## The Texas Legislators Met Thursday

The Texas Legislature has been called together at Austin Thursday September 14th, and we predict that some lively arguments will take place during the remainder of the month.

The main object of the meeting it seems is to prepare a way to issue bonds and sell them to help the needy. If the money holds out long enough to reach the needy before the greedy get it. Two representatives are outspoken in their attempt to protect this money in case it is issued, one a senator and the other a representative. It seems as if from reports coming from San Angelo, in the distribution of some relief funds that there has been considerable waste during the recent past, and when such men as Mayor Lee resigns from the position as one of the distributors, because he sees the waste, it is time for the public to awaken and see where all this relief funds are going and to whom. There will be need of help this winter, more so than last, and it should be handled with the best results. There is plenty of local organizations in any community to handle the funds without outside hired help.

Every community knows its needs and has faithful men and women in it that will distribute the aid without cost to anyone, and make a final report showing where every dollar has been spent and what for. They know who the local ones are that are riding the community and would not work if they had a job. In fact they know who really needs the work and help. Nothing should be given away to anyone, only in extreme cases, work of some permanent nature should be given and a man paid for his labor. If a town cannot provide some permanent work it is a dead town or community. If these bonds are issued and sold they will have to be paid back and it will more and likely be by a sales tax of some nature. And every time we think of a sales tax, we think of the letter a man wrote in reply to one asking for a donation which reads like this:

"It is impossible for me to send you a check. My present financial conditions is due to the effects of federal laws, state laws, county laws, corporation laws, by-laws, brother-in-laws, mother in laws, and outlaws, that have been foisted upon an unsuspecting public. Through the various laws have been held down, held up, walked on, sat on, flattened and squeezed until I do not know where I am, what I am and why I am.

"These laws compel me to pay a merchant's tax, capital stock tax, income tax, real estate tax, property tax, auto tax, gas tax, water tax, light tax, cigar tax, street tax, school tax, syntax and carpet tax.

"I am suspected, expected, inspected, disrespected, examined, re-examined, until all I know is that I'm supplicated for money for every known need, desire or hope of the human race, and because I refuse to fall and go out and beg, borrow and steal money to give away, I am cussed and discussed, boycotted, talked to, talked about, lied to, lied about, held up, held down and robbed until I am nearly ruined, so the only reason I am clinging to life is to see what the hell is coming next."

The above letter may have never been written, but it sounds reasonable and when the State or Nation sends out gobs of money, they have to get it from some source and it is always a tax, for there is no other way. So let our legislators be careful in their work and the way they will have this money handled, it may be a bigger curse than a help.

Mr. and Mrs. Joe Edens were in the city Saturday shopping and getting grain to plant. Mr. Edens is planting barley this winter, thinking it might be a good price next year.

## NRA FACES TEST

### Textile Industry Worries About Recession

NEW YORK, Sept. 11.—First to win the blue eagle, the textile industry is now facing a test of consuming ability to pay the higher prices current in primary markets.

Textile activity surged upward phenomenally from March through July, carried forward by the powerful driving force of a threat of advancing quotations. During the past six weeks, however, there has been a moderate recession.

The silk and cotton goods industries have suffered the most pronounced setback, while rayon production is continuing around capacity levels. Woolen and worsted goods operations have also been marching forward with little change of stride.—San Angelo Morning-Times.

They received no personal injuries but nearly all their belonging blown away. The Eldorado people wired Brother McWhorter about \$68.00 last Saturday and the Editor has some little bit more to send. If any one else wants to share in the giving we would be glad to send it to them.

## PRESBYTERIAN CHURCH NEWS

With three or four weeks meetings in Eldorado the city has had adequate opportunity to be evangelized. There is still work to be done, however, and the church of the Christ must not shirk her responsibility.

The sermon subject for Sunday morning, September 17th, is "Down but not Out," Micah, 7:8. No evening service will be held on account of the Baptist meeting.

## 3.2 Beer Can Be Shipped From Wet To Dry Sections

AUSTIN, Sept. 13.—Transportation of beer into dry territories is not prohibited under the law regulating the manufacture and sale of beverages containing not more than 3.2 per cent alcohol, Elbert Hooper, first assistant attorney general, ruled today.

Hooper said it would be lawful for a person to purchase beer in wet territory and transport it to his home for personal consumption. It also would be legal to have it delivered in dry territory by transportation agencies, he ruled.

Texas law regulating the manufacture and sale of beer will become effective tomorrow. There is nothing in the law to indicate that restaurants, hotels and other concerns not selling beer as their principal business would be required to desist from the sale at any time.—San Angelo Morning-Times.

## REYNOLDS SCHOOL ENROLLED 23

Mr. Warren Marshall, Superintendent of the Reynolds School, was in the city Saturday and reports that the school opened with an attendance of 23. Mr. Marshall says that they do not have any playground equipment and that they are planning several entertainments during the year that they expect to take in some money to put some needed playground equipment.

They have one planned in the next few weeks which will be announced in The Success when they have it.

They will have a Thanksgiving program, Christmas program and an Easter program. The Reynolds school is about 20 miles west of Eldorado in the Eldorado Independent School District.

They will open Friday morning, September 15th with a free Barbecue and invite all friends and well wishers to be there for their opening.

## The Eldorado Success

 We appreciate any item of news you might know. Call 77 and we will do the broadcasting.

SEPTEMBER 15, 1933.

Cotton picking is getting into a good swing this week and for the next few Saturday's Eldorado will be a busy town on week end days, although the cotton crop will be light the clear dry weather will make it open fast and it will probably all be out by the middle of October.

Now is the time to pay up that subscription into The Success. We need the money and you need the news. There is plenty to happen during the next twelve months. Another State election coming on, also a county election.

News was received in Eldorado last week about the destruction of the Methodist Parsonage at Los Fresnos where Rev. J. D. McWhorter and wife were sent last year, and where Rev. W. H. Marshall came from to our city. He immediately got out and raised \$68.00 and wired it to Rev. McWhorter, Saturday morning. We understand that the top blew off the parsonage and they were in the open top building and all they had was ruined besides the terrible experience they went through during the six hours the storm lasted.

And now since Tom Ketchum (Black Jack) has been buried 29 years they have decided it would be safe to dig up his carcass and move it to another spot. He probably couldn't harm any one, so they moved his bones Sunday.

A man who gets license to sell 3.2 must be a man that has not previously violated a law that he has been convicted for. It is intended under the new law that no law violators can sell or secure license to sell 3.2.

They claim 3.2 is non-intoxicating. Yet they have prohibited its sale in certain places.

It is reported in Oklahoma from those that have been up there from here that home brew is selling for 25c where 3.2 is selling for 15c. There is just not enough kick in the 3.2 to compete with home brew.

Remember that Schleicher County is your home and the people of the County are your neighbors. What kind of neighbor are you making your neighbors?

There seems to be some difference in the way Joseph handled his surplus food stuff than the way the present food stuff is being handled. Joseph piled it up for seven years to feed the people on and we are destroying our surplus instead.

Some years ago a facetious politician proposed as a solution of the "farm problem" that one-fourth of the farmers be

aded on barges, towed to the middle of the Atlantic Ocean and drowned. He argued that then the rest of them could make a living. The plan which the Federal Government and the cotton landowners propose to put into effect next year is similar to this in that it will "eliminate" about 200,000 farmers and their families, but it is different from it in that it does not "dispose" of the farm families eliminated. No provision whatever is made for them in the plan. It is not necessary. They need not be paid to prevent them from producing next year. All that is necessary is to pay the landlords a higher and more certain rental than these tenants could possibly guarantee. What is to become of them is no concern of the Federal Government or the cotton landowners. There is no provision to draw them, but for all the parties to the plan seem to care they and their families might starve. The drowning plan is less cruel and ruthless.

The plan is a good one for landowners' code. But here again there is a vital difference from the codes being adopted under the NRA. The object of the NRA codes is to increase employment by reducing hours of labor to a minimum. But the cotton landowners' code provides for a drastic reduction of the labor force in the cotton growing industry. The Federal Government steps in as a colossal cash tenant in competition with the share and cropper tenants and by out-bidding them puts a certain percentage of them out of business. The NRA codes give prime consideration to the workers in industry and only secondary consideration to the capital invested. The cotton landowners' code gives prime consideration to the land, and not even secondary consideration to the workers it eliminates. The value of the land is enhanced, and the value of the labor is reduced. There is no provision in this code for minimum wages and maximum hours. On the contrary, by creating a large surplus labor supply it is insured that cotton farm wages will be held down to a minimum, while the income from land will be increased. It is a good plan, we say, for the landowner, whether he be a working farmer or a landlord. But it is extremely questionable that it is a good plan for society taken as a whole.—The Texas Weekly.

From away out at Fullerton, California, comes a remittance to The Success for one year, from S. R. McGaughy. We trust it will carry him the news in full.

## RUSSELL A. FIRESTONE GREETES 4,000,000TH FAIR VISITOR

Wearing his ten-gallon hat and other Texas garb in which he has won fame as one of the best horsemen and ropers of the Southwest, Chet Byers, of Ft. Worth, hurried over to the Firestone Factory and Exhibition Building at the World's Fair to see tires made. His years of riding the range had made him used to the unexpected—but he was caught off his guard when he suddenly was pronounced the four-millionth visitor to the building and winner of a set of Firestone Gum-Dipped tires that had just come from the production line. The presentation was made before the microphone with a huge crowd applauding. Russell A. Firestone, son of the rubber pioneer, is shown congratulating the lucky Texan in the garden beside the Firestone Singing Color Fountain.

## REYNOLDS CLUB MEETS

On Tuesday Sept. 5th, the Reynolds Club met with Mrs. John Faught. There were seven members present, one visitor and one new member was received.

Our contest for the summer was closed and the losing side will now have to entertain the winning side. It has not been decided how we will entertain them, or when. We hope to entertain them in the best way possible.

The club chose sides again. Each side is working for the goal. It will keep us all busy to keep ahead of the other side.

Mrs. Faught served refreshments to her guests of lemonade and cake.

The next meeting will be held with Mrs. Otto Sauer.

## INTERSCHOLASTIC LEAGUE DISTRICTS INCREASED

AUSTIN, Texas, Sept. 11.—Rules and regulations governing Interscholastic League activities have been amended considerably for 1933-34, according to Roy Bedichek, chief of the University of Texas League Bureau. Under the plan as outlined and adopted by the State executive committee the number of districts in the Texas Interscholastic League has been increased from 27 to 31. This means that the districts are smaller, and hence the district centers are more convenient to schools participating and less loss of school time and less traveling expenses are required. After the district winners have been determined in the 31 districts they are grouped together in eight regions with centers in higher educational institutions, principally in the teachers' colleges, for eliminations necessary to qualify contestants for the State Meet.

At the same meeting the State committee considered the case of schools which were compelled to close for financial reasons before the end of the spring semester. Many questions have arisen in connection with the eligibility of pupils in this fall who were compelled to drop out of school before the end of the semester on account of the fact that the schools were closed. The "Preceding Semester Rule" would automatically bar such pupils. The State committee, however, considers the depression an emergency, and hence made a rule which will qualify all pupils for fall competition who were eligible at the time their schools closed on account of financial difficulties.

An important change was also authorized in the manner of qualifying essay contestants in Interscholastic League contests. Heretofore it has been the custom to qualify the essays produced in the county meet for the next higher meet. The rule as changed will qualify the essay contestants themselves, who will pass on to the next higher meet and produce essays in that meet, and there will be a final State championship in essay writing participated in at the State Meet by the contestants themselves.

Mr. and Mrs. Will Isaacs were in the city Saturday visiting, while here were guests of Robert Isaacs and family and Miss Isabelle, their daughter.

## How Cardui Helps Women

"Mal-nutrition" means that your body is not getting enough to keep it up, so that what it has to do is not done well. You may not be eating enough to keep up the work of the body, or there may be something wrong that keeps you from getting full value from the food you eat.

Because of mal-nutrition, some women have aches and pains every month. Such pains should not be neglected.

Take Cardui to give you a better appetite, to give you more strength from the food you eat—to build up and increase your feeling of well-being. Aches and pains go away as you build up with the help of Cardui.

Mr. and Mrs. Lawrence Steen were in from the ranch Saturday visiting and trading.

SPENDING IS SAVING NOW

True economy is that which obtains the largest possible return for a dollar spent. True economy is to spend that dollar at a time when it will bring the most.

We have had a number of years of extreme depression. Prices have dropped to unimaginably low levels. Buying power has been close to non-existent. There was money in the country—but persons who had surpluses were afraid to spend. They went without needed articles in order to keep their savings intact. They permitted property to fall into costly disrepair.

If they pursue that timid policy any longer, they are going to be literally out of luck. That hoarded money is going down in value now. The worth of the dollar depends entirely on what it will buy. Six months from now it will buy much less than it will buy today. In other words, if you keep money in a non-productive state at present it amounts to throwing a certain percentage of it away.

You can get maximum value from your money only by putting it to use. There was never a better time to install a new heating plant, to repair or replace a roof, to build or rebuild, to paint or to do a thousand similar things. Every dollar spent will appreciate in value—what it buys will, in a very short time, have a market value much in excess of what you paid.

Think it over! True saving now is through wise spending. —Industrial News Review.

PIG AND SOW PERMITS LIMITED TO FARM OWNERS

WASHINGTON.—Steps were taken by farm administrators to check growth of speculation interfering with operation of the emergency hog-marketing plan. A new regulation limits permits to sell pigs and sows to farmers who are the original owners, and permits are limited to owners of not more than 200 head. There is no increase in the bonus of \$4 a head on sows, but the weight limit was lowered on those soon to farrow from 275 to a minimum of 240 pounds. All pigs received for Government purchase at authorized processing points must be accompanied by permits authorizing the shipment.

The farmer and the resident of our rural communities have a vital stake in the National Recovery Program. Success of the program means a better, brighter day for them and proportionately more than for the industrial worker and the city dweller in general.

While there has been overproduction of certain farm products, underconsumption caused by business and industrial paralysis and widespread unemployment, resulting in a huge loss of purchasing power, has contributed principally to the farmer's distress.

Farm prices have been low largely because the drop in the income of the people has sharply curtailed demand and the farmer must take what he can get for his products, not what they are worth.

The farmer has rightly been called the backbone of the Nation. At no time in our history has his wholehearted help been needed more than now. He can work the more earnestly in contributing to the success of the recovery drive because he knows that when the big turn comes he will share in the prosperity that follows.

President Roosevelt, whose farsighted and dynamic leadership has already initiated comprehensive measures designed to aid the farmer directly in

### BLACK JACK, DESPERADO OF THE PIONEER WEST, TO BE GIVEN NEW GRAVE

CLAYTON, N. M., Sept. 8.—The body of Tom Ketchum, better known as Black Jack, one of the notorious bad men of the Old West, will be exhumed Sunday.

Since 1901, when the bandit was hanged for robbing a Fort Worth & Denver passenger train, the body has lain in an abandoned cemetery east of Clayton. Because curiosity seekers have caused ranchers in the vicinity so much trouble in their search for the grave, authority has been obtained to move the body to the present cemetery.

A. W. Thompson of Denver, who will direct the exhuming of the body, says the location of the grave is known, and that the body can be identified because the bandit was beheaded by the hangman's noose. His arm also was shot away by Frank Harrington, retired Denver conductor, during the hold-up for which he was convicted. It was this injury which led to Black Jack's arrest the following day, old-timeers say.—Dallas News.

The above clipping was taken from the Dallas News Friday and the exhuming was to have taken place Sunday, but if it did the Success has failed to see an account of it. A good many people in this immediate section was interested in the movement, as the Black Jack Gang roamed our hills in their days and were well known to many of our ranchmen. In fact Dr. T. P. Robinson, father or our townsman and cotton buyer, T. Payne Robinson, was the physician or one of them that pronounced the death of Tom Ketchum, or Black Jack, when he was hung. The Black Jack gang had hiding places in this county for several years.

Mr. and Mrs. Claude Meador were in from the ranch Saturday visiting Mrs. Meador's mother, Mrs. Moore.

Mr. and Mrs. W. E. Bruton were in from the Reynolds neighborhood Saturday visiting with friends and looking after business in the city.

T. H. Alexander was in from the ranch Saturday buying supplies and meeting friends. He was accompanied by Mrs. Alexander.

### NOTICE OF CORRECTION

Below is a letter received by The Success Tuesday which ask for a correction. We give the letter in full as we are not acquainted with the grievances of the community from which it came.

September 11, 1933.  
 Mr. A. T. Wright, Editor,  
 The Eldorado Success,  
 Eldorado, Texas.

Dear Mr. Wright:  
 I know that you are always willing to correct any errors made in the columns of your good paper, and I therefore call the following to your attention.

In your edition of Sept. 8th, front page, there are two references to the opening of our little school, Mayer No. 2, on Monday Sept. 4th. (which, due to various conditions, many of us do not consider a legal opening of our school). One of these articles, the first under "Court house Gossip," would give the impression that most of the people of the community attended a barbecue. I am quite sure that you would not have used the expression, "the good people of the community," if you had not been lead to believe that at least a majority of those of the community were present.

As a matter of fact, the majority of the white residents of the community were not present at said barbecue, which from your news items would be made to appear as a community affair. I can count at least seventeen who were not present at the affair and all of them are, I believe, good, better or best people (with the possible exception of the writer, of course). Of course our absence would not keep it from being a delightful affair, which I am sure it was, —but I do want to correct the idea that whole community took part.

It is my opinion that we should be able to have community affairs, —but at least there are many good reasons why the majority of us were not present at this particular one. We have differences of opinion, like all communities, but there are some things in connection with our recent differences that should be given publicity for the good that it might do us, and to help us to see that it is worth while to find out just how our county government is working.

If your columns are open to signed articles, so that both sides may be permitted to express themselves, I might give you something for next week that I believe will be of general interest and worth thinking about.

Thanking you for making the correction, I am,

Sincerely,  
 H. Leslie Jones.

The above letter written by H. Leslie Jones, who takes exceptions of a news item that appeared in our last week's paper, is published at his request, and we wish to say here, that any citizen of the County who wishes to write on any subject that is of county or national interest, can do so at his will. The Editor cannot express the views of others not even in news items or editorially. This must be done by individuals, and if your communication is worthy of public interest we always gladly publish them, provided they are news and not advertising. We do not think it best in many instances to try and settle community rows in the public press but if the people of the community in which Mr. Jones resides want the public to know of their differences, we will gladly give each side room and space for expression, and if Mr. Jones so desires, he can write an article for republication over his name and give his views as to the community affairs, or any subject he may choose of public interest.

A. T. Wright, Editor
