RECENT WOOL SALES BRING 35 TO 38 CENTS.

J. M. Lea, Joe Blakeney and C. F. Angell contracted last week about 400,000 pounds of long wool from ranchmen who will shear in the next few weeks, the price ranging from 35c to 38c per pound.

Mertzou recently sold some short wool, prices ranging from 17 to 28 cents per pound.

HARNED-SEWELL.

Sunday afternoon at the home of the bride, at five o'clock, Mr. D. Dwight Harned and Miss Arminia Madeline Sewell were happily united in the holy bonds of wedlock by Rev. J. C. Young.

Mr. Harned is from Des Moines, Iowa, came to this County last fall with a troupe of one of the Lyceum numbers, falling in love with the country and needing a rest for his health he later returned to the T. half circle ranch, near the Sewell ranch, where he met the bride. He is a talented musician, a fine young christian man.

The bride is the youngest daughter of Mr. and Mrs. P. W. Sewell, prominent ranch people 20 miles southwest of El Dorado. She has been in our midst all her life and has a host of friends who wish her well in the new adventures of life.

The bride and groom left immediately after the wedding for San Angelo to take Miss Olga, sister of the bride who came from San Antonio to be at the wedding, they will make their home in El Dorado where the groom is teaching music.

The Success joins the numerous friends in extending congratulations.

Come to see us, we appreciate your business.
W. H. Parker & Son.

POSES WIVES OF FAKE STOCK SALESMEN AND PROMOTERS

Latest Methods of Confidence Men Described by American Bankers Association Official—Declares That Shrewder Schemes Than Ever Before Are Taking Peoples' Savings.

By W. R. MOREHOUSE, Public Relations Commission, American Bankers Association.

ARTICLE NO. 1

MUCH of the distress of many people in America today is due, not to the fact that they have not had an opportunity to earn and save money, but to the fact that they have lost their savings in fraudulent schemes of one kind or another. Many a widow is in financial difficulty not because she was left penniless by her husband but because she lost her inheritance by investing it in "gold bricks." Many a bank depositor who once carried a fine balance is penniless today not because he did not know how to save but because he did not know how to invest. Perhaps if I relate some wild-cat promotions that give an insight into the activities of investment sharks it will quicken a relentless determination to provide depositors with much needed advice in investment matters. I have come in personal contact with many cases, some of them almost unbelievable because of the very crookedness of the schemes to defraud, yet thousands of our hard-working savers have been led to invest their savings in these promotions. In giving the high

W. R. Morehouse

lights of certain cases I am not drawing on my imagination in the least, nor am I relying on hearsay, but giving first-hand information. Unbelievable but True Many millions of dollars have been lost in oil. The sum is staggering. Into every corner of the United States the mails carry high-powered sales talk of great riches to be made in oil. Carried away by these promises, depositors quietly withdraw funds from their banks and send them on to wild-cat speculators. Not one out of a hundred has ever recovered the money he invested. Still wild-cat promotions continue to flourish, with a new crop of victims coming up to take the place of those who are forced out of the

excitedly back to the derrick, wrench in hand.

"We have drilled to the 'Bell' sand!" the lecturer shouts, bringing cheers from every high-pressure salesman, followed by a chorus of voices from the surprised audience. "We can bring in a 5,000 barrel well if we care to, but if we the 'Meyer' get a 12,000 well!" he goes deeper to sand we can b a r r e l adds. "G o o n deeper! Go

From American Bankers Association Journal

The Fake Oil Stock Sale Was Opened With Prayer

running because they have already lost their savings.

Listen to this one! It is a typical case. A tract of land, just ordinary land, nothing about it to indicate there is oil beneath the surface. An oil rig, a few tools, half a dozen strings of pipe are close at hand. A large show tent filled with chairs that will seat several hundred people. It is 10 a. m. The sun is shining brightly, and it is a glorious day.

Presently several large busses draw up loaded with people ranging in age from fifty years to eighty. A corps of high-pressure salesmen rush out to greet the arrivals and to assure them that they are most welcome to what will be the next great oil city of America. The aged and feeble minded are tenderly conducted to comfortable chairs under the big tent. In plain view of those seated as they peer out through the flap of the tent stands majestically the oil rig spattered with crude oil and nearby is the big oil sump also filled with oil. Through an ingenious circulating system oil from the sump flows into the well and back into the sump through a pipe in full view.

Religious Revival Methods Presently the official lecturer calls the meeting to order. The impression he creates is that he is either a minister or has studied for the ministry. He opens the meeting with prayer for the success of the venture in oil. After prayer this sanctimonious gentleman tells how he has invested all of his own earnings and all of his children's savings in the venture, so confident is he that it is to be an oil gusher and all are to be made rich.

He charms his audience with his oratory. He impresses them with his honesty. He calls their attention to oil in plain view, intimating that it is from the well. And while he is painting, before them, figuratively speaking, luxury and old age comforts if they invest in the "A-A" Oil Company, the foreman of the rig rushes in, his clothes spattered with crude oil. He is excited and almost out of breath as he reaches the sanctimonious lecturer. A few words are whispered. The lecturer's face registers great delight at the news. He turns back to his audience, a smile of victory on his face. The foreman rushes

on down!" shout the salesmen almost in unison, followed by cheers from the listeners. The zero hour is at hand. The time has come for the high-pressure artists to sign up the listeners for units. The salesmen "hit while the iron is hot." Nearly every listener is signed up. The few who hesitate are forgotten only momentarily.

One by one these old people, under the spell of being rushed into the deal, pay over their cash, sign notes or turn over good securities for units in the "A-A" Oil Company.

This picture of an oil speculation may seem too crooked to be true, but it is a real story of how thousands of savings depositors, all past the age of fifty, lost over half a million dollars. This story is one of many hundreds that might be told, all of which have ended disastrously for millions of investors.

(Article 11 will reveal further fraudulent schemes for robbing workers of their savings.)

Truth and Advertising Have Made America Great

Truth in news columns and advertising is the foundation of America's prosperity, Melvin A. Traylor, Second Vice President American Bankers Association, recently said, adding:

"Continuance of our prosperity rests chiefly upon continuation of the greatest of all causes for our present good times—truth in news columns, truth over the store counters and truth in advertising. World-wide acceptance of great discoveries and inventions has been due to the fact that the newspapers truthfully described them and the manufacturers truthfully advertised them. If deceit had been the general rule, if the motto had been 'sell quick and let the buyer beware,' the public would have turned against the new things. I recall one particularly large firm which three years ago began advertising its wares falsely; it is today hopelessly bankrupt.

"Wise advertising costs nothing. You have only to increase the sale of your products to the point that covers the advertising charge to enjoy the enlarged business without cost. The natural saving in overhead is extra profit for dividends or for further expansion."

APPLICATION.

The State of Texas, County of Schleicher.

In Commissioners Court, Schleicher County, Texas, April Term A. D. 1926.

Now comes C. C. West and represents to the Court, that he is the owner of Blocks Nos. 12, 13, 14, 15, 16, 17, 24, 25, 26 and all that part of Block 27 that lies North of Lake Street, All of said lots and blocks being in The West Addition to the town of El Dorado, Schleicher County, Texas, and being all of that part of said Addition that lies North of said Lake Street, and comprising about 62 acres of land out of Section No. 78 Block A, H. E. & W. T. Ry. Co. surveys, which land has heretofore been subdivided into, lots, blocks, streets and alleys and a plat thereof recorded in Book 7 at page 51 of the Deed Records of Schleicher County, Texas, that said land is not within the Corporate limits of the town of Eldorado, and respectfully make application to this Court, praying it to pass and order at its May term 1926, canceling said Addition or subdivision as to above named blocks, so as to throw the same back into acreage as it existed before such subdivision was made. This March 22nd, 1926.

C. C. West,
By G. D. Hines Agent.

The State of Texas, County of Schleicher.

To all persons interested in the land and addition described in the above application will be acted upon by said Commissioners Court on the 10th day of May 1926 at which time you are commanded to appear, and protest if desired against such action. This 16th day of April A. D. 1926. John F. Isaacs County Clerk, and Ex-Officio Clerk of the Commissioners Court of Schleicher County, Texas.

STAR

Running-in-oil

You will find in the new running-in-oil STAR the many features you have always wanted in a windmill—one oiling a year—your choice of Timken Tapered Roller Bearings or "NO-OIL-EM" Bearings—two gears, two pinions and two pitmans—direct center lift to pump rod—crosshead, guides and pitmans bearings flooded with oil—a scientifically designed wheel with angle steel arms and braces and ball-bearing turn table.

The fans of this new Star are curved to give great efficiency in an 8 to 10 mile an hour wind. Plunger pump in crank case floods crosshead, guides and pitman bearings with oil, and tight cover keeps out dirt, rain or snow.

One filling of crank case with oil each year will save many trips up the tower. May be fitted on any tower.

The new STAR is the last word in Windmill construction. Come in and let us show you this mill. You will want to know about it whether you are needing a new mill right now, and we want you to know what a really fine windmill we have in this new Star.

Woman Seeks Her Kin; Search Begins at 1828

Philadelphia.—In an effort to locate any surviving relatives who may still live in this vicinity, Mrs. Lewis Thorp has set a task for the bureau of missing persons, which dates back just ninety-eight years.

Mrs. Thorp writes that on August 16, 1828, her great grandfather, Samuel Crawshaw, accompanied by his wife and family, set sail from their old home in England, and on October 2, 1828, landed in Philadelphia.

Whether Mrs. Thorp is of the same or of another branch of the family her letter does not state, nor does it indicate why she begins her search with the landing of her great-grandfather in America just a fraction less than a century ago. She does state, however, that she is anxious to locate any relatives or possible heirs who may be living, so that apparently the settlement of some long-standing estate is the basis of the search which the Illinois woman asks.

Only Lord Beatty and Wales Can Tilt Hats

London.—The tilt of Lord Beatty's hat is the copyright of two persons only in England—the prince of Wales and Lord Beatty himself.

Lieut. Gen. Sir William Furse is advising the boys of the Church Lad's brigade, who are to be inspected by the prince in June, to remember to put their hats on straight and keep them straight.

"There are only two officers in the whole of the empire," Sir William said, "who are allowed to wear their uniform hats on one side of their heads. One is the great Admiral Lord Beatty and the other the prince of Wales.

"From the little I know of the prince of Wales, if he sees anybody mimicking him, he will not give them such a nice report as he might otherwise," the speaker added.

Needed Reform

New York.—Will Hays is making progress in ending misleading advertising by movie exhibitors, usually due to ignorance as in the following cases he cited: Special children's matinee for that great animal picture, "Black Oxen"; "A Doll's House"—bring the kiddies; "The Four Horsemen of the Apocalypse"—another great cowboy drama.

SONORA GRAMMAR SCHOOL TEAM WINS 7 TO 2.

Superintendent Brit, of the Sonora School, came up Saturday with his grammar school base ball team and walloped our boys in the grammar school department to the score of 7 to 2. Those who witnessed the game report lots of fun.

MRS. G. M. HOLLAND DEAD.

Mrs. G. M. Holland, of Christoval, Texas, died Wednesday morning at the home of her nephew, A. D. Wright, at Brady, Texas, she was returning home from an eight weeks stay in Kansas City, where she was treated for cancer, she had returned to Brady feeling fine, and took sick Saturday, and in spite of the aid of physician and loved ones died at about six o'clock Wednesday morning.

Aunt Amelia, born at Seguin, Texas, January 15th, 1862, was the daughter of Mr. and Mrs. John L. Cochran, moved with her parents to Tom Green County in 1880, and has resided on the South Concho for 46 years, she was married to G. M. Holland in 1894, and has been a constant factor in the development of Christoval. Her life linked with that of her husband has been given to the comfort of others, the home was always open to the homeless, she would rather sacrifice her self than others, and she accordingly made many friends who weep with the relatives who weep.

She was a member of the Cumberland Presbyterian Church which at one time was the largest body of Christian workers in the community and the first to build a church and maintain religious worship.

The remains were brought to Christoval from Brady Wednesday and placed in the family home where her many friends called to view the remains of one they all loved.

The body was laid to rest in the Christoval Cemetery Thursday afternoon with the Rev. P. W. Evans, pastor of Methodist Church conducting the services.

She is survived by one sister, Mrs. Bob Lowe, of Los Angeles, also several nephews and nieces, among them being the Editor of this paper.

MAN SLEEPS LIKE LOG, EATS ANYTHING

"After taking Adlerika I can eat anything and sleep like a log, I had gas on the stomach and couldn't sleep. (signed) R. C. Miller. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Often brings out old waste matter you never thought was in your system. Excellent for chronic constipation.
At all druggists.

Have G. D. Hines write your deeds and draw your contracts. He will get them right.

Two ways to make money, sell us your eggs and buy your groceries from W. H. Parker & Son.

SANITATION SAVES LIVES OF CHILDREN

United States Aids Great Work in Santiago.

Washington.—Should a fire sweep through a children's hospital in Santiago, Chile, and snuff out the lives of 789 little children, millions would feel keenest sympathy and presidents and kings would send messages of condolence.

Less spectacular, but far more cheering, is the actual news that 789 lives of children under one year old have been saved in a six months' period in that one city.

And the United States had an important part in this magic boon of modern medicine.

The circumstances emerge into the news because of the announcement of the new sanitary code regulations and the decision of the United States public health service to permit Dr. J. D. Long of its staff to remain in Santiago as technical adviser to the Chilean ministry of hygiene.

Repaying Medicinal Favors.

"It seems only a bit of poetic justice that the United States should minister to the land whose deserts make the world's gardens grow, bind the sores and wounds of mankind, and alleviate the pain of intense suffering in hospitals from New York to Singapore—for those are the effects of the nitrates, the iodine and the cocaine that Chile exports," says a bulletin of the National Geographic society.

"Medicine has wrought powerful changes in the geography of the world," the bulletin continues. "Quinine, for example, has been man's chief ally in conquering the tropics. And recent applications of medical science have been estimated to have saved more lives among the allied nations since the World war than were lost in that titanic struggle.

"Now Chile, by the creation of its national health service, with the assistance of the expert from our country, has embarked upon a program which she believes, at a conservative estimate, will save her nearly 30,000 lives a year.

"Such a program, through the length of her 2,700 miles, from the nitrate beds of Tarapaca to the forests of Tierra del Fuego, and her rich immediate belts of copper, iron, fruits and the only sizable coal deposits in South America, will have an important bearing upon her future geography and upon the world supply of the raw materials and resources she possesses.

"An official resume of the work performed by the national health service since its inception last year, just received at the headquarters of the National Geographic society, tells how a fly elimination campaign, through refuse removal, and certain other sanitary provisions resulted in cutting down the infant mortality rate during the last six months of 1925 by 45.4 per cent over the deaths of 1923; and showed a falling of 31.4 per cent in the number of deaths in 1925 over those of 1924.

What Chile Has Done.

"The elongated republic, with its one-fourth area of islands, has been divided into ten sanitary zones, a corps of health officers has been created, quarantine regulations have been put into effect, physicians licensed and compelled to report communicable diseases, sewage disposal plants installed in small communities, municipal sanitary codes drafted and physical examinations of school children are being gradually provided.

"Infant mortality in Chile has been approximately one-third the total mortality. Of those babies that die under one year of age about 60 per cent die under one month old. Therefore, the report states, a great saving of life, perhaps from 80 to 90 per cent of these deaths, will be prevented by proper hospital maternity provision or mothers.

"Four cities, Santiago, Los Leones, San Antonio and Talca, henceforth are to have their water supplies sterilized with chlorine. Certain cities which have had inadequate water for domestic purposes, including Valparaiso, are being surveyed for an augmented supply.

"In the water shortage, many towns suffer from a condition which makes or Chile's prosperity. Northern Chile is the one arid region of the world which doesn't want more rain. If the climate changed and heavy rains fell periodically the water would gradually dissolve the nitrate and wash away the country's unique reservoir of wealth."

Clock Gives Up After Running 400 Years

East Hendren, Berkshire, Eng.—Day in and day out for more than 400 years the church clock of this village has told the correct time, but at last it has been stopped for repairs, much to the inconvenience of villagers.

There is an ancient clock at Windsor Castle which, according to history, was given by Henry VIII to Anne Boleyn on the day they were married in 1533. It is still going. The oldest public clock now in service with its original mechanism is said by the Horological Journal to be one in the Rye parish church, which was set up in 1515.

Toothache Rheumatism
Neuralgia Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100.

Fred Bruton was in from the Gunn stockfarm Monday trading.

Suffered weak, nervous

"I WAS in a very weakened, run-down condition, surely in need of a tonic and builder," says Mrs. J. R. Wrenn, of Anna, Texas. "I was so weak I had to go to bed, and kept getting weaker."

"I suffered with my back so much. I was very nervous, couldn't rest good at night. I couldn't eat anything—I just wasn't hungry."

"I had read so much of Cardui, I thought best to use it. I took seven or eight bottles, and by the time I had taken them I was stronger than I had been in several years. I can highly recommend Cardui."

Thousands of other women have found that the tonic effects of the purely vegetable ingredients of Cardui were just what they needed to help restore their appetites, to help bring them easily and naturally back to normal health and strength. Its action has been found to be of great benefit in many common female ailments.
