1990-91 Basketball Season Begins in Motley County

by Barbara Moore

The Motley County Matadors and Lady Mats began their 1990-91 basketball season competing against 2-A Crosbyton on November 16, 1990. The Matadors led by starters, David Alexander, Chris Campbell, Clay Ewing, Tony Gonzales and Matt Washington, played a very close game with the Crosbyton team up to the final few minutes of the game, which ended with Crosbyton on to 86-76. Two digit scorers for this game were Alexander 26, Ewing 20, and Gonzalez 16. The Lady Mats, having lost all five starters from last year, are in the process of rebuilding this year. The Lady Mats have been working hard, and are showing improvement with each game. Learning and getting experience playing are the main goals of the Lady Mats at this point. Starters for this year's Lady Mats are Heather Hobbs, Lacey Parks, Amy Stephens, Denise Crowley, Natalie Burkes. Other members of the Lady Mats are Amy Pipkin, Christie Shorter, Brandee Spray, Tonya Hoyle, and Cathy Perryman. The Lady Mats have played

The Mavericks and Lady Mavericks will travel to Lakeview Thursday, November 29, to play Lakeview.

Coaches for this year's 1990-91 Varsity Matadors and Varsity Lady Mats are Head Coach Bob Moore, assisted by Coach Tony Raffaele and Coach Jerry

Bass. Coach Raffaele is also coaching the JV Lady Mats and the Jr. High Lady Mavs. Coach Bass is leading the JV Matadors and Jr. High Mavericks this year.

Officials in Small Towns Face Governing Crisis

by Earlyne Jameson

"The vocation of every man and woman is to serve other people" is a quote of Tolstoy. When I read this, I thought of the individuals who serve the citizens of Motley County and send a silent thank you to each one.

The pressures of small towns and county governments have become a burden. Officials in small communities say the tradition of private citizens overseeing small municipalities in their spare time is now time consuming. With the growing complexity of issues, such as new environmental protection standards and burgeoning budget responsibilities, fewer citizens are seeking the part-time largely volunteer positions that have run small towns. Officials say the jobs now require professional skills they do not possess and that town and county administration steals too many hours from their lives.

An avalanche of new federal and state regulations, budgets that have been in-

created by rising costs and responsibilities and economic hardships require more sophisticated stewardship. "In past years, a little bit of arithmetic, some good common sense and honesty made you a good candidate", said a former county commissioner. "Now, it's preferable you are a lawyer."

The towns feeling the most strain are those with populations of less than 10,000 and those represent 86 percent of the governments in the United States. For every small town growing in population, there is a small town shrinking, said Jeffrey Schiff, executive director of the National Association of Towns, an organization of Small governments.

Both situations present complications, either in demands for new, costly services or in shrinking tax bases and revenue.

In some small towns, a diminishing population and an increased workload have made it difficult to serve in elected positions. Officials in small towns and counties deserve appreciation and support.

Floydada Hospital Survives Rollback

NOTE: This article was taken from the Lubbock Avalanche Journal.

Floyd County voters gave a resounding thumbs down Tuesday to a local option that would have rolled back hospital taxes.

The vote allowed Caprock Hospital to enjoy a much-needed cash transfusion.

A total of 1,125 residents voted against rolling the tax back from its current 42 cents to 26 cents per \$100 valuation. Proponents of the rollback cast 271 ballots, according to a report released by election judge Bill Hale.

More than one-third of the eligible voters turned out for the election, Hale said.

The election resulted from a petition drive that surfaced in August after Caprock Hospital District's board of directors voted to increase taxes. Board members had voiced concerns that the 20-year-old hospital needed repairs and new equipment, as well as a reduction in debts that totaled about \$500,000.

The petition drive, which netted more than 700 signatures, was spearheaded by Floydada resident Vicki Webster.

Mrs. Webster alleged that the hospital board had been guilty of mismanaging the facility and was trying to eliminate the debt in a one-year period.

Numerous calls to Mrs. Webster's residence were not returned Tuesday night.

Visitors to our Library have been few and far between lately but we are happy to have had Lonnie Harmon from Hedley, Texas come by and also three young ladies that did not sign the guest book but who were granddaughters of Opal Pipkin, who were looking in the window on Saturday while I was in town. We are glad these folks dropped by and visiting our Library and mural.

Tuesday, November 27, was Library School Day and I would like to thank the following ladies for their help with this very important service of the Library: Lola Pohl, Winifred Lee, Sonja Bowman and Sarah Hurt. The following children were present: Brittany A. Moore, Tomithy Bowman, Emily Hurt, Cody and Clay Cooper, Amanda Hurt, Cole Grundy, Colton Russell, Stachia Baxter, Shelby Stokes, Kitti Campbell, John Wesley Stevens and Taylor Paul. Everyone had a good time singing, watching a video, reading a book and making teepees. Thanks to all the ladies for helping and thanks to all the moms for getting the children here each time. The next day for Library School will be December 11 and it will be the only meeting in December so everyone be sure and come.

The following is a partial list of the overdue books: *Dilemma* by Megan Alexander; *North to Destiny* by Donna Anders; *House of Discord* by Jane Arbor; *Hector McSneator and the Mail-Order...* by Othello Bach; *Big Honey Hunt* by Stan Berenstein; *So Wicked My Desire* by Stephanie Blake; *Pippa Pops Out!* by Betty Virginia Doyle Boegehold; *Elihu the Elephant* by Brennan; *Deep Waters* by Laurey Bright; *Who Killed Sack Annie?* by Dana Broolins; *Liberty's Lady* by Caryn Cameron; *The Late Gentleman* by Stella Cameron; *Paper Toys That Fly, Soar, Zoom, and*

Frank Dobie; and *Tender Rhapsody* by Judith Duncan.

These books are very much overdue but since it is fine free until December 31, please look everywhere these books might have been lost and bring them back to the Library.

As many of you know, Earline Vaughn has resigned from Green Thumb and the Library and is currently in St. Mary of the Plains Hospital in Lubbock. The report Tuesday morning was that she was still in L.C.U. and needs all our prayers for her recovery.

Earline's resignation does not necessarily mean that they will replace her here at the Library, so if you have not already done so, please write to Diane Cowan, State Director, Green Thumb, Inc., P.O. Box 7898, Waco, TX 76714-7898 and urge her to consider a replacement.

REMINDERS

Dues for the Friends of the Library may be paid at the Library.

Barbara's Bylines

Hope everyone is getting in the Christmas spirit. Days are flying by.

I am still enjoying the 'fall colors', seems we have had the most beautiful colors this year and they have lingered longer than some years. The shinnery and cottonwoods as well as other trees and shrubs have outdone themselves.

Quite a few deer have been killed in Motley County, the season started Nov. 3

and goes through Jan. 6. I have been cooking and feeding my family and guests Venison for at least 20 years. I never realized it really tasted different until one time I fixed beef hamburger steak and Jason thought something was wrong with it because it 'tasted funny'. We finally figured out he had only eaten deer meat fixed like that and it did taste different. If you like the dark meat of chicken and like dove, you would like venison. We love it. Happy hunting!

I enjoyed going to town during the Holidays and visiting friends who had come home. I visited with Pete and Kay Davis of Brownfield, Jill Scaff Taylor and Joyce Scaff McCarty of Ft. Stockton and Midland, Jane Hamilton Carter of SanSaba, Cherri Barton Karr of Whitney, Jan Barton Hamilton of Plainview, and Ann Garnett Whitehead, who had come for her son's wedding.

I heard....we always hear things that are interesting, but unless it is tragic or juicy gossip, it gets forgotten pretty quick. I am going to start a "I heard" section of my Bylines.

Well "I heard"....some ladies from a neighboring town came to Matador to look around and told one of the sales ladies, "You have a wonderful town here an lots of places to shop - on Saturday." They went on to say their town which is larger than Matador, rolls up the sidewalks on Saturday. After spending several hours, nearly 2 hours in the Matador Variety, in town they said, "We'll be back".

I heard....one of the actors in Lone-some Dove was in Motley County deer hunting last week.

I heard.... someone said appliances have ears; just when you say everything is running good or I've had that washing machine 15 years and its still running, guess what, it quits working that week.

Did you know..... the wild hogs Javalina' have come to Motley County?

J.N. and Marty Fletcher are pictured here with Javalina that was hit by a vehicle August 25, 1990, approximately 3 miles south of Roaring Springs, near J.N. Fletcher's gate. According to Stanley Brooks, the Javalinas are not usually found this far north.

WORKING MOMS VS. FULL-TIME MOMS: IS IT JUST MONEY?

It's true, most women work because the family needs the money. When women decide to step out of the work force and stay at home, there are many more issues to address than just the bottomline, though.

If you're thinking of quitting your job, you can minimize your negative emotional effects and financial pressures by planning your exit carefully. You'll need your spouse's full cooperation. Before you give up your job to stay at home, talk long and hard with him about how it will affect your marriage. You don't want to compound marital problems with the financial stress of living on a smaller budget. If he's uncertain about his job future, you may want to postpone your departure for a while.

When you and your spouse have considered these issues, map out a plan for leaving the work force. Try living on a single income for six to twelve months to experience fully the unexpected expenses that can arise. Use the money saved to pay off all credit cards or debts. Check your insurance. Will you be as protected under your spouse's plan, or can you buy extra coverage through your employer after you resign?

Are you ready to quit? Answer the

following questions to test your readiness:

- * Can you live within the smaller-income budget?
 - * Are you disciplined enough to limit your spending and use of credit cards?
 - * Do you have a plan for emergencies?
 - * Can you live without things you can afford now - vacations, eating out or new furniture?
 - * Will you feel comfortable spending money you didn't earn?
 - * Do you have an alternate plan if you don't like staying at home?
- Families can save on child care, clothing, transportation, personal/professional expenses and taxes when a working mom becomes a full-time homemaker. Be assured that if living on one paycheck becomes too burdensome, it isn't the end of the world. The best news is that since you're not employed, you can always find a job!
- Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Thought for the Day:

- Do more than exist - live
- Do more than touch - feel
- Do more than look - observe
- Do more than read - absorb
- Do more than hear - listen

When we say "You're The Boss" ... We mean it.

We are bombarded with advertisements to buy. You can shop around for goods . . . and for some services, like a mechanic. But with utilities, there is usually only one available. So, you might think it would be easy for us to take our consumers for granted.

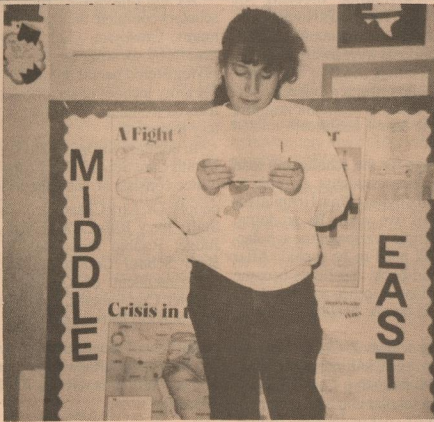

You know what? The EXACT OPPOSITE IS TRUE. At your electric cooperative, each and every member is an owner. So when we say YOU'RE THE BOSS . . . we mean it!

We'd like to know how we're doing, Boss. Give us a call . . . or drop by and visit. And in the meantime, try to think of the last time your mechanic asked you how he was doing.

Amy's Anecdotes

by Amy Woolsey

Now that the Thanksgiving holiday is over, everyone is getting ready for Christmas. Lights and Christmas trees are going up all over town. Little boys and girls are making lists and writing those "Santa" letters. This is really the fun part of the year -- except -- finding the right present for that special someone. To some people a "special someone" is on top of their want list. Finding the right present to give someone makes you feel good all over. Lack of money seems to be

a big concern to everyone but the presents we remember are the ones that were given with love not especially big \$\$\$. Let's give with love this year. Let's remember to give to the food drive or toys for tots and most of all, let's remember those that have no special someone or who are spending their first Christmas without their special someone. Let's give the best gift of all -- Love. You will have the best Christmas ever!!!

Horse-Drawn Carriage Collection Ready to Roll!

These are some of the carriages on display with the Sterquell collection.

AMARILLO -- Smiling senior citizens stroll through the newly open Sterquell Collection of Horse-drawn Vehicles, admire the glossy wooden and wicker conveyances - phaetons, wagons and sleighs - and share childhood recollections of these transports from the past.

Amarillo accountant, U.C. Sterquell Jr., revealed his fabulous, beautifully restored treasures-on-wheels to delighted friends and neighbors recently. Long time acquaintances had no idea that such a collection existed in Texas or the Southwest, much less in Amarillo. Nor did they guess that the hard-working Sterk pursued such an avocation.

Assembled over the past 30 years from across the nation and painstakingly restored, the 48 vehicles are on display in the Blackburn's Building, 812 S. Polk Street, in Downtown Amarillo.

In 1880s vintage Whitechapel wagon is the Sterquell Family's initial acquisition. Betty Sterquell's father, Knox Wright of Houston, gave the "surrey with the fringe on top" to his granddaughter Vicki in 1960. Included in the gift was Dobbins the horse. The Sterquells enjoyed driving on family outings along Highway 66 in the horse-propelled rig, providing entertainment for cross-country travelers.

In the early 1970s, Sterk began renovating and restoring this century old vehicle, beginning a project that has engaged his spare hours for a quarter of a century.

Spruced up and on display are carriages designed for private use including a governess cart, a Bavarian wagonette, an Irish jaunting car, and a doctor's buggy, complete with authentic doctor's black bag. A gleaming black opera bus with beveled glass windows still sports its original upholstery, painstakingly restored with neatfoot oil.

Commercial endeavors are represented by a haberdasher's wagon, a Welsh hearse, a farm wagon, a fuel tank wagon that originated with Standard Oil of Indiana, a butcher's meat wagon, a photographer's wagon, and a mail wagon.

A third portion of the collection includes horse-drawn sleighs. A Portland cutter sleigh was the first acquisition in this category. Sterk and his wife Betty spotted it alongside an Arkansas road-way. They purchased it on the spot and brought it home atop their car, securely tied to ski racks. Others in this genre include a basket sleigh, a pung sleigh, a Russian sleigh and a racing sleigh.

Opportunity for the public to view the collection arose when the Sterquells began talking with others about downtown revitalization. A difficult occurrence in their own lives would enable them to offer such a gift to their community. Sterk suffered a stroke a year ago, and his physician advised him to give up his accounting practice. Always one to keep his mind and hands busy, Sterk decided he could use the time and energy released in this change to ready the collection for viewing.

Access to the collection is a gift to High Plains residents and visitors from the Sterquell Family who lent it for exhibit by Panhandle-Plains Historical Society, operator of the Canyon museum that houses the country's best cowboy collection. Challenge grants to the Society from the Amarillo Area Foundation and the Don and Sybil Harrington Foundation were augmented by private sponsors. The Blackburn Operating Corp. has given the Polk Street location for one year. Dozens of volunteers have prepared and staffed the display.

Visitors to the Sterquell Collection will pay a modest admission fee to defray operational expenses and utility costs. Charges may be waived for school groups and youth organizations by advance reservation. The exhibit can be viewed free of charge on the fourth Sunday of each month. Exhibit hours are noon to 6 p.m. on Wednesdays and Thursdays; 1-7 p.m. on Fridays and Saturdays; and 1-5 p.m. on Sundays. Groups of 15 or more may view the exhibit at other times by advance reservation. The Sterquell Collection may be telephoned at 806-374-1663.

Matador Garden Club Meets For Program on Holiday Decorations

Holiday decorations featuring flower arranging and holiday wreaths formed the program theme for Matador Garden Club at its November 19 meeting at the Motley County Library, with Mrs. Ed D. Lawrence as hostess.

Mrs. W.N. Pipkin, president, called the meeting to order for the opening business session, reading of the secretary's minutes, and committee reports. Main item for discussion was to plan for decorating Pioneer Memorial park and downtown planter boxes for Christmas. Friday, November 30 was set as the date for this activity which also will include placing lights on the evergreen at the American Legion Building. Decorating these areas has been an annual project of the club for a number of years.

Members answered roll call with the response "What I like best about the Autumn season."

To introduce the program, Mrs. J.D. Craven, leader, presented Rachel Patton, who displayed an unusual door or wall wreath which she made of bits of tufted material in holiday colors, on a styrofoam base.

A video film "Flower Arranging: Holiday Wreaths and Floral Design" was shown by Mrs. Edgar Lee, courtesy of West Texas Library System. All VCR equipment, including a supply of titles

are donated by the Library system.

The film shown included a demonstration for making an Advent wreath of styrofoam with indentions for the four Advent candles and decorated with fronds of evergreen and ribbon streamers. The narrator also demonstrated other wreaths for special occasions and unusual table arrangements combining greenery and fresh fruit in a pyramid design.

Mrs. Craven concluded the program with a report from the Lone Star Gardener magazine, and the Thought for the Day: "Cultivate the spirit of gratitude, for it is one of the rarest flowers that bloom in the garden of virtue."

For the club's activity for the month, members brought aluminum cans which they sanded to be given to a local collector. The project for the month is to work the area around the Constitution Tree plaque.

The hostess, Mrs. Lawrence served German chocolate cake and hot spiced tea to the other eleven members and two visitors present: Mesdames Robert Darsey, Artie Wason, Alvin Stearns, Ted Elliott, R.C. Giesecke, W.D. Lipscomb and Douglas Meador; Mmes. Pipkin, Craven and Lee, Rachel Patton and visitors Mrs. Richard Hamilton of Eagle River, Alaska, and Mrs. Josephine Hamilton, local residents.

SEEDS FROM THE SOWER

Michael A. Guido, Metter, Georgia

"I wouldn't go through an accident like that for a million dollars," said one who's dear to my heart. But she added, "I wouldn't take a million dollars for it, either."

Sometimes the most painful experiences can become the most profitable. Admitted the Psalmist, "It is good for me that I have been afflicted."

He was Mr. Success. Everything was going for him. But he was struck down and blinded. He didn't ask, "Lord, why?" But, "Lord, what will You have me to do?" And Paul became the world's greatest Christian.

Troubled by a tragedy? Ask, "Lord, what will You have me to do?" And your tragedy will become your triumph.

Rural Healthcare Scholarships Announced

At the November meeting of Crosbyton Clinic Hospital's Rural Health Care Scholarship Loan Committee, seven local area residents were awarded scholarship loans totalling \$18,030. The scholarship recipients will apply federal scholarship funds towards academic training in one of the many healthcare-related disciplines.

In exchange for the scholarship loan money, the local students commit to working at Crosbyton Clinic Hospital for a minimum of five years. By so doing, only the principle portion of the scholarship loan will need to be repaid. After loans are paid back, the funds become available to loan to other area residents who desire to pursue healthcare-related careers.

According to David Clark, Hospital Administrator and Chairman of the Rural Health Care Scholarship Loan Committee, the seven scholarship loan recipients for the 1990-91 year include the following:

Renee Anderson, Brett Doss, Dianna Doss, Mike Gowens, Max Hodges, Dena Lynn Jordan, Amy Montgomery.

During the 1989-90 year of the federally-funded Rural Health Care Scholarship Loan program, eight area residents received scholarship loans totalling \$33,950. First year scholarship recipients included:

Shala A. Cornelius, Leland Branson, Carolyn Dewbre, Linda Dewbre, Shirley Evans, Debbie Tue, Janie Williams, Charolette Wright.

By the time all 15 rural healthcare scholars complete their educational programs, Crosbyton Clinic Hospital will benefit by securing the services of nine (9) registered nurses, two (2) LVNs, two (2) x-ray technologists, one (1) medical records technician, and one (1) respiratory therapist.

In addition to David Clark, the Rural Health Care Scholarship Program Committee consists of the following eight people: Dr. Kirk Chandler, CCH Medical Staff; Jerry Robertson, Crosby County Judge; Robbie Fusselman, Crosbyton High School Counselor; Jerry Scott, Superintendent of Crosbyton School District; Curt Parsons, Superintendent of Spur School District; Mary Boyd, Lorenzo

High School Counselor; Tommie Morris, Principal of Ralls High Schools; and Karrie Williams, R.N., CCH Nurse Manager.

This is the last year of the two year Rural Health Care Transition Grant Program funded by the federal government. According to Clark, federal grants were made available to several Texas rural hospitals due in part to active support from U.S. Senators Phil Gramm and Lloyd Bentson. At the local level, Congressman Charles Stenholm was influential in helping Crosbyton Clinic Hospital secure grant funding. The scholarship program should greatly benefit the hospital in its efforts to recruit and retain quality healthcare professionals.

The Scriptures

Jesus endorsed the Scriptures. "Thy word is truth", John 17:17. The Lord Jesus always supported what he said and what he did by the Scriptures. Never repudiating their revelation and authority. Our Lord brought everything to test of that authority. No statement did he disclaim, no prophet did he disown. The Bible of the Jews in our Lord's day is the Old Testament of our day. For us its supreme sanction is that which it received from the Lord Jesus Christ. The Old Testament was the Bible of his education and the Bible of his ministry.

Jesus accepted its fundamental doctrines about creation, about mankind, about righteousness, about God's great purpose of the ages. Our Lord accepted its history as the preparation for Himself. He used the Old Testament Scriptures to justify His mission on the earth and to illuminate the mystery of Calvary.

Our Lord Jesus fed His own soul with the contents of the Scriptures. In the crisis of His life, He sustained Himself upon them as upon the living and sovereign Word of God. We who believe in Jesus can we do any less?

The Bible is: "The mind of God, the state of man, the way of salvation, the doom of sinners, and the happiness of believers...."

OUTREACH EFFORT LOOKS FOR OLDER WOMEN

Despite advances in the economic status of most retirees, older women, especially women over age 85, remain one of the most economically vulnerable groups in our society. Social Security hopes that its current Supplemental Security Income (SSI) outreach effort will assist some of these older women. Because of differences in life expectancies, 70 percent of Social Security beneficiaries age 85 and older are women. Their benefits are usually lower than men in the same age group because historically women have had lower paying jobs or have taken time out of the labor force to care for their families.

Additionally, many women at 65 have savings and other resources which are gone by 85. Their resources may be de-

pleted by a husband's final illness or the increased living expenses of living alone as a widow.

SSI provides an income floor for many older people with low Social Security benefits and reduced financial resources. Over 75 percent of the SSI recipients over age 85 are women, and advocacy groups believe many more older women may be eligible for SSI.

Social Security Commissioner Gwendolyn S. King has committed the Agency to an outreach effort to ensure that all individuals who are potentially eligible for SSI know about the program, know what the benefits of the program can mean to them, and have an opportunity to obtain benefits.

Information about SSI is available from Social Security. The telephone number is 1-800-234-SSA (1-800-234-5772).

Letter to the Editor

Dear Editor,

The following is a copy of a letter that I mailed to Dianne Parrish, Green Thumb Inc., Texas Program.

I appreciate your coverage of important things.

Dear Ms. Parrish:

It is with a great sense of urgency that I write to you concerning the need for replacement of Green Thumb employees who have retired from their jobs with the Motley County Library. It is my understanding that your policy does not permit replacement of employees who retire due to age or health.

The fact that two such devoted workers have retired recently has placed the Library in a precarious position. I know how important the County Library is to the community. This Library should not be allowed to close. Motley County, although small in population, has been fortunate to have dedicated historians and volunteer citizens who have worked with the Commissioner's Court and County Judge for the organization and maintenance of the Library.

As a certified Librarian, I see Motley County's Library as the most important institution in existence there at the present time. It is a meeting place and a tourist attraction. All small towns struggle now for survival, and this one is no exception.

The Library has been housed, stocked with learning materials, and supported by the strong efforts of a ranching and farming area. It is thoroughly modern and strives to furnish all reference and reading materials needed by the people and the schools. The collection is amazingly professional and complete. Motley County has only one school, and it is located within a few blocks of the Library. Every time I have visited the Library, students were there using the computer or otherwise involved in a learning situation. IF A CHILD LEARNS TO USE A LIBRARY, HE CAN EDUCATE HIMSELF! The Green Thumb Program has enabled the staff to sponsor exceptional reading and other educational programs for the children and youth.

This Library has a good genealogy department manned chiefly by volunteer workers and contributed materials. The Friends of the Library organization is very active. So much pride is taken in the Library that it should not be allowed to die for lack of funds for workers to keep its doors open. Many citizens cannot reach another Library.

I urge that you consider seriously funding GREEN THUMB workers for this Library. Many others join me in this request.

Most sincerely,
Rita N. Groves

Two Exciting Friends Trips Planned For Spring: Fort Davis, TX and Scotland

by David J. Murrah

Two exciting Friends trips are being planned for the spring and it's not too early to get your name on the list! In April, we will have a two-day one-night trip to the Highlands of West Texas at Fort Davis. Then in late May and June, to the Highlands of Scotland for a very special visit!

The first trip is the Friends' Sixth Annual Spring Trip, this time to historic Fort Davis and the beautiful Davis Mountains, scheduled for April 17-18, 1991. This is our first overnight adventure. We will go by motor coach, with an early-morning departure with breakfast on board. During the first afternoon, we will tour the Davis Mountains State Park and then make a trip to the McDonald Observatory on nearby Mount Locke. After a delightful dinner (not included) at Indian Lodge, where we will also spend the night, we may have a lecture by a park ranger from the Fort Davis National Historical Site.

On the second day, we will tour old Fort Davis, and, before departing the community, spend some time shopping in the quaint stores of the town of Fort Davis. Maybe there will even be time for a chocolate sundae or even a phosphate at the old-time soda fountain at the Fort Davis Drug Store! We will have an included dinner enroute back to Lubbock where we will arrive about 9 p.m. The cost for the Fort Davis trip is

tentatively set for \$60 per person (based on double-occupancy) and includes transportation, lodging, one breakfast and one dinner.

The Scotland trip comes at the invitation of the Lord Provost of the City of Dundee. His city is preparing to celebrate its 800th anniversary in early June and wants a Texas contingent to be part of the festivities. Why the Friends of the University Library/Southwest Collection? Because the Southwest Collection holds the records of the Matador Land and Cattle company, which was a Dundee corporation, the City of Dundee wanted its American group to be from West Texas.

Because plans are still being finalized, we do not know the cost of the trip, but we have locked in our air fare at a reasonable rate. The trip will begin Thursday May 30; we will fly directly to Glasgow, Scotland, and then take a short train ride to Dundee where we will participate in the weekend celebration. Then we head north for a delightful three-day trip into the beautiful Highlands to see castles and rustic villages. We wrap up the trip in story-book Edinburgh where we will tour the city and its historic castles, and then return home on Saturday, June 8.

If you would like to insure a spot on either trip, please call Roberta Casella at 742-3685 and ask her to put your name on a waiting list. This action does not obligate you in any way. Deposits will be required at a later date.

Public Notice

NOTICE TO PUBLIC OF NO SIGNIFICANT EFFECT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

City of Matador
P.O. Box 367
Matador, Texas 79244
806-347-2255

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about December 17, 1990, the above-named City of Matador will request the Texas Department of Commerce to release Federal funds under Title I of the Housing and Community Development Act of 1974 as amended, to be used for the following project:

ACTIVITY: Wastewater Facility Improvements
TEXS COMMUNITY DEVELOPMENT PROGRAM: Contract No. 709881

Project to be located in Motley County, Texas. A more detailed description of the project and a map showing the specific locations of the proposed improvements is available for public examination at City Hall, 706 Dundee.

Finding of No Significant Impact

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the above-named City of Matador has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969.

The Reasons for such decision not to prepare such Statement are as follows:

1. There will be no negative impacts on the environment as a result of the proposed project.
2. Temporary increase in noise, dust or other nuisance that will occur during construction, will be of short duration and low intensity and will cease on the completion of the construction.
3. The project to be undertaken will not affect any known local, state or national historic, architectural or archeological resource presently listed or potentially eligible for listing in the national register of historical places or in any state or local registry.

4. The project will not be affected by nor will it affect the 100-year flood plain.

5. No effect is expected on protected or endangered wildlife or vegetation.

An Environmental Assessment respecting the within project has been made by the above-named City of Matador which documents the environmental review of the project and more fully sets forth the reasons why such Statement is

not required. This Environmental Assessment is on file at the above address and is available for public examination and copying upon request in the office of the City Secretary between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday.

Public Comments on Finding

All interested agencies, groups and persons disagreeing with this decision are invited to submit written comments for consideration by the City of Matador, to the office of the undersigned. Such written comments should be received at City Hall on or before December 14, 1990. All such comments so received will be considered and the City of Matador, will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

Release of Funds

The City of Matador will undertake the project described above with Community Development funds from the Texas Department of Commerce under Title I of the Housing and Community Development Act of 1974. The City of Matador is certifying to TDOC that the City of Matador and Gary Lancaster in his official capacity as Mayor consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental assessments, decision making and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval the City of Matador may use the Texas Community Development Program funds and TDOC will have satisfied its responsibilities under the National Environmental Policy Act of 1969.

Objections to State Release of Funds

Texas Department of Commerce will accept an objection to its approval only if it is on one of the following basis: (a) that the certification was not in fact executed by the certifying officer or other officer of applicant approved by TDOC; or (b) that applicant's environmental review record for the project indicates omission of a required decision finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58.75) and may be addressed to Texas

Community Development Program; Texas Department of Commerce, P.O. Box 12728, Capitol Station, Austin, Texas 78711.

Objections to the release of funds on basis other than those stated above will not be considered by TDOC. No objection received after January 2, 1991 will be considered by TDOC. The Chief Executive Officer of the City of Matador is Gary Lancaster, Mayor.
