### City, Tech to discuss coliseum sale

A meeting between Tech and city officials billed as the opening of negotiations on the sale of the Municipal Coliseum- Auditorium has been postponed and evidently mis-named.

The meeting scheduled for Monday, Nov. 16 was put-off until Monday, Nov. 23 because of scheduling problems between the two groups of officials. City Manager Bill Blackwell, Grover E. Murray, Tech president, Dr. Glenn E. Barnett, Tech executive vice president, and Al Couch, city director of public services, will attend the meeting.

Although the meeting had been termed the opening of negotiations for the purchase of \$2 million plus facility by Blackwell, the purpose of the meeting or any future meetings of these four men is not to decide whether Tech will buy the Coliseum-Auditorium.

COUCH SAID, "The meeting is to decide on procedures on how our two groups could approach the problem." Couch was referring to-the Lubbock City Council and the Tech Board of Regents.

Barnett substantiated Couch's statement saying the meeting was for preliminary discussions only.

Couch and Barnett both said the final decision and details would be worked out by the city council and the regents.

Frank Junnel, chairman of the Board of Regents said he and Lubbock Mayor Jim Granberry had discussed the situation and decided the two or three appointed members of the city council and the regents campus building committee (Retha Martin, Trent Campbell, and Judson Williams.

#### Animal work binds students in organization

A group of about 30 Tech students interested in the inter-relationship of men and animals in their environment, is forming a new organization.

"We were originally planning to form a pre-veterinary club," said Kent Glenn junior animal science major. "But we found after our first organizational meeting, there are many varied majors interested in this group."

Glenn said the sponsor for the organization is Dr. Wilson Wohler, college veterinary. "It was his suggestion not to limit the organization to only the pre-vet major," he said.

It is the hope of those organizing the club, to work on programs that will draw a cross section of interest from students across the campus.

At 7:30 tonight, the group will meet in the Psychology Building, room 4, for a second meeting. Richard Carlson, professor psychology, will present a program. Anyone interested in this new

agronomic program during the past 30 years. One of his major contributions to agricultural has been his development of the nation's greatest resource - its youth. He has been very active in civic work in such groups as Lubbock's Boys Clubs, Optimist Club, and Lubbock Crippled Childrens Council.

Bigham, president of the Aggie Council, was selected as the Outstanding agriculture student for 1970-71. He was selected for listing in Who's Who in American Colleges and Universities and has been on the Dean's honor list Consecutively since the fall of 1967.

Special teams recognized by the Aggie Council, which is the oldest campus organization, were the Crops Team, Dairy Products Team, Livestock Team, Meats Team, Range Plant Identification Team, Soils Team and the Agriculture Economics Debate and Public Speaking

The Crops Team is coached by Prof. Cecil Ayers and includes Sammy Bartee, Jerry Carroll, Weldon Lloyd and Bob Millican. Members of the Dairy Products Team, coached by Prof. J. J. Willingham, are Mark Compere, Billy Freeland, Paul Drager, Leslie Hoggard.

The Livestock Team is coached by James McManigal and the members are Eddie Holland, Carl Jones, Jerry Smith, Bill Doherty, Lonnie McDonald and Korky Wise.

The Meats Team is coached by Dr. Keith Lind and its members are Denise Eskridge, Ron Kersh, Larry Meadows, Marvin Meeks and Marsha Mills.

The Range Plant Identification Team is coached by Dr. D.A. Klebenow and its members are Jim E. Neaville, Joe Bob Watson, John C. Baize and James F.

The Soils Team is coached by B.L. Allen and its members are Bigham, Allen Smajstrla, Terry Whigham, Steve Spain and Ray Bryant.

## Soils Team wins first at Nacogdoches

Tech Soils Team took top honors in regional contests conducted at Nacogdoches over the weekend.

Texas A&M came in second and University of Arkansas third, seven teams competed.

ALLEN SMAJSTRLA of San Angelo, a member of the Tech team, was high individual in judging. Placings of other members of the Tech team were Jerry Bigham of Lockney, sixth; Terry Whigham of Tulia, tenth; and Ray Bryant of Plainview, twelfth. Steve Spain of Olton was the alternate member of the team coached by Prof. B. L. Allen of the Agronomy Department.

By placing first and second in the regional contests, Tech and Texas A&M became eligible to compete in the national contests to be held at the University of Arizona, Tucson, in the

rated sixth in the nation.

why?" Their answers were:

Dr. Gordon G. Henderson, professor, government- "The basic and biggest problem students at Tech face is the fact that they don't realize there are better ways to educate people than those used here. They won't argue, aren't critical of teaching methods and accept the printed page too much. I think they need to form

Dr. Gerald Skoog, professor, secondary education - I feel that students at Tech are too apathetic. They put up with things they shouldn't such as long food lines, then crummy food, long registration lines and poor instruction. They need more control of their destiny."

BRIAN BLAKELEY, associate professor, history- "Tech students suffer from lack of awareness of social and political issues of the day. This is probably caused by the relative isolation of West Texas from the major population centers." Beverly Dianne Brian,

associate professor, English -"I believe that students are concerned with the time and its social issues. It is difficult to deal with an indefinite

Doug Beran, teaching assistant, English-"I think political suppression is the most important problem because students just don't know what is happening outside the Tech campus. The university should be a building ground

Thomas Boullion, associate professor,

financial concern and lack of sleep." Mrs. Elaine Lamski, teaching assistant, English -

"The Tech student is locked away from the outside world by an artificial and in many cases irrelevant environment." Dr. Charles Rebstock, professor, secondary education - "I don't see any problems facing Tech students at any time. This is an institution full of all around good students. I can compare them to my students at Minnesota and Illinois, and they are still great. No problems."

Dr. P.J. Woods, professor, history-"I believe the name change is the big issue (referring to the proposed change from Texas Tech to Texas State) because a stupid administration and state legislature did not listen to student

EVERETTE WARREN, instructor, economics--"The big problem with students at Tech seems to be Lubbock. Students that I have talked with seem to think Lubbock is a bad atmosphere for Texas Tech."

Dr. Lewis J. Davies, associate professor, sociology and thropology "I feel that the students are being made scapegoats. I think they are being busted on false marijuana charges, harrassed for beards, being harrassed for parking tickets. It doesn't matter whether you're Greek or Freak. It seems to me that the biggest problem is this sort of non-campus public relations."

John Casey CharnessJr., teaching Assistant, English - "Tech teachers! No shit. When I think of what I make those kids do, what the department tells me to do and the hassel of it all.

Dr. Wendell Aycock, assistant professor, English-

"Establishing self-identity is a big problem to anyone of college age. Without a knowledge of who he is and why he exists, the student may not know what he should do with his life.

## Customs Bureau says more narcotics taken

WASHINGTON (AP) - Customs Bureau officials said Monday they have seized markedly larger quantities of illegal drugs in recent months because of a stepped-up enforcement drive.

Officials were cautious, however, about interpreting the seizure statistics as a sign of increased activity by drug smugglers.

"I couldn't comment on that," said Deputy Customs Commissioner Edwin F. Rains. "We're always in a position of knowing what we get and we don't know what we don't get."

From July through September, Custom officials said they made nearly three times as many seizures of illegal drugs as they did during the same period a year

Rains said increased manpower-about

300 new agents recruited last year-is responsible. "They're just coming into effectiveness.", he said.

Commissioner Myles Ambrose said agents participated in 3,016 seizures in the July-September period, compared with 1,193 in the same months a year ago. The total quantity of drugs captured was 37,212 pounds, nearly 21/2 times the 15,720 pounds confiscated in a com-

parable time last year. The totals do not include seizures of dangerous drugs such as stimulants and depressants in pill and capsule form. But officials said they intercepted 1.3 million five-grain units during the three months.

At Bal Harbour, Fla., meantime, Asst. Treasury Secretary Eugene T. Rossides said seizures depressants and stimulants in the last two years have increased 212 per cent.

#### organization is encouraged to attend. Poll indicates complaint

**ByJAN HORN** Special Reporter

(Editor's Note: This is the second part of the council story which appeared in Monday's paper.)

Recent UD polls indicate that a major student complaint is a lack of communication between the faculty and administration and the students.

Steps are being taken by most colleges to improve this situation by providing direct contact between students and

THE COLLEGE of Home Economics has a Student Council which was established to promote communications among students, faculty and administration.

This council has 12 members: four seniors, three juniors, two sophomores, one freshman and one graduate student. When a vacancy occurs, the new

#### Editorial

Three months ago people would not have thought that Tech would get a chance to play in any bowl game, much less get a choice of their own.

It is certain now that Tech will play in a post season combine these with a power- and her character was carefully game. Just which one will be decided after the mad advisory board, and it's a analyzed within the extensive Razorbacks have played out their schedule. In order little much to take. for Tech to get the Cotton Bowl the Hogs will have to lose to Tech this weekend and then beat Texas in required to live on campus, but having checked with a high Austin.

At any rate though, Tech has had a far better season than anyone predicted. The Raiders have won eight games, some of them close ones, but close only counts in horseshoes and hand grenades. The eight wins for the Raiders is about three more than most ports writers predicted for them.

The main part of the credit has to go to the new and improved athletic department. The changes in staff the past year have seemed to create enthusiasm throughout the entire department. J T King has done an outstanding job as director, but the eight wins have to be credited to Head Coach Jim Carlen.

No matter how you look at it, Tech has had a suc- Editor, The University Daily, cessful season (its' best in five years) and Carlen and his staff should be congratulated for a job well done.

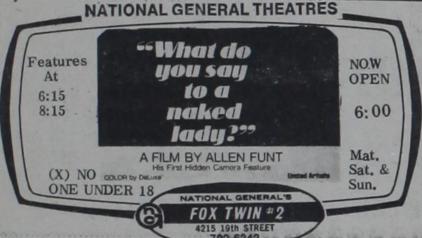

There is only one game remaining on the regular season schedule. The best way you can let Carlen know you appreciate his work, and also help the team at the same time, is to make your appearance at the pep rally and the game.

Speaking of same name written by Petronius Arbiter in the first shot under artificial lighting century. Not having read this (even the outdoor scenes giving novel, this critic cannot the film a mystical, but cerhonestly discuss how loosely the tainly pleasing tone. book is adapted to the screen he can only say that Fellini once understanding of the film.

Starring in the film are Hiram Keller as his friend(?), Ascyitus, and Max Burn as his baby-faced lover, Giton. All

For the plot: one can simply say that it deals with the three stars, sometimes alone sometimes together, wandering across what seems like the entire Roman Empire - participating, sometimes unwillingly, in feasts (which will both turn one's stomach and make his mouth water), parties, orgies, murders, and kidnappings.

As always, Fellini concentrates on imagination while relating his film. In the opening scene Encolpius is sitting, his back to the audience, in front of a wall marked only by a few unreadable passages of graffiti. Here the story simply begins but in such a way as to make one feel that the story has been going on for some time and that he has just wandered in late. The film doesn't end either; it just stops — Encolpius is in the middle of a sentence when Fellini suddenly blends his actors into a beautiful painting. The screen then goes black.

At times, the film seems to be about homosexuality. All of the women are made up to be hideous, witch-like creatures but, despite the fact that a great many men are attracted to each other, the scenes are handled in such a surprisingly tasteful manner that the audience is hardly surprised, and certainly is not offended.

Nino Rota's (probably most popular in the States for his score to "Romeo and Juliet") music is exquisitely beautiful,

# Hogs 'bowl' over businessmen

By BOB BREWSTER Sport's Editor

With talk of bowls and postseason honors in the back of Red Raider Club members' minds, Jim Carlen and Tom week", speaking of the past, Wilson put the fear of Arkansas in the thoughts of the downtown businessmen at Monday's final meeting of the Red Raider Club at the Pioneer Hotel.

report on the Razorbacks, saying that they were the best team offensively and defensively in the Southwest Conference. The Hogs lead the SWC ments.

Wilson's praise of Arkansas and said the slacking off the Raiders have been doing because of injuries is over.

this week," he said. "We've a good runner and his style is been slacking off the past two comparable to Burnett. weeks because our kids are

we're going to work hard and we're going to beat Arkansas." Carlen jokingly referred to

the Arkansas game as "the biggest game this year this when the Raiders have needed to win each week to stay in the conference race, and have.

"Arkansas is a team that comes on late in the year," Wilson gave the scouting Carlen said. "The loss of runningback Bill Burnett (who was leading the SWC in scoring before he was injured) will hurt them inside the ten-yard line. He is a good man to have when team statistics in both depart- you get near the goal line, but Jon Richardson (Burnett's Carlen re-emphasized replacement) is a bigger threat in the open field.

Burnett was also replaced by Mike Saint, who shares time with Richardson. Wilson said "We're going to work hard Saint, a former third teamer, is
