SUBSCRIPTION RATE, ONE YEAR..... \$1.25.

Entered as Second Class matter July 3th, 1906, at the Post office at El Dorado, Texas, under Act of Congress of March 3rd 1879.

Friday, Oct. 8.

All local advertisements will be charged at rate of 5c per line each insertion, Display ads 20c per column inch for one insertion; contract prices furnished upon application special obituary and resolutions charged at rate of one cent per word.

If you ever expect to buy any business property in El Dorado now is the time to buy, it will never be any cheaper

Home brew without a kick is not worth much, neither is the home paper, so if this paper is minus the kick, put us on, one more kick might bring the butter

We are sending out bills for subscription accounts this week and have been receiving a nice lot of subscriptions already, for which we are very thankful. We do not claim to be above errors, but live in hopes that we have made none, however if you receive one that you think you do not owe, just drop in and have the matter adjusted to the satisfaction of each of us

Gosh! things are coming alive in El Dorado, there were twelve at prayermeeting at the Methodist Church Wednesday night. It takes a live town to keep up a live prayermeeting. Ten was more than old Lot could find in prosperous town of Sodom.

Ed Reynolds was in the City Wednesday meeting friends and transacting business, he is now farming on the land that this Editor at one time, in 1900 used to ride broncos on, it took the 11 sections to pay my wages of \$20 per month, and my boss went broke at that. But better times have come, the farm with its fine stock have found its way to the old one man's ranch, now several families occupy a place on it, and a Mexican cotton picker can make more in ninety days than this pencil pusher did in twelve months braking broncs. The ranch, or the most of it, is now owned by Mr. C M Reynolds, father of Ed M. Reynolds, and is just resting around out their while Ed rakes in the sheekles from his fine cotton, grain and Herefords. Such is life in the far (used to be) west.

Twenty four years ago this scribe stood by a dusty roadside in the late afternoon in the new village of El Dorado, and gazed in a stupendous manner upon a small horseless carriage, as it came chucking into town, with El Jackson, Sonora banker hold of the steering wheel, when she parked at the hotel all shops and stores were vacated and the population of our burg were standing around, some trying to wag their ears that the darn thing never

would reach Sonora.

It reached Sonora but never made a great many, but later in years, or six years ago, Mr. Aldwell a nephew of Mr. Jackson came by in an aeroplane, and during the recent Schleiche County Fair, our own daughter, Agnes, soared in the air for 10 minutes, as did several others, and the thing didn't seem to be as doubtful a proposition as the little red auto, El Dorado at this time is a thriving little city just putting on some new life and nature is brighter now than ever before, we have passed the days of the little red autos, yea, we remember when the bicycle came to San Angelo, it too was a funny looking thing and its rider experienced some real thrills as he glided down Chadbourne. But those days are gone for ever and our people are still progressing along many lines, El Dorado has advanced in many ways, since the days of our broncho riding, when we quenched our thirst from a public house trough that watered our city for many years, located on the lot now occupied by W. H. Parker & Son.

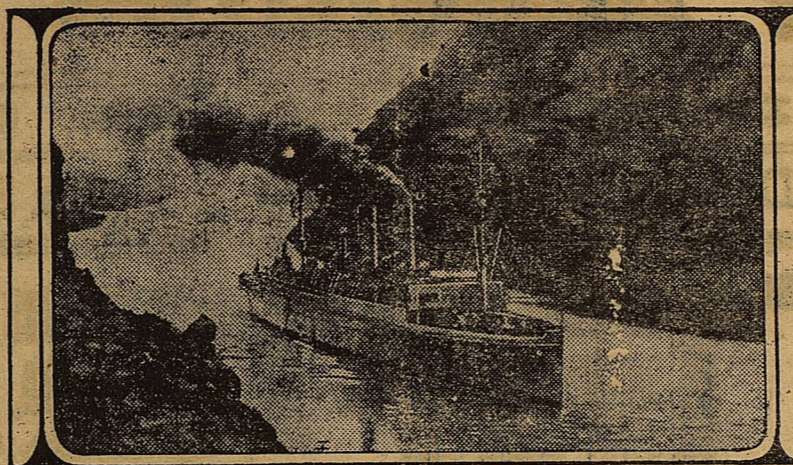

But this watering place became out of date, as did the little red auto, it gave way to better and newer things, but the time has arrived in the growth and progress of our little city, that a better water system is necessary for the health and prosperity of this community. The opportunity is now before the tax-paying voters to improve the condition along this line, the people asked for the opportunity, it has been given them, and they live up to their record the bonds will carry, if they do carry, and the money properly spent, El Dorado will have water for her own people, for the out of town home people and for those who choose to pass our way.

The old dusty road we stood by 24 years ago is now paved, the small four room hotel has given away to modern hostelry, the little red auto gave way to Lincoln, Packard, etc., so will the water system, (if not this time it will later) The trouble with us who were born 50 years or more ago, is becoming reconciled to the change of the times.

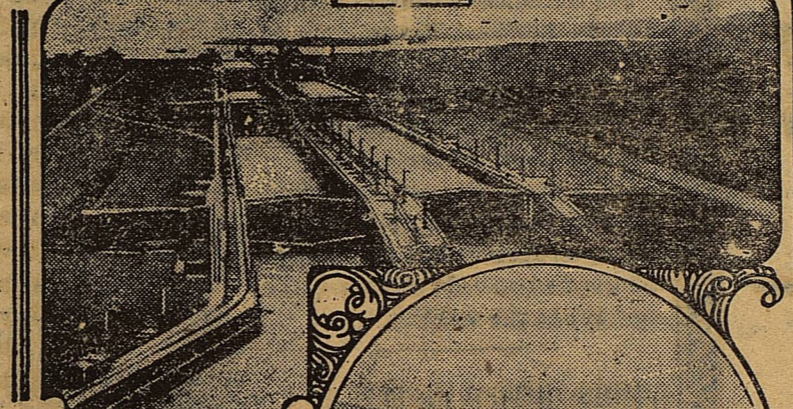

The Farm Beaurough has a chance this year to show it worth to the cotton industry, the prices should be better after the first of the year, to the membership of that organization.

OUR PANAMA CANAL LEADING BRITISH DITCH AT SUEZ IN TRAFFIC TONNAGE

U.S. TRANSPORT "NORTHERN PACIFIC" PASSING THROUGH THE PANAMA CANAL

GATUN LOCKS

Increase of Freight via Panama Route, Largely Due to Oil Shipments, Indicates Rise of United States to Leadership of World's Commerce.

By JUDSON C. WELLIVER

One of the striking evidences of America's rapid rise toward commercial and industrial leadership of the world, is the Panama Canal, which almost certainly handle more freight in 1926 than will Suez. For several years the two canals have been in a neck and neck competition whose implications are the more interesting because the Panama ditch is owned by the American Government, and that at Suez by the British Government.

Of course both Canals are open to the ships of all nations; and the competition between them is not only between the United States and Britain, but in a larger and even more significant view it is competition between old world and new world.

When the Panama Canal was opened in 1915, Suez was already transiting about 25,000,000 tons of freight annually. Almost nobody believed Panama could ever attract anything approaching such a volume. But during the war fear of German submarines in the Mediterranean caused many vessels to take the Panama route between the far east and Europe or American ports. This gave Panama its introduction and it has not only held but greatly increased its business since the war. In 1923 Panama transited 5037 vessels, against 4621 for Suez; Panama handled 25,160,000 cargo tons against 22,770,000 for Suez. This was the first year of Panama's lead.

The following year Suez barely exceeded Panama's tonnage; and in 1925 comfortably held its lead. But reports for 1926 to date indicate that Suez is losing, owing to Britain's industrial depression, while Panama is doing better and is pretty certain to resume the lead.

The present Suez Canal has been in operation nearly sixty years, Panama only eleven. Although few people except antiquarians know it, the first canal at Suez was built more than 3,000 years ago. It was in operation as early as B. C. 1380; how long before, is mere conjecture. Before the Christian era began the ditch had been built, destroyed, rebuilt, silted up and built up again, time after time. When Alexander the Great conquered Egypt the Canal was one of the oldest of engineering works.

Between 1904 and 1915 the present Panama Canal was constructed. It cost about \$400,000,000, Suez about one-fourth that sum. But Suez is a simple, sea-level ditch across a sandy plain; while Panama is a lock canal, the greater part of its length lying 85 feet above sea level, so that most of the distance from ocean to ocean is through an artificial freshwater lake.

Early Profits Unexpected
When Roosevelt started building at Panama, neither he nor any other prophet of optimism would have dared suggest that within its first decade the Canal would earn a profit. Its chief justification concerned the national defense, and the establishment of competition with the trans-continental railroads.

Although both Canals are open to shipping of all nations, British vessels constitute the majority of those using Suez (55.8 per cent), while American vessels are 54.5 per cent of those using Panama.
For 1924, ships of 21 nations used

the Suez route, while 23 nations were represented in the maritime caravan at Panama.

The World War was not the only unexpected factor in bringing Panama so quickly to equality with Suez, nor the most important. The enormous increase in Panama traffic in 1923 was represented almost entirely by petroleum and its products, moving from California to the east coast and Europe. In the year ended June 30, 1924, tolls aggregating \$24,290,000 were collected, of which \$9,071,000 was from tankers carrying petroleum. An even more striking statement of the matter is that for the same year exactly 50 per cent of all tonnage through the Canal was between the two ocean fronts of the United States; that is, 13,500,000 tons; and of this, considerably over 9,000,000 tons, or more than two-thirds was petroleum. It was of course chiefly from California, en route to eastern refineries. In the succeeding year this petroleum movement fell off heavily; but for 1926 it is again increasing and the increase is likely to continue for many years. But for the petroleum traffic, the Canal would have shown a deficit in every year of its operation.

The enormous petroleum business has been in other ways advantageous to Panama. A constantly increasing proportion of maritime shipping nowadays uses oil fuel. Oil-burning ships seek routes on which they can most cheaply buy oil; and because California oil can be put so cheaply into the bunkers of vessels passing through the Panama ditch, there is a substantial inducement to prefer this route. This will increasingly favor Panama and militate against Suez, as the number of oil burners increases. Moreover, Panama's advantage will still further increase as the enormous oil resources of Venezuela, Colombia, and other South American countries are developed.

Great Service of Panama
If cheap petroleum has thus served Panama so well, Panama in turn has equally served the American motorist, who consumes most of the world's petroleum products. For Panama has brought the Pacific Coast petroleum to the eastern market at costs which, but for the Canal, would be vastly greater. Thus the Canal has given the United States the cheapest petroleum products in the world, and helped build the automobile industry and our modern highway system.

This mutually helpful relationship between the Canal and the petroleum users is the more impressive when one realizes that it was not even remotely anticipated at the time President Roosevelt started building the Canal. So late, indeed, as 1910, when Admiral Evans wrote his articles about the Canal and decided that it could not be profitable for several decades at least, he based all his calculations on the probable cost of coal for bunkering ships. He did not dream that merchant marines were on the verge of the revolutionary change from coal to oil. So he figured that, as there is practically no bunker coal in the countries bordering on the Pacific, that ocean could not compete, by way of Panama, for a greatly increased share of shipping. The all development overturned the prophecies of Admiral Evans, and of all others who had foreseen that fuel problems would make Panama unprofitable.

America Leads Nations In Use Of Ice Cream

If any one food may be considered as America's national dish, it is ice cream.

Ice cream is a food particularly adapted to the needs of individuals of all ages, giving as it does the best type of nutrients for the repair of bone, teeth, blood and muscles and for energy.

Today thousands of housewives make their own ice cream. As a consequence, the making of this highly nutritious food at a reduced cost, yet without in any way impairing the product, is of importance.

Home economists have found a means to this end in the use of evaporated milk. There are three important reasons why evaporated milk

makes the best ice cream, they point out. Because 60 per cent of the natural water in evaporated milk has been removed by evaporation, there is over twice the percentage of solids present in this type of milk than there is in ordinary market milk—and, since it is the solids that give ice cream its pleasing flavor, this fact is of moment.

Then, the composition of evaporated milk is constant, for the reason that it has been put through an homogenizing process, which breaks up the fat globules into tiny particles and distributes them evenly throughout the milk. This attribute makes for an ice-cream mixture of uniform quality and fine texture.

Finally, experts agree that the use of evaporated milk in ice cream contributes to its hygienic qualities, for the reason that evaporated milk is entirely sterile. Health authorities declare that milk and cream should be treated to a heat of 150 degrees F. for half an hour in order that a product may be produced free from infective organisms. Evaporated milk is processed at 240 degrees for 30 minutes, and, therefore, its introduction into an ice-cream mixture increases its purity in proportion to the amount of evaporated milk used.

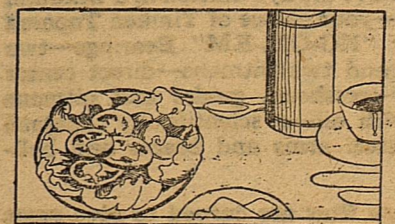

Effective But Simple Dishes Now In Vogue

Something simple, yet effective is the housewife's ideal for week-end dishes.

During the warm summer weather, women should not be compelled to spend hours in the preparation of meals, when minutes would accomplish the same purpose. Planning week-end menus should be a congenial task, not a bore. At this time of the year there are a variety of nutritious vegetables and fruits to choose from in preparing meals and the modern home manager takes advantage of them. The housewife plans her summer menus so that they will suggest coolness, while at the same time taking into consideration their dietary value. A delicious cream soup made from fresh vegetables, or an omelet, a fresh fruit dessert, or a custard, a dish of ice cream, or a pudding, are nourishing items that should find high favor in the week-end menu.

The home manager enjoys her week-ends 100 per cent more when she has a few moments of leisure. And in this connection the following recipes may prove an aid.

Creamy Salad Dressing.
1 cup boiled or 2 milk
1/2 cup mayonnaise 1/2 cup cream
1/2 cup dressing 1/2 cup sugar
1/2 cup evaporated 1/2 cup fruit juice
Combine evaporated milk and cream, chill and whip. Add sugar and juice, then fold into salad dressing. Especially nice for fruit salads.

Chocolate Velvet Cream.
1/2 tsp. gelatin 1 tsp. butter
1/2 cup cold water 1/4 tsp. salt
2 eggs, beaten 1 tsp. flavoring
separate 1/2 cup evaporated
1/2 cup sugar milk combined
1 square (oz.) with
chocolate 1/2 cup whipping
1 cup evaporated cream, chilled
milk diluted with and whipped
1/2 cup water

Soak gelatin in water five minutes, fix beaten egg yolks and sugar, pour, cooled, diluted milk over slowly, put a double boiler with gelatin, butter and salt. Cook until the mixture thickens. This takes about 15 minutes. Strain, beat 2 minutes, let cool. Melt the chocolate over hot water, let cool a little, then add the chocolate and vanilla to the mixture after it has cooled. Fold in the stiff egg whites, then the whipped cream. Turn into a mold and chill at least 1 hour. It may be chilled in individual dessert glasses.

HATS.

I have received a New Shipment of Hats for both Grown-ups and Children, in Straw and Felt.

I also have some new Voils

Just arrived, you will have to see them to appreciate them.

THE SESQUI FROM THE AIR

An idea of the size and scope of the Sesqui-Centennial International Exposition, which will be held in Philadelphia from June 1 to December 1, to commemorate the 150th anniversary of the Declaration of American Independence, is given in this photograph. In the foreground is the great Municipal Stadium, which seats 100,000 persons. North of the stadium can be seen two of the vast exhibition buildings. The first is the Palace of Agriculture and the second the Palace of Liberal Arts. Opposite the latter building is the big auditorium, which seats 20,000 persons on a single floor. To the left of the stadium can be seen the world famous Indian building, the Taj Mahal.

THE SENIOR CLASS.

The Seniors were busier than ever the past week. However, their grades are something to be proud of. The average grade for the Senior is about B plus to A. Many Seniors find it easy to make ninety and above. Bennett Perry and Nellie Mather think 98 and 99 are as easy made as 90.

But that is only one side of the Seniors' achievement. Floyd Young and John Walton Cain earned honors on the football field Friday and Saturday, each played the full length of the games, and each were constantly tearing up the offensive plays of Ozona and Eden. John Walton Cain, though playing in the line at center, made the second touchdown of the season. Floyd Young has received much praise for his hard tackling, and justly too. We regret that our other senior football player, J. L. Trotter, was not able to take part in the games. He will probably be able to play Friday.

The Senior girls on the pep squad did their duty exceptionally well Friday and Saturday. Lucile Page was in San Angelo Friday and Saturday. She came to school all smiles Monday morning. (We have been wondering who she saw in San Angelo.) Bernice Jones entertained the football boys Saturday night. All the boys report that the party was a great success.

Miss Tommy Dee Oliver, one of our home grown school teachers, was spreading smiles in El Dorado Tuesday, was in after report cards for her school. When we say home grown, we mean the best, home grown is always the best, unless it is home brew, some of it according to court evidence is rotten. But when it comes to home grown peaches they can not be beat, especially if the peach is a school teacher. Tommy is one among many that Schleicher County has sent out to "Brighten the Corner Where They Are."

Lesson for October 10

THE REPORT OF THE SPIES

LESSON TEXT—Numbers 13:17-14:45. GOLDEN TEXT—We are well able to overcome it. PRIMARY TOPIC—Two Brave Spies. JUNIOR TOPIC—Two Against Ten. INTERMEDIATE AND SENIOR TOPIC—The Brave and the Cowardly Spies. YOUNG PEOPLE AND ADULT TOPIC—The Courage of Faith.

I. The Spies Sent Out (13:17-20). Less than two years have passed since the Israelites were delivered from Egyptian bondage. They are now at Kadesh-Barnea within sight of the promised land. Moses urged them to go in and take immediate possession (Deut. 1:21).

The record in Deuteronomy 1:19-25 shows that God did not take the initiative in sending out the spies, but that the people because of lack of faith made the request. There was a threefold purpose in sending out the spies.

1. To see whether the land was as God had told them (v. 18).
2. To see whether the people who dwelt there were strong or weak, few or many (v. 18).
3. And to see whether the cities were made up of strongholds or of tents (v. 19).

II. The Commission Executed (13:21-25). They entered the land from the south and traversed it to its northern limits. On their return from the north they gathered some specimens of the fruit of the land.

III. The Spies Rendered a Report (13:26-33).

1. The majority report (vv. 26-29).
(1) The land floweth with milk and honey (v. 27).

As a proof of it they displayed the fruit.

(2) The people who live there are strong (v. 28).

(3) The people lived in walled cities (v. 28).

(4) The land is inhabited by giants (v. 28, cf. 33). In comparison with the inhabitants of the land they saw themselves as grasshoppers. Furthermore, they saw the people so distributed—the Amalekites in the south country, the Hittites, Jebusites and Amorites in the mountains, and the Canaanites along the seacoast—that it was impossible to conquer them.

2. The minority report (vv. 30-33).

In part this report agreed with the first. It did not ignore the difficulties, nor dispute the facts, but it did deny the conclusion of the majority. They did not minimize the task before them, but asserted with God's help that they were well able to get possession of the land, and urged immediate action.

IV. The Rebellion of the People (14:1-45).

This rebellion began by crying (vv. 1-3). They lifted up their voices and cried, and the people wept that night. They even wished that they had died in the wilderness or in Egypt. God took them back to wander in the wilderness for thirty-eight years.

2. Proposition to return to Egypt.

Their crying was followed by a proposal to organize for the return to Egypt. They purposed to select a captain as their leader. Joshua and Caleb protested against this, which so exasperated the people that they were about to stone them. At this point God interposed in their behalf.

3. God's wrath upon the people (vv. 14-15).

Because of their unbelief He proposed to smite them with pestilence and to disinherit them, supplanting them with a nation mightier than they.

4. Moses' intercession in behalf of the people (vv. 14-19).

Moses plead with God against this judgment because the Egyptians would hear of it and blaspheme and this they would pass on to the other nations, saying that God was not able to bring them into the land.

5. The Lord's response to Moses' plea (v. 20-30).

He assured Moses that He had granted pardon according to his intercession, but told him that although He would bring them into the land according to His promise, yet with the exception of Joshua and Caleb the men of that generation should be destroyed.

6. The presumption of the people (vv. 40-45).

Having in unbelief refused to go up at the command of Moses, now in presumption they go. Moses advised them against such presumption, saying, "The Lord will not be with you."

Reverence for God
Your reverence for God increases as you meditate upon His matchless work and His wonderful works to the children of men.—Gospel Herald.

Elect and Non-Elect
The "elect" are the "whosoever wills"; the "non-elect" are the "whosoever won'ts."—Echos.

NOTICE OF ELECTION.

Notice is hereby given that a bond election will be held in the City of El Dorado, Texas, on the 19th day of October 1926, in conformity with the following:

ELECTION ORDINANCE
 An ordinance authorizing an election for the purpose of submitting a proposition for the issuance of waterworks bonds of the City of El Dorado and the levy of a tax sufficient to pay the semi-annual interest and provide a sinking fund to pay the bonds at maturity.

Whereas, The Mayor and Board of Aldermen of the City of El Dorado, Texas, deem it advisable to issue bonds of said City for the purpose hereinafter mentioned: Therefore, Be it ordained by the Mayor and Board of Aldermen of the City of El Dorado Texas, that an election be held on the 19th day of October, 1926, at which election the following proposition shall be submitted: "Shall the Mayor and Board of Aldermen of the City of El Dorado, Texas, be authorized to issue bonds of the City of El Dorado in the sum of Forty-thousand Dollars (\$40,000.00), bearing interest not to exceed six per centum per annum, due and payable serially or otherwise, not to exceed forty years from their date, for the purpose of the purchase and construction of a waterworks system in and for said City of El Dorado; and to levy a tax sufficient to pay the semi-annual interest and provide a sinking fund to pay the principal of said bonds at maturity, as authorized by the Constitution and laws of the State of Texas, including Chapter 9 of the General Laws passed by the Thirty-Seventh Legislature, 1921, at its regular session."

Said election shall be held at the County Court House in the City of El Dorado, and the following persons are hereby appointed officers of said election: Sam E. Jones Presiding Judge; G. M. McWhorter, Assistant Judge; and E. W. Brooks and Joe Williams, Clerks.

Said election shall be held under the provisions of the laws of the State of Texas, and only qualified voters who are property-tax payers of the City of El Dorado shall be allowed to vote at said election.

All voters desiring to support the proposition to issue said bonds and levy said tax, shall have written or printed on their ballots the words "FOR THE ISSUANCE OF BONDS", and those opposed, the words "AGAINST THE ISSUANCE OF BONDS".

The manner of holding said election shall be governed by the laws regulating general elections.

A copy of this ordinance signed by the Mayor and attested by the City Secretary of said City shall serve as notice of said election; and the Mayor of said City is authorized and directed to cause said notice of election to be posted at the County Court House door and at the post office in said City of El Dorado, at least 30 days prior to the date of said election.

The Mayor is further authorized and directed to have said notice of Election Published in some newspaper of general circulation published in said City. Such notice shall be published once each week for four consecutive weeks, the date of the first publication being not less than thirty days prior to the date of the election.

Passed and approved, this 14th day of September 1926
 C. A. Spencer Mayor, City of El Dorado, Texas
 Attest: A. A. Bush, City Secretary, City of El Dorado, Texas.

VISITED EL DORADO.

County Agent, W. R. Nesbet, was in El Dorado one day last week where he went to judge the farm products on exhibit at the county fair held in that City. Mr. Nesbet reports that the people of that County have constructed new buildings, made a one half mile race track and made other necessary arrangements for the staging of a dandy annual fair. It requires untiring effort, the expenditure of considerable money and the general co-operation of all to make a county fair a live and constructive community feature—San Angelo.

Dr. Sadie Coghill, Osteopathic Physician, of San Angelo, will be at the Hotel Eldo, El Dorado, each Monday, Wednesday and Friday afternoon. (adv)

B. E. Moore made The Success office an appreciated visit Tuesday, renewing his subscription and smiling at the same time.

Mr. and Mrs. A. J. Atkins spent Sunday at Miles guest of Mr. Atkins parents.
 Miss Georgia King was shopping in the city Tuesday, from the ranch on Middle Valley

 Preston Chick was over from Iron county this week shaking hands with friends. Preston is the Democratic nominee for the office of Tax Assessor of Iron county and we predict he will make a good one.

Run-Down
 gave out easily

"MY health wasn't any account at all," says Mrs. H. L. Cayton, of Washington, N. C. "I would start to do my housework and I would give out before I had done anything at all. I did not have any strength, and if I did the least thing it seemed to tax me so I could not finish. I was run-down sure enough. Several of my friends had taken Cardui and they said to me, 'Why don't you try it?' I knew I needed something to build up my general health and to increase my strength. Finally one day when I was recovering from a spell of sickness, I decided to try Cardui. I got a bottle and began to take it. I could notice that I was improving as my appetite got better and I did not give out nearly so quick. I took several bottles and I felt lots better. Two years ago I decided to take it again. It built me up and made me feel like a different person. It is the grandest medicine for women that I know anything about."

CARDUI
 For Female Troubles

Genuine

ASPIRIN
 SAY "BAYER ASPIRIN" and INSIST!
 Proved safe by millions and prescribed by physicians for
 Colds Headache Neuritis Lumbago
