Jimmy L. Williams Services Held Friday

Funeral services for Jimmy L. Williams, 46 of Canyon, were held Friday, September 30 at 2 p.m. in the First Uni-McLean area soon after ted Methodist Church he marriage and then with the Rev. Tommy Nelson pastor of St. Paul's United Methodist Church in Midland and the Rev. John Wagoner, assistant pastor of First United Methodist Church of Canyon, officiating. Burial was in Dreamland Cemetery by Schooler-Gordon Funeral Directors. Jimmy L. Williams died Thursday.

Mr. Williams, born in Lefors, had been a Canyon resident for the past four years. He had moved from Amarillo where he was area director for McCormick Advertising. He was a

Methodist Church, Fine Arts Club of Amarillo and had served in the armed forces in North Africa from 1951 to 1954. He was married to Stelcie Perry Oct. 9, 1953 in Alexandria, La.

Survivors include his widow; Stelcie, two daughters, Mitzi and Judi of the home; a son, Mark of the home; his mother, Mrs. B. F. Williams of McLean; four brothers, Pete of DeLeon, Johnny of Mount Vernon, Wash.,-Toby of Pampa and George of Amarillo; four sisters, Mrs. Faye Flynn and Mrs. Sue Howell of Amarillo, Mrs. Bennie Wayne Smith of Lefors and Mrs. Jane

Simpson of McLean. The family requests of the FPC adult contin- that donations be made

JUDGES ATTEND SEMINAR -- Eighty-six justices of the peace from the West Texas area attended a 20-hour Texas Justice of the Peace Training Center seminar Sept. 20-23 in Amarillo. The training center, which serves the entire state of Texas, is headquartered at Southwest Texas State University. Judges attending the seminar included four from Gray County, Gray County participants were, left to right, Margie Prestidge, Precinct 1, Lefors; Venora A. Cole, Precinct 2, Place 2, Pampa; G. L. Lunsford, Precinct 2, Place 1, Pampa; and Dorothy Beck Patterson, Precinct 5, McLean.

\$100,000 Bond Set For Armed Robbery Suspect

Bond for Lloyd Franklin Mays, 37, of Pampa, charged with armed robbery in connection at attempt to rob Emory Crockett, owner of the Western Motel Wednesday night, was set at \$100,000 Thursday afternoon.

Justice of Peace Venora Cole set the bond and appointed Bob Mc-Pherson of Pampa torepresent Mays as his at-

Mays was arrested shortly before 11 p.m. Wednesday after Crockett grabbed a brown paper bag with a gun in it from Mays, who fled immediately.

He was apprehended about 10 minutes later near the motel hiding in tall weeds.

Police Chief Pichard Mills sais Mays is on parole following conviction of burglary in 1971.

N. Rolling Plains RC&D Held Meeting

The North Rolling Plains RC&D Executive Council held their annual meeting at the McLean School Cafeteria, September 27.

Attending from Gray County were Gray Co. Commissioner, Simmons and Gray Co. Soil and Water Conservation Director Milton Carpenter. They were among an estimated 60 representatives from across the eight county RC&D area of the Eastern Panhandle.

James D. Abbott, Assistant State Conservationist, with the Soil Conservation Service, discussed resource conservation and developments in Texas. Abbott informed the group that the North Rolling Plains RC&D has been recom mended in Texas' number one priority for fund-

"The RC&D program has proven to be truly unique in Texas, for you as RC&D sponsors are the only group of sponsors in existence that has been able to coordinate Soil and WaterConservation Districts: special interest groups and minority groups in multi-county areas for total resource develop-The new officers are ment. This is because local leaders know how to work with each other to obtain common goals," said Abbott.

Following a meal of bar-b-que and the program by Abbott, a short Willie Lamb and Wy-business meeting was presided over by Lipscomb County Judge Warren C. Jenkins, RC&D Committee Chairman.

McLean Hospital Gets Top Grade

A representative from the Texas Department of Health Resourceshasinformed the administrator of Highland General Hospital and McLean that a recent survey of the McLean hospital found it "exceptionally clean and well maintain-

The letter was written by Ernest E. Jones. supervising engineer, hospital licensing division and addressed to Guy Hazlett, administrator.

Hazlett said to his knowledge "this is the first time in several years that such an excellent report of inspection has been acquired from the Texas Department of Health Resources regarding the condition of McLean General Hospital."

The report reads: "It is not the policy of this office to deliberately find things wrong with hospitals. We would much rather find hospitals such as yours as this makes our jobmuch easier and more pleasant.'

Mr. and Mrs. James Shaw and Will announce the arrival of a son and brother, Lee Jenkins, on September 24, weighing 8 lb., 10 1/2 ozs.

The paternal grandparents are Mr. and Mrs. B. J. Shaw of McLean and the paternal greatgrandmother is Mr. I.D. Shaw of Clovis, New Mexico.

Mr. and Mrs. Kerry Anderson are the proud parents of a daughter, Jessica Dawne, born Saturday, Oct. 1st. She

weighed 8 lbs. 5 oz. Gransparents are Mr. and Mrs. Kinneth Hambright of McLean and Mr. and Mrs. Bill Anderson of Pampa. Great grandparents are Mr. Arvel Guthrie of Chicota, Oklahoma, Mr. and Mrs. F. E. Hambright and Mrs. Bill Pettit of McLean.

Mr. and Mrs. Eddie Arnold are the parents. of a girl, Rebecca Kay, born September 17. Grandparents include Mr. and Mrs. Herman L. Petty of Abilene. The great - grandmother is Mrs. Luther Petty, formerly of McLean, now of Amarillo.

TIGERS DEFEAT **TEXLINE 27 - 7:** MEET MIAMI HERE

Lead by the three touchdown performance of Curtis Simpson, the Tigers beat the Texline Tornados 27-7 here at McLean last Friday night. Simpson opened up the scoring in the first quarter, ashe scored on the Tigers second play from scrimmage, on a 80 yard run. The kick after by Kennedy failed. Texline then came back and scored on an 8 yard run by John Wilhelm. The point after was good. The Tornados lead 7-6 at the end of the first quarter. Simpson then scored in the second quarter on a 1 yard run. Kennedy's kick was good. The black and gold lead at half-time. 13-7. The Tigers scored in the third quarter on a 25-yard pass from Tommy Eck to Simpson. Kennedy's point after was good. The Tigers scored in the fourth quarter on a two yard run by Sam-Haynes. Kennedy's kick was good. The Tiger defense held Texline to no points in the last half.

The Tigers had 296 total yards on offense. Simpson had 146 yards on 19 carries and Haynes had 91 yards on 15 car-

The Tigers are now 3-2 for the season and 2-1 in district 1-B play. The Tornados are 2-3 and 1-2. The Tigers will be playing this Friday night against Miami at Duncan field. Game time s at 8:00.

Seniors Sponsoring Chili Supper

The Seniors will be selling advance tickts Tuesday night for their chili supper to be held next Friday in the cafeteria from 5:00 to 7:00 p.m. Chili, dessert and drinks will be served. The Seniors will appreciate your support of their class in the coming year.

TEEN TOWN will be held each Friday night mmediately following the homefootball games. All McLean youth, single and between the ages of 13 and 22 are welcome. Any parents wishing to help sponsor are asked to contact Barbara Trew or Gwen Henley.

Mrs. Luther Pettywas dismissed from High Plains Baptist Hospital September 28 after nine days. She would be happy to hear from her fri-

The Future Business Leaders of America of McLean topped their goal of \$4000. in magazine sales last week. Brad Melton was top salesperson with over \$200. He receives a hi-fi stereo as a prize. Rachel Glenn was 2nd, winning a digital clock radio.

The club has been hard at work planning and preparing for this year's activities. The officers include: president, Steve Filison; vice president, Gina Layne; secretary, Carolyn Bailey; treasurer, Melinda Hunt; parliamentarian, Butch Cline. Voting delegates for the district and state conventions will be Brian Stokes and Butch Cline.

Mrs. Peggy Duncan of Borger, Texas, a cousin of Mr. and Mrs. Clyde Willis and Mrs. Annie Fudéy, spent last week here.

Freshman Sale Held Wednesday

This Wednesday, the auction block was busy as the seniors juniors and sophomores crowded around the galley--worn freshman were unloaded. from the slave ships. Very few plantation owners were on hand, so the bids seldom went high, but the Fast Indies student council company turned a fair profit any-

After the auction was over, the slaves were put through an ordeal that would have made Uncle Tom turn over in his cabin.

On Friday at the pep rally, a few of the slaves were awarded citations for meritable conduct. Also, to the delight of no one, a beauty contest was held for the boys who were dressed as girls and the girls who were dressed as boys.

The winners of the girls competition were Rozanna Eck and runnerup Tammy Killham. The runner-up in the boys competition was Mark Morris and the winner was Brett Simmons.

At the end of the day, all the slaves were emancipated and made

free citizens.

Meet Mr. Dorsett New Coach

The head football coach of the junior high this year is Mr. Jack Wayman Dorsett. He was born in Childress and is 24 years old. This is Coach Dor- da Dickinson, Marie sett's first year to teach and coach.

He went to college at Panhandle State University on a four year scholarship as a linebacker. He majored in health and followed when plans minored in science. This year the sixth, seventh and eight graders are all about learning science from Mr. Dorsett. He enjoys teaching very much in this stage of his career.

Mr. Dorsett's talent is not just in science. He is a very athletic person. Working very hard, he and his team, the Cubs, have had two victories. The Cubs played Groom and overpowered them 6-0. Next, determined to stay on top, the Cubs beat Higgins,

Mr. Dorsett is very enthusiastic about the year "They have im-proved 100% since we started this year," stated Mr. Dorsett.

Mr. Yakubovsky Is New Teacher

One of the new teachers and coaches this year is Coach Jim Yakubovsky. (oach Yakubovsky teaches American History and Health and coaches high school football and girls basketball. When asked his comments on this year in girls basketball, he said "Looking forward to a great year in basketball. We have a lot of enthusiasm and that, coupled with ability, will make it a success."

Coach Yakubovsky attended high school at Garden High School in California and college at California State University in Fullerton, Cali-

He and his wife, Janet, have two children, Mike five years old and Stephanie, three.

How to Lose Weight and Keep Laughing!

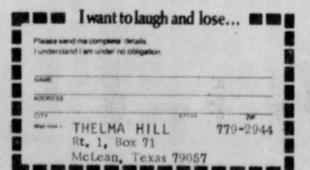

It's easy to maintain your sense of humor when you're quickly dropping unwanted pounds, inches and ...

Experiencing no hunger pangs Taking no drugs Eating meats and salads Drinking milkshakes & eating regular foods Maintaining energy & vitality

Going to no meetings Getting good nutrition Paying no monthly dues

Saving substantially on food bills

Maybe it's time you discovered why thousands are laughing all the way to the regular-size rack. They've lost up to 30 pounds in the first month! And that's no joke, What's more, they haven't suffered doing it. Wouldn't that be worth looking into?

Sorority Holds Pledge Ritual

Alpha Xi Upsilon met Tuesdy Oct. 4 for our Pledge Ritual, Our new pledges are Sue Coward, Janet Yakubovsky, Bren-Cummings, Charlotte Hefley and Suzie Lee. A special ritual for our sponsor Cheryl Smith was then given.

Our regular meeting were discussed for the Halloween Carnival to be held Oct. 29. We als. received a letter from Girlstown and the name of the girl we will spon-

The program on "Child Learning" was given by Billie Kingston. She gave some basic needs in bringing up a child.

"If you hear or read announcement, such don't panic," said Lowry. "It will explain the problem and tell you what precautions, if any, you should take. It may also tell you what's being done to remedy the situation.'

Most notices of violations of drinking water standards will not mean that your health is immediately endangered he said. The reason for this is that the limit on the amount of each substance allowed in drinking water is based on what can be consumed for a lifetime without adverse health effects. This large safety margin was built into most standards so that it won't be harmful for people to drink water exceeding some of the maximum contaminant levels for short periods of time.

"The fact that your State water agency or water supplier announce a violation of a drinking water standard is not by itself cause for alarm. It is a safety precaution required by Congress to call public attention to deficiencies in a drinking water supply," said have been known to react

LOWIV. In essence, Congress is saying through the Safe Drinking Water Act that everyone has the right to expect water that meets minimum national standards set for the protection of public health. "You have the right to be told---and your water supplier must tell you --- if your water does not meet those standards." says Lowry.

The EPA has established standards for 10 chemicals, s'x pesticides, bacteria, radioactivity and turbidity or cloudiness.

Most of these substances occur naturally in the environment and in the foods people eat. The national drinking water standards set by the FPA reflect the levels that can be safely consumed in water, taking into account the amounts of exposure from the other sources.

"Only two substances for which standards have been set pose an imme-

County Employees To Get Raises

The Gray County Commissioners Court approved a general 6 per cent wage hike for most of its 111 county employees Saturday.

However, the Gray County sheriff's deputies were approved for a \$100 per month raise, as were the three county constables, whose salaries will be \$768 per month, beginning Jan. 1.

Sheriff's deputies pay will be \$883 monthly with the exception of the chief deputy who will be paid \$937.7 per month beginning Jan. 1, 1978.

The tax roll of \$119 million assessed valuation was also approved following a presentation by Jack Back, tax-assessor-collector.

That compares with \$111 million last year, and allows for the \$3,000 homestead and over 65 exemptions.

diate threat to health whenever they are exceeded." said Lowry. "These are bacteria and the amount of nitrate found in the water.'

Coliform bacteria from human and animal wastes may be found in drinking water if the water isn't properly treated. These bacteria may indicate that other harmful organisms may be present in the water. "Waterborne diseases such as typhoid, cholera, infectious hepatitis and dysentery have beentraced to improperly disinfected drinking water," said Lowry. "If you should receive notice that the bacteria level in your water exceeds the minimum standard, follow the directions given in the notice."

Nitrate in drinking water above the national standard poses an immediate threat to children under three months of age. In some infants, excessive levels of nitrate with the hemoglobin in the blood to produce an anemic condition commonly known as "blue baby"

"If you receive notice that your drinking water contains an excessive amount of nitrate, don't give the water to infants under three months of age and don't use it to prepare a formula,' said Lowry. "Do not boil the water, as boiling will only increase the nitrate concentration. Simply read the notice you will receive and follow instructions carefully.'

Complete copies of the Drinking Water Standards are available on request from the Division of Water Hygiene, Texas Department or Texas Department of Health, 1100 W. 49th St., Austin, Tx. 78756.

CHRIST'S CHURCH 1900 YEARS AGO

Nineteen hundred (plus) years ago the church Christ was established. This was the original church. It was not: "Your church," "my church." your denomination," "my denomination," or "a denomination." It was the church that belonged to Christ with the beauty unmarred by human changes.

The church belongs to Christ because: 1. He is the builder of it (Matt. 16:18), 2. He is the purchaser of it (Acts 20:28), 3. He is the head of it (Eph. 1:22-23), 4. He is the chief corner stone in it (Eph. 1:19-

5. He is the Saviour of it (Eph. 5:23).

The church was established on the first Pentecost after the resurrection of Christ 1900 years go. (Acts 2) Peter spoke of this occasion later (Acts 11:15) and called it the "beginning". On that day the gospel was preached in the name of the risen Christ for the first time. On that day for the first time in the history of the world people were commanded to be baptized in the name of Christ for the remission of their sins. (Acts 2:38) On that day were the first additions made to the church.

The Lord crowned His church with victories: 3000 additions, 5000 . . . Men became jealous of her, persecuting her members unto death. They were "scattered abroad", but they "went every-where preaching the word" (Acts 8:4). The vicfories of the church shook the world. She had: the God for her Father, one Son for her Saviour, one Spirit for her Teacher, one Book for her guide (Eph. 4:4-6, 1 Peter 1:25; 2 Peter 1:3; Matt.

The church has survived since its establishment in the first century and has crossed oceans and continents to be the same church today that was then! The word of God is the seed of the kingdom (Luke 8:4-15) and when that Word is aithfully preached, it makes Christians only today as it made Christians only in the beginning.

The churches of Christ plead with all men verywhere to leave all man made religious bodies, man given names and man designed worship, all of which are devisive, counterproductive and condemned of God (Matt. 15:9; 1 Cor. 1:10-13; 1 Thess. 2:1-12; Heb. 6:1-6), and turn to a "thus saith the Lord" INEVERYTHING! Eternity 18 too long and precious to trust to man's inventions and guidance (Jer. 10:23; Eccl. 7:29; Matt. 25:41-46).

The unusually hot, dry weather in late September certainly helped the cotton crop mature around McLean. After looking at some of the cotton last week, I don't believe the hail caused as much widespread damage as I had first thought. In addition to prospects for a good cotton crop, the sorghum is also looking good generally so I believe McLean area farmers are going to experience a good productive year barring any

Now you notice I didn't say how much profit was going to be made. Because, that may be a horse of a different color. As cotton prices experienced a heavy loss have declined during the of leaves last May and past year, so has the opportunity to get rich need to spray their trees on this year's cotton crop. However cotton looks to make as much or more profit than most any other crop this year.

mor damaging weather.

It looks like alfalfa production will be increasing locally next year. Several farmers in the McLean and Pampa area have planted new fields of alfalfa this Fall. Visited with Les Darsey last week and looked at several new alfalfa fields coming up to a good stand in his neighborhood. Our visit was to discuss the possibility of another field day to view research results on herbicides and fertilizers on his alfalfa. We were also thinking about viewing the lovegrass fertility demonstrations, on Jim Allison. However, after inspecting the demonstration sites we decided not to have a field tour this year. There just wasn't all that much difference that could be seen. Dr. Allen Wiese and I decided that it would be better to cancel our plans until good positive results could be shown. Some of the information and data will be released as it becomes available so that local farmers can benefit from the. research and demonstration work. Earlier in the year positive results could be seen on both the alfalfa and lovegrass, but

FIRE PFEVENTION between Lefors and Mc-Lean should serve as a vivid reminder of the prairie fire potential the area faces over the next seven months. Generallv speaking everybody

this Fall very little dif-

ference can be seen on the various plots.

has grown the most grass in a long time on our rangeland. This served to help many overgrazed * ranges to recover somewhat from several dry in better range condi-

> However, farmers and ranchers need to take some precautions against range fires. Fire guards probably need to be cleaned off along roads and railroad rights - of - way. Also, sprayers should be kept in good repair and you may want to keep your sprayer loaded with water, ready to use.

Lightning can start fires, which cannot be prevented. However, man-caused fires can be prevented. Smokers should be doubly sure their cigars an cigarettes are snuffed out and preferably placed in an ash tray rather than thrown out on the ground. SPFAY PEACH TREFS

Peach tree owners who June to Bacterial Spot in late October with a copper - based spray. Control is reported to be very good with a single application of cooper hydroxide sprayed thoroughly over the entire tree. Copper hydroxide is sold as Kocide and will probably be difficult if not impossible to find in small quantities for a few trees. However, you should be able to find some type of fruit tree spray containing copper, such as copper oleate. This should also give fairly good control on next year's foliage if properly done.

ANIMAL HEALTH CON-FERENCE

Improving animal health will be the general topic at a PEP sponsored meeting on Thursday, October 13 in Amarillo at the new Research and Extension Center, 6500 Amarillo Blvd. West. The meeting will start at 10:00 a.m. and will conclude about 3:00 p.m. with a lunch break. Also included in the program will be a tour of the Texas Veterinary Diagnostic Lab located close by and producers will learn about research and how to make good use of the diagnostic labfacilities. The program should be of interest to all livestock producers and especally stocker cattle operators.

Constipation: relief without fear

The range grass fire doctors discovered some laxa-Recently a national panel of last week on Billy Davis tives were ineffective ... unreliable. But they found the single medicine in EX-LAX was effective and safe. EX-LAX gently stimulates your system's own natural rhythm — for overnight relief. Chocolated tablets or unflavored pills. EX-LAX

McLean News, McLean, Texas, October 6, 1977 Page 5 Duck, Goose Season Set

Duck and goose seasons in the eastern part of Texas open the same day this year--November 5--and close Jan. 22, 1978.

Texas Parks and Wildlife Commissioners met August 31 to set migratory waterfowl seasons and established November 5 through Jan. 22, 1978, as the season for light geese east of U.S. hwy. 81. Both light and dark geese may be hunted from November 5 through December 14 and again from Dec. 27, 1977, through Jan. 22, 1978.

West of U.S. 81 geese of all species are legal game Nov. 1, 1977 through Jan. 22, 1978.

Bag and possession the same as last year -five in the bag and five same limitations on the taking of dark geese.

Duck hunting in the High Plains Mallard Management Unit (western third of Texas) is concurrent with the Nov. 1. 1977 - Jan. 22, 1978, goose season.

ATER DISTRIBUTION IN THE ANCIENT WORLD REACHED ITS PEAK WITH THE AQUEDUCTS OF ROME. BY THE YEAR I A.P., THERE WERE NINE IN ALL WHICH SUPPLIED 200 GALLONS OF WATER, PER PERSON, PER DAY. MORE THAN FOUR TIMES THE AMOUNT USED BY AN AVERAGE AMERICAN! OF COURSE, THE ROMANS HAD NO SPIGOTS TO TURN OFF AND KNOWING A GOOD THING WHEN THEY SAW IT, THEY USED THEIR ABUNDANT SUPPLIES TO FURNISH WATER FOR THE PUBLIC BATHS, AND FOUNTAINS!

Children Need Basic Rules For Safety

There is some homework children and parents need to do even before school rally gets rolling. The Texas Medical Association says parents need to remind children each year about basic survival skills such as:

Never accept candy or a ride from a stranger.

Ride bicycles safely and make sure they are securely chained if there is a chance they will get stolen. Parents can inform children easily about bike rules by remembering that bicycles must follow the same rules cars do;

Cross streets properlimits on geese remain ly, using stoplights and crossing guards whenever possible. Parents in possession with the may want to walk to school with young children some Saturday to make sure youngsters know all the danger points enroute;

Do not hang out of school buses or throw objects out the windows.

Parents also need to do their homework to fully prepare a child for a successful year in school. These items are easier than the new math and may mean more in the long run:

Many children, especially those just beginning school, need to get a examination physical that includes a hearing and vision test. Children may think that the world looks blurred to everybody or that all sounds are supposed to be a little dim. A child can fall behind fast, struggling with a handicap nobody may know he or she has;

A good physical exam is equally important for a child planning to participate in school athletics. An exam can un-779-2447 letics might aggravate.

Job Matching Fair PUBLIC SERVICES Set For Saturday ALCOHOLIC Anonymous

Jobs continue to pour in for Amarillo's second "Texas First Job Matching Fair." Nearly 750 positions from 34 different employers including four in Perryton have been listed with the Amarillo Chamber of Commerce, one of the sponsoring agencies.

The Fair will be 9 a.m. to 3 p.m., Sat., in the Women's Gym at Amarillo College, 24th and Washington. Each employer listed with the Chamber will have a table set up in the gym and all job-seekers are welcome to come out and interview with as many of the employers as they like, according to Gene Hill, C of C industrial development committee chairman.

"Job descriptions will be posted outside the gym to allow applicants to decide which jobs they are qualified to seek, Hill said.

There are openings in the fields of education, medicine, construction, production and sales. Some of the employers have indicated they will train personnel for specialized jobs.

"There are over 750 positions available to date," according to Hill. "We only count about 750 because they will interest family breadwinners. However, there are numerous Christmas and part-time positions available at the fair in addition to the 750. We think anyone who's interested in earning a living or a little extra money, will find a position at the fair.'

The fair is sponsored jointly by the C of C, Amarillo Board of City Development, Texas Employment Commission and the Texas Industrial Commission.

Tree Seedlings Can Be Ordered

The Gray County Soil and Water Conservation District is now accepting orders for tree seedlings for wildlife food plantings and Farmstead and Field Windbreak planting.

Tree seedlings will be available in single species packets of 100 trees ket. Species available will be Austrian Pine, Green Ash, Honeylocust, Mulberry, Osage Orange, Ponderosa Pine and Russian Olive. Black Walnut, stratified seed only, will also be avail-

able. To place your order please call the Gray County Soil and Water Conservation District at 665-1751. Deadline for accepting orders will be Oct. 17 as trees will be ordered in one group. The tree seedlings should be delivered by early March of 1978.

FARMER'S STRIKE

We do not need farmers with backbone enough to start a strike, whereby one hot head can start a civil war with one wrong move. We do need farmers with backbone enough to shut down the equipment on Sunday and say Sir to God. Isiah 58:13-14.

Borderline Case

Preparing for summertime festivities, the Thompsons built a brick barbecue pit at the back end of their property. But neighbor Hanks took a dim view of the project. Checking the boundary line, he discovered that the bricks protruded several feet onto his land.

Mortified, the Thompsons offered to buy the strip of land for a fair price. But Hanks wasn't interested in money. Instead, he demanded that the structure itself be removed.

And when he carried his demand into court, the judge did order the bricks removed. The judge said Hanks could not be forced to sell a piece of his land, however small, that he chose to keep for himself.

This is the law's traditional view, when an object overlaps the boundary line onto a neighbor's property. Whether it is a barbecue pit or a gutter or a fence or a garage wall, the neighbor may usually insist an actual physical removal - rather than having to accept money as compensation.

However, removal can be costly indeed-a real hardship on the first party. In recent years, courts have shown a growing willingness to "weigh the equities" of the situation, refusing to order a removal that is plainly unjust. Take this case

A farmer was haled into court on the ground that the wall of his garage extended exactly one inch into a neighbor's farm. The neighbor demanded destruction of the wall; the court said no.

Noting the slightness of the intrusion, the court said:

"The law does not bother with

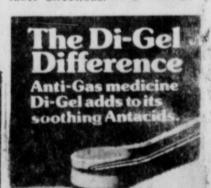

What if the intrusion is not by mistake but on purpose? That tilts the scales sharply in favor of the neighbor. Almost always, the court will order outright removal, regardless of the hardship it may entail.

In one case, a boundary line between two lots was in open dispute between the owners. One owner, without waiting for the dispute to be settled, went ahead and built a house on what he thought was his own land.

As it turned out later, his house extended almost four feet at a cost of \$20 per pac-into the adjacent lot. Here, a court ordered him to remove the house, despite the obvious hardship. The court said he could not complain of a predicament he walked into with his eyes open.

REAL Estate Broker

"THE ELECTRIC SAVINGS MACHINE"

ways energy can be saved in the home.

By improving the thermal integrity of the structure itself; by adding insulation, installing double glazed windows, reducing hot and cold air infiltration.

By installing efficient energy-saving systems and appliances.

By adopting wise use habits.

EFFICIENT USE OF FUEL RESOURCES.

The heat pump uses electricity efficiently because it can deliver as much as two units of heat for every one heat unit of electricity it uses during the heating season. The heat pump makes efficient use of fuel resources because it uses electricity for heating and cooling, and thus allows use of the nation's more plentiful fuels like coal. Southwestern Public Service is now reducing its dependence on natural gas as a fuel and is building plants that use coal to make electricity. Using fuels like coal preserves the nation's scarce petroleum resources for other uses. The heat pump saves electricity . . . and saves you money.

It's the electric savings machine!

OUR GENERATION IS FOR YOU!
