## TWO STATIONS BURGLARIZED IN McLEAN

Two Phillips 66 stations were burglarized in McLean last week-end. The Glass service station was broken into by the side door. After wrecking the Coie machine and breaking into the desk, doing some damage to it, the burglars left with approximately \$115.

Stewart's Phillips 66 station was broken into, but only \$5 and some blank checks were taken.

After leaving McLean, the burglars traveled to Groom, taking a typewriter in a break-in there.

Three men from New York, believed to be the burglars, are being held in a Tatum, N. M., jail awaiting extradition to Texas.

New Mexico state troopers stopped the three men on a traffic violation and saw the typewriter and blank checks in the car.

A search of the vehicle disclosed a money sack believed taken in one of the McLean burglaries.

## Red Means 'Wrong' On Texas Freeways

"Red means WRONG" and, if you drive the wrong way on a Texas freeway you will soon see lots of red, thanks to the Texas Highway Department's latest move to prevent accidents caused by wrong-way freeway traffic.

The department announced this week it will begin installing red traffic buttons and reflective pavement markers on interstate and other controlled access highways in Texas.

"The thing for drivers to remember," a department spokesman said, "is that red means WRONG.

"If you see a red arrow pointing at you from the pavement as you start to enter a freeway ramp, you are entering the wrong way," he said.

"If you see a straight, red line pointing against you on the lane lines of a freeway, you are going in the wrong direction. Get off the freeway or get turned around fast."

Installation of the markers is the Highway Department's second major innovation this year to minimize wrong-way movements on freeways.

Earlier the department began supplementing its "Do Not Enter" signs along freeways with "Do Not Enter Ramp" signs and "One Way" signs in the freeway median.

In an effort to cut wrong-way accidents even more, the department then began experimenting with the reflective, red ramp arrows and freeway lane lines.

Both the arrows and the lane lines are made up of plastic markers which are highly reflective. They show white to traffic going the right way and bright red to traffic going the wrong way.

The lane lines in most cases will be limited to metropolitan areas where there is a high volume of traffic. The reflective markers for the lane lines will be placed on 80-foot centers unless the grade is greater than two per cent. Then 40-foot spacing may be used.

The arrows will be placed on all exit ramps that have had any history of wrong-way entry and on all exit ramps where the design of the connection with the cross street or highway is such that traffic may have an easy access to the exit ramp for wrong-way movement.

"The Texas Highway Department has been concerned for some time with the problem of wrong-way accidents on our freeways," State Highway Engineer D. C. Greer said.

"We hope these new markers will help solve the problem by warning motorists that 'red means WRONG.'"

Visiting Mr. and Mrs. Ed Clifton last week were Mr. and Mrs. W. O. Smith of Ada, Okla., and Mr. and Mrs. Roy Campbell of Pauls Valley, Okla.

### Don't Take a Chance; Take Polio Vaccine

Have you kept up your immunity against polio? The Texas Medical Association cautions: Don't take a chance on polio—take polio vaccine. Many have been lulled into a false sense of security in controlling this paralyzing disease because of the overwhelming success of Salk and Sabin vaccine. These vaccines, however, have not eradicated the viruses which cause polio. Rather, like all vaccines, they trigger the body's defenses to build up antibodies which can combat the viruses if they should gain entry into the body.

Texas has reported 40 cases of paralytic polio thus far this year. None of the cases reported had been completely immunized. All are infants and pre-schoolers.

All persons who have not been properly immunized against polio are still vulnerable to attack. This includes the majority of pre-school children who have not received full protection.

#### BETTER INSECT SURVEY

The 1966 insect survey program is aiming at a better, more complete and the earliest possible reporting of the insect situation. It includes the latest news about where infestations are spreading. Joe Rothe, state agricultural agent for the Texas Agricultural Extension Service at Texas A and M University, says the state has been divided into six areas, with area entomologists as coordinators.

### Political Problems Increase as Election Time Draws Near

As election day draws inexorably closer, the barometers of public opinion are being pondered by political strategists in both parties. Problems are plentiful, and there have unquestionably been significant shifts in public attitudes as indicated in recent polls, and, most notably, the California primary. But, what meaning this has, and what bearing it will have at the polls in November is now very much a matter for conjecture.

Overshadowing most issues is the war in Viet Nam. While costs and draft calls mount, American casualties rise. Graft, corruption and thievery in South Viet Nam, at the expense of American taxpayers, combined with civil strife in that war-torn country, and the lack of allied support, have created highly-mixed emotions on the home front.

Growing inflation continues to increase the cost of living and puts serious strain on many family budgets—raising questions about the wisdom of administration policy in the minds of many people. Farmers are resentful of efforts to control agricultural prices, and the possibility of more tax increases hovers over all.

Race riots, demonstrations and disrespect for law and order continue to present a serious challenge despite the passage of legislation advancing the rights and opportunities of minorities. The likelihood of overcrowding of medical and hospital facilities after Medicare went into effect July 1, may present serious difficulties.

The magnitude of national concern in these areas is showing up in public opinion and reaction. The recent victory of Republican Ronald Reagan, and the narrowness of Democratic incumbent Edmund G. (Pat) Brown's win over "conservative" Los Angeles Mayor Samuel W. Yorty in California's gubernatorial primary, is viewed by many authorities as a new wave of "conservative strength" and a "sure sign of trouble" for Democrats across the country. The Gallup Poll, also indicates President Johnson's popularity has slipped considerably to a low of 46 per cent. So far this trend is apparently continuing.

Whether or not these tests of voter attitudes presage a new wave of conservatism or a preview of the November elections is of prime concern to both parties. Republicans hope the tide is going out for their political counterparts and look to a gain of 40 or more congressional seats in November. Democrats, meanwhile, concede they may lose some seats. Some Democrats fear a loss of 50-60 seats if things do not change. A net shift of 78 seats would be necessary for the GOP to gain control of the House.

If a conservative tide is coming in, Republicans would seem to have a good chance of picking up the 40-50 seats they foresee. But, a recent Iowa poll showing disenchantment with the administration also indicated that Senator Robert Kennedy, although an avowed non-candidate, was favored over President Johnson as the Democratic standard-bearer in 1968. Senator Kennedy is far from being, in any sense of the word, a conservative. Thus it might be that the "man" rather than the "principle" he represents is the deciding factor in many voters' minds.

Whatever the case, the great race for political power is on, and this promises to be a political year of exceptional import. Is massive government spending and extension of federal responsibility for state, local and individual welfare the "open sesame" to voter approval? Is individual candidate personality and appeal the primary consideration, or do voters in the final analysis decide on the basis of ideas and alternative principles of government expressed by prospective public officials? How strong is party loyalty and traditional support from geographical areas? The voters hold the key, and in the polling places this fall they will answer the questions and open the doors to public office for the candidates of their choice.

Dorothy Windom and Corinne Trimble will attend the Dallas market this weekend.

### AMA Says 'Relax' To Avoid Health Problems

It isn't absolutely necessary for executives to have heart disease, ulcers and strokes, ailments commonly associated with American business men who reach the management level.

Further, these ailments are by no means limited to executives. They can affect almost anyone. A few suggestions offered by the American Medical Association to help executives preserve their health also can be readily applied to most Americans, regardless of level of employment.

Watch your weight. Strenuous diets usually aren't necessary. Just eat less.

Exercise. Golf is fine, if you enjoy it. But if you're one of the many who lose their tempers and get upset over every missed

stroke, brisk walks will serve just as well as golf, probably better.

Take vacations. Real vacations, not just an occasional day or two. And plan your vacation so that there is time to relax and unwind.

Smoke less. Better still, quit smoking altogether, if you can. There is much debate about the effect of tobacco on health, but there is no argument on the premise that it doesn't do anything good for you.

Cut down on drinking. Two cocktails before dinner may be one too many. One might be too many for some people.

Put business worries out of your mind when you leave the office. This sometimes is easier said than done. Perhaps you will need to get active in something else, such as the affairs of your church, to get your mind off your job.

Texas is the leading agricultural state in the nation.

### DPS to Conduct 'Operation Motorcade' Labor Day Weekend

Department of Public Safety estimates that 41 persons will die in traffic accidents on Texas highways during the upcoming three-day Labor Day weekend.

"The current traffic trend indicates that Texas is headed for its third straight record high in terms of fatal accidents," says Col. Homer Garrison Jr., DPS director. "At the present time, we are approximately 15 per cent ahead of the same time in 1965, and we are still faced with the four months of the year which generally produce the most deaths."

Garrison points out that: "More people are killed in Texas each year in traffic than are killed in all the United States by murder, and the deaths are just as senseless, as needless and as tragic, but not nearly as well publicized." He analyzed the reasons citizens have failed to take positive action in traffic safety: "Psychologists say that one reason is a lack of personal identification with the problem. It might behoove each driver in our state to stop and consider that he has less than a 50-50 chance to go through his driving career without being involved in a traffic mishap."

In an attempt to cut back on the number of accidents and deaths during the Labor Day weekend, the DPS will conduct its "Operation Motorcade." Approximately 150 uniformed officers from other DPS services will be on the road to supplement the Highway Patrol. To call public attention to the problem, each traffic death will be tabulated and the totals will be announced three times daily in Austin.

Texas Highway Department, Texas Safety Association, Texas Council of Safety Supervisors and Texas Motor Transportation Association are joining forces to help the DPS.

#### FIRE DEATHS

Every 24 seconds a fire breaks out somewhere in the United States, and these fires take a human life every 44 minutes.

There were approximately 11,900 fire deaths in the United States in 1964, an increase of 100 over 1963.

Mr. and Mrs. T. C. Landers have returned from an extended visit with their son, F. B. Landers, and family of Branson, Colo. Another heavy rain fell over the community Saturday night. F. E. into the post office building before the engine was killed. Mr. Lee Wilson and Miss Ila Abbott were married Wednesday, Aug. 25, at 2:30 p.m. at the home of the bride's parents, Mr. and Mrs. D. L. ### Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.**  
**HOUSE JOINT RESOLUTION NO. 13** proposing an Amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas, as so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters. **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language: "and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor." and by substituting therefor the following language: "provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term 'qualified elector' as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States or component branches thereof; or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

language underscored: "Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided, further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor." provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term "qualified elector" as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States or component branches thereof; or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

tering such service so long as he or she is a member of the Armed Forces."

Section 2. That Section 4 of Article VI of the Constitution of the State of Texas be amended by changing the word "may" to "shall" in the last clause thereof and by deleting the words "in all cities containing a population of ten thousand inhabitants or more."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new language underscored: "Section 4. In all elections by the people, the vote shall be by ballot, and the Legislature shall provide for the numbering of tickets and make such other regulations as may be necessary to detect and punish fraud and preserve the purity of the ballot box; and the Legislature may shall provide by law for the registration of all voters in all cities containing a population of ten thousand inhabitants or more."

Section 3. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Section 4. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following: "FOR repealing the poll tax as a requirement for voting."

"AGAINST repealing the poll tax as a requirement for voting." Section 5. If the foregoing Amendment is adopted, the proclamation of the Governor declaring the adoption of the Amendment shall set forth the full text of the amended Sections, as amended herein and as amended by any other proposed Amendment which is submitted by the 59th Legislature and which has been duly adopted prior to such proclamation.

Section 6. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

(1) The Legislature may by statute provide for the consolidation of some functions of government of any one or more political subdivisions comprising or located within any county in this State having one million, two hundred thousand (1,200,000) or more inhabitants. ### Proposed CONSTITUTIONAL AMENDMENT NUMBER FOURTEEN ON THE BALLOT

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.**  
**HOUSE JOINT RESOLUTION NO. 38** proposing an Amendment to Section 2, Article VI, Constitution of the State of Texas, to omit the requirement that members of the armed services vote only in the county in which they resided at the time of entering the service. **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 2, Article VI, Constitution of the State of Texas be amended by deleting the following language: "Any member of the Armed Forces of the United States or component branches thereof, or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

The text of this Section is shown below, with a broken line through the sentence which is to be deleted: "Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

Section 2. The only purpose of the amendment proposed in this Resolution is to make the aforesaid deletion. The adoption of this amendment shall not be deemed to have the effect of readopting the remainder of the Section, and any other amendment to this Section, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this amendment shall not be construed as nullifying any change made by such other amendment.

Section 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following: "FOR the Constitutional Amendment to allow members of the Armed Forces who are residents of Texas to vote."

Section 4. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the Constitution and Laws of this State.

Section 5. If the foregoing amendment is adopted, the proclamation of the Governor declaring the adoption of the amendment shall set forth the full text of the amended Section, as amended herein and by any other proposed amendment which is submitted by the 59th Legislature and which has been duly adopted prior to such proclamation.

**RAIN AND MORE RAIN**  
Several McLean farmers and ranchers had reported over 2.5 inches of rain as of Tuesday noon this week. Most ranchers, cotton farmers and milo growers had smiles from ear to ear about the fine moisture. As Leamon Andrews said, "Moisture conditions have been on cotton this season just as we would have called for it." We believe you will see many fields of cotton yield better than a bale to the acre.  
Efforts are underway to receive an extension of grazing privileges on soil bank land. The amount of growth on grass is usually very limited after Aug. 1, regardless of rainfall. This is because of the shorter day length.

**CATTLE PRICES**  
Our earlier prediction of high calf prices this fall are beginning to take shape. Reports from many of the eastern markets show calf prices up as much as \$2.50 per cwt. A very recent stimulus has been placed in the stocker feeder market because of a five-state cattle on feed report. It showed that only 89 per cent as many cattle were placed in the feed lot in July this year as compared to 1965. This has had a very stimulating effect on the future market on live beef cattle. June figures have been as high as \$29.60. No doubt this is optimistic—future price will add more strength to stockers as finished cattle in June.

**AGRICULTURE PRICES**  
Occasionally you hear someone say the farmer and the rancher are getting rich. Recently I ran a check to see what per cent of parity that several commodities was. Here are the results: corn, 79%; milo, 72%; cotton, 70%; and beef cattle 80%. Hogs were the only item that was 100% of parity. They were slightly above 100%. Inflation is the farmers and ranchers worst enemy.

Texas Park and Wildlife Department personnel, shadowing wild turkey flocks in eastern Panhandle river bottom areas, report the 1966 turkey hatch is favorable, with large broods observed daily.

Tallies on turkey hens with poults in tow are not fully complete as yet, but biologists believe the 1966 hunting season will be as good as 1965, a top year for Panhandle sportsmen.

Mr. and Mrs. Roy Glenn and son, Clifton, of Jacksonville, Ark., have been visiting in the home of his brother, Bob Glenn, and with Mrs. Glenn's mother Mrs. Lona Jones, and grandmother, Mrs. C. G. Nicholson. Another visitor was Mrs. Vernie Immel of Stinnett.

# VETERANS INFORMATION

Veterans with more than 180 days of active military duty discharged from the service since Jan. 31, 1955, have at least until March 3, 1976, to complete a GI home or farm loan under the new GI bill, the Veterans Administration has pointed out.

The new law, bringing to veterans of the post-Korean period GI loan privileges hitherto available only to veterans of World War II and the Korean conflict, carries its own minimum deadline of 10 years after the actual signing of the bill on March 3, 1966. Jack Coker, manager of the Veterans Administration regional office in Waco, said:

A maximum eligibility date of 20 years after discharge from the qualifying active service is also in the law. Veterans discharged because of service-connected disabilities will have the maximum 20-year entitlement.

Between those minimum and maximum periods, individual veterans will reach the termination of their eligibility according to the following formula:

Add 10 years to the date of the last discharge from active service plus one year for each three-month period of that service.

The veteran must hold a discharge other than dishonorable. If released because of a service-connected disability, the service time may be less than the stipulated 180-plus days period.

The new law also benefits those servicemen who remain on active duty after completing at least two years of service. They may obtain VA-guaranteed loans while still in the armed forces.

For a post-Korean veteran or serviceman, VA may guarantee a home loan made by a private lender up to \$7,500 or 60 per cent of the loan, whichever is less.

For a farm real estate loan other than for the acquisition of a home, the guaranty may not exceed \$4,000, or 50 per cent of the loan; and for non-real estate farm loans, the guaranty may not exceed \$2,000, or 50 per cent of the loan.

This means that a lending institution will receive the government's guaranty which is intended to be in lieu of a down payment or to reduce the down payment which the lender normally requires.

The maximum amounts of entitlement apply to each person who qualifies under the new law. In other words, an individual who is eligible as a serviceman will not receive additional entitlement when he is released or separated from the service; further, an individual who can qualify as a post-Korean veteran and who later serves for 181 or more days will not receive additional entitlement for the later periods of service.

Loans may be for the purchase of homes; to make alterations, repairs or improvements in homes already owned and occupied; to purchase farms or farm supplies or equipment; to obtain farm

working capital; or to refinance delinquent indebtedness on property to be used or occupied by the veteran as a home or for farming purposes.

The new GI bill offers only guaranteed loans to post-Korean veterans and servicemen; insured loans are not authorized for such veterans and servicemen. Also, business loans are not authorized for individuals who qualify under the new GI bill.

VA direct home loans will be available only for the purchase of homes and farmhouses in areas where such loans have been authorized. The maximum direct loan possible has been raised from \$15,000 to \$17,500.

There is no maximum on the amount of a guaranteed loan. All loans made or guaranteed by VA will bear interest at 5 1/2%.

Under the new law, a one-time non-recurring fee, not to exceed one-half of one per cent of the loan amount must be paid to the VA before a guaranty certificate may be issued or before a direct loan is made. However, it may be included in the loan, but it cannot increase the maximum direct loan above \$17,500.

Veterans eligible under the new law who still have unused and unexpired World War II or Korean conflict entitlement will have their previous entitlement cancelled. However, should they obtain a guaranteed or direct loan during the period their cancelled entitlement would have been effective, they need not pay the statutory fee. They may also secure business loans during the period.

The entitlement of a post-Korean veteran or serviceman may be reduced if he has already used his World War II or Korean conflict entitlement. However, under certain circumstances, entitlement previously used can be restored.

VA does not require a down payment. Lenders, however, may require down payments. Certificates of eligibility or additional information may be secured from any VA regional office.

### Proposed CONSTITUTIONAL AMENDMENT NUMBER FIFTEEN ON THE BALLOT

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1964. SENATE JOINT RESOLUTION NO. 33** proposing an Amendment to Section 6, Article XVI, Constitution of the State of Texas, to authorize state participation in programs financed with funds from private or federal sources and conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handi-

capped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped. The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the money may be expended under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

"This subsection does not prohibit state agencies authorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."  
 Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:  
 "FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."  
 "AGAINST the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds, obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."  
 Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.
