## Roundup A Big Climax

One of the floats in the Hansford Roundup parade Saturday in Spearman.

A parade scene in downtown Spearman Saturday showing wagons, horseback riders, and vintage cars in the background.

## PRPC Files Motion To Dismiss

Thirteen defendants in a long pending suit contesting the existence of the Panhandle Regional Planning Commission, have filed a motion to dismiss the suit. The motion was filed before Plainview Judge Robert Boyd, and has been set for hearing, June 13. Boyd is the third judge to hear the case. The other judges were District Judge George Dowlen of Amarillo and District Judge Bryan Podd of Amarillo. The case has been transferred to Plainview due to conflicts of interest and crowded dockets.

The defendants in the case include, The City of Spearman, the City of Perryton, the City of Canyon, Randall County, Commissioners Court, Potter County, the City of Amarillo, the PRPC and executive Director George Louder, Farmer County, Wheeler County, the City of Shamrock, Gray County, the City of Pampa, and Deaf Smith County.

Several years ago, Dr. Donald Todd, a West Texas State music professor, and a dozen other area persons filed the suit. Major amount the almost twenty reasons listed for dismissal is the argument in the motion for summary judgment, that the plaintiffs failed in their original and subsequent petitions the show a genuine issue of controversy. The defendants argue that allegations fail to give facts to support the charges. Originally, plaintiffs contended that the PRPC was unconstitutionally organized and operated; and that funds paid in the PRPC by local governments were illegally transferred. They also contended that the organizations by-laws discriminate against the majority population in the 25-county PRPC region, by mandating that minority groups be represented on the PRPC governing board. The PRPC is responsible for obtaining grants from Federal and State governments of various natures, for the benefit of its represented government agencies. Other joint services are provided by the PRPC.

## Fiddler Winners Named

The Annual Hansford County Fiddlers Contest was held in the High School Auditorium on Saturday, June 4. People who like fiddle music were thrilled to hear the 12 contestants, from the youngest, 9 year old Darrell James, to Mrs. E.C. Green, the oldest.

In the 39 and under division, entries were Olan and Darrell James of Corona, New Mexico, and Cheryl and Marilyn Lindley of Alamogordo, New Mexico. Winners were: 1st - Olan James 2nd - Cheryl Lindley 3rd - Marilyn Lindley

There were 8 contestants in the 40 and over division. They were: R.C. Barkhalter of Perryton; Dale Hendrick, James Park, and Mrs. E.C. Green, all of Spearman; Ted

Continued on page 2

Saturday concluded. The Hansford Round-Up Week Celebration with a multitude of events. A view of Spearman's empty streets early Saturday morning could have reminded one of the lull before the storm. The streets had been roped off early, revealing the only indication that anything special would happen that day. As the sun rose and started its climb toward the west, some early-bird participants started displaying their wares for the Sidewalk Sale. Then an explosion of happenings erupted that would carry out with force through Saturday evening until almost 10:00 p.m.

The Parade Marshal, General Rose arrived at the Spearman Airport by jet at 9:30 a.m. On the spot to greet General Rose were Judge Johnnie Lee; City Council members, Frances Loftin; Chamber of Commerce President, Jerry Gee; Board of Directors member for the Soil Conservation Dept. Robert Novak; and several members of the WIFE organization, including their President, George Holt, and their news coordinator, Marilyn Groves.

Not long after General Rose's arrival, R. C. Porter's plane touched down at the 1975 Miss America, Shirley Cochran, aboard. Out at the Plains Shopping Center parking lot things were starting to happen. It was crowded confusion, with youngsters preparing their bicycles, float entries making last-minute adjustments, and even Rep. Hightower was there, surrounded by the WIFE ladies, who were all decked out in their blue denim outfits and topped with their straw hats.

Even as the parade was forming at the Shopping Center, Charlene Bulls and Charlotte Pearson were officially opening Spark's 3rd Avenue in the old Brandt Building with a ribbon cutting. Present for that event were Mayor Ralph Blodgett, Chamber of Commerce President, Jerry Gee; City Council Member, Frances Loftin; and the two owners, Charlene Bulls and Charlotte Pearson. During the ceremony Charlotte presented the Chamber of Commerce with a token of appreciation—a very real looking shovel filled with buffalo chips.

Then the parade was on the way. Its approach was announced with a multi-unit blast of sirens that would have put fear into the stoutest criminal heart. Main Street was lined with the young at heart—both child and adult, as the staunch, crisp gait of the color guard headed the parade, followed by Grand Marshal, General Rose, who was perched on a

## Rotary club votes to promote YMCA here!

At the regular Rotary Club meeting Monday, in Spearman, Ray Ezzell of Perryton spoke on procedures necessary to obtain a YMCA for Spearman. The club, after hearing Ezzell, voted unanimously to look into this program for Spearman. In other business the club announced that they had sold between 2500 and 3000 tickets for their drawing that was held as a feature of the Hansford Celebration.

On May 23rd, the club had 24 members present and 3 guests. Total percentage for May attendance was 75% for May 23 and 81.25% for May 16th. Members absent May 23rd: J. L. Brock, Gene Cudd, Jr., Lusby, Jack McWhirter, Mark Neff, Jerry Taylor, Jim Mercer and Elzey Vanderburg. We want all these members back in the meeting next Monday, when the WIFE organization will bring the program.

Guests present for May 23rd included Earl Winderfer of Tacoma, Washington; Ed Zschiesche of Spearman; and Joe Sutphen of Borger. Ed Zschiesche returned the check for his work at the White Elephant Auction. When you see Ed, thank him for his kindness.

A motion carried to purchase ten tickets for the Bar-B-Que for the Old Timers of Hansford County. A drawing of June 30th. The exact time will be announced at a later time. They will host the Perryton Club and the new officers of both clubs will be installed.

## Hospital News

Patients in Hansford Hospital are Ruth Caldwell, Diana Cantu, Rosa Casas and son, Preston Scott, Evelyn Kingsley, Bonnie Bonham and Ernestine Hale. Dismissed were Ella Hull, Etta McBroon, Martha Crowley, Janice Riley, Bobby Adcock, Gloria Tucker, Vernon Tindell, Jose Vargas, Henry Templeton, Dot Jenkins, Rivera Santos, Linda Rodriguez, and Jessie Mae Davis.

Mr. and Mrs. Kenneth Faries of Houston are the proud parents of a baby girl, Stephanie Ann, born June 1. She weighed 6 lbs., 6 1/2 oz. at birth. Maternal grandparents are Mr. and Mrs. H. B. Parks of Morse, and paternal grandparents are Mr. and Mrs. Dan Faries of Spearman.

## MARKETS

Wheat	\$1.94
Milo	\$3.05
Corn	\$2.18

The Lions Club and Rotary Clubs wish to thank everyone who helped with their club projects during the celebration this year. Special thanks to Chalmers Porter, and Jimmy McLean,

Dahl, Kenneth Irwin, Elmc McClellan, Jr., Lee Roy Mitchell, B.J. Renner, Roy Bailey, Tom Spivey and Gordon Gross. Honorary pallbearers were Gene Fletcher, Dorsey Schad, Mack Beville, I.W. Ayres, J.C. Harris, Richard Fletcher, Don Gross, Melvin Ross, Grover Taylor, and E.J. Riley.

## Miss Hansford 1977 Crowned

LaVon Kunselman won the title of Miss Hansford County of 1977 Saturday evening at the annual Beauty Pageant held in the Spearman High School auditorium. LaVon is the daughter of Mr. and Mrs. Don Kunselman of Spearman and is a student in Spearman High School.

Tina Clawson, Miss Hansford County 1976, relinquished the crown to Miss Kunselman at the climax of the 1977 pageant. First runner-up was Alicia Mahaney, daughter of Mr. and Mrs. Carl Mahaney of Spearman.

Nanelle McCloy, daughter of Mr. and Mrs. Wilson McCloy of Morse, was second runner-up. Shirley Cochran, Miss America of 1975 was master of ceremonies.

The Lions Club annually sponsors the Miss Hansford County Pageant which is held in conjunction with Hansford Round-Up Days each year. Contestants in the pageant this year included Annette Faulkner, Stephanie Floyd, Dalene Godfrey, Margaret Hill, LaVon Kunselman, Alicia Mahaney, Jamie McFey, Sabre McCoy, Deanna Ochoa, Louisa Ochoa, Elaine Reimer, Brenda Wadsworth and Donna Wilsdorfer all of Spearman; Paula Carroll, Tomi Kay Mills, and Anita Walker of Gruver, and Nanelle McCloy of Morse. Pianist for the pageant was Wilma Clark and choreography was by Teresa Hargis. Sets were by Faye

Cunningham, Nell Patterson, Imogene Pogue and Frankie Sloan. Firms sponsoring the contestants this year were All-sup's, Reed's Family Shoes, Consumers Sales Co., Spearman Reporter, Ellsworth Oil Company, Earl's TV, Spearman Industrial Engine, H&H Water Well Service, Gordon's Drug, A&W, Equity, First State Bank, Excel Chevrolet Olds and Berry's Cleaners, all of Spearman, Messers Dept. Store, Sparks Brothers, Aerial Spraying and Hansford Co. Parts of Gruver.

Other firms contributing to trophies and flowers to the contestants included Blackburn Flowers, Dairy Queen, Anthony Electric, 4-Tex Grain, White House Lumber Co., Brown, Graham and Gas, Hi-Plains Auto Supply, Spearman Drug, Spearman Safety Glass Co., Louis Schnell Electric, Spearman Super Service, Daco Lease & Well Co., Baker & Taylor, Alton's Gulf, B & B Farm Industries; Hansford Implement Co., Cinderella Beauty Salon, John R. Collard Ins., Crawford Implement, Wheeler Insurance Co., beaver Express, Gift Box, Spearman Auto Supply, E.E. Novak, D.D.S., Callaway Lumber Co., Lusby Cats, Spearman Rotary Club, Sparks Brothers Spraying, Carl Archer, The Bunkhouse, Tucker's Water Well Service, North Plains International, Golden Spread Sales Co., and Massad's Chamber's Dry Good gave a \$25 Gift Certificate.

Miss Hansford County 1977 LaVon Kunselman is shown here receiving the crown from former Miss Hansford Tina Clawson, at the beauty pageant Saturday night.

One of WIFE's trademarks is maybe not so much the appearance of their denim outfits and straw hats, as is the fact that they're always holding those hats onto their heads. (Georgia Holt holds hers hat while she shakes Jack Hightower's hand.) Here WIFE officers are pictured displaying the banner they carried in the parade. They are: (from left to right) Joyce Jennings, Spokeswoman; Marilyn Groves Publicity Chairman; Dottie Beedy, Treasurer; and Georgia Holt, President. Jack Hightower (far right) marched in the parade with the WIFE ladies.

Sack's 3rd Avenue has moved into the old Brandt Building. Present at the ribbon cutting ceremony were: (from left to right) City Council member, Francis Loftin; Mayor Ralph Blodgett; Owners, Charlene Bulls and Charlotte Pearson; and Chamber of Commerce President, Jerry Gee.

Corn bread, still a southern specialty, once was the major bread eaten in America because wheat was a luxury.

WE WANT YOU TO HAVE OUR NUMBER (our Toll-free number that is)

As an added service to our customers in Spearman we have set up a toll-free number to call for Office Machines, Office Furniture, Supplies and Services.

Just pick up the phone and ask the operator for:

Clark, Rogers, New Mexico; H.R. Gardner, Causy, New Mexico, Will Irwin of Albuquerque, New Mexico; and Junior Daugherty of Mesilla Park, New Mexico. Winners were: 1st - Junior Daugherty 2nd - Dale Hendrick 3rd - H.R. Gardner. The three judges were Otto Gambin of Gruver, Irene Reed of Spearman, and Ben Nivens of Dumas. We wish to thank Coy Palmer and KBMF, and all the people who came to hear the good fiddling. Emcee was Wes Nivens.

When you see it... when you don't.

Just one advantage of leased floodlighting.

Protection for your employees or customers against needless nighttime accidents is one big advantage of leased floodlighting. Good outdoor lighting can also help the smart businessman attract additional customers during evening hours. We offer either mercury vapor or Metal Halide floodlighting that can be directed wherever light is needed around your business property... outside stairs, walkways, parking lots or loading docks. And one of the biggest advantages of leased floodlighting is the very reasonable monthly rate. For complete details on this economical leased floodlighting program, give us a call.

### County Agent News

Lorsban, Furadan, and Andrin insecticide sprays will do a good job of controlling Southwestern corn borer when applied in late July and early August. Three years of research by Norris Daniels, Texas Agronomist, Experiment Station Entomologist at Bushland, proves this. These insecticides have increased corn yields up to 20 bushels per acre at the USDA Southwestern Great Plains Research Center. "I used to think spraying insecticides to control corn borer was a waste of money, but these three new insecticides changed my mind," Daniels said. "The field research is done and farmers can use the spray if and when EPA grants the labels," he continued. Granular Furadan at 1 pound per acre is the only foliar treatment labeled for corn borer control that Daniels tested in 1976.

In 1976, some other ideas that looked good were tested. Sidespread application of Furadan granules at lber control, sidespread application of Furadan not only controlled corn borers in the crop but a few borers that managed to get into the corn were killed during the winter by insecticides in the soil. According to Daniels, this treatment has potential use in no-till corn.

As part of a long term research program, Daniels evaluated several possible methods of controlling corn borers in 1976. He applied foliar sprays to separate plots on either July 26, August 6, and August 13. In another study, foliar sprays were applied on July 26 and repeated to the same corn on August 6. He also applied Furadan granules on July 26 and the second on August 13. In another study on July 28, he compared broadcast application of Furadan granules and granular Lorsban. Daniels tested another idea when he compared furrow application of Furadan to one inch deep over the seed at planting with sidespread band application 1.5 inches deep beside the plant row in several well watered plots.

In experiments where insecticides were sprayed on three dates, yields with Furadan, Andrin and Lorsban ranged from 105 to 116 bushels per acre. This compared to 88 bushels per acre for untreated corn. Spraying twice on July 26 and again on August 13 with Furadan at 0.5 pound per acre insecticide 132 bushels of corn.

"Our insecticide spray trials in 1976 increases our confidence in Lorsban, Furadan and Andrin for controlling corn borers at a profit," Daniels said. Granular applications of Furadan and Lorsban broadcast at 1 pound per acre on July 28 reduced borer infestation to 30 percent. Untreated corn was 72 percent infested in this study. This control increased corn yields from 98 to 114 bushels per acre. Granules that fall on plants last longer than small spray spots and control insects for a long time after application, Daniels explained.

Narrow applications of Furadan at planting reduced borer infestations about 50 percent and increased corn yields about 20 bushels per acre. Sidespread application in a band 1.5 inches deep beside plants when corn was 20 inches tall was more effective. At harvest, untreated plants were 75 percent infested. Rows sidespread with two pounds per acre of Furadan were only 15 percent infested. The treatment was so effective only 3 percent of the corn lodged because of borer infestation. Sidespreading 20-inch corn was more effective than treating at planting because more chemical persisted until August when borers struck. Control with this treatment carried over to the spring of 1977. None of the stalks had live larvae in March. Daniels is optimistic about the new treatment because none of the larvae in infested stalks lived over winter. At the present time disking or disturbing corn stalks with tillage is the only way to destroy overwintering larvae, according to the scientist. This chemical

treatment has the potential of controlling the Southwestern corn borer in no-tillage corn. In 1977 farmers will have to rely on granular applications of Furadan to control Southwestern corn borer. "Research shows good prospects for more profitable control with Lorsban, Andrin and Furadan sprayed in late July to mid-August," Daniels said.

## "Texas" Begins Season

The rider will return to the saddle in the cliff at the Pioneer Amphitheatre in the Palo Duro Canyon and lift his flag to open the 12th season of the musical drama, "Texas", at 8:30 p.m. on Wednesday, June 15, 1977. Members of the Texas Panhandle Heritage Foundation, Inc., the producers of "Texas", will gather in special sections to greet the 12th version of the Paul Green script.

This year, their special guests will be the representatives of oil and gas industry in the Texas Panhandle. As is the custom, the program for the opening will carry the story of a part of the growth of the area, the story of the unexpected and spectacular development of oil.

It begins with C.N. Gould, a geologist for the U.S. Geological Survey - who came here looking for wind-mill sites and who happened to notice significant geological structures. M.C. Nobles hired Mr. Gould to point out these areas, and formed the Anarillo Oil Company with R.B. Masterson, C.T. Herring, Lee Bivins and others to drill on the Masterson ranch. On December 13, 1908, a gas well came in. Unfortunately, at that time, few uses for gas were known.

The following year, Eugene Blasdel, W.H. Fuqua, and P.H. Landinger leased a portion of the 6666 Ranch. The Gulf Production Company drilled there and brought in the first oil well on April 5, 1920. A son was born to Mr. Blasdel that day and he bears the name, James Gulf Blasdel.

Tex McIlroy brought in several wells for the Dixon Creek Oil Company, and the rip-roaring boom town of Borger was founded in 1926 to serve the oil development.

Tex Thornton, the famed trouble shooter for the industry, worked here. Members of the families of these oil pioneers will be special guests at this opening night of "Texas".

The developers of the oil industry will be included. Representatives of the Diamond Shamrock Oil and Gas, the Yucca Petroleum Company, Mesa Petroleum, the drillers, the suppliers, the

lessors, the furnishers of tools, and the independent operators will all be represented. Presidents of the Panhandle Producers and Royalty Owners Association have been invited to represent the oilmen now in the field.

For instance, boats must have a lifejacket or some other flotation device for every passenger. Legal requirements about lights, horns, fire extinguishers and other safety devices vary according to boat size. The Texas Department of Parks and Wildlife, 4200 Smith School Rd., Austin, Texas 78744, can provide detailed information about water safety and boating. The department also may have a regional office in your area.

Law requires children age 12 and under to wear lifejackets in a boat. However, many older, experienced swimmers drown because they do not wear lifejackets and are tired, injured or get cramps. If a boat accident occurs, the easiest and safest thing to do is hang onto the boat because it takes less strength than swimming and people can spot an overturned boat faster than a swimmer.

## Health Tips

Swimming and boating accidents continue to claim a large number of lives each year. Traffic deaths have declined, possible due to the 55 mph speed limit, but nothing similar has happened on Texas waterways to control boating problems. The Texas Medical Association says. About 625 people drowned in Texas in both

Another big problem is careless handling. Even in the wide open spaces of a lake, boats hit skiers, logs and other boats. Drinking, too much speed, and watching the skier instead of looking ahead are common causes of accidents that could be avoided.

A light year is not a measurement of time but of distance. It is the distance a ray of light would travel in one year, about six trillion miles!

Listening to Paul Lopez call the square dance was a show in itself.

**Gladiola Club Has Luncheon**

Gladiola Flower Club met Thursday, June 2 at the home of Mrs. Irvin Davis for a luncheon.

The float was worked on first and after the luncheon, a short business meeting was held.

Club members were reminded to help with the Golden Age Group during the month of June.

First place in Flower Arrangement went to Mrs. Marcus Larson and Mrs. Don Kunselman won 1st place in Specimen.

Members present were Mesdames: John Brown, Doyle Jackson, Don Kunselman, Marcus Larson, Tom Sutton, Irvin Davis, Gordon Cummings, Kenneth Evans, Bill K. Jackson, Claude Newell, and Coy Palmer.

The next meeting will be June 16 at the home of Mrs. Gordon Cummings.

They tore down the float Monday morning after the celebration.

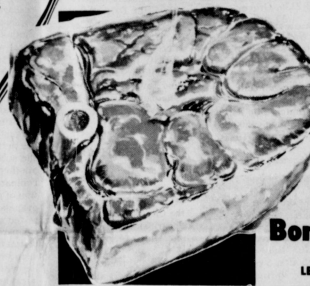

In 1836 there was a surplus in the United States Treasury of over \$28 million!

**Allleluia! Will Be Presented Again**

The First United Methodist Church Choir, under the direction of Karen Countiss, will present 'Allleluia! A praise gathering for believers', on Sunday evening, June 12 at 7 p.m. at the church.

The special service was presented at the church Sunday, June 5, during the morning worship hour and it is truly a beautiful singing service.

The words and music for this number were written by Bill and Gloria Gaither. There are four soloists, Vera Strawn, Sue Woolley, Karen Countiss and Kent Guthrie.

The choir and members of the church issue a cordial invitation to all to attend on Sunday evening, June 12.

**Courtesy Honors Mrs. Bucy**

A baby shower Thursday from 5 to 6 p.m. at the home of Sharon Hamilton at 1007 S. Hasey honored Mrs. Pam Wyszog Bucy and her new daughter, Micah.

Hostesses were Sally Desimone and Sharon Hamilton. Refreshments of pink cake with "Welcome Micah" inscribed and coffee and tea were served.

The honoree was presented a corsage fashioned of yellow baby's foot. Pam's son, Brian, helped open the gifts. Guests included Mmes.: Jo Larson, Jo Cochran, Dickie Allen, Lera Beasley, Beth Phelps, Grace Johnson, Rhonda Ward and daughter Monica, Frankie Duryee, the great-grandmother Dorothy Davis, and the grandmother Mary Lou Wyszog.

Mrs. L. M. Womble

### Artist Of The Month

Mrs. L. M. Womble was chosen as Artist of the month for June. Mrs. Womble began taking drawing and pastel painting when she was ten years old. Her teacher was Miss Mary Louise Yoe who taught in the Perryton School. She later took art courses in college and worked in other media. She has been teaching art lessons for 17 years. Mrs. Womble stated, "I enjoy teaching children and adults to paint, almost as much as I enjoy painting". Mrs. Womble said the landscapes are her favorite subjects. She has two paintings of old adobe buildings, one of her favorite subjects.

at the library. Trips through New Mexico and Colorado probably inspired her to paint mountain scenes. There are two still life pictures and the scene in the Swiss Alps, she painted for her son. Mrs. Womble said that there are always new and interesting areas in the art field to explore.

### Vacation Church School Set

"Reach Out" will be the general theme of the Vacation Church School conducted jointly by the Faith Lutheran and First Presbyterian Churches June 13-17 from 9:00 to 11:30 a.m. Pre-school classes will be held at the First Presbyterian Church and classes for grade school and junior high school children will be held at Faith Lutheran Church. Harvey Fatisek and the Rev. Edward D. Freeman are the co-directors of the school and along with the Rev. Victor Andersen will conduct daily worship services. "Living in God's World" will be the theme of the study of the three olds class taught by Betty Ottmans and Ann Ward. "With Arms Wide Open" will be the theme for the four and five year olds class taught by Cindy Holten and Patty Moore. "Our God Is Lord, Our Lord Is Love" is the theme for the first and second grades taught by Miriam Mercer.

"Sharing the News" is the theme for the third and fourth grades taught by Coda Zachiesche. "The Gospel Story" is the theme for the fifth and sixth grades taught by Laquita Evans. Dorothy Baggerly and Ed Freeman will lead the music.

### Eastern Star Plans Installation

Spearman Chapter #721, Order of Eastern Star met for its regular meeting on Monday, June 6, 1977 with Judith Black, W.M., and Don Hendricks, W.P. presiding. Initiation ceremonies held for David McIntyre of Spearman. Open installation ceremonies will be held Saturday, June 11 at 7:30 p.m. for the 1977-78 officers. Marjorie Collard and John R. Collard, Jr., will be installed as Worthy Matron and Worthy Patron of Spearman Chapter #721 O.E.S. The public is invited to attend. Practice for the installation will be held on Wednesday, June 8 at 7:30 p.m. Refreshments were served by Deta Blodgett to the twenty-one members present. The next meeting will be July 4.

Tips To Help You

You can enjoy your audio tape recorder more if, before you start recording, you clean the recording head as recommended by the manufacturer. A clean machine makes for a clear high fidelity recording.

You can re-use and re-record on an old tape. Most tape recorders will erase as they record. But the Electronic Industries Association suggests you don't allow the tape to move forward accidentally while your machine is not in a recording mode, or it will retain the original recording.

If you are thinking about buying a new tape recorder, decide which format—cassette, cartridge, open reel or mini-cassette best meets your needs.

# Youth Competing in Rodeo Finals

Hailee Reed

Lonnie Clemmons

Elden Allen

Three members of the Spearman High School Tri-State Rodeo Association will be competing in the Tri-State High School Rodeo Association Finals Rodeo, June 9, 10

## Sterling Attends Workshop

James Sterling of Spearman was among the 33 students enrolled in "Creative Teaching with Minorities" workshop held at Panhandle State University recently. The workshop proved teachers, administrators, and counselors with strategies, which hopefully, will dare children to learn. The workshop included grades from kindergarten through the 12th grade.

## AN OLD PAIR OF SIZE SIX JUMP BOOTS

## IT TAKES A BIG MAN TO FILL THEM

When the guy who owns these boots came in the Army twenty-four years ago, he made \$50.00 a month, without educational benefits. Today you start at \$374.00 and the Army will pay up two-thirds of your college fund, up to \$8,100.00 if you want. But the reasons for soldiering are the same. He wanted to be somebody special. Now three wars, fourteen counties, two Silver Stars and a Purple Heart later he's ready to retire. All we offer is what's best. Life with a Capital L.

# Registration For Referendum

All eligible livestock producers in Hansford County are reminded that they need to register June 6-17 if they are to vote in the forthcoming producer referendum on the Beef Research and Information program July 5-15, says County Extension Agent Ronnie Wood. County offices of the Agricultural Stabilization and Conservation Service (ASCS) will conduct the registration and referendum.

The law requires that beef producers register at least two weeks before the referendum in order to vote.

Producers eligible to register and vote are those who owned cattle during the past 12 months, prior to the referendum, including 4-H and FFA members, men and women.

If the vote is favorable, a Beef Board will be appointed. This board is to consist of not more than 68 mem-

## CATTLE PRODUCERS CAN CALL TOLL-FREE HOTLINE

The Texas Beef Development Taskforce (BDT) has established a toll-free "Hotline" to answer questions from cattle producers about the Beef Referendum.

Registration for the long-awaited Referendum is taking place June 6-17 at nearly 2,000 county ASCS offices across the nation. Cattle producers who wish to vote must register before the June 17 deadline. Actual voting will take place back at the ASCS offices between July 5-15.

"Beef producers who have a question about the program can call 1-800-682-4106 weekdays between the hours of 8:00 a.m. and 8:00 p.m.," says BDT Chairman J. D. Sartwell of Sealy.

The Referendum, if approved by two-thirds of the cattle producers voting, would authorize the first nationwide self-help program for the beef industry. Using the value-added system, each cattle producer would contribute \$100 of the value of each animal in fifth place in Bareback Riding, Elden Allen in 3rd place in Calf Roping, 4th place in Steer Wrestling, 7th place in Ribbon Roping, and Hailee Reed in 15th place in Breakaway Roping. We wish the best of luck to our Spearman participants.

## Texas Grain Sorghum Board Election Set

Grain sorghum producers in a 29-county area of the Texas High Plains will elect four members to the Texas Grain Sorghum Producers Board on Sept. 15.

Terms of four current board members expire at that time. They are C.C. Reed of Kees, Worth Jones of Happy, Lee Hill of Dalhart, and A.R. Dillard of Hereford. All incumbents are eligible for reelection to the 6-year, non-salaried position as long as they are bona-fide grain sorghum producers.

Any person in the 29-county TGSPP area who produces grain sorghum and pays the board assessment is eligible to vote, including owners of farms and their tenants and sharecroppers. Any person eligible to vote is also eligible to make nominations for director.

Qualified persons wishing to have their name placed in nomination for membership on the board may do so by application to the organization, signed by himself and 10 others who are also eligible to vote.

Application must be filed by August 15, at the TGSPP office, 1708-A 15th, Lubbock, Tex. 79401. Forms are available at that office.

Ballots will be mailed to voters and must be returned to the TGSPP office by September 15. Any person

selected from the beef producer ranks by the Secretary of Agriculture as nominated by their producer organizations. Representation on the board would be proportional by their production in each state or geographic area.

If the program becomes operational, the Agricultural Marketing Service of the USDA would monitor it, or serve in effect as a referee, to assure that it stays within the legislative authority, and accomplishes the goals of the program as voted on by producers in the referendum.

Should producers approve the program, the initial board meeting might be held in the late fall of 1977.

Thus, it likely would be 1978 before a research and information program for cattle and beef could be fully developed and first assessments begin on sales of cattle.

## Cunningham Chosen For Seminar

The Institute for Development of Educational Activities, Inc. (I/D/E/A), the education affiliate of the Charles F. Kettering Foundation, announced today the James Cunningham, Superintendent, Spearman Independent School District has been chosen as one of 500 outstanding American educators to participate in a week-long national seminar this summer.

The I/D/E/A Fellows Institutes are designed to give participants a thorough grounding in some of the new and emerging problems

and practices affecting elementary and secondary education.

The theme for the 1977 Fellow Program is "Critical Issues in Education." The selection of this highly significant topic is based upon recent trends which are profoundly influencing the future direction of the schools.

Twenty nationally prominent educational leaders will address the participants and meet with them in small groups for the purpose of grappling with issues and solutions to current crises in education.

The I/D/E/A Fellows Institutes are the oldest, continuing in-service program for school administrators in the nation. About 4,500 elementary and secondary educators from North America and overseas have participated in this program.

## Defensive Driving Needed

We have all survived the long, hard winter and are anxiously awaiting the warm weather of summer. With this warm weather comes additional driving hazards, such as:

More cars on the road carrying families to vacation spots, picnics, amusement parks, etc.

Small children walking to the playground or playing in their front yards.

Bicyclists riding the bike trails or streets both day and night.

The sights and sounds of summer can cause drivers to become distracted. The defensive driver is aware of these and other conditions which will cause him to adjust his driving style. A professional driver will constantly be on the lookout for a child darting out from behind a car, a cyclist turning into traffic, or a car carrying a family who is in a hurry to get to the park for their picnic.

You are not truly a professional driver if you merely characterize yourself as a safe, competent driver. The safe, competent driver is knowledgeable in terms of

handling the vehicle, knowing the vehicle's limitations and knowing the rules of the road, but is lacking in a most important area.

The true professional driver is not only safe and competent, but also drives defensively. To be a defensive driver, you must believe in the philosophy of preventing accidents in spite of the incorrect actions of others or adverse conditions you may experience.

A defensive driver realizes that the other drivers on the road may not have the degree of skill or knowledge needed to safely operate a vehicle traveling at high speeds or maneuvering through dense traffic. When you drive defensively, you accept the highest degree of responsibility for constantly being on top of an accident by taking the initiative rather than passively allowing the situation to become critical and then reacting to an emergency situation.

You as a defensive driver must realize that in addition to safe driving techniques, three basic defensive driving techniques must be followed.

See the hazards - When driving, think about what is going to happen or what may

happen as far ahead of encountering a situation as possible.

Understand the defense - Specific situations require specific responses. Become familiar with the various situations you may encounter and what types of responses should be taken.

Action in time - Once a potential accident causing situation has been noted and the proper response to be taken determined, take it! Never take a wait-and-see attitude.

As a professional driver, you must not be satisfied with merely being in the right. As a defensive driver, you must continue to anticipate situations so that you are never forced to say, "But it was his fault -- he ran the red light!"

The bristlecone pines growing in California's White Mountains are estimated to be more than 4,000 years old, making them the oldest living trees in the world.

The Earl of Sandwich, inventor of the sandwich in 1744, said that sandwiches should be eaten with "a civilized swallow and not a barbarous bolt."

**Farm Exports Pay For Imported Goods**

The wheat a local farmer is raising could very well pay for your foreign car, imported wine or new camera. This is because America exports more food and fiber products than it imports. This "favorable balance of trade" pays for many foreign products, a leading one today being the huge amounts of imported oil, points out Dr. William E. Black, marketing economist with the Texas Agricultural Extension Service. "The 'balance of trade' is the dollar difference between how much we buy from overseas and how much we sell to the overseas markets" says Black. To buy the foreign goods we want, we have to sell overseas to get the money to buy. It's much the same as in your own personal finances-you have to have an income before you can buy. "If you buy more than you

make, you go in debt. The more debt you have, the more shaky your financial situation is. After awhile, your credit isn't as good," notes Black. The same applies to this country, the economist explains. If we buy more on the foreign market than we sell, we have a negative balance of trade. If that gets too big, our dollar gets shaky in the international market. After awhile, foreign markets lose faith in the value of the dollar and it won't buy as much overseas. "When the value of our imports is greater than the value of what we export, the deficit saps the strength of the U.S. dollar in foreign markets. As the deficit grows, the value of the dollar weakens and it takes more dollars to buy foreign products. That creates problems for the American consumer," asserts Black.

In 1971, American farm exports cancelled one-half of a \$4 billion potential deficit in total U.S. trade. Overseas farm sales reduced by 23 percent what would have been a huge \$9 billion deficit in 1972. Agricultural exports in 1973 made a record-breaking "net" contribution of \$9.3 billion to the American balance of trade while the nonagricultural sector turned in an \$8 billion deficit. In 1974, farm exports contributed an incredible \$11.7 billion net, and the favorable trade balance reached \$12.6 billion in 1975. This balance should show a similar level for 1976. Between 1965 and 1975, net agricultural exports have made a total contribution of \$49 billion to America's balance of trade. This more than offset the \$28 billion deficit chalked up by the nonagricultural sector.

"The export market plays an important role in Texas agriculture," adds Black. "Currently, the production from one out of every four acres is imported. Leading imports include rice, sorghum, wheat and cotton." So, the next time you purchase an imported item, think about American agriculture. It opens the door for many imported products. **VIETNAM OFFENSIVE** On Feb. 23, 1967, American forces in Vietnam launched biggest offensive of the war with some 45,000 troops near the Cambodian border. **NIXON DEMURS** On Feb. 25, 1974, President Richard M. Nixon cited constitutional grounds in his refusal to appear as a witness at the California conspiracy trial of John D. Ehrlichman.

These Dune Buggies were one of the parade attractions.

Jim McLain, was photographed riding the "Big Wheeled" bicycle in the parade. This was the bicycle that was given away at the drawing.

Among those present to greet General Rose at the Spearman Airport, were members of WIFE.

### Beef Checkoff

A survey of Texas beef producer attitude indicates that the undecided vote is likely to be the key to whether or not the beef checkoff program is activated, according to Dr. Ronald D. Knutson and Frank Ewell with the Texas Agricultural Extension Service.

Knutson, a specialist in policy and marketing, and his assistant Ewell base their conclusion on responses to a survey of producer attitudes toward current policy issues in agriculture. The sample included about 450 Texas beef producers. At the time of the survey 53 per cent favored the checkoff, 30 per cent were neutral and 17 per cent were opposed or undecided.

While the President has signed the beef checkoff program into law, at least 50 per cent of the producers

who register must vote in the referendum and two-thirds of those must vote in favor of it before the checkoff actually begins, point out Knutson and Ewell. Registration dates for the referendum are set for June 6-17, and voting will be from July 5-15.

The survey also showed that 53 per cent of the producers felt they should have the right to request a refund from the program. This refund provision is provided for in the legislation if the refund demand is made within 60 days after the end of the month in which an assessment was made.

Sixty-five per cent of the producers surveyed favored voting on the basis of single vote per producer. This is also provided for in the legislation, note Knutson and Ewell.

Regarding the use of promotion monies, 62 per cent of the producers surveyed indicated they opposed the use of producer promotion funds to assist packers and retailers

to advertise their own brands of beef. This contrasts with advertising specialist who contend that joint advertising programs would be more effective in expanding demand than advertising beef alone.

### Tax Breaks Offered

Dallas, Texas - Employees and self-employed workers not covered by a qualified pension or retirement plan where they work can set one up for themselves and realize a tax savings at the same time. These same workers, who have non-working spouses can open an Individual Retirement Arrangement (IRA) for the spouse as well.

A worker with an IRA can contribute up to 15 percent of his or her earnings, to a maximum of \$1500 per year, into an individual retirement savings program or account.

If the employee's non-working spouse is included in the plan, the maximum is \$1750 per year, again limited to 15 percent. The concept behind an IRA is that the account will grow substantially over the years to provide a measure of retirement security for the individual.

While contributing to the IRA, the employee does not pay income taxes on the money set aside or on the interest or other income it might earn. The income tax is due when the money is actually withdrawn, at age 59½ or later, or should the individual become disabled. Chances are at that time the effective tax rate will be lower than during the employee's earning years.

While IRA's do offer cer-

tain tax advantages, there are also some limitations or restrictions to bear in mind. Contributions which exceed the allowable maximum are subject to a non-deductible 6 percent excise tax, each year. To discourage premature withdrawals, taken out before the worker reaches age 59½ or becomes disabled are taxed as ordinary income and are subject to an additional 10 percent penalty.

Finally, distribution of the funds in an IRA must begin by the time the taxpayer reaches 70½ years of age. The withdrawal rate at that time is up to the owner, but generally must provide for full distribution of the money within the person's expected lifetime, based on actuarial

tables. The IRS has a free booklet, IRS Publication 590, "Tax Information on Individual Retirement Savings Programs" which can be obtained by writing or calling the IRS. Banks, savings and loans, federal insured credit unions, insurance companies and certain brokerage firms can also help interested persons establish their IRA.

patients to undergo dialysis (removal of blood impurities) without being attached to a machine.

Dr. Robert Popovich refined a procedure whereby a tube with a cut-off valve is implanted in the abdominal cavity. In a process repeated five times daily, a dialysate fluid is infused through the tube, the valve shut, and the fluid allowed to absorb impurities for four and one-half hours before it is released and replenished.

Because patients remain ambulatory during the process, one attended a football game while undergoing Popovich-style dialysis.

**HEALTH CARE COSTS**

The word you're most likely to see when reading about the costs of health care is "skyrocketing." In 1966 to 1976, the cost of overall medical care rose 100 percent. The reason is quite simple. These costs have been—and are—rising far faster than the overall rate of inflation in the economy.

### Kidney dialysis without machine

AUSTIN, Texas (Spl.) - A University of Texas chemical engineer's knowledge of blood chemistry and the passage of fluids through membranes will enable some kidney

patients to undergo dialysis (removal of blood impurities) without being attached to a machine.

Dr. Robert Popovich refined a procedure whereby a tube with a cut-off valve is implanted in the abdominal cavity. In a process repeated five times daily, a dialysate fluid is infused through the tube, the valve shut, and the fluid allowed to absorb impurities for four and one-half hours before it is released and replenished.

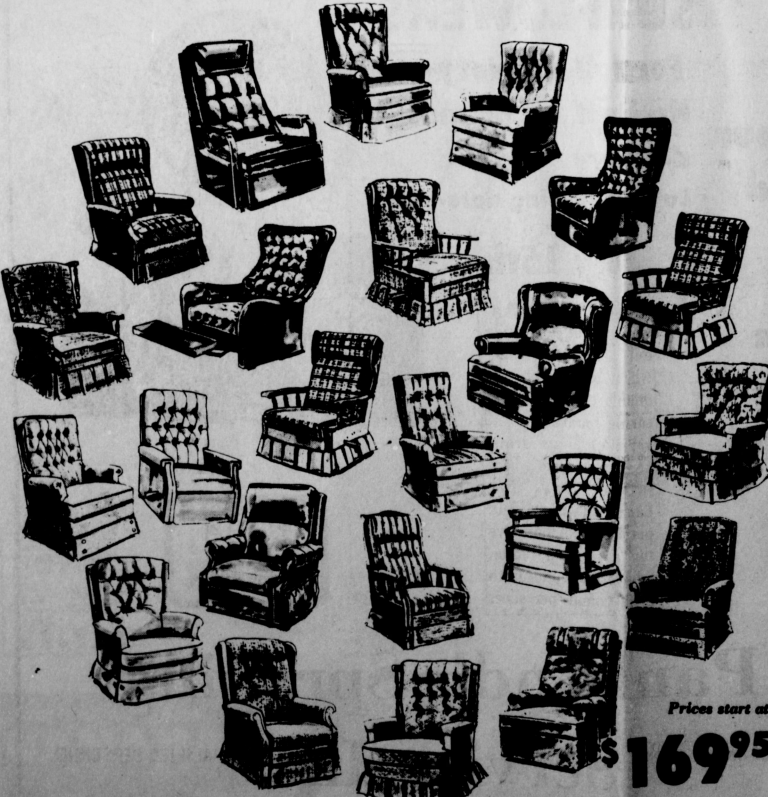

Because patients remain ambulatory during the process, one attended a football game while undergoing Popovich-style dialysis.

CARUSO BORN Italian tenor Enrico Caruso was born at Naples Feb. 25, 1873.

## LA-Z-BOY®

Relaxes All Kinds Of Dads!  
for FATHER'S DAY

Because you love Dad, you want him to have the very best. No matter what kind of Dad he is - sportsman - TV buff - checker enthusiast or what, he will be pleased and happy in his La-Z-Boy reclining chair because it will give him the kind of comfort he has always wanted! And that includes real lay-back, stretch-out comfort. No matter what the décor of the room - La-Z-Boy has the style for you. Happy Father's Day, Dad!
