Running-in-oil

You will find in the new running-in-oil STAP the many features you have always wanted in a windmill -one oiling a year-your choice of Timken Tapered Roller Bearings or "NO-OIL-EM" Bearings-two gears, two pinions and two pitmans-direct center lift to pump rod—crosshead, guides and pitmans bearings flooded with oil—a scientifically designed wheel with angle steel arms and braces and ballbearing turn table.

The fans of this new Star are curved to give great efficiency in an 8 to 10 mile an hour wind. Plunger pump in crank case floods crosshead, guides and pitman bearings with oil, and tight cover keeps out dirt, rain or snow.

One filling of crank case with oil each year will save many trips up the tower. May be fitted on any tower.

The new STAR is the last word in Windmill construction. Come in and let us show you this mill. You will want to know about it whether you are needing a new mill right now, and we want you to know what a really fine windmill we have in this new Star.

The poultry devision made a splendid showing and onlyshows EDEN FOOTBALL what valuable birds can be rais.

A big dance platform was on the grounds and those who liked this amusement were entertained to their fullest hope for three nights.

The largeness of the crowd, and the scareity of liquor, was noticable by all who had visited our largest gatherings in times past, only two or three arrests were made during the occasion. all were for drunkenness, and they seem to have all they had in the inside of them No fast driving on or about the grounds was noticable, no accident accitent happened and only one disturbance, that was between a drunk and an officer.

An exhibit was placed togeth r and is now on exibition at the All West Texas Exposition at San Angelo Those who worked at the exibition hall were faith filat hejob and the splendid co-operation from all added to recompleteness of the occis son This event is to be an an nua affair and should grow each year as time goes on.

McCormick Deering Harvesting . MACHINERY

Some of the work the Farmall does

Under average soil conditions the Farmall will plow from 7 to 10 acres a day. Twenty acres a day can be bedded up with two middle breakers and a Farmall. When equipped with mower attachment will cut 20 to 25 acres a day. The Parmall and tractor binder can cut 30 to 35 acres of grain a day. The Farmal does unusually satisfactory work on the belt because the speed of its powerful engine is controlled by a throttle governor. Come in and let us demonstrate this tractor to you.

STRAIGHT TALKS WITH AUNT EMMY

ON HOUSEHOLD BUDGETS

"Aunt Emmy," asked Helen, "won't you explain what is meant by a house hold budget? You said something the other day about budgets, but I don't seem clear in my mind about it."

"A budget is simply a plan," said Aunt Emmy. "You plan what you are going to do with your income. You divide your income systematically so that you can meet your needs. You lay aside a part of your income for rent, other parts for food, clothing, heat, light, telephone, recreation, savings and so on."

"How are you going to know how much you should spend for each thing -on rent for instance, Aunty?" asked

"Experts have studied the question carefully and have worked out budgets to suit every income. Of course, you can alter these typical budgets slightly to suit your particular needs. For example, the average budget that covers incomes of from \$2,000 to \$10,-000 a year divides your income into six parts. Ten per cent for savings, twenty per cent for rent, twenty per cent for food, twenty per cent for what is called betterment and includes education, amusement, entertainment, books, music, sports; fifteen per cent for clothes and fifteen per cent for operating expenses.

"No matter how you change the other items you must not change the savings allowance—except to increase it. A great majority of men who reach sixty are dependent on relatives or charity. If they had saved only ten cents out of every dollar, they would not have been in that plight There is nothing like money in the savings bank to help you through the emergencies that come in everybody's life. If everybody kept one year's in come in the savings bank, much misery would be averted. If you always have enough money to see you through one year, you are pretty safe. Beyond that, it is wise to let your money accumulate until you have enough to buy some good se curities. Your banker will advise you about the securities that suit your

"But, Aunt Emmy, suppose you wanted to alter your budget?" in quired Helen. "How would you know how to do it? A young married couple might start on a certain budget and then, when they had children to feed and educate, they might want to

"Well my dear, if they were in doubt about their financial affairs, they could always consult their banker. That is why it is so good to estab lish friendly relations with a bank when you start out in life. Any bank er will be glad to advise young people about making their money go farther." -A. B. Aymes.

WHAT THE FEDERAL RESERVE HAS DONE FOR BUSINESS

What the Federal Reserve System has done for business is summed up in these points: It has (1) given business greater confidence in the ability of the banks to care for credit needs; (2) introduced an elastic currency and eliminated money panics; (3) eliminated extreme seasonal fluctua tions in rates of interest; (4) brought ousiness safely through the war and post-war crises; (5) saved millions of dollars to business through its efficient system for check collection; (6) made the gold reserve more effec tive as a basis for credit extension in times of extraordinary demand; (7) aided in the financing of foreign and agement, Etc., of The Success domestic trade by developing a dis count market for acceptances; (8) provided a means for handling huge required by the Act. of August financial operations of the govern ment without interference with business; (9) aided in the re-establish ment of the gold standard abroad; (10) given us an experienced banking ing Editor, Business Manager organization which will assist us in meeting the future exigencies of business at home and abroad with courage No Bondholder, mortgages, Etc

Child's Health Maintained By WholesomeDiet

Modern educators are leaning more ach year to the old Greek idea of rearing the citizens of the future. They are working on the principle of 'a sound mind in a sound body."

Good health is built primarily on the foundation of right food. The sort of food the child has determines to a large extent the fitness of the man or woman.

Children have to be taught to like the foods that are good for them much in the same way that they have to be taught arithmetic and history. Boys and girls are not born with any particular desire for cereals or for bread. It's up to their parents to see that they learn the rudiments of a balanced diet and the reason for such a diet. Firmness and patience are often necessary in the teaching, but the job must be done.

Many mothers unconsciously put their children under health handicaps by allowing them to use their own discretion in the matter of eating candy, fruit, nuts and cookies. By se

doing they set a precedent in the matter of other foods and make the eaching of good nutrition harder. One or two articles are not enough

to supply a child's needs for a meal. In order that there be normal devel opment, there must be variety.

Fresh eggs, whole cereals, fruits in season and leafy vegetables should occupy an important part in the growing child's dietary. Then, too, a certain amount of concentrated food is necessary for children, because rapid growth whets their appetites to a razor edge, so that they crave more food than their systems can well dispose of. Evaporated milk, diluted with orange juice as a drink, or in custards or other baked foods, is especially beneficial for the growing child for the reason that it is concentrated to double the richness of ordinary cow's milk and is entirely sterile as well. The can of evaporated milk solves the problem of obtaining perfectly pure milk, as well as the problem of lack of refrigeration facilties, since this type of milk will keep indefinitely in the can.

Milk Gives Most Food Value At Least Cost

Milk gives more food value for ess ost than any other food known to man, according to Herbert C. Hooks secretary of Evaporated Milk

> association. "Dietitians are unanimous in advocating the use of milk by men, women and children," said Mr. Hooks. "Milk and evaporated of all the mate-

H. C. Hooks.

milk supply some rials necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth. "Milk helps repair the wear and tear of the body. It is as good as

meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium. Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, orone pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a cer-

tain amount of iron. "By some authorities milk is said roats, 50 head of Hereford cattle to be an aid in longevity. Dr. Herman Bundesen, health commissioner for Chicago, gives his prescription for long life as follows: Drink one quart of milk a day and mix with one hour of sunshine. Repeat ad infinitum.

"Due to the efforts of health officials to get across to the public the message of milk, its general use in the United States has advanced tremendously in the last decade. This is especially true of evaporated milk for reasons of its convenience and economy. Housewives know there is no fear of obtaining contaminated evaporated milk, because it is not only the best grade of market milk rendered doublerich by dehydrating, but it is steril-

GOLDEN TEXT—Come thou with us
end we will do thee good.
PRIMARY TOPIC—A Journey of
LONG Ago.
JUNIOR TOPIC—Journeying in the
Widerness.
INTERMEDIATE AND SENIOR TOPIO—What Israel Learned in the Wil-

io-What Israel Learned in the

derness.

YOUNG PEOPLE AND ADULT TOPHow God Guides His People.

Israel remained almost one year at Sinal. It was a veritable schooling for them. Their stay was necessary. 1. To allow them to recuperate from the effects of many years of slavery. 2. To train them morally and spiritually for the great work before them The wonderful transactions at Sinai served to inspire them with courage and hope, for through them they came to know God as their king and themselves as His covenant people.

3. To have them thoroughly organ-This was not only necessary for the

march, but for the warfare in gaining possession of the land of Canaan. t. Marching From Sinal at the Hand of Moses (vv. 11-28).

The nation had now grown to a great host-the army itself of 603,550 strong. Allowing three persons to every soldier, there would be 1,810,650. The army was organized into four great sections or divisions with three tribes to each division. The Levites were organized on the basis of the three sons of Aaron-Gershon, Kohath and Merari. The Kohathites had the principal place about the tabernaclescharge of the most precious things. The Gershonites had the next place of honor, while the drudgery fell upon the Merarites.

1. The signal given (v. 11). The lifting of the cloud from off the sanctuary was the signal for the camp to be broken and the march to begin. 2. The signal given to rest (v. 12). Just as the sign to march must be recognized, so the sign to rest must

be obeyed. 3. The Commander (v. 13). God was the Commander through

His servant, Moses. 4. The order of the march (vv.

As they marched the division led by Judah went forward, followed by Gershon and Merari bearing the coarser part of the tabernacle. Then

marched Reuben's division, followed by the Kohathites bearing the sacred urensils of the tabernacle. These were followed by the division of Ephraim and Dan. The ark occupied a central position with the moving

18 Moses Seeking the Help of Hobab Hobab was a shrewd child of the desert. Moses thought therefore that his knowledge thereof would be helpful. The children of Israel were going forth under the guiding care of the Almighty. Surely He could be trusted. Certainly He knew that dreadful wil-

1. "We will do thee good." Moses had faith in God's promises to Israel and could well assure Hobab that good would come to him by identifying himself with God's covenant

people. 2. "Thou mayest be to us instead of

Moses still insisted that Hobab should go along, not only for the good he could get but for the good he might

III. Marching to Canaan With the Lord as Leader (vv. 33-36). Even though Hobab did go with Is-rael, we never hear of his leading the people. The Lord will not have it so.

1. "The ark of the coverant of the Lord went before them" (v. 33). The ark, the symbol of the divine

presence, moved out of its place in the midst of the camp and took its place at the head.

. 2. The cloud of the Lord rested apon them (v. 34). This was an indication that God

was not only leading, but governing 3. The Lord's vindication (vv. 35, Moses' unbelief caused a reproach

unto the Lord. This action on the part of God vindicated His leadership. Moses gave recognition to this act of God in identifying himself with His people. When the ark rested and set forward, he exclaimed, "Rise up, Lord and let thine enemies be scattered and let them that hate Thee flee be fore Thee," and when it rested-"Re urn, O Lord, unto the many thousands f Israel."

God's Love

We are taught to think that God's ove is the biggest thing-in the uni verse. Let us think of some of the higgest things we know, and then we will lift our eyes upon one that is bigger than all.—J H. Jowett.

Happiness Counts Most The will of God respecting is that we shall live by each other's happiness and life, not by each other's misery ... men help each other by their joy, not by their servey.

NOTICE OF ELECTION

Notice is hereby given that a bond election will be held in the City of El Dorado, Texas, on the 19th day of October 1926, in conformity with the following:

ELECTION ORDINANCE An ordinance authorizing an election for the purpose of submitting a proposition for the is suance of waterworks bonds of the City of El Dorado and the levy of a tax sufficient to pay the semi-annual interest and tro vide a sinking fund to pay the bonds at maturity.

Whereas, The Mayor and Board of Aldermen of the City of El Do rado, Texas, deem it advisable to issue bonds of said City for the purpose hereinafter mentioned:

Therefore, Be it ordained by the Mayor and Board of Aldermen of the City of El Dorado Texas that an election be held on the 19th day of October, 1926, at which election the following proposition shall be submitted;

"Shall the Mayor and Board of Aldermen of the City of El D. rado, Texas, be authorized to issue bonds of the City of El Do rade in the sum of Forty-thous and Dollars (\$40,000.00), bearing interest not to exceed six per centum per annum, due and paable serially or otherwise, not to exceed forty years from their date, for the purpose of the pui hase and construction of a wat erworks system in and for said City of El Dorado; and to levy a rose. tax sufficient to pay the semisinking fund to pay the princi Seventh Legis'ature, 1921, at its luck the next time. regular session "

Said election shall be held at City of El Dorado, and the following persons are hereby ap pointed officers of said election: Pete Finley who has been ab

der the provisions of the laws of a pair of long side-burns and a the State of Texas, and only new Ford qualified voters who are property tax payers of the City of El Dorade shall be allowed to yote

at said election. All voters desiring to support the proposition to issue said bonds and levy said tax, shall have written or printed on their ballots the words "FOR THE ISSUANCE OF BONDS", and those opposed, the words "A-AINST THE ISSUANCE OF

The manner of holding said ection shall be governed by the a sa regulating general elections. A copy of this ordinance sign. d by the Mayor and attested by e City Secretary of said City all serve as notice of said elec on; and the Mayor of said City authorized and directed to cause said notice of election be posted at the County Court House door and at the post Offi ce in said City of El Dorado, it r cleast 30 days prior to the date

The Mayor is further authoriz and directed to have said tice of Election Published in ome zewspaper of general ciru ation pudfished in said City which notice shall be published ca each week for four copsecutive weeks, the date of the i.st publication being not less han thirty days prior to the

ate of the election. Passed and approved, this 14 ay of September 1926.

It pas to advertise says John B. Ashmore, last week he adversed that he had a pony that he would let out for his keeping, the next morning after the papper came out a boy was there wanting the pony.

Bad Color (liver trouble)

OCCASIONALLY I am troubled with spells of constipation and inactive liver," says Mrs. John L. Pence, Broadway, Va. "I always use Thedford's Black-Draught when I feel a spell of this kind coming on, for it saves me a bad headache. My color gets sallow at times. I get real yellow, showing that the troable comes from the liver.

"I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught nd make a tea out of it, and take it, along in small doses for several days. I have never found anything that served me so well.
"Since I have known about
Black-Draught, I have not suffer-

ed nearly so much with head-ache, caused from indigestion. If I find my tongue is coated, and I wake up with a bed taste in my mouth, I know I have been esting indiscreetly, and I immediately resort to Black-Draught
