

'Youngsters' on Wedding Trip

VISITORS--Mr. and Mrs. W. O. Carr of Sun City, Ariz., are visiting here with Mr. and Mrs. Frank Davis. The couple were married in November and are making a trip this summer visiting relatives over the nation.

Plainsman Photo

A combined total of 114 years of marriage is the foundation Mr. and Mrs. Warren O. Carr had when they exchanged wedding vows last November in Phoenix, Ariz.

Mr. and Mrs. Carr are her visiting with Mrs. Carr's nephew and wife, Mr. and Mrs. Frank Davis.

Carr was 88 and the former Mrs. Edna Ford was 83 when they married Nov. 29.

They are spending the summer visiting relatives and children throughout the United States. They plan to visit in Pampa, San Angelo, Oklahoma City, Wichita, Kan., Shelby and DeMoines, Iowa and Ottawa, Ill., before returning home.

In 1904 Carr saw Orville Wright and one of his first airplanes flying at Peoria, Ill. He has always been interested in airplanes, but the flight from Phoenix to Amarillo was his first flight.

"When I told the ticket agent about seeing Wright fly

and this being my first flight, he called the pilot of our plane and introduced us," Carr said.

The active senior citizen jokes about his marriage to the former Mrs. Edna Ford. "I made a Carr out of a Ford."

Mrs. Carr was a pioneer teacher and music teacher in Miami and Pampa before moving to Arizona. She and her family moved to Miami in 1898 and on to Arizona in 1916.

Carr first went to Arizona in 1911 and bought some land just south of Glendale. He went back to Illinois and worked until 1919 to pay for the land.

He is no stranger to this area having worked as a railroad fireman as a young man, he was in Dalhart, Weatherford, Okla., and Amarillo several times.

"I was in Amarillo in 1902 and it was nothing but a little dirty cowtown," he recalls.

After he lost his job with the

railroad while working in Dalhart, he went back to Illinois and became an engineer in the electric power plants.

Mr. and Mrs. Carr live in Sun City, Ariz., a city of retired couples. They are both very active in politics and church activities.

"We go to the United Church of Sun City. It has 1400 members from 42 different denominations. We have Catholics, Baptists, Methodist and everything," Mrs. Carr says, "and we all work together."

Carr, an avid reader who wears glasses only occasionally, is an active and hardcore Republican.

"I voted for Wilson to keep us out of war, and have been kicking myself ever since," he states.

He still works in the Arizona Republican party. He does not think much of the present path the country is taking.

Mrs. Ford says there is never a dull moment in Sun City. There are all kinds of group activity, games, golf, lessons in art and most anything one might want to study.

The newlyweds had known each other for many years before they married. They went together for a long while before getting married.

"She knew both of my wives before they died," Carr said.

Carr says his W. O. initials stand for "worn out", but with the couple's interest in everything that is happening and the travel schedule they have planned; the name does not fit.

SMASHED GRAINERY -- This metal grainery on the J. P. Vernon place southwest of Spearman was blown about 200 feet and smashed in a county road. This was done Thursday afternoon.

Plainsman Photo

Wind, Rain, Hail Damage Area in Friday Night Storm

Windstorms, rain and hail-Thursday afternoon and Friday night damaged buildings southwest of Spearman and left one farmstead isolated.

The heaviest storm hit 14 miles southwest of Spearman about 7 p.m. Friday. Different persons described the storm as a "freak windstorm" and others as a tornado not quite on the ground.

At the J. B. Buchanan farm a grainery was blown over and moved several feet on one corner. Buchanan's cesspool caved in, and branches were broken off trees.

"I thought the windmill was going over, but it leaned about ten feet, then straightened up", Buchanan said.

A 30-foot trailer house at

the Tom Jarvis farm was wrecked. It was picked up

Son To Return From Viet Nam

Major Robert E. Ley, son of Mrs. C. C. Miller of Spearman, is enroute home from Viet Nam.

Major Ley has been in combat in Viet Nam as a military advisor and was hospitalized for several weeks.

Mrs. Miller said she did not know if he was hospitalized for a wound or illness, since he never did tell her.

Major Ley is a graduate of West Point.

and slammed down about 100 feet from where it was parked. The trailer was owned by Joe Tremmel of Portales, N.M. The harvest crew was not in it when the storm hit.

Three limbs were broken and powerline broken at the Ira Harbour farm.

The TV antenna was knocked down at Jarvis and the roof of his house damaged. The water poured in his house and damaged the sheetrock ceiling.

"We got in our car to leave," Tom Jarvis said. "The wind started bouncing the car around, so we came back to the garage. About then we saw the trailer house hit the ground. We were afraid the men were in it."

A windmill was blown down about a mile west of Ira Harbour's.

The T. I. and Monte Harbour homes are cut off on three sides by high water from a lake. The roads leading to their houses are under several feet of water.

Before the phones went out Friday night Harbour told Tom Jarvis that the water was up to the houses, but not in them Saturday morning water was pouring into the lake from a wide area south of Harbour.

Thursday afternoon a wind hit the J. P. Vernon place six miles southwest of Spearman and destroyed a metal grainery. The structure was blown over a fence and smashed on a county road.

Vernon said the grainery went about 200 yards.

Vernon and Bill Sheets were in a pick-up at the farm when the storm hit.

"It sounded and felt like someone hit the pick-up in the rear when the storm hit. The wind was blowing so hard it forced rain in around the windows of the pick-up.

Two powerline poles were blown down Friday night just north of the 14-mile intersection on Highway 15 and knocked out power in that area. Telephones were also out Saturday morning.

Major Vaughn Gets Commendation Medal

Major Robert E. Vaughn, Jr. was awarded the Army Commendation Medal upon his transfer from the Army Photographic Agency to the Army Intelligence division.

Vaughn is the son of Mr. and Mrs. Bob Vaughn of Spearman.

The presentation was made by Major General David Parker Gibbs, Commander of the Army Communications and Electronics Headquarters. Ceremonies were held in the Pentagon in Washington, DC.

Vaughn's citation presented with the medal reads:

Major Robert E. Vaughn, Jr., during the period from 16 September 1963 to 3 June 1965 distinguished himself consistently exercising strong leadership, superior management, organizational ability and a professional sense of

duty while serving as Commanding Officer, Director of Television and Deputy Commanding Officer of the United States Army Photographic Agency. In this period the Army Photographic Agency grew from 107 people to 283 people and assumed additional missions that increased its responsibilities many fold, broadening its operation from the Washington area to one that is world wide and greatly increasing its pictorial functions from a mission that primarily involved still photography to one that added television and motion picture production. Major Vaughn readily assumed responsibility for these increased functions and by high professional skill

(Continued on Page 2)

COMMENDATION--Major Bob Vaughn, right, and his wife, are congratulated by Major General David Gibbs after Vaughn received the Army Commendation Medal from General Gibbs in ceremonies in the Pentagon.

Army Photo

Planning Has Begun for Manufacture of 1967 License Tags

Most Texas motorists have "bought" their 1965 motor vehicle registrations--better known as auto "license plates" And while they blithely

motor over the 66,000-mile state-maintained highway system they probably are not aware--nor even care--that the 1966 license plates now

are being manufactured at the State prison at Huntsville.

They probably would be more concerned if they knew that within the next few weeks computations will begin to determine not only what kind of cars motorists will drive in 1967--but also where they will live.

Experts in the Motor Vehicle Division of the Texas Highway Department must determine some 18 months in advance of sale how many plates of each different kind will be required in each of the State's 254 counties. To complicate the problem, there are 33 different kinds of license plates--plus the new "personalized" plates approved by the Legislature at the session just ended.

Generally, it requires about six months to make the actual allocation estimate, and another year for production of the plates. However, studies are under way to determine if

the allocation estimates can be made by computers, thus greatly reducing the time required and permitting the use of later data for the determination.

There are approximately six million registered vehicles in Texas. For the last decade this number has been increasing at the rate of about per cent each year. This will mean that by 1967 more than 6.5 million sets of license plates will be needed.

This poses many problems. Will motorists be driving more "compacts"--or will the trend be reversed toward heavier vehicles? Will the new "deep water" barge canal at Victoria create another industrial boom in that coastal area, and pose the need for thousands more plates--and if so, what kind? Will the population movement from the rural areas to the cities be continued; and, if so, which counties will lose population and which cities will gain the most?

Arriving at allocation estimates for each county is an art. Economy-minded, the Department shies away from overstocking ("This runs into money"). At the same time the Department tries to avoid understocking the counties, too.

One Department official, closely associated with the problem, asserts that so far--during the 16 years he's been involved in the allocation estimate--the Department never has exhausted the total plate supply produced.

"But I'll tell you this," he confessed, "We've come pretty close to it."

Estimates are based on the previous year's estimate, although this may be some 18 months in advance of the registration period. Besides registration figures, Department personnel consider any pertinent information available--such as possible population changes in an area.

If the Department doesn't

learn of an anticipated major population change in time, a county may have either a surplus or fall short of its needed plate supply. Because of such unpredictables it is difficult to be certain that each county has the needed number of plates--or the utopian goal of "no more, no less."

And since a set of plates costs the Department about 13 cents to manufacture, the importance of having a minimum surplus of plates in each county is readily apparent. A surplus of just one of each of the 33 kinds of plates in each of the 254 counties would represent nearly \$1,100 of the taxpayers' money. However, this obviously would be "skinning the cat" too close, and some surplus is inevitable

Provision is made for the possibility that a county may exhaust its plate supplies. In this event, additional plates usually are forwarded from one of six stock points in the state--Amarillo, Corpus Christi, Houston, Austin, Dallas and Odessa.

It has been said that there is nothing more worthless than

yesterday's newspaper--unless it is an obsolete license plate. Field investigators of the Motor Vehicle Division inventory surplus plates in each county. Then they are sent to Highway Department District Offices where most are sold to the highest bidder for scrap metal.

Although 1967 and sale of license plates for that year are many months away, one thing is certain: Some county will need at least one license plate of a particular kind. The incumbent governor always gets number "SO1" (State Official One), which is issued in his county of legal residence.

JAYCEE GOLF TROPHIES--these trophies will be presented to winners of the annual Jaycee Golf Tournament July 4-5. Other trophies are on display in local stores. There will be five flights in the tournament. Plainsman Photo

Jaycees Set Golf Tourney July 4 and 5

Spearman's Junior Chamber of Commerce will sponsor a two-day golf tournament here July 4 and 5. It will be a 36-hole tournament. There will be five flights of competition: Championship, A, B, C and D. Sponsors for the flights are R. L. McClellan Grain Co. Inc., Championship; Equity, A; First State Bank, B; Hansford Implement Co.; and Gordon's Drug, D. There will also be a chipping contest for all entries. The tournament will open Saturday night with a Mexican dinner. Tickets for the dinner will be \$1.50 and everyone is invited. Tickets may be purchased from any Jaycee. A Bagboy golf cart will be given as a door prize at the dinner. Entry fee for the tournament is \$2 for those attending the dinner and \$3 for those who do not attend the dinner. Monday night, the Jaycees will end the July Fourth holiday with a Donkey Baseball game at the Spearman football field. The Jaycees will play the Gruver Lions Club. Admission is \$2.50 for a group ticket which admits five, or \$1 for adults and 50 cents for children.

VAUGHN ... (cont. from page 1) technical knowledge and outstanding qualities of leadership contributed immeasurably to the successful accomplishment of these many missions. His understanding of military requirements and his spirit of cooperation have repeatedly brought to the Army Photographic Agency expressions of commendation from the Department of Defense and from many staff agencies of the Department of the Army. His ability in planning and implementing photographic and television operations has advanced tremendously the responsiveness of the Army Photographic Agency in providing pictorial services required by Department of the Army and Department of Defense. Major Vaughn's contribution to the pictorial mission of the United States Army reflects great credit upon himself, the Chief of Communications-Electronics, and the United States Army.

Mr. and Mrs. Arthur Addison returned from a vacation trip to Okla. on Wednesday. They left this weekend for Odessa to visit their daughter and family, Mr. and Mrs. R. E. Lee.

The Frank Culp family have moved to Perryton. Mr. Culp is employed by Baker-Taylor.

Paul Van Cleave of Bell, California, grandson of Mrs. Mable Edwards is spending some time here and is helping his uncle, Wayman Edwards, in the wheat harvest.

Dr. and Mrs. Willis Harrison of Houston were Tuesday overnight guests of the J. D. Helms. Mrs. Harrison is a sister of Mrs. Helms.

Mr. and Mrs. Ted Widener went to Amarillo on Wed. of last week to meet their niece Denise Irby of Alamo-gordo who will spend the next two weeks visiting in the Widener home.

Mrs. J. D. Helms and boys took her grandparents Mr. and Mrs. J. W. Brown of Long Beach, Calif., to Cushing, Oklahoma, where they visited relatives several days last week.

FAST ACTION CAN SAVE THIS TOOTH

Vigorous summer sports can result in injuries to the mouth and teeth. According to the American Dental Association, a tooth that has been knocked out can, in many cases, be re-inserted and grow back again if no time is lost in seeking dental treatment.

Put the tooth in a glass of water, or wrap in a wet cloth; do not attempt to clean the tooth yourself. Your dentist will prepare and reinsert the tooth. After healing, the tooth will be secure and have a normal life span.

Mrs. Hazelwood Is Hostess

Mrs. Dana Hazelwood's home was the meeting place for the Kezzia Mae Seawright Circle of the WMU on Wed. June 23. The Prayer Calendar was read and prayer given by Lorella Read. The business session was conducted by Alma Bradford and it was announced next week will be enlistment visi-

tation. The group all took part in the lesson titled "Test Your Baptist IQ"; a question and answer quiz regarding the study of Baptist work. Mrs. Bradford brought a short stewardship emphasis. Attending were Addie Novak, Linda McAlester, Lorella Read, Alma Bradford, one new member Lee Graham and the hostess Dana Hazelwood.

Paul Linder received word this week that his Mother who lives at Bentonville, Arkansas has suffered a heart attack.

Irrigation, Fertilization Timing Is Important

James Valliant, Water Engineer for the High Plains Research Foundation at Halfway, Texas is conducting research to achieve the proper balance in crops in regard to irrigation and fertilization.

Prior research by Valliant has proven that high yields do not always give the highest net returns. Valliant states that during the physiological growth of crops, there are times that the plant will need water more than at other times. At these stress periods of growth, the proper timing and amounts of irrigation in balance with the correct fertilizer level can give a higher net return than previously received. The practice of timing irrigation for crops to suit the stress needs can help not only to reduce the total water necessary, but can also cut the production costs of farming. As a rule, the individual farmer has neither the time nor the equipment necessary to record the growth stress periods in crops.

At the Foundation, the reduction of costs along with the reduction in waste of water for the maximum net return in farming is the goal. In a recent fertilizer-irrigation test on grain sorghum, Valliant found that the highest net return came from three irrigations which included a pre-plant watering. Higher

yields were received from plots that had been given additional irrigations, but the net return was much lower. This same principal was found to be true with fertilizer. The point of diminishing economic returns can be reached by improper and excessive fertilizer amounts.

In an area that grows 40 percent of the nation's irrigated grain sorghum on 1.9 million acres of land, a lot of water is not being wisely used. To maintain the "Life Blood of the Plains", our water must be conserved. A large step toward conservation of the underground water supply can be obtained by proper timing of irrigation, not indiscriminate watering of crops. This along with the proper balance of fertilizer can make the farmer a better return from his land.

The knowledge and research developed by the Foundation can be obtained by contacting the High Plains Research Foundation, Post Office Drawer 2200, Plainview, Texas.

Altha Groves was a Wednesday overnight guest in the home of Mr. and Mrs. Chester Evans in Amarillo. She stopped off in Borger on Thursday and was a dinner guest of Mr. and Mrs. J. V. Cranfill.

Mrs. Mable Edwards and her granddaughter Sherry Jo Went of Gruver left Friday afternoon for Oklahoma City where Mable will visit friends, Mr. and Mrs. Roy Lester. Sherry Jo will visit a cousin and both will attend the dedication of the Hall of Fame, and visit the members of the wagon train from Spearman.

Mrs. Roy Butler of Perryton mother of Mrs. Robert Rosser of Spearman was in a car wreck near Perryton this week. She is reported to be recovering nicely. Mrs. Butler is the Stanley representative for this area.

The Linders plan to leave for Bentonville as soon as possible.

Charles West Promoted to Pfc.

Charles R. West, 19, son of Mr. and Mrs. Charles T. West, Spearman, was promoted to private first class May 25 in Germany, where he is serving with the 591st Transportation Company. West, an aircraft maintenance specialist in the company near Hiesheim entered the

Army in September 1964, completed basic training at Fort Polk, La., and arrived overseas last February. He attended Spearman high school.

Massage Aids Scalp

Massage your scalp at shampoo time. Use the tips of fingers to manipulate the lathered scalp with circular motions. This treatment is wonderful for a dry scalp.

Party goods of all kinds by Hallmark, at Plainsman Office Supply, 209 Main.

Card of Thanks

I would like to thank the Gruver and Spearman Fire Departments for helping put out a wheat field stubble fire June 23. Also would like to thank the man who radioed the Spearman Fire Dept. and the many neighbors. The only loss was a '62 model pickup. I W. Ayres Jr.

Mrs. Ella Jones who is 82 years of age was pleasantly surprised on Wednesday evening when Mr. and Mrs. Reeder from California dropped in to see her. Mrs. Reeder who is in her late 70's and Mrs. Jones grew up together near Forst, Okla., and had not seen each other for 50 years. The Reeders were visiting relatives in Perryton.
