IRON COUNTY MAN FOR DISTRICT ATTORNEY.

W. A. Johnson, Iron County Attorney, announces his candidacy for the office of District Attorney, of this district, subject to the action of the Democratic primary.

Mr. Johnson was born and raised in Ellis County, Texas. He was educated at Ferris Institute and Trinity University. He was admitted to the bar in 1912 and has been actively engaged in the practice of law in Ellis and Dallas Counties, until his removal to Tom Green County in the fall of 1913.

For years, Mr. Johnson was in partnership with Judge A. S. Aasset, a noted criminal lawyer of Dallas. This experience, he thinks, in a special way equips and qualifies him to discharge the duties of the office he seeks.

Except to discharge the duties of County Attorney of Iron County where he now lives, Mr. Johnson has not been regular and continuously engaged in the practice of the law since coming to West Texas.

"If the Democrats of Tom Green, Iron, Schleicher, Cole and Sterling Counties see fit to elect me as their District Attorney, I assure them that I shall use my best efforts and ability to see to it that all the criminal laws are fairly and impartially applied. It is my opinion that it is the duty of the District Attorney to exercise the same conscientious and diligent efforts in the prosecution of all violation of the law that are brought into the court without regard to personalities or the class of off-

Sheriff Luedecke and Joe Jackson Arrested Jim Manies Monday.

Monday afternoon Sheriff Luedecke and Deputy Joe Jackson, arrested Jim Manies, and taken from his truck 328 bottles of Tequila the estimate value of which is about \$2,000.00.

Manies was having a little car trouble and drove into the Highway Garage to get it fixed, Joe Jackson, deputy sheriff, who is always on the job, saw Manies as he drove into the garage, he with Sheriff Luedecke arrested Manies and placed him in jail, and put the Tequila in the Iron Safe in the Sheriff's office.

Manies appeared before Judge Doty Tuesday morning, waived examining trial in the two charges, and his bond was fixed, for transporting liquor at \$1,000.00. The other bond was for \$250.00 was for operating a truck with false license. The license number he was using was for a Ford Touring car and he had them on a Cadillac truck.

Laws You Don't Want

Laws requiring the Santa Fe and other railroads to spend money needlessly, tend to keep freight rates up. Limiting length of trains and saying how many men shall be employed to run a train, to that extent prevent lowering costs. This is your problem, too. Think it over.

In a manufacturing business the greater the output the lower the cost per unit. Therefore all progressive manufacturing concerns try to increase volume of output.

The railroads of this country are in the manufacturing business. They make and sell transportation.

Obviously it is to their interest to sell their product at as low a price as possible, in order to increase volume of business handled.

To sell at a lower price they must get their costs down to as low a figure as possible consistent with good service.

They cannot lower prices for materials and supplies, or wages, the latter being fixed by agreements with the men and by the Labor Board established by law.

The only other way left is by more efficient operation—that means handling more freight per man employed. To handle more freight economically means larger locomotives, better track and longer trains.

Laws limiting the number of cars in a train, or saying how many men shall be employed on a train, are laws which to that extent prevent lowering costs and keep up rates.

Any laws that require the railroads to spend money needlessly have a tendency to keep up rates.

While primarily this is a railroad problem, in the end it affects your own business as well. That is why your attention is called to it in this way. Think it over.

ROSE POND STILL MECCA OF CURIOUS

Believed to Be Crater of Extinct Volcano.

Evening Shade, Ark.—Each summer, with its crop of tourists, sees a renewed interest in "Rose pond," near here, which is thought to be the filled-in crater of an extinct volcano and is pointed out to all newcomers as a natural curiosity.

"Rose Pond" is about twelve acres in extent. It is literally as "level as a floor." It takes its name from the fact that when white settlers first came here it was a marshy place, covered thickly with the wild rose that is native to this section. One old-timer says he has yet to see a more beautiful sight than was Rose pond in those days, with the early morning dew on the pink and white blossoms.

But the roses have disappeared now. The first owners found it impossible to clear the pond, so thickly did the rose brambles grow, and water stood in rock-bound courses over the marsh. But Joseph Schales, from Germany, acquired the pond.

Hay meant more than roses to Schales. So with a prodigious amount of labor he cut the brambles and rooted them out of the mud, dug out the rocks and drained the pond.

Wild hay flourished for him and later owners, but such prosaic crops as corn and cotton will not grow in the pond with any degree of success. It is as if the spot resents giving up its ancient wild heritage.

Students of geology say there is no other soil in the state just like that of Rose pond. It resembles, so it is said, ashes or lava reduced to powder and mixed with vegetable matter brought in by erosion and water from the slightly higher ground.

Woman's Will Directs Search for Lost Son

Omaha, Neb.—Provision for the continuance of her futile search for her only child, Harold, was made in the will of Mrs. Emma Haviland, fifty-three, teacher for twenty-five years in Omaha schools, who died recently. After completing his law course in the University of Michigan young Haviland was associated with a law firm here for a short time. Several years ago he left, going, presumably, to California. Although his mother searched relentlessly for him, his whereabouts are unknown.

Several weeks prior to her death Mrs. Haviland made arrangements with an undertaker for the cremation of her body. She requested Boyd Laibele, Omaha, and Miss Geraldine Loch, Chicago, intimate friends, to scatter her ashes to the winds. This request was complied with.

The disposition of her \$7,500 estate provides for a five-year search for her son. If he is not found within that period the residue of the estate is to be divided between Mr. Laibele and Miss Loch.

Short Skirts End Use of Teacher's High Chair

New York.—Modern short skirts may have a direct bearing upon classroom procedure. The brevity of skirts is threatening to do away with the teacher's "high chair."

A number of principals readily agreed that the modernly-attired teacher, perched before the class on the high chair, bears a remarkable resemblance to a silk advertisement. The effect, these educators agreed, while not necessarily evil, might well be regarded as a trifle disturbing.

For a great many years the high chair has been standard equipment in every classroom, but the new policy here came to light when the requisitions of several junior high school principals for high chairs were denied. Investigation showed that the "powers that be" decreed that high chairs, short skirts and rolled stockings cannot all remain together in the same classroom. Since the teachers demand the right to keep up to the minute in style, the high chair must go.

Judge Walker was up from Sonora Wednesday, and to our surprise was still boasting for Dan Moody, we do not understand why the Judge does not get right.

STAR

Running-in-oil

You will find in the new running-in-oil STAR the many features you have always wanted in a windmill—one oiling a year—your choice of Timken Tapered Roller Bearings or "NO-OIL-EM" Bearings—two gears, two pinions and two pitmans—direct center lift to pump rod—crosshead, guides and pitmans bearings flooded with oil—a scientifically designed wheel with angle steel arms and braces and ball-bearing turn table.

The fans of this new Star are curved to give great efficiency in an 8 to 10 mile an hour wind. Plunger pump in crank case floods crosshead, guides and pitman bearings with oil, and tight cover keeps out dirt, rain or snow.

One filling of crank case with oil each year will save many trips up the tower. May be fitted on any tower.

The new STAR is the last word in Windmill construction. Come in and let us show you this mill. You will want to know about it whether you are needing a new mill right now, and we want you to know what a really fine windmill we have in this new Star.

HOW LAND SWINDLERS AND LOAN SHARKS DEFRAUD THEIR PREY

W. R. Morehouse Reveals Further Schemes by Which Poor Widows Are Bereft of Their Savings—Unbelievable Frauds Are Worked on the Uninformed.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. III

LAND swindles are almost as common as sand on the seashore. Here is one. A widow was left alone in the world with but \$6,000. She was urged to take a free ride into the country to look over a new town site. Just a pleasure ride, she was told. No obligation on her part. She accepted the invitation with no intention of parting with her precious \$6,000, but she fell among high-pressure salesmen and in an unguarded moment she affixed her signature to a contract to purchase a vacant lot for the \$6,000 cash she had in a savings bank.

W. R. Morehouse

Thirty days after she drew out her account for what she supposed was a business lot she received a notice that her monthly instalment of \$6,000 was due, being a \$1,000 payment on each of six \$6,000 lots. Strange as it may seem, not until she received this notice did she read the contract she had signed. Instead of buying one \$6,000 lot and paying for it, as she meant to do, she had signed a contract to buy six \$6,000 business lots and the \$6,000 she drew from the bank had been applied as a first payment of \$1,000 each on the six lots.

Had she gone to her banker she would have saved herself the loss of her inheritance, but doubtless the reason she had not consulted her banker was because she was not aware that bankers render such a service.

this same shylock for assistance and this is how he handled the case. He led the woman to expect that he would lend her the money but kept deferring making the loan from day to day. Finally, on the day she must make her payment or lose her furniture, he

From American Bankers Association Journal

A Widow Fell Among High Pressure Land Salesmen.

Sad is the lot of the savings depositor who, after losing his savings through wild-cat speculation, is driven to desperation for funds and finds it necessary to borrow money to meet an emergency such as sickness or unpaid rent. Let me give the facts about two cases of the many with which I have come in contact.

The Loan Shark at Work

The principal characters in the first case are a man, who must borrow \$350 to place his wife in a hospital to save her life, and a loan shark, who demands every ounce of blood. In desperation the borrower applies to this loan shark for the loan of \$350. This is what it costs him—the amount is almost unbelievable but I obtained the exact figures first hand and I can vouch for their correctness—this man was obliged to give his note for \$925 for a loan of \$350! The day he got the note the shark sold it to an innocent holder and it became an obligation binding upon the borrower. Think of paying \$925 for a loan of \$350!

Here is another. This time there is a woman in the case. The woman needed \$165 to meet a payment on her furniture or lose it. She turned to

telephoned her to call. It was now too late for her to make any other arrangements for borrowing the funds. The shylock had planned it so that she would be at his mercy and would have to accept his terms. He charged her \$650 for a loan of \$165!

How the Shark Does It

Doubtless your curiosity is aroused as to how this shylock can get away with such a deal. Here are the facts. He charged a large commission for making the loan and also included a wide range in fees such as for drawing up papers and notarial fees. On top of this he required the borrowers to buy stock in his company which was worthless. Then he required them to take out through him life insurance to about one hundred times the amount of the loan for which he received a liberal commission. In fact, he resorted to every imaginable scheme in order to bleed them of the last drop of blood they had to give. And the unfortunate thing about it all is that the borrowers in these two cases found it necessary to meet such exorbitant terms because they had already lost their savings through ill-advised investments.

JACOB AT BETHEL

LESSON TEXT—Genesis 28:10-22.
GOLDEN TEXT—I am with thee and
will keep thee in all places whither
thou goest.—Gen. 28:15.
PRIMARY TOPIC—Jacob Dreams at
Bethel.
JUNIOR TOPIC—Jacob's Vision at
Bethel.
INTERMEDIATE AND SENIOR TOP-
IC—A Young Man's Dreams and Vi-
sions.
YOUNG PEOPLE AND ADULT TOP-
IC—The Place of Vision in Human
Lives.

I. Jacob's Flight to Haran.
He fled from an outraged brother.
His deceit and cunning got him into
trouble. His long exile from home
was the result of his selfish ambition.
"Whoever a man soweth that shall
he also reap." Rebekah made her plea
before Isaac for sending Jacob away,
stating her fear of Jacob's probable
marriage with a daughter of Canaan,
when in reality she feared that Esau
would kill him. Isaac at once recog-
nized the wisdom of her suggestion.
He knew that the success or failure
of one's life is largely determined by
his marriage. It was clear that if
Jacob were to continue in the line of
the covenant blessing care must be
exercised in his marriage. Besides, it
is a parental duty to see that chil-
dren are well married. Among Chris-
tians only marriage in the Lord is
allowable (1 Cor. 7:39). Isaac, alive
to Jacob's destiny, issued his com-
mand and bestowed upon him the
covenant blessing which had come
from God Almighty to Abraham (Gen.
17:1). The elements embraced in this
blessing are:

- (1) A numerous offspring (v. 3).
- (2) Possession of the promised land (v. 4).
- (3) And everything that is included in the Abrahamic covenant (Gen. 12:1-3 and Gen. 15:1-8).

We should learn from the experi-
ence of Jacob.

1. Be sure your sin will find you out.
- Jacob deceived his father. He in turn was deceived by his children.
2. That wrong home life has its perils.

Isaac knew that the blessing was to be Jacob's, yet he planned for Esau to have the place of prominence. He was willing for the sake of a little venison to give to Esau that which God had planned for Jacob.

- II. Jacob at Bethel.
1. The Lord meets Jacob at Bethel (vv. 10-15).

With a spirit clouded by home-sickness on the one hand and by fear on the other, he had a dream that night in which God appeared to him. In this dream Jacob beheld a ladder or stair reaching from earth to heaven, upon which angels were ascending and descending. Above the ladder stood the Lord who spoke to him. This ladder suggests a means of communication between earth and heaven, between man and God. Jesus Christ is the ladder which provides us a means of communication with heaven (John 1:51; 14:6; Heb. 10:19-20). Jesus became a real ladder to us, bridging the chasm between earth and heaven. He was a real man that He might identify himself with the race. He is very God, really divine, that He might lift us up to God and secure a reconciliation with Him. Earth and heaven, man and God, were separated by the introduction of sin, but through Christ a means of intercourse is re-established. This vision suggested to Jacob that the only approach to God was through a mediator. The angels ascending and descending are heavenly messengers which are sent to minister to man through the mediatory work of Christ (Heb. 1:14). God spoke to him from the top of the ladder and assured him that He is the God who entered into covenant with Abraham and renewed the same unto his father Isaac (v. 13). This assurance embraced the following:

- (1) The possession of the land (v. 13).
- (2) A numerous offspring (v. 14).
- (3) The promise of His personal presence and preservation (v. 15).

This promise was fulfilled in a mar-
velous way with Jacob and is still being fulfilled with his seed.

- III. Jacob's Vow to the Lord (vv. 16-22).

He set up as a monument the stone which he had had for a pillow. He named the place Bethel, which means the house of God. Jacob now vowed that since God had so graciously ob-
ligated himself to perform all this for him, he would enthrone God as the Lord of his life and give back to Him one-tenth of all that was given to him.

Indigestion

bad spells relieved

"NOTHING can take the place
of Thedford's Black-Draught
with us because we have never
found anything at once so mild
and so effective," says Mrs. Hugh
Nichols, R. F. D. 4, Princeton, Ky.

"When the children have spells
of indigestion and upset stom-
achs, I always straighten them
out with a dose or two of Black-
Draught.

"Several times I have suffered
with bad spells of indigestion
myself and found I would soon
get relief if I took a course of
Black-Draught. I was troubled
with a bad accumulation of gas
and severe pains across my
stomach and lower bowels. Now
when I feel a spell of this kind
coming on, I head it off by tak-
ing Black-Draught—a dose every
night for a few nights will pre-
vent the trouble and save me
much pain and suffering.

"My whole family uses Black-
Draught for biliousness and con-
stipation.
"It is a splendid medicine."
Sold everywhere. 25 cents.
