BANKERS SURVEY STATE BANK LAWS

Find That Movement for State Guaranty of Bank Has Gone Into Eclipse.

New York.—A survey of state banking laws conducted by the State Bank Division of the American Bankers Association shows marked progress toward greater uniformity and more efficient bank supervision, it is declared by Frank W. Simmonds, in charge of the division, in a statement giving the results of the investigation. He says that the movement for state guaranty of bank deposits appears to have gone into eclipse.

"The division has urged that the office of bank commissioner be freed from politics and all other functions of state government and tenure be made more secure with sufficient compensation and discretion to attract men of outstanding ability," Mr. Simmonds says. "Gratifying progress has been made during the past year in important bank legislation in many states. Idaho, Wyoming and Oregon led the list by adopting entirely new modern banking codes, while Texas and Montana have new codes in preparation.

Uniformity Among State Laws

"The survey shows that it is generally agreed there should be a high degree of uniformity among the states in laws dealing with certain fundamental principles of bank organization, regulation and supervision, and that there is a strong tendency in this direction. We find a very definite trend toward increasing the minimum capital requirements of banks to \$25,000; creation of banking boards to act in an advisory capacity with the state bank commissioner, and legislation empowering bank commissioners to take complete charge of insolvent banks and to liquidate them as distinguished from liquidation through the courts.

"We find also a trend toward legislation providing for closer supervision and regulation of building and loan associations; more equitable taxation of bank stock; legislation providing for merger, conversion or consolidation of banking institutions; the legalizing and regulating of what is known as 'departmental banking'; broadening the field for investment of funds of saving banks and trust companies, and increasing the power of the bank commissioner as to granting or denying charters for new banks, and authorizing his making reasonable rules and regulations governing bank management and prescribing penalties for the violation thereof.

"Additional general characteristics of state bank legislation are for increasing the compensation of the bank commissioner and lengthening his term of office of four, five or six years, with power to appoint necessary deputies and examiners; legislation providing for the reduction of mandatory bank calls to three and reducing the number of examinations required by law annually to one; making issuance of worthless checks a misdemeanor; limiting or prohibiting an officer or director of a bank borrowing from his bank unless his collateral is approved by a majority of the board of directors, and limiting or prohibiting the opening of branch banks.

Eclipse of Guaranty Movement
"The question of state guaranty of bank deposits appears this year to have passed into an eclipse, so far as the extension of the idea is concerned, notwithstanding the fact that state guaranty laws were recommended by the governors of two states, and bills were introduced in several of the states, all of which were defeated. The general tendency, so far as state guaranty of deposits laws are concerned, is distinctly the other way, the indications being that several states now having guaranty laws are trying to free themselves from this legislation. Oklahoma has abandoned the plan of state guaranty of deposits, and this year the South Dakota legislature has repealed the state guaranty law and has referred the repeal to the people at the next general election for ratification."

BANKERS RAISE FUND OF \$500,000 FOR EDUCATION

A fund of \$500,000 to endow scholarships and research in economics in American colleges was recently established by the American Bankers Association in celebration of its Golden Anniversary. The intention of the Foundation is to promote education in the direction of sounder general economic understanding. Half the total sum represents subscriptions by the American Bankers Association, the American Institute of Banking and individual bankers, and the other half quotas assigned to bankers in each state. The Association gave \$50,000 from its reserve funds, and the American Institute of Banking, through individual subscriptions from its members, who are chiefly clerks in the banks, subscribed \$25,000. Numerous subscriptions of \$5,000, \$2,500 and \$1,000 each were made by individual bankers in all parts of the country.

One Death Per 1000 Autos
in a Year Is Record of U. S.

ONE out of a thousand is the relationship between the annual automobile fatalities and the number of motor vehicles in this country, according to the Stewart-Warner Safety Council for the prevention of automobile accidents, which has undertaken a strenuous campaign of automobile safety and accident prevention.

And for every fatality there are at least 28 accidents serious enough to get on record. This does not take into consideration minor sprains and bruises or people suffering from nervous shock as the result of being in an automobile accident.

To appreciate what a vast army of killed and injured is annually conscripted by the reckless motorist and careless pedestrian, a comparison may be made with American casualties in the great war. Over a third as many people are killed annually by the automobile as there were American soldiers killed on the field of battle during the entire war, while the number injured each year is nearly three times as great as the number of our boys who were wounded throughout the war.

The Blue Bird says

A banker says that the world owes much to the bankers. This is probably true, but he needn't rub it in.

The Government reports that the life of a paper dollar is only seven or eight months. But we have never had one die on our hands yet.

Time is the only money that cannot be counterfeited.

Someone suggests that the U. S. Mint should put rubber tires on the "cart wheels." We'd rather see them equipped with four-wheel brakes.

Europe is ever ready to be Yanked out of trouble.

England seems to be of the opinion that the Turks have the prophet and the allies the loss.

France is not approaching the debt matter frankly.

France might get around it, by saying she will pay when Russia does.

Europe wants moral support—but not too darned moral.

Two things are always plentiful—trouble and advice to farmers.

The design on a lot of paper money is to be changed. But the profiteers will continue to have designs on all our money.

Jay Walker to Blame for Half of the Deaths by Auto

727 of 1390 Auto fatalities last year were directly due to pedestrian's fault

MANY a motorist whose car has figured in a fatal accident will be able to present a clear sheet to Saint Peter when his time comes, when one considers all the contributing factors outside of the driver's own fault. A total of 1,390 auto fatalities on record with the Stewart-Warner Safety Council for the prevention of automobile accidents, covering a period of seven months, shows that in 727 cases the fault was clearly the pedestrian's and cannot be put down to the driver, the weather or unavoidable circumstances.

The careless pedestrian's footsteps lead him to the grave by six distinct routes, says the Safety Council, and the most travel-worn of these is Jaywalking. Sixty-two per cent of the 727 auto fatalities just referred to were due to streaking across busy streets without using the intersections. Children's playing in the streets was responsible for 31 per cent and coasting for another 3 per cent. Confusion on the part of the pedestrian, not hearing whistles and turning back in his tracks, brought about 9 per cent of these 727 deaths, while physical disability and intoxication rate 3 and 2 per cent respectively.

STAYING PUT.

Zelma had a turkey hen
She herded her one day,
The Turk' was bent on running off
But Zelma made her stay.
She built a nice and 'cozy nest
And held her round about,
And 'bout the middle of the eve
The turkey dropped her out.
She walked into her little nest
And on it she did squat,
And in about a half an hour
She laid upon the spot
Now Zelma says its all a fad
That turkeys have to roam,
They just as well content them-
selves
And lay their eggs at home.

THE GOVERNOR OF TEXAS.

The Governor of Texas,
A dauntless one are they:
The friended foes assail her.
He never shows dismay.
For erring folks in prison
Her tender spirit grieves,
But let them go to college.
Then see him roll his sleeves.
Amid the euvous clamor
Of those that seek her crown,
The Governor of Texas
Are not a bit cast down.
When rivaly malicious
Would hurl him on the shelf,
She bravely do their duty,
Regardless of their self.
The klan they plot and bluster,
The Legislature blame,
But the Governor of Texas,
They get there just the same.

ZIMMERMAN SAYS MEETS WITH ENCOURAGEMENT.

(From Dallas News.)

"Calvin, Ok.—Thanks for the splendid publicity given my announcement for Governor. Please say to Texas that floods of letters and telegrams are pouring in from every part of the State, pledging with me to go in against the Ferguson trinity, Jim, Lynch and Dan. There was an error in my Governor's salary announcement. I advocate a \$12 500 00 a year salary.

"Please state that I would eliminate lawery from the Legislature upon the ground that they are officers of the judicial department, same as the Judges, therefore ineligible to serve in the legislative department. Lawyers practicing in both legislative and judicial departments have been dominating both. All the legal advice the Legislature needs could be supplied through the Attorney General's Department. My decision as regards entering the race shall be given you within the next few days.—O. F. Zimmerman.

Bad Color (liver trouble)

"OCCASIONALLY I am troubled with spells of constipation and inactive liver," says Mrs. John L. Pence, Broadway, Va. "I always use Thedford's Black-Draught when I feel a spell of this kind coming on, for it saves me a bad headache. My color gets sallow at times. I get real yellow, showing that the trouble comes from the liver.

"I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught and make a tea out of it, and take it, along in small doses for several days. I have never found anything that served me so well.

"Since I have known about Black-Draught, I have not suffered nearly so much with headache, caused from indigestion. If I find my tongue is coated, and I wake up with a bad taste in my mouth, I know I have been eating indiscreetly, and I immediately resort to Black-Draught to straighten me out."
