. If you unwind her she will immediately proceed to nulify your help, by winding up again. What is the permanent remedy? Why, intelligence enough to unwind herself. And this is real education for the cow. We human beings, in this depression are in much the same fix as the above cow. We have wound around the stake until we are unable to reach the lucious grass that is growing all about us.

Oh! for intelligence enough to unwind. To acquire this intelligence, the public school is our only hope.

Jess Ramey and Mrs. Otis Kent were in the city Saturday shopping and looking after business, with Uncle Jess wearing prosperity smiles.

STATEMENT ISSUED BY ORVILLE BULLINGTON, CANDIDATE FOR GOVERNOR ON REPUBLICAN TICKET, AT WICHITA FALLS TEXAS, SEPT. 10, 1932

I have repeatedly said, in view of the menace which now threatens Texas, that partisan politics must be adjourned. Although I am a Republican, I am a Texan first, and I would despise myself if I allowed any consideration of personal or partisan advantage to influence my course in the chrisis which now confronts our State. My sole desire is to save Texas from the calamity which threatens it, and I am ready to make any sacrifice to that end, and I want to cooperate in every possible way with those who are working to accomplish the same purpose.

Woodrow Wilson was right when he declared that political parties can have no legitimate purpose except to serve the public welfare.

I am proud of the fact that the people of Texas have demonstrated on many occasions that they put principle above party. It is my desire to work with such Texans and to make no selfish advantage either personal or political, because of the situation which we now face.

I am as much of a Southerner as any other Texan. For many generations my people have lived in the South. Both my grandfathers were Confederate soldiers. Naturally, as one who loves Texas and its people, I would feel greatly honored to be chosen Governor, but my election cannot be and will not be considered a party victory, but it will be a victory for civic righteousness, and for honesty and responsibility in Government.

Those who love Texas are willing to forget political and factional differences long enough to unite in a crusade to save their State.

W. L. Isaacs was in from the ranch Saturday wearing smiles. The ranchmen are beginning to get those good old pleasant looks back since we have had plenty of rain, and the stock business is again getting to be a respectable business.

Black-Draught Clears Up Sluggish, Dull Feeling

"I have used Theford's Black-Draught for constipation for a long time, and find it gives relief for this trouble," writes Mrs. Frank Champion, of Wynne, Ark. "I think it is good for spells caused from gas on the stomach. If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use we would not exchange Black-Draught for any medicine."

NOTHING else but FEED makes MILK. The quantity and quality of your milk production depends almost entirely upon what you feed your cows. "Cheap" feed might fool you—but not your cows. The best feed is always cheapest in the end—because it produces MORE and BETTER MILK.

ON TEXAS FARMS

By W. H. Darrow
Extension Service Editor

After saving \$600 on grocery bills in the last year by cutting food expenditures from \$60 per month to \$6, Mrs. R. C. McFarlane of Port Neches Home Demonstration Club explains her system. "We have 58 varieties in our year 'round garden that cost us only \$10, and I will have over 500 cans of food when the season is over. We buy only cereal, lard, bacon, sugar and flour from the store and raise the rest ourselves."

Twelve dars of tin cans sold in Coleman County this year, besides large quantities of glass jars, jar tops and tin lids, leads the home demonstration agent to estimate that a total of 884,000 containers of food will be put on farms there this year. Home demonstration club members report helping 486 women not club members with their food preservation.

With a total cost of \$37.50, 12 Van Zapdt county 4-H club girls have made their bedrooms attractive.

Double the sale price for his feed is what Ernest Guilloud, Hartley county farmer, says he made by selling his enormous feed crops through 261 steers fed under county agent direction. The first 50 sold topped the Kansas City market. He became interested in feeding through his 4-H club son who has fed baby heeves three years.

Seven Mason county farmers are creep feeding 525 beef calves as a result of last year's demonstration which showed that creep fed calves put on from 100 to 150 pounds more weight than other calves, at a feed cost of less than 4 cents per pound.

Hamilton county farmers have been shown by the county agent to destroy beds of stinging red ants at a cost of about 3 cents per bed. A solution of sodium cyanide is poured in the beds when all the ants are at home.

Hogs on Camp county farms have increased 50 per cent in number and 25 per cent in quality since four years ago when 25 club boys began raising registered pigs the county agent estimates.

M. T. Bellamy of Medicine Mound, Hardeman county, got 4 bushels less wheat per acre and sold it for 5 cents less per bushel, on a 3-acre plot sowed with untreated seed last fall. There was no smut in the main field where the seed was treated, says the county agent.

A large increase in cowpea planting to build up the soil is reported in Gillespie county this year, due to the fact that low prices for farm products barely pay the cost of cultivation except on the best soils.

Over 200 people recently visited the first trench silo ever built in Washington county, constructed by Extension Service plans under supervision of the county agent.

Half the 4-H club boys of Tom Green county will have from 10 to 20 capons to sell when the carloads of capons on feed in the county are sold next spring.

Perry Johnson was in from the stockfarm Monday looking after business shaking hands with friends.

Lady Took Cardui And Got Rid of Pain In Her Side

"Last summer, my health was bad, so I began taking Cardui," writes Mrs. H. E. Slaughter, of Norman, Okla. "My mother had given me Cardui in girlhood, so naturally I turned to it when I felt I needed it. I felt run-down and a general weakness. I had bad, dizzy headaches when everything would seem to dance before my eyes. My right side pained me so much, but since taking Cardui the pain has left me. I have taken several bottles of Cardui and have improved a great deal." Cardui is sold at drug stores here.

TAKES FEED TO MAKE THE FATTED CALF

College Station—That they may really kill the fatted calf and not a tough and skinny one at butchering time next winter, Roy W. Snyder, meat specialist in the Extension Service at Texas A. & M. College, advises farmers and ranchers to start now to feed calves for home slaughter. "Tender, juicy, tasty meat come only from high quality animals that weigh as slaughter calves from 500 to 900 pounds," he says, "and to get such a finish a calf should be fed at least 90 to 150 days. There is no magic in canning that can change a scrubby, immature rough and rangy calf into choice beef.

"A calf that has had milk and good grazing will be acceptable," he continues, "but can be much improved by feeding. A practical method is to feed calves oats, shelled corn or milo before weaning. To a weaned calf in a dry lot, supply all the hay it will eat, all the fattening feeds such as shelled corn, crushed ear corn or milo heads it will eat without scouring, and 1 to 1 1/2 pounds per day of cottonseed meal, or a limited amount of cottonseed, not to exceed 2 1/2 pounds daily. At the start a calf will consume about 2 pounds of grain per day, and this will gradually increase to 10 or 12 pounds per day.

"A beef-bred animal should be fattened if possible. It yields more choice, thick muscles than a dairy-bred animal; lays on fat through the lean muscles, there by increasing tenderness; yields a superior white, crisp fat; and the lean muscles are a bright, attractive red color. Select a deep, thick, compactly built calf in preference to a rough and rangy one, because the former will carry more natural fleshing and will fatten more uniformly. Fatten the best animal available, regardless whether it is steer or heifer. Heifers fatten a little quicker, but few people can tell the difference in the carcasses. Always select for killing a thrifty animal and never one that is losing weight."

Can You Afford to Do Without Electric Range Superiorities?

The amazing superiorities of modern Electric Cookery are many and varied! ... And they are so important, to your health and to efficient home-management, that Electric Cookery deserves your serious consideration ... AT ONCE!

Modern Electric Cookery means more healthful meals—for all the vitamins and food elements are cooked in ... not boiled away as in old-fashioned methods. Food flavors are sealed in, too—making meals far more tasty and appetizing.

With an Electric Range, food-shrinkage is reduced by more than 20 per cent! ... And less expensive cuts of meat can be used; with remarkable results, due to the superior cooking method! These advantages mean large cash savings each month!

—And Electric Cookery brings happy leisure hours, the automatic controls do all the cooking ... you merely prepare your meals and entrust their finished perfection to the scientific accuracy of this remarkable Electrical Servant!

You'll also appreciate the coolness and cleanliness of modern Electric Cookery. The heat is confined to its job of cooking, so there's no surplus to make your kitchen unbearably hot ... and with clean electric heat there are no blackened pots and pans to scour or sooty walls and curtains to clean.

From the standpoints of Health, Convenience, Leisure, Economy, Coolness and Cleanliness ... can you afford to do without Electric Range Superiorities?

... The Answer Is "NO" !!

Call us for an individual investigation of your use of electric service, to determine the cost of cooking by electricity in your home. You may be surprised to know there are many cases where electric cookery actually decreases the total of electrical and gas bills.

PROFITABLE USE OF RUNOFF WATER IN WEST TEXAS

The Spur Experiment Station reports the use of a simple and inexpensive system of diversion terraces for impounding the runoff water on June 20 from a two-inch rain resulting in the application of seven inches of water on a 120-acre tract of land. Sudan grass was planted on thirty-five acres of this land, and as a result of this artificial irrigation 62 head of Hereford yearlings and 15 head of work stock and milk cows were grazed on the 35 acres from July 18 to August 15, the Hereford yearlings making a gain in this period of 3,856 pounds worth at 5-1-2 cents, \$212.08, or \$6.00 per acre, not including the grazing of the 15 head of work stock and milk cows for the period. In addition to the grazing, a hay crop of 30 tons was harvested, and at the end of the period the grazing on this tract was considered better than at the beginning, which illustrates the practicability of using waste rainfall water to great profit by diverting it onto farm land.

Congressional Redistricting is a duty which the new Legislature should dispose of at the regular session in January, no matter who is elected Governor. As a result of the recent election for Congressmen-at-Large, three members of Congress will be from the city of Dallas, the member from the district and two of the Congressmen-at-Large. At the time the matter of redistricting was before the last regular session of the Legislature, we pointed out to the members that some such result could be expected in any race for Congressmen-at-Large, citing the fact that Houston got both of the new members the last time redistricting was neglected. How unjust the present situation is may be judged from the fact that the 18th district, that represented by Marvin Jones in Congress, has a total population of 511,378, whereas the basis of representation, un-

Under the 1930 census, is 277,367. Eight of the present eighteen districts have less population than 277,367, two of them showing actual losses in population during the last census period. The 18th district contributed more than 21 per cent of the increased population shown by the 1930 census, and certainly that section of the State is entitled to another Congressman. Indeed, under the present situation, eight districts have less representation than they are entitled to have, two districts (those in which the Congress-at-Large live) have much more, and the eight referred to above have a greater degree of representation than they are entitled to have. And the city of Dallas, as we have said, has three Congressmen. Of course, theoretically the Congressmen-at-Large represent all of the people of the State, but practically the residence of Congressmen is the real test. The people of the State should insist upon redistricting at the next regular session.—The Texas Weekly.
