VOLUME 74

McLEAN, GRAY COUNTY, TEXAS, THURSDAY, NOVEMBER 10, 1977

NUMBER 45

McLean 4-H'er Wins Gold Star Award Winner

Two outstanding 4-H members from Gray County will be honored at the District 14-H Gold Star Award Banquet at 7 p.m. on Saturday, November 12 at the Hill Inn 1-40 East.

This year's winners from Gray County are Andy Gage, daughter of Mr. and Mrs. Rex Gage of Pampa and Deb Crockett son of Mr. and Mrs. Paul Gross and Sue Harris, District Agents of the Texas Agricultural Extension Service. The pair will be among 37 youths to receive the Gold Star award.

A boy and a girl from each of the 20 counties in the district are eligible to receive this highest county award each year. It recognizes outstanding achievement, leadership and contribution to the county 4-H program.

The event is sponsored annually by Dearborn, North Plains, Blanca, Hall and Fisher Electric Cooperatives.

Max Sherman, president of West Texas State University, will be the guest speaker. His theme is "Freedom to..."

Mike Adams of Potter County, chairman of the District 14-H Council will be the master of ceremonies. The District 14-H Gold Star Committee is the district council which will direct the program. Special guests will be parents, district leaders, Extension Service officials, county commissioners and judges, representatives of cooperatives and friends of 4-H. To qualify for the Gold Star Award a 4-H'er must be at least 13 years old, have completed 3 years of club work, and be currently active in 4-H. The award is to stimulate winners to higher achievements and to encourage young people to participate in the county program.

Blood Pressure Clinic Nov. 17

There will be a blood pressure clinic on Thursday, Nov. 17 from 2 to 4 p.m. at the Senior Citizens Building on 1st Street. Everyone is invited to come by and have their blood pressure taken.

BOB SIMPSON

BOB PRICE

Bob Price and Bob Simpson To Be In Runoff Election For Senate Seat

Voters got in ahead of the bowing snow storm to vote in the General election on Tuesday. There was a light turnout of voters. Exact figures of the votes in McLean were not available.

In the 31st District voters made it necessary to have a runoff election, which will be scheduled later, between Bob Price and Bob Simpson for the vacant Senate seat.

In Gray County Price

carried with 853 votes Simpson with 417 Brandon, 500; Phillips, 352; and Whittenburg, 207.

Only Amendments one and three passed with the rest of them failing.

In Gray County voting for the amendments were: 1. Passed 1176 to 1077 2. Failed 1162 to 1079 3. Passed 1839 to 397; 4. Failed 1156 to 1017; 5. Failed 1574 to 526; 6. Failed 1385 to 782; 7. Failed 1287 to 836.

McLean Farmers On Amarillo Events Governors Committee Are Scheduled

Fifteen agriculture leaders from Gray County have been appointed by Governor Dolph Briscoe to serve on the Governor's Committee to Make Texas Agriculture No. 1 in Income and Profit.

Committees are being established in every Texas County as part of the statewide effort "to strengthen the economic position of agriculture--our most vital industry," Governor Briscoe said.

The County committees have the responsibility of promoting cooperation and mutual support among agencies, organizations and groups involved in agriculture and agribusiness.

Committee members from the McLean area include: Mr. Joe Magee, Mr. Tony Smitherman and Mr. James Shaw.

During November the Amarillo Chamber of Commerce will host two major events which will feature free public admission.

The 1977 Old Time Ropers Finals will be Nov. 11-13 in the Bill Cody Arena at the Tri-State Fairgrounds.

The Sixth Annual Arts in Action Exhibit will be Nov. 19-20 at the Amarillo Civic Center.

Both events are expected to draw participants from throughout Texas, New Mexico, Oklahoma, Colorado and Kansas. Over 300 cowboys are expected for the roping finals while over 100 artists are participating in the Arts in Action exhibits.

The Old Time Ropers Finals is open to cowboys over 45 years old and the go-rounds are broken into two classes 45-55 years old and 55 years old and up. There are four types of go-rounds in the finals: tie down calf roping, break away, ribbon tie roping and team roping. Teams consist of two riders.

The Arts in Action Exhibit will feature artists and their works in both arts and crafts fields. The two-day event will climax with awards given in the two major categories. Within the arts category awards will be presented for the best oil painting, water color, graphics, photography and sculpture. In the crafts

Co. Health Fair Planned For November 15

A Health Fair will be held Tuesday, November 15 from 10:00 a.m. - 6:00 p.m. in Pampa at the Texas National Guard Armory (Highway 60 east). This is a free educational activity for all ages.

Exhibits, films and health information will be included in the day's activities. There will be free screening for blood pressure, diabetes, T. B., glaucoma, amblyopia height-weight and adult immunizations.

The following will have exhibits: March of Dimes, Texas Rehabilitation Commission, Epilepsy, Heart Association, Health Careers, Child Abuse, Muscular Dystrophy, Lions Club Eye, Ban, Muscular Sclerosis, Shriner's Burn Center, PedCross, Planned Parenthood, Arthritis, Family Services, Lamaze, Social Security, Library Alcoholism, Dental Health, Venereal Disease, Emergency Medical Services, Nursing and Convalescent Homes, Environmental Consumer Health, Meat Inspection, Zoonosis, Health Education, Medical Screening, Health Planning and Programming and Food Safety.

Free transportation will be provided in Pampa for handicapped or over 60 by the Community Action Program-Senior Opportunity Services. Anyone needing transportation should call the Pampa Senior Citizens Center, 669-7414. A van will make hourly runs to provide transportation to the Health Fair.

Those attending the Health Fair will receive a Health Resource Guide. Exhibits will also feature educational pamphlets. There will also be resource people available to answer questions.

The High School Vocational Classes will have a concession stand for those coming during the lunch hour.

The Health Fair is an educational activity sponsored by the Gray County Program Building Committee of the Texas Agricultural Extension Service. It is free and everyone is invited to attend.

Millie McNear is a patient in a hospital at Shattuck, Okla.

awards will be given for the best work, textiles, jewelry, pottery, metal and miscellaneous work.

License Important Piece Of Paper

Apparently a few Texas hunters have forgotten to purchase their new 1977-78 hunting license as citations continue to be issued afield by Texas Parks and Wildlife game wardens.

The Texas hunting/fishing combination license, the regular hunting license, and the fishing license is valid from Sept. 1 1977 through Aug. 31 1978. The P&W is reminding hunters preparing for the upcoming seasons on quail, deer and turkey except that: persons under 17 or over 65 years of age persons hunting on land where they reside or disabled veterans may hunt deer or turkey if a holder of the \$1.25 resident exempt hunting license.

All of these Texas licenses contain deer and turkey tags which must be filled out and attached to the deer and/or turkey carcass immediately upon possession by the hunter.

To qualify for the resident license, an applicant must have been residing in Texas for more than six months immediately preceding application for a license. Members of the Armed Forces with proof of assignment on active duty at any federal installation within the state for a period of more than 30 days may purchase a resident license.

A non-resident small game hunting license will allow out-of-state hunters to participate during the legal season for quail pheasant, and other small game.

The non-resident general hunting license will allow out-of-state hunters to hunt all legal species of game including small game, deer and turkey.

Tigers Finish Season 5-5

The Tigers defeated the Higgins Coyotes 3-0 last Friday in their last game of the season. It was a hard fought battle the whole game.

The Coyotes came out fired up the first quarter and were that way the whole game as it was their homecoming game. The Tigers fought to a scoreless tie the first-half.

The black and gold moved the ball the whole first half but were stalled by penalties. The Tigers came out in the second-half and it was the same story as the first-half until the last quarter when they drove down to the two yard-line and were stopped there so Andy Kennedy kicked a 21 yard field goal with 1:21 seconds left in the game. The Tigers then held and won the game 3-0. The Tigers finished their season with a 5-5 record.

Art Show - Sale Is Planned In McLean Nov. 18-20

A group of McLean art students are learning a new fast oil painting method that is becoming so popular over the southwest.

Virginia Taylor, art teacher who is teaching this method, is planning a art show and sale of her work and students work all day on the 18th, 19th and 20th of this month in the Young at Heart building. The show will close about 5:30 or 6 p.m. each day.

There will be a demonstration of this technique that might be of interest to artists of McLean on Saturday, November 19, beginning at 1 p.m.

The public is invited to come to this show.

Billy Wilson is proud of his baby brother, Kenneth Leighton born Saturday Nov. 5th at 2:18 p.m. Parents are Bill and Cindy Wilson of Skellytown. Grandparents are Mr. and Mrs. Coit Wilson of Lynchburg, S.C. and Mr. and Mrs. Earl Brooks of McLean.

Johannes Gutenberg, the father of printing, was originally a goldsmith.

Mr. and Mrs. Brad Parker and Derek of Midland proudly announce the birth of Mindy Leigh November 2. The little lady is 18 inches long and weighed 5 lbs. 2 1/2 ounces. Mindy is also welcomed by grandparents Mr. and Mrs. R. C. Parker and Mr. and Mrs. R. L. Brown; her great-grandmother is Mrs. M. E. Brown, all of McLean.

CATTLE MARKETING
We had a real interesting cattle marketing Short Course last week with Dr. Ernest Davis. Several farmers and ranchers are playing a computer game to learn how the futures market operates without having any real money involved. It will be interesting to see who turns out to be the winner after about a month.

Dr. Davis also gave the group his outlook into the future on cattle prices. He believes that in the second quarter in 1978 that we will see cattle prices start up on a strong basis, especially if good spring rains come to lots of the drought stricken areas of the county. He reports there has been an unusually large number of cows that have been shipped to market this year because of dry weather in many sections of the country. This in turn should add strength to the market next spring when people want to restock their pastures. He does predict there will be price weakness during the first quarter of 1978 as the large number of feedlot cattle placed this Fall become ready for slaughter.

PESTICIDE CERTIFICATION
Cattlemen wanting to buy M-4 units and ammunition to control coyotes on their property have to receive a certification of training as I understand. These are similar to the old "coyote getters" but are a lot safer to use but under new regulations, users of the M-44 units have to become "certified" in the safe operation of the M-4 before you can buy additional ammunition.

The Texas Department of Agriculture should have a certification program ready to be viewed in the near future. If you are going to need to receive this certification on the M-44 use please call the office, 669-7429

so we will know who and how many will need this type of assistance.

Also on the subject of Certification as a private applicator (farmers) we have tentatively made plans to have another meeting on December 6 7:00 p.m., Courthouse Annex Pampa. This meeting would be for farmers to receive the training necessary to become certified as a "Private Applicator" so they can purchase restricted use pesticides.

FORCING SPRING BULBS

As you select spring flowering bulbs, set aside a few choice bulbs for indoor forcing.

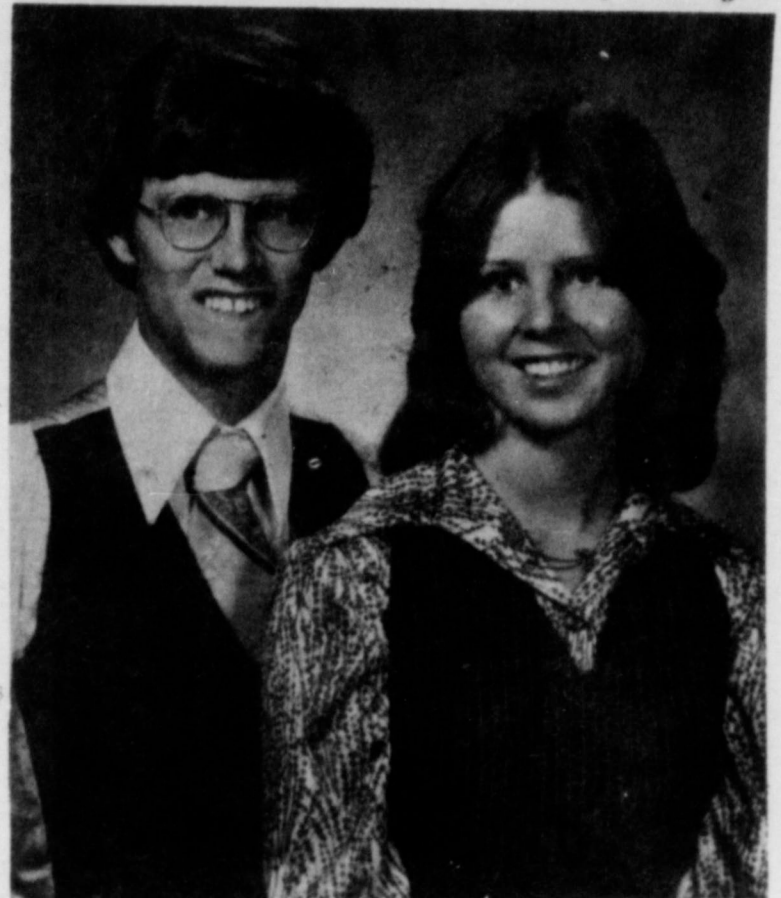

Bulbs good for forcing include crocus grape hyacinths, daffodils, tulips and hyacinths. Blooms from these bulbs can brighten the indoor landscape during the long, winter months.

Put the bulbs as soon as they are selected. First place a one-inch layer of gravel in the pot. Then add a soil mix of equal parts of soil, peat and sand. Firm the soil around the bulbs, leaving the tips of large bulbs showing above the surface. Barely cover small bulbs and space them about one-half inch apart in the pot.

Store newly potted bulbs at a temperature of 40 to 50 degrees F. The vegetable drawer in the refrigerator provides excellent conditions. Success with forcing bulbs depends upon their developing roots during the cold storage period. Keep the soil moist but not saturated. In six to ten weeks the bulbs should have made adequate root growth and should be ready for forcing.

After the cold storage treatment, first place the bulbs in a cool, semi-lighted location and then gradually move them to a sunny area to good growth and color. Be careful not to allow them to dry out at any time during the forcing period.

Most bulbs will be in flower by January or February. By purchasing pre-cooled or pre-treated bulb you will have blooms by Christmas.

TIMOTHY HOELSCHER AND MARLINDA HOWARD

Marlinda Howard Makes December Wedding Plans

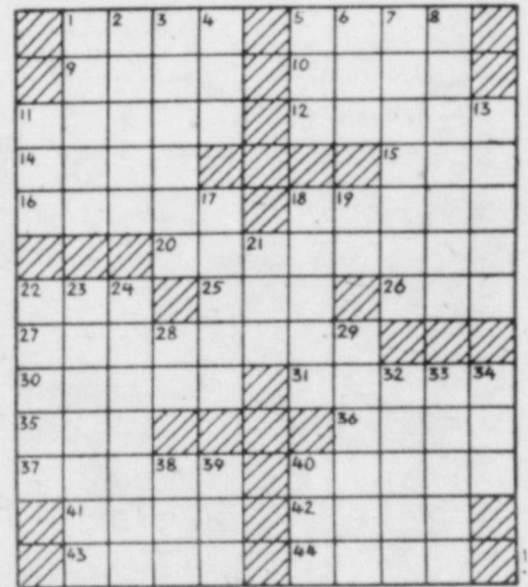

Mr. and Mrs. Harris E. Howard of Groom announce the engagement of their daughter Marlinda Kim Howard to Timothy R. Hoelscher, son of Mr. and Mrs. Melvin G. Hoel-

schler of Amarillo. Miss Howard is the granddaughter of Mr. and Mrs. Frank Howard of McLean and Mr. and Mrs. Cleo Heasley of Amarillo former McLean residents. A December 30th wedding is planned.

Many people have believed they could make rain by imitating thunder.

Tigers Begin Basketball Season

by Becky Bowen
The Tigers are hanging up their cleats and putting on their tennies. The basketball season opened last Tuesday. The girls have worked hard all year getting ready for the season. The boys, just finishing football, haven't had a lot of time for basketball practice but are ready for the season. The first game of the year for boys and girls Varsity teams was Tuesday at Hedley.

Tigerettes Name Team Captain

by Leisa Gabel
The McLean High School Tigerettes voted on basketball team captains for the varsity and junior varsity last Thursday.
Varsity captains for this year will be Melinda Hunt and Gina Layne.
For the Junior Varsity Tigerettes, Elaine Bentley and Ann Skipper were voted as captains.
These captains will help lead the Tigerettes on to a victorious season this year.

Seniors Recognized At Pep Rally

by Sandra Keeton
Last Friday afternoon was a sad time for the Seniors of McLean. It was the last pep rally that many of them will have the privilege of being able to take part in. Eight Senior boys were recognized. These gentlemen include Butch Cline, offensive guard and defensive down lineman; Sam Haynes, running back and line backer; Randy Kennedy, kicker, center and down lineman; Jeff Matheny, defensive end; Scott Raines, defensive tackle and down lineman; Curtis Simpson, running back and line backer; Ricky Steele, special team kickoffs, punts and field goals; and Carter Trew wide receiver and linebacker. Each were awarded a cake with their name number, and a football player made of icing.
Senior girls that were recognized include cheerleaders Leisa Gabel and Robbie Turpen; members of Pep Club, Melinda Hunt and Brenda Heasley team mascot, Tonue Hathaway; and band members, Jodette Swamer and Gina Layne. Each were given a black and gold corsage.
The pep rally came to an end with the joining of hands in a large circle singing "That Goo Ole Tiger Line." Many sad faces and tear-filled eyes left the gym-

Cubs - Cubettes To Begin Season

by LaDonna Keeton
The fighting Tiger Cubs and Cubettes, under the direction of Coach Dorset, will start the basketball season tonight. The game will be at Miami, beginning at 4:00. The teams will play four games consisting of two girls games, A and B; and two boys teams A and B. All the players are looking forward to a great season and are hopeful for a district championship. Coach Dorsett said "I have never coached or played basketball before and I learn something new everyday."

FBLA Officers Are Installed

On Monday, October 10, members of Clarendon College Phi Beta Lambda performed the annual installation of members of McLean High School Future Business Leaders of America is the high school division of Phi Beta Lambda and operates under the name of Future Business Leaders of America-Phi Beta Lambda, Inc. Both divisions consist of students enrolled in business programs and are dedicated to developing the qualities of proper leadership.
The candle light service conducted at the McLean Church of Christ Annex was performed by Roy Monroe (chapter President) and Sandra Veal (secretary) of Clarendon Pam Dallas (treasurer) of Pampa, Teresa Mounce of McLean, Kathy Butler (reporter) of Panhandle, and Cheryl Easley from Estelline.
The officers of the McLean Chapter include: Melinda Hunt, treasurer; Carolyn Bailey, secretary; Gina Layne, vice-president; and Steve Ellison, president. One of the officers was not able to attend the ceremony and that was Butch Cline, parliamentarian.
Phi Beta Lambda is an affiliate organization of the division of business at Clarendon College.

Tigerettes To Play First Home Game

by Gina Layne
The McLean Tigerettes scrimmaged the Happy Cowgirls last Saturday at Happy. After five quarters of play the Tigerettes Varsity won by a score of 70-63. The junior varsity also played five quarters but lost 27-23.

Said Coach Yakubovsky of the varsity scrimmage, "I was pleased with the overall team play. Everyone worked as a team. For being the first game situation of the year, we worked the ball well. But we have to improve in several areas if we are to be district contenders. I was especially pleased with the low number of turnovers by both the guards and the forwards."

Junior varsity teams are playing full court this year instead of the traditional divided court. Concerning the scrimmage Coach Yakubovsky said, "The JV started out slow. We had a bad case of nerves. We didn't score a point the first quarter but were within one point at half-time. After they settled down their conditioning and hustle played a role in us coming back. Although we didn't win, I feel with a few breaks going the other way, we easily could have."

The Tigerettes first home game will be tomorrow at 6:30 against Wheeler Christian Academy.

Study Club Meets At Local Library

The Pioneer Study Club met Thursday, November 3 at the Lovett Memorial Library with Nancy Billingsley as hostess.
The president, Molly McDowell conducted the business meeting and the annual gift to Girlstown was discussed.

Nancy Billingsley presented the program on Indians in southwestern Colorado, Arizona and New Mexico. She reviewed "Anasazi the Ancient Ones" and also showed the film "The Mystery of Mesa Verde."

Members present were Fayette Barton, Nancy Billingsley, Edna Merrill, Mary Woods, Irene Pagan, Judy Orrick, Doris McElroy, Molly McDowell, Ruth Magee, Mary Lowder, Clara Hupp, Mary Lou Glass, Bonnie Faban, Mary Dwyer and Katy Graham.

Energy cannot be created or destroyed. It can only be changed from one form to another.

The first policewoman was Alice Stebbins Wells, a member of the Los Angeles Police Force in 1910. Her chief duties included enforcement of laws concerning dance halls, skating rinks and penny arcades.

astium. Goodbye football season we're going to miss you.

Hunting Forecast Looks Good

Good crops of quail, turkey and deer are being reported across northwestern Texas from Dalhart to Abilene and sportsmen will find plenty of cover with adequate moisture in most areas of the Permian Basin although some counties in the Panhandle are still dry.

"We will need some general rains in the Panhandle or face the possibility of fire hazards in the field," said Weldon Fromm, Amarillo district supervisor.

Quail season begins Nov. 12 and continues through Feb. 12, 1978 with a daily limit of 12 birds and a possession limit of 36 birds. This daily limit will include both bobwhite and scaled quail or a combination of both bagged during the 90-day season.

"The South Plains has received some good rains and a good crop of birds are being reported in the Childress area," said Bill Pratt, Lubbock district supervisor.

Turkey season is the same as the deer season in Texas and large broods of young turkeys are being seen in all the turkey habitat except the Canadian area of the

Frank Phillips To Have FFA Leadership Contest

The Frank Phillips College departments of agriculture animal health and welding will sponsor the annual Area Future Farmers of America leadership contest Nov. 15 at the Bunsavista vocational campus.

Approximately 200 area high school students will attend the contest, representing 16 area high schools.

The contests will begin at 8:30 a.m. and continue until 4:30 p.m. Students will compete in farm skills chapter conducting, farm radio skills, and an FFA quiz.

FPC Aggie - Rodeo Club members will serve as contest score tabulators and leaders under the direction of Jim Daniels head of the Borger High School agriculture department.

Names of the winners will be announced at the Amarillo District FFA banquet, at a date to be announced.

Panhandle. The Panhandle deer/turkey season is Nov. 19-Dec. 4 with a 1 mule deer buck and a 1 white-tailed deer buck limit along with 1 turkey gobbler or bearded hen.

The wide variety of hunting seasons and daily bag limits in Texas requires the sportsman to check the new 1977-78 Texas hunting guide prior to the season. These guides are available at all license vendors and P&WD offices and contain valuable information on hunting rules and regulations along with license requirements.

Everyone hunting deer and/or turkey must have the necessary tags including those hunters under 17 and over 65 years of age. Hunters not required to purchase the regular hunting license can purchase an exempt license for \$1.25. Both the regular and exempt Texas hunting license contain the deer/turkey tags which must be filled out and attached to the deer/turkey carcass upon possession by

the hunter.
Legal shooting hours for all game birds and game animals are one-half hour before sunrise to one-half hour after sunset.

Game birds and mammals may be stored indefinitely but if a shipment of these game carcasses is necessary, affidavit must be attached showing that the game was legally bagged.

The seasons above are for regulatory counties in northwestern Texas hunters should check with Texas game warden or the hunting guide for non-regulatory seasons in Dickson, Foard and King counties.

The Basis of Religion

It may seem strange to hear that one of the most dangerous enemies of true Christianity is the emphasis which is placed upon emotion in religion, nonetheless it is true! There is nothing wrong with emotion, with feeling, for we are as God made us. But, just as in every other phase of life, God expects us to control our emotions by faith; by understanding of His will, and a determination to follow His will in all things. "For we walk by faith, not by sight" (2 Cor. 5:7). "Faith" is the product of hearing and believing God's Word (Rom. 10:17). Therefore, God intends that we should believe and practice what His Word teaches, and control our emotions to the extent that we feel good about submitting to His will. When there is a conflict--as there inevitably will be--between REVELATION (i. e. God's Word) and EMOTION (i. e. that you "know in your heart") REVELATION is to be the final authority. The Bible proves "casting down imaginations, and every high thing that exalts itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ (2 Cor. 10:5). Note carefully the comparison in that passage between "imaginations" and "knowledge".

How often we have heard good people say, "I know I am right, because I feel it in my heart." This statement is usually accompanied by a gesture on the left chest area, an action which is, without question, simply an easy form of self-back-patting! What right does anyone have to assume that, because he-she-you-I FEEL right, God automatically approves? The Bible plainly tells us that God's thoughts and ways are higher than ours, are not synonymous with our thoughts and ways (Isa. 55:8-9). Approving of oneself is not a sign of DIVINE approval (2 Cor. 10:18). In fact, to justify our religious beliefs, commending ourselves is strictly forbidden, as God's word supplies us with a "rule" by which all things (including our emotions) are to be measured (2 Cor. 10:12-13).

As human beings, our emotional responses are determined by those things we have accepted as true (yet which can very well be false). When Joseph's brothers led their father to believe that Joseph had been killed by a wild beast they were lying. But Jacob believed them, and spent the next twenty-one years mourning a son who was still all the time (Gen. 37:33-35). Did the fact that Jacob was misinformed make his grief any less real? Of course not! His emotional response was based upon the things he accepted as true. In the same way, we can have a perfectly sincere emotional response in religion which is utterly false simply because we have accepted for the truth that which is false. Thus the need for knowledge govern our emotions.

Emotion has its place, in religion as in all other areas of life. But we ought not to assume we are right because we feel good; we should rather feel good WHEN WE KNOW, FROM GOD'S WORD, that we are right and therefore please to Him.

AUTUMN TREAT—Nothing characterizes the fall season like pumpkins, and the Texas Department of Agriculture home economist has combined that delicious item with Texas pecans to create this perfect Thanksgiving dessert. Made partially from a mix, this pumpkin-nut cake couldn't be easier.

From the TAP Kitchen

Texas Department of Agriculture-Reagan V. Brown, Commissioner

PUMPKIN-NUT CAKE

- 1 pkg. two-layer spice cake mix
- 1/2 tsp. baking soda
- 1 cup milk
- 1 cup mashed cooked pumpkin
- 2/3 cup chopped pecans
- 1/2 cup finely snipped pitted dates
- 1 Tbsp. light molasses
- 1/4 tsp. ground nutmeg
- 2 cups frozen whipped dessert topping (thawed)

In large mixing bowl combine cake mix and soda; add milk and pumpkin. Blend at low speed of electric mixer until moistened. Beat at medium speed for two minutes. Fold in nuts and dates. Pour into two greased and lightly floured 9 by 1 1/2-inch round pans.

Bake in 350-degree oven for 25 to 30 minutes or until cake tests done. Cool; remove from pans. Cool completely on racks. Gently stir molasses and nutmeg into whipped topping. Spread between layers and over top of cake. Chill cake several hours before serving.

For additional recipes write Commissioner Reagan V. Brown, Texas Department of Agriculture, P.O. Box 12847, Austin, Tex. 78711.

paid for grades higher than 37 or staples longer than 37. Growers received an average of \$67 per ton for cottonseed.

About 11,700 samples were classed at Memphis for the week ending Friday, November 4 bringing the season's total to 16,900. The Memphis office had not yet opened as of this date last year.

White grades accounted for 40 percent of the week's classing, while light spotted grades made up 58 percent. The predominant grades were 32 with 39 percent and 31 with 26 percent. Major staple lengths were 32 with 46 percent and 31 with 30 percent. Micronaire readings were in the desirable range on 82 percent of

the samples tested. Ten percent miked 5.0-5.2 and six percent miked 5.3 and above. Average pressley for the week was 87 pounds per square inch.

Look closely at contracts and gifts, says Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. If you must listen to a sales pitch or make a purchase first then it's not free. In any "give-away," look for strings attached, the specialist says.

Catherine Bailey is a patient in High Plains Hospital in Amarillo this week.

A very REFINED Gentleman OR how NORBERT RILLIEUX was the original Sugar Daddy.

On August 26, 1842, Norbert Rillieux put a patent on a sweet idea. It was a way to refine sugar. To help the sugarcane juices evaporate more quickly, he enclosed condensation coils in a vacuum chamber. A process that's made things a lot sweeter ever since. You can make your future a little sweeter, too, by buying U.S. Savings Bonds through your Payroll Savings Plan. They're the dependable way to save for an education, vacation, or even retirement. Because they always pay off with interest. So buy U.S. Savings Bonds. And be a "sugar daddy" in your spare time.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Answers ON HEALTH

Texas Department of Health
Fratris L. Duff, M.D., Commissioner

Most people know carbon monoxide as a deadly, odorless, tasteless and colorless gas that comes from automobiles--and that it can kill you.

They forget, however, that the same carbon monoxide can also be by-product of a roaring fire in your fireplace or a heating unit in your home, says the Texas Department of Health.

"It's really a year-round threat but the most hazardous time is during the cold months when homes and businesses are closed up tightly against the weather," said Horace F. Adrain, engineer-administrator with the Occupational Health and Radiation Division. "In closed-up areas you can't depend on leaks around doors or windows to bring in fresh air."

"In places with a source of carbon monoxide you've got to in-

roduce fresh air constantly to keep up a positive pressure to stale air will be pushed out of the building through ventilators," he said.

The first northers of the fall have brought cold weather to Texas, and it is cold enough in many parts of the state for heating units and gas stoves to be brought back into use again.

Every owner of a new home should have the heating system checked by a skilled maintenance man before turning on the heat. Older homes may need an annual check also.

"Too many cases have been found of faulty installations, either in the heating unit itself or in duct work," said Adrian. "If the testing isn't done correctly, a burner may not operate at full capacity and it will give off excess amounts of carbon monoxide. Many deaths have occurred in Texas from seemingly

small mistakes."

With Texas beginning its fall and winter hunting season, hunters should check ventilation in their stoves and should examine smokestacks and chimneys to be sure they aren't blocked up. Birds or animals could be nesting in them.

Of special concern to health and safety experts are the catalytic heaters and other unvented heaters used in tents and campers. They can and do produce deadly carbon monoxide fumes. Several deaths occurred in Texas last year during extremely cold weather when hunters left fires burning overnight.

In some air conditioned warehouses where gasoline-powered forklifts are used to move heavy materials carbon monoxide has been found at dangerous levels. This same problem has been found in garages, both in summer and winter, when automobile motors are left running for tests. Enclosed parking garages and drive-in banks also have proved to be sources of trouble. In times of rush hour traffic, carbon monoxide levels have been found to increase drastically at street levels.

What can you do to protect your home?

First, make sure the damper is open before lighting your fireplace. Have your gas refrigerator service-checked annually even though newer models have improved control systems. All furnaces, regardless of fuel type, should be checked and properly vented to the outside. Combustion-chamber leakage is a serious hazard, particularly if the heating unit is old. All individual room-type gas heating equipment should be vented. Don't use your gas cooking range for heating either, safety experts say.

Automobiles and trucks, as well as other gasoline engines, should not be run long inside--even with the garage doors open. A charcoal grill or hibachi should be used outside--not inside.

While carbon monoxide poisoning is sneaky, there are recognizable symptoms to alert you.

Early symptoms of carbon monoxide poisoning include yawning, headache, nausea, dizziness, ringing in the ears and even abdominal pain. Difficulty in breathing and unconsciousness quickly follow. The victim should get fresh air immediately and should be kept lying down and warm. A physician should be called promptly and oxygen or an oxygen-carbon dioxide mixture should be given.

At least 1,400 deaths are attributed to carbon monoxide poisoning in the United States each year. Texas had 148 deaths in 1976. More than 10,000 persons nationwide are poisoned by carbon monoxide. Those not killed may suffer temporary or permanent damage to the brain, with serious disturbances of vision, hearing, speech and memory.

Carbon monoxide poi-

FFA Leadership Contest At C. C.

On Monday Nov. 14 Clarendon College will be the site for the Annual FFA Leadership Contest of the Top-of-Texas and Greenbelt FFA Districts.

The leadership contest will be divided into two chapters, a Junior and Senior Chapter, within each district. FFA members will compete in several areas that include Farm Radio Broadcasting, chapter conducting and farm skills.

The contest will be held from 9 a.m. to 2:30 p.m. followed by an award ceremony in the Harned Sisters Fine Arts Center of the college.

Natural Gas Price Is Up

State Comptroller Bullock said that reduced and sold in Texas crept upward 19 percent during the first half of fiscal 1977.

During that same period (Sept. 1 1976-28, 1977), Texas-produced natural gas sold to Texas purchasers was more than twice as much as buyers from out-of-state, Bullock noted.

An analysis compiled for "Fiscal Notes" monthly financial statement published by the Comptroller's Office shows that the price of all Texas natural gas averaged 81.1 cents per thousand cubic feet (mcf) for the six-month period.

This is 11.8 cents more than the price of 69.3 cents per mcf for Texas natural gas.

The average price of Texas-produced natural gas to in-state buyers during the six-month period was 97.1 cents per mcf. This is 19 percent over the 81.5 cents per mcf average for in-state sales in fiscal 1976.

At the same time, the price of out-of-state purchased Texas-produced natural gas paid an average of 46.8 cents per mcf during the first six months of fiscal 1977.

Natural gas production for the six-month period totaled 3.73 billion cubic feet, according to the Comptroller. Slightly more than two-thirds of this gas was sold in-state.

The financial report also shows that state expenditures for the fiscal year which ended August 31 totaled \$1.1 billion. Revenues for the year totaled \$7.36 billion.

This year's contest will be coordinated by Jerry Hawkins, Chairman of the Department of Agriculture at Clarendon College.

You and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: The deed restrictions for our subdivision say they will be binding for 25 years. Is there any inexpensive way the restrictions can be amended before 25 years if a majority of the homeowners are in favor of it?

A: It would appear that any amendment to the deed before the end of 25 years would have to be by 100 percent agreement of all land holders and then filing the changes in the deed restrictions. After 25 years, a majority would be sufficient.

Q: My son lived with a girl and took care of her and her son for around three years. When she became pregnant, he helped her get a divorce from her previous husband and then married her. He purchased a house several months before they married. Now, she's left my son, and it looks like they are heading for a divorce. My question is this: How much claim has she on the house?

A: If your son purchased the home prior to his marriage, it is his separate property. However, his wife may have a claim to one-half of any community funds which have been used in payments or improvements on the house.

Q: Before my marriage, I bought a home with funds I inherited from my grandfather. We're moving to another city, and I'm interested in having the proceeds from the sale of the house kept separate because my wife and I are experiencing some personal problems.

How can this be done, and how can my original equity be kept from becoming community property if it's used to buy a new home?

A: A spouse's separate funds used to purchase a home may be kept separate from the couple's community funds. This is when the home is sold by having the sale proceeds paid directly to the spouse and then depositing them in a separate account. The separate identity of these funds can be maintained, if used to purchase a new home, by a provision in the deed.

Q: My wife and I are planning on buying a new house that is presently under construction. The builder promised us he'll complete the house in 90 days if we'll sign the purchase contract. How can we protect ourselves and make sure he keeps his promise?

A: A promise for a particular completion date should be included in the written purchase contract. Further protection could be achieved by insisting that a damage clause be included in the contract to provide for alternatives in the event he failed to meet the completion deadline. Your lawyer could draft the damage clause to either give you the option of rescinding the contract or, collecting damages for the contractor's breach of promise.

Send your questions to "You and the Law," State Bar of Texas, P. O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.
