## Matadors Finish Third In District

MOTLEY COUNTY MATADOR, Chris Campbell carries the ball, as team members Clay Ewing, 12 and David Alexander, 1, go in for the block, against the Munday Moguls, in Friday night's last game of the season. The Matadors were defeated 42-6, to place third in District.

Photo by Mary Renfro

A victory was won as the 1990 football season came to a close, even though the Matadors lost to Munday, they were rated on the bottom of the list at the beginning of the season. With the coach-

ing staff and the boys pulling together, they gained much during the season to finish 3rd in the District.

Coach Hodges stated he has enjoyed coaching this group of guys very much

this year. They have progressed and become an excellent football team.

The score may have shown defeat but the Mats played hard and held the Munday Moguls in the first half to a 13-6 score.

Motley County had some good turnovers in the second half as the Quarterback, David Alexander, carried the ball, passed and handed off to teammates Matt Washington, Clay Ewing, Chris Campbell, Mathew "Henry" Linson and Burr Barton. Jason Jameson centered the ball and blocked and tackled as did Johnny Martinez, Joel Guerrero, Cory Kendell, Frankie Ortiz, Jason Stanley, Brad Wilson, Bradley Jameson, Noel Guerrero, Andy Renfro, Chancy Cruse, Mat Linson, Paul Barton, David Alexander, Matt Washington, Clay Ewing, Burr Barton and Chris Campbell. Other teammates playing throughout the year were Neal Sedgwick, Billy Martin, Eric Farley, Robert Osborn, Shane Taylor, Jeremy Jameson, Tye Stephens, Leslie Lester, Roegan Cruse, Cody Barclay and Kyle Mars. Tad Terrell started the season and broke his wrist so he assisted as manager.

The yards gained were Motley, 212; Munday, 297. 1st downs by Motley, 8; Munday, 25. Yards rushing, Alexander, 38; Ewing, 52 and Campbell, 64.

The stats for the season were 385.9 yards average rushing per game, 3473 yards for season. Alexander completed 40 passes for 691 yards, Kendall kicked 2111 yards, Linson kicked 625 yards (punts). Yards rushing, Ewing 971; Campbell, 960; Alexander, 355; Linson, 250 and Ortiz, 108.

Passes received and yards gained: Washington, 240; Campbell, 187; Ewing, 167; B. Barton, 98 and Wilson, 20.

You'll always be champs in our eyes, Motley County Matadors, 1990-91.

## Community Thanksgiving Services To Be Held Sunday

The annual Community Thanksgiving Service will be held Sunday, November 18, at 7:00 p.m., at the First Baptist Church, Matador, with Mary Helen Cross, Methodist minister, speaking.

Billy Donaldson will lead congregational singing, and several special music presentations are planned.

All local residents are invited to attend this service and enjoy refreshments afterwards.

Community Services at Roaring Springs will be held at the Assembly of God Church at 7:00 p.m., November 18, 1990.

Rev. Charles Fisk, pastor of the Roaring Springs First Baptist Church will bring the message.

Special music will be presented by community churches.

Fellowship will follow in the Fellowship Hall.

## Booster Club Spirit Rally will kick-off Basketball Season

A Spirit Rally Thursday (tonight) November 15 at 7:00 p.m. in the gymnasium to kick-off the school's winter sports program will be hosted by the Athletic Booster Club of Motley County.

Parents, grandparents, and friends are invited to the fellowship introducing members of the Junior High and the High School boys and girls basketball teams. It is also picture night so everyone is urged to bring a camera.

A touch of athletic history will be presented by former athletes J.E. Edwards, Raby Webb, Bertha Stearns, and Gertrude Smith along with former cheer-

leaders Lucretia Edwards Campbell and Rhea Lawrence. Changes in rules, uniforms, and even cheerleading yells will be evident as these guests take us back for a quick look at "Yesterday."

The spirit of competition set forth by our athletes of today is very catching. The Booster Club has scheduled a fun contest to test the competitive nature of two of Motley County's newcomers and most important authority figures.

Everyone is invited to stop by for a short evening of fun, fellowship, and refreshments.

## Hospital Board Selects New Ambulance

The Motley County Hospital Board met in a special session, Thursday, November 8 at 7:00 p.m. This meeting was

to discuss the pros and cons of selecting a new ambulance. Board members attending were Larry Hoyle, James Stanley, H.C. Smith, Bob Davis and Ruth Lee.

Others attending were Tony Rose, Lisa Rose, Jim Meador and Boyce Hart.

Tony Rose explained that he had made a trip to Jayton to look at their new Collins Van (type 2).

Bob Davis had talked to the Vernon Fire Chief and they had a new Cayel

Craft van, which they liked.

After discussion the Board chose to purchase the Collins, 4-1. The Board and EMS members, Tony Rose, Lisa Rose and Jim Meador made a list of specifications they requested on the extended Van Ambulance to be ordered. Meeting adjourned.

## Echols-Birnie Memorial Given Museum

The Motley County Historical Museum committee gratefully acknowledges historical items and a memorial in honor of Mr. and Mrs. D.I.W. Birnie given recently by Mr. and Mrs. Bobby Echols of Lubbock.

Photographs, passports to Scotland, anniversary issues of the Tribune, a Life Magazine featuring the Matador Ranch, books, and historic letters were among the interesting items shared to document the history of Motley County in the coming centennial year.

## Early Deadline for Thanksgiving Paper

The Motley County Tribune will have an early deadline for the Thanksgiving edition, which will be mailed out Tuesday afternoon, November 20 and will be in the mailboxes on Wednesday morning, November 21.

We are asking that all news and ad copy be brought into our office no later than noon Monday, November 19.

We appreciate your cooperation.

## CORRECTION

The following paragraph was left out of the article, "Items Trickle In As Museum Gains Momentum", which was printed in last week's edition of the *Motley County Tribune*, by mistake: "Houston attorney Tom Edwards, an enthusiastic supporter of Motley County in many quiet but encouraging ways, sent a splendid collector's item of a map of Texas which is due to be hung in the foyer as soon as feasible."

We apologize for this mistake.

## Pay-N-Save Suffers Second Theft

Pay-N-Save grocery store in Matador suffered two burglaries in two days last week, most recently of about 150 cartons of cigarettes and meat valued at \$3,000 according to Sheriff Alton Marshall.

In both burglaries, the suspect or suspects entered the store on Main Street by breaking a window pane at the rear of the building, Marshall said.

The first break-in occurred early Tuesday morning of last week.

Early Thursday morning, employees found evidence of another break-in, Marshall said. This time, more than 40 cartons of cigarettes were found scattered on the floor, leading investigators to believe that the thieves had been scared off.

No arrests have been made in either burglary, and a Texas Ranger from Plainview has been called in to assist in the investigation.

## Matador City Council Meeting Report

The Matador City Council met Thursday, November 8 with Mayor Gary Lancaster and Council members, L.B. Campbell, Pete Williams, Travis Jameson, Ed Lawrence, Shane Jones and City Secretary, Nell Berryman, present. Mayor Lancaster asked for the bills to be read. They were approved.

Minutes were read. The Council discussed the benefits of SPAG to the city and if they should stay with them or not. This was tabled until more information is gathered.

A Resolution was passed for a Fair Housing Act for the City of Matador.

We have not had as many visitors lately as we would like, but the following have been in: Linda Hotcho of Dickens; Calvin Cooper of Groton, CT and Martha Cooper Shacklett of Tyler, TX. We are glad these people come to visit and hope they will come back soon.

Library School met Tuesday and the children enjoyed singing with Lola Pohl and viewed two films. They also had a story and made Indians with feathers. The following children were in attendance: John Wesley Stevens, Kittie Campbell, Cole Grundy, Colton Russell, Fannin Gwinn, Michael Grant, Brittany A. Moore, Emily Hurt, Amanda Hurt, Chance Alan Bingham, Brett Wallace, Cody and Clay Cooper, Derrick Griggs and Shelby Stokes. I would like to encourage all preschool children at least 2 years old to come to Library School on the 2nd and 4th Tuesday of each month.

The next meeting in December will be Tuesday, December 11. Come have lots of fun and make new friends!

I would like to once again say thanks to Betty Moore for helping out at the last minute. Thanks, Betty!

The following people have recently donated books, some paperback and some hardback: Loretta Cross, Mrs. John Lincoln, Keith Patton, Arletta Meyer and Mr. and Mrs. Dick Dirickson. These books are greatly appreciated and we say thanks to each of these donors as well as the ones that leave books in the book drop or at the front door. Some of these books are now on the shelf and the others will be as soon as possible.

**El Progreso Club Hears Thanksgiving Message**

Thanksgiving, the time of giving thanks for all the blessings and achievements amid a time of tensions, was brought to light Friday afternoon when El Progreso Club met in the conference room of Motley County Library. The meeting was called to order by club president, Mrs. Joe (Loys) Campbell stating the club had won two awards at the workshop held in October, 100% subscriber to the Texas Clubwoman and second place in the Environmental Education program. A fifty year certificate and gold card will be presented to Mary Keith for her devotion and steadfast work, when able, towards the club and its goals, she being one of the honorary members recognized by the club. We were reminded this is the time for gifts for Vemon center for Christmas to be brought to Nell Clem in the next two weeks to be sent before the Thanksgiving holidays. Roll call from the members was "Thankful for What?"

Mrs. Campbell, as leader for the day read the caption from the yearbook, Psalm 107: "O give thanks to the Lord, for he is good for his steadfast love endures forever! Let the redeemed of the Lord say so, whom he has redeemed from trouble and gathered in from the lands, from the east and from the west, from the north and from the south." She then introduced the speaker for the afternoon, Mrs. Mary Helen Cross, minister of Frist United Methodist Church.

Taking part of her message from THE LIGHT AND THE GLORY by Peter Marshall and David Manuel, she informed the group the subject matter was from the time of Columbus to the Revolution and gives a new perspective on what we've been called to do. When Christopher Columbus set out to find an eastern route to the Indies, he believed God to be leading him. She then read a part of his diary in that he was definitely led by God in this exploration and adventure. Columbus' name means "Christ Bearer" and though he was not the first to discover North America, he was the first to bring Christ to the new world. As a strong believer in his God he put the travails of the times in His hands and was seen through them. When his men were so discouraged and wanting to turn back, Columbus, also discouraged, gave God three more days

in this second part of the earth."

The Spaniards and Portuguese, more interested in gold and silver than in spreading the word of Christ, did bring Catholic priests with them.

The English came to America in 1585, nearly 100 years after Columbus' voyage. The Queen of England didn't want the Spanish or French to get all of the gold in America. Thirty-five years later the Pilgrims set out for a new land in which they could worship Christ in their own way. With many adventures they arrived in New England. During the first winter nearly half died but they drew together and relied more heavily on God's providence. In March of 1621 an event that changed, forever, the face of a nation occurred. An Indian arrived, one who spoke English, Samoset. He was able to tell them about the area, what would grow and how to grow it. With hostility of the Indians previously, and a plague that had broken out among the tribe the land belonged to no one. The pilgrims were thankful to God and Squanto, an Indian friend of Samoset who had been captured some years earlier, lived in a monastery and became a Christian, then led to England and back to his homeland to find his tribe killed by plague.

Looking at the 20th century, the story of the founding fathers is a great one, the achievements of these few men and women was stupendous. We need to see to what depths we have dropped as a nation and how we are trying to overcome it. So much seems to have gone downhill but we still are living in the "land of the free and the home of the brave" and are still "One nation under God, indivisible, with liberty and justice for all." God has given us many gifts, but we can't simply assume that His providence will continue anymore than the Israelites could assume that their Promised land would always be flowing with Milk and Honey. Mrs. Cross then read the Thanksgiving recess, Psalm 95, as a closing for the day's program, one thoroughly enjoyed by all.

Mrs. Frank (Lola) Pohl played the casio while the group sang, "Count Your Blessings" and "Bringing in the Sheaves". Mrs. Dale (JoEitta) Bumgardner was hostess for the afternoon serving hot punch and pumpkin cake from a Thanksgiving holiday decorated table to those mentioned and Mrs. W.D. (Vena) Lipscomb, Mrs. E.A. (Dorothy) Day, Mrs. Ted (Bailey) Elliott, Mrs. J.E. (Marge) Edwards, Mrs. Furman (Beverly) Vinson, Mrs. Douglas (Lila) Meador, Mrs. Bob (Nell) Clem, Mrs. Harold (Grace) Campbell and Mrs. John (Josephine) Hamilton.

**QUICK, SAFE MICROWAVING HOW SAFE IS YOUR MICROWAVE OVEN?**

More than 75 percent of American households use a microwave oven to thaw, cook and reheat food in minutes, even seconds. A microwave saves time, dirty dishes, retains more nutrients and allows cooking with less fat.

Microwave ovens which are used properly are extremely safe. The Food and Drug Administration's (FDA) Center for Devices and Radiological Health ensures that microwave ovens made after 1971 meet a radiation safety standard.

Despite the advantages and the growing popularity of microwave ovens, they are still new enough so that many traditional cooks are unaware of necessary safety precautions. To insure that food is safe from harmful, food borne bacteria as well as from certain other contaminants, observe these tips:

The standard limits microwave leakage to 5 milliwatts per square centimeter at about two inches from the oven -- a very low level of exposure. FDA tests have shown that the actual microwave emission is even less and there is no radiation residue after microwave production stops.

\* Do not partially cook a food ahead of time to make microwaving faster. Cooking ahead is fine, but raw foods should be cooked thoroughly during the first cooking. Partially cooking can be dangerous if the food does not get hot enough to kill the bacteria that may be in raw meat.

To make sure radiation levels from a microwave oven remain as low as possible, consumers can take the following steps:

\* Do not refreeze meat or poultry that has been thawed in a microwave oven. Foods thawed in the microwave are subject to very low cooking temperatures. Some areas of the food may even begin to cook. If you thaw food in the microwave, you should cook it all immediately.

\* Don't use an oven if an object is caught in the door, if the door doesn't close firmly or is otherwise damaged.

\* Take care to avoid uneven cooking. Arrange meat and poultry pieces uniformly in a covered dish so steam can help kill bacteria and promote uniform heating. Stir and turn the dish several times. Observe standing time.

\* If you suspect excessive microwave leakage, contact the manufacturer, a reputable servicing firm, the local or state health department or the nearest FDA office.

\* Discard food that was forgotten and left for more than two hours in the microwave after thawing. Subsequent ordinary cooking won't destroy some harmful bacteria that could form.

\* Don't operate an empty oven if the instruction manual warns against this. In some ovens, the magnetron tube can be damaged by unabsorbed energy.

\* Use only the type of dishes that are designed for microwave ovens. Materials in freezer bags, margarine tubs or other plastic containers were approved for storing food, but not for microwave cooking. When heated, chemicals in the containers could migrate into food. Also, do not use recycled paper products in microwaves. They can contain contaminating chemicals or cause fires.

\* If there are signs of rusting inside the oven, have the oven repaired.

\* Clean the door and the oven cavity with water and mild detergents. Do not use abrasives such as scouring pads.

\* Follow the manufacturer's instruction manual for recommended operating procedures and safety precautions.

\* Be sure that children who use the microwave can do so safely. Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Thought for the Day:  
 People are like stained glass windows; they sparkle and shine when the sun is out, but when the darkness sets in their true beauty is revealed only if there is a light within.

**DPS Urges Caution for Thanksgiving Traveling**

The Thanksgiving Holiday has always been a day when we give thanks for the lifestyles we enjoy here in the United States - some things a lot of us take for granted, such as our freedom, good jobs, vacation, and our automobile. Everyone agrees the automobile and all it has brought to this nation is marvelous, but it could be an instrument of suffering and even death.

"This Thanksgiving Holiday weekend, thousands more drivers will be on the streets and highways. Some drivers will only be going across town - others will be crossing several states."

Major Cawthon also said, "The Department of Public Safety wants you to have a safe and pleasant holiday, so if you're planning a trip out of town, check your car, the road conditions, the weather conditions, and your driving habits. Remember, that the early darkness and heavy traffic call for more caution and less speed."

### FRIDAY, NOVEMBER 23:

THANKSGIVING HOLIDAY!!

More and more people are dying in car wrecks these days than ever before. You may not think much about it when you get into a car, and take off, but did you know that there is always a chance you may not step out?

I'm only 16. I haven't even driven a whole year with my license, but I do know to buckle my seatbelt before I go anywhere. I feel more secure with a seatbelt. It makes me think that someone's holding on to me.

I read an article Sunday, in the Lubbock Avalanche Journal, in Ann Landers column about wearing seatbelts. It really made me think. It described what happens when you hit a solid object, and well, it sends chills down your spine!

Wouldn't you rather take two seconds to put on your seat belts than 2 seconds to wreck a life?

The following facts are from an "Ann Landers" column, printed in the Lubbock Avalanche Journal.

### LITTLE KNOWN FACTS THAT DESERVE ATTENTION

Do you know what happens in the first fatal second after a car going 55 miles an hour hits a solid object?

In the first 10th of the second, the front bumper and grille collapse.

The second 10th of the second, the hood crumpling, rising and hitting the windshield as the spinning rear wheels lift from the ground. Simultaneously, fenders begin to wrap themselves around the solid object. Although the car's frame has been halted, the rest of the car is still going 55 miles an hour. Instinct causes the driver to stiffen his legs against the crash and they snap at the knee joint.

During the third 10th of the second, the steering wheel begins to disintegrate and the steering column aims for the driver's chest.

The fourth 10th of the second finds

two feet of the car's front end wrecked while the rear end is still moving at 35 miles per hour. The driver's body is still traveling at 55 miles per hour.

In the fifth 10th of the second, impact has built to the point where the driver's feet are ripped out of the tightly laced shoes. The brake pedal breaks off. The car frame buckles in the middle. The driver's head smashes into the windshield, as the rear wheels, still spinning, fall back to the earth.

In the seventh 10th of the second, hinges rip loose, doors fly open and the seats break free, striking the driver from behind.

The seats striking the driver do not bother him, because he is already dead.

NOW WILL YOU BUCKLE YOUR SEAT BELT?

*Train up a child in the way he should go: and when he is old, he will not depart from it.*

Proverbs 22:6

## Teacher Profile

by Amy Woolsey

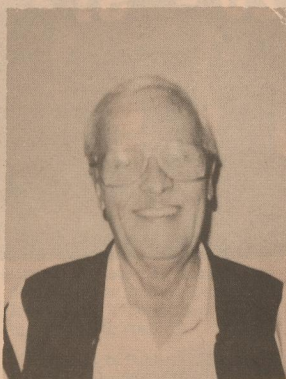

Mr. Bob Moore is the Jr. and Sr. English Teacher and Coaches Girls and Boys Basketball and is the Assistant Football Coach.

He is originally from Amarillo and Dallas and attended school in these cities. He attended college at Amarillo College (Basketball) and graduated from A&M. He obtained his Masters degree at West Texas State University and also attended Texas Tech.

## UMYF to hold Holiday Parties

by Mandi Carson Secretary

For this year's plans for UMYF, many activities are planned.

For all your goodies and treats we will be having a bake sale on November 17 and December 28, at Pay-N-Save Grocery in Matador, so be sure you come and see all the good candies and cookies we will have. Also we will be having a party on November 21 and if you are in the youth group we ask you try to bring

Thanksgiving snacks, nothing big or fancy, just a snack. We will also be having a Christmas party on December 19. If you are in this youth group you will need to bring a gag gift. You need not spend more than \$2.00 or \$3.00.

If you need more information please call Mary Helen Cross, the Pastor of the Church at 347-2727 or Mandi Carson at 347-2664.

Everyone is invited to join us. Have a safe and happy holidays.

## City Council Report

continued from page 1

Matador's T.V. Cable service was discussed. Council discussed what could be done to make Mission Cable upgrade their service or get out. Mrs. Berryman explained the equipment is old and they haven't ever upgraded or replaced the old, worn out equipment and lines.

It was decided to check with other cities and compare quality of cable service. F.M. Radio service has been off since early spring, and channel 28 goes off regularly. The Council discussed canceling franchise, according to the last franchise agreement was made in 1984 for a 5 year period, which is now outdated. It was decided to talk to the City Attorney, Tom Hamilton about procedures to be taken.

Meeting adjourned.

## FFA Chapter Competes in Greenbelt Leadership Contests

FFA MEMBERS competed in the Leadership Contest, held at Clarendon College, November. Pictured are (back row l-r) Jeromy Jameson, Brad Wilson, Daniel Alexander and Jason Stanley; (next row l-r) Clay Ewing, Frankie Ortiz and Cody Barclay; (kneeling l-r) Kyle Mars, Matt Mangram, Dustin Davis and Robert Osborn.

Members of the Motley County FFA Chapter competed in the Greenbelt District FFA Leadership contests held at Clarendon College on November 3, 1990. Four Texans represented the Motley County chapter and they gave a good showing against the rest of the District. The Jr. Chapter conducting team finished

in first place, and will represent the Chapter and District at the Area I contest to be held at Clarendon on November 17. Team members are: President, Jeromy Jameson; Vice-President, Frankie Ortiz; Secretary, Matt Mangram; Treasurer, Robert Osborn; Reporter, Dustin Davis; Sentinel, Cody Barclay and Advisor, Kyle Mars.

Daniel Alexander finished 2nd in the Extemporeous Speaking Contest. This contest gives the contestant 30 minutes to write a 4 to 6 minutes speech on an Agricultural related subject. The contestant draws the topic he will speak on immediately before his preparation time begins. Daniel will also compete the Area I contest on November 17.

Matt Mangram finished 3rd in the Creed speaking contest. In this contest, the speaker is judged on the volume, inflection, quality of voice, and accuracy with which he recites the 5 paragraph FFA creed.

The FFA Radio team finished 8th. Team members were: Clay Ewing, Jason Stanley and Brad Wilson. This contest is designed to test the speaking and interest holding abilities of the team members as they present a program that simulates a weekly or monthly radio program put on

by members of the FFA chapter. The purpose of the FFA Leadership contests is to develop skills in speaking, thinking, presenting a positive image, and teamwork that will benefit the students throughout life.

## Odis Crowell Scores In HSU Hall Of Fame

From the humble beginnings of sandlot football to college and pro ball eminence, Odis Crowell scored points with his recent induction in the Hall of Fame of Hardin Simmons University in Abilene.

The Flomot native played with HSU Cowboys from 1934 until 1937, when as a 220 pound tackle he captained the team. From there he went on to play pro ball.

Described in Los Angeles Examiner sports column as "one of the greatest tackles ever produced in the Pacific Coast Football League," Crowell signed a contract with the Los Angeles Bulldogs over the L.A. Dons, the L.A. Rams, and the San Francisco 49ers. In his fourth and final year of pro ball, he played for the 49ers.

Son of Mr. and Mrs. Leonard Crowell, young Odis played football on the grassbur football field of Flomot.

"In the early 30's," a school mate remembered, "Odis and several other Flomot and Whiteflat boys were given a chance to enroll in Matador High School—mainly to play football and basketball. Some were given rooms in Henry Pipkin's old house where they 'batched' and some were given odd jobs, like sweeping out stores."

Despite the lack of money, business men chipped in to the athletic fund to buy some rather skimpy, by today's standards, pads, uniforms, thin leather shoes, and hard leather helmets.

Coach Harvey Stanford pulled together his recruited Motley crew in 1934 and inspired them to win the regional championship. The coach's efforts were rewarded with a new shiny black sedan presented by the Matador Lions Club and the Business Men's Athletic Fund.

Crowell left the Matadors to play on Frank Kimbrough's Amarillo College team. As an outstanding tackle he was offered several scholarships to play football at larger schools, but when Kim-

brough accepted the head coaching position at Hardin-Simmons, Crowell and several A.C. players followed. During his three seasons there the team won the Sun Bowl twice.

Though drafted to play pro ball with the Chicago Cardinals, Crowell took a four year option with the Air Force. After his stint with the AF, he worked as a welder in a defense plant.

When his eight hour shift was over, Odis hopped on a motorcycle to beat the L.A. traffic to ball practice. His weekends were spent playing pro ball for the L.A. Bulldogs and the Hollywood Rangers.

While a coach at Loyola High, the athlete spent his last year of professional ball with the Forty Niners.

In the meantime, his good buddy Kimbrough had gone to West Texas State and needed Crowell as line coach, a position he filled for the next four years. The 1950 Buffaloes, with Crowell's aggressive forwards, won the Sun Bowl game against University of Cincinnati.

Former 49er teammate, Bob Winslow drafted Crowell to join his coaching staff at University of Arizona. His college coaching ended with another go at West Texas under Clark Jarnagin.

From coaching, Crowell became director of Vocational Education at Amarillo College, then taught at several junior colleges before settling down at Amarillo in retirement.

The Crowells, Odis and Wilma, have four boys, Max, employee of U.S. West Telephone of Tucson; Steve, a U.S. Army test pilot of Killgore; Jimmy, a real estate broker of Houston; and Kent, a teacher of Morton.

Odis is remembered fondly by his old friends and who share in congratulating him on scoring in the game of life with his most recent honor, the HSU Hall of Fame.

### CHANGE NAME IN MEDICARE CLAIMS PROCESS

If you have Medicare medical insurance, you should know about an important change in the way your claims will be handled.

Starting September 1, 1990, your medical insurance claim must be prepared and submitted by the service provider -- the doctor, laboratory, medical supply company, or other party providing the service.

In the past, you had to submit a Form 1490S (Patient's Request for Medicare) unless your doctor or service provider

accepted "assignment." (Assignment means that the doctor or other service provider accepts the Medicare-approved charge as the total charge.)

But now, the doctor or other service provider must send in your claim even if they don't accept assignment.

The service provider can't charge you for preparing and submitting the Medicare claim. If a service provider refuses to prepare and submit your Medicare claim or charges you a fee for doing it, you should contact your Medicare carrier.

The carrier's address and phone number are listed in your copy of the Medicare Handbook.

## Granddaughter Captures 1st Place In Horse Clinic

Emily Roy

The 4-H horse method demonstration team from Texas, including Emily Roy of Weatherford, the granddaughter of John and Dorothy Russell of Matador, captured first place at the 1990 National Western 4-H Horse Classic in Denver, CO, recently.

Roy, who moved from Georgetown to Weatherford in August with her family, represented Williamson County along with her teammate Holly Brock.

The demonstration entitled "Methods of Restraint" included information on

mechanical, chemical, and psychological methods of restraining a horse.

The team won first place honors with the method demonstration at state competition in Abilene last spring and went on to win first at Southern Regional 4-H Horse Classic in Nashville, TN, in July.

"Our goal was to make a clean sweep," said Roy. "We wanted to win first at state, Southern Regionals, and Nationals, and we are excited that we were able to do that."

Roy and Brock also presented a method demonstration during last year's competition that won second place both at the state level and at Southern Regionals in Atlanta, GA. That demonstration was entitled "Code Blue" and told horse owners what information to have available to tell the veterinarian when calling about a sick or injured horse, in addition to suggesting preliminary first aid procedures that are acceptable while waiting for the vet to arrive.

"The experience of last year's competition helped us know what to do to improve our demonstration this year," said Roy. "We can't compete again in this area though now that we've won nationals."

Roy is the daughter of Tom and Linda Roy of Weatherford and is a junior at Weatherford High School. Brock is the daughter of Jim and Paula Brock of Georgetown and is a freshman at Texas A&M University.

A gentle answer turns away wrath, but a harsh word stirs up anger. Proverbs 15:1

### Glory In The Morning

Each day seems to bring with it the miracle of renovation. It is as if God were saying, "Here is a fresh, unspoiled opportunity! Behold, I make all things new!" All that is required in order to know the joy and thrill of it yourself, is the resolve to begin each day by giving your life to God. Do it each day as if you had never done it before. I am growing more and more

convinced that a great part of the secret of achieving steadfastness and serenity in the face of life's battles is this: Not only to commit your way to God in some high decisive moment of conversion, but to do that very thing every morning. A period of recollection and prayer with our Great God before the business of the crowded hours begin. This will give the daily renovation its chance to work out in your own life. It will make all things new and fresh and fair as when the morning stars sang together when the world was young. And your heart will echo with the poet's song, thinking of our God—

Awake, my heart, to be loved, awake, awake!  
The darkness silvers away, the morn doth break,  
It leaps in the sky: unrisen lustrous slake  
The O'er-taken moon. Awake, O heart, awake!

For it is a great thing to be loved by God. And so "in the morning", any morning, every morning, "then ye shall see the glory of the Lord."

### OVERHEARD

When the government is planning to spend an additional \$1.75 for every \$1 of new taxes, we are concerned, because it appears our leaders may have grown fearful of a freeze on government spending and of asking this nation and themselves to bear up under difficult times. Whether we know it or not, we stand at the crossroads. Will we face and defeat our troubles or collapse under their weight???

### FREEZING WEATHER CAUSES DAMAGE

Freezing temperatures with sleet and rain, Tuesday night, Nov. 6 caused extensive damage in northwest Motley County to pecan, shade and fruit trees. The countryside and yards around homes were littered with broken tree limbs and branches Wednesday morning because of the heavy accumulation of ice.

To the dismay of residents, laden icy limbs caused destruction of roofs, outdoor furniture and blocked doorways. The windshield of Morris Stephens' pickup was demolished by a fallen limb. In the cleaning-up process, everyone was amazed that tomato plants and flowers were continuing to bloom and green leaves were still clinging to damaged trees and in cotton fields!

Visitors of Mr. and Mrs. Morris Stephens, Saturday were Mr. and Mrs. Perry Killman and daughter, Lynn of White River.

Mr. and Mrs. Harold Gordon of Post visited from Friday until Sunday with Mrs. Juanita Cooper. They have been in Floydada during the week with their mother, Mrs. Bob (Doll) Jameson of Matador, a patient in the Caprock Hospital.

Brenda Harvey and daughter, Julie of Amarillo visited from Wednesday until Sunday with Mr. and Mrs. Davis Harvey. Julie remained to visit.

### PUBLIC NOTICE

On July 19, 1990, GTE Southwest Incorporated ("GTE-SW") filed revisions to the company's tariff pertaining to the features and associated equipment for providing emergency number services (9-1-1).

In this filing, GTE-SW proposes to modify its existing 9-1-1 tariff and to add more than 200 new service offerings. The new items of service and equipment in this application have been added to meet the company's increasing 9-1-1 customer demands and to allow GTE-SW to compete more effectively in the 9-1-1 equipment market.

The product line in the new offerings consists of a mini-computer and specialized console package for larger communities, as well as a personal computer with Automatic Number Identification (ANI) display for smaller communities. (ANI displays a caller's telephone number on the emergency dispatcher's computer screen.) In addition, the product line will include ANI and Automatic Location Information (ALI) display units compatible with, and similar to, those offered by Southwestern Bell Telephone Company and other local exchange carriers in Texas. (The ANI feature displays a caller's address on the computer screen.) The rate charged existing 9-1-1 customers may be revised at the expiration of their contracts with GTE-SW if the proposed tariff is approved.

This filing has been assigned Docket No 9667. The hearing on the merits is scheduled for February 25, 1991, at the offices of the Public Utility Commission of Texas. The deadline to intervene in this docket is December 31, 1990.

Persons who wish to intervene or otherwise participate in these proceedings should notify the commission as soon as possible. A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas, 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.

**Legal Notices**

**AMENDED NOTICE OF RATE CHANGE REQUEST AND STATEMENT OF INTENT**

Notice is hereby given that DICKENS ELECTRIC COOPERATIVE INC., (the "Utility") intends to establish a new loan retention rate for qualifying large power loads over 2000 KW. The load retention rate includes a separate factor for recovering power costs associated with the customer's load. The Utility intends to change the power cost recovery factor applicable to all other customers to exclude the cost of power and KWH sales to customers utilizing the load retention rate. The changes are proposed to be effective as soon as may be permitted by law. Based upon a test year ended December 31, 1989, the proposed changes result in a decrease less than actual test year revenues of \$224,542 or 1.6%. The changes are applicable to all areas, all customer classes, and all customers served by the Utility.

Implementation of the proposed load retention rate and other changes is subject to approval by the Public Utility Commission of Texas. A statement of intent including the proposed revisions of tariff and schedules and a statement specifying in detail each proposed change is available at the general office of the Utility located at Spur, Texas.

For many years, large high load factor customers have paid a disproportionate share of power costs. The proposed method of power cost recovery more accurately tracks the cost of providing service by placing more of the responsibility for payment of power costs on customers who cause the utility to incur those costs. Based upon a test year ended December 31, 1989, the proposed rates, if approved, will result in an increase in billings to all classes of affected customers. The amount of power cost that will be incurred in the future cannot accurately be predicted.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.
