

THE ELDORADO SUCCESS

OF AND FOR ELDORADO AND SCHLEICHER COUNTY. ALL THE TIME

VOL. XXXI

Eldorado, Schleicher County, Texas, Friday, August 21, 1931.

No. 34

School To Begin September 7th

The 1931-32 session of the Eldorado Public Schools will begin on Monday, September 7th, according to the present plans. Preparations are being made to care for a large enrollment in all grades and especially in the elementary grades. Considerable repairs have been made on the school buildings and new equipment has been added.

Teachers' Institute will be conducted for two days on September 3rd and 4th, just before the beginning of the school session. All of the teachers of the county will be expected to attend these meetings. The program consists of the discussions of problems of the teachers and the community. The general public is invited to attend these meetings which will be held in the school auditorium. About thirty teachers will be present and almost every one will have some part on the program.

On Saturday, September 5th, all high school pupils are expected to enroll for the courses which they expect to take for the first session. The change in the schedule from last year makes it necessary that each pupil enroll individually before school actually begins. The enrollment begins at nine a. m.

FOOTBALL PRACTICE TO BEGIN AUGUST 25TH

Coach Dave Williamson writes from Wichita Falls, where he has spent the past few weeks with his family, that he will arrive in Eldorado on next Monday, August 24th. He stated that he would be ready to begin football practice on the 25th and would like to meet all the boys who can report on that day at 4 p. m.

The football prospects are much brighter for Eldorado than they have been for several seasons. Eight or nine letter men from last year's team and considerable new material gives promise of some real football a little later. Coach Williamson during his two years in Eldorado has demonstrated his ability as a coach and with sufficient material and cooperation will no doubt develop a winning team for the high school.

MRS. L. T. BARBER ENTERTAINS

Mrs. L. T. Barber was hostess to the Eldorado Bridge Club, Thursday August 13, at the apartment of Mrs. Lewis Ballew. Three tables of club members and guests were present. Contract bridge was played and delicious refreshments served to all. Prizes for the afternoon games went to Mrs. H. T. Finley high club and Mrs. Ben Hext high guest.

MRS. J. D. RAMSEY ENTERTAINS WITH WATERMELON FEAST

Mrs. J. D. Ramsey entertained at her home in Eldorado Monday evening with a watermelon feast. Those enjoying the hospitality of the hostess were: Mr. and Mrs. C. C. Doty, Mr. and Mrs. C. C. West, Mr. and Mrs. A. J. Atkins, Mr. and Mrs. R. A. Evans, Mr. and Mrs. T. C. Sproul, Mrs. G. A. Neill, Mrs. T. H. Moore, Miss Ora Sproul and Mrs. Lewis Bruton.

Just how late these youngsters were out may remain a secret, but watermelon feasts were held different 45 years ago.

MISS MARGARET TISDALE ENTERTAINS WITH BARBECUE

Wednesday afternoon late and in the early part of evening a group of friends of Miss Margaret Tisdale gathered at the V. G. Tisdale ranch home, five miles east of Eldorado.

In the late afternoon, swimming was enjoyed by all those desiring to swim. Then barbecue and all that goes with it was served, after which playing bridge and dancing furnished the amusement for the remaining part of evening.

Box Supper

Saturday, August 29, at 7:00 o'clock Old time fiddling main feature of entertainment. Also games and fun for everyone. COURT HOUSE LAWN. Benefit Presbyterian Auxiliary.

E. N. Edmiston was a business

VECK FLORIST, San Angelo, Mrs. J. D. McWhorter representative, benefit of the Methodist Church.

The above picture was taken 45 years ago, of the Point Breeze Well, 16 miles east of Eldorado. The ranch was then owned by Col. W. L. Black, and this scene is one of those featured in the Schleicher County History, published by the Eldorado Success, and is for sale at \$1.00.

Those in the picture are left, C. C. Priour, who was Schleicher County's first Judge is living in Del Rio, and the horse is A. B. Priour. Mr. Doty is still living in Eldorado and A. B.

Teacherage Being Constructed For Reynolds School

An important part of the improvement in buildings in the Eldorado Independent District is the teacherage for the Reynolds community. A four-room cottage is now being erected and is almost completed a short distance from the Reynolds School. The school patrons of the community are contributing most of the labor while the Eldorado School Board furnishes the materials. The Reynolds School is located about twenty miles west of Eldorado and is one of the fast growing schools of the county. It was begun some three years ago with one teacher and nine pupils but has increased until at present it has two teachers and last year enrolled thirty-two pupils. The school grounds have been fenced recently and a well drilled. The old wind mill has been moved from the school in Eldorado out to this school as it was unable to supply all the pupils in the Eldorado school with sufficient water. The Teacherage for the Reynolds School was necessitated by the fact that teachers for the school found it almost impossible to get board near the school and it is considered a decide step forward when the teacher and his family can be located near the school building. Mr. J. F. Jeter, of Brown County, is to be the principal of the Reynolds School next session and he has already arrived to assume his duties. Miss Blanche Newlin is to be the assistant teacher.

IMPORTANT CHURCH ANNOUNCEMENT

The First Christian Church, will begin next Sunday, holding regular services, at the new Ritz Theatre Building. For several years the Presbyterian Church has extended the courtesy of their building, which has been much appreciated. And the Fellowship has been excellent. But feeling that the time has come when we can and should begin holding regular services each Sunday, arrangements have been made by which we have secured the use of this building for regular services, and will meet there next Sunday for the beginning service.

THE PROGRAM
Bible School at 10:00 A. M.
Preaching by W. H. Kindred at 11 A. M.
Preaching by Thomas Gathright at 8:00 P. M.
Mr. Stevens who was here during the meeting will be here for Sunday Services.
A cordial invitation is extended to all, to attend each of these services. Come and worship with us.

BRADY NETTERS TAKE 5 OUT OF 6 FROM SAN ANGELO

The Brady Tennis players, consisting of Mercer Windrow, Jim Adkins, Russ Holland and Walter Adkins, defeated the San Angelo Tennis players Wednesday afternoon five out of six matches, on Brady court. Their last match was at San Angelo where they played a tie.

Mercer Windrow of the Brady team is a nephew of Mrs. Brice Dabney of our city and Russ Holland is a nephew of The Success Editor.

W. R. Nicks Well Waiting On Repairs

W. R. Nicks No. 1, is repairing engine this week and have not begun drilling out cement, which was run last week.

The Stanolind Oil and Gas Co. W. H. Williams 18 miles northwest of Eldorado in Irion county, has completed drilling out cement and are making new hole this week below 5,956 feet, they are drilling up a bailer with some caving.

Joe Tisdale No. 1 8 miles northeast of Eldorado is shut down at 3,125 feet for repairs.

1832-1931

Ninety nine years ago, August 22, in the arms of a sainted mother lay a babe, Flais Carapell Bates, Sr., in a small frontier town of Alabama. He moved to Texas in 1873 from Saltillo, Mississippi, coming to San Angelo, from there to Uvalde. He moved to Eldorado 1897, his home being the fourth dwelling built in our city, the lot on which it was built being presented to him by the townsite company. He assisted in organizing the county, he with W. B. Saffman, C. C. West, et al, saw a bright future for Eldorado and its surrounding territory, and Mr. Bates was considered the speaker for all and any occasion. He was an ardent defender of prohibition and never failed to respond to its aid on any occasion when the subject needed defence and feared no adversaries. Mr. Bates never used tobacco and only recalled taking one drink of whisky. (and that he claimed to his discredit). This drink was taken during the Civil War on a real cold day. He is a member of the Christian church and enjoys good health at this writing, despite he will be 99 years old August 22, Saturday. He now makes his home with his son on the ranch near Sheffield. But Eldorado received the best fruits of his life, his cause was never neglected.

F. C. Bates, Jr., and wife of Sheffield were here Monday and Tuesday, visiting and meeting old friends. Mr. Bates was first county clerk of Schleicher County and held the office for 8 years, has many warm friends in our midst. Mr. Bates reports that F. C. Bates, Sr., his father, is enjoying good health, suffers no pains and eats three hearty meals a day. He now lives with his son on the ranch. He will celebrate his 99th anniversary tomorrow August 22. We were glad to meet our old friend again, the tie of friendship remains in the clasp of his hand, and the "hello old timer".

R. J. PAGE OPERATED ON FOR APPENDICITIS

R. J. Page was carried to Brady last Thursday night and was operated on early Friday morning for appendicitis. He was accompanied to Brady by his mother and his uncle, T. E. Jones. Mr. Page being in Austin when R. J. became ill. He is doing nicely and will be released from the hospital in a few days.

Miss Mildred Howard, of San Angelo, visited in the George Williams home this week, guest of Louise and Margaret.

Four Counties Under Martial Law

Gov. Ross S. Sterling, declared Martial law Monday morning, over the East Texas Oil Fields, including four counties, Rusk, Gregg, Smith and Upshur.

One thousand National guardsmen were moved into the field Sunday and at 6:45 Monday the work of closing in the well was begun. There is approximately 1,600 wells to be closed, none being exempt, this will reduce the Texas out put of oil by 750,000 barrels per day.

The National Guardsmen are under command of General Jacob Wolters, who has complete charge of the four counties with threats to jail any violators of the law without trial. Just how long the field will be closed down is not known but will be until after August 25, when the new law passed by the special session will become effective. The land under martial law covers more than 2,815 square miles and a population of 123,682, for 1930 census. With Oklahoma and Texas shut down, Kansas is planning on the same thing.

W. M. S. OF THE FIRST CHRISTIAN CHURCH MEETS

The Womans Missionary Society of the First Christian Church met Wednesday afternoon, in the home of Mrs. Thomas Gathright. The lesson was given by Mrs. W. E. Baker, which was both interesting and helpful.

The Women of the Church, expect to be of real value to the new Church, in forming a Sunday School, and establishing regular worship, each Lord's day in the Ritz Theatre beginning next Sunday.

The attendance was good Wednesday afternoon and the next meeting will be held with Mrs. J. H. Booth, September 4th.

LIVE STOCK COMMISSION FIRES FORTY INSPECTORS

FORT WORTH, Texas, Aug. 18.—Forty inspectors were discharged at the session of the State Live Stock Sanitary Commission here Monday.

The action was necessitated because the appropriation for the new fiscal year is \$50,000 less than the commission had based its plans upon. Judge J. A. Whitten, Eldorado, chairman, declared.

Appropriation of \$325,000 had been expected, but the amount allotted by the Legislature was \$275,000.

About 220 local inspectors will remain in the employ of the commission. No district or county supervisors were released.

The fiscal year ends Aug. 31 and the session Monday was devoted to adjusting the work to fit the budget. "We are determined to remain within the appropriation," Judge Whitten said.—Dallas News.

Mrs. A. N. Shipp, in her case in Justice Court Wednesday, against J. M. Cook, for past due rent, was granted a judgement against Cook and immediate possession of her station.

FOR SALE: Cheap Portable Electric Sewing Machine. Perfect Condition. J. D. BULLOCK

Mexican School House Remodeled

Another room has been added to the Mexican School building recently and both the old and new parts are being painted. This step was much needed due to the crowded conditions in that school. Last year one teacher enrolled and tried to teach some 79 pupils. The enrollment this year is expected to be about the same, although probably the school will be late in starting due to cotton picking. The Mexicans are found to take much interest in educating their children for citizenship in our country, and the improvement in the educational conditions for the Mexicans is a sign of progress for Eldorado.

Trustees Urged To Attend Meeting Saturday Night

S. L. Stanford, president of the Eldorado Independent School Board, has called a meeting of the trustees for Saturday night, August 22, and urges all members to be present.

PRIZES AWARDED IN WOMAN'S CLUB FLOWER CONTEST

On the morning of August 3rd, the judges for the Woman's Club Flower Contest visited flower beds planted by forty different children. Some of the beds only showed that an excellent beginning had been made, while others were found in varying stages of growth and care. The children are to be highly commended for the interest taken as manifested by the way the beds had been prepared and cared for.

There were twenty-one children who had especially pretty beds and it was difficult to make the final judging for this reason.

First prize among the girls was awarded to Mildred Thigpen; first prize among the boys was awarded to Samuel Cloud. Each winner receiving a two dollar, fifty cent gold piece.

In addition to the winners, honorable mention was given to the following children, who, judging from their flowers have worked hard to save a pretty bed and deserve commendation for it. Girls: Chrystelle McAngus, Jetty Grace DeLong, Johnny Fern Isaacs, Celeste Tisdale, Minnie Logan, Naomi Underwood and Inex Cobb. Boys: John Thomas Ballew, Milton Spurgers, Julian Carr, Archie Green, Henry Green, Gaylon Casey, Jim Tom Roach, Norman Priest and Hugh De Craig.

MISS AGNES RAE ENTERTAINS

Miss Agnes Rae entertained the Eldorado Bridge Club, Tuesday, August 18, at her ranch home near Eldorado. Contract Bridge furnished amusement and delicious refreshments were served to three tables of club members and guests. Out of town guests present was Miss Louise Nimitz, of San Angelo. Prizes for the afternoon were awarded Mrs. L. T. Barber, high club, Mrs. Ed Reynolds high guest and Miss Louise Nimitz of San Angelo, high club.

Sam Roberts was in from the Henderson ranch Saturday.

Earth Quake Felt In Eldorado Sunday Morning

Quite a few people felt the tremors of the earth Sunday morning and reported same Sunday, then came radio reports and wire news of the shocks. Valentine in Jeff Davis county was the hardest hit, and large damages were reported there. C. M. McWhorter received a message from his nephew, Morris McWhorter, at Valentine, that his business house and his mercantile stock was badly damaged. Press reports give the damage done at Valentine as \$75,000. All of West Texas felt the shock and extended into New Mexico. Beds, doors and windows shook in the Eldorado buildings, no damage.

WHEAT COMPARES WELL WITH CORN FOR FATTENING LAMBS

The feeder who expects to finish lambs this fall may now find it worthwhile to buy wheat for later consumption. The present low prices of wheat and the undetermined size of the coming corn crop make the possibilities of wheat as a concentrate in the lamb feeding ration important, according to Prof. Martin A. Alexander of the Nebraska Agricultural College.

Experimental results show that wheat is a good feed for sheep, he says. A recent trial shows that whole wheat is practically as palatable as shelled corn. Ground wheat, however, is distinctly less palatable than whole wheat, shelled corn or ground corn.

A ration consisting of ground wheat and alfalfa hay proved to be more efficient than whole wheat and alfalfa but slightly less efficient than a ration of shelled corn and alfalfa.

"A definite line, however, cannot be drawn to show when it pays to grind wheat but the test indicates that a feeder can afford to use ground wheat instead of whole wheat when the grinding of 100 pounds will not cost more than the value of 6.8 pounds of wheat and 8.4 pounds of alfalfa hay," Prof. Alexander declares.

Ground wheat in the experiment conducted at the Nebraska station showed that it was 94 per cent as efficient as shelled corn. This means that there is very little difference in value as feed when a bushel of ground wheat costs no more than a bushel of shelled corn.

Nebraska feeders are told that ground corn and ground wheat may be mixed and fed to lambs. A mixture of one part ground corn and three parts ground wheat or equal parts of ground corn and ground wheat products practically the same gain and finish as shelled corn.

Lambs will eat the same amount of wheat as they will of corn. In the 1930 trial the average daily ration was 1.05 pounds of whole wheat and 1.44 pounds of alfalfa hay.

When grinding wheat for sheep, Prof. Alexander reminds Nebraska feeders that the coarser the wheat is ground, the better the results. He says the average ground wheat is too fine and becomes dusty and unpalatable to the sheep.

BUFFALO ACT IS GIVEN APPROVAL

Funds Will Be Sought To Purchase Ranch

AUSTIN, Aug. 17.—Governor Ross S. Sterling today signed a bill designed to preserve the last buffalo herd in Texas, grazing on the Goodnight ranch in the Panhandle.

The law will permit the state game, fish and oyster commission to condemn the animals for state use. Present plans are for the herd to be kept on the ranch. A meeting will be held at Goodnight September 7 to seek funds to buy the ranch for a state preserve.

The pen with which the bill was made a law will be sent to the Panhandle-Plains Historical Society.

Notice

The second shot of the typhoid serum will be given Saturday August 22 at 10 a. m. The second shot of diphtheria toxoid will be given Saturday September 12 from 9 to 10:30 at the school building.

Kenneth Green was in from the farm Saturday trading.

THE SUCCESS
 AUGUST, 21, 1931.

We have found out that even our bankers read The Success. Our friend Ed Hill informs us that this alfalfa that is being shipped in here is to put the gloss on the Schleicher County 4-H Club stock, that goes to Ft. Worth every year and brings back all the blue ribbons offered.

Down in Mexico it is reported that a hill sunk in the earth and a lake of water came in its place, caused by the earth quake Sunday morning.

Senator Reed, of Mississippi, in September number of the Cosmopolitan, says the Federal Government is in the bootlegging business and shows many reasons why he thinks that it is. But the old saying goes, "It takes a crook to catch a crook," therefore if the Government has put in speak-easies to catch officers, who accept bribes, the government might be justified in the act. Therefore he proves by his argument that Uncle Sam is a real detective.

The feed crop in Schleicher County has grown so big this year that it is hard to cut and tie. The stalks are so large and the bundles so heavy that the machines will hardly cut and bind quite a deal of trouble is being had.

If the feed crop in Schleicher County is to be made to pay, there will have to be considerable stock feeding this fall and winter. We have the stock, we have the feed, now lets put them both in one and divide the profits.

Elsewhere in this issue of The Success will be found an article on the value of feeding wheat, why not market some of our cheap wheat through fattening stock.

The earth quake that was felt in Eldorado Sunday morning, really was intended to wake people up in time to get to Sunday School, but as usual

most of the people were late or didn't get there at all.

With all the oil wells shut down, crude oil is likely to go up. Gov. Sterling has closed up all the wells in East Texas. The whales and the minnows were all caught in the same net.

Now if Governor Roosevelt will declare martial law in Little Italy, and stop them from shooting babies, He too might be mentioned for presidential timber.

It is not unusual to see women in the cafes and dance halls, of Copenhagen, smoking cigars six to eight inches long.

To win a 25-cent wager, Wayne Cooper of Wabash, Ind., ate a pound of cheese, a box of crackers, and 48 bananas.

V. H. HUMPHREY TO BUILD NEW HOME

V. H. Humphrey is having plans and specifications drawn for a new 6 room brick and cobbler stone home, to be erected on the lot he now lives on. His present house will be moved on the lot northwest of his, and the new home will be erected where the old home now stands. The contract will probably be let within the next two weeks.

Mr. and Mrs. D. C. Hill left Wednesday for Plainview to visit their daughter, Mrs. Lucile Walker. Miss Mittie Hill another daughter who has been teaching this summer in the Canyon State College, will accompany them home for a visit before her school work starts this fall.

Otto Williams was in the city Tuesday from the ranch 25 miles east.

A POINTER for Sportsmen

If you're a hunter with a "nose" for values you'll soon find what you want at this store, at the right prices. Hunter's supplies of every description—and the hard-hitting Western shotshells: XPERT, FIELD and the famous long-range SUPER-X; all of them now loaded with NON-CORROSIVE PRIMERS. They keep your shotgun clean. Try them!

ELDORADO HARDWARE CO.

SUPPORT ASKED FOR TEXAS CAMPAIGN IN 'USE COTTON' MOVE

AUSTIN, Tex., August 3.—Seeking funds with which to carry on an aggressive campaign to increase cotton uses, the Texas division of the National Association for the Increased Use of Cotton has appealed to every Texan interested in cotton for small contributions toward the organization's support, according to Lowe Simons, executive secretary.

Letters are being mailed to bankers, manufacturers, corporations and individuals in every part of the state, outlining the aims of the association and what it hopes to accomplish for the cotton industry.

Since the goal is to enroll as many Texans as possible in the organization, in every case the contributions asked are relatively small, he declared. Every person who contributes, Simons said, should reap many-fold dividends if the association is able to stimulate consumption of the enormous cotton surplus which threatens the stability of the entire south. Potentialities of the organization were demonstrated when it persuaded many mills of the south, by a weight equalization, to make possible the use of cotton bagging on this year's cotton crop as a substitute for jute.

"Economists tell us," Simons said, "that industry cannot recover from its distress until agriculture stages a come-back. They also say that world prosperity is dependent upon America's prosperity. Since American cotton is the leading agricultural product of the world, the far reaching effects of any movement which helps cotton climb back can readily be seen."

"For his own economic salvation, every Texan should join this organization." All expenditures of the Texas division, Simons said, will be approved by the advisory committee, consisting of Judge W. A. Keeling, former attorney general of Texas; Lawrence Westbrook, Waco, member of the Texas house of representatives and long identified with agricultural interests of the state; and T. H. Davis, vice-president of the Austin National Bank.

ANOTHER USE FOR MOHAIR

Sanford Mills, a New England textile manufacturing plant, has announced it has succeeded in making a man-made fur from goat hair. The goat owners of Texas will hail this announcement with pleasure. For the consumption of mohair has been declining and the production increasing during the last five years. Consequently the price has dropped from 75 cents (in the grease) to 20 cents.

The announcement of the man-made fur process was made through the Mohair Institute of Chicago. The achievement, it was stated, resulted from the development of new types of weaving re-assembles the shorn Angora hair into its naturally erect position on fabric. It is the first time that a genuine animal fibre "fur" surface has been produced without killing the animal.

The "fur" resembles skins, and will be initially used for making overcoats and other apparel. Because of its appearance and content it has been styled "Koongora." Officials of the mill said that it likely will be supplemented with other types of "fur" as the new looms methods are developed. Immediate commercial production and overcoats made from "Koongora" will be on the market this winter.—Cleburne Times-Review.

"THIS AND THAT" By Jimminy

We've had legislatures in Texas before that have made some lengthy investigations, but we've never had one that couldn't shake it off when the public showed enough of the old disgust. But, apparently, this extraordinary effort has gone beyond the control of the steering committee, bearing committing and jeering committee. The public is unwilling to believe that anything good will come out of the session—other than the \$150,000 the state must pay for its folly. Yet the servants of the people can't stop the "cross questions and crooked answers," "cross questions and crooked answer"—for one good reason or another.

Although vigorous protests have been made to stop what many writers term the "two-ring legislative circus," no one seems to be able to take the "bull" by the horns and throw it any further than the outer reaches of the legislative halls. It would appear that the lawmakers can't control oil production because they can't control their own members long enough to formulate a plan of procedure. And that was to be expected.

Many a representative left home thinking he could save the oil industry only to find that the best he can hope to do now is to save the double-six for an off in a game of Forty-two. Reports have it that the solons dominate by day and dominoe by night. All of which would indicate that the servants of the people see more advantage in holding seven "rocks" of one suit than they do in trying to hold seven oil men to one well.

The "board of inquiry" has questioned nearly everybody who ever had anything to do with oil, except the little lad in Tyler who had to take two tablespoonsful of castor oil for being unruly—and if he don't prorate or do something soon, they will probably look into his case. Things are so bungled now that nobody knows whether the questioning is for a cure, or for curiosity.

One senator wanted to let the oil industry save itself and have the legislature pass a law that would save human life. The idea didn't go over—probably because a majority of sourons don't feel like taking a junket to Hades to find out if it would be worth while.

Modern Electric Refrigeration —An Investment in Health

Your Electric Refrigerator will maintain automatically a constant temperature under 50 degrees—no matter how high the thermometer registers this summer. This definite assurance of food-safety, you will agree, represents a gilt-edged investment in health.

Why wonder about your foods when you can install a modern Electric Refrigerator and know that your family is safe from the danger of tainted foods? Millions of modern Home-managers have found in this automatic, trouble-free system an efficient and inexpensive

solution to their refrigeration problems. You can end your worries in a similar manner.

The accurate and dependable Electric Refrigerator offers unusual economies, too! You'll save money by eliminating food spoilage, by buying in larger quantities at lower prices, and by freezing inexpensive but delicious frozen desserts and salads right in your own home. Ask a salesman to demonstrate this modern Electrical Servant—you're sure to appreciate the many advantages and superiorities of the new Frigidaire.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

H. M. Freund was in from the ranch Saturday. Mr. Freund does not own a large ranch but he was ready for the depression and doesn't understand why others were not.

RUN-DOWN and WEAK

"I began taking Cardui when in a weakened, run-down condition," writes Mrs. F. S. Perrit, of Wesson, Miss. "I took one bottle, and I seemed to improve so much that I sent for six bottles. After I had taken the six bottles, I seemed entirely well.

"Before I took Cardui, I was nervous, restless, blue and out of heart. I felt depressed all the time. After I took Cardui, all this disappeared.

"I gave my daughter Cardui and it helped to relieve irregular . . ."

This medicine has been used by women for over 50 years.

ON TEXAS FARMS

By W. H. Darrow,
Extension Service Editor

Six turkey demonstrators and co-operators in McCulloch county has raised from 90 per cent to 95 per cent of all hatched poults up to two months of age by following a system outlined by the county agent. Hens were fed mash beginning in December, and when the poults came off in the spring the hens were put in coops in cultivated fields and the young turkeys allowed to range in oat, wheat, barley and corn crops nearby. Coops were moved to fresh ground every three days. This kept the turkeys from getting wormy and away from red bugs, blue bugs, and other harmful insects.

From 50 acres of land Floyd Wingington of Sherman county has cut 50 tons of alfalfa hay in the first cutting this year.

An incomplete record by the county agent in Wharton county shows that 11 men this year started 1,173 native pecan trees from four to 30 inches in diameter on improved career by top working and budding. A total of 13,200 buds were placed in these demonstration groves.

By gathering seed from little grazed spots along highways and railroads Robertson county farmers conducting pasture improvement demonstrations have secured a start of the following desirable pasture plants; burr clover, Carolina clover, black medic, sweet clover, rescue grass and wild rye.

On a demonstration acre farmed by H. L. Baker in Lamar county a yield of 85 1-2 bushels of oats has been made with the help of a top dressing of 100 pounds of sulphate of ammonia. Unfertilized land made 37 1-2 bushels per acre.

THE HOME TOWN KNOCKER

The home town knocker is not a desirable man. He couldn't tell the truth in any old land. He knocks the church, he knocks the preacher, He knocks the schools, he knocks the teacher, He knocks most every enterprise that comes to town, Also every citizen in it of any renown; He knocks the merchant and people of gentle nature, And does not forget his old home paper, When his end comes—meets with Death, He'll be knocking the old Devil with his last breath.

THE HOME TOWN BOOSTER

The home town booster is a fine old rooster, He boosts the churches and the schools, And has no use for the knocking fool: Who sit around with a grouch And spit out of their pouch All that is mean against the Golden Rule. He meets all visitors with a smile And tells them everything worth while About our town, which has a great renown For water, shade, climate and health. And urges that he stay and invest his wealth.—Christoval Observer.

Shorty Ballard entertained the town this week with his guitar, and his yodling ballad, "I'm in the Jail House Now." Shorty was put in jail last week and by permission of Sheriff Conner was allowed to have his guitar and he passes away the time yodling from the jail house.

George Williams was in the city Saturday meeting friends and passing away the time, trusting that rotten will go up.

J. F. Kinser was in the city Saturday from the farm buying supplies.

Mr. and Mrs. O. J. Smiley, who have been visiting their daughter Mrs. Haywood Bird, and Mr. and Mrs. A. J. Atkins, left Friday for San Antonio and Houston where they will visit before returning to their home in California, by way of Grand Canyon and Salt Lake City.

Henry Mund and wife were in from the ranch Saturday buying supplies.

Useful service to our customers is the basis of every transaction we make.

We think of our customers as our boss, and we as his employe; and therefore we strive harder to please. We believe that service to our trade is a builder of goodwill and friendship, but that profit alone without service never built a permanent business. We want you as a regular and permanent customer.

Every dollar spent with us is really spent in west Texas.

Edgar Spencer was in from the ranch Saturday looking after business.
R. C. Edmiston and wife were in the city Saturday.

"UNCLE" SAM NICKS TAKES DIVE IN TANK

Jerrell Nicks, who several months ago, got caught in a steel trap, said his grandfather had found a great deal of pleasure in teasing him, but Jerrell was out at his grandfather's this week, placed a large watermelon in the tank to cool. And when they went back to get the melon, it had floated out from the bank. Mr. Nicks went to drag it out with his cane, and became over balanced and fell off into the tank, which was most amusing to Jerrell. Uncle Sam is about 75 years old and claims to be active and young, but he can't drag out a melon like he used to do.

PROGRAM FOR HI-LEAGUE AUG. 23

Leader: Eugene Koy
Hymn: "Come Thou Almighty King."
Prayer: Lords Prayer in Unison
Scripture: Matt. 2:1-12: Junior Isaacs
Some Expressions of Happiness Showing Jesus Ideas in Daily Living: Hassel Rauliff
Closing Prayer: Mrs. McWhorter

Mr. and Mrs. J. H. Jarvis of the Shell Pipe Line Station have as their guest this week, Mr. and Mrs. W. J. Trough, mother and father of Mrs. Jarvis, and Mr. and Mrs. Clyde Sheppard, niece and nephew of Mrs. Jarvis. The visitors are from Dade City, Florida. They left Wednesday morning for the Carlsbad Cavern. Mrs. Jarvis and mother will stop over and visit at McCamey, until the others visit the cavern. Mr. Jarvis remained on duty at home.

Mr. and Mrs. W. H. Parker and family, Mr. and Mrs. Rodney Lewis and daughter, Mrs. E. C. Parker and son, Luther, Mrs. W. M. Davis and Misses Estelle Johnson and Bess Mann spend Monday seeing sights in and around Del Rio and Villa Acuna.

Mrs. J. H. Booth has installed a new Western House Light plant, buying same from Robert Isaacs, the local dealer.

J. H. Rodgers was in from the farm Saturday meeting friends and discussing the current events.

Y. Y. Acker was here Saturday from Eden, visiting his mother, who makes her home here with Mr. and Mrs. J. P. Rodgers.

Nurse's Health Report

Miss Antoinette Ahlschier, health nurse from the State Department, completed her week's work here Friday afternoon at 4:30. She made the following report in regard to the American children:

No. pre-school children examined	18
No. defects pre-school children	16
No. school children examined	134
No. defects school children	134
No. children overweight	25
No. children average weight	5
No. children underweight	122
No. children vaccinated for small-pox	17
No. children given toxoid for diphtheria	66
No. children given serum for typhoid	2
No. children given Schick Test	47

One heart case was found. Many of the children need to have dental work done. Some should have tonsils and adenoids removed.

Miss Ahlschier asks that we emphasize the importance of the right kind of food. She says that most children should eat more vegetables, such as carrots, lettuce, and spinach. Fresh dried fruits are important foods too. Fish is a good food that is not used much in this part of the state. Of course, milk, butter and bread should be a part of the days ration. Children should not be allowed to eat just anything at any time. They should be taught to have regular health habits. The following is a record of the work done among the Mexican children:

No. pre-school children examined	16
No. defects pre-school children	16
No. school children examined	67
No. school children defects	67
No. children overweight	10
No. children average weight	1
No. children underweight	62
No. children vaccinated for small-pox	30
No. children given diphtheria serum	5

Very few of the Mexican children have teeth that are in good condition. Some of these children have skin diseases. Miss Ahlschier says it will be impossible to check this disease among them as long as they have such a limited supply of water.

We, Americans should do all we can to help these non-English speaking people to be healthy. Most contagious diseases originate among them. When they come into our home to wash, iron and clean the house we are more or less exposed to any disease they might have. Protecting the Mexicans against diseases is one way of Americanizing them and protecting ourselves.

Officers and members of the local Parent Teachers Association wish to thank all those who so willingly gave their assistance during the health campaign. It was only by their help that the campaign was a success.

Mr. and Mrs. John Williams were in the city Saturday from the farm trading.

Bert Page and John I. King went to Austin last Thursday, returning by Brady Friday where R. J. had undergone an operation early Friday morning. They returned to Eldorado Saturday.

Ruth Jennings and Opal Eakin of Winters are visiting Inez Cobb and Lolete Andrews. Honoring the girls Mrs. Cobb entertained with a party Monday night, thirty guests being present.

Felix Susen was in from the ranch Saturday buying supplies.

Mrs. Joyce Burden and son, Jack, are making an extended visit with Mrs. Burden's parents, Mr. and Mrs. T. W. Johnson on the ranch near Eldorado.

Taylor Neill and wife, of St. Louis, are here this week guest of Mr. Neill's parents, Mr. and Mrs. G. A. Neill.

L. B. Burk and family of Rochelle, are visiting Mr. Burk's parents, A. J. Burk of our city this week.

FOR SALE: Pure Red Rust Proof seed oats.

CHARLIE MUND

Hollis P. Miller, of the West Texas Lumber Co., is visiting his parents this week at Kemp, Texas. His route will probably take him via Brady.

The party who borrowed my windmill tools, will please return same.
J. B. CHRISTIAN

Mr. and Mrs. Lee Williams of Crain City, were in Eldorado last week prospecting. Mr. Williams was formerly in partners with Jim Branch in the Tailor Business at Crain.
