NUMBER 1572

Museum Society Plans Annual Meeting Here

Dr. W. C. Holden Is Program Director; Landmarks Are To Be Located; Refreshments To Be Served In Tea Room

Granbery To Speak

Archeological Workshop Is To Be Opened; Kleinschmidt, Stainbrook, Burns, Carroll Are On Program

Much of the early local history of this section is to be exploited in the colorful program planned for the annual meeting of the Plains Museum society to convene here on February 26. The program is under the supervision of Dr. W. C. Holden of the history department, who is vice-president of the organization.

One of the main features of the day will be the locating and marking of the site of the old Singer store, which from 1878 to 1891 was the only trading center in this country for buffalo hunters and pioneers. The old post, about which revolves a great deal of early Plains history, was located at the crossing of two military trails, one leading from Ft. Stockton to Ft. Elliot, and the other from Ft. Sumner to Ft. Griffin.

Granbery to Speak
This expedition will mark the interval between the morning and evening sessions of the program, which is to be presented in two sections. The first will begin at 4 o'clock in the engineering building, with Dr. J. C. Granbery as opening speaker on the subject of "The Value and Place of a Museum." Prof. F. A. Kleinschmidt will discuss "Local Art Possibilities," and Dr. M. A. Stainbrook is to read a paper by which he and his grandfathers, a pioneer of the Plains. Preceding an appointment of committees, the history of the Singer store will be reviewed, after which cars will go out to find and establish this old landmark.

At 6:15 o'clock refreshments will be served in the tea room of the home economics building, and the evening will open with an address from Dr. W. C. Holden at 7:30 o'clock in the chemistry building. R. C. Burns, of Lubbock, will read with a description of "An Expedition in the Panhandle in 1873," and Prof. H. B. Carroll is to discuss "Frontier Social Life on the South Plains."

The archeological workshop in the attic of the chemistry building will be opened for the first time to the public and a similar collection will be found in the engineering building. Geology, chemistry, and biology exhibits are to be on display in the chemistry building.

Banquet Will Be On March 5

Sixth Annual Engineering Banquet Will Be Held On Matorador Ball Room, Says Frank S. Maddox, Society President

The sixth annual engineering banquet will be held March 5 in the Matorador ballroom at the Tech hotel, says Frank Silver Maddox, president of the Engineering society, who is in charge. This banquet is the outstanding engineering event of the winter term, and is also a tradition of the engineering school. An engineers' ball is staged in the fall term; a banquet in the winter term, and in the spring a picnic is given.

Home Ec Girls Entertain

Guests With Tea Friday
A tea honoring four representatives of the state extension department was given in the practice house Friday afternoon at 4:30 o'clock. The guests were Miss Myrtle Murray and Mrs. Maggie Barry, from A. and M. college, Miss Ila Mae Chitwood, local home demonstration agent, and Mrs. W. M. Jackson, recreational instructor.

The guest list included students and faculty members of the school of home economics.

Prizes Offered For Best Essay

Six-hundred dollars in prizes is being offered by the New History society of New York City for the three best papers written by college and university students in the United States on the subject "How Can Colleges Promote World Peace." Papers are to be not more than 1,000 words in length and must be submitted before April 5, 1932. The winning manuscript will be published in The New Historian and several other magazines throughout the country.

Instructors Fill Vacancies Made By Resignation

Bullen Takes Miller's Place As Head Of Department; Adams' Position As C. E. Instructor Taken By Parkhill

Prof. C. V. Bullen and G. W. Parkhill have assumed the duties as new professors in the engineering school. The need of the two new instructors was caused by the resignation of Dean Wm. J. Miller and the appointment of Prof. O. V. Adams as acting dean.

Prof. Bullen, who takes Dean Miller's place as head of the electrical engineering department comes here from the University of Oklahoma. He received his Bachelor of Science degree from the University of Texas and his master degree from the Massachusetts Institute of Technology. His residence in Lubbock is 1305 Adams St.

Prof. Parkhill takes the place left in the C. E. department by the temporary promotion of Prof. Adams. He is a graduate of Texas A. and M. and he also taught there one year. He was employed for several years by Hawley and Roberts, consulting engineers of Lubbock, and recently was employed in Deadwood, South Dakota.

Language Clubs Hold Joint Meet

Faye Bumpass Presides; Klein, Strehli, Davies, Whately, Make Speeches; Lois Freeman Gives Musical Number

The Spanish and Latin clubs held their annual joint meeting in room 310 Tuesday at 7:30 o'clock. The main purpose of the meeting is to develop a closer feeling between the students taking foreign languages.

Miss Faye Bumpass, president of the Spanish club, was chairman of the meeting which was as follows: Spanish and Latin songs by the entire club; Roman Conquest of Spain by Miss Agnes Klien, president of the Latin club; How Latin Came to Be the Language of Spain, Prof. A. E. Strehli; Great Men that the Spanish Colony Gave to Rome, Nina Opal Davies; Survival of Latin or Roman Culture in Spain To-day by Miss Frances Whately. Special musical numbers were given by Miss Lois Freeman.

Frosh Commission Will Meet; Election Of Officers Held

The members of the newly organized freshman commission are to answer roll call tomorrow afternoon with a limerick wherein their name is used. This third meeting of the commission will be held tomorrow afternoon at 5 o'clock in room 310 of the administration building.

At the previous meeting held last Friday afternoon, Miss Sylvia Willson was in charge and spoke on the "Pathway to Personality." This is the beginning of a series of lectures which she will give at the future meetings. In this first talk, she defined personality, applied it to the aims of the commission, and conducted an open discussion on the subject.

Phi Psi Given Club Room In Engineering Building

Professor Carl D. Brandt, head of the textile engineering department, has given the Phi Psi fraternity a large club room in the textile building.

The room is decorated with wall hangings, made by textile engineering students, and flags. The windows are covered with large curtains of blue denim, also made by the students.

"Forgotten Souls" Presented By Members Of Tech Sock And Buskin Club; Three Take Part

Several New Members Taken In Tech Dramatic Organization; Several Committees Are Appointed

"Forgotten Souls," one of David Pinski's plays, was presented at the last regular meeting of Sock and Buskin, Tech dramatic club. The meeting was held in the Campus Playhouse, room 202 of the administration building. The cast was: Margaret Wimberly, Grace Stephens, and John Chamberlain.

Nine new members were added to the club in the recent tryouts that were held last Friday afternoon from 4 to 5:30 o'clock. The new members are: Bobby Roberts, Mildred Handley, C. W. McCarty, Barbara Maddox, Margaret Robertson, Jennie Lou Jackson, Leona Hardy, Lucy Belle Jackson and Dorothy Rushing.

The club yearbook of Sock and Buskin has been printed and is as follows:

FALL TERM
September 29—call meeting; October 3—business meeting; October 20—"Ace Is Trumped," directed by Ruth Pirie; November 3—Edna St. Vincent Millay's program, initiation of new members; December 1—play postponed.

WINTER TERM
January 5—business meeting, social and election of officers; January 19—"End of Dance," Hudson Strode, directed by Ruth Pirie; February 2—"Judge Lynch," J. W. Rogers, directed by Graydon Ausmus; February 16—"The Black Suitcase," Alice Riley, directed by Roscoe Bayless; March 1—"God Winks," directed by Audre Miles.

Officers for the fall term were: president, Graydon Ausmus; vice-president, Alton Brown; secretary, Bernice Dean; sergeant-at-arms, Hollis Cross; reporter, Lorraine Gable; officers for the winter term are: president, Bob Tipps; vice-president, Roscoe Bayless; secretary-treasurer, Frances Banks; sergeant-at-arms, Charles Haysen; reporter, Lorraine Gable; secretary, Miss Ruth Pirie, head of the department of speech, is sponsor for the club.

Standing committees are: tryout, Hilma Bartlett, chairman; Eileen Graves, and Lorraine Gable; program and yearbook, Alton Brown, chairman; Frances Banks, Beulah Anderson, and Edna Willkerson.

Hatchett Speaks At AIEE Society

"Gaseous Air Tubes," which was presented by Charles Hatchett, was the feature lecture at the last meeting of the A. I. E. E. society. Hatchett has presented articles on the same theme at other regular meetings, which were also through his own study in the electrical field.

Evans Riley, a freshman engineer from Kansas City, gave an interesting talk on his experiences in the last few years with the A. N. T. James Dyer, president of the society, presided at the meeting.

Centaurus Present New Club Members

The Centaurus, men's social club of the college, presented 13 new members Friday evening at a dance in the Matorador ball room of the Hilton hotel. Bill Collins, vice-president, was in charge of the presentation.

A large crest, a duplicate of the club pin, lighted to resemble pearls and amethysts hung over the orchestra stand, and streamers of the chosen colors floated in the lattice gateways through which the members and their dates entered.

Maddox Will Represent Chapter At Convention

Frank S. Maddox, senior textile engineering student will attend the national Phi Psi fraternity convention at Greenville, South Carolina in the spring term.

The Phi Psi fraternity is a national organization of textile engineers. Maddox will represent the local chapter.

Figures Show Increase In Registration

Total Enrollment For Year Reaches 2,059; Majority Of New Students For Winter Term Are Men

Enrollment for Texas Tech for this year reached 2,059 this week after 236 new students had enrolled this term. Out of the recent enrollment of 236, 36 have enrolled in the school of agriculture, making a total of 185 in that school this term; 37 in the school of engineering, totaling 335; 23 in the school of home economics, totaling 197; 150 in the school of liberal arts, making a total of 1,080 in that school. Out of this number, 557 are men and 503 are women.

Total Of Winter Is 1,767
The total number of students enrolled for the winter term is 1,767, 1,581 of which were enrolled in the fall term.

The school of liberal arts leads in number of enrollment for the year with a total of 1,268; the school of engineering follows with a total of 376. The next in number is the school of agriculture with 214, and the smallest number in the school of home economics reaching for the year the enrollment of 199.

Women Only At This Tech Dance

Tonight from 7 until 10 o'clock there will be an all girls sport dance at the college gymnasium, sponsored by the Forum, women's campus organization. Soda pop and candy will be sold and music will be furnished by an orchestra. Admission is fifteen cents a person.

Operation For Dr. P. W. Horn Is Successful

Tech President Becomes Ill On Sunday And Following An Examination At Local Hospital Undergoes Operation

The condition of President Paul W. Horn, who underwent an appendicitis operation Monday afternoon at 2:30 o'clock was reported excellent by attending physicians late Wednesday afternoon.

The president became ill late Sunday night. After a diagnosis at the Lubbock sanitarium Monday morning, his physician advised an immediate operation. Examination disclosed an acutely inflamed appendix.

Operation Successful
The operation, which lasted only 22 minutes, was reported entirely successful. President Horn watched the incision and chatted with the doctors and nurse while he was on the table. He was given only a spinal anesthesia, a novocain solution being injected.

Mrs. Horn and Miss Ruth Horn were at the sanitarium with the president Monday.

YWCA Receives Library Books

The YWCA has in its library some new books recently bought from the Associated Press and the Woman's Press.

They are "Fellowship Practice," "Youth Searching" by E. B. T., "Girls' Everyday Book," "Courage" by Marks, "Meaning of Prayer" by Fosdick, "Jesus' Way With People" and "Pathways to God" by Purdy, "Beliefs that Matter" by Brown, "About Ourselves" by Overton and "In Spite of Handicaps" by Bullock.

All students are welcome to use these books when they care to. "There will be more new books in the library next week," Mrs. O. C. Corry, the YWCA secretary said.

Art Exhibit Is On View Now

Third Exhibit Of College Year Is On Display In Engineering Auditorium; Brought By Southern States Art League

An art exhibit of 40 water colors and many oils and etchings is now on display to the students and the public in the engineering auditorium. The pictures were brought here by Prof. F. A. Kleinschmidt, through the Southern States Art League and will remain until January 24. The prints are all works of southern artists, giving two distinct types, the modernist and conservative.

This is the third exhibit that the architecture department has brought here. The other two were 150 reproductions of great artists, and paintings of contemporary American artists.

"Twenty Textile Students Enrolled At Present"—Hill

About twenty textile engineering students are in school now according to Basil Hill, president of the local textile engineering fraternity, Phi Psi.

Hill says that Frank S. Maddox will be the only one in the department to receive a degree this year.

Beauty Election Set In February

Stangel Attends Agriculture Meet

W. L. Stangel, head of the animal husbandry department in the agricultural school represented Texas Tech at the recent Texas Agriculture Workers association which met in Fort Worth. Stangel was named director of the Texas Jersey Cattle club which met in connection with the Workers association.

Five hundred agricultural workers were present at this annual meeting, and many A. and M. men and others connected with various A. and M. Agricultural divisions.

Jack Shelton, A. and M. '17 graduate was elected president of the organization, and Fred C. Newport, A. and M. '24 graduate was re-elected president of the Texas Jersey Cattle club. Dallas was chosen as the city for the next convention by both organizations.

Meet Attended By Home Ec's

Held At Hilton Hotel; Is Part Of National Work; Course In Story Telling Is Given

Texas Tech home economics majors who are interested in home demonstration have been invited by Miss Myrtle Murray, district home demonstration agent, to the recreational institute that is being held at the Hilton hotel.

This institute is a part of the national cooperative extension department's work. Mr. W. P. Jackson, of the National Recreational association, will give a course in story telling. Miss Margaret Wells, dean of the school of home economics, expects several Tech girls to attend. "A knowledge of how to conduct recreation properly is considered an important phase of home demonstration work," stated Miss Wells.

Chess Club Elimination Matches End This Week

Elimination matches in the fall term chess tournament with Williams, Luce, Millard, and O'Neal trying for the title are to be completed this week, the winner to receive a set of chessmen at a club meeting next Wednesday night.

The organization's annual election of officers will also be held. The retiring officers, who have served since the formation of the club last year are: Riley Millard, president; Roddy O'Neal, vice-president; Luther Williams, secretary; William Luce, treasurer.

Arthur Wagborne Is Host To De Que Club And Guests

Arthur Wagborne, 2114 18th street, was host to the De Que club members and guests Sunday, January 17. This was the club's first social affair of the term.

Members present were: Harold Simms, Frank Stone, Harold Bettersworth, Vernon Jones, Harmon Jenkins, Joe Donley, John L. Dean, and Arthur Wagborne. Guests were Jack Mitchell, John Mast, Leland Payne, Cecil Neel, and R. M. Harp.

Rev. Bradner J. Moore Leads Frosh Y Council Discussion

"Does the Campus Give a Fair Chance to All" was the topic for a round table discussion led by Rev. Bradner Moore at a Frosh Y Council meeting Tuesday evening at the home of Dr. F. W. Sparks.

The question was attacked by a discussion of democracy on the campus with special regard to relationships among different types of students.

Another meeting will be held next Tuesday night at the same time and further consideration of the question will continue.

Hermence And Hazel Join Band; To Give Concert

There are two new members in the Matorador band this term. Hazel Hermence, saxophone player, Hazel is from Simmons and Hermence from Purdue.

College Club Holds Smoker; New Members Are Announced

The College club held its first smoker this term at the Hilton hotel, January 10. There were several guests present.

Senior Class Will Have Charge Says Editor Huff

Jack Durham, president of the senior class, announced Tuesday that the date for Les Bonitas election has been set for February 22 and 23. Durham stated that a number of pictures have already been submitted and that present indications are that the election will prove far more popular than the method used in selecting the beauties in past years.

The election will be held in the west rotunda of the administration building where the pictures will be displayed to the voter.

The Ventura Staff has decided that the senior class should have complete charge of the balloting and selection of attendants and election judges.

Choral Club Will Give Song Cycle

The Scottish song cycle, to be presented by the Choral club this term, will be in tribute to the eminent Scotch poet, Robert Burns, and will be set for a convenient date near his birthday on January 25.

The program is to consist of a number of selected Scotch poems set to music by Professor W. R. Wagborne, of the music department. Most of the poems are in the pure Scotch brogue. An orchestra is to assist in the presentation.

"Blue Bonnets Over the Border" will form the opening chorus, which is to be followed by a tenor-soprano duet, "Oh Wifery, Tell Me Where." "Annie Laurie" will be featured in solo, and "Hielan' Lead" in a solo-chorus duet. The remaining numbers are: "Will Thou Be My Dearie," male quartette; "Flow Gently Sweet Afton," tenor solo; "Ye Flow'ring Bank of Bonnie Doon," mixed quartette; "Within a Mile of Edinburgh Town," soprano solo; "Aul Lang Syne," final chorus.

Chemistry Club Holds Banquet

Dr. Goodwin Is Toastmaster; Svensen, Davis, Thompson, Gilliam Speak; Music And Stunts Furnished By Stone

"Crystals" was the theme used by the Chemistry society in its second annual banquet Monday night at the Hilton hotel.

Dr. R. C. Goodwin, head of the chemistry department, was toastmaster, while Professor Carl L. Svensen, head of the engineering drawing department, was the principal speaker.

Other speakers were R. C. Davis, president of the society, O'Brien Thompson, former president, and Hughes Gilliam, student assistant in the chemistry department.

Music and stunts were furnished by Frank Stone's orchestra.

Tech Student Is Improving Here

Condition of Ira D. Jones, who was admitted at West Texas hospital Friday for head injuries, was reported to be good Tuesday night.

Jones, a Texas Technological college student, was found staggering about dazedly about one-half mile beyond Monroe Friday night by Milton Webb. The youth, 18, suffered a possible fracture at the base of the skull, hospital attendants said.

The young man was unable to explain how he was injured. He said he left Lubbock about 7:30 Friday night for his home near Monroe. He said he caught a ride but that he was unable to remember how he was hurt or when.

LARGENT-PERET TO PLAY
Largent-Peret and their music will play at the all-college dance Saturday night at the Tech gym, according to Don Maddox and Lou Edwards. Regular prices will prevail and stags will be limited to 75. Dancing hours are from 9 till 12 o'clock.

PHI PSI GIVEN CLUB ROOM
In Engineering Building
Professor Carl D. Brandt, head of the textile engineering department, has given the Phi Psi fraternity a large club room in the textile building.

PRIZE AWAITING
Some Tech Co-Ed
The Ross Edwards' store will open a ladies ready-to-wear shop on College Avenue between Main and Broadway sometime in February. A prize of \$5 will be awarded the young woman student submitting the most acceptable name for the shop by January 23. Suggestions should be mailed to the Ross Edwards store before that date.

ARE YOU SICK?--Then Call A Tech Co-Ed And Let The Doctor Rest
From now on instead of calling the doctor, Texas Tech students should ask for some home economics co-ed who is taking home nursing. And, if the results are not so good, the difference in price will rectify them. For in times of depression...

THE GIRLS TAKING THIS WORK attend two lectures and one laboratory a week. The lectures are given by Miss Twyford. Miss Helen Robinson, graduate nurse, conducts the labs at the Lubbock sanitarium, and Drs. M. C. Overton and J. P. Lattimore do the demonstration work.

COLLEGE CLUB HOLDS SMOKER; New Members Are Announced
The College club held its first smoker this term at the Hilton hotel, January 10. There were several guests present.

THE TOREADOR IS RUNNING THE Proposed Constitution In This Week's Paper. Turn To Page Two And Read It.

Under The Double "T"

We wonder in what wild country Corner, Fortenberry, Colvin, and Clark came from before entering Canyon. It must have undoubtedly been from the "wide-open spaces," and we mean plenty of room by "wide-open spaces," because these boys could not have possibly gained such an altitude had they not had plenty of room.

Besides convincing us that they were the tallest team in North America, the Buffs also kept their slate clean in sweeping the two games with Tech. Sad Sam's boys left here with nothing but praise; he has a team which we think could get an even break with any southwest conference school, and could beat many of them.

To those of you who didn't see either of the games—it was something to be marvelled at the way those Buffs would throw at the back-board from every position and then be there to catch the ball on the rebound to drop it through the hoop.

There is no excuse to offer for the licking handed us. It is no dishonor to be beaten by a team like Canyon's. We still maintain that Tech has one of the very best teams in the entire state. Perhaps, we were beaten by the best team in the entire state. Who knows?

In regard to the Simmons games tonight and tomorrow night—it is our prediction that Tech will sweep the two game series with them. Fisher and Tadlock our tall boys will be on an equal footing, that is in height, and should be able to drop them through the basket. Fisher's 15 points in the first game with Canyon would probably be represented by a much larger margin if the opponents had been the Cowboys.

The Matadors go to Fort Worth to play T. C. U. immediately following the game with Simmons, from Fort Worth they go into Oklahoma where they will make an extended tour of the western part of that state. Morgan will bring his men back home February 1st for two games with the New Mexico Lobos.

Darr, Crews, and Hodges are likely to run up their batting average on this tour. In the Canyon game Hodges' first of the season. He is liable to show the boys a few things when he gets warmed up.

The first intramural game will begin Saturday at exactly 2 p. m. The second will start at 4 p. m. In the first game the Aggies will play the Engineers, and in the second the Army team will oppose the Liberal Artists. All four teams have heavy lines with out-standing backfield men to back them up. If there is any doubt as to the ability of the men on the teams, just discard the idea and come to the games Saturday. Most of the men are former high school stars, or transfers who have had experience with junior college teams. Some of you may want to see how some of the high school stars, which you have been reading about the past fall, will show up in college. Some of the men you have been reading about, and who will play here are: Bob Crawford, Coffin Welch, Rosser Abbott, Max Scoggins, Mina Watkins, and Ed Watson all of Lubbock high school. Bob Crawford was the selection of many sports writers for the all-state center position, some selected him for an all-state tackle. The men mentioned above will play with the liberal arts team.

At the present the Army is boasting of the best team. They have a heavy line, backed by a light and fast charging backfield. The line is bolstered in the center by a pair of guards from N. M. I. who rated all-conference selection while playing with the Institute. One end is held down by the unanimous selection for all-state end, from Greenville high school.

Other men who have received much popularity, in college, as well as high school, are: Bescham, Williams, Nixon, Murphy, Simmons, Butts, Welch, Golden, Powers, and Stubbs.

Coach Ross Ayers evidently the sting of defeat a little hard when the Picadors went down to the Wayland Jackrabbits, 36 to 21, because he immediately put them through their practice session, upon returning home, with plenty of vim and vigor. As a result the Picadors cleaned the Santa Fe professional team of Slaton, 33 to 17. Priddy, Fortner, Flake, Crittenden, and Cannon were outstanding for the fish. For the first time this season Coach Ayers put his man-to-man defense to working with a perfection.

Tech Will Invade Simmons Stronghold Tonight

Assignment Is Tough For Two Simmons Tilts

Cowboys Favored To Cope '32 Texas Conference Basketball Title; Split Games Last Year

Coming out of their games with the Buffs realizing that everything is not as lovely as some are inclined to think, Coach Morgan and the Matador basket losers are up against a tough assignment this evening and tomorrow in games with the Simmons Cowboys. Season before last, besides winning both games from Tech the Cowboys won the Texas Conference title without dropping a contest. This year the host comes from Abilene and the Simmons five is planning to win the conference championship again. The Cowboys are probably not the powerful club that they were last season, but they have several lettermen back on the squad and will be able to deal the Matadors as much misery as any team on the schedule. On the other hand Tech appears to be considerably stronger this year. Seven of the last year's regulars are back, not counting Hale, who has shown up so admirably in every contest so far. The Tech squad is smooth and fast and has exhibited some smart basketball in all of the past games.

It will require all of this and even more to win a victory over Simmons. Seed of the Simmons quint is likely an all-Texas conference selection this season, and it is on this fact mainly that the Cowboy supporters are basing their claim to the title. The games will be a real test of the Matador's strength. If they win them, they will bid fair toward going through the season with a good record.

Frosh Cagers Play Tilts

Priddy And White Perform Well; Lose To Wayland; Win From Santa Fe Cagers; Use Man-To-Man Defense

The Picadors lost the first game of the season January 13, when the Wayland Jackrabbits skipped around to take an easy 36 to 21 victory. Combined forces of the old number 13 jinx, an effective offense, and a fast forward in the person of Durman proved the downfall of the highly reputed freshman team. Priddy and White playing the guard positions for the Picadors were outstanding. Priddy, making ten points scored high point honors for Coach Ayers team. White played a consistent game at guard and was more outstanding as a result of the man-to-man defense used by the Picadors.

Win From Slaton Team
Improving with added practice and criticism, the Picadors looped baskets as they pleased to take the second game of the season, Saturday, from the Santa Fe professional team of Slaton. Crittenden, Curfman, Priddy, Flake, and Cannon for the Picadors employed the man-to-man defense together with a fast breaking offense which held the railroad workers, and in turn scored as they pleased.

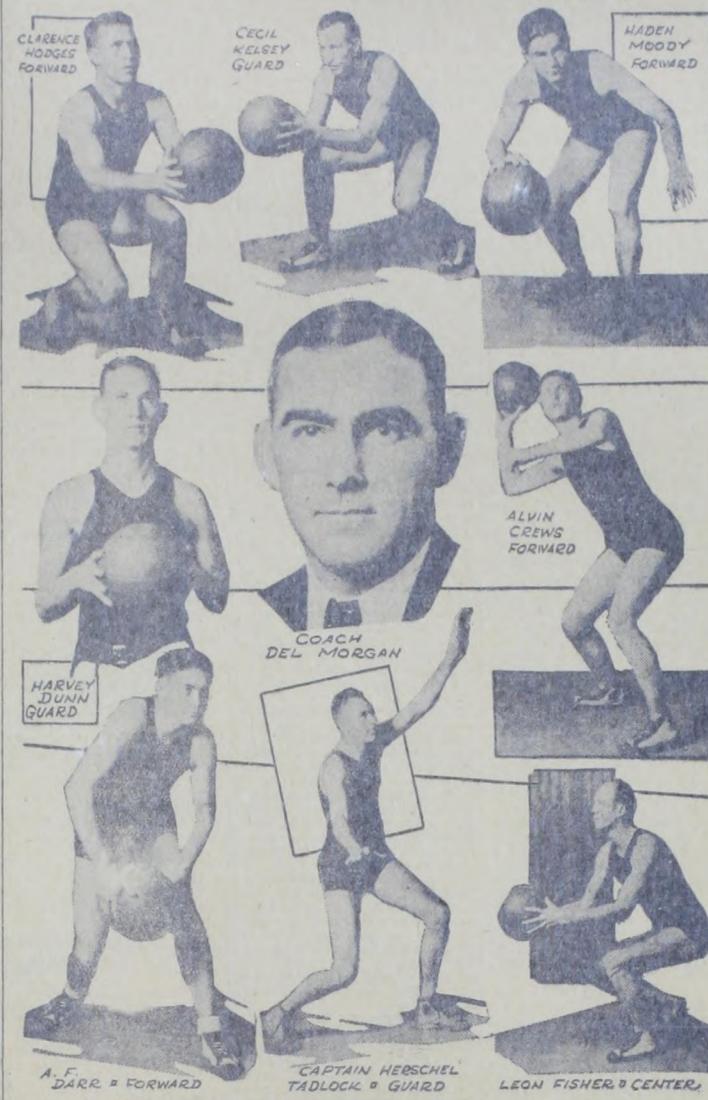

The Santa Fe team featured a Cannon as did the Picador team, he is the brother of Demp Cannon, former Slaton high school athlete, who enrolled in Tech at the beginning of this term.

Dudley Wooten, Frank Harold And Miss Dryden Join Club
New members initiated into the Pre-Law club at a recent meeting were: Frank Harold, Mary Elizabeth Dryden, and Dudley Wooten.

It was voted that the society should finance a page in the annual Plans for a murder trial, soon to be sponsored, were discussed. A program committee was appointed, consisting of the following: Garland Smith, Solon and Canon Clements.

Texas Tech Matador Cagers

Intramural Football To Get Under Way Saturday

Intramural teams have been going through daily practice sessions for the past week in preparation for the games Saturday afternoon. In the first game the Aggies will engage the Engineers, the fray beginning at 2 p. m. The second game begins at 4 p. m., the Liberal Artists and the Army being the principals in it.

A meeting was held last week to decide upon a schedule and eligibility rules. It was decided that all men who did not letter on either the varsity or freshman teams would be eligible. This will make the following men eligible to compete: Butts, Maltby, Williams, Murphy, and Nixon. Murphy, Nixon and Maltby have lettered in football previous to this year in Tech. In order to be eligible, every man must be put on an approved roster one week before a game. A 35-yard penalty will be inflicted upon a club for being late at time of the game.

The following men are approved officials: Chapman, Huffman, Davis, Goodman, Lassiter, Bill McWilliams, Bill Condray, Morgan, Tadlock, Hodges, Ayers, Hambright, and Pender. No student will be allowed to officiate or work in games that interfere with his class work.

Following is the complete intramural schedule: Saturday, January 23 at 2 p. m., Aggie vs. Engineers. At 4 p. m., Liberal Arts vs. Army. Saturday, Jan. 30, at 2 p. m., Liberal Arts vs. Aggie. At 4 p. m., Army vs. Engineers. Saturday, February 6, at 2 p. m., Army vs. Aggie. At 4 p. m., Engineers vs. Liberal Arts.

Buffaloes Are Too Much For Tech Quintet

Tallest Team In America Wins Easily From Matadors; Next Home Game Will Be With Lobos On February 1

Playing a brand of basketball that even champions could not cope with, the W. T. S. T. C. Buffaloes continued their triumphant march through the collegiate cage world here last Monday and Tuesday nights by defeating the Matadors 51 to 35 in the initial game, and taking the second 32 to 21.

In these two games the tall men of Coach "Sad" Sam Burton showed a little of everything. Accurate passing and goal shooting is the only explanation of the large scores that were rolled up. Behind all this was the evidence of real team work. There were practically no grandstand plays in either of the games. The Buffs displayed a hard smooth offense and an impenetrable defense that bids fair to bring in many victories before the season is over.

In the game Monday night, the Buffs showed a serious scoring threat from the start, and never once slackened until the last second of the final game. Colvin, Fortenberry, and Comer all above the six feet three-inch mark, were the real scoring threats produced by the Buffs; although any of the men of Burton could drop the ball through the hoop with comparative ease. In the first game Comer, stalwart forward, carried off high point honors with 18 points; Fisher, Matador center, placed second with 15 points; and Fortenberry ran a third with 12 points.

Darr Looks Good
Tuesday night the Matadors were a much more determined crew and for the first few moments presented an offense that was hard to cope with. Apparently weary and overpowered by the tall Buff men the Matadors began to weaken, and as they did, the Buffermen gained momentum with Fortenberry leading the scoring this time. The Buffs led at the half 23 to 7, and continued to hold the lead until the final seconds of the game to win 52 to 21. It was Aud Darr, forward for Tech who showed the real punch for the Matadors. At times the efforts of the giants were made to look feeble by this tiny forward. Harvey Dunn, all-state guard from Ralls, scored high for the Matadors seven points.

The next home game of the season will be with the New Mexico Lobos, February 1st.

ALLISON VISITS HERE
Glen Allison, former student of Clarendon, is considering returning to Tech for the Spring term to complete work on his degree. Allison who attended Tech during the past three years, visited on the campus last week.

Rifleman Score 453 In Contest

Tech's rifle team scored 453 out of a possible 500 points in a match with the Jefferson City Rifle club on January 18. As the contest was a postal match, and results of the other team are not known, have not reached here yet, results of the contest are unknown. It is said, however, that 453 points out of a possible 500 is excellent shooting.

Kuhn and Rogers were high point men for the Tech team, with 93 out of a hundred.

The Lucky Seven Of The Week

Ask her about the captain of the Baylor university football and she will give you all the inside information that you want. She stays at College Inn, is a brunette and lives in Waco.

He told his club brothers that he had mastered the French language. They asked him why, and he replied, "In a whole term of it! I learned to conjugate a regular verb in the present indicative." Three cheers for ?

She drives a car that she calls Pyrrhica (4 out of 5 have one). She is a member of the San Souci and lives on Broadway.

Did his girl come back this term? No, she did not, and he needs some consolation. He is a Matador and has that "pretty black curly hair."

She's just finished a quilt. Sounds "fishy," doesn't it? She did not attend school last term and we are all very glad to have her back this term.

Baylor college is the best girls' school in the state and if you do not believe us, just ask ?

A very popular guy who is an engineer and a member of the College club.

New Student Secretary Is Honored With Reception

A reception and snow party in honor of Miss Pauline Wright, the new Baptist student secretary, was held at the First Baptist church Friday evening. There were 140 guests including a large number of new students.

Games were played and a very interesting program furnished the entertainment. Popcorn balls and punch were served later in the evening.

Spring Training Opens In March

Is Optional; Fundamentals Of Football To Be Taught; Intramural Stars Invited To Take Part

Spring football training will begin in the spring term in the later part of March. The date has not been definitely decided upon by Coach Pete Cawthon. Further announcements will be made following the completion of intramural football.

"This period is not compulsory training," Coach Cawthon said. "The main idea is to teach the fundamentals of football and the system used by the college to male students who wish to learn about the game. Especially are the students invited who make a good record in intramural football, along with the freshmen and varsity lettermen." Last year about eleven players were selected from each intramural team and given a special invitation to participate in the spring training.

Coach Cawthon will be aided in conducting the spring football practices by the assistant coach, Dutchy Smith, and freshman coach, Del Morgan.

Shumate Heads Tech Orchestra

Le Fleur, Cook, and Shumate Are New Members; Orchestra To Play At Next All College Dance

A new college orchestra has been organized under the leadership of Sam Shumate, due to the resignation of Frank Stone who has been the leader of the college orchestra for the past three years.

The personnel of the orchestra consists of Sam Shumate, saxophone, clarinet, vocalist, and arranger, who filled summer engagements with the WOC, Davenport Iowa, studio orchestra; Fenton Harding, trumpet, who filled summer engagements with the Wisconsin Beach Gardens hotel orchestra; Garth Daniels, saxophone and clarinet, and Seth Cox, trombone, who filled summer engagements with Casa Loma Ballroom, Tulsa, Oklahoma; Ned Bradley, bass; K. Carter, saxophone and clarinet, who filled summer engagements with the Chet Grass, MCA orchestra in Santa Fe, New Mexico. New additions to the orchestra are Edward Le Fleur, drums, and Johnnie Cook, piano, from station WKY, Oklahoma City studio band.

Society Meets And Committee Named

The Southern Scholarship society of Texas Tech college met January 12, in room 214. A constitution was read and approved by the group, and a definite date set for future meetings, the date being the second Tuesday of each month in room 214 from 5 until 6 o'clock. A permanent membership committee was appointed by President Carl McAdams as follows: Dr. W. A. Jackson, chairman, Faye Bumpass and Canon Clements. This committee is to compile a list of new members and present it for approval within the next two weeks.

The scholarship society voted to honor Dr. A. W. Evans for his work in the past by giving him the privilege of wearing the key of the society.

What They Tell The Editor

As chairman of the constitutional committee of the Student Council, I feel that it would be of general interest to the student body to discuss some of the features of the constitution the student body is now considering.

In the first place, the student courts (Article III) have been created not as courts to have supreme authority on the Campus, but to bring about greater cooperation between the faculty and the student body of our college by offering the advantage of the opinion of the student body in a tangible way. It can not be charged that these courts will do any harm, and they are certainly agencies through which much good may be accomplished. It is an accepted fact of political science that, one of the inherent powers of a court is in its constitutions to throw any case out of court where the facts are not sufficient. In plain words, a grudge case would bring embarrassment only to the one who brought to the attention of the court.

Attention has been brought to the fact that the two faculty members of the board of Student publications could practically control the board. Working on the assumption that the faculty members would be opposed to the best interests of the student body, this could be considered as an objection. However, since the faculty has a majority on the present board of publications, the power of the student body has been increased rather than decreased. (Article I, Sec. 9.)

Due to the reference to the "laws of the Student association" and the "legislation of the Student Council" (Article V, Section 11) it was regarded as unnecessary to further lengthen the constitution by repeating this in a separate clause.

In conclusion, the Student Council does not submit this constitution as a perfect document, nor do we expect the student body to enter even the Ante-room of Utopia when it is adopted, but rather we present it in an effort to give the student body some orderly governmental machinery to work with.

GARLAND SMITH,
Chairman of the Constitutional Committee

Night Course Open In Textile Work

A course in textile manufacturing is now being offered at night through the extension office for non-Tech students as well as students. This course is also an elective for any student, giving credit of 3 hours for each of three terms. It is primarily an instruction course in the art of making cloth and wool. All the machinery in the textile building is used so as to give a practical knowledge of the value of cloth and woolen articles.

STUDY FORMATIONS

Dr. L. T. Patton, with a class of about 25 students in 152 geology, went on a field trip last Saturday afternoon. Formation and geologic structures near Buffalo Springs were observed and studied.

NOTICE TO FRESHMAN WOMEN

Please call for your orientation notebooks in Mrs. Doak's office. All books not called for by Jan. 23, Saturday, will be destroyed.

direction, nor do I think that it will ever be ready as long as we have our student body scattered all over Lubbock. When the vote is taken, weigh both sides of the question and vote as you think best. BUT BE SURE THAT YOU KNOW WHAT YOU ARE DOING WHEN YOU CREATE THE PROPOSED COURTS.

ETHRIDGE W. EAGAN,
President of the Alumni Association of Texas Tech.

Society Adopts Constitution

Highest Ten Per Cent Of Junior And Seniors Are Eligible; Committee On Membership Appointed

All students ranking among the highest ten per cent of the juniors and senior classes are eligible for membership to the Southern Scholarship society, according to the adopted constitution. This eligibility will be based on the scholastic standings of last term, and new members will be voted in a special call meeting some time in the near future.

A membership committee appointed by Carl McAdams consists of: Dr. W. A. Jackson, chairman, Faye Bumpass, and Canon Clements.

Dr. A. W. Evans, one of the faculty advisers, was voted the privilege of wearing the key, which is the society emblem.

Meetings will be held on the second Tuesdays in each month, at 5 o'clock in room 214 on the administration building.

ATTEND CONVENTION

Professor K. M. Renner, head of the dairy department; James G. Holcomb, foreman of the dairy department; Mart Pederson, and James Dombay are attending the Texas Ice Cream and Dairy Manufacturers convention in Fort Worth.

GO ON FIELD TRIP

Dr. J. O. Ellsworth took the senior class in farm management to the Burroughs farm, eight miles west of Lubbock for a field trip Tuesday afternoon.

Les Cigales Social Club Now Ko-Shari

The members of the Les Cigales social club on the campus disbanded and reorganized under the name of the Ko-Shari at the beginning of the winter term.

The club will adopt the age-old traditions of the Ko-Shari who were the delight-makers of the Southwestern. Pueblo Indians thousands of years before the name of the white man. This order, the Ko-Shari, club ties up with a tradition many times older than any college organization or any Greek-letter sorority.

The initiation of the new members began Saturday night, January 16, and will be concluded in an ancient king of the cliff dwellers in El Rito de los Prioles, 45 miles west of Santa Fe, New Mexico after the snow melts on the Pajarito Plateau in April.

The new members are: Misses Faye Bumpass, Ned Baker, Virginia Wood, Elizabeth Dryden, Geneva Adamson, and Lorene Childers.

WEEK'S CALENDAR THURSDAY

- Centaurus, 2307 Broadway, 8 p. m.
- Las Chaparritas, room 209, 7 p. m.

MEAT SOLD AT COST

Dr. F. G. Harbaugh announces that the class in Farm Meats has begun, and meat will be sold at cost to those wishing to purchase it. "Should the local farmers care to let this class butcher their stock, we would be glad to do it free of charge," Dr. Harbaugh continued.

Phi Psi Fraternity Works On Curtain; Is For Club Room

The members of the Phi Psi fraternity are working on some curtains for their club room. Basil Hill, president of the club has completed the design, using the club pin and shield. These curtains are to be done in black and gold rayon and will probably be finished in the spring term.

Sam Hopper Is Chosen To Prepare "Civils" Exhibit

Plans are being made for the Engineering show, one of the greatest events of the year for the engineering school. At the last meeting of the Texas Tech "civils" with Bernard Dean, president, in charge, a business manager was chosen to represent the civil engineering department in presenting the exhibit. Sam Hopper, who is in charge, announces that it will be better than ever before.

Season Tickets For Artist Course Selling For 60 Cents

The third artist course number, featuring Doris Kenyon, movie actress, will not appear here on February 1, as formerly announced. As yet, no definite date can be released as to her presentation, nor that of Harold Kreutberg, well known dancer, who is scheduled for March 19. However, it is certain that these two numbers will not be canceled. Season tickets may be bought from Prof. W. R. Wagborne for 60 cents.

Mary Chaveaux and Lucille Hunt, last year students from Claude, are visiting friends here this week.

Miss Dorothy MacFarlane was a Sunday dinner guest in the practice house.

Dear Editor:

At your suggestion I have studied the proposed constitution for the Student Association of Texas Technological college. After consulting with a number of Tech alumni and with upperclassmen I submit the following opinion: Please bear in mind that I do not think that the Alumni association should dictate to the present student body what to do and what not to do, however, the members of the Alumni association have spent several years in Tech and have the best interest of the college at heart. You had in the headline of last week's Toreador that the present constitution no longer fulfilled the needs of Tech students. I am of the opinion that you have made the mistake that the writers of the proposed constitution made, that is to confuse the present constitution with the by-laws. I have talked with the writers of the proposed constitution and it was their original purpose to change the man-
