SCHLEICHER COUNTY 4-H CLUB WINS MANY PRIZES AT FT. WORTH

Alfredo Aredondo Gets Four Years In Penitentiary

The jury in the case of Alfredo Aredondo, who was tried for murder of Domingo Bueno last October, on the Ira McDonald ranch, was assessed four years in the State Penitentiary Wednesday. The son Rohelia Aredondo, is now on trial.

JOHN W. HENDERSON, CROCKETT COUNTY PIONEER, DEAD

John W. Henderson, 77, a pioneer of Crockett County died Wednesday at a San Angelo Hospital, his remains will be taken to Ozona for interment. Mr. Henderson is a native Texan and spent the most of his life in West Texas and the past 45 years at Ozona, he is survived by six children.

HOWARD BABB GOES TO WICHITA

Rock Springs Record—Howard Babb left the latter part of the week for Wichita Falls, where he will report to the ball team there on a try-out in the Texas League.

Mr. Babb is a product of Edwards county, and his pitching has been pronounced by experts, including our fellow citizen, Sam Gray, pitcher for the St. Louis Browns, as being equal to, and superior to many in the big leagues today holding high favors with the club managers and fans.

"Pretty", as we call him, will in our opinion, make good, and go forward rapidly in the baseball world, for he has just what is wanted in the larger leagues, a young man with a good pitching arm, a level head, good habits, and a disposition to take advice from those who have mastered the game.—Rock Springs Record.

SHERIFF BRINGS IN NEARLY FROZEN MAN

Big Lake Wild Cat—Jimmie Boyde who gives his address as Mobile, Alabama, was picked up Monday morning at about 11:00 o'clock a mile east of town in an exhausted condition and almost frozen. Passersby reported the find to the sheriff's department and they got busy and brought the man in and put him to bed at the Big Lake Hotel where he rested all that afternoon and recovered sufficiently to tell his story. Immediately upon his being brought to town Dr. Pattison was called in but could find no particular thing wrong with him. He was given nourishment and it is stated that he later told that he had had nothing to eat for five days.

Boyde has been enjoying the comforts of a good bed and eats since being brought in and has found employment and will be none the worse for his experience it is to be hoped.

J. H. Rodgers was in the city Monday looking after the taking of the school census.

Master Tom Wesley Enochs won the Shetland pony at the close of the show Saturday night, his nearest opponent in votes was Billy Galbreath.

Mrs. T. W. Johnson was shopping in the city Monday.

Marvin McDonald was in the city Saturday from the stockfarm west of town.

Christoval Pioneer Celebrates 84th Birthday

Mrs. L. M. Mires of Christoval, Texas, celebrated her 84th anniversary, Sunday March 1st, her birthday being February 26. Many relatives and friends were present to extend congratulations and best wishes.

Mrs. Mires just recently recovered from a serious illness. She came to the South Concho in the 70's and has continued her residence at the place she first settled. She has witnessed many changes in the customs of the people during her 84 years of which about 55 years have been spent at her present home. She has children, grand children and great grand children. Many a weary travels, seeking fortune in the West have found refuge under her roof and food from her table.

Mary Isabelle Myres

Mrs. Mary Isabelle Myres, was born February 14, 1853 and died March 6, 1931. Age 73 years.

Mrs. Myres made Eldorado her home for many years and her husband died while making his home here. Mrs. Myres has made her home with her children since his death, and her body was shipped here over Santa Fe, Friday and laid to rest beside her husband in the Eldorado Cemetery Friday afternoon. The Rev. J. L. Ratliff conducting the service from the grave side.

QUESTIONS ON BRAZIL FOR THE WOMAN'S CLUB

1. Compared with the United States, what is the extent of Brazil?
2. What can you say of the Agricultural prospects of Brazil?
3. Tell something of the Railways of Brazil.
4. What are the characteristics of the Brazilians?
5. What proportion of the World's supply of Coffee does Brazil produce?
6. What part does Coffee play in the social life of Brazil?

P. T. A. TO MEET FRIDAY 3:30 P M

Mrs. Mary Davis reports that the Parent Teachers Association will hold their next regular meeting on Friday (today) March 13, The P T A entertainment with a program at the school auditorium last Friday night, the program was rendered by the grammar grade together with the Choral Club assisting.

REV. J. D. McWHORTER TO RUDD SUNDAY

The Rev. J. D. McWhorter will preach at Rudd next Sunday morning and the Rev. Batchelor, Presiding Elder, will preach at Rudd in the afternoon.

Preaching at Eldorado Sunday night by the Pastor. Everyone invited to Sunday School and preaching services each Sunday at the Methodist Church.

COME COME

Fishpond Candy and Cake Sale—McWhorter Building Saturday afternoon 2:30. Woman's Auxiliary of Presbyterian Church.

Mrs. C. M. Reynolds was reported real sick the first of the week, on the ranch northeast of Eldorado.

District Court Met Monday

The District Court met Monday March 9 and the following 12 men Roy Andrews, Claud Bruton, Sam E. Jones, J. F. Kinser, Tom R. Henderson were appointed as grand jurors:

W. A. Davis; H. Freund; A. B. White; V. H. Humphrey; L. M. Hoover; E. W. Brooks and C. S. Chick.

The Docket was then called and most all cases were continued.

The Porter will case was continued until next court. The case against the Mexican woman who shot and killed a Mexican man is a railroad camp here last year was dismissed.

The Grand jury after a few hours in deliberation Monday adjourned for the term, after finding one bill, against a Mexican who killed another Mexican on the Ira McDonald ranch several months ago. The Mexican is in jail.

W. R. NEWMAN GETS ONE YEAR IN PENITENTIARY

W. R. Newman, was convicted in District Court Tuesday and given a year in the penitentiary, for possessing liquor. The jury was out only about 30 minutes.

Camp Schuyler Sutton Disbanded

Five of Six Aged Veterans Vote Action

W. M. MURPHY, BRONTE, DISSENTS

San Angelo, Standard—Camp Schuyler Sutton, United Confederate Veterans No. 1463, once a strong organization of young men, was disbanded here yesterday afternoon by the vote of five aged veterans—but over the vigorous protest of the youngest, yet the oldest in years—of the half dozen who gathered at the courthouse Sunday afternoon at the special call of Commander J. M. Isarel.

Veterans' meetings during the last few years have been called "pathetic" by some. There was nothing pathetic about the meeting here yesterday afternoon when Commander Isarel called the meeting to order promptly at 3 o'clock and in a voice loud and clear enough for every man in the room to hear, explained the purpose of the meeting was to consider disbandment. All the other camps had been disbanded in this area, he said. He called for a vote. Five of the six, stood.

"Those in favor of continuing the camp will stand," he said.

W. M. "Bill" Murphy of Bronte literally jumped to his feet. His heels clicked together as he spat "I'm agin' disbanding. I rode with Morgan's Raiders and we never laid down on a job."

The little bewhiskered man from whom the protest came is 87 years old. J. H. McCormick of Eldorado, who acted as commander at the meeting in Christoval last summer, due to the illness of Commander Isarel, is 85. Commander Isarel, R. C. Bates and J. P. Dugan of San Angelo is 84 years old and S. J. Martin of Bronte is a year their junior. The last five named a vote to disband.

Commander Isarel entered the minutes which disbanded the camp.

This action does not affect the annual reunion of the Mountain Remnant Brigade which meets in Christoval each summer. The meeting this year is set for the last three days in July and every veteran at the meeting yesterday plans to be at the meeting.

There are 19 living members of Camp Schuyler Sutton but only six of them were able to be at the meeting yesterday. Several of the Daughters of the Confederacy also attended the meeting yesterday. They included Mrs. Mary Mims and Mrs. Bettie Magruder.

W. E. Baker was in from the ranch Wednesday shaking hands with friend and buying supplies.

Miss Ruth Baker was in the city Saturday shopping and visiting.

L. E. Ratliff Sells Fine Herefords

L. E. Ratliff sold last week to West Texas Hereford breeders, some of his fine Hereford stock.

Sold to C. C. West, 3 heifers yearlings at \$75.00 each.

To Author Stewart of Sonora a yearling Bull for \$200.00.

Sold to Henry Speck a yearling, \$145.00. He sold his Herd bull to Joe Tisdale for \$325.00.

Mr. Ratliff while at the Sweetwater Sale last week bought a herd bull from Ed Hendon, paying \$500.00 for the animal.

Mary O'Harrow Married To Luke Robinson

Miss Mary O'Harrow became the bride of Luke Robinson Saturday morning when the marriage ceremony was performed by the Rev. Mr. McGraw of Christoval at the ranch home of Mrs. H. O'Harrow, the bride's mother.

Following their marriage, Mr. and Mrs. Robinson left for Fort Worth. They will be in Dallas and San Antonio before returning to Mr. Robinson's ranch, 15 miles east of Eldorado. They will be at home March 17.

Only members of the immediate families and a few friends were present for the ceremony. Those present were: Jim O'Harrow and Willie O'Harrow, Jim Parker, Mr. and Mrs. Arch Mittel of Sonora, Mrs. J. E. HERSHEY and Mrs. C. E. Oates of San Angelo, Mr. and Mrs. J. F. Hornbeck of San Antonio, Miss Lou Anna Oates of San Angelo and B. F. Robinson of Eldorado.

Mrs. Robinson was graduated from the San Angelo High School and attended McMurry College in Abilene.—San Angelo Standard.

DISTRICT COURT FINISHES WORK IN ONE WEEK

O. E. Conner announces that those summoned to appear for the second week of court (next week) need not appear, as the Court finished work and has adjourned.

MAIL ARRIVAL CHANGED; WILL ARRIVE ONE HOUR LATE

A. J. Atkins announces owing to the change in train service in San Angelo the mail will arrive one hour later than has been, in Eldorado. The new schedule will begin next Monday.

WOMAN'S CLUB TO SPONSOR COMMUNITY BEAUTIFYING CONTEST

That our little city may join the ranks of hundreds of cities in our broad land in the movement for community beautification, the Woman's Club of Eldorado is sponsoring a flower growing contest for the children of Ages 11 to 15 years living in Eldorado.

As the work will extend into the summer months, it is not advisable for children leaving the city after the close of school to enter the contest.

At the close of the contest a two and a half dollar gold piece will be awarded to girl winner and one to the boy winner.

The date of judging will be announced at the school before its close and also in The Success.

All children whose parents have given them permission to enter contest, please hand your name to your teacher not later than Monday, March 16.

Seeds will be furnished free to all those entering contest.

McIntyre Case Out Of Court

Charge Dismissed After Third Jury Fails To Agree

JUNCTION, March 7.—Charges of cattle theft against S. H. McIntyre of Fort Stockton were dismissed, in district court here today after the third jury to hear the case had deliberated for 40 hours without reaching a verdict. A companion case against Pete McIntyre, brother of S. H. McIntyre, was continued until the next term.

The three men had been charged in connection with the theft of 12 head of cows from Frank Waddell in Pecos county in September, 1929. A dozen indictments were returned against the three men, but all of them except the one case against Pete McIntyre have been dismissed. S. H. McIntyre is the only one actually brought to trial.

Of the four trials held in his case, three resulted in hung juries and the other was halted by the death of a juror's father. The last case started here Tuesday after being postponed from Monday. More than 100 witnesses were summoned by state and defense. It went to the jury at 11:10 o'clock Thursday night. The jury was not dismissed by Judge Joe Montague, who has heard the trials until this afternoon about 3:30 o'clock. Twice Friday the jury reported it could not agree, only to be sent back for further deliberation by Judge Montague. Intense interest has surrounded each of the trials which resulted in the charges against S. H. McIntyre being dismissed this afternoon.—San Angelo Standard.

INSTALLATION OF OFFICERS FOR BEV McCORMICK POST POSTPONED

Don McCormick received a telephone message Monday afternoon that the man who was to preside and install the officers of the Bev McCormick Post could not be here Monday night as was announced last week but would be in Eldorado Wednesday night March 18 for the installation of officers.

TO DEMONSTRATE WHITE SWAN COFFEE AND BROWN'S CAKES

I have made arrangements to demonstrate White Swan Coffee and Brown's Cakes and Crackers Saturday March 14 and invite everyone to call and try some of this Quality Merchandise we are offering to the buying public.

C. S. Gardener and wife were here last week from Slaton, visiting friends and looking after business.

Schleicher County Lambs Take Practically All Ribbons At Fat Stock Show

According to the Dallas News and Fort Worth Star-Telegram, the Schleicher County 4-H Club Boys made a big winning with their lamb exhibit at the Ft. Worth Fat Stock Show, repeating what they did last year. The Star-Telegram carried a picture of Cecil Moore and his prize winning lamb.

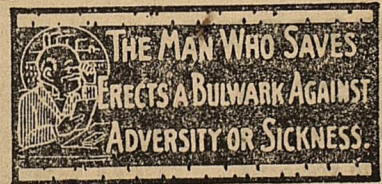

Below is a clipping from the Dallas News:

Persistent Boy Wins.

"Schleicher County was a heavy winner in the sheep division of the show, taking practically all the ribbons in the individual, group of three and group of fifteen for fine wool sheep. Besides the county won the grand championship in the carlot class. The fitting of the sheep was under the supervision of L. E. Sumner, County agent for Schleicher County. Cecil Moore of Eldorado won first, second, third and fourth and championship for individuals in the fine wool class. He is a keen, hard-working 13 year old boy, who had a lamb in last year's show, but stood so far down the line he made up his mind to bring back some real bacon this year. His lamb, Shorty, was named champion of the fine-wool class.

In the carlot division club classes Cisco vocational class was second and San Angelo third and Rock Springs fourth. In the open classes Schleicher County was first, Cisco vocational class second and Howard Sanech third.

All Schleicher County is proud of the showing the 4-H Club Boys made and congratulate our County Agent for the showing made for the stock interest of this county. Schleicher county made an excellent exhibit last year, but some of our people thought it was on account of other exhibits not coming up to standards, but winning the second year in succession looks like we actually possess the goods for the winning. Our stock actually grows larger, feeds out better and brings better results to the producers.

least we can do is to do our part, as
 individuals, to make 1931 as far as
 possible, a "fireless year."

**DEBATE REVEALS FARM FUNDS
 ARE AT ROCK BOTTOM**

By J. E. McDonald
 AUSTIN, Tex. Feb. 23—That the de-
 partment of agriculture is the only
 state department whose appropriations
 have actually decreased during the
 past decade was forcibly brought home
 here in the Texas legislature during
 debate over emergency fund requests.
 All other departments, several speak-
 ers related, have steadily increased
 their biennial requests, and some have
 had their appropriations doubled and
 trebled. But the department of agri-
 culture, with new duties placed upon
 it with the growing recognition of
 services to the farmer, has seen its
 funds dwindle as its duties increase.

On first consideration the house, de-
 spite these uncontroverted figures, cut
 the requested \$43,000 to \$5,000, in ef-
 fect asking the department to operate
 the rest of this fiscal year on 12 per
 cent of what its officials considered
 essential. Emergency funds from 60 to
 88 per cent of current funds expended
 with six months to go.

Unless reconsidered, this drastic cut
 will react to the detriment of the farm-
 ers, commented J. E. McDonald, com-
 missioner of agriculture.

"In the name of economy," he said,
 "the man who defeated the appropri-
 ations are denying Irish potato grow-
 ers valuable Northwest markets; en-
 dangering recently opened avenues of
 trade for the sweet potato.

"The farmer will suffer from this
 false economy. The farmer bears the
 heaviest burden of taxes, and is also
 being sheared closest in the economy
 program.

"The house very properly refused to
 cut the \$91,000 asked by the Sanitary
 Livestock commission, and I believe
 general farm interests are within
 reason when they seek less than half
 that amount."

Figures from representative states
 were cited, showing Texas spends less
 per rural capita and less per acre than
 any other state for the support
 of the state department of agriculture.

The Texas budget in 1930 called for
 \$137,270, which was one and one-quarter
 mills per acre, and six and one
 half cents per rural capita. Iowa, an-
 other great farm state, spends \$638-
 890, or nearly two cents per acre and
 67 cents per rural capita. In Georgia
 agriculture gets \$269,120, which is 1.2
 cents per acre, and 20 cents per rural
 capita.

Phrased another way, Texas has a
 total appropriation equal to 51 per
 cent of Georgia's, and 22 per cent of
 little New Jersey's; a cost per rural
 capita 1.5 per cent of the amount spent
 in New Jersey, and 81.6 per cent of
 the amount spent in Georgia.

So far as Texas is concerned, bene-
 ficial effects of the vogue for smocks
 will not be confined to the planter.
 There are more garment factories in
 Texas than the uninitiated might
 imagine, and many of them have in-
 cluded a wide variety of the colorful
 cotton garments in their spring show-
 ings.

**WHAT THE RAILROADS DO
 FOR THE NATION**

The strong relation that exists be-
 tween the railroad industry and gen-
 eral prosperity is shown by statistics
 covering operations in 1929.

In that year the lines paid about
 \$1,086,802 in taxes each day—\$755 a
 minute. Their bill for materials and
 supplies totaled \$1,829,535,000. Twen-
 ty-three per cent of the nation's out-
 put of bituminous coal; 19.2 per cent
 of fuel oil; 20 per cent of timber cut,
 and 17 per cent of iron and steel were
 purchased by the railroads.

About 20,000,000 persons—a sixth
 of the total population—are directly
 or indirectly dependent on the lines
 for their livelihood. There are 1,000-
 000 railroads bondholders and more
 than 800,000 stockholders. To this
 must be added the vast army of per-
 sons who own insurance policies, as
 insurance companies are large pur-
 chasers of railroad securities.

Facts such as these vividly demon-
 strate the seriousness of the present
 railroad situation. The lines, due to
 overtaxation and unregulated competi-
 tion on from other transportation agen-
 cies, have watched their profits
 dwindle almost to the vanishing point.
 The inevitable result must be decisive
 retrenchment and decline in standards
 of service.

No other agency can yet replace the
 railroads in the mass-transportation
 of commodities. The time is ripe for
 a complete overhaul of railroad regu-
 latory laws, and an unprejudiced in-
 quiry into the entire transportation
 situation. The public will be the prin-
 cipal sufferer if our suicidal railroad
 policy is maintained much longer.

WATCH THE SEASONS

It would be wise for home and in-
 dustry owners to inquire from respon-
 sible sources exactly what seasons of
 the year and weather conditions bring
 in their localities, the greatest fire
 hazard.

A strong wind, a decisive drop in
 humidity, a long dry spell—any may
 be nature's fire warning. Yet it is
 an unfortunate fact that most of us,
 in the matter of fire, make a habit of
 locking the stable door long after the
 horse has been stolen.

There is no royal road to fire pre-
 vention, nor is there any mystery
 about it. It is simply a matter of
 common-sense plus application of
 ordinary knowledge. Little reflection
 is necessary to show that to accumu-
 late rubbish in corners, to neglect in-
 spection of old wiring or flues, is to
 court disaster. That such reflection
 is rarely given the fire problem is
 shown by the fact that out annual
 waste reaches the tragic total of five
 hundred million dollars and ten thou-
 sand lives.

During 1930 fire losses were greater
 than for several preceding years. The

FAIR PLAY FOR THE RAILROADS

What may be a start toward a policy of "fair play" for the railroads is found in the last annual report of the Interstate Commerce Commission which contains a number of constructive suggestions. Now the Commission offers to Congress bills embodying some of those suggestions.

One of the bills would repeal the recapture provision of the Transportation Act, under which one-half of any railroad's earnings in excess of 6 per cent must be paid into the public treasury. This provision, it is said, has proved a source of expense and litigation, and has produced little cash.

Another bill would allow railroads to earn more than 5 1/2 per cent profit—now held a "Fair Return"—if they can do so by more efficient and economical management. Another would modify rate making methods so that general economic and industrial conditions would be taken into account in the setting of rates by the commission. Under the existing law it is sometimes necessary to reduce rates in prosperous times, when no reductions are called for, and to raise them in times of depression.

These suggestions, while they are a long way from completely covering the present crucial railroad situation, should be given favorable consideration. As the Chicago Daily News says, "It is an encouraging sign that the Interstate Commerce Commission, of its own motion, pleads for fair play to the railroads and advises congress how to remedy ills of the transportation lines without sacrificing any principle dictated on behalf of the public welfare."

THE MUNICIPAL DANGER ZONE

When a city permits its population to crowd beyond the twenty-five or thirty thousand mark, it begins to edge over into the danger zone.

Good and efficient government, full-value tax dollars, and honest and trust worthy public servants are pretty much the lot of those cities which are content to live below the population danger line. Their fire-fighting equipment is as modern as that owned by the city of a quarter million people; their streets are as wide, or wider, and are paved as well or better. Their mayors and councilmen, knowing most of the people they serve, have a more direct responsibility and accountability.

In fact, by comparison with the so-called "big cities," the city of twenty-five or thirty thousand has about everything that is decent and worthwhile and relatively little that is undesirable.

It really ought to be against the law for a city to grow beyond the thirty thousand mark.

H. Mund was in the city Saturday from the ranch.
Wince and Prince Murphy were here from Fort Stockton last week, mingling with friends.

Sam Williams was in from the ranch Monday attending District Court.

Judge Chas. E. Davidson and Houston Smith of Ozona were in Eldorado Monday attending District Court and shaking hands with friends.

Ed Finnigan was in from the ranch Saturday buying supplies and meeting friends.

THE COMMUNITY AND ITS BANKS

By ROME C. STEPHENSON
President American Bankers Association

While upon the individual bankers there rests without qualification the direct responsibility for the prudent, honest conduct of their institutions, nevertheless the soundness of banking as a practical matter of fact is a community problem in which the public has a part to play as well as bankers and government officials charged with the supervision of banks.

R. C. STEPHENSON

In the first place, the assets of a bank, outside its government bonds, consist mainly of loans to business men and of investments in securities created by corporate enterprises. The deposits of a bank are not kept in the vaults as idle cash but are employed in these loans and investments to earn the money to pay the expenses of the bank so that it can render services to its customers and also pay them interest on such deposits as bear interest. If there were no such thing as unsound business men or enterprises there would be no such thing as unsound assets in a bank.

It is of course the unquestioned duty of the banker to choose only sound loans and investments, but the difficulty of such judgment, and human judgment is never infallible, is plainly increased in such times and under such conditions as we have been passing through, with many businesses not making expected earnings and therefore hampered in meeting their obligations. Unfortunately some investments and loans created by persons outside the banks which found their way into the banks in a relatively few instances have reflected the unwise business policies and conditions that became more than usually prevalent in our business activities and contributed to the difficulty of banking. The vast bulk of bank assets, however, are 100 per cent sound above all question.

"Hard Boiled" vs. "Easy" Banker

In another aspect the people of the community have a part to play in maintaining the soundness of their banks, and that is through the medium of patronage. The existence of a bank is dependent on public patronage. If only those banks were patronized in which the most careful policies were practiced and the most conscientious and able men in charge, it would go far toward maintaining the standards of banking. If business men in a community when refused loans by their banks for good and sufficient reasons because conditions are not favorable, thereupon withdraw their business to banks where less careful methods prevail, they clearly contribute to the creation of a less sound banking situation.

Also if, in the heat of competition, a banker offers higher interest rates or more free service to attract customers than the earnings of conservative banking justify, and is encouraged by the patronage of the public as against a more conservative bank, obviously the public is again playing a part in bringing about a less sound banking situation. It is an unfortunate fact that the banker who is strict, "hard boiled" if you please, is liable to be less popular than the "easy" banker, and by that same token the public itself has a voice in influencing the character of banking. Also it is the public in the end which pays the main part of the penalty if unfortunate results follow.

Still again the public can exert an influence in shaping the character of banking by supporting the purposes of bankers to maintain intelligent, independent, honest banking supervision by the public banking departments through insisting that this function of government shall be kept as free from political influence as the judiciary itself and shall be manned only by men of the highest ability and character.

In still another way can the people themselves contribute to maintaining the ability of their banks to meet their obligations, and this is by granting them the fullest possible confidence. As I said, the deposits are not kept as cash but are invested in loans and securities. Even the soundest assets of this type require some time to convert at full value into cash deposits. In many cases of bank troubles the only thing wrong with a bank was an unduly suspicious and apprehensive state of mind in its customers created by no act or condition of its own but by baseless rumors which sometimes led them to destroy the value of their own deposits by demanding them immediately, forcing a bank to sacrifice its assets and otherwise disrupt its financial operations.

Doc Kerr and wife were in from the ranch Saturday shopping and visiting.

J. O. Willoughby was in from the ranch Saturday looking after business.

Mrs. H. Freund was in from the ranch Saturday shopping.

The Parent-Teachers Program Friday night was real good but the attendance was short on account of cool weather and other shows in town.

The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser

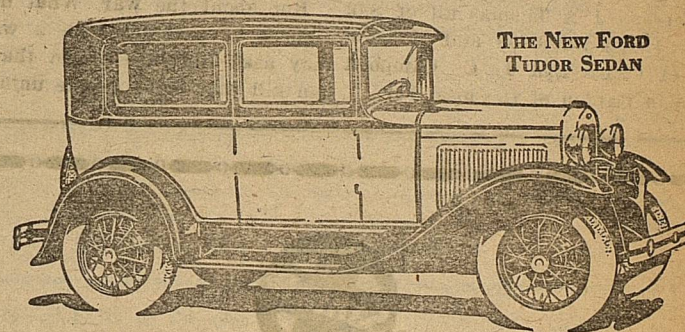

THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner... low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact... It brings you everything you want or need in a motor car at an unusually low price.

LOW PRICES OF FORD CARS
\$430.00 to \$630.00

F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at small cost. You can purchase a Ford on economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.

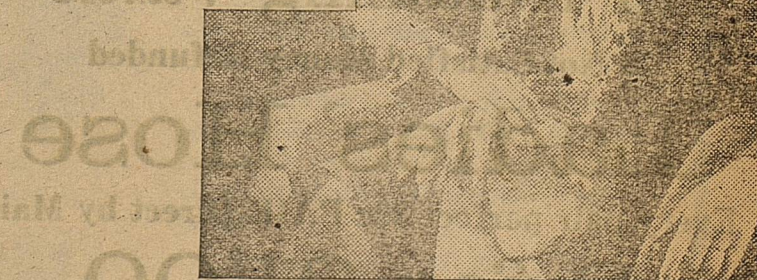

Houston Smith was over from Ozona Saturday and while here made The Success office an appreciated visit. He also bought one of our Schleicher County's Histories. Mr. Smith is one of the old home boys that all Eldorado is always glad to see.

Floyd Williams was in from the ranch, Monday attending District Court.

Francis Christeman was in the city, Monday from the Campbell ranch buying supplies and meeting friends.

FREQUENT PAINS?

NEVER let a headache interrupt your shopping! Or any other pain that Bayer Aspirin ends so quickly. These harmless tablets are an antidote for the most acute pain. Relief is almost instantaneous. Taken in time, they will break up a cold and head off discomfort. They'll relieve your suffering from neuralgia, neuritis, or the like, at any time. Thousands of women depend upon Bayer Aspirin every month to spare them from those pains peculiar to women. These tablets do not depress the heart; they may be used as frequently as there is need of their quick comfort. So, it's folly to endure any pain that Bayer Aspirin could relieve so promptly. Get the genuine, which is always to be had at any drugstore.

MARCH 13, 1931

Owing to a relapse in the illness of his father Mr. J. H. Jarvis did not reach home last Thursday as he wrote he would.

The Legislature has passed a bill allowing the county Commissioners of a county to loan money to farmers to buy planting seed and if the county has not the funds the State will furnish the money to the county. The county will have first lien on the crop until funds are repaid.

The Bandera County Ranchmen & Farmers' Association closed a deal Tuesday with Boston buyers whereby they sold the entire spring clip of mohair, to be shipped as brought in here, at Bandera and Honda. The Bandera Association is paying 20 to 30 cents to the grower, but the return will net a little better than this. This clip is expected to amount to 300,000 pounds of more. —Kerrville Sun.

Well our National Democratic Executive Committee has met. Raskob popped off in favor of the liquor issue, his suggestion was promptly replied by Senator Sheppard and Senator Robinson. So it seems like the antics won't let the issue die. Our guess is that the next president will be a prohibitionist. If the Democrats do not nominate one it means a return of Hoover. We judge from returns of last election.

Among the legal talent attending District Court here this week were Ellic Collins; Glen R. Lewis; Jim Cornell; J. E. Jackson; Lee Upton; W. A. Anderson; J. A. Thomas all of San Angelo. Judge Davidson and Houston Smith of Ozona and J. C. Campbell and Elwin Garon of the local bar.

"THIS AND THAT"

By Jimmy

There are two things in this world that always prove interesting, regardless of their final outcome—figures and war. Which of the two is the more deadly would be hard to say, but that they go hand in hand no one will deny. The only real difference is that in war the figures go up while human beings go down.

But what we started out to say was that if figures for automobile accidents for 1930 are accurate, we overlooked a wonderful opportunity to make warfare cheap in the last world conflict.

According to a report recently issued giving the total number of automobile accidents in 1930, together with figures showing the number killed and the number injured in these accidents, it was found that 32,500 lives were sacrificed to Demon Gasoline, and 962,325 persons were injured in the 835,250 accidents reported.

These figures, as figures go, don't seem large—in fact, they would seem small in proportion to the number of motor cars in America. But when you stop to consider that the number of lives lost in automobile accidents last year was approximately one-quarter of the total number Americans killed or wounded from all causes in the World War campaign of 19 months, the figures seem decidedly large—and certainly unnecessary, if you know what we mean.

Besides the number of persons killed the report shows that four times as many persons were injured in automobile accidents last year as American soldiers were wounded in the World War. Those figures prove very interesting; we are all glad to know that nearly one million people were lucky enough to get in an accident and get out alive.

But about the war, what do these Angelo, Judge Davidson and Houston Smith figures have to do with a war, you may ask? Nothing—except that if we can kill that many people unintention-

THE UTILITY FUTURE

Unprecedented progress and development is looked for within the public utility industry during the next ten years.

During the last ten years the power and light companies of the nation alone invested almost \$7,000,000,000 in new plants and equipment, bringing the value of their holdings to \$12,000,000,000 at the end of 1930. Now it is conservatively estimated that about \$11,500,000,000 more must be added by 1940, the largest portion of which will probably be used to extend distributing equipment. During 1931 construction plans call for an \$894,000,000 expenditure.

Probably the average city dweller is of the opinion that we are approaching a saturation point in electrical use. However, only about 70 percent of homes are even wired for electricity, and only about one hour out of three uses electrical appliances. Farm electrification is in its infancy, and only about 2 per cent of railroad mileage is electrified. Industry in general is far from being completely motorized and the aviation industry, still young, will call for tremendous electrical developments. And there are many more fields, large and small, where electricity is just beginning to find itself.

The electrical future is bright—and it should be remembered that the principal beneficiaries will be the general public, to which electricity means greater living comfort, greater earning power, greater leisure.

COTTON SOCKS

King Cotton may be restored to his throne by the cotton sock.

Cotton stocking could have done the job, but the women of this country simply couldn't be sold upon the idea of wearing cotton hose. For that matter, the men were not over-zealous in pressing the point.

Because cotton socks are, so smart and attractive they promise to succeed where cotton stockings failed. Thousands of women who work in schools, in shops, in stores and in offices are willing to be converted to the new vogue.

The late socks are made of colorful cotton prints; they are beautifully designed and tailored; they are chic and comfortable, and they are economical. More important still, they are highly pleasing to the masculine eye; and despite any claims to the contrary, man's admiration remains the gauge by which the success of a womanly in one year we, surely, ought to be able to wipe off the map every nation on the face of the earth in a few years if we were so inclined.

We have enough old out-of-date and dilapidated cars here in Texas to annihilate any good sized army. Take our over-size busses and trucks, and we could get chesty and choose the world.

The farmers want relief, the bankers want relief, the unemployed cry for relief, the politicians promise it, and nobody seems to get any of it. The unutterable sacrifice of 32,500 lives and injury to nearly 1,000,000 in a single year shrieks to high heaven for relief. Will we get it?

INSURANCE FOR THE CROOK

"Taking the gun from the citizen is giving an insurance policy to the crook," said United States Senator Harry B. Hawes of Missouri recently. Amplifying his remarks, he stated that the only danger to the red-blooded American comes from "the sissies and the spinsters."

Senator Hawes may seem a little harsh, but what he says has logic behind it. Agitation for anti-gun laws almost never ceases, and stringent restrictions are being proposed in various state legislatures this year. Yet in all the communities where such laws have been passed, there is no record that they have ever been a success. The criminal class, as ever, finds no difficulty in arming itself, and the good citizen is defenseless. The crook could ask for no better insurance than that.

Still another side to the question was recently brought out by Congressman M. J. Mass of Minnesota, who said that "this country needs civilians trained in handling and use of firearms." The efficiency of American troops in the late war was undoubtedly largely due to the fact that thousands of them were accustomed to using guns for sport and amusement.

An ever-increasing army of authorities is going on record as being opposed to laws which would deprive honest citizens of guns. It may be that eventually the only persons to favor them will be the professional reformers, whose enthusiasm leads them to disregard the facts established by experience, and the criminals, who want the insurance such laws give them at the expense of society.

Mr. and Mrs. L. T. Wilson were in the city Saturday shopping and L. T. was hobnobbing with Carl Reagan. Everyone believes a fishing trip was planned.

Pale and Weak

"I THINK Cardui is a wonderful medicine, for I improved greatly after taking it," says Mrs. A. W. English, of R. F. D. 4, Roanoke, Va. "When I was just a girl of 13, my mother gave this medicine to me, and it did me a great deal of good. I was weak and run-down. After I had taken Cardui awhile, I felt much better. "In 1924, my health was poor. I felt miserable, and hadn't enough strength to do my housework. It took all my willpower to keep up. I was pale and weak. "I got Cardui again and took it. My improvement was wonderful. I can recommend Cardui to others, for my health was so much better after I had taken a course of the Cardui Home Treatment."

Electricity Aids the Small City

Electric power has been called by many economic authorities the "Equalizer", because it puts the small town on an equal basis with the large industrial center. No longer is it necessary for industries to locate in congested, expensive, and competitive metropolitan districts, for the transmission line system has built an ever-growing network of electric highways, over which is transported unlimited power—available in the smallest of towns at an inexpensive rate.

This development in the electric light and power industry holds forth greater opportunities to the small town than it has ever enjoyed in the past. The "Decentralization of Industry" which has followed this development has been advantageous to the country as a whole. West Texas has profited her full share, and will continue to participate in this new industrial growth throughout the years to come.

The West Texas Utilities Company, manufacturing inexpensive electric power, dependably serves 120 prosperous cities and towns in West Texas, the "Land of Opportunity", distributing its services over more than 2,500 miles of transmission line to a territory approximately 45,000 square miles in area.

ELDORADO HI SCHOOL NEWSPAPER

THE VALUE OF HIGH SCHOOL EDUCATION

Statistics compiled by the United States Bureau of Education show that the pupil who remains in school until eighteen years of age, at the age of twenty-five is earning \$960 a year more than the pupil who left school at fourteen. A high school education makes possible a larger, fuller and better life by focusing attention upon what the leaders among men have accomplished. Concentration upon human achievements in literature, science, and art has a cultural value which adds immensely to the joy of life. The high school emphasizes plain every-day habits of loyalty, industry, respect for property, neatness, regard for the common courtesies, and a sense of the fitness of things. A boy or girl with these qualities can hardly fail to make good.

Be loyal to your school in word and deed. Your personal conduct will make or mar the standing of your school in community. Have a will to do the right thing without being told or being watched. Thus you will gain in self-respect, and acquire a poise and dignity that will pay rich dividends.

The world has no use for a loafer. School is the last place in which to play the shacker. Slovenly habits stamp you as an inferior. Somebody has written: "How much are you worth above the neck, is your head a hat-rack or a thinking machine? If you want to get ahead you must have a head." Show people that you mean business. The race is not to the swift but to the steady.

ELDORADO ATTENDS TRIPLE PRACTICE MEET AT SONORA

The Eldorado track athletes journeyed to Sonora last Saturday, March 7 to take part in a triple practice meet between Sonora, Eldorado, and Mertzton. Although Sonora won the meet, Eldorado made a good showing considering three things. First, four of the regular men did not go, namely Eli McAngus, our best dash man, J.

R. Conner, distance runner and discus man, Hollis McCormick, distance runner, and Bill Currie, shot and discus man. Second, all the Eldorado men participating in the meet were sophomores and freshmen with the exception of two seniors, Albert Martin and Fred Williams, and one Junior, Carl Kerr. Third, this meet was the first competition that most of the boys had ever seen, as this is the first year for the large majority of them. Considering these three things, the boys made a good showing and Coach Williamson should have no track worries for the next two or three years.

Following is a list of the events with the rank of the boys that placed in each:

Broad Jump—Taylor, Sonora, first 16 ft. 9 in.; Adams, Sonora, second; Hodges, Mertzton third; Parker, Eldorado, fourth.

220 yard dash—Trainer, Sonora, first, time 22:6; Adams, Sonora second; Parker, Eldorado, third; Martin Eldorado, fourth.

100 yard dash—Trainer, Sonora, first, time 10:7; Adams, Sonora, second; Parker, Eldorado, third.

440 yard dash—Vinson, Mertzton, first, time 58:2; Smith, Eldorado, second; Norris, Sonora, third; Jack Kerr Eldorado, fourth.

880 yard run, Sawyer, Sonora, first time 2:28; Smith Eldorado, second; Hodges, Mertzton, third Williams, Eldorado, fourth.

1 Mile run—Archer, Sonora, first time 5:55.7; Logan, Eldorado, second; Ory, Sonora, third; Moore, Eldorado fourth.

High hurdles—Taylor, Sonora, first, time 19:2; Pharis, Sonora, second; Smith, Eldorado, third.

220 Low hurdles—Trainer, Sonora, first, time 28:4; Taylor, Sonora, second; Martin, Eldorado, third, Williams, Eldorado, fourth.

Shot Put—Adams, Sonora, first, 35 ft. 9 in.; Vinson, Mertzton, second; Raymond Smith, Eldorado, third, Aubrey Smith, Eldorado, fourth.

Discus—Vinson, Mertzton, first 82 feet 9 inches; Taylor, Sonora, second; Logan, Eldorado, third; Jack Kerr, Eldorado, fourth.

High Jump—Taylor, Sonora, first 5 feet 2 inches; Martin, Eldorado, first; Williams, Eldorado, first; Parker, Eldorado, fourth.

Javelin Throw—Trainer, Sonora, first, 115 feet 11 inches; Taylor, Sonora, second; Carl Kerr, Eldorado, fourth.

Pole Vault—Martin, Eldorado, first 8 feet 9 inches; Taylor, Sonora, first; Cates, Eldorado, third; Logan, Eldorado, fourth; Bullion, Eldorado, fourth.

1 Mile Relay—Sonora, first; Eldorado, second; Mertzton, third.

Taylor of Sonora was high point man with a total of 271.2 points; Trainer of Sonora was second high with 211.4 points; and Adams of Sonora was third high with 14 points. Sonora loses Taylor and Trainer this year. These two boys together made more than half the points that Sonora earned.

The point standing of the meet ended as follows: Sonora, first, 721.3 points; Eldorado, second, 442.3 points; Mertzton, third, 14 points.

WHICH ARE THE SMARTEST STUDENTS IN HIGH SCHOOL?

By Anna R. Spurgers

Much is always being said about the number of failures in high school, and a long list of them is always to be found on the board in front of the study hall. Little is said about the smart students, however, and it has occurred to us to compile a list of the students having a B average or higher. Below are the names of these students, approximately the highest fifteen per cent in point of scholastic ability, with their respective averages:

Frances Ballew, B; Bernice Bricker, A; Hazel Bruton, A; W. B. Gibson, B; Gusta V Graves, B; Carroll Green, B; Eli McAngus, B; Bina Sue Martin, B; Willie Ruth Nicks, A; Lucile Oglesby, B; Clyda Pruitt, B; Grace Ratliff, B; John E. Rodgers, B; Cora Sauer, B; Margaret Sheen, B.

From the above list it may be seen that each of the classes in high school has a representative of the "A" caliber except the Fish. Hazel Bruton ably represents the Senior Class, Willie Ruth Nicks is a member of the Sophomore class, while Bernice Bricker upholds the Juniors.

—E.—H.—S.—

MR. HOLT ATTENDS TEACHERS MEETING AT BROWNWOOD

Mr. Holt made a short talk Monday morning before the study hall on the points that impressed him the most in connection with our school work during his attendance of the Mid-west Teacher's Convention held at Brownwood last Friday and Saturday, March 6-7.

Mr. Holt explained that a great deal of the things that were interesting to us as students, but that he wished to bring one main point home to us. That was especially stressed during the convention, which was "the gospel of work." He continued by saying that constant application to school work was the only way to realize the best returns from our school days, and that we ought to take full advantage of our opportunities in school by entering wholeheartedly into the school work and all its activities.

NEW TENNIS COURTS COMPLETE

By Junior Isaacs

For the last week and a half the school grounds west of the school house have looked like an ant bed. Students in every direction have been moving about on the scene of action at the new tennis ground, hammering digging post holes, boring holes in the posts and two by fours, sawing, and putting up the wire netting.

The backstops are twelve feet high and eighty feet wide on both ends, which will make it possible to have two courts side by side. Mr. Bradley very considerably allowed the school the use of the County Grader for an hour or so and the ground was smoothed off well, and with a little more work will be as good as a dirt court can be.

Much interest has been in building the backstops and in working on the court, many students agreeing to help who are not interested at all in taking up tennis. The single court on which the playing has been up to the pres-

AS I OBSERVED IN STUDY HALL

By Gusta V Graves

As my eye silently wandered around in study hall, it "wondered" too, if Thelma Taylor had nothing else to do other than tain to Hassell Ratliff. At any rate each time my eye left my book I could hear muffled whispers and casting an eye over study hall until I at last found these two chattering like a gang of chimpanzees.

As my eye wandered from Hassell back to Garland, I found Garland busily engaged in trying to conceal a newspaper from Miss Allen. I am afraid he was unsuccessful because it wasn't long until he was studying hard and knowing Garland as I do, I hardly think he would put a newspaper away without being told one way or another.

I found quiet a few of the study hall students studying more than one would imagine. Eli was puzzled over an arithmetic problem, and Carroll was likewise puzzling over the same thing. I looked on up the aisle and saw Lucile idly turning leaves of a notebook. Whether she was studying or just idling the time away—use your own imagination.

Now for some "soph's" I see Jack Ratliff giggling at Hassell and Thelma while Jack Kerr and Buddie are scaffolding over a piece of paper.

I am sorry not to have more time, but I must look over at the freshmen and see what they are doing, too. I see Jess Ella's pen staff traveling like lightning. I can not tell you whether she is composing an English theme or a letter to Helen Craddock, as she is studying, because she has that serious

P. T. A. PROGRAM A SUCCESS

By Gusta V Graves

The P. T. A. gave a program Friday evening at 7:20. It was enjoyed by all. There was a good crowd out that evening. Every one could afford this program even though the "times are hard," because the admission was only 10 cents and 15 cents. This little amount would not rob any one.

The first number on the program was "My Alice Blue Gown" by the choral club. The choral club girls were dressed in Alice Blue and carried dainty little blue hat boxes. In connection with this we laugh as we think of the dainty little girls who came back stage and picked up the hat boxes. Especially do we smile as we think what wonderful girls Hassell Ratliff and Fred Williams appeared to be!

The next number was two popular numbers by the Violins, Loleete Andrews and Inez Cobb, accompanied at the piano by Gusta V Graves.

Miss Lucile McWhorter gave a reading held every one's attention and sympathy right up to the last point. It was very good, indeed.

Next we found ourselves listening to a little girl dressed in blue singing a song. We thought we recognized her, but after thinking, we wondered if J. A. Cates thought he could make us bestudying, because she has that serious

WORSE THAN WAR!

During 18 months of the World War 50,510 members of the members of the American Expeditionary Force were killed in action or died of wounds.

During the 18 months preceding January, 1931, 50,900 people were killed in automobile accidents, in this country.

There could be no better illustration of the seriousness of the automobile accident situation.

According to a survey by the Travelers Insurance Company, the leading cause of accidents in 1930 was failure to give right of way, which accounted for 15 per cent of deaths and 31.5 per cent of injuries. Second was excessive speed, which was responsible for 21 per cent of all accidents, and third driving on the wrong side of the road.

George Williams and wife left Sunday morning for Ft. Worth to take some of the 4-H Club boys over to the Fat Stock Show this week.

Otto Williams was in the city Monday courting.

Mrs. T. H. Alexander was shopping in the city Saturday.

Sheriff's Sale

STATE OF TEXAS, County of Schleicher,

By Virtue of an Order of Sale issued out of the Honorable District Court of Schleicher County, on the 5th day of March A. D. 1931, by the Clerk thereof, in the case of W. L. McWhorter, et al. versus H. W. Finley, et al. No. 426, and to me, as Sheriff, directed and delivered, I will proceed to sell, between the hours of ten o'clock a. m. and four o'clock p. m. on the FIRST TUESDAY in April A. D. 1931, if being the 7th, day of said month, before the Court House door

of said Schleicher County, in the city of Eldorado, the following described property, to-wit:

Six Hundred and Forty (640) acres of land situated, lying and being in the County of Schleicher and the State of Texas, known and described as follows, to-wit:

All of Section No. One Hundred and Forty Four (144) in Block "A", located by virtue of Certificate No. Seventy Four (74) issued to the H. E. & W. T. Ry. Co.

Such sale to be made in accordance with said order of sale and in accordance with the judgment of said court rendered in said cause on the 11th, day of March A. D. 1930.

To satisfy a Judgement amounting to \$5,901.00 in favor of W. L. McWhorter, et al. and cost of suit.

Given under my hand, this 5th, day of March A. D. 1931.

O. E. CONNER, Sheriff.

Mrs. Poer and Grandmother Martin had as their guests Mr and Mrs John Martin and family, Mrs. Mary Benson and children, of San Angelo, and Mr and Mrs. Richard Martin and children of El Paso, after visiting in Eldorado they left for Del Rio to visit their parents Mr. and Mrs. John Martin.

INFINITE CARE FROM TREE TO CUP

accounts for the unequalled flavor of All Gold Coffee.

All coffee beans are not alike, any more than all apples are alike. Nor are all coffee planters any more alike than are all farmers.

Some grow coffee beans of the very best, and use utmost care in their handling. Others don't.

Therefore, the selection of coffee beans for All Gold Coffee is a task demanding tireless patience and utmost expert knowledge.

Every sack of coffee beans that goes into All Gold blend is selected as the result of careful testing and sampling. It must be in every respect up to the highest standard.

For All Gold Coffee never varies. It is always the epitome of excellence...the best made from the best.

Your nearest grocer sells All Gold coffee. Order a can from him today.

Demonstrated Lecture On Art

The Woman's Club has secured a lecturer, Miss Dorothy LeSelle, who is a professor of Art in The State College for Women, Denton, Texas, to appear in Eldorado March 27. Miss LeSelle will discuss Fine and Applied Art in the Home, color schemes and interior decoration. It is hoped that every woman in and around Eldorado will hear this lecture since it is for their help. The lecture will start promptly at 2:30 p. m. Friday March 27 and will be given in the new picture show building. The extension department requests two things—that the lecture be free to the public and that a large audience be present. Remember the date and be on hand. Slides will be used to illustrate the lecture.

John Irving King was in the city Tuesday from the ranch. While in town he called at the Success office and paid his subscription for another year.

MRS. R. T. CRAIN IS HOSTESS

Mrs. R. T. Crain was hostess to the Eldorado Bridge Club at her home in Eldorado Thursday afternoon March 5. Contract Bridge was played, each member cutting for the prize which was awarded Mrs. Tom Henderson. Delicious refreshments were served to Mesdames H. T. Finley, Luke Thompson, Muller, James Hoover, J. C. Crosby, J. W. Lawhon, Lewis Ballew, A. P. Bailey, B B Brittain, Van McCormick, Tom Henderson and Preston Bailey.

John Williams left Tuesday for the Fat Stock Show at Ft. Worth.

L. Kent was in from the stockfarm Saturday trading.

Vernon Porter and wife were in the city Saturday and attended the America Looms Show Saturday night. And from the way Vernon laughed we are fully convinced that he enjoyed the show, as well as the editor.

S. F. Shoemaker and wife visited in San Angelo Sunday.

THE HI-DIVIDE

Heve it was really a girl singing to us. Miss Turner's Symphony Band gave some music. Every one enjoyed listening to these little folks. They have made wonderful progress since their appearance before the public. Wilson Page is the director of this band, but Friday evening, he let our little visitor or Elizabeth Hughes, from Mertzon, take charge.

Margaret Sheen next gave a piano solo which every one enjoyed very much.

Miss Lee's pupils then gave a song "My Old Rag Doll". These little girls almost made our high school Choral Club fade away in the background.

Luelle Oglesby entertained the audience with a piano solo.

A reading was given next by Mary Jo Rape. If she keeps this up she will make a good expression teacher some day in the future.

Next was a violin solo by Jess Ella Johnson, accompanied at the piano by Willie Ruth Nicks.

Next was a reading by Wilson Page. His reading was enjoyed by every one especially the little folks.

Willie Ruth Nicks next rendered a beautiful piano solo.

Next on program was "Civic Creed For Eldorado Children" by Miss Lee's pupils. These little folks are starting out early in their training to be citizens of our little city.

The last number on the program was a piano solo by Nell Campbell.

The program was very entertaining and we hope the P. T. A. plans another as interesting soon.

FIVE BOOKS I LIKE BEST

By Dixie Faught
I tried to get out of writing this, because I did not think it possible to think of five books I liked best. At first I didn't let it bother me; and when the editor came, I did not have my article. She didn't say much, and I thought "well, that isn't so bad after all." Then I thought it was over. But lo and behold! I returned from Spanish class one day and there on my desk lay a piece of paper with "a reminder" written at the top. It stated that my article on "Five Books I Like Best" was due. So I decided the best way to get rid of it was just write it. Now, reader, since I have related the preceding circumstances of this, you can better understand why it seems to be written as hastily and carelessly. (Now for the story).

I suppose the most interesting book I ever read was "The Primer." I am sure I appreciated it more and was more eager to know it than any other. Why? Because it was my first book. Some may think it foolish, but I still enjoy reading it. Lets see now what book comes next in my life. (I wish this had been "Five Books I Dislike Most") "Huckleberry Finn" is a fine book. Somebody said it was, and it appeals to me because it is humorous. Then too, I like "Tom Sawyer." He was not exactly what I would call "the man of my dreams," but he really is a fine chap. My! That's just three books, and I'm already tired.

Now, I like Arlington's book of poems, because there was a poem on each page and the average poem was five lines in length. Miss Allen required that we read at least one hundred pages of poetry. I chose that book because it's appearance kind of appealed to me. Oh, yes, I was about to forget "Literature and Life, Book III." I like that book in one way and only one, out of my sight. It is an English student's enemy.

LOST AND FOUND

By Grace Ratliff
Need a good fountain pen, pencil, knife, beads, pocket book, comb or any thing else? If so, just go into the office and look through all those lost and found articles.

Lost anything in the last three years? If so, where is it? You guessed right. It's in Mr. Holt's office. There is everything in there from screws to purses with money in them.

AMOUNT OF TRASH IN SCHOOL BUILDING

By Bernice Bricker
There is quite a bit of trash collected in the school building every day according to Mr. Pruitt our janitor. Four sacks of paper and other trash as well as a coal scuttle of dirt is his daily estimate. He says that in wealth like this he gets "plenty of mud." You teachers get "rumped" on, too. Miss Allen and Mrs. Robinson seem to keep the cleanest rooms. The high school is, as a rule cleaner than the grammar school. And listen! The Seniors keep the trashiest aisles in the

study hall. Don't we think that's a queer way of being "dignified?" The Fish keep their floor comparatively clean. Hooray for the Fish! Don't you all think that the others should follow their example and keep the paper in the waste basket and make it easier on Mr. Pruitt as well as have clean rooms for visitors when they come?? It won't hurt you a bit to use the mud-scrapers outside before you come in either!

STUDENTS CARRY OFF PRIZES IN LOCAL STOCK SHOW

By Lawrence Morgan
The school was well represented at the local stock show held at the stock pens recently, and succeeded in carrying off several prizes. Word has reached us that they are also winning out at the Fort Worth Fat Stock Show where the competition is keen enough to make a prize something to be more than proud of.

The students in school that fed sheep are Eugene Koy, Mary Jess Koy, Zona Clara Koy, Bob Williams, Cecil Moore, Thomas Richard Jones, J. R. Conner, Isabel Isaacs, J. C. Johnson, Garth Clark and Glen Green. Garth Clark won first and second prizes for the individual lambs, Eugene Koy won third prize, and Joe Ed Mill won fourth prize. In the group of five, the prize being a silver cup, Garth Clark got first, Cecil Moore second, and Eugene Koy third.

The boys who fed calves are Bill McAngus, Hollis McCormick, Carroll Green, Albert Williams, John I. Jones, Dee DeLong, George Williams, Chas. Springston, Billy Springstan, W. B. Gibson and Louie Nolan. George Williams won first prize in the black Angus calves, Charles Springston won second, and Albert McGinty won third in the competition between both the Herefords and Angus, George Williams won second and Dee DeLong won third.

GRAMMAR SCHOOL NEWS

Seventh Grade Girls Won Basketball Tournament
The seventh grade girls seem to have a good basketball team as they won championship over every team in school except the regular team. The team played hard for the best and the last two games.

Attending Fat Stock Show
Two pupils out of the seventh grade are attending the Fat Stock Show at Fort Worth. They are Eugene Koy and Thomas Richard Jones. They fed some lambs. Eugene won several places when the lambs were judged here. We hope that they win something at Ft. Worth.

Cleanliness Contest
Mr. Holt has given the fifth, sixth, and seventh grades permission to have a very nice picture in their rooms. Of course, we can't all have it at once so we are having a contest. The room that is kept the cleanest during a month gets the picture for the next month. The contest has been going on for several months. The seventh grade has had the picture twice and the fifth grade has had it once. The picture is of the State Capitol and is very pretty.

Fifth Grade
We enjoyed our trip to the stock judging pens last Tuesday morning. We are very happy that one of our boys, George Williams, Jr., won first prize with his black calf. George Jr. is now in Fort Worth to see his calf win first place at the Fat Stock Show.

Picture Study
We have begun our picture study in art class in preparation for the Picture Memory contest in the Interscholastic League meet. We are learning to appreciate these pictures and enjoy learning something about each artist. These pictures studies encourage us to keep our room clean in hopes of winning the picture given each month for the cleanest room.

Claud Stites, one of Sonora's prominent business men, was a business visitor in Eldorado Monday.

Mrs. G. L. Lewis was shopping in the city Monday.

The government has never shown much aptitude for real business. The Congress will not permit it to be conducted by a competent executive, but constantly intervenes. The most free, progressive and satisfactory method ever devised for the equitable distribution of property is to permit the people to care for themselves by conducting their own business. They have more wisdom than any government—Calvin Coolidge, in a recent syndicated article.

It now appears that American women will buy a lot of cotton smocks. If they do, the cotton grower will find a heavier demand for the white staple in domestic markets—and that means better prices.

SELF-SERVE GROCERY

WHOLESALE AND RETAIL

We do not take up our paper space with a lot of hot air and Bull. We pride ourselves in always giving the most of the best for the least money. You will find our every day prices much cheaper than most merchants specials. When cheaper groceries are sold in Eldorado the Self-Serve Grocery will sell them.

Below is some of our many week end Specials for Friday and Saturday.
