## STAR Running-in-oil

You will find in the new running-in-oil STAR the many features you have always wanted in a windmill—one oiling a year—your choice of Timken Tapered Roller Bearings or "NO-OIL-EM" Bearings—two gears, two pinions and two pitmans—direct center lift to pump rod—crosshead, guides and pitmans bearings flooded with oil—a scientifically designed wheel with angle steel arms and braces and ball-bearing turn table.

The fans of this new Star are curved to give great efficiency in an 8 to 10 mile an hour wind. Plunger pump in crank case floods crosshead, guides and pitman bearings with oil, and tight cover keeps out dirt, rain or snow.

One filling of crank case with oil each year will save many trips up the tower. May be fitted on any tower.

*The new STAR is the last word in Windmill construction. Come in and let us show you this mill. You will want to know about it whether you are needing a new mill right now, and we want you to know what a really fine windmill we have in this new Star.*

## DOES ELDORADO WANT GOOD WATER SYSTEM

Many questions are being asked, just what about the proposed plans to get a good water system for El Dorado. The plan is to vote the bonds at 5-3-4 per cent interest, to run about 35 for 40 years, to the amount of forty thousand dollars, of this amount \$8,897.00 is to be paid for the present water works, this being the amount that the Engineer said it was worth to the new system. Mr. Enoch has agreed to accept this amount in case the bond issue carries.

The plans for the new system can be seen at the City Secretary's office, which explains in full the whole system. The bonds are already sold at par value with accrued interest, in case they are voted which is considered a good sale by all who are familiar with the bond business. The time has come when the people are going to have to supply themselves with water, either by voting bonds or by private well, so the only feasible way it seems is to vote for the bonds, as it is impossible to water El Dorado with the present water system. Mr. Enoch says he is unable to finance an adequate system that will supply the town, neither is he able to find a buyer for the plant, therefore he is willing to take the figure that has been made by the City's engineer. Now it's up to the people to supply themselves with drinking water. If the bonds fail the water system will remain in Mr. Enoch's hands.

## THE SENIOR CLASS.

By the busy manner that all the Seniors have assumed, one would think that each Senior is working hard to win a scholarship at the end of the year.

School work has kept the Seniors so busy that no Senior activity has taken place during the past week. The Seniors are however taking an important part in all school activities. Floyd Young, J. L. Trotter, and John Walton Cain are Senior boys who are playing football and Bernice Jones, Herma Lee Hooker, Annice Putman, and Agnes Wright are members of the Pep Squad.

During the past three months they have had many members. Some changed their homes, changed their schools while a number chose to remain Juniors for another year. We are very proud of J. L. Trotter who is a new member and promises to make a fine football man. New members will come we think within a few days, and these students will be welcome.

Class Reporter

The Junction Paper and the Ozona Paper changed hands this week, it seems like it is hard to keep a small country paper going. An editor can strive until his vitality weakens and then some fellows want to know why he doesn't get some news in the old rag. We have been on the job in The Success office for the past 20 years a good while to hold down one job, and have made improvements along with the town since we have been in charge. If we get the proper kind of electric power in our city we will soon have a Lynotype installed and a larger shop. We like the work although we fall short at the job some times, but who wouldn't. Our circulation has grown although we have never put on but one contest. There are quite a few that don't subscribe for the Success, some because they cannot dictate its policies others do not like our stand on public issues and some although they have everything in life they want, are not able to take the paper, just too poor. Of course we cannot please the entire neighborhood, neither could you if you were on the job. We tell the truth about some things, but other things we leave the truth untold because we do not carry much life insurance, but we want you to read The Success, if you do not subscribe for it, borrow your neighbors when they get through with it, read it regardless of how you get it except subscribe and no pay for it.

We are proud of our subscription list, proud of our County and proud of our citizenship, if we was not we would move. We get hungry for a vacation once-in-awhile and maybe in the years to come that vacation is coming. But in the mean time we will take on new subscribers and appreciate all news items.

# Sunday School Lesson

By REV. F. B. FITZWATER, D.D., Dean of Day and Evening Schools, Moody Bible Institute of Chicago.  
(©, 1924, Western Newspaper Union.)

Lesson for September 28

REVIEW—EARLY LEADERS OF ISRAEL

**GOLDEN TEXT**—Let us run with patience the race set before us, looking unto Jesus, the author and finisher of our faith.—Heb. 12:1, 2.  
**PRIMARY TOPIC**—Favorite Stories of the Quarter.  
**JUNIOR TOPIC**—Stories of the Leaders of Israel.  
**INTERMEDIATE AND SENIOR TOPIC**—Striking Incidents of the Quarter.  
**YOUNG PEOPLE AND ADULT TOPIC**—The Main Teachings of the Quarter.

It is strange that the lesson committee should have selected the title "Early Leaders of Israel" when only Moses appears. A better title would have been "Moses, the Leader of Israel." In such a case consideration should be given to Moses' life, character and teaching. Indeed, a good method of review would be to use this plan for the quarter's lessons. Another method of review would be to give a synthetic view of the book of Exodus, since all the lessons of the quarter are taken from that book. However, for the senior and adult classes the best method will be to recall the principal fact and then state the leading lesson of each Sunday's lesson of the quarter. To aid in this, the following suggestions are given:

**Lesson for July 4.**  
When the time drew nigh for God to deliver His chosen people He caused them to multiply greatly. Envy and alarm incited the new king to institute measures to check Israel's increase. The attempt to carry these measures out not only displayed their futility but brought to be sheltered and nurtured in the king's palace the very one who later upset Pharaoh's throne.

**Lesson for July 11.**  
When Moses was born, his mother perceived that he was a child of destiny. The king's edict was that every male child should be destroyed, but the faith of his mother moved her to hide him. When no longer able to hide him he was preserved in an ark of bulrushes and taken in charge by Pharaoh's daughter. At the suggestion of Miriam, his mother was called as a nurse. He was educated both at his mother's knee and in the Egyptian court.

**Lesson for July 18.**  
While Moses was keeping Jethro's sheep, God appeared to him in a burning bush and commissioned him a deliverer of His people. Moses faltered but God patiently heard and met his difficulties.

**Lesson for July 25.**  
In memory of the great deliverance of Israel from bondage, the passover was instituted. All who were under the blood were saved from the destroying angel.

**Lesson for August 1.**  
God permitted the Israelites to get into straitened circumstances after leaving Egypt, in order to teach them to trust Him and also to lay a snare for the enemy.

**Lesson for August 8.**  
Before going far into the wilderness the people lusted for the fleshpots of Egypt. God answered their murmurings by giving them quails and manna to eat. Christ is the true manna sent down from God to man. Those who eat of his bread shall never die.

**Lesson for August 15.**  
Jethro, seeing Moses completely occupied with the judging of Israel, advised that Moses should be to the people Godward and that all the weightier matters should be cared for by him and that suitable men should be appointed to judge the smaller matters. God's work should be carefully organized so as to relieve his ministers of unnecessary burdens.

**Lesson for August 22.**  
To love God with all the heart, soul, strength and mind is the fulfillment of the first four commandments of the Decalogue.

**Lesson for August 29.**  
Loving our neighbor as we love ourselves is the fulfillment of the last six commandments of the Decalogue. Supreme love to God and love to our fellowman as we love ourselves is the sum total of human duty.

**Lesson for September 5.**  
God through Christ dwells in the midst of His people—just as He did in the midst of Israel in the tabernacle.

**Lesson for September 12.**  
In carrying on of God's work all should offer willingly such gifts, as they have.

**Lesson for September 19.**  
Disobedience to God's laws always brings calamities, while obedience to God's law is always accompanied with blessings.

**Our Assignments**  
God never gave man a thing to do, concerning which it were irreverent to ponder how the Son of God would have done it.—G. Macdonald.

**A Prayer**  
Father, we thank Thee for Thy tender mercy and Thy loving kindness shown us in so many ways.

**The Humble Saint**  
A humble saint looks most like a citizen of heaven.—Echols.
