

Journalism Congress Is Being Held In Louisiana; Tech Students Present

Nineteen From Lubbock Go To Baton Rouge; Charter Bus

Opening sessions of the eighth annual meeting of the Southwestern Journalism Congress and the Southwestern Students Press club are being attended by 19 Tech students and Cecil Hone, head of the department of journalism, held on the Louisiana State university campus, Baton Rouge, La.

Delegates include Mr. Hone, sponsor, Mrs. Laurence Friday, chaperone, and the following students: Wayne Sellers, Jim Lindsey, Lomas Nelson, John Harvey Scoggin, Winfred Joiner, F. O. East, Weinhald, Mike Bynum, Josephine Powell, Lola Belle Barbour, Dorothy Vandagriff, Jamie McNeil, Betty Ross, Helyn Kinslow, Sylvia Smith, Larry Messersmith, Don Miller, Emma Jean Douglas, and Dan McLendon.

By a chartered bus, the group left here Wednesday at 12:30 o'clock from the Women's dormitory. They spent the night in Fort Worth as the guests of Texas Christian university, member of the congress, and arrived at Baton Rouge last evening.

Speeches, university cadet regiment dress parade, a luncheon, reception and tea at 5 o'clock in the home of Dr. James M. Smith, president of L. S. U., and a dinner fill the day's social schedule. Tomorrow morning the conference convenes at 9 o'clock with talks by several prominent journalists such as H. H. Herbert, director of the school of journalism, University of Oklahoma; J. Willard Ridings, director of the department of journalism, T. C. U.; George S. Simmons, director of the journalism department, Tulane university, luncheon is served at 12 o'clock at the Episcopal student center, and meetings for both faculty and students are held separately during the afternoon. A tour of the campus and city and a visit to the (Continued On Page Six)

Hitler Is Topic For Speakers

Heninger, Nissley And Ogdon Discuss The German Leader

"Hitlerism," past and present, was discussed by three Tech professors at the regular meeting of the International Relations club Monday night.

Professor M. E. Ogdon discussed the "Origin and Progress of Hitlerism," showing the unequal provisions in the treaty of Versailles, and the resulting inflation and depression which led to the rise of Hitler. Ogdon, who was in Germany in 1923 at the time of Hitler's first success, was attending the University of Jena.

Professor H. R. Nissley gave some "First Hand Observation of Hitler Activity in 1930," stressing the anti-Semitic movement. Nissley attended the University of Berlin in the summer of 1930.

Pan-American Day Talked At Meeting

"Pan-American Day" was the program topic at the regular meeting of Caps Y Espada, Tech foreign language club, Tuesday night. Jimmie Roberts pointed out the significance of Pan-American Day. Leliese Hays gave several illustrations of flags and coat of arms of American countries. Margaret Wetzel discussed tourist travel in the Americas, especially in Mexico. Lloyd Glover compared the lives of two great Latin Americans, Juarez and Bolivar.

Dean Gordon Attending Conference In Dallas

Dean J. M. Gordon, dean of men and arts and sciences, left Wednesday night for Dallas. In Dallas, he will attend on Thursday the conference of the Association of Deans and Advisers of Men, of which he is chairman. Friday and Saturday, Dean Gordon will be present at the conference of the Association of Texas Colleges to be held in Dallas. He is a member of the Standard's committee of this organization.

Spring Arrives As Tech Scribes Flee Sandstorms

"We're going to see the Lubbock Chamber of Commerce, if you don't have at least five sandstorms while we're gone," a journalism student remarked as she left with 15 other young journalists to attend the Southwestern Journalism Congress at Baton Rouge, Louisiana. All were gloating over the prospect of leaving the sandstorm country far behind and enjoying clear, sunny days while their friends "back home" fought the usual wind and dust. Three hours after the bus had left, the sand stopped blowing, and Lubbock was enjoying a lovely, spring day with only a suggestion of a breeze. Someone was mean enough to hope that the sandstorm had shifted several hundred miles to the east.

Tech Students Attend Meet

ASME College Chapter Sends Delegates To Dallas

Eighteen engineering students and one professor left Thursday for Dallas to attend the meeting of the Southwestern division of the student branch of A. S. M. E., to be held April 11, 12, and 13. The S. M. U. chapter will be host. Schools that will be represented are Rice, Texas A. and M., Texas university, Arkansas university, Oklahoma A. and M., Oklahoma university, Tech and S. M. U.

Papers To Be Presented Tech students will present two papers, to be read at the meetings. Leon Ince and Truman Green, whose papers were named as best of those submitted by Tech students, will represent Tech. The subject of Ince's report is "Steam Jet Refrigeration"; Green's is "Methods of Testing and Controlling Foundry Sands."

An award of \$50 will be given for the best paper, \$25 for the second best.

Delegates Listed Tech students attending the meet are: Paul Conaway, Hereford; Charles Houston, Lubbock; Charles Howell, Lubbock; Lytle Hardgrave, Lubbock; Leon Ince, Claburn; Truman Green, Fortales, N. M.; Jack Grundy, Quitaque; Ross Watson, Mineral Wells; Dyche Kelly, Lubbock; Ben Priest, Rusk; Gus Crawford, Childress; Garland Nystle, Abernathy; Troy Mitcham, Dallas; Al Ray Cooper, Ralls; Elmo Knudson, Clifton; Maurice Huggatt, Byron Brown, Lubbock; and Fred Jackson, Lubbock. V. L. Doughtie, associate professor of mechanical engineering, is with them. The Tech group will return Sunday night.

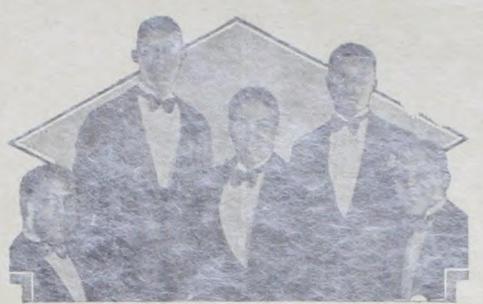

SON BORN TO TECH EX Bailey Denton, an 8 pound boy, was born to Mr. and Mrs. Flake Hankins of Dallas, March 28, 1935. Mr. Hankins received a B. S. in E. E. from Tech in 1932 and is employed with Floyd West and Company in Dallas.

Pre-Law Club To Try Woodruff For Murder Of Houston At Mock Trial

"Killer Jane" Woodruff will go on trial for her life at the spring session of the Pre-Law supreme court under the jurisdiction of Justice George "Huey" Long next Monday night at 7:30 in room 302 of the administration building. "Killer Jane" will answer the charge of murder in the first degree of Mildred Houston, freshman coed, who was found murdered in the Sock and Buskin room on the night of March 18.

Clay Thompson, the only eyewitness of the shooting, will be the star witness for the defense side. Houston was found dead, after the last scene of a play, which she, Thompson, Woodruff and Eubank were practicing, in which the freshman coed was supposed to be shot by "Killer Jane" Eubank, who was out in the hall at the time of the killing and Thompson were "no billed" by the grand jury, but Woodruff was indicted for murder in the first degree. She was released on a \$500,000,000 bond. A love triangle has been advanced as the motive for the murder, as Woodruff was in love with

On Final Artist Course Program

The Utica Jubilee Singers, featured as the last offering of the Tech Artist Course, will appear at the Lubbock High school auditorium tonight at 8:00 o'clock. The negro singers are renowned in European countries and the United States, appearing before the royalty and for American film companies.

Negro Spirituals To Be Featured On Last Artist Course Event Tonight

Utica Jubilee Singers To Begin Program At 8:00 O'Clock

Retaining all the deep feeling characteristic of negro spirituals when sung in their native haunts, the Utica Jubilee Singers, a negro male quartette, will sing at the final artist course tonight at 8:00 o'clock in the High School auditorium. Their program will include a large number of negro spirituals and home-songs.

Born in Mississippi, these southern negroes have attended the Utica Normal and Industrial Institute in that state. Sent out by their school, they have won the admiration of the public.

The Utica Jubilee Singers have made two European tours. On both of these, the singers were enthusiastically received in Germany, Vienna, in Budapest, Paris and London. They filled return engagements in ten countries and made two return trips to four others. They have appeared before the royal family in Belgrade and have received personal commendation by Prince Paul and Princess Olga.

Their broadcast programs have been heard over all the major NBC stations of the country. They have made records and have been offered a picture contract. The singers have made a "talkie" for Columbia Films. Twice they were selected by the New York Telegram for its "All-American Broadcast" as the country's foremost negro spiritual singers.

Miriam Foster Welch, only child of Stephen Foster, after hearing them sing, wrote: "They sing my father's songs with more feeling and beauty than I have ever heard them."

Cadet Corps To Parade In Honor Of War Heroes

Tech cadet corps will stage a final parade on Memorial Day, May 30, Colonel Charles A. Davis, professor of military science, announced at a meeting of the Officer's club last Thursday night. Twenty-one round salutes will be fired. The parade will take place on the campus before the flagpole. Cadet Major Lem Boren addressed the club on military courtesy.

Attend convocation today at 10 o'clock and back Dr. Knapp's program for the Board of Directors.

Indian Pottery Exhibited Here

A collection of Indian pottery and jewelry was exhibited in the engineering auditorium last Tuesday and Wednesday by W. T. Tyler of Santa Fe, New Mexico. Featured in the exhibit were a rug 20 years old, valued at \$1,800, woven from Spanish soldiers' uniforms. The rugs and pottery were collected from the Navajo, Chimayo, Zuni, and Hopi Indian tribes. Maria, the famous Idefonse pottery maker, who has had pottery on exhibit at the World's fair and in Europe, had several pieces of pottery in Tyler's collection.

Jewelry Featured Two pieces of red obsidian, an arrowhead and a spearhead, were the most unusual features in the jewelry. A loom with a half finished rug in it told of the death of the weaver. When a rug is begun and the weaver dies, the loom is never touched, nor the rug finished. A burial rug, obtained from a Medicine Man, stained by the dead Indian's body was also in the collection. Mr. Tyler was scheduled to exhibit his collection in Abilene after leaving Lubbock.

TECH-EX ATTENDS SHOW Henry Burkhalter, who received a B. A. in E. E. in 1932 and an M. A. in physics in 1934 from Tech, attended Tech's engineering show with a group of boys from high school in Gruver, Texas. Mr. Burkhalter teaches mathematics and physics there.

Classes Out For Assembly In Gym At 10

Students Will Stand By Divisions; Board Of Directors Present

An all college student and faculty convocation will be held this morning in the gym from 10 to 11 o'clock in honor of the Tech Board of Directors, who are on the campus for a special meeting to decide upon important matters confronting the college. All classes, including labs, will be dismissed. The library and all offices will be closed.

PROGRAM 9 a. m. The Board will meet in the office of the president. Introduction of new members. 10 a. m. General convocation in the gym. 11 a. m. to 12 Noon. Inspection of mechanical engineering shops, heating plant, textile and engineering buildings. 12 to 1 p. m. Luncheon put on by the girls in home economics at the home economics building. 1 p. m. to 3 p. m. Business meeting of president. 3 p. m. to 5 p. m. Inspection of home economics building, science building and agricultural building and equipment. 5 p. m. Entire Board will take supper with the students in dormitories. 7 to 9 p. m. Informal reception in Women's dormitory lounge for faculty and students.

Group Goes To AIEE Meeting

Convention To Be Held In Oklahoma City; Mayo Will Read Paper

Tech will be represented at the Southwest District meeting and Student Branch convention of the A. I. E. E. in Oklahoma City April 24-26, by Prof. C. V. Bullen and the following students: P. J. Minter, Woodrow Waggoner, Fred Fairly, Erle Mayo, Thomas Young, Lavell Abbott, Willard Kelton, Marion Royalty, Tony Ulrich, T. A. Ford, Fred Linton, Mark Townsend and John L. King. Erle Mayo will read a paper on "Photoelectric Sweep Circuit for Cathode Ray Oscillograph." The students will visit the University of Oklahoma while they are in Oklahoma.

Officers Elected At a general meeting of the A. I. E. E. Tuesday night the following officers were elected: Mark Townsend, chairman; John L. King, vice-chairman; P. J. Minter, secretary-treasurer. Out going officers were: Erle Mayo, chairman; Thomas Young, vice-chairman; Marion Royalty, secretary-treasurer. New officers will take charge at the next meeting and will serve this year and next year.

C. E. Mitchell made a talk on X-Rays and Ben Thompson spoke on automatic volume control. Erle Mayo presented the paper that he will read at the convention in Oklahoma City.

Forum To Discuss Religion Sunday

Miss Elizabeth H. West, librarian, and Miss Flora McGee, associate professor of English, will conduct a discussion on religion at the Fireside Forum to be held Sunday at 2:30 in the Women's hall. Hostesses will be Elizabeth Conner, Inez Hensley, Sue Michie, and Elizabeth Montfort. All women students are invited to attend.

The Forum and Quarterly Club are sponsors of the Fireside Forum.

Charles Hatchett, who graduated from Tech in 1932 and received a B. S. in E. E., brought a group of boys to Tech's engineering show from the Key Independent School District near Lamesa.

College Newspaper Office Attracts White Cat And Her One Offspring

Whether to retain the Toreador office as newspaper headquarters or to open it as a zoo is the chief problem now before the Toreador staff. Some seem to think that the zoo would bring large financial returns.

For, since the Toreador equipment was moved from the ad building to the basement of the engineering building, the new office has attracted several species of animals, ranging from the vicious to the timid.

Some of these animals, no doubt, would have been glad to make their homes in the debris which litters the floor of the room and which is seldom, if ever, disturbed. But a face of cigar stubs and cigarette butts evidently had little appeal.

Cat Moves In For, until this week one snake, several mice, one rabbit, and numerous dogs had come and gone. Then last Tuesday a white cat, which had been wandering around the basement for several days, decided to move her family into the office. But not without fitting cau-

Religious Oratorio To Be Given During Easter By Chorus And Orchestra

Council President To Be Elected By Women Students

President of the Junior council will be chosen by Tech women students in a run-off election today. In the AWS election of officers last Friday, the candidates for this office, Helen Lehmsberg and Lois Spraggins, received 135 votes each. Polls in the east rotunda of the ad building, the south corridor of the engineering building, and the first-floor hall of the home economics building will be open from 8 to 12 o'clock and from 1 to 5 o'clock. Women will vote in their own divisions.

Results Given Other results of the AWS election were: president of AWS, Katherine Leidigh, 141, and Mary Genevieve Hardnesger, 122; vice president of AWS, Mary Frances Johnston, 149, and Emma Smith, 121; secretary of AWS, Elinor Crenshaw, 152, and Idell Bacon, 108.

The newly-elected president and the retiring president, Emily Davis, will leave April 21 to attend the National AWS convention in Bloomington, Indiana, April 23 to 27.

Smith Elected Junior Queen

Spring Will Be Theme Of Annual Dance Given For Seniors

Emma Smith, Childress, was elected queen of the junior prom by the class in an election held Monday. Other candidates nominated at a class meeting were: Genevieve Stoval, Florida; Pauline Yeager, Lubbock; Helen Barstow, Lubbock; Martha Jernigan, Childress; Evelyn Sloan, Crockett; and Geraldine Wicker, Slaton. They will be members of the queen's court.

Spring will be the theme of this year's prom, which will be given in the gymnasium April 27 from 9 to 12 o'clock. It will be a formal dance honoring graduating seniors. Bids for the dance will be \$1 for dates and \$1.25 for stage. They may be obtained from Leonard Curfman, Evelyn Sloan, Dixie Anderson, or Robert Harding.

Seniors To Register Seniors are asked to register with Harding, class president. Other officers are: Curfman, vice-president, and Pauline Yeager, secretary-treasurer.

Members of the dance committee are Harding, Curfman, Anderson, and Sloan. Jim Lindsey was appointed publicity manager. Decorations will be in charge of Joe Elder and Billy Grimes. The ceremony, climaxed by the crowning of the queen, will be directed by the faculty sponsors, Miss Ruth Purdie, head of the speech department, and Ralph Martig, professor of history.

AGGIES INSTALL WINDMILL An Axtel eight foot windmill wheel on a steel stub has been consigned to the agricultural engineering department.

The wheel, which has a cut away top, is to be used for instruction and demonstration. It has been set up in the farm shop for the present.

TOREADOR OUT EARLY

The Toreador will be published on Thursday next week, because of the Easter holidays, which begin Friday. Student journalists and others with stories are asked to turn in copy by Tuesday night to meet the deadline. Journalism students may get assignments today and Saturday.

Attendance Varies This was the first show during which every piece of machinery in every building was in operation. Attendance in the various divisions was as follows: mechanical engineering shops, 5,318; textile engineering building, 5,897; main engineering building, 7,521. Among the new features of this year's show were a small tesla coil, the phantom burner, ball bearing machine, power transmission by radio, melting iron in cold water, and an exhibit of clay modeling. Souvenirs were fabric designs, small metal wheels with "Texas word" gavel, blue prints, and Tech Engineers' engraved upon them. The first annual engineering show was staged by the graduating class of 1928 with approximately 1,000 visitors.

Varied Activities Feature Week-End Social Calendar

Pre-Law Club Will Give Annual Banquet This Evening At Hall

Las Vivarachas Entertain Saturday Evening At Hilton Ballroom

LISTED on the social calendar this week-end is a banquet, a dinner, an artist course number, and a dance. Tech Pre-Law club are having their annual banquet, Las Vivarachas club members are entertaining with a dinner, the Jubilee Singers will appear here this evening, and the Student Council will sponsor an all-college dance tomorrow evening at the gymnasium. Ned Bradley and his orchestra will play. Winburn McAllister is manager of the affair.

Ernest Griffith, president, will preside as toastmaster at the ninth annual banquet of the Pre-Law club this evening at Seaman hall at 7:30 o'clock.

Like Program Chairman

Besides the regular humorous talks, some musical numbers, and a dance solo by Billy Jackson, there will be a principal speaker, yet to be selected. Charles Fike is program chairman. Annie Letha Hamilton is decoration chairman.

Dr. W. A. Jackson, sponsor; Judge Clark Mullican, honorary member, and Dr. and Mrs. Bradford Knapp will be special guests of the club. Officers and seniors of the club and their dates are Griffith, J. H. Smith, Arnold Walter, George Long, and Jane Woodruff. Charles Fike, Tom Zorn, James Toothaker, Dorothy Frank Clements, Mary Frances Standef, Mrs. George Long, Granville Dickinson, Emma Smith and Patti Hopping.

Entertain With Dinner

Lilacs in a silver bowl will center the tables at foursome tables when Las Vivarachas members entertain Saturday evening at 7 o'clock with a dinner in the Hilton hotel ballroom.

A program will be presented as follows:

R. C. Mathaney and Lewis Walker, tap dance; Patricia Lindsey, song; special dance number, Nancy Faver and Walker; Johnnie Wells, song.

Special guests will be Miss Ruth Pirtle and Mrs. Jim McJimsay, sponsors, Durwood Bradley, Mr.

College Calendar

- Friday, April 12
 - Pre-Law banquet, Seaman hall, 7:30 o'clock.
 - Artist Course, Jubilee singers, High school auditorium, 8 o'clock.
- Saturday, April 13
 - Las Vivarachas dinner, Hilton hotel, 7 o'clock.
 - All-College dance, Student Council, gymnasium, 9-12 o'clock.
- Sunday, April 14
 - Y. M. C. A., Seaman hall, 4 o'clock.
- Monday, April 15
 - Dairy club, room A107, 7 o'clock.
 - Pre-Law club, room 210, 7 o'clock.
 - A. W. S., room 209, 5 o'clock.
 - Botany club, Room C217, 7 o'clock.
- Tuesday, April 16
 - Aggie club, Pavilion, 7:30 o'clock.
 - Officers club, armory, 7:30 o'clock.
 - H. K. club, H107, 7 o'clock.
 - Pre-Med club, room C101, 7 o'clock.
 - Sock and Huskin, room 202, 7 o'clock.
 - A. S. M. E., room E150, 7:30 o'clock.
 - W. A. A., 5 o'clock, gymnasium.
- Wednesday, April 17
 - Double T, gym, 7 o'clock.
 - Social clubs, 7 o'clock.
 - Young Democrats, room 302, 7:30 o'clock.
 - Oratorio, gym, 8 o'clock.
- Thursday, April 18
 - Alpha Chi, room 214, 5 o'clock.
 - Student Council, room 210, 7 o'clock.
 - Religious council.
 - Officers club, armory.
- Friday, Saturday, April 19-20
 - Easter Vacation.

McJimsay, Miss Doris Delle Tatum, and Curtis Cheaney.

Members Named

Club members are Misses Idell Bacon, Emily Davis, Marian Hurmance, Madeline Neves, Lola Mae Grundy, Othella Daniel, Ruth Hur-

Pirtle Is Named Speech Chairman

Miss Ruth Pirtle, head of the speech department at Tech, was elected temporary chairman of a South Plains speech teachers organization when the group met at the Hilton hotel Saturday afternoon for luncheon. A permanent society is to be formed at a meeting, April 27, at Texas Tech. Miss Alice Beckett of Rails was named temporary secretary.

A constitution is to be submitted and permanent officers are to be elected at the session at the college.

After the business session at the luncheon, pupils of Miss Nancy Faver gave ballet numbers and Mrs. Richard Heineman and Charles Maedgen presented "The Power of Suggestion," by Stokes.

Dr. Reed Will Talk On West Texas Wild Flowers

"Dr. Jekyll and Mr. Hyde as Seen in the American Ruffie Plant, Rhila Americanus" was the subject of a talk given by Dr. E. A. Studhalter, sponsor, at a meeting of the Botany club Monday evening.

This meeting was called by the president, John Marr. A regular meeting of the club will be Monday evening at the same time. Dr. E. L. Reed will talk on West Texas wild flowers, with special emphasis on flowers suitable for botanical gardens.

"Nature always takes care of things. If a lilac turns up with red leaves, that lilac has been caught."

Genell Stovall, Billie Boyd, Lena Mae Boyd, Frances McKee, Mary Frances Standef, Virginia Newton, Lois Houston, Maxine Reese, Lois Allen, Emma Dean Bincham, Mildred Blanton, Cecelia Louise Conner, and Mary Etta. Their dates will be Mac Aggin, Graham Holmes, Kenneth Clinton, H. M. Gibson, L. S. Everett, James Ehrbridge, Jim Potts, Sid Stout, Howard Hummence, R. L. Read, Roy McCarty of Amherst, Preston Crawford, Chestley Sullivan, Burnice Walker and Frank Morris.

Speaks Here

REV. ALEX B. HANSON

Hanson Speaks Here Sunday

Minister To Be In Charge Of Services To Be At Seaman Hall

Rev. Alex B. Hanson, priest-in-charge of the Mission churches of the Protestant Episcopal church in Colorado, Coleman and Sweetwater, will be in charge of all the services at St. Paul's church and Creighton chapel, Seaman hall, Sunday.

Subjects are as follows: "I Am With You Always," "As a Little Child," "Thy Will Be Done," and "Christian and His Ambition."

The Reverend Mr. Hanson has a B. A. academic degree and the E. D. theological degree from Sewanee, 1927. He is a native of Mobile, Alabama, has a wife and two children. In 1925, the Reverend Mr. Hanson began work in Colorado City.

In April, 1934, the Rev. Mr. Hanson attended the College of Preachers at the Washington Cathedral in Washington, D. C.

Plans Are Made For Hodge-Podge

Corduroy pants and gingham dresses will serve as part of the admission to be charged for the annual sophomore hodge-podge. It was decided at a meeting of the class Monday evening.

The dance, which is scheduled for May 17, will probably be held in the gymnasium, Floyd Williams, class president, said. Within the next three weeks, another meeting of the class will be called to decide on the orchestra, program, place and admission prices.

The standing dance committee is Maurice Hughtatt, Maynard Hall and Charlotte Raliff.

Math Professor To Read Papers At Science Meet

Dr. F. W. Sparks, and P. K. Rees, professors of mathematics, will attend the Southwestern Division of the American Association for the Advancement of Science at Santa Fe, New Mexico, April 29-May 2. Dr. Rees will read a paper on "Transformations of Fuchsian Transformations" and Dr. Sparks will present papers on "Extensions of Dimensional Determinants" and "Universal Quadratic Zero Forms in Four Variables."

Experiments on a large number of subjects at Harvard university psychological laboratory have shown that difficult matter is better assimilated by students by means of a speaker in the room than by receiving the same information by radio.

Robert Hooser, dairy manufacturing major from the division of agriculture in 1933, who has been employed by Swift & Company in Lubbock, is doing graduate work in Iowa State college at Ames. He is specializing in creamery management.

Police students are being taught "police science" in several short courses being offered in the teacher-training departments of several universities.

Send The Toreador to a friend.

Tech Students Attending Texas Dramatic Tourney

Charles Maedgen, Clay Thompson and Mrs. E. K. Heineman, members of the Sock and Huskin, John Marr, club president, and Miss Ruth Pirtle, head of the speech department, are in Alpine, Texas, attending the Texas Inter-Collegiate Dramatic tournament at Sul Ross Teachers college, April 11-13. Maedgen, Thompson, and Mrs. Heineman presented "Smoke-screen" Thursday evening.

A proposal for the "open substitution" of college athletes is now being considered by members of the Pennsylvania Association of College Students.

Fireside Forum To Discuss Religion

The Fireside Forum will meet in the women's dormitory April 14, Sunday, at 2 p. m. and discuss Religion. This program was announced for last Sunday, but the meeting was postponed.

Inez Hensley and Elizabeth Montfort of the Forum and Misses Elizabeth West and Flora McGee of the Quarterly club compose the program committee.

Senior class members who are to be hostesses are Catherine Loughridge, Mary Margaret Medford, Sue Michie, Elizabeth Montfort, Goy Moseley, Doris Mullen, Mrs. S. J. Oliver, Mickie Panacki, Vera Ferriman and Gladys Palmer.

THIS PALM BEACH SUIT COST ME ONLY \$15.75, BUT I FEEL LIKE A COOL MILLION

donald herald

PALM BEACH SUITS... New in Value

There'll be sizzling-hot days this summer when you wouldn't sell your Palm Beach suit for \$15.75 for the rest of the day.

And you can have this Palm Beach cool comfort all summer for only \$15.75...And still have a lot of wear left.

Palm Beach is a bigger value than ever this season, because of the lower price and finer tailoring. You ought to see the beauties in white and fashion's newest colors.

Genuine, trade-marked Palm Beach keeps its shape and resists wrinkles better than any other summer suiting. The smooth, fuzzless fibres repel dirt, and let air in and perspiration out.

AT YOUR CLOTHIER!

GOODALL COMPANY • CINCINNATI

FLAVOR! "Camels have a great taste—rich and pleasing," says Herman J. Lamkin, linotype operator. "I've smoked them for many years. I can smoke as steadily as I want to, and Camels don't ever affect my nerves."

HEALTHY NERVES! Pat Robinson, sports writer, says: "I've been smoking Camels ever since they were put on the market. I smoke at least two packs of Camels a day. They never interfere with my nerves."

ENERGY! An editor gives his experience: "The enjoyable way of easing strain is smoking Camels," says Ray Baker. "Camels bring back my 'pep,' and I can tackle the next big story with renewed energy!"

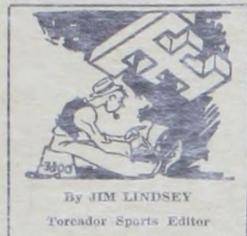

SO MILD! Miss Margaret Nichols, expert woman reporter, says: "Camels are a smoother smoke. They have a mild flavor—delicate and pleasing—entirely different from any other cigarette. Camels taste better!"

VALUE! "Camels are made from costlier tobaccos. They're the real 'extra value' cigarette," says E. E. C. Pickwood, ace news-photographer, who often uses fast airplanes to get "front page pictures" for a great New York newspaper. "I'm loyal to Camels," Pickwood continues. "They taste so much richer and smoother—never frazzle your nerves. I have smoked Camels for years and I, too, would 'walk a mile for a Camel.'"

Matadors Meet Canyon Buffaloes On Tech Field Today

First Inter-Collegiate Dual For Tech Tennis Rounds Get Underway

By JIM LINDSEY
Toreador Sports Editor

WITH the weather permitting, Coach Virgil Ballard sends his Matador tennis artists against the West Texas Buffaloes in the first intercollegiate track dual this afternoon at Tech field. The gun for the 120 high hurdles—the opening number of the path program—barks promptly at three bells.

It will be well worth your time to attend the event. The Mats have been drilling hard despite adverse conditions of the elements and nine chances out of ten the Bison will get a run for their money. John Case, miler deluxe, and the Cowan brothers, who specialize in the department of pole vaulting, assure Mr. Fan of a gala performance.

Out at Tempe Bert Firanman howls again! The department is in receipt of two letters. One bears the signature of the handsome Bulldog grid substitute and the other is signed by Bob Allison, NEWS EDITOR of the Collegian. Tempe student sheet. The paragraphs filled with sarcasm in sentence pertains to the age-old subject of Tech's presence in the Border loop with a tinge of the topic of El Cuspidor.

We quote some of the paragraphs for your entertainment. Here's a couple from Firanman's pen: "You people surprise us terribly. (1) We didn't know the U. S. postal service would carry a Collegian as far as Lubbock; (2) we thought Lubbock was lost in the last semester; (3) we didn't know you read our column and (4), the most important, we didn't know you could read." (Not bad, Firanman! Not bad.)

And the last paragraph: "And when the sand blows across the Great Staked Plains (Panhandle to you) we'll still think Texas Tech is (1) too big for the Border conference; (2) possibly on the shady side and (3) not following the spirit in which the conference was formed."

"I see you've followed the policy of Flagstaff and University of Arizona in going far enough to disgust one in jumping all over Tempe. Your fibes seemed good-natured enough; underneath, perhaps, there is a bit of vitriol—easily excused in view of the fact that the Collegian did its part in keeping Tech from winning the Border conference football championship year after year into the future with but an hour to play." Thus writes Bob Allison.

About Tempe keeping Tech from winning the grid titles, Bob, we refer you to the "Blue Book of College Athletics." Under Texas Tech you will discover that the winners of the football flag for the past three seasons has been THE MATADORS. Speaking of how the Bulldogs soundly warped the Mats' tails in cage warfare, we turn through our files and find these results for games played last year: TECH 40, TEMPE 23, TECH 34, TEMPE 31.

Coach Virgil Ballard Has Squad Ready For Test Against Teachers

ANNOUNCING that his squad is "ready," Coach Virgil Ballard matches the Matador tracksters with the West Texas Teachers on the Tech cinder path this afternoon in the first intercollegiate dual here. The first event starts at three o'clock.

Good Condition
Despite adverse weather conditions this week, the Scarlet and Black have continued their workouts in preparation for the initial test of the spring. The Tech manor states that the Mats are in good condition.

Little change has been made in the showing of several individuals this week. John Case continues to set the pace in the two mile run. The nonchalant sprinter has been holding his time close to 10:25 minutes for the stretch.

Cowan Brothers Again
The Cowan brothers, Maurice and Coleman, continue to raise the bar in the pole vaulting department. Both have cleared the cane several times with the crossbar resting on the 11 feet, 6 inch mark. Maurice, the younger of the two, holds the district intercollegiate record with this mark while Coleman is the possessor of the Border conference record at 12 feet, two and one-half inches.

Little is known as to the strength of the visitors. The meet with Coach Baggett's thirly chads last Saturday was called off because of the weather. Tech entries are: Mile—John Case, J. H. Freeland and Bob Case. 440-yard dash—D. M. McElroy, Russell Wimberly and Gordon Ball. 100-yard dash—Morris Laine and Ernie Matthews. 120 high hurdles—J. H. West and

Crew's Team Is Champion

Second Floor, West Wing Defeats Wester's Five For League Flag

By turning back the third floor, east wing cagers in a fast game last week Alvin Crews, ably assisted by Lang Wagner in the goal-shooting department, led the second floor, west wing band of sharpshooters to the championship in the first dormitory inter-section cage tournament. The captain of the victors dropped 11 points through the circle and his forward made 10 markers as the champions turned back Wester's basketballers in the gym on Wednesday, 25-22.

FINAL STANDINGS

	W	L	Pct.
Second Floor, WW	8	1	.889
Third Floor, EW	7	2	.778
First Floor, EW	6	4	.600
Second Floor, LW	3	3	.500
Third Floor, WW	2	7	.222
West Floor, WW	0	9	.000

But it took 32 minutes of hustling on the rectangle before the league toppers annexed the deciding contest. Faced by Sam Harvett who was high scorer of the evening with 13 tallies, the third floor, east wing quintet fought an uphill battle all the way after losing the lead in the opening minutes. The final gun found both clubs well-spent.

TEXAS VS. MINNESOTA

An inter-sectional football game between the University of Texas and Bierman's Minnesota Gophers will probably be played in 1935, according to Jack Chevigny, head football coach of the Longhorns.

Track Coach

Coach Virgil Ballard sends his Matador sprinters against the West Texas Teachers this afternoon at Tech field in the first intercollegiate dual here. The meet starts at 3 o'clock.

After six weeks of playing, the champions and runner-ups will receive prizes. J. and J. sporting goods company is the donor. First round pairings are: Gordon vs. B. Bozeman; Langdale vs. Rochelle; McKay vs. Richardson; Cloyd vs. Jordan; C. Smith vs. H. Bozeman; McCarty vs. Braaher; Lynch vs. Synes and Hall vs. Parwer. Webster will play the winner of the Parker-Hill match.

Bozeman And Gordon In First Match Today; Pairings Given

The intramural tennis tournament gets underway today with Marshall Gordon matched against Bruce Bozeman in the first round of play. The journey is under the direction of Deanssey Cannon. "The tournament is being held with the purpose of increasing interest in the net game and providing more material for the varsity ranks," the director stated in giving the two-fold purpose of the elimination contests.

Champ Gets Prize

After six weeks of playing, the champions and runner-ups will receive prizes. J. and J. sporting goods company is the donor.

First round pairings are: Gordon vs. B. Bozeman; Langdale vs. Rochelle; McKay vs. Richardson; Cloyd vs. Jordan; C. Smith vs. H. Bozeman; McCarty vs. Braaher; Lynch vs. Synes and Hall vs. Parwer. Webster will play the winner of the Parker-Hill match.

SPORTS NOTICE

ALL STUDENTS interested in basketball are urged to report at the gymnasium Monday at 7 p. m. Equipment will be issued for varsity spring training.

ROUGH CONTESTS BRING DORMITORY INTER-SECTIONAL BASKETBALL CHASE TO CONCLUSION IN GYM MONDAY NIGHT

"They're not fouling much. So what's the use," said Referee Varnell Hale. So a couple of affairs resembling football contests rather than basketball games brought the dormitory inter-section cage campaign to a close in the gymnasium Monday night. Only five fouls were called by the former Matador cager.

ONE-SIDED AFFAIR

In the opening affair the first floor, east wing quintet took a one-sided skirmish from John Vernon's basketballers of the third floor, west wing, 46-20.

STILL AND TAGGERT HIGH

Red Wester's third floor, east wing team was pushed to beat the first floor, west representatives in the last game of the chase, 17-16.

TILDEN GETS OVATION

Bill Tilden was received enthusiastically in New Orleans recently when he played before 3,200 fans.

Joe Demyanovich, University of Alabama's star full back, never played football until he went out for the freshman squad at that institution.

— so far as we know tobacco was first used about 400 years ago —

— throughout the years what one thing has given so much pleasure..so much satisfaction

Today the Governor of North Carolina says to the Governor of South Carolina—
"Have a cigarette"

TODAY people all over the world use tobacco in one form or another. They chew it, they smoke it in pipes, they smoke cigars and cigarettes, and here is what an eminent physician said about cigarettes:

"I have been something of a student of cigarettes, and it is my belief that they offer the mildest and purest form in which tobacco is used."

Yes, nowadays the cigarette is the most popular form in which tobacco is used. A good cigarette certainly gives men and women a lot of pleasure.

Have a Chesterfield—
For one thing—they're milder.
For another thing—they taste better.

It was a matter of pride with a host in Colonial days that his guests should smoke tobacco grown on his own plantation.

SPEE Group To Meet Here

Fifth Annual Convention Will Be Held Here April 19, 20

The fifth annual meeting of the Texas session of the S. P. E. E. will take place April 19 and 20. Faculty members of Texas universities and colleges who teach engineering subjects are members. Dean E. H. Plath of S. M. U. is president; Dean O. V. Adams of Texas Tech is vice-president; Prof. W. E. Street of Texas Tech is secretary and treasurer.

The first year the society met at A. & M. college, the second jointly at S. M. U. and North Texas Aggies, the third at Texas university and the fourth at Rice Institute.

Three general meetings will be held on Friday afternoon, a dinner meeting Friday night, and a meeting Saturday morning. The electrical engineering professors and engineering drawing professors will have sectional meetings Saturday morning.

Records Used To Teach Languages

Three sets of phonograph records which are to be used in teaching French and German pronunciation and intonation in conversation in keeping with the latest trends in methods of teaching have been purchased by the foreign language department. There are five double-faced disks of French and an equal number of German.

Somewhat more advanced and of a different nature are the Spanish records.

The department of foreign languages is now negotiating to buy an electric phonograph. As soon as the machine is acquired, it will be placed on a specially constructed truck and wheeled from one classroom to another as instructors see the need.

The Italian government has made a special gift of 300 Italian books to the University of California (Berkeley).

There are approximately 1,500,000 living college graduates in the United States.

The Middle Atlantic States Collegiate Athletic conference is advocating twilight collegiate baseball games as a means of increasing interest in the sport.

mystery thriller, for detective story fanatics, with Warren William, Margaret Lindsay and Donald

Students Will Strike Today

Undergraduates Asked To Leave Classrooms At 11 O'Clock

An appeal has been issued by five national student organizations asking high school and college students throughout the country to strike against war by leaving their classrooms today at 11 a. m., the anniversary of America's entrance into the World War.

Student leaders estimate that at least 100,000 students will respond to the call by leaving their classrooms at several American colleges.

"We call upon you to act against the war makers in our own country," plead leaders of the movement. "William Randolph Hearst, who is one of these, is notorious for his war mongering slanders and attacks professors and student organizations in his attempts to reduce the schools to servile instruments of jingoists and the war department."

"We call upon the progressive liberal forces on the American campus to take a stand. We ask the cooperation of the faculty and administration in our anti-war strike."

Organizations sponsoring the movement are the National Council of Methodist Youth, Inter-Seminary Movement (Middle Atlantic Division), National student league, Student League for Industrial Democracy and American Youth Congress.

Iowa State college students who were given special reading improvement courses were able to increase their reading speed 35 per cent in 20 days.

Woods is Wednesday and Thursday's cinema program.

American Mercury Is Offering Prize For Best Essay

For the best essay written by any college undergraduate in America on the subject: "The Professors Got The Country Into This Mess: But We Can Get It Out," American Mercury is offering \$500.

No essay must be more than 2500 words in length, and must be written by a bona fide undergraduate. H. L. Mencken, Laurence Stallings and Paul Palmer will be judges.

In case of a tie, equal prizes will be given to the tying contestants. Manuscripts should be directed to the Contest Editor of the American Mercury, 730 Fifth avenue, New York. No entries will be returned, but the Mercury reserves the right to print extracts from non-winning essays, to be paid for at regular rates.

The contest begins at once, no essays received after midnight, August 31, will be considered.

A letter received by The Toreador regarding the contest says: "It is about time that the youth of the nation had something to say in the regulation of our affairs." And continuing: "The American Mercury regrets that the dollars will be actually worth only 35 cents apiece—but there again the professors are to blame."

Astronomy To Be Offered During Summer Session

A course in descriptive astronomy will be offered by Dr. R. S. Underwood, professor of mathematics and author of a book on astronomy, "Juno Into Space," during the first summer school semester.

A telescope, belonging to Carl Brandt, head of the textile engineering department and amateur astronomer, will be available for the course. Some or all of the class sessions will be held in the evenings in order to give the class the benefit of actual observations.

Method Of Measuring Distant Sky Objects Given; Milky Way Is Nebula

(Editor's Note—This is the sixth and last of series of articles on astronomy written by Dr. E. S. Underwood, professor of mathematics.)

If you hold a pencil at arm's length and look at it first with one eye and then with the other, the pencil will seem to shift back and forth on the background of distant objects. The apparent shift, called the "parallax" of the pencil, is an angle of about five degrees under the conditions given. If you know how far apart your eyes are and can measure the angle, it doesn't require the genius of Einstein to figure how far the pencil is from your eyes. This simple principle is used in measuring the distance to objects in the solar system, the two eyes being represented by observers at different earth stations, the pencil by the object whose distance is desired, and the background by the sparkling of remote stars which for practical purposes might as well be at infinity.

Angles Are Same

In the case of the near-by moon, the angle involved for observers on opposite sides of the earth is about the same as that made by a pencil held seven feet from the eyes. To represent the star's distance, the pencil would have to be half a mile away; but the small angle made by lines from it to the two eyes would still be easily measurable. To represent the outermost planet, Pluto, the pencil must be 23 miles away, and at that distance the smallness of the angle begins to get bothersome. But we don't get into any real difficulty until the star, carrying the pencil, on being waved back far enough so that his pencil will represent the nearest star, finds disgustedly that he has backed five times around the earth. At this distance our first base line has become useless.

Longer Line Available

Fortunately, a much longer reference line is available. At any given time the earth is separated by half the diameter of its orbit from its position six months earlier, so that we can view the distant objects from the two ends of a space-line nearly two hundred million miles long. Now if we reduce the scale so that this new unit just fits between the eyes, the nearest star becomes a shining dot on the pencil only five miles away. Our simple principle can then be applied to measure the distance of a few thousand of the nearer stars; but again it breaks down with the great majority of sky objects still beyond reach. Indirect methods must be employed to get the plumb line into the deeper places of

space. Such methods have been remarkably successful; but we have not space to describe them here.

All Kinds of Suns

What, it may be asked, do the telescopes reveal in space besides a mere "monotony of giant suns"? There is the unmaterial material of nebulae, some of it dark and obscuring like cloud banks and some of it luminous with the reflected light of stars. Probably the dimly comets in the solar system are related to nebulae; perhaps our sun picked up some of the short-lived, visibly changing fellows when it was back near the Great Nebula of Orion only a few million years ago. There are also new and wonderful suns, exploding suns, giant and dwarf suns, double and triple and multiple suns, schools and schools and swarms of suns and, finally, great whirling universes of suns and other cosmic material shaped surprisingly like pin-wheels. These are the beautiful "spiral nebulae," the largest definitely shaped structures yet discovered in space. It is possible, though not certain, that our Milky Way is a spiral nebula.

Twelve of the 18 students initiated into Phi Beta Kappa at Northwestern university (Evanston, Ill.) this year were co-eds.

Favorites From The Bookshelf

By RUTH PRIDDY

"In the spring, an author's fancy... so April seems to be the month for a new influx of books. There are many by your old 'stand-by' authors. When your mind wanders from your studies, better yet a modern education in fiction. Books just released are: *Claudius, the God*, by Robert Graves (a sequel to *I, Claudius*); *Now We Set Out*, by Susan Ertz; *Come and Get It*, by Edna Ferber; *Pylon*, by William Faulkner; *The Autobiography of John Hays Hammond*, (a book all engineers should read.)

During the past few months... Pearl S. Buck has completed her trilogy on Chinese life... Edna St. Vincent Millay has published a book of poems, *Wine From These Grapes*... Gertrude Stein has published a collection of *Lectures in America*... Lloyd C. Douglas has released a new novel, *Green Light*, which is having a good reception... James Hilton, who is reputed to have future possibilities, has published *Lost Horizon* and *Goody, Mr. Chips*, the latter being short, easy reading, and full of philosophy of life: Sigrid Undset, the Scandinavian author, has a new novel, *So Red the Rose*... Stark Young is popular... *Heavy's My Destination*, by Thornton Wilder, leads the list of best sellers.

If you wish you were miles from these windy days and sandstorms, get a travel story on sunny Spain; Italy, the land of lakes; or any of the many adventure tales. Some are: *Vagabond Journey Around the World*, by Frank... *The Spanish Main*, by Masefield; *Northward Ho!*, by Stefansson and Schwartz; *Beaver, Kings, and Cabins*, by Skinner; *Motorists Guide to Mexico*, by Michael and Virginia Scully; *The Land of the Sun*, by Austin.

Mythology is not only for youngsters. A liberal smattering of it is essential to any education. Try reading: *Raffinich's Mythology*; *Ophelus*, by Padraic Colum (*Myths of the World*); and see how fascinating fairy tales can be.

If you are one of our poor unfortunate who is hopelessly behind on fiction and wants to read something which isn't classical, but fiction with a future. Try some of the mixture of old and new: *The Magnificent Obsession*, by Lloyd C. Douglas; *O' Human Bondage*, by W. Somerset Maugham; *Story of San Michele*, by Axel Munthe; *Kristin Lavransdatter*, by Sigrid Undset; *Oil for the Lamps of China*, by Robert; *Growth of Soil*, by Hamsun; *American Tragedy*, by Dreiser.

Do you ever think about going in the library for anything besides studying and courting? The glamour of cosmopolitan cities and foreign countries is brought to you in a host of current magazines there. Girls who are really modern or sophisticated keep up with what the elite are doing, in styles and entertainment, by reading periodicals.

Boys can greet spring sports—polo, fishing, golf, baseball, in any number of sports magazines. Why not see just what fields of entertainment the library offers? Ask for your favorite metropolitan newspaper. They have it too.

Lost Horizon, by James Hilton, is one of the unclassifiable books. It is highly imaginative and impossible, yet it is fascinating. Sinclair Lewis has said of this book that if you have not read it, you are wasting time. Perhaps he means that a careful analysis of the book will convince you of the uselessness of always attempting to beat time, as we Americans do.

The main setting of this story is in Tibet, while the prologue and epilogue are in India. The narrative is supposedly written by one of the characters who is introduced in the prologue.

This is a mystery, in fact an unsolved mystery, but not in the true sense of the word. Four people are leaving for England in a plane, to escape the revolution in Banku, India. Two of the men are Englishmen in the Consular Service, one is an American who has invested too heavily with other people's money and is hiding away from the law, while the woman in the group is a missionary. They board their plane, supposedly bound for England, but find that the pilot is strange to them and they are traveling in the wrong direction. After harrowing experiences, they land in Tibet, high in the Kuen-Lun mountains, and far from civilization. They are met by a strange Chinese host and conducted through tortuous mountain passes to the lamaserie, Shangri-La, which is in a sheltered valley, overlooked by the mountains named Karakal, "Blue Moon." Here they are to be treated as guests, but never to be allowed to leave. An explanation of the situation, the manner of the acceptance of their final destinies are detailed in the book.

Journalists Meet

(Continued From Page One) state capital, will begin at 4:30 p.m. To climax the conference a soiree masque will begin at 8 o'clock in the Venetian room, Foster hall. This is possibly the most Mardi Gras and ball promised.

Topics of the numerous speeches to be given include expansion of journalistic education, opportunities for research in journalism, photography as a specialized field in journalism, teaching ethics, and advertising of journalism, future of the newspaper for both men and women, trends in editorial and feature writing, business problems of the student newspaper, and adaptability of journalism.

Sunday morning the group will go to New Orleans and spend the day and night. The group will leave New Orleans Monday morning, returning here Tuesday.

"If Washington did not know better than to stand up in the boat while crossing the Delaware, he deserved to fall in the river."

Home Economics Club Elects New Officers Tuesday

Members of the Home Economics club will elect their new officers next Tuesday and Wednesday. Ballot boxes will be placed in the first-floor hall of the home economics building.

Candidates for election are: president, Pauline Yeager and Margaret Anderson; vice-president, Lois Spraggins and Sarah Louise Cook; secretary, Pauline Krosser and Jean Rain; and treasurer, Sally Jane Clay and Eileen Eooker.

Theme of the program at the last meeting of the Home Economics club Tuesday evening at 7:30 was "How to Buy." A short play, "Quality in Sheets," was given, and Virginia Magee played piano numbers.

Five Talks

Five talks were given by members of the club. Agnes Abernathy discussed "Extravagance," and Ethel Green had as her subject "Prosperity." "The Consumer and the Labor Problem" was discussed by Valma Anderson, and Jessie Mae Rose told how to avoid sales tricks. Katherine Sheets talked on "What an Institutional Manager Should Know in the Buying of Textiles."

The April group had charge of the program, Esther Smith is chairman of the group.

While papa Huey goes about the nation with a bodyguard of a score of husky gorillas, his daughter Rose, a student at Louisiana State university (Eaton Rouge) hurries from class to class with a worried look and dares not to leave the campus alone for fear that some enemy of her dad's might see that the sins of the father are visited upon the children.

HOME EC SENIORS GUESTS

Home economics seniors were guests of the Double Key society at its annual friendship party Thursday night in the home management house.

The home economics faculty were special guests. Games were played and refreshments served.

TO ATTEND CONVOCATION

The cadet corps will attend the Friday convocation in a body. All members are requested to meet at the armory at 9:45 a. m.

Drill will be held at the armory at 5 p. m. Friday.

Of the 9,000 women graduates of the University of California (Berkeley) only about 3,300 are married, and more than 50 per cent of those were married between the ages of 26 and 36.

Lamesa Leads In Points For District Meet

Interscholastic Rulings Decision Awaited For Awards

No official winner of the interscholastic league meet for district three, held on the Tech campus Friday and Saturday, has been announced according to a report from Dr. A. W. Evans, director-general of the meet, Monday. The Dawson county school was leading by the narrow margin of two and one-half points. Lamesa had 44 1/2 points, Plainview 35.

Pending a ruling from the state interscholastic league, district officials have not declared a winner. The question pending is whether places won in the one-act play and the typewriting events should be tabulated to determine the champion. Lamesa won the former event and Lubbock the other.

Other leading schools included: Lockney, Falls, Spur, Littlefield, Dickens, Slaton and Shallowater. Lamesa High Golden Tornadoes repeated in the track and field contests having won this division last year. The Dawson county athletes ran up a total of 26 points to win the meet, closely followed by Olton with 21 points. Floydada was third with 20 points. A stiff wind and dusty atmosphere hindered the contestants, and only one new district record was made. Hughes of Lamesa tossed the discus 121 feet, 11 inches for a new record, taking first place honors in the meet, with first place in the discus and javelin, and third in the shot put.

Tech students and faculty members were judges and directors in the meet, which brought to the campus many high school students from this section.

Harvard, of all institutions, has been quietly developing a cosmopolitan viewpoint to the utter surprise of everyone west of the original 13 colonies. As evidence, we submit an extract from an editorial in the Harvard Crimson in which the editor takes issue with the policy of selecting eastern men for the college corporation: "Will Harvard never have a man on the Corporation who is free from the roots of Boston cultivation?"

The Corporation might employ Admiral Byrd to find out what has happened to 40,000 graduates living west of Worcester, a town now freed from the Indian menace, we are told."

Matador Band Will Be Represented In Music Contests

The Tech band will be represented by nearly 75 students at the West Texas school contests here May 3, D. O. Wiley, band director said yesterday. About 125 band members of more than 20 West Texas junior and senior high school bands will play a massed concert.

Two soloists have been selected for the concert. They are Harold Woolridge, clarinet soloist, director of the Fort Stockton band and for eight years a member of Sousa's band, and Jack Spengle of Wichita Falls, cornet soloist. Mr. Wiley will select the musicians by questionnaires.

Bands Represented

Bands which will be represented during the contests May 3 and 4 from which members of the massed band will be selected are Abilene, Big Spring, Wink (junior and senior bands), Panhandle, Amarillo (junior), Levelland, Slaton, Monahan, Fort Stockton, Lubbock (junior and senior), Sweetwater, Snyder, Albany, Forrest, Lorraine, Midland, Gatesville, Brownwood, Lamesa, Wichita Falls, Iowa Park and probably Sanderson. The last six bands have not indicated that they will be represented by entire bands, Wiley said.

Home Economics Group Has Annual Open House

Delegations from high schools in 28 nearby towns attended the second annual home economics open house last Friday and Saturday. It was estimated that nearly 1,000 local people and students visited the home management house and the home economics building at this time.

Exhibits of the work done in each department of the home economics division and students actually at work on various projects were features of the show.

Towns represented by delegations were Amarillo, Abernathy, Brownfield, Dimmitt, Eola, Eldorado, Gruver, Idalou, Lubbock, Lamesa, Levelland, Menard, Mulshoes, Miami, McAdoo, Post, Plainview, Ralls, Roscoe, Snyder, Slaton, Spur, Shallowater, Tohoku, Union, Whitharral and Wellington.

GIRLS DANCE IS GIVEN

The second all-girls dance of the year was sponsored by the Association of Women Students Wednesday night from 8 until 10 o'clock in the gymnasium.

Lewis Walker's orchestra played for the dance. Special tap numbers were given during the evening.
