Schleicher's Leading And Most Widely Distributed Newspaper

VOL. XXXVI

Eldorado, Schleicher County, Texas, Friday, April 17, 1936

No. 16

## On The DIVIDE

Robert Gillis, president of the Sheep & Goat Raisers' Association and well known to a number of local members of that organization, recently purchased a stable of race horses. The horses were bought in San Antonio.

Six truck loads of fat heifer calves have been shipped to Fort Worth during the past week by George Dickens, Schleicher Co., stock farmer.

Carl Chumney says that several yearlings ewes in his flock have twin lambs proving that this is an ideal year for producing sheep as twins from yearling ewes is a rare occurrence.

More real publicity for Schleicher County has been obtained through the records established by local sheep feeders at the stock shows in San Angelo, Fort Worth and Houston than through any other source.

Ed Ratliff, Schleicher County breeder of registered hereford bulls, says that he has sold eight bulls since the first of the year and will have about 15 yearlings herd bulls ready for market next spring.

A. J. Burk is hauling 150 calves for Tom Russell from his Schleicher county ranch to his ranch near Ballinger.

Tom Smith, who has tagged 90,000 sheep this season, says that he is looking for flocks to shear heavy this spring. Mr. Smith sheared small bunches this week for Bob Hill, Ira McDonald and Robert Nixon.

Marion Wade bought 2500 yearling ewes at \$6 a head this week from Henry Holiman of Arden. Delivery will be made June 1.

Japan is an example of a nation that has fostered its military power until it has reached a point where it can dictate to the civil authorities. The recent coup by the army to take over the government began with the assassination of several leading officials. The murdered officials had gained disfavor with the army because they opposed the aggression of China and Mongolia. Order was finally restored and civil government is back in the saddle. With this lesson before them, civil authorities may in time become cautious of their criticism of any program of aggression. Japan, like any country that fosters a military machine, may find herself in the situation of the man who took into his home a cub tiger. He fed it and cared for it and when it became big enough it attacked him one day and killed him.

We have never been able to figure out what good a peace treaty is. When the time really comes that it would do good, one side or the other is pretty sure to regard it as a "scrap of paper."

Horace Rees, new owner of the Red and White grocery, spent Sunday with his family in Big Lake.

## AAA GIVES ODDS OF 1 ACRE TO 5 IN NEW PROGRAM

Up to 35% of Base Cotton Acreage May Be Shifted to Soil Improving

Farmers who qualify for Government grants of money in the new AAA soil conservation program must have at least one acre of soil conserving or soil building crops for every five acres of soil depleting crops in the base acreage, says C. Snell county agricultural agent.

A farmer who had 100 acres of corn and cotton (soil depleting crops) in the base period must have planted on his farm in 1936 at least 20 acres of conserving and building crops to participate in the program.

Up to 35% of the base acreage of cotton he may shift from cotton to soil improving or protecting crops and be eligible for payments.

He may shift as much as 15% of the wheat, corn, grain sorghum, potato or fruit and vegetable base acreage to legumes, cover crops or approved soil building practices and receive payments.

In the case of peanuts the greatest shift of acreage for which payments may be made is 20%.

No payments will be made in Texas for food and feed crops like corn or grain sorghums shifted to soil improvement uses unless it can be shown that these crops have been produced in excess of home needs. In that case the only diversions for which payment will be made are on the portion of the acreages which are in excess of home needs.

Soil conserving payments may be granted to help recompense farmers for the sacrifice involved in giving up a part of their soil depleting cash crops in order to give a chance to improve the land.

"Taken as a whole, the new program helps a farmer shift to a good sound farming plan without loss of income and buying power while the changes are being made," C. Snell states.

## FORMER ELDORADO GIRL WED IN DALLAS SATURDAY

Miss Ruby Dee Shugart and Whatley Edgar Horton, both of Dallas, were married Saturday April 5, at six o'clock at the home of the bride's uncle and aunt, Mr. and Mrs. M. M. Hampton in Dallas.

The bride is the daughter of Mrs. Bertha Shugart of Eldorado. Miss Shugart graduated from Eldorado high school and was at one time employed in the local telephone office.

For the past four years she has been employed in the business office of Sears Roebuck in Dallas. Mr. Horton is clerk at the Baker Hotel in that city.

## DECORATES STORE

Horace Rees, new owner of the local Red & White store, re-decorated the interior of that establishment Tuesday night. Wood work, display tables and shelves were brightened with a coat of white paint and stock re-arranged.

Miss Eddie Mae Finley of Midland spent Saturday and Sunday visiting in Eldorado.

## Work Starts on "Cavalcade of Texas"

Above J. Mark Hamilton, director and expert on lore of the Southwest, and Jan Isabelle Fort, well known magazine writer, confer over the script.

## Even Texas Dogs Go High-Hat

Down Dallas way even the pups enter into the spirit of the coming Texas Centennial Exposition, which opens there June 6, Here is Bozette, seven-weeks-old, pedigreed Boston Terrier, getting into the spirit of things by using a 10-gallon hat for a kennel.

## FARM PROGRAM PLANS MOVE UP

College Station—"The whole purpose of the new farm program is to help farmers plan their operations so as to conserve their soil and enable them to reap greater returns from the land in the long run," Jack Shelton, vice director and state agent of the Texas Extension Service, announced in reviewing some of the major problems of the new program.

He also pointed out that diverting crops of soil depleting nature into soil building and soil conserving crops would pay the larger cash grants under the rulings of the new farm program.

"For the most part, the common, well-established soil improvement crops and practices already in use by Texas farmers will receive recognition throughout in planning the program to fit Texas farms," Shelton said.

The temporary State Soil Conservation Domestic Allotment Board plans to apply the national farm program to Texas so that it will best meet the needs of the Texas farm people in carrying out their cropping systems.

Shelton also said: That Farmers must keep in mind that a separate base acreage will be established for each of the following crops: cotton, peanuts, rice, and sugar cane for sugar.

"The new farm program as applied to Texas is being pushed with all the resources of the Texas Extension Service to put it into the field as soon as possible," Shelton concluded.

## J. A. ENOCHS TO BE CANDIDATE

J. A. Enochs, a resident of Schleicher county for the past 35 years, authorized the Success to announce his candidacy this week for the office of commissioner of Precinct 4 subject to the action of the Democratic Primary July 25.

Mr. Enochs has resided in Precinct 4 for four years where he has been engaged in farming and stock raising. He solicits the support of his fellow precinctmen with the promise that he will dutifully administer the office and endeavor to improve road conditions in that section.

## MRS. H. N. GARRETT INJURED BY FALL TUES

Mrs. H. N. Garrett, 85 years of age, received a fractured left hip when she fell in the yard at her home about 6:00 o'clock Tuesday afternoon.

She was removed to a San Angelo hospital where she received treatment. She was resting well Thursday.

## R. C. SPURGERS ELDORADO ICE MAN

A dispenser of ice in Eldorado all the year round, winter and summer, R. C. Spurgers is advertising for your business. He says that during the winter months people don't use much ice but he stays on the job to serve the public.

Now that summer is here Spurgers wished to continue to serve the citizens of Eldorado and has equipped his plant to serve at the platform or deliver ice to your ice box.

## Shower Given For Mrs. Paul McLeod By Ladies' Auxiliary

The Woman's Auxiliary of the First Presbyterian Church of Eldorado, and the Victory Sunday School Class, entertained at the First Presbyterian Church-base with a miscellaneous shower Saturday afternoon, April 11, naming as honoree, Mrs. Paul C. McLeod, who was, before her marriage in San Antonio, Miss Inez Cobb.

Gifts were presented to Mrs. McLeod, after a program of readings and songs, by four children, namely: Howard Parker, Donna Mae Mullett, Wayne Davis and James B. Sammons, Jr., who had discovered the gifts in an Easter Egg Hunt. Little Miss Mullett presented the gifts after giving a presentation speech. Spring flowers and ferns were used to decorate the basement of the church.

After the presentation of gifts, refreshments of punch and cake were served to approximately fifty guests.

Those enjoying the occasion or sending gifts were:

Mrs. J. C. Johnson and Jesella, Mrs. R. L. Ballew, Lila Lee Watson, Mrs. F. M. Bradley Mrs. Edgar Spencer, Mrs. A. T. Wright and Agnes, Mrs. Jim Hoover, Mrs. H. S. Espy and Ruth, Mrs. John Williams, Mrs. O. K. Enochs and Chris, Mrs. Leslie Baker, Mrs. Palmer West, Mrs. C. C. West and Pauline, Mrs. C. A. Graves, Mrs. E. R. Bryant, Helen Stanford, Mrs. W. T. Whitten, Mrs. R. A. Evans, Mrs. Clyde Galbreath, Grandma Galbreath and Bobby, Mrs. Bertha Shugart, Mrs. H. G. Parker, Howard Parker, Mrs. W. M. Davis, Mrs. T. P. Robinson, Mrs. Lindon Turney, Mrs. Sam E. Jones, Mrs. W. H. McClatchey, Mrs. Will Eaton, Mrs. Bert Page, Mrs. O. E. Conner, Mrs. G. L. Ballew, Anna Florence Page, Mrs. Jno. Rodgers, Mrs. W. F. Ford and Omo, Mrs. W. F. Meador, Margaret Bradley, Mrs. Melving Harris, Mrs. Hugh McAngus, Mrs. W. A. Mullett, Mrs. L. T. Barber, Mrs. Lewis E. Whitten, Mrs. Sallie Murchison, Mrs. L. Wheeler, Margaret Powers, Mrs. Harris Rounds and Josephine, Mrs. R. T. Crain, Mrs. Jimmie West, Mrs. Hayne Graves, Mrs. B. E. Moore, Mrs. J. A. Whitten, Mrs. Calude Meador, Mrs. Ed Ratliff, Mrs. Leslie Galbreath, Mrs. Ben L. Isaacs, Mrs. W. D. Price, Mrs. J. L. Tubb, Jack Parker, Wayne Davis, Mrs. W. T. Parker, Mrs. Lark McClary, Mrs. Jas. B. Sammons, Mrs. Joe Tisdale, Mrs. N. P. Wilkinson, Mrs. W. N. Ramsay, Mrs. H. T. Finley, Mrs. D. E. Kinnamon, Mrs. Joe Edens, Mrs. Jess Koy and Jeanette Henderson.

## J. C. CARR LEASES CASH SERVICE STATION

The Cash Service Station operated by Mrs. J. N. Davis since the death of her husband in 1934 has been leased to J. C. Carr, local wholesale gas and oil agent.

Mr. Carr will serve a popular brand of gas and oil through the station in connection with his wholesale business. He has taken over the management of the property this week. He will maintain his office at the service station.

## Lions Club Sponsors Egg Hunts For 300 Children Sunday

Three separate Easter Egg Hunts sponsored by the Lions Club for the entertainment of more than 300 American, Mexican and Negro children climaxed Easter activities here Sunday.

More than 1500 eggs were hid by members of the Lions Club and Boy Scouts. At 2:00 o'clock the Americans 230 of them, and the largest number that ever participated in an Easter egg hunt in Eldorado were given the "go" signal by Lion president J. A. Whitten.

Immediately after the white children finished their hunt the crowd migrated to the Mexican settlement and staged an egg hunt that was highly amusing. At the finish one little fellow said: "Me thank you welcome, gentlemen".

Ten prize eggs were hidden, seven for the white children, 2 for the Mexican and one for the Negroes. Each prize egg was worth 25c. All were found.

## Genevieve Ramsey Injured In Fall Wed.

Miss Genevieve Ramsey, daughter of Mr. and Mrs. Seth Ramsey received painful injuries Wednesday evening about 8:00 o'clock when she fell off the fender of a car while returning from a Sunday school picnic at the Jess Koy ranch near town.

The car passed over the girl's body breaking her collar bone and badly bruising her side and one foot. She was carried to a San Angelo hospital after emergency treatment by a local doctor.

She was reported to be resting well and was not thought to be in a serious condition Thursday, but will remain in the hospital for several days.

## MRS. J. N. DAVIS WRITES FOR SUCCESS

Mrs. J. N. Davis has accepted a position on the news staff of the Eldorado Success, as Society Editor.

Following the policy of the Success to continually improve the paper, we have employed Mrs. Davis to gather news and we ask the public to cooperate by calling her and reporting any news you have or hear about. Notify her of your club meetings. Help us to publish a better paper for Schleicher County.

## UPHOLSTERING SUBJECT OF DEMONSTRATION AT ADAMS H. D. CLUB MEET

Meeting at the home of Mrs. Burk, April 9, members of the Adams Home Demonstration club witnessed a demonstration in chair upholstering. Then a lesson in cutting sleeves by foundation pattern was presented by the president.

Five members and one visitor Miss Lucile Ockerson were present for the business-meeting conducted by the president.

The secretary would like a report from all members. The next meeting will be held at the home of Mrs. M. M. Reynolds May 14.

Miss Grace Ratliff returned to Abilene Monday after spending the week end with her parents.

**EDITORIALS**

Depart from evil and do good; seek peace, and pursue it. Psalm 34:14.

"I like," a reader of this paper said in the office yesterday, "to hear any one talk about most any subject if they know more about it than I do. I am always glad to learn. I do not feel that any truths of life of this world have hurt me in any way."

We have all sorts of sympathy for the fellow who owes us, and in spite of sincere and honest effort cannot pay us, but we have nothing but condemnation for the man who owes us and does not pay us and at the same time provides himself with the things that we are denied.

We notice in one of our exchanges that the merchants of this particular town got together and agreed to handle only bread and pastries made by the local bakeries. All existing orders out of town bakeries were canceled. When we read this the thought occurred to us that it is a common thing for the Chamber of Commerce, Community clubs and the like to spend much time and thought on the question of getting new industries to come to town, while at the same time the community is not supporting in the measure that it should, the industries that it already has. We have long felt that the town that gets behind the industries that it has does not need to worry much about getting other industries. The very fact that a local industry prospers in a community will attract other industries to that community, and, as an industry getter, will do more good than all the booster trips and glad hand committees that can be organized or promoted.

Nearly a million people have visited the Canadian quintuplets.

Here's a household hint to those who like fried corn meal mash. A housewife with a large family to cook for found difficulty in getting the necessary amount of mush fried on time until she hit upon the plan of browning it in a big aluminum cake pan in a 400 degree oven.

It used to be thought that it was better for a man to be in business for himself than to work for some one else. During the depression years the lucky one has been the person who has been on a salary and has been able to keep his job. Most any wage earner has had an easier time of it than the owner the past four years.

From all reports Russia does not tolerate graft in the expenditure of government money. If some one is caught pulling a fast one he is stood up before a stone wall and shot without much ceremony. The plan appeals to us as a good one, and one feature of the Soviet government that other nations, especially our own, could profitably copy. Whenever there is a big sum of money to be spent it seems to attract the grafters in droves.

One of the first things dictators and communists demand is the right of free speech, and one of the first things to which an end is put when they get into power is freedom of speech and freedom of the press. There is no freedom of speech or of the press in Russia, Italy or Germany. Dictators are afraid of the truth.

There is one provision of the Townsend plan with which many wage earners will have no difficulty in complying, that is the provision that requires that all of the last check must be spent before the next month's check will be given out. That by the way, is one of the things that has made the depression hang on so long. Too many people in the past have lived it up as they went along.

OPTOMETRIST & OPHTHALMOLOGIST  
SARANGLO TEXAS

**MAY BRING A BETTER DAY**

A correct appraisal of the New Deal and the many ventures in the matter of government that have been tried in an experimental way the past two years cannot be made at the present time. Such an appraisal can only be fully made after the lapse of time when the full time of the experiment has been run. Many mistakes have been made. President Roosevelt frankly admits this to be true. He has said on a number of occasions that he does not know what the best plan is but will endeavor to find out by the cut and try method. The accumulation of faults and wrong practices over a period of years makes periodical adjustments necessary in matters of business and government.

In older days when radical adjustments were necessary or felt necessary by the people they were accomplished through revolutions that upset every institution and practice in the nation, and began at the bottom to construct a new. The same thing is being accomplished in the United States without a revolution.

When conditions level out and we are able to take a more calm view of the situation we will find that many suggestions for wholesome improvement along the line of progress have been born in the period now known as the depression.

It would be truly unfortunate if something for the betterment of the race did not come out of this turmoil.

**Pay Your Subscription**

An exchange tells of a woman who called the telephone operator and told her that she was placing the telephone receiver in the sleeping baby's cradle and that if

the operator heard the baby cry to call the mother at the neighbors. Here is an idea for the telephone company advertisement writers.

**NEW WAYS TO DRESS UP EGGS ADDS TO MENU**

Denton, April 16—During the season when eggs are most plentiful and the price has fallen, it seems the economical thing to serve them frequently. This is quite as it should be if the manner of serving them is varied in order that the family may not tire of them.

In other instances eggs offer an opportunity to prepare quick meals that may yet be tempting and different.

The following suggestions might be used for breakfast, mid-day lunch, or for late suppers:

**Egg Nests:** Allow one egg per person. Beat egg white until stiff with a little salt added. Fill greased ramekins or baking dishes with the whites, make a depression in the centers, and carefully drop egg yolk into each. Dust with salt and pepper. Sprinkle with grated cheese and place in a moderate oven until whites are set.

**Plain Omelet:** 4 eggs, 4 T. milk 1-2 tsp. salt, 1 tbsp. fat. Beat the eggs together. Add the milk and salt. Heat a pan; melt fat in it. Pour in the mixture, taking care that it sets very slowly and smoothly. Turn the flame low to cook slowly. When firm place in oven to cook on top a few minutes. Remove and hold pan by handle. Place a spatula under the section of the omelet nearest the handle. Tip the pan to a vertical position, then slowly and carefully fold three times and turn.

**Shrimp Sauce for Omelet:** 1 tgs. flour, 1 c. milk, scalded, 1 tbsp. fat, salt, pepper, curry, 1 can shrimps. Melt the fat and blend with flour. Add seasonings and scalded milk. Stir until the mixture begins to thicken; then add the shrimps, and cook over hot water until the sauce thickens. Pour over plain omelet.

**Spanish Sauce for Omelet:** 1 white onion, 2 tomatoes, chopped or 3-4 c. canned tomatoes, 1-2 green pepper, 3-4 tsp. salt, dash curry, 2 tbsp. butter, Saute onion and pepper in fat. When slightly cooked add the other ingredients. Cook until the mixture is pulpy and thick. Pour over the omelet piping hot.

**Eggs with Mustard Sauce:** 6 hard boiled eggs, 1 tbsp. mustard prepared, 2 tbsp. butter, 1 c. chicken stock, 2 tbsp. flour, 1-4 tsp. salt, pepper. Make white sauce of butter, flour, salt, pepper, and stock. Add prepared mustard. Peel hard cooked eggs and chop or cut in half. Dust with salt and cover with mustard sauce. Heat thoroughly and garnish with chopped crisp bacon.

**Macaroon Custard:** Make boiled custard of 1-4 c. sugar, 1 tbsp. flour, 1-8 tsp. salt, 2 c. scalded milk, 1-2 tsp. vanilla, 2 egg yolks. Mix sugar, flour, and salt. Add the scalded milk to beaten eggs gradually, stirring constantly. Add the mixed dry ingredients. Cook over hot water, stirring until the mixture thickens. Add vanilla. Add 1-2 c. dried macaroon crumbs to the hot custard. Chill and serve with whipped cream.

**WHAT WE THINK**

Some states have a habitual criminal law which provides that when a man is arrested the third time for a felony he is classed as a habitual criminal and is sent to the penitentiary for life.

I believe the same practice should apply to car drivers who are responsible for accidents. I believe such accidents should be recorded on the drivers license and when a driver is shown to be responsible for three accidents his license should be permanently revoked.

To my way of thinking it does little good to talk about the mounting toll of death from auto-

**TEXAS ALMANAC OF 100,000 FACTS READY FOR SALE**

The book of 100,000 facts, the 1936 edition of the Texas Almanac—is just off the press. It is the largest volume in the history of this publication—a total of 512 pages, on better grade of paper and more profusely illustrated. The 1936 book although designated as the "Centennial Edition" and compiled in tribute to the grand celebration in Texas this year, misses only twenty-one years of reaching its own centennial year, having first been issued in 1857 by the Galveston News, the parent organization of the Dallas News, its present publishers.

While much new material of historical nature is included in the new issue, none of the chapters that has made The Texas Almanac the standard reference book of Texas in the past has been omitted. The names of several thousand individuals appear in its pages.

Features of the current issue includes an extensive description of the Texas Centennial, including celebrations in the State, an outline of the history of Texas from its beginnings to the present an illustrated chapter on the wild flowers of Texas, lists of the different kinds of trees and wild animals found in Texas, extensive lists of historic old towns and origins of names of Texas towns, a text of the State Constitution with all its amendments and brief account of submission of all adopted amendments since adoption of the Constitution, and the new farm census figures of 1935. There is much of interest for the coming political campaign including the current poll tax payments by counties. All figures on State, county and city bonded debt are brought up to date. There are several chapters devoted to points of interest for the Centennial tourist in Texas, and a new map made in four colors especially for this edition of the Texas Almanac, entitled "Texas for Tourists," is folded between the leaves of each volume.

There are more than 100,000 facts about the history, natural resources, crops, livestock, industries, commerce, transportation, finance, government, politics, educational system, cultural institutions and other phases of Texas economic, political and social development.

The Texas Almanac, always in demand by business and professional men and women and students in the Lone Star State, will be more in demand this year than ever before. Texas history is more glamorous and richly appealing on the State's 100th birthday. Thousands of out-of-State visitors and newcomers will find this birthday edition particularly acceptable. No individuals or organization is so thoroughly equipped to present in book form a compendium of Texas data. Facts and figures come from all parts of the State to find, in well edited form, their niche in this widely demanded handbook on Texas—its past, present and future.

mobile accidents and continue to do nothing to prevent it in the way of controlling careless drivers.

Accident insurance companies will not insure a man who is known to have a faculty for having a number of accidents. If they carry a policy on such a person they will promptly cancel it.

The same common sense plan should apply to car drivers.

The death of 36,000 persons in automobile accidents last year is an indictment against the common sense of the age.

The people are to blame for it that they permit car owners to drive cars who are in no sense

of the word qualified to sit behind the wheel of a machine capable of all the way from 60 to 100 miles an hour.

The crime of it is that many persons wholly irresponsible, cripple and maim their fellows for life. The injured person goes through life hopelessly handicapped to earn a living and the man who ruined his life escapes by saying he is sorry.

Somebody should pay. Since the public is responsible for the careless driver, the public should pay. If it did there would be some effort made to curb irresponsible, incompetent drivers.

There will never be much effort made until the public which has the power to control them is made to suffer when they are not controlled.

As long as it is merely some unfortunate individual who suffers the public isn't going to do much about it.

The banks of the country have found out that a lot of the men they trusted for large amounts of money were not good risks and many of those they turned down for a little loan would have been better risks.

**U. S. OFFERS EXAMS FOR STENOGRAPHERS**

The United States Civil Service Commission has announced an examination for the positions of senior and junior stenographer and senior and junior typist.

This examination is being held for appointment in Washington, D. C. only.

Applicants must be at least 18 but under 53. For positions in the apportioned service at Washington, D. C., they must show actual and bona fide residence in the State or Territory claimed for at least 6 months next preceding the closing date for receipt of applications.

All States except Maryland, Massachusetts, Nebraska, South Dakota, Utah, Vermont, Virginia and the District of Columbia have received less than their quota of appointments in the apportioned departmental service at Washington, D. C.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or custom-house in any city which has a post office of the first or the second class, or from the United States Civil Service Commission, Washington D. C.

**RESIZING OF RUGS**

If a rug loses its shape, or wrinkles and curls up because the sizing on the back has worn off, the rug may be resized as follows:

Clean the rug, then stretch it tight and true and tack at frequent intervals face down on the floor or some other flat surface where it can remain undisturbed. It should be sprinkled generously with a solution made by soaking and dissolving 1-4 pound flake glue in 1-2 gallon of water in a double boiler or a container surrounded by hot water. The rug should be allowed to dry for at least 24 hours. If it is light weight, care should be taken not to put on so much glue that it penetrates to the right side.

**CHILD HEALTH DAY WILL BE OBSERVED IN MAY**

Austin, Texas, April, 16.—Call has gone out from the State Department of Health to county health officers to act as chairman and organize committees for observance of Child Health Day during May. Dr. J.W.E.H. Beck, field director of the maternal and child health division, is State chairman by designation of Dr. John W. Brown, State Health Officer.

Although May Day is Child Health Day by act of Congress, communities are free to choose any day for the observance.

This slogan has been officially adopted for Texas Child Health Day:

"Annual physical examination by your physician and dentist. Immunization against diphtheria, typhoid fever, and smallpox. Safe water and proper sanitary equipment for home and school."

**KAISER'S GRANDSON ARRIVES**

New York City—No stranger to America, having worked for Henry Ford in Detroit, Prince Louis Ferdinand, grandson of the German Emperor, is here for a visit. Of his grandfather, the Prince remarked, "He is still sawing wood and reading a lot of papers from all over the world. He told me to behave myself in America."

**Try CARDUI For Functional Monthly Pains**

Women from the 'teen age to the change of life have found Cardui genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Crit Haynes, of Essex, Mo., writes: "I used Cardui when a girl for cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

**THE "BABE'S" SUCCESSOR**

New York City—For the first time in 22 years the baseball season starts this week without "Babe" Ruth facing the mound. Sports writers are predicting a sensational successor for newspaper headlines in 21-year-old Joe Di Maggio, making his major league debut with the New York Yankees. Swinging a 40-ounce bat, this 6-foot-1 youngster has shown amazing clouting ability.

A graduate of the Pacific Coast League, he was purchased by Col. Jacob Ruppert for \$25,000.

**BELIEVE IT OR NOT**

Mt. Clemens, Mich.—Despondent Willis Tucker decided to end it all. Placing a 22 caliber rifle at his forehead, he pulled the trigger. All he got was a headache. Both the local prosecutor and a deputy sheriff vouch for the fact that the bullet bounced back an inch-and-a-half into the rifle barrel.

Lynn Bennett, employed at F. H. Ellington's tailor shop here, spent Easter Sunday in San Angelo.

**LOTTERIES UNDER FIRE**

Washington, D. C.—Among the adherents of legalized lotteries fighting against Federal bans are Alfred E. Smith, Jr., and Mrs. Oliver Harriman, New York social leader. To the condemnation of lotteries by Bishop Manning, head of the Protestant Episcopal Diocese of New York, Mrs. Harriman retorted that "the first Episcopal Church, near Cheshire, Conn., was built through a lottery conducted by Bishop Seabury." Churchmen point out that Bishop Seabury built no church from lottery

**TONNAGE IN PROSPECT**

Shreveport, La.—Gertrude Karns, a carnival performer weighing 745 pounds, gave birth to a baby girl weighing 9 pounds, 10 ounces. The father weighs 305 pounds; an uncle 432 lbs. The mother weighed 18 pounds at birth. Doctors after an exhaustive study of obesity, estimate that the newcomer has only 27 chances in 100 of being normally slender.

... funds, but that seven years after his death a school he founded erected a building from a \$12,000 prize lottery.

Story of Battleship Maine Featured; Murder, Robbery As Rife Then As Today

Two time-yellowed issues of the St. Louis Republican brought to the Success office last week. W. E. Conner whose daughter, Mrs. John McLeod, found them while re-silvering a mirror which her father had given her a number of years ago, and which was originally manufactured in St. Louis about 1898, revealed the same vital industrial, social, commercial, religious and political issues that today's latest dailies publicize. A noticeable factor in the typography of the two copies is that each head line and sub-head was polished off with a period, a custom in newspapering that passed into oblivion along with the Washington press, the hell box and the straight matter hand compositors.

Of interest in the issue dated February 25, 1898, is an account of the sinking of the battleship "Maine," off the coast of Cuba. That the United States was as unprepared for war at that time as she is today is revealed by the following head line: "The Army, Navy and Militia Making Strenuous Efforts to Get on a War Footing."

Proof that murder, robbery and all 'round hoodlumism flourished in those days as well as in present times is seen in such heads as "Waterman and Callahan Charged with Wholesale Ticket Robbery," "John Hogan, Indicted as an Habitual Criminal, Pleaded Guilty to Robbery," "Safe Blown Open," "William Hall Killed by Tom Hannon with a Shotgun," "A Drunken Quarrel."

Political issues of the day included a story on Jim Cronin and the prediction that he would again be ruler of St. Louis' first ward. "Seven Decisions by the United States Court of Appeals," "France Also Would be Neutral, as Between the United States and Spain," (in the event of war), are other heads depicting the trend of the times.

Evidently society had only a small part in the day's news as few social items were published in the two issues.

As far as the news of to-day is concerned there have been few changes except as to individuals and time. The same forces still supply the sensational stuff, the drama, the tragedy and the comedy that were furnished readers of nearly a half a century ago. The most noticeable feature in comparing the ancient issues with the modern daily is the difference in style of the newsman of 1898 and the desk man of 1936. Today, the story is abbreviated and contains only the essential facts necessary to make the article intelligent and interesting, while in the earlier period of news writing elaboration, flowery phrases and lengthy descriptions were the chief requirements of a well written story.

TYPEWRITER RIBBONS at the Success Office.

**GUARD YOUR BABY with this OIL RUB**

Mother—heed the urgent advice of doctors and hospitals; do as they do; give your baby a daily body-rub with the anti-septic oil that chases away germs, and keeps the skin SAFE. That means Mennen Antiseptic Oil. It's used by nearly all maternity hospitals. It gets down into skin-folds—and prevents infection, chafing, chapping and roughness. Get a bottle today. At any druggist.

MENNEN Antiseptic OIL

**Expo's Manager**

William A. Webb, above, of Dallas, was named general manager of the Texas Centennial Exposition, which opens in Dallas June 6, because of his long experience in handling rush construction jobs. A veteran railroader, one of Mr. Webb's greatest accomplishments was rebuilding and remodeling the great South Australia government-operated railroad, a \$70,000,000 project. He was recommended for the task, which he finished in 1931, by the U. S. Department of State.

**LOCALS**

Mr. and Mrs. T. J. Bailey of Abilene were visitors here this week end.

Jack Meador, student of Texas Tech, spent the Easter holidays with his parents, Mr. and Mrs. Claude Meador.

Mr. and Mrs. Lyn Turney spent the past week end in San Angelo with Mrs. Turney's parents, Mr. and Mrs. C. F. Mayo, and her sister, Mrs. Felic Balfanz.

Jack Ratliff, who has been employed at Midland for the past several months, has returned to Eldorado.

Paul McFadden of Midland who was formerly employed on the Humble deep test on the Honig ranch, spent the past week end in Eldorado.

Miss Mary Ella Miller, physical education instructor in the Iraan schools, spent the Easter holidays in Eldorado.

Pat and Pete Finley of Midland spent the week end here.

C. M. Weatherly of Midland was in Eldorado Saturday and Sunday.

**LAND BANK LOANS TOTAL \$854,300 FOR THIS COUNTY**

106 Federal and Commissioner Loans Closed Here May 1, 1933 Through December 31, 1935

San Antonio, April 16—During the period from May 1, 1933, through December 31, 1935, 106 Federal Land Bank and Land Bank Commissioner loans, amounting to \$854,300, were closed in Schleicher County, according to an announcement made by H. P. Drought, State Director of the national Emergency Council for Texas. Of this number 50 loans, amounting to \$652,900 were made by the Federal Land Bank, and 56 loans, amounting to \$201,400, were made by the Land Bank Commissioner.

The total amount of loans closed by the Federal Land Bank and Land Bank Commissioner in Texas during the above period was \$139,850,750, representing 46,380 individual loans.

On December 31, 1935, Federal Land Bank Loans and discounts outstanding in Texas amounted to \$219,686,198, and Land Bank Commissioner loans and discounts outstanding amounted to \$52,957,534. Outstanding loans and discounts of the Federal Intermediate Credit Bank on December 31, 1935, amounted to \$20,469,715. Production Credit Associations had loans and discounts outstanding in the amount of \$6,589,031, and Regional Agricultural Credit Corporations had loans and discounts outstanding in the amount of \$3,471,478.

Loans and discounts of the different agencies of the Farm Credit Administration outstanding on December 31, 1935, throughout the United States was as follows: Federal Land Banks, \$2,071,924,721; Land Bank Commissioner, \$794,726,418; Federal Intermediate Credit Banks, \$153,927,910; Production Credit Associations, \$96,659,882; Regional Agricultural Credit Corporations \$43,400,186; Emergency Crop Loans, \$106,975,648; Drought Relief Loans, \$65,513,583.

Boozy Glasscock and Mr. and Mrs. Quinn Sharp and children of Big Lake spent the past week end with Mr. Sharp's parents, Mr. and Mrs. H. E. Sharp.

**New Special Sunday Rates**

For Long Distance Telephone Calls . . . And **REDUCED Person-to-Person RATES After 7 Every Evening**

Long distance telephone rates are Now reduced as follows:  
1. Person-to-person rates are now reduced after 7 every night. (Heretofore, only station-to-station rates were lower at night.)  
2. The low "night" rates are in effect all day Sunday on both station-to-station and person-to-person calls.  
The reductions apply on ALL calls to points more than 100 miles distant from your telephone, and to many shorter calls. The Long Distance operator will be glad to give you the rate now in effect to any point.

## CENTENNIAL YEAR

Centennial year is travel year in Texas.

An opportunity for every Texan to know his own state; its scenic beauties, historical background and amazing resources!

The month of April is especially eventful. Houston, San Antonio, Kilgore, Taft-Sinton, Victoria and other communities invite you to interesting historical celebrations; observances that will be cherished and long remembered by patriotic Texans.

Make your plans to attend these celebrations and other observances to be held throughout the year. Pack the family into the car, go by train or bus—really SEE Texas. You'll find Texas offers every vacation pleasure—and it's all right here in your own state.

See the calendar at the right. Write the Chamber of Commerce at the various cities for detailed information on events you are interested in.

### Radio Studios Started at Texas Exposition

This an architect's sketch of the Gulf Oil radio studio, being built at the Texas Centennial Exposition, the \$25,000,000 World's Fair opening in Dallas June 6. Here all programs from the grounds will originate for

chain and local broadcasts. Glass front studios line the court of the U shaped building so visitors may watch the broadcasts. The largest public address system of history also operates from here to

250 speaker units. Twelve radio programs and 6 grounds programs can be turned into 18 different speaker units, simultaneously, each of the 18 carrying any combination of the 250 speakers.

### "HORSE SENSE" IS ADVICE OFFERED TODAY'S DRIVERS

Good old horse sense goes a long way in the proper care of an automobile motor and in obtaining maximum mileage at a minimum cost, say the laboratory scientists of Gulf Oil Corp. Gulf Refining Co. Stressing the need for a proper grade motor oil and gasoline especially refined for the Spring season, Gulf urges motorists to heed these simple facts:

To begin with, it has been necessary to use a very light oil in the crankcase during the extreme winter weather just past. Even if this winter-grade oil were to prime condition, it might not lubricate properly in warm weather. Moreover, frequent use of the choke, when practically pure gasoline has entered the cylinders, has tended to thin out the already light lubricant.

During cold weather when the motor has been running, the crankcase has contained warm, moist air which has condensed when the motor has cooled off. In extreme cases ice has formed on the bottom of the crankcase, or frozen in the oil pump. In ordinary cases sludge has formed in the mixture of water, dirt and oil. Sludge is nothing more nor less than a thick goeey mass which tends to block the screen on the oil pump and clog oil lines.

The need for changing motor oil with the changing seasons has been pretty well impressed upon the motoring public, but few car owners are aware that the Gulf refineries in various parts of the country, keeping an eye on the calendar and weather condition, automatically change the properties of gasoline to insure

### TEXAS TO GLEAN \$446,225,700 IN SUMMER OF 1936

\$7,500 for Each Texas Man Woman and Child

Surpassing even the optimistic estimate of native Texans, a practical national statistician of tourists trend today predicted that 11,565,000 persons will visit Texas this year, spending \$446,255,700 to share in the Lone Star State's celebration of its first hundred years of history, growth and development. The figures are those of Joe H. Thompson, who as national director of the Conoco Travel Bureau, Denver, has achieved recognition for conservative accuracy in many years of plotting the itineraries and spending plans of the American Motorist.

The amount to be spent represents approximately \$7,500 for each man, woman and child in Texas. Thompson points out it will find its way into the channels of established business in the state as follows: \$89,245,000 will go for lodging and a like amount for gasoline, oil, garaging and automotive repairs; \$93,707,000 will be spent for assorted retail purchases; \$111,556,000 will be spent for food, \$26,897,000 for amusements, and \$25,773,000 for miscellaneous refreshments, smokes and confections.

The Centennial Exposition is the principal lure, according to Thompson, but letters which have reached the travel bureau in such volume as to point to an all-time record year tell also of plans to "discover the whole Texas empire" before leaving the state.

the best and most economical performance according to the season. The properties of Gulf gasoline are changed several times a year. Hence the term, "Kept in Step With the Calendar," used in Gulf advertisements currently appearing in the Success.

### MODESTY OUT STANDING IN SPRING FROCKS

Denton, April 16—Modesty was noted to be the outstanding feature of the 1936 spring fashion opening of evening frocks. The famous designers have turned from the daring, low cut gown of last season, to the more feminine models with décolletés far from low.

Restrained sophistication has given way to natural charm, and though some bare backs are seen, high necks prevail almost universally in the majority of frocks. Some models are even draped to the throat.

A natural easy fitting silhouette with reasonably full skirts was a distinguishing feature in the entire collection. Evening gowns for the more mature woman are marked by drapery which crosses from shoulder to shoulder and cascades from there to the hem. They are fashioned from dull white crepes, accented with mustard, ivy and green. Floral prints of pussy willows silk made beautiful creations for evening. These gowns, however, should follow very simple lines so as not to detract from the beauty of the material. They should be free of ornament, with only a slight trimming of contrasting material.

For the younger set, girls at Texas State Collage for Women (CIA) suggest full skirted, floor-length frocks with short puffed sleeves. They are made of checked taffeta, white faille, pale blue broche, and there is a winsome note about them which is cleverly accented with trimmings of colored brass, embroidery and and bownot fastenings. Starched laco dresses are particularly smart for the young girl. They're shown in white and pastels with short cuffed sleeves and high stand-up collars. Clusters of dark flowers at the neck and waist give the dresses a piquant charm that is indeed rare.

### COTTON FOR SALE

Washington, D. C.—In its efforts to protect cotton growers, the Government finds itself owner of 4,390,000 bales as a result of its loans to farmers at 11 and 12 cents per pound. To get rid of it, the AAA now offers it back to its original owners at 3-4 of a cent less per pound than they borrowed on it, plus interest and carrying charges. This they can sell (to the extent of 1,000,000) at 1-2 cent under the market until September.

### ABSTRACTS

If it is abstract work you want done, let us figure with you and be convinced that we can make abstracts cheaper than any one. Our Motto, "Live and Let Live".

JOHN F. ISAACS  
Abstract Co.

### WORK RUSHED ON APPLICATIONS FOR AID TO AGED

Field Workers Now Calling At Homes of Applicants

Austin April 16—"Knowing their business yet being courteous our field workers must understand the viewpoint of the many aged citizens whose homes they enter," said Orville S. Carpenter, executive director of the Old Age Assistance Commission, this week in explaining the setup.

Investigators have been calling at the homes of applicants for three weeks now. Some 140,000 aged have applied, and as there were 300,000 blanks distributed, many more applicants are expected to be filed.

"We are sending men from the State Office to the twenty district offices and are holding schools for investigators. Our field workers must have a thorough understanding of their work.

"All investigators in a district meet with the men from the central office at the headquarters city of that district. Policies of the Commission, the law itself, and technical questions are explained to the assembled field workers.

"We have a humane purpose; we have good workers. The commission is anxious for the aged of Texas to receive the most good possible from the old age assistance law," Mr. Carpenter declared.

"Applicants are cooperating with us and they realize that we are doing everything we can to facilitate these investigations which the law requires," he said.

Employees of the State Office and those of the twenty districts have been working fourteen and fifteen hours a day. As some 140,000 separate investigations must be made (and many more are expected to make application), an enormous task faces the Old Age Assistance Commission.

"Payments will start just as soon as investigators complete their work as required by law. We hope to complete all investigations and approve applications before July 1," the Executive Director said.

"Records of birth dates, property owned, cash in bank, residence, and citizenship (if the applicant is a naturalized citizen) should be ready to show the investigator's when they call during the next few weeks," Mr. Carpenter advised.

### HEAVY FROST IN ELDORADO FRIDAY

Frost in April is a rare occurrence and especially on as warm an afternoon as last Friday but Frost visited Eldorado, however, in person and not in the form of that mythological character depicted so often in the fairy tale books of childhood.

Jack Frost, in the flesh—240 pounds of it—is the official goodwill ambassador for the Waples Platter Company of Texas, Oklahoma and New Mexico. He travels between 50,000 and 60,000 miles annually in selling grocery operators in his territory and spreading the good word for his company.

"Texas," Frost says, "is 100 years old and Waples Platter has been in business 64 of those years, starting in a tent on the banks of the Red River in 1892." Today their factory site consists of 27 acres and the plant's daily capacity is 63,000 cans of Ranch Style Beans.

"What Texas makes, makes Texas," is the phrase Frost advocates that the Lone Star State adopt as a centennial slogan.

Miss Grace Ratliff, student at Hardin-Simmons, visited her parents, Mr. and Mrs. J. L. Ratliff, during the Easter holidays.

### Why Gulf is the Gas for April

"APRIL SHOWERS bring May flowers." And warmer weather, too. That means a brand-new gasoline is shipped to Gulf stations—a gas especially made for April driving. For unless gasoline is changed to meet Spring's higher temperatures it can't give the highest mileage. Get That Good Gulf—it's "Kept in Step with the Calendar" so that all of it goes to work, none of it goes to waste.

"Kept in Step with the Calendar" THAT GOOD GULF GASOLINE

### TEXAS ART FORMS STUDY FOR CLUB

With art in Texas as the subject for discussion, the Woman's Club met Tuesday with Mrs. V. G. Tisdale. Mrs. Aubrey Baugh was program leader, names of Texas artists being given as roll call answers.

The leader spoke on Elisabeth Ney, treating her life and her plans for art in this state. Mrs. N. P. Wilkinson discussed the works of Frank Reaugh, and Mrs. W. E. Eaton told of Bonnie McTeary's work as a Texas sculptor.

Mrs. H. D. Irby read "The Bluebonnets of Texas" by John P. Sjolander. Mrs. D. C. Hill led the club in the flag salute.

Report from the district convention in Abilene was made by Mrs. Cora Millar, delegate.

Others present were Mrs. D. E. DeLong, Mrs. W. N. Ramsey, Mrs. E. C. Hill, Miss Tom Pearl Smith, Mrs. Preston Bailey, Mrs. W. L. McWhorter, and Mrs. C. E. Poer; members; Mrs. P. S. Connell and Miss Noreen Ellington, guests.

### MOVE CUTTINGS TO PERMANENT BEDS

Cuttings which were put out last winter and early last spring by Mesdames Will Isaacs and Otto Williams, cooperators in the Adams Home Demonstration Club, were transplanted last month to a permanent location.

These cuttings included Jasmine, Salvia, Abelia, Rose, Honeysuckle, and Salt Cedar. The cuttings were rooted in a bed which was dug out in the corner of the garden, with the sides of old tubs put around it to form a frame and keep out the grass.

Mrs. Isaacs says that one of the main things in rooting cuttings successfully is to have a regular time to water them, and that in dry weather they must be watered about every-other day.

### CULTURE CLUB STUDIES SOCIAL WELFARE

Institutions for promoting social welfare was the subject of the program of the Self Culture Club at a recent meeting. Mrs. Palmer West was hostess to the group.

Plans for promoting a small recreational park for the city were discussed during the business session. A committee was appointed to investigate and find a suitable place for such a park.

Mrs. Gordie Alexander, leader, opened the program with a paper on State Institutions. This was followed by a paper on Tuberculosis Sanitariums by Miss Chris Enochs. Mrs. John Williams discussed Homes for Old People and Dependent Children. Mrs. Bill McSwain read a paper on Hospitals, State and Demonstration.

Roll call was answered with a news item.

Refreshments were served to Mrs. Thorpe Parker, Miss John Alexander, Mrs. Joab Campbell, Mrs. O. E. Conner, Mrs. Jim West, Mrs. A. J. Quinn, Mrs. Williams, Mrs. Alexander, Miss Chris Enochs, Mrs. Doc. Kerr, Mrs. McSwain, Miss Pauline West, Mrs. Reuben Dickens, and Mrs. C. W. Taylor of Sonora, a guest.

### FINDS FOUNDATION PATTERN HELPFUL

By using her foundation pattern, Miss Bessie Reynolds, co-operator in the Adams Home Demonstration Club, has recently made two slips; a swagger coat, made of striped salt sack; a linen suit; a broadcloth street dress; and a broadcloth house dress.

Miss Reynolds says that the foundation pattern has been a "school" to her, she has learned to do so many things with it. She has worked out different types of collars, cuffs, sleeves, and other details of the garments by using her foundation pattern and looking at pictures of garments in magazines. No commercial patterns were used in the construction of these garments.

Mrs. Cora Millar, member of the Eldorado Woman's Club, represented that group when the Women's Clubs of this state held their federated conclave at Abilene April 7 and 8. Over 350 members attended the meeting.

Stamp pads at The Success.

### Many a Friend Recommends BLACK-DRAUGHT

People who have taken Black-Draught naturally are enthusiastic about it because of the refreshing relief it has brought them. No wonder they urge others to try it! . . . Mrs. Joe G. Roberts, of Portersville, Ala., writes: "A friend recommended Black-Draught to me a long time ago, and it has proved its worth to me. Black-Draught is good for constipation. I find that taking Black-Draught prevents the bilious headaches which I used to have." . . . A purely vegetable medicine for the relief of

CONSTIPATION, BILIOUSNESS
