

# ELDORADO SUCCESS

Schleicher's Leading And Most Widely Distributed Newspaper

VOL. XXXVI

Eldorado, Schleicher County, Texas, Friday, February 21, 1936

No. 8

## On The DIVIDE

"Tagging" in Schleicher county has about reached completion. The following local ranchmen report the "wind-up" of the job: Tom Jacoby, Albert Bailey, Evans Ethridge, Clarence Johnson, Hensel Matthews, J. H. McClatchey, Thompson Bros. & Lawhon, and George Whitley.

Cecil Locklear local race-track sportsman has gone to Tucson, Arizona where he has received an invitation to race "Fast Time," Schleicher county race horse.

Lewis Stewart, foreman of the McIntosh Ranch recently bought of Luke Thompson, has completed his tagging.

If anyone is of the opinion that Schleicher county is not the ideal spot for raising sheep; we suggest that they converse with Ben Hext who is telling of triplets born to one of his ewes.

## Continental Again Proves It's Faith In Newspaper Ads

Ponca City, Okla., Feb. 21.—During 1936 Continental Oil Company will spend nearly 75 per cent of its total consumer advertising appropriation for newspaper space, it was announced here today by Wesley I. Nunn, advertising manager.

Nunn also stated that the Success has been selected to carry Conoco advertising this year, and that his company has again approved one of the largest sales promotion budgets in its history.

"Continental's faith in the divided earning power of newspaper advertising is founded upon sales increases directly traceable to this medium," said Nunn. "Last year, for example, there was a marked improvement in Company earnings, despite excessive gasoline taxes and other adverse factors. Sales of Conoco Germ Processed Motor Oil also reached an all-time high.

"Business is definitely on the upgrade. And we are confident that aggressive newspaper advertising, quality products and a high standard of service will make this the most outstanding year in our history."

## MRS. JOHN WILLIAMS HOSTESS TO CLUB

Libraries and publications was the subject of the program of the Self Culture Club at a recent meeting at the home of Mrs. John Alexander.

After the business program, Miss John Alexander conducted a short parliamentary drill. Mrs. Gordie Alexander as leader gave a discussion on children and the library habit and Mrs. Palmer West gave a paper on noted Texas libraries. Newspapers and magazines and the men who make them was treated by Mrs. Geo. Williams.

A salad course was served to Mrs. Joab Campbell, Mrs. L. M. Hoover, Mrs. O. E. Conner, Mrs. West, Miss Pauline West, Mrs. Williams, Mrs. Bill McSwain, Miss Alexander, and Mrs. Reuben Dickens, members. Guests were Mrs. Elizabeth Wright and Mrs. Archer.

## Yes--We Have No Fire Department

Strange as it may sound—the colder it gets, the hotter the firemen and insurance adjusters become—Yea, if we had the firemen—That heat of course is not caused by the weather; it is brought about by more work.

Statistics reveal that severe winter weather causes an epidemic of fires. It is not difficult to see why this is so. In an effort to be comfortable, people force their stoves to the limit and also make makeshift heating agencies. Under these conditions, it is natural for more fires to break out, and this means more work for the fire department—if we had one—and more losses for the insurance companies to adjust.

If you don't want your house to become so hot that you will have to park outside, you should exercise the utmost care in operating your stoves—especially when the mercury drops to low temperatures—For we have no fire truck in Eldorado.

A little time spent in an effort to secure fire-fighting equipment for Eldorado is a good step too. If you feel that Eldorado is not safe from the re-occurrence of the 1934 fire, you will do well to ask the city commissioners to do something about this serious problem.

## SELF CULTURE CLUB HAVE PARTY

Members of the Self Culture club, their husbands and a number of guests were entertained with a Valentine party recently at the home of Mr. and Mrs. John Williams.

Progressive "42" furnished the diversion for the evening. The tables carried out the Valentine motif which was further accentuated in the refreshment plate.

Guests present were: Mr. and Mrs. Doc Kerr, Mr. and Mrs. Bill McSwain, Mr. and Mrs. Jimmie West, Mr. and Mrs. Geo. Williams, Mr. and Mrs. Palmer West, Mr. and Mrs. Gordie Alexander, Mr. and Mrs. Tom Jones, Mrs. Orvill Conner, Mrs. Elizabeth Wright, Mrs. Archer, Mrs. Reuben Dickens, Miss John Alexander, Miss Pauline West and the host and the hostess.

## HONORED ON BIRTHDAY

On February 8th, Mr. and Mrs. S. D. Harper Jr. honored Mrs. Harper's father, Mr. D. E. DeLong by observing his 70th birthday anniversary.

Present to enjoy the occasion were: Mrs. Ruby DeLong Matthews, of Amarillo, Mr. and Mrs. Edwin DeLong and little daughter, Mr. and Mrs. Lawrence Steen, and Jettie Grace DeLong, the host and hostess, Mr. and Mrs. Harper and children and Mr. DeLong the honoree and Mrs. DeLong.

Ruby DeLong Matthews who has been connected with the Federal Resettlement as Home Supervisor of Dawson and Davis counties with headquarters at Lamesa, Texas, has been appointed assistant State Director of Home Management, Region Twelve or "The Dust Bowl Area"—with Headquarters at Amarillo, Texas.

Mrs. W. J. Durham, daughter of Mr. and Mrs. H. H. Hooker, visited her parents over the week end. While here Mrs. Durham was honored with a shower given by the Presbyterian Ladies.

Miss Florence Page was a visitor in Dallas this week.

## Stunt Night Staged Last Friday Night

The Parent-Teachers Association staged their stunt night Friday night, February 15, at the High School Auditorium.

The first prize was won by the chapel program "Major Cooper's Amateur Hour." The characters were Jack Hext, Johnnie Fern Isaacs, Maxine Wilton, Wallace Cuzzins, Alton Page, John Luedicke, Nell Edmiston, and Frank Bradley.

The program consisted of several songs, barnyard imitations, imitations of Joe Penner by Wallace Cuzzins, and several other numbers. Several of the contestants received the gong. The prize was \$5.00 donated by the Women's Club of Eldorado.

The Grade School Teachers were awarded the second prize. Their stunt was "The Old Family Album." The characters in the stunt were Miss Marshall Elmore, Miss Oma Ford, Mrs. Arnan Drennon, H. D. Irby, the McSwaine boys, Roy Jacoby, and many others. The prize was \$2.50.

There was some mistake in the statement that the winning stunt was put on by the Senior class. There was only one senior in the program. It took brains and technique to put on such a program with such competition. The seniors have neither.

## THE COUNTRY WOMAN'S H. D. CLUB MET

The Country Woman's Home Demonstration club met in the home of Mrs. B. E. Moore, February 19, 1936, with an Education Day Program.

Refreshments were served to Mrs. Will Lewis, Mrs. Ward Parks, Mrs. L. Kent, Mrs. Bill McSwain, Mrs. Gordie Alexander, Mrs. R. E. Cheatman, Mrs. Claud Alexander, Mrs. Ray Alexander, Mrs. Marion Wade and the hostess Mrs. B. E. Moore.

The next meeting will be with Mrs. Paul Nixon, March 4, 1936.

Mrs. Chick Rehm of Rock-springs had dinner with Mr. and Mrs. Frank Bradley, Tuesday.

## West Texas Receiving Widespread Publicity

Dallas, Texas, Feb. 21.—West Texas, including Eldorado, is receiving widespread publicity in a colorful folder which is being distributed throughout the nation as part of the work of the state department of information for Texas Centennial celebrations.

The folder, attractively printed in three colors, extends an invitation to all America to visit the Texas Centennial celebrations. A general description of the state is followed by a more detailed account of the attractions and resources of the sectional divisions and the back page presents a short outline of the Texas historical period now being commemorated in the state-wide Centennial observance.

The section, referring to West Texas, is headed: "See West Texas. Land of Distances—Great Ranches—Last Frontier of Old West." the content follows:

"Fort Worth is referred to in the Southwest as 'Where the West Begins.' It is the fourth largest city in Texas, leading cattle market of the state and one of the major cattle markets of America. An important transportation center, Fort Worth is headquarters city for stockmen, the rancher, and the oil man of West Texas.

"Heading west from Fort Worth, the traveler takes U. S. highway 80, often called the 'Broadway of America.' This splendid ribbon of pavement stretches on to El Paso through as rugged and scenic a country as is offered in America. After a short drive, you'll pass through Weatherford, nationally known for its watermelons, then on to Mineral Wells, a health resort as renowned as any of Europe's famous spas. Beyond Mineral Wells, the highway brings you through the famous Ranger—Eastland oil fields, on to Abilene. Here paved trails cross. You make your choice—whether to visit San Angelo and head for Eldorado, Sonora, Del Rio on to the border, and the marvelously scenic Devil's River country, or push west through Sweetwater, Big Springs, historic Pecos, and on to El Paso. Either trip offers thrilling attractions. If time permits, you'll wish to make both.

"The 'Big Bend' country, south of Alpine, probably provides the best place to see the Old West as it really was. However, cattle ranches are common in West Texas and the visitor in most any locality witnesses this colorful occupation in operation. Dude or guest ranches are to be found in various sections.

"West of the Pecos' is a region still more or less untouched by civilization, a region abounding in natural attractions to lure the visitor who seeks to avoid the beaten path. Within this territory are found rocks of nearly every geological age represented in Texas. The altitude ranges from less than 200 feet in the lower Pecos valley to a plateau of about 4,000 feet above sea level, with numerous mountains attaining altitudes of 5,000, 6,000, 7,000 feet and more.

Guadalupe peak in the Guadalupe range, Culberson county, is the highest point in Texas, reaching to 9,500 feet. The Davis mountains of Jeff Davis county, (See No. 1 Last Page)

## Schleicher County Praised; Shouldering Local Relief Problem

Schleicher County officials, along with the commissioners of Crockett and Sutton counties, drew praise this week from Adam R. Johnson, relief director, for their declaration that local governments should shoulder relief burdens.

Schleicher county joined with Crockett and Sutton counties in employing a welfare worker, a prerequisite to distribution of federal surplus commodities.

## LIONS CLUB HAS POOR ATTENDANCE

Due to many of the members being confined to their homes by illness or out of town for the day, the attendance at the luncheon for Lions last Wednesday was way below the average.

One new member was introduced, to Lionism Wednesday. John F. Isaacs is now an active member. Other new members are expected to be out next week.

Reports were made by the committee to assist others on raising monies for prizes to be awarded to the winners at the 4-H Club Boys Fat Lamb Show Saturday. Other committeemen appointed to assist in the securing of fire-fighting equipment report that they will continue to be active.

## ROAD WORK IS SLOW SAYS JUDGE FINLEY

Work on the Schleicher County road project is getting along rather slowly according to Judge H. W. Finley. Judge Finley reports that a scarcity of available relief clients greatly handicap progress, in that, a certain percentage of all WPA moneys expended must be made for labor rather than machinery and equipment.

"The present force of twenty men have to be increased before added trucks can be secured and so speeds up the work at hand," Judge Finley adds.

Mr. and Mrs. Will Isaacs, and Mrs. Frank Bradley are leaving tomorrow for Fife, where they will visit their father and help celebrate his 91st birthday.

## Application Will Prove Amount Annual Income

Applicants should be able to prove their yearly income because the old-age assistance law provides that \$360 yearly for single persons and \$720 yearly for married couples must be the total of revenues received by applicants from all sources including the State aid, Orville S. Carpenter, executive director designate of the Old-Age Assistance Commission said today about the new law.

"Applicants should be prepared to make a full and complete statement of all earnings for the two years immediately preceding application," Mr. Carpenter declared.

"The cash or security clause in the new law necessitates that applicants be able to tell the exact amount of money they have in the bank. They should be prepared to give a description of all securities owned, serial numbers, from whom purchased, etc.," he explained. "If securities were sold, the name of the purchaser must be known. Full details about all securities handled, bought, or sold during the last two years must be provided.

"Not only does the requirement concern earned income, but aid received from any source must be listed," Carpenter stated.

Section 7, subsection (e) of the new law reads that the application shall contain the following information:

If receiving aid from any source, the amount received and from whom, or if such aid be not in cash money, then a description of such aid tendered, together with the name of the source of such aid and from whom; the amount received from the United States government, State or county, public or private charitable organizations, corporations, or private individuals.

Applicants will be able to get blanks at the Success Office now. These forms may be filed as soon as filled out by applicants.

## THEY LEFT WILSON AT HOME THIS TIME

Joe Chitty and R. C. Morgan "sneaked" away, leaving L. T. Wilson at home, and went fishing last Friday. They visited the Utility Dam on the Devils river.

It has been reported that they caught one so large that Joe was forced to take it up the river in search of a wide enough place in the canyon to turn it around. And it was intimated that the water level was lowered considerably when the monster was finally landed.—You win Joe.

## PILLSBURY FLOUR DISPLAY AT LONG'S

The display of flour in the window of the Longs' Variety Store has drawn a great deal of attention for the past several days.

The Pillsbury Flour Mills Company will give away the giant sack of Pillsbury flour on display to the person guessing nearest the weight of it's contents. Other prizes will be given for the second, third, and fourth estimating the nearest correct weight of the giant sack.

Mrs. J. W. Fry and daughter and two sons, visited Mr. and Mrs. Gib Ballew, Sunday.

**ELDORADO SUCCESS**

AT ELDORADO, TEXAS

**C. S. MCKINNEY**  
Owner and Editor

Entered as second class matter at the Post Office at Eldorado, Texas under the Act of March 3, 1897.

Subscription \$1.50 per year, in advance. Subscription will be discontinued promptly on expiration.

**ARE TVA RATES TOO HIGH?**

We have been connected in some way with the printing industry for a number of years, having entered the field early in life. Since our earliest connection with printing we have heard, and in latter years felt, that the U. S. Post Office was a competitor to the printer.

Any post office will take orders for printed envelopes at a price considerably lower than we are able to buy the plain envelopes. Whether the tax payers pay the difference or whether the government can produce envelopes at a small cost, we have been unable to determine. But we do know that they sell them to the home-town business man, who profits, or thinks he does, by buying government products.

So, now comes TVA and a promise of all the electricity we can use for a price below that which the power companies charge for electric service.

Country newspapers in many instances, are afraid to say very much about the Electric Power Companies. Most of us would be out of luck if we lost the half-priced advertisement placed in our papers. But if it is good business to buy government envelopes at one-third price, it is good business to buy electricity from the government. If it is good business to buy electricity from the government, it certainly would be good business to buy groceries from Uncle Sam.

We feel that the Power Companies owe a debt to the newspapers, for standing by them and printing a lot of the free propaganda sent out by agencies employed to chisel space in the home-town paper which should have been paid for.

It is our opinion that the Power Companies will do well to stay with the local newspapers, and if the government goes into the electric business, they just as well take it on the chin, as we printers are doing.

We are going to stay with the Power Companies and unless you want to buy your groceries from Uncle Sam and have him take over the whole outfit we believe you will stay with them. And then it will be only right that the Power Companies stand by the citizens by giving a better service at a much cheaper rate.

**"WITHOUT COST TO THE TAXPAYER"**

Would it be worthwhile for the nation to establish a public utility policy, which, in effect, said: "Go ahead, utilities! You will be regulated, but fairly. Wild catters in your midst will be ferreted out and given a dose of strong medicine. Any crooks will be punished to the full extent of the law. Adequate laws will be set up to protect consumers and investors from exploitation. Well-managed utilities and their investors will be protected and allowed to make a reasonable profit."

**SALES BOOKS FOR SALE** at the Success Office.

**WISE FARMERS STICK TO FARMING**

The fear has been expressed that the development of the agricultural cooperative movement will tempt the farmers to go into other lines of business—lines in which they are entirely inexperienced.

Commenting on this, the head of one of the largest and most successful dairy co-ops in the nation said that there is no reason nor any economic justification for farmers going into alien fields of endeavor on a commercial basis. And he added that, due to the high mortality in all business, there would be so many costly failures if farmers attempted to extend their "co-ops" to different lines, that the cooperative movement as a whole would be harmed and endangered.

It would be as unwise for a group of farmers to go into manufacturing, as it would be for a group of industrialists to go into farming. The farmer cooperative movement, soundly conceived and administered, parallels the association activities of other lines of industry. To distort this movement, and change its fundamental purpose to embrace farmer-operation of business distinct from agriculture, would be a dangerous folly. In other words, let the farmer stick to his farming and the manufacturer to his factory.

**YOU CAN'T GET AWAY WITH IT**

NOTE: Fake accident racketeers are an insidious threat to every honest business and individual. Agencies of justice are bringing them to book and can continue to do so with your help. This is one of a series of articles describing some of the tricks of the racketeers. Watch out for them yourself.

**The Tack Swallower**

When Boris Kikovsky swallowed a brass tack he thought he had really swallowed a gold mine. He decided to make money on the mishap, not in a circus side-show or on the stage, but in the fake claim racket. He was successful—for a time.

In playing his simple act, Boris traveled from town to town. In a strange city he picked out the best restaurant, entered and ordered a meal. Half way through it he sprang to his feet with a blood-curdling yell. "I have swallowed a tack!" he screamed.

The startled restaurant manager usually sought to quiet him until he reached a doctor, but Boris continued his noise as part of the act. He demanded x-rays, which inevitably revealed the tack nestling prettily in his insides. Afraid of a civil suit, the restaurant proprietors made quick settlements—and large ones.

Then Boris made the mistake of trying his racket on a member of the Index Bureau System of the National Bureau of Casualty and Surety Underwriters. Investigations revealed long lists of eating places where the faker had eaten a tack. Medical examination disclosed that although there actually was a tack in his stomach, it was held there harmlessly by a growth of skin.

An operation removed it, and Boris entered on his prison sentence admitting, "You can't get away with it."

Some people find nothing unanimous until they are alone.

One who fibs while courting will lie when he's married.

\* Hard knocks make us enjoy kicks.

To be proud of your faults is to commend a jackass.

**BY OUR WITS**  
\* As the world wags we shall lean less on Uncle Sam to pull us out and look more to our wits again.  
\* All so soon NRA is almost forgotten while business leaps along without its congressional crutches.  
\* Smart merchants are already on their toes using old weapons and new ideas.  
\* As usual the frequency of our merchandising turnover depends upon the telling effect of our advertising.  
\* To print the truth about one's wares in one's local paper is to use one's wits, and by one's wits one prospers.

The most accurate way to evaluate a country's tax burdens in the light of the relation of taxes to the national income. On that basis, the U. S. tax problem is becoming steadily worse.

A United States News' tabulation says that when our national income reached its 1929 peak of \$79,000,000,000, taxation accounted for 12.4 per cent of it. In 1933, national income touched its post-war low, dropping to \$43,500,000,000, and taxes took 18.6 per cent. In 1934 and 1935, taxes took 19 per cent and 19.1 per cent of the national income, respectively.

Highest taxed nation is England, where 25 per cent of national income goes for taxation. But England has a balanced budget, while in the U. S. government spending is far outrunning revenue and creating deficits which must be paid for in the future.

**BETTER SWAP YOUR AUTO FOR A HORSE**

If foreign countries are destroying the wealth and the savings of their citizens with confiscatory taxes which make life a burden, why should the United States follow their example?

Ever so often the people are offered as an excuse for rapidly increasing taxes, the statement that they are not yet taxed as highly as the citizens of England or some other country. Well, why should we be? That question is never answered.

Now that the 1937 federal budget with an admitted billion-and-a-half deficit, has been knocked into a cocked hat by loss of processing taxes and an over-two-billion-dollar bonus obligation, plus an undetermined relief expenditure, the tax-raisers are looking for new sources of income.

One plan that reports say has been suggested in Washington, is for a tax levy on the horsepower of automobiles. It is pointed out that England, France and Italy have such a tax.

There are some 25,000,000 motor cars in the United States. It is estimated that if they furnish 500,000,000 horsepower available for taxation. A tax of 1-2 cent per day per horsepower, would yield \$912,500,000,000 a year, or \$1,825,000,000 a year if the levy were increased to 1 cent per day per horsepower.

Automobile owners are already paying approximately \$1,000,000,000 a year in Federal, state and local taxes. So what does another billion more or less amount to? A penny per day per horsepower, for a 20-horsepower car, would be only 20 cents a day, or \$73 a year on top of present taxes.

The scheme sounds wild and impossible but we already bid fair to be record breakers in other taxes, so why not trail along and become Europeanized on our automobile taxes? No matter how you figure public expenditures, they all come out of the common citizen's pocket.

**WASHINGTON FACTS**

George Washington was born February 22, 1732. He had two brothers, three sisters, his father was Augustine Washington, a wealthy Virginia planter. George's father died when he was 12, leaving his estate to George's oldest half-brothers. At the death of the older of his half-brothers, George was made administrator of the estate, which put him in control of Mount Vernon at the age of 19.

Washington was very strong, and could throw a pebble across the Rappahannock River. He became a surveyor at 17, and his work is still looked upon as the most accurate to be found.

He was in charge of drilling soldiers at the time of the trouble between French and English land traders. When the Revolutionary War broke out, he was appointed commander-in-chief of the American forces.

After the close of the war, Washington was chosen unanimously as president to lead the new republic. He served eight years, but refused to serve a third term—establishing a precedent unbroken up to the present time.

Washington married at the age of 29, wedding Martha Custis a rich land-holding widow. The Custis plantation was across the Potomac River from Mount Vernon. Washington and Martha lived happily at Mount Vernon for 16 years before Washington was called to war.

After his terms as president had expired Washington made his famous farewell address, asking the United States to keep their domestic unity and foreign impartiality. He settled down on his estate at Mount Vernon and spent his days managing his plantations.

Washington was on the committee to choose a site for the new National Capital, and a spot within view of Mount Vernon was chosen.

After riding in a sleet and snow storm on December 12, 1799, Washington became ill and died two days later on December 14, of acute laryngitis at Mount Vernon. It is said that he apologized to his doctors before dying because of the trouble his illness had caused them. He was in the act of taking his own pulse as the very time of his death.

At the time of his death, Washington was 6 feet 3 inches in height, weighed 220 pounds, and was 67 years of age.

The entire United States and European countries mourned his death. Truly he was "first in war, first in peace, and first in the hearts of his countrymen."

**Lady Took Cardui When Weak, Nervous**

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

**DO YOU KNOW THIS MAN?**

To Whom It May Concern: "I am writing this in an effort to learn if anyone is now living who remembers the old Youngblood Fort in the year 1863, and someone who remembers the W. Vernon family on which the Indians made a raid, killing Edward Vernon and wounding both Tom and Marion Vernon. During the raid a man by the name of Long was killed.

It is important to me that I find someone who remembers the Vernon family at that time. I was born six weeks after the Indian raid and have no record of my birth, as records of this kind were not kept at that time. I want to establish in some way the place and date of my birth, as this is required in the application for an old-age pension.

Will appreciate any information concerning this.

Yours truly  
Eldrage C. Vernon  
Olympia, Washington.

# STUDY OF THE YAQUI INDIANS

"Strange mixture of the primitive and the advanced among a tribe of Indians who grind corn by hand, carry machetes, laugh and dance at funerals, and encourage illiteracy, at the same time they farm with American-made machinery, profess Catholicism, wear straw hats, and elect a governor once a year is described in a bulletin published recently at Texas Technological college, "Studies of the Yaqui Indians of Sonora, Mexico."

The book contains findings made when an expedition led by Dr. W. C. Holden, Texas Tech anthropologist, penetrated the lower Yaqui river region and visited four Indian villages in March 1934.

Relations between Yaquis and Mexicans are still hostile. Though the men of the river villages are officially a part of the Mexican army and receive pay, they do not drill or take orders from the Mexican army, Dr. Holden says, explaining that "in each village there are two garrisons, one Mexican, one Yaqui. They are paid

by the same government but spend their days watching each other." A later chapter in the report states that the Yaquis are reluctant to send their sons to the Mexican schools, fearing Mexican influence.

The American expedition was treated with friendliness. Suspicion was allayed at the start by an operation performed upon a Yaqui by Dr. C. J. Wagner, Lubbock, Texas, physician and member of the expedition. On the tenth day Juan Serrano came to "try out" the strange surgeon by having a bullet removed from his spine. In an engagement with a Mexican force nine years before, bullets had plowed a groove across his back as he crouched behind a rock. "It makes pain the light of the moon," he said. With Juan on a squared-log bench and two members of the expedition waving branches to keep insects away, fifty Yaquis looked on as novocain was injected and the bullet removed in three fragments and held up for them to see. "The murmurs of approval were music to our ears," Dr. Wagner says.

From then on the Yaquis were confident about the ability of the Americans, and nine operations altogether were performed. A letter from the interpreter after the expedition had returned describing the condition of a friend who had been operated upon said "I am glad to write you. Just let you know about the man who made a operation. Well he thanking you ever so much. He is very well already."

Though the first funeral witnessed by the party lasted forty-two hours, not a tear was shed. Feasting and entertainment continued day and night before the final rites, which were both pagan and Christian. As devil chasers kept the evil spirits away from the corpse, two dancers clogged and "made funny words" about "los Americanos," who could not say anything but "Si, senior," and "Muchas gracias."

A description of Yaqui organizations in the first chapter of the report reveals that Yaquis pay no taxes and do not wish to accept and hold political offices. Men who refuse to be influenced by the argument that it is their duty to accept offices have been whipped until they agreed to assume the new positions. All Yaqui villages have a central government in the form of a chief and council, to which all the inhabitants of the village belong.

The average Yaqui, Dr. Holden says, puts more time at the Marriage customs whereby the mother chooses a healthy, robust

council house than anywhere else, barring the time he spends at home. "If there is anything to deliberate upon, he either talks and spits or listens and spits. If there is not anything to deliberate about, he merely spits," Dr. Holden explains.

mate for her son with little regard for pulchritude and where-by the Church permits no divorces though polygamy is not unknown, the meager household equipment of the Yaquis, and their crude bamboo homes with dirt floors and no windows are discussed at length in the nine chapters written by various members of the expedition. A description of the home life of the Yaquis stresses their love of children and the extremely high infant mortality rate. Yaqui parents would not trade their children's playthings or articles of clothing for any amount of money or for any trinket. A pair of shoes, guaraches, were given Dr. Wagner as a fee by the grateful Juan Serrano only because the baby's "feet too big," as Juan explained.

One of the most startling revelations of the book and one of the most significant to anthropologists is made by Carl Coleman Seltzer, physical anthropologist at Harvard university, in his study of the Yaqui physical characteristics. He says the Yaquis exhibit a number of negroid features, especially as to the lips, and continues, "What is now most important is to discover where and particularly when this element entered the group. Is it a somewhat recent admixture in the post-Columbian period with Negroes or Negroids as the case may be or is it something of more ancient and fundamental composition?"

A Yaqui belief in ghosts is explained by the fact that Yaqui men "imbibe more or less mescal from time to time." Dr. Holden in the first chapter tells a ghost story related to him through an interpreter by an old temachi, bell-ringer. One night when the old Indian was at the church alone about nine o'clock, a ghost came out of the church, passed near him, walked on about fifty yards, and sat down on a rock. The bell-ringer got a good view at him. He wore a long, black robe or coat and had a very large white head and a flat face, the Indian said. "When we asked the old man how long the ghost sat on the rock, he said he did not stay to see," Dr. Holden concludes.

The book contains nine chapters on organizations; marriage, child-rearing, and education; La Fiesta de Gloria; Yaqui funerals; household economy; Yaqui architecture; medical practices; physical characteristics; and Yaqui agriculture. Dr. Holden is author of the first five chapters. The following members of the expedition wrote the last four respectively: W. G. McMillan, Lubbock; Dr. C. J. Wagner, Lubbock; Carl Coleman Seltzer, and Dr. R. A. Studhalter, of the biology faculty at Texas Technological college.

## BOBCATS TRAMPLE EAGLES 45-11

The San Angelo Bob cats defeated the Eagles last Friday night with a score of 11-45, at the Concho Tournament, in which Water Valley bagged the trophy.

In the first quarter the Eagles held the Bobcats 6-4. The second quarter, however, the Bobcats broke away unchecked. When the whistle blew on the fourth quarter the score was 45-11.

The Eagle team was composed of: Bryant Newlin, Laird, Hext, Meador, Davis and Clement. Paul Davis was high man for Eldorado with five points. Billings was the Bobcats high

## Scenes For Naval Film Taken Aboard U.S. Ship

"Ready, now Dick. Count five after I say 'action' and then begin your lines."

It was Director Frank Borzage and Dick Powell listening. The scene was the quarter-deck of the Pacific Fleet's flagship, the Pennsylvania, in San Pedro Harbor, and there was under production the cosmopolitan production, "Shipmates Forever," which comes to the Lone Star Theater next Sunday.

"This is what I have longed for, the open sea" began Powell. There was a loud "Who-oo-sh" of compressed air from the neighboring battleship, Oklahoma, 400 yards away and the machine-gun-like roar of a high powered motor as a navy fighting plane took to the air.

"Hold it" said Borzage, and all hands fell into an "at ease" position. The roar of the plane went into a distant diminuendo and then faded out.

"Once again boys" Borzage ordered.

"This is what I," started Powell over again. But this time the stacco putt-putt of a motorboat cut into the quietude necessary for a "sound take".

"Look about boys, and see if there is a plane or a motor boat around before we try this the third time," said the director and the assistants scanned the sky and reported "all clear." Again Powell began about his love for the ocean—"Ding-ding! ding ding ding!"—it was the ship's bell announcing that it was eleven o'clock.

Such is movie-making in the open air, especially in such a busy place as San Pedro Harbor. Frank Borzage was literally, "fighting for scenes." He had to snatch at every infrequent moment of quiet that he was able to get.

"But it was worth it" he said, "Clever as the studio artists and technicians are, they could never get the authentic effect and striking background."

With Dick Powell in these particular scenes, were Ross Alexander, John Aledge, Richard Foran, Robert Light, and Eddie Acuff, while in the background, keeping constantly in motion were about 200 of the Pennsylvania's officers and men.

Ruby Keeler co-stars with Dick Powell and Lewis Stone is also featured however, these scenes did not call for the presence of either aboard ship.

The picture is a thrilling drama with catchy airs, treating the exciting life of Annapolis Cadets. Frank Borzage, who so successfully directed "Flirtation Walk" dealing with the West Point Cadets, also makes this contribution to cinema endeavour.

This story about one of America's greatest institutions, their Admirably-cradle or Annapolis Naval academy, was made possible by the cooperation of the United States Navy. More than 2,000 officers and men enlisted men took part in the production.

Some folks want jobs without work.

man, with nine points. Newlin came next highest of the Eagles with a score of 2 points.

The boys declare they were all feeling better and will do better next time.

## WISE FARMERS STICK SAVING SOIL

Approximately 49,787 acres of Texas farm lands were terraced, contoured or chiseled during the month of January to conserve the moisture or prepare the soil for greater production of crops in 1936, according to figures found in the monthly reports of county agricultural agents.

From county agents all over the State come such statements: "terraced 70 acres of land for James H. Johnson which ran into 7,200 feet of terraces," reported J. H. Jameson, Palo Pinto county agricultural agent.

Another reads, "Van Zandt county goes for conserving their soil. Besides the lines run by individual farmers, I ran terrace lines on 20 farms amounting to more than 360 acres. More than 40 young men have been taught to run lines during January," according to V. O. Teddlie, county agent.

From the South Plains comes the report of V. F. Jones, Lynn county agricultural agent. He reports that 16 terracing demon-

strations were held in Lynn county during January.

"Terracing lines were run on nearly 3,000 acres during these demonstrations. Terraces will be constructed on 1,900 acres of this, while the other acreage will only be contoured. The Commissioners Court is cooperating in the terracing program by using county road machinery to construct the terraces at cost of operation to the farmers," V. F. Jones said.

Hundreds of reports bear out the fact that Texas farmers are working overtime to build up Texas soil.

No. 8

## Twenty-one Boys In Schleicher 4-H Club Work For 1936

Twenty one 4-H Club members have 225 lambs on feed that they are planning to show during 1936. Plans have been made to show the lambs at our county show, Houston, San Angelo, and Fort Worth. Houston is a New Show to Schleicher County, to some of the boys who are planning to show their lambs there.

### Gene Koy

Gene Koy is one of the boys that helped to start Boys' 4-H Club work in 1929. He has been a member of the Schleicher county club for 7 years. 1936 will make his eighth year. During that time he has fed out 103 lambs and 5 calves. He has made outstanding records during that time. He has won 37 ribbons and \$347.00 in prize money.

Gene is the second boy from this county to win one of the trips to the International Livestock Show at Chicago. He was selected to be the Gold Star 4-H Club member from Schleicher County at the 1935 Farmers Short Course. Gene is working on his eighth demonstration and has 25 lambs on feed. He will show 5 of these lambs at our County Show on Saturday, Feb. 22.

### Cecil Moore

Cecil Moore started in the Club work in 1924. He and Gene Koy are the only two boys that started with the first 4-H Club demonstrators and have been a Club member continuously for the past 7 years and are still Club members. The records show that Cecil has made an outstanding record in the State as well as in the county. He has fed out 93 lambs and 6 calves. He now has 48 ribbons to his credit and has won \$746.00 in prize money. He has received a total of \$1200 for the demonstrations that he has completed in the past seven years. He is finishing his eighth year with 25 lambs on feed. Five of these lambs will be shown at the County Show. There have been other recognitions that he has won. He is the only 4-H Club boy from the county that has won a free trip to the 4-H Camp at Washington. He is one of the three boys from the county to win a free trip to Chicago. He was selected to be the Gold Star member of the Texas 4-H Club Boys at the 1934 Farmers Short Course.

### Edgar Sauer

Edgar Sauer is beginning his third year as a member of the Schleicher County 4-H Club with 16 lambs on feed. He fed out 15 lambs the first year and a carload of lambs the second year. He won only a few ribbons the first year. He had the 1st prize Club lamb at Fort Worth in 1935 and the 1st prize Carload lot of lambs the second year. His outstanding records of 1935 won for him a free trip to the International Livestock Show. He is the third boy from this county to win this distinction.

### R. J. Alexander

R. J. Alexander is one of the 4-H Club members having started his club work in 1931. He has fed out 125 lambs and won 23 ribbons. R. J. has made an outstanding record in 4-H Club

work. He now has 16 lambs on feed. These lambs will be shown at the County Show, San Angelo, and Fort Worth.

In addition he has a carload of lambs to be shown in the Open Class at Fort Worth.

### Jack Jones

Jack Jones is beginning his first year as a member of the 4-H Club. However he is familiar with the work due to the fact that two of his brothers have been members. He now has 8 lambs on feed and will have them ready for the County Show.

### Samuel Smith

Samuel Smith is beginning his second year in Club work. His first demonstration was in 1932 when he fed out two calves. He now has ten lambs on feed. Sam has been weighing his lambs from time to time and his last report shows that his lambs have been gaining at the rate of one-half pound per day.

### George Williams Jr.

George Williams Jr. is not a beginner in 4-H Club work. He has fed out two calves before this year. He has 6 lambs ready for the County Show.

### Robert Williams

Robert Williams has 6 lambs on feed. This is his first year in Club work. But he will have them ready for the show.

### Glenn Green

Glenn Green has been a member of the Boy's 4-H Club for four years. During that time he has fed out 28 lambs. He has shown these lambs in the county shows, San Angelo and Fort Worth. The five lambs that he has on feed are making good progress and will be ready for the Show Saturday.

### Odell Green

Odell Green has been feeding lambs for four years. He has fed out, shown and sold 33 lambs in the four years. He has made outstanding records with his lambs. He will show his five lambs at the County Show.

### Billie Green

Billie Green is feeding five lambs for the first time. He has had an opportunity to watch his brothers in their Club work and he will have some good lambs.

### Luther Kent

Luther Kent is starting his second year in Club work with ten lambs. The first group of lambs that he fed out was in 1932 when he fed ten lambs. He has a uniform group of lambs and will be shown at the County Show.

### Joe Alexander

Joe Alexander has 12 lambs on feed. This is his second year in Club work. The 1st year Joe fed 2 lambs and this year he has increased the number to 12. Joe is doing a better job feeding out the lambs this year than he did the first year.

### Patton Enochs

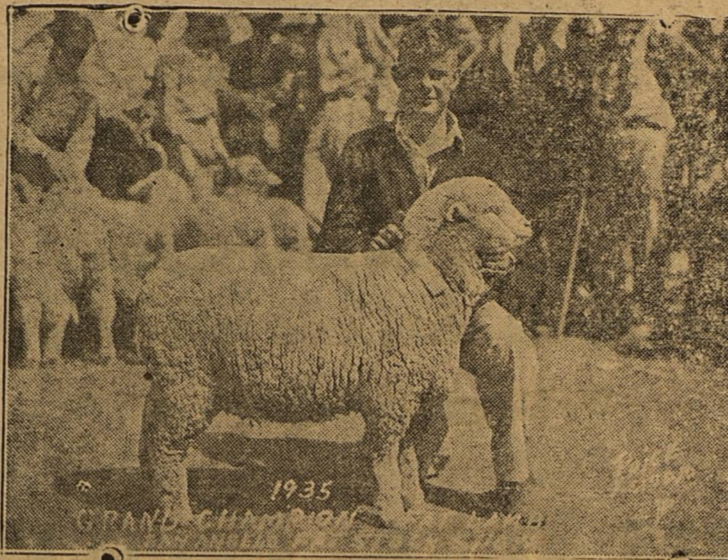

Patton Enochs has 10 lambs on feed and will have them shown in the County Show. This is Patton's 1st year.

### Felix and Harold Susen

Felix and Harold have 22 lambs on feed. They have the lambs in good condition and will make a good showing on their first year.

### Garland Williams

Garland has 17 lambs on feed.

Schleicher County Winners at San Angelo Fat Stock Show of 1935 are pictured here.

At the top—Cecil Moore, son of B. E. Moore, of the Schleicher County 4-H Club, is shown with his third champion fat lamb. This lamb is named "Shorty".

In the center—Here the best five lambs of the show. Gene Koy is the exhibitor. His father Jess Koy is in the background.

At the Bottom—These are the best 15 lambs from one county. They are from Schleicher.

## Ray Mawery of Texas Tech to Judge The Lamb Show

Professor Ray Mawery acting head of the Animal Husbandry Department of Texas Tech will do the judging for the 4-H Club boys.

Mr. Mawery is a graduate of Texas A.&M. College. While attending A.&M. he made the International Livestock Judging Team. After finishing College, he taught Vocational Agriculture at the Lubbock High School. Later he went to Texas Tech as a professor. Now he is acting head of the Animal Husbandry Department.

This is his first year and he has made good progress with his demonstration.

Curtis, Forrest, and Carl Yancey Curtis, Forrest, and Carl have 18 lambs on feed. This is their first year to feed out lambs, but they have them in good condition and will have them ready for the County Show which will be Saturday, February 22.

### William Sauer

William has 5 lambs that he is feeding for the Schleicher County Show. This is William's first year, but he will have his lambs in good condition for the show.

## Eldorado Youths To Exhibit 100 Fat Lambs At San Angelo Show

Twenty Schleicher County Future Farmers entered 100 fat lambs in the fat lamb department of the Fifth Annual Fat Stock Show in San Angelo, to be held March 7-11. The entries were made through C. Snell, county agent for Schleicher county.

The Eldorado boys are each entering five animals, these being in both the group of five by one boy in the singles. Entries are also being made in the 15-best and 50-best animals' classes from the 100 head the boys will exhibit. Schleicher County club boys have around 300 lambs on feed.

Youths entering animals in the Angelo show include: Robert Williams, Joe Alexander, R. J. Alexander, George Williams, Curtis Yancey, Jack Jones, Garland Williams, Felix Susen, Luther Keith, Harold Susen, Carl and Forrest Yancey, Gene Koy, Samuel Smith, Patton Enochs, Edgar and Willie Sauer and Glenn, Odell, and Billie Green.

## History Of 4-H Club Work In Eldorado

Fourteen boys and girls started Club work in Schleicher County in 1929 with 74 lambs on feed. This work has been continued for the past eight years. At intervals calves have been included with the lamb feeding. There have been over 800 lambs fed during the time. This includes the year 1936. Fifty calves have been fed out. It is estimated by some of the close followers of

Club work that over \$3,000.00 has been won in prize money. This amount does not include the sale price of the lambs.

This club work has given Schleicher County wide recognition as a county that produces a good quality of feeder lambs. On one occasion Oklahoma A.&M. College came to Schleicher county and selected a carload of lambs for their feeding demonstrations. This carload lot of lambs were shown at Fort Worth and won first place. Last year the San Saba County Vocational Agricultural Class selected a carload of lambs out of Schleicher for their feeding demonstrations. Those lambs were shown at Houston and won first place.

Many lambs have been bought out of this county to go into the Northern feed lots. There is no way to estimate the number of lambs that have been sold for this purpose. The 4-H Club boys are due their share of the credit for winning this reputation that Schleicher County now has.

## Boys 4-H Club Work Brought Recognition To Schleicher Co.

### Untiring Efforts of County Farm Demonstration Agents Responsible

To L. E. Summer, Schleicher County Farm Demonstrator back in 1929, goes a lot of credit for the success and recognition of 4-H Club work in this section. He worked night and day to create interest in the feeding demonstrations.

Since the first year a great deal of interest has been shown in the boys work.

Since C. Snell came to be County Agent the work has grown from around 100 lambs fed by 4-H club members to more than 250 lambs in the feeding demonstrations.

And the Schleicher Boys stand a good chance to carry off honors again this year.

## R. A. Evans Sold Most of Schleicher County Second Time

R. A. Evans, of the Evans Livestock Commission Company, and real estate agent in Eldorado since 1905 is justly proud of his record of more than 25 years continuous service. Evans has sold Schleicher County, or most of it two or three times. The best land in this country sold for \$2.50 per acre," he said.

Mr. Evans came to Texas at the age of 21, in 1888, with the first railroad into San Angelo. He has been drilled and educated in the handling and sales of livestock since early pioneer days of Schleicher County. He can tell you some interesting stories about the early history of this country and if you don't be careful he will sell you something while he is at it. He will at least sell you on the idea that this is the best country in the world.

## John Rae Ranchman Breeder Of Sheep

John Rae, pioneer ranchman of Schleicher County, is a breeder of pure bred Ramboulett sheep and has contributed to the wide recognition that this section has as a county that produces a good quality of feeder lambs.

Mr. Rae's lambs are in demand throughout Texas, as well as in other States. His lambs have won prizes in a number of shows, and won the Grand Champion car load award at the Houston Livestock Show in 1935.

John Rae came to Texas from Jedburgh, Scotland, in 1879, at the age of 17. He located on the ranch east of Eldorado in 1883 and established his home there in 1887. He lived on this ranch continuously ever since.

## Henry Speck Raises Good Breed of Sheep

For more than sixty years the Speck sheep have been bred in Menard and Schleicher counties. Henry Speck, well known Schleicher County ranchman, came to this section from Menard in 1922, stocking his ranch east of Eldorado with the sheep of which the Speck family is justly proud.

Mr. Speck has furnished lambs for the 4-H Club boys feeding for the past several years and his stock has proven its value. Mr. Speck has seven brothers, all of whom are ranchmen except one. He has contributed to the development of the sheep industry in Schleicher County.

# A TRIBUTE..

## To a Splendid Achievement

This warehouse extends hearty congratulations to the Schleicher County 4-H club and its sponsors.

Through your untiring efforts in the preparation of lambs for the major livestock shows of the Southwest the past six years, you have gained distinction for yourselves and honors for your community.

To cooperate with you is a pleasure
