## RAIL DUST

By DOUGLAS MEADOR

It is the mortar which labor's enduring stones in piles of lasting achievement.

It is an agent of love. Cupid dispenses some exceedingly fascinating brochures on excursion through life. Actually there is no fraud, but too many of the facts are printed in type fine that its reading is often delayed until the trip is started.

As a boy I was told that a winter storm would cause milk to curdle. I never doubted the belief until the summer we secured a home-made ice cream insulated with cottonseed oil. After that the milk remained sweet through all kinds of storms unless our ice supply was exhausted. Truth has a very new place in the world but it is entirely indispensable in many instances.

One of the cardinal faults of society is that we too frequently wait until a man is dead to extol his worthy deeds and admirable qualities.

Curiosity may develop from a healthy interest in the world of its wonders, or it may become an obsession produced by a liberated vanity, and aggravated by chronic stupidity.

A colored philosopher has had his observation in effect, that this is a good world and that we know most of the facts that concern it. On the other hand our information regarding the next world is only that which we have heard.

Angels must weep in the quiet hives of paradise when they hold the needless pain that follows a long tongue's lashing.

To waste time is to steal from the estate of generations yet unborn and deprive them of the work each life owes to civilization.

Each time I witness a crushed trap on the highway, I wonder if his trip was necessary. The tragedy of nature might provide a parable for man; that the most instances we have the choice of another direction.

## Residents Attend Events At Albany

Two events held last week at Albany, attracted local residents.

Fort Griffin Fandangle, pageant depicting early days of the historical fort, which opened a three-day run Thursday, at Albany, was attended Friday night by Mr. and Mrs. Seth Sager, Mrs. Virginia Willie and Mrs. R. E. Donovan.

On Saturday, Mr. and Mrs. Bill Seale and daughter, Marsha, attended a class reunion of Mrs. Seale's 1945 graduation class from Albany High School. One of the members of her class wrote the musical scores for the band's performance of the Fandangle.

The Fandangle, which has been an Albany feature since 1928 with the exception of some breaks because of the war and other causes, is a community project. Approximately 300 performers and 100 back stage workers were responsible for the show this year, which included buffaloes, Longhorn cattle, stage coaches and old time woodburning locomotives, whistling cowboys and Indians.

## Undergoes Surgery

## CITY TO OBSERVE JULY 4th

Matador is going to observe Independence Day, Monday, July 4th, according to most business firms contacted in brief survey late yesterday. Officials of the First State Bank said the institution would observe the national holiday.

It is probable all county and city offices will be closed. Matador firms in past years have observed the holiday by remaining closed to allow employees and employers a brief period of rest and relaxation. Exception will be service stations and cafes.

No July 4th program has been announced here. Stamford Cowboy Reunion and Clarendon Rodeo and Reunion are expected to attract a large number of rodeo fans from the county. A benefit dance Monday night has been announced by Old Settlers at Roaring Springs. The announcement was made several weeks ago.

The "long holiday" is expected to claim a record number of lives as the result of highway accidents. Intensive drives are being conducted in an effort to reduce speeding and reckless driving. El Progresso Club of Matador is making a "chain telephone drive" asking people to drive carefully during the 4th holidays.

Address bids to Frank Pohl, secretary, Matador Independent School Board.

HOLD THAT LINE, MATADORS! Sounds like this will soon be originating from the vicinity of the steel framework shown in the above photograph. It is the new grandstand being erected on Burleson Field and is expected to be completed within a short time after wood for the seats arrive. The grandstand is being constructed by Field and Gym Supply of Vernon (formerly of Turkey) and was built in the firm's shop at Turkey and welded together on the site here. Johnny Truelove, manager of the firm said a minimum of time will be required to complete the grandstand after the remainder of the material arrives. Mr. Truelove is in California this week completing negotiations for the West Coast distribution of his invention, a device for the training of football players to block properly. The machine, which is equipped with hydraulic control, is finding immediate acceptance among coaches everywhere.—Photo by Douglas Meador.

Residents interested in securing paving are advised to leave notice with City Secretary L. M. Cox immediately. The contractor will be here with complete equipment and obviously can not return for small projects after the equipment is moved away. Work done here earlier by the firm is described as being of the best quality. Work on Dundee Street will start Monday.

## Old Settlers Make Plans for Reunion

### CLEANUP IS RAINED-OUT

Citywide cleanup scheduled here for 6:30 Tuesday morning, was "rained-out". The drive was planned under the sponsorship of Boy Scout Troop 60, through the Matador Lions Club.

A number of Lions and businessmen met on the courthouse square at the appointed hour but heavy rains made work impossible. Many others interested in the civic campaign to clean up the town, did not report for work because of the rainfall. Boss Lion Randall Whitworth said yesterday that another date will be set in the near future. He said the interest shown by the Boy Scouts in the project was encouraging and that response in general has been very good. "Most of the home areas have already been cleaned," Lion Whitworth declared, "and the job of cleaning up the business section should not be difficult with the interest and support of everyone. I have great confidence in the Scouts conducting one of the most successful cleanups in Matador's history."

### Band Uniform Fund at \$788

Funds contributed last week for the purchase of uniforms for the Matador Drum & Bugle Corps, totaled \$788, according to Bill Waybourn, one of the organization's leaders. A total of 28 Matador firms and individuals each made contributions of \$22.80 (or more) the cost of a uniform.

Many others contributed half the price of a uniform (\$11.40) while other contributions brought the total to \$788.00.

The band has been invited to march in the Clarendon Fourth of July celebration and parade, and cars are needed for transportation. The group is scheduled to leave here at 9 a. m. Monday (July 4th) with lunch served at 11 a. m. and the parade at 1 p. m. The Clarendon celebration will be held during the afternoon and evening.

Volunteers willing to aid in the transportation of the band are asked to call either Ward Rattan or Albert Rattan.

### GUESTS FROM PASADENA

### Real Chuck Wagons Will Serve Crowds

REAL CHUCK from real chuckwagons will be served August 25th and 26th at the annual Old Settlers reunion at Roaring Springs Pioneer Park. A Matador Ranch chuckwagon and a chuckwagon from the Red Lake Cattle Company will serve a real cowboy menu and no hamburger concessions will be sold as in previous years.

Announcement of the reunion plans was made by Rep. Elbert Reeves, President of the pioneer organization, following a meeting of directors held Tuesday evening at the pavilion in Pioneer Park. New plans call for a parade from downtown Roaring Springs to the park at 10 a. m. Thursday morning, August 25th. More details of the parade plans will be announced later.

Officials expect the largest attendance in the organization's history. Arrangements have been confirmed with Crosbyton pioneer reunion officials so that dates will not conflict as in 1954. The Crosbyton meeting will be held the week following Old Settlers.

Reeves said the early meeting of directors was to plan the reunion far enough in advance to "iron-out" possible problems without being forced into decisions by the element of time. He said the program is already beginning to take shape and that announcements will be made following subsequent meetings of the directors. The program will include public speaking, he declared.

### Ride Concession Let

Contract has already been let for the kiddie ride concession and bids for the cold drink concession will be received by the directors. Bids must be made to Secretary Marvin Patton not later than August 1st.

### COUNTY FARMERS FOLLOW PATTERN IN WHEAT VOTE

Motley wheat farmers Saturday followed the general national pattern to continue present rigid controls on their crop next year rather than gamble on the possibility that Congress might enact a substitute program that would be more satisfactory.

In the Saturday referendum growers of the nation's major crop gave a surprising majority of 77.5 per cent to a proposal that strict federal marketing quotas be used again in 1956 to try to avoid additional surpluses.

A total of 77 votes were cast in Motley county, with 71 for and 6 against. The vote by boxes was as follows: Flomot 10 for, none against; Whiteflat, 20 for, 1 against; Matador 28 for, 2 against; Roaring Springs 8 for and 1 against; Northfield 5 for, 2 against.

Farm leaders in and out of government had expected a much closer contest, according to the daily press, with a chance that the controls would fail to win the necessary two-thirds majority. Doubt as to the outcome had developed in the face of official suggestions that the government would offer a new wheat-aid program if quotas were rejected.

### Home From School

Miss Patti Pipkin is visiting here with her parents, Mr. and Mrs. W. N. Pipkin, after completing her year's work as teacher in the Plainview High School homemaking department. Lubbock High School, and will assume her duties the first of September.

## FAMOUS TEXANS' RECIPES

### Texas Sage Recommends Old Pioneer Beef Dish

J. Frank Dobie

J. Frank Dobie's all-time favorite beef dish is a modern-day legend. Reminiscing a bit of local color from the fabulous history of Texas, the illustrious and near-legendary historian of Texas as folk-lore says of "jerked" beef: "It has always seemed especially wholesome and is certainly nourishing."

"My way of cooking it is to chop it up and boil it with potatoes, plenty of onions and a few Mexican peppers. It makes a whole, satisfying and balanced meal."

"Jerked" beef, not to be confused with dried or corned beef, is a cured meat which is still very much in evidence around cow camps, even in this era of refrigeration. During round-up time, cow hands feast on the forequarter cuts the first few days after killing an animal, after which they rely on "jerked" beef for their meat supply.

To preserve freshly killed beef by the "jerked" technique, it is boned and stripped in one-half inch lengths, seasoned and stretched over wire or rope to dry in the sun. The sun-cooked beef, called "jerky," keeps indefinitely.

Some cowboys like to chew on a hunk of jerky as a substitute for the less-nutritious black-horse tobacco.

The Texas Beef Council, in its search for authentic pioneer jerked beef recipes for inclusion in the Famous Texas Cookbook, asked Mrs. A. C. Jones of Beville, a third generation Texan and family-friend of Dobie, for her "Picadillo" (jerked beef hash) recipe. The following measurements will serve four:

- 4 cups chopped jerked beef
  - 1/2 cup shortening
  - 1 cup chopped onion
  - 3 cloves garlic
  - Chili-peppes or jalapenos (optional)
  - 2 cans tomatoes
  - 2 tablespoons chili powder
  - 1 tablespoon pepper
  - Salt to taste
- Soak jerky in warm water until softened; place on meat board and chop into small pieces. Sauté lightly in heavy skillet with shortening. Add onion and garlic, tomatoes. (4 cans tomato sauce may be substituted for tomatoes.) Add seasonings; cover and simmer for about one hour.

For Carne Con Arroz, another Dobie favorite supplied by Mrs. Jones, add two cups uncooked rice to shortening with onion and garlic and brown slightly; add potatoes, canned corn or hominy.

## Caution Is Urged In Water Sports To Avoid Drowning

AUSTIN—There were 397 drownings in Texas last year according to figures released by the Texas State Department of Health. Over half of these

deaths were among those under 25 years of age. Drownings dropped sharply after age 45, but occurred in each age bracket up to 90 years.

Dr. Henry A. Holle, Commissioner of Health, stated that most of these deaths could have been prevented if sensible precautions had been taken. This is the season of the year when many of us like to take to the water for a cool swim, for week-end boating or fishing trips. These are all healthful forms of recreation, if you follow common sense rules, don't get cocky about your ability in the water and don't take chances.

The safest place to swim is the municipal pool where a life guard is on duty. The water is treated to kill disease germs and is kept fresh by a continuous change of water. Also there is no danger of wading into unexpected deep holes such as there

is in ponds, lakes and rivers.

If you go boating and do not know how to swim always take along a life preserver. See that each child is so equipped. Be careful not to overload the boat. Changing seats or standing up in a small boat is dangerous business. If you should capsize, stay with the boat.

Watch children carefully while they play around small pools or even buckets of water. Small children often drown in stock tanks, fish pools, ditches and drainage canals. They even drown in bath tubs, because thoughtless mothers leave them there to play without supervision.

Consciously practice safety precautions and soon avoiding accident hazards will become second nature to you. Swimming, boating and fishing are healthful exercise if you do them safely.

## COME TO CHURCH SUNDAY

From where I sit... by Joe Marsh

### If You Can't Lick 'em—Join 'em

Just back from visiting with my daughter's family—and playing Grandpop to two of the cutest kids you ever saw. While there I picked up a couple of new ideas on child raising:

If your child's learning to use a pen, provide an old fountain pen—filled with bluing. Looks and writes like ink, but won't stain clothes or furniture.

Maybe you have a boy, like my grandson, who thinks he's too old for a bib—but isn't. A big cowboy handana works just as well, and looks he-man to boot.

From where I sit, getting along with children is like getting along with grownups—it requires an effort to see things from the other person's point of view. At any age, there's no accounting for tastes. Take my neighbor who keeps a parakeet and drinks hot coffee in the summertime. That seems strange to me... a man who's partial to hound dogs and a cooling glass of beer. But I'd be "childish" to say it was wrong.

**HAVING THE WORST TIME OF THEIR LIVES**

By all odds, the young years should be the best. By all traffic statistics, they're the worst. The facts: young people—15 to 25—have, proportionately, more accidents, kill more people, are themselves killed and crippled more than any other age group up to 65. This is a national tragedy that the youngsters can do most to erase.

How? By matching grown-up activities with grown-up attitudes. By learning early to be expert drivers. By policing their own. By making known to "cowboys" that show-off driving is resented, not admired. Level-headed young people—the vast majority—are doing just this in many communities.

## Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD  
Texas Press Association

AUSTIN—Selection of a successor to Wright Morrow, Democratic National Committeeman from Texas, is imminent. Because he voted for Eisenhower for President in 1952, Morrow was barred from serving on the Democratic National Committee.

But, Governor Allan Shivers doubts that anyone can be found to fill the prescription laid down by Democratic National Chairman Paul Butler.

It must be someone, Butler told Shivers in his now famous Washington "kitchen conference", who never bolted the party. It must be someone who worked for Adlai Stevenson's election. And it must be someone who can be approved by Shivers, House Speaker Sam Rayburn, and Senator Lyndon Johnson.

Possibility of replacing Morrow became a by-product of activity by top-level Democratic and Republican figures in the preliminary skirmish toward Texas' role as a battlefield in the 1956 presidential contest.

Chairman Butler spent six days in Texas, mostly under the guiding hand of the "Democratic Advisory Council", a group of liberal-loyalists appointed to take over Morrow's duties.

Butler declined an invitation by Governor Shivers to visit the executive mansion; Shivers did not accept Butler's invitation to come to some of his meetings.

Republican National Committeeman Jack Porter followed Butler promptly with a state workers' rally in Austin. He announced he was extending "not only an invitation, but a challenge" to the conservative Democrats who carried Texas

for Eisenhower, to join up formally with the Republicans.

Porter predicted that President Eisenhower will be re-nominated, will carry Texas, Florida, Virginia and Tennessee again—and win in 1956.

"The Conservative Democrats" he said, "were invited by Butler to quit their party. They know they will have no more say in selecting a nominee next year than in 1952 or 1948."

Porter believes the Democratic party split is permanent.

### Anderson Talked For Governor

Resignation of Deputy Secretary of Defense Robert L. Anderson of Vernon started speculation whether he might figure in next year's governor's race as the conservative's choice. Or possibly be in line for a place on the national Democratic ticket.

This despite his service in a Republican administration.

Another name that crops up when conservatives are mentioned is likely candidates in the governor's race is that of Sen. Otis Lock, of Lufkin. He already has been referred to as the "jet age candidate" since his talk to the Jacksonville Rotary Club last week.

Senator Lock pointed out the need for streamlining state administrative agencies; urged improvement in spending methods; and "a sound, fair code protecting each person from excessive taxation."

With its population increasing and its economy expanding Texas cannot meet its jet age governmental needs with a Model-T vehicle, he stated.

### Johnson For President

There has been a remarkable array of national comment in such publications as the Wall Street Journal, Newsweek, and the Washington Star, about Senate Majority Leader Lyndon Johnson's success and his "availability" as the Democratic standard-bearer for President.

Governor Shivers himself came back from Washington recently praising Johnson, a loyalist.

A speech early in the week by Governor Shivers, before the New York Sales Executives Club, is another in the national network of his appearances in which he restates the basic doctrine of the dissident Dixie and conservative Democrats.

Governor Shivers had pointed suggestions for Texas schools, faced with the US Supreme Court desegregation decision.

"I do not think it necessary at this time for any district to take any step its board does not want to take, beyond studying the problems and its solution", he said.

He will name a statewide committee, to study problems of the desegregation ruling, and recommended that school districts appoint their own committees.

According to the Governor, the decision leaves a large measure of control to local districts, "where the problems should be worked out."

### Short Snorts

Efforts of former Land Commissioner Bascom Giles and of B. R. Sheffield of Brady, to have Travis County indictments in veterans' land cases quashed were rejected in district court.

Land Commissioner J. Earl Rudder said he will start a shakeup of the General Land Office in July. His decision follows testimony in a lengthy court of inquiry on the office's operation under former Commissioner Bascom Giles.

John C. White, commissioner

of Agriculture, denied that Texas overspent by \$162,670 federal drought aid money in 1953—as claimed by the US Department of Agriculture.

Congressman Clark Thompson and Homer Thornberry announced a tour of Central Texas counties, by a House Agriculture sub-committee, to study acreage allotments for rice and cotton.

Governor Shivers paid tribute to Amon G. Carter as "one of the most dynamic Texans of his generation." Carter, long-time publisher of the Fort Worth Star Telegram, died on June 23.

Trials for George B. Parr, south Texas political czar—and 11 others from Duval county—on charges relating to school funds, have been set for July 5 in New Braunfels, on change of venue.

A Texas committee to plan the state's part in the White House Conference on Education, Nov. 28-Dec. 1, was named by Governor Shivers. Dr. Erwin L. Rippl, president of the Dallas School-Board, is chairman. Its first session will be in Austin.

A state building commission bill was signed by the governor. It provides \$6,000,000 for a new state courts building and a state office building.

The makers of Super-Refined No-Nox, the clean-burning gasoline, now bring you a new super-refined motor oil...

# New Gulfpride H.D. Select

Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30. Lets you follow your car manufacturer's recommendation for each season.

...the only motor oil in the world super-refined by the Alchlor Process for modern high-compression engines.

Not a compromise, multi-viscosity oil that tries to be an "all-season," "three-grades-in-one" oil. Contains no artificial thickeners that break down in your engine and increase oil consumption.

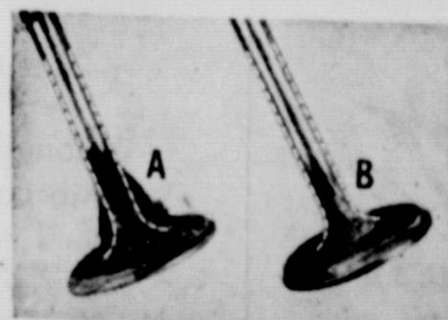

This completely new kind of motor oil—made possible by Gulf's exclusive Alchlor Process—is available in 3 grades to give you the finest protection, the best oil mileage for your make of car—in every season.

- Controls carbon—cause of knock, pre-ignition, valve failure and loss of power in high-compression engines.
- Combats corrosive acids, rust and deposits that build up on engine parts. Keeps hydraulic valve lifters quiet and free-acting.
- Assures lower oil consumption than the multi-viscosity "all-season" motor oils, because it has natural viscosity and contains no artificial thickeners that break down in your engine.
- Provides the toughest protective film ever developed in a motor oil... assures better engine protection for all cars under all driving conditions.

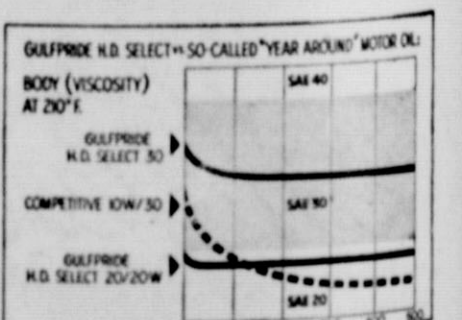

Now! For the ultimate in working octane performance and engine protection, always use Gulf's super-refined gas oil team.

New Gulf No-Nox Gasoline  
New Gulfpride H.D. Select Motor Oil

"Coked" valve "A" is from engine using a so-called "all-season," multi-grade oil. Coke-like carbon deposit is a cause of sluggish performance and ultimate valve failure. Clean valve "B" is from engine using new Gulfpride.

See how Gulfpride H.D. Select holds its "body" (viscosity). This new oil contains no artificial thickeners that break down under heat and pressure. But note how quickly a typical multi-viscosity 10W-30 oil starts to lose its body.
