Santa Anna Texas

By request I wish to state through the columns of the News that there will be a debate held at the Blackwell crossing on the Jim Ned on the 21 day of July, 1903, at 10 o'clock, a. m., between Elder T. W. Fields and Elder C. R. Nickols. Elder Fields is a member of the seventh day Advent Church and Elder Nickols is a member of the Christian church, this debate will last four days. The Sabbath question is the question to be discussed. This is a very important question and all should hear it discussed. Come and bring your tents as it is understood that everybody will camp on the grounds. There will be plenty barbecued and fresh meat on the ground, also provisions and other refreshments, also feed stuff for horses.

The Santa Anna precinct Sunday school Convention met 14th at the Christian Church and all the Sunday schools in the precinct were represented. The program was carried out and all report quite an interesting time. Dr. Brown of Coleman, the County president was present and made several talks that were replete with helpful thoughts and suggestion for Sunday School workers. All who took part in the exercises acquitted themselves in a very creditable manner. Everything considered, it was the most successful convention of the kind ever held in the mountain city.

The new school law admitting children from 7 to 17 years of age in the public schools went into effect July 1. State Supt. Lefevre says it is incumbent upon all districts to admit children 7 years of age to public schools free during the coming school year, although they are not enrolled. The fact that the law was not in force when the census was taken precluded their enrollment, but when the law becomes effective they are hereby entitled to free education the same as those enrolled under the former age limit of 8 to 17. In addition to admitting the 7 years children, no public free school

## A Trip To The Farmers Congress.

Taking advantage of an invitation of Will H. Mayes, of the Brownwood Bulletin to join the enterprising citizens of Brownwood country and travel in a special car to college Station to be in attendance at the Farmers Congress on July 7th to 11th inclusive. I had one of the pleasantest and most profitable trips for the outlay of time and money I have ever experienced. Right here I wish to contribute my mite of praise to that most enterprising citizen in the west, Will H. Mayes, who is doing more for Brown county and this section than any man in it. This very effort in securing this special car, festooning it with streamers and mottoes inside and out so as to attract attention and decorating and lading the interior with all the various agricultural products of the county and section will be worth a great deal in attracting attention to this part of the state and inducing immigration. His example is worthy of imitation and next season we hope to see a car chartered and laden with the fine exhibits. Coleman County is capable of sending to the Farmers Congress and allow the enterprising farmers an opportunity to attend this practical school at the A. and M. College at a very cheap rate. The land agents and others more interested than the farmers in inducing immigration should be interested in such a car and contribute largely to the expenses.

The car left Brownwood at 10 p. m. on the sixth over the Frisco Route to Fort Worth. Thence down the H. & T. C. through Waxahachie, Corsicana, Mexia, Calvert and Bryan to College Station, 5 miles below Bryan the county seat of Brazos Co., where is located the agricultural and Mechanical school of Texas. We arrived here on the evening of the 7th after a travel of nearly 400 miles. Spacious buildings, were already comfortably filled, with each arriving train pouring in hundreds more, until there were something like 1000 to 1200 in attendance from all over the state and many adjoining and even distant states. During the day each asso-

ciation, such as Bee Keepers, Horticultural, Stockraisers, Cotton Protective etc. (some 13 different ones in all) would meet at separate halls and discuss matters pertaining to their special avocation, then at 8 p. m. all would meet at Assembly Hall and have lectures and speeches of general interest. Many valuable ideas and profitable and practical points could be gathered in private conversation. All seemed communicative and ready to exchange ideas and experiences. Thus the time was made very profitable to those desiring to gather new and progressive ideas pertaining to their chosen line of avocation. The nice airy rooms, neat iron frame beds and snowy sheeting was free and a moderate charge to barely cover costs was made for the excellent fare served at the large mess hall. By cooperation and chartering a car this entire round of between 700 and 800 miles was made at the small cost of \$6.50 a ticket. I gathered several new points pertaining to some of my special lines of business that I consider of more value than all the outlay of dollars and cents. Besides this on the trip I gathered indisputable evidence of a fraud being perpetrated in ample time to save myself more money than I spent. I refer to the purchase of some nursery stock. I gave an order for, to be delivered this fall. I shall countermand the order and refuse to accept the trees if sent. If it were not for the libel law I could be plain and call names and locate and save the county thousands of dollars the people have obligated to pay out this fall for worthless nursery stock at fancy prices, that will not come true to name. The party, I learn has no nursery of consequence but depends upon buying cheap stock where ever he can find it giving it his fancy names and fraudulently selling it for extra fine varieties at high prices. This nurseryman has never done business in Coleman Co., before. It is his rule to concentrate all his agents in some new and unsuspecting field as he did this year in Coleman (seven or eight agents besides himself) work it for all it is worth before the agent of reliable nurseries start out. He sends his wife to deliver the trees this fall and collect the money. He never visits a country but once. He is more apt to be gathered in by a mob than he is to gather any orders the second trip. All who wish more definite information I will be glad to give them the facts. Of all frauds the nursery fraud is the basest. It not only steals your money but your time and labor bestowed upon a worthless thing that in the end is disappointing.

H. A. HALBERT.

"Strength and vigor come of food duly digested. Force, a ready-to-serve wheat and barley food, adds no burden, but sustain, nourishes, invigorates."

Now wouldn't this "stop your clock!" Listen: The Brooklyn Eagle wants to send missionaries to the South. The Eagle claims that by reason of mob law and the hard lot of the negro, the Southern people should be taught the "Way of the Lord more perfect." We have always heard that "charity should first begin at home," and before the Eagle sends its missionaries South, it had better send them to Delaware, the scene of a recent negro burning, and there get a few practical pointers on mob law. This scheme of evangelizing the South by Northern missionaries would not be a new experience to the Southern people. We had a taste of this evangelizing business during the day of reconstruction. — Ex.

## GERMAN SYRUP.

We want to impress on our readers that Boschee's German Syrup is positively the only preparation on the market to-day that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasm of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food ect. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cent; regular size containing nearly four times as 75 cents. An all druggists.

A traveler in China asked a native if he had ever read the Gospel. "No," was the answer, "but I have seen it. I have seen a man who was the terror of this neighborhood with his curses and his violent temper. He was an opium smoker, and a criminal, and as dangerous as a wild beast. But the religion of Jesus made him gentle and good, and he has left off opium. No, I have not read the Gospel, but I have seen it, and it is good." — Ex.

## Brutally Tortured

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Calif writes: "For 25 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it is the greatest medicine on earth for that trouble. A few bottles of it completely relieved me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by S. H. Phillips Druggist. July

Do the city papers say anything in regard to your locality? Do they contain notices of your schools, churches, improvements and hundreds of local matters of general interest which your home papers publish? Not an item. Do they say a word calculated to draw attention to your town and country?

Not a line. And there are men who take contracted views of this matter, who think unless they are getting as many square inches of reading matter in their home papers as they do in the city papers they are not getting the worth of their money. It reminds us of a man who took the largest boots in the box because the price was the same as the pair that fitted him. Take a city paper if you want one, but don't let it crowd the local paper out of your home. — Ex.

The writer returned Monday evening from a four days trip to Eastland county. The crops along the route traveled (a distance of about 40 miles) looked fine but corn will be cut short unless rain falls at an early date. Cotton is small but growing nicely. The acreage of milo Maize, Kaffir corn and other feed stuff has been increased at least 50 per cent this year which is an indication that farmers are fast learning that diversified farming pays. We saw some fine country in both Callahan and Eastland counties, but old Coleman county stands at the head of the parade.

### Night Waj, Her Terror

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. Kings New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure Coughs, Colds, La-Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at S. H. Phillips drug store. July

There was a cry in the streets. People rushed from their doors and strained their eyes on the struggling balloonist fighting for life. Even the poor, panting sufferer in the sick room was forgotten while the family gazed breathless at this strange tragedy of the air. Then they went back to the sick room to tell of the terrible struggle for life they had just witnessed. It did not occur to them that under their very eyes a more terrible, more pathetic struggle was going on daily.

There can be nothing more pitiful than the struggle the consumptive makes against disease. The greatest help in this struggle is gained by the use of Dr. Pierce's Golden Medical Discovery. It cures obstinate coughs, weak and bleeding lungs, emaciation, and other ailments which if neglected or unskillfully treated find a fatal termination in consumption.

"In 1898 one of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs," writes Rev. Joseph H. Fesperman, of Barium Springs, Irredell Co., N. C. "I promptly gave her Dr. R. V. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This being true, I hereby heartily endorse your medicines."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

A lot of young fellows in an Ohio town had a good time with a tramp last week, says the Star. They took him into a stable, gave him a good bath, shaved him and cut his hair. They then bought him a new suit of clothes, white shirt and standup collar and dressed him out complete. But when they attempted to burn his hobo clothes, he objected and fought for them with such desperation their suspicions were aroused and upon searching they found \$1,400 sewed up in his coat.

### Safeguard The Children

Notwithstanding all that is done by boards of health and charitable inclined persons, the death rate among small children is very high during the hot weather of the summer months in the large cities. The pope arose at 6 o'clock yesterday morning. He said he thought the air in his room somewhat vitiated and wanted it changed. The attendant, Pio Centra, after having been authorized to do so by Dr. Lapponi, opened the windows of the whole apartment, including that of the sick room, the pontiff having previously been carefully covered with extra blankets. After remaining open for a short time the windows were closed with the exception of the window of the sick room, Dr. Lapponi having decided balmy, fresh air would only do the patient good. The opening and shutting of windows was watched from the piazza by people who gathered to hear the latest news and some of them interpreted this as meaning the pontiff was dead, which necessitated a prompt official denial.

The pope prayed for half an hour and then had breakfast partaking of a yolk of an egg beaten up with sugar in hot coffee and a light biscuit. The pontiff then attended to his toilet, but he did not shave. He then received his private secretary, Mgr. Angeli, who was again surprised at the pope's brightness of mind and display of energy.

Dr. Mazonzi's operation yesterday was identical with the other. The patient lay on a couch with

The skin above the operation of alcohol cocaine was hypodermically injected and Dr. Mazonzi inserted a prayaz needle, which by suction drew off the vitiated matter. The operation was comparatively painless and was performed without recourse to chloroform or other anesthetics.

The pope felt so relieved he insisted on getting up and took a few steps towards his armchair and seated himself for a few minutes. He then rose and going to the book shelves where he keeps his favorite authors, took down Horace's "Ars Poetica," returned to the armchair and began reading, holding one leg over the other. He seemed to feel no ill effects from the operation. On the contrary he appeared to have received benefit from the operation. Later in the day the pope had lunch and took a long rest.

**A Surgical Operation** is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one:—I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this cured me eight months ago and I have not had a touch of the piles since.—H. A. Tisdale, Summertown, S. C. ### Pope Leo Predicts Death on Thursday.

Pope Leo is credited with having said:

"If I am destined to die from this illness, I feel I shall expire on Thursday, the feast day of the Carmelite Madonna, whom I especially worship."

The pope was worse yesterday morning and later in the day this depression became quite marked, and continued to manifest itself throughout the forenoon, at one time assuming an alarming aspect. This was when the pope seemed to lose his grasp on tangible surroundings.

For the first time since his illness began there was a momentary hallucination, the patient believing that a shadow fitted through the room. The doctor and attendant succeeded in quieting his fears. Outside these passing periods of depression the general condition of mental alertness continues.

### CROUP

Is a violent inflammation of the mucous membrane of the wind pipe and sometimes extends to the larynx and bronchial tubes. It is one of the most dangerous diseases of childhood. It always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment to the throat. 25c 50c 1.00 at Phillips'.

### Horrible Crime and Horrible Torture.

Following is an extract from an account of the lynching of a negro brute in Deron, Mingo county, W. Va., near Bluefield. The negro bound a 14-year-old girl to a tree, assaulted her and was returning to renew it when he was caught. The following is what occurred:

The clothing of the black man was torn from his body and pins, tacks, pen knives and every conceivable weapon of torture was stuck into the skin of the negro as he struggled, and vainly pleaded for his life. He was allowed to suffer, with his body bleeding in a thousand places.

The almost lifeless form of his little-victim was then placed before the glaring eyes of the negro while willing hands cut the tongue from his swollen mouth.

His cries became incoherent and before the enraged citizens could be checked the skin was literally cut from his body and distributed among the villagers. He died with his eyes on the little girl whose life he had ruined. His heart was then cut out with jack knives, his toes and fingers chopped off and carried away as mementoes. His bloody and mangled form was then soaked with kerosene and burned.

### King Takes His Name From Death List.

A cable from Belgrade to the New York Journal is as follows:

One of the first acts of the new king was to remove his name from the list of persons billed to be executed the moment they are caught. He had been on the list since 1868 and had to be very careful not to enter Servian territory. The king also was pleased to restore to himself his real estate, confiscated by Milan, among other parcels several Belgrade houses.

Peter is not easily surprised by dynamite bombs. When driving he has a few in a side pocket of the carriage, and a half dozen or more always on his writing desk, disguised as match boxes, cigar holders and the like.

"If Alexander had had two or three of these things beside his bed that night he could have defied any number of conspirators," said the king to the mayor of Belgrade.

### THE TOWN COW.

Ballinger Banner-Leader.

While on our rounds Saturday our attention was called to the town cow, that had appropriated a sack of bran in front of the Merchantile building. This incident straightway reminded us of an article that had been going the rounds of the press, in which the town cow is described in all her peculiarities. Here is the article:

"O, thou gentle heifer; daughter of thy mother and the despoiler of garden truck—Thou bringest grief to our heart and John to our coffee. We hail thee with a fence board and things like that. Thou goest forth in the night and seekest the open gate; thou wanderest in by forbidden paths beside the unripe cucumber. Thou smelllest of the blushing beet and trompeth on the lettuce. Moreover thou peerest into the rain barrel and drinkest thereof. The man neither the woman, knoweth not of thy going or coming. Thou spieth the onion bed and lieth down thereon, while thou chewest thy cud like a summer girl. Bimeby thou liftest up thy voice and bawlest. Then trouble suddenly overtaketh thee. The man rises up in anger and a balbriggan suit. He hiketh out and setteth up an old hoe handle and smitteth thee sore on thy porter-house. 'Tis then thou hidest thy caudal appendage and getteth thee hence. Thou scootest up a darksome alley and maketh thy gate way. The man seeketh after and desireth thy postoffice address and findeth it not. 'Tis well. Had he discovered thy hiding place he would have chewed rag with the inhabitants thereof and gone with his nose on bias and a purple dural under the eye."

### Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville Ill. writes Dec. 2, 1901: About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction. 25c 50c 1.00 at Phillips'.

### Another Guess Coming.

Temple people, it is learned, object to the change in passenger schedule on the branch, and they are said to have circulated a petition to the officials of the road, asking that the old schedule be again put on. All of which goes to show that even a big railroad corporation cannot please all the people all the time.—San Angelo Standard.

The Standard gave the above item a double head. For the benefit of the Standard the Tribune will state that Temple is not objecting seriously to the new schedule. It makes it a little inconvenient to get to Belton in the morning, and the petition was for a train service of some sort to that point only. The Santa Fe is not apt to respond favorably, but the Katy has a train that has nothing else to do.—Temple Tribune.

### France Celebrates Her Birthday.

Tuesday the Parisians celebrated the one hundred and fourteenth anniversary of the capture of the bastille in the customary manner, the holiday corresponding with the American Fourth of July. The first noticeable incident of the day was the annual demonstration of the League of Patriots before the Strasburg statue and the Joan of Arc statue, where wreaths were placed by various deputations.

Throughout the forenoon the streets were enlivened by martial music of regiments marching to Longchamp, where the annual regatta was held in the afternoon by the present Emperor in the presence of a large number of people.

### Couldn't Stop Haying.

This story will be appreciated by those who understand the rapid growth of alfalfa and the numerous crops that are harvested in the season. Several years ago, when Prof. Cottrell was connected with the State Agricultural College, he was in southern Kansas and preached the gospel of alfalfa to a farmer at whose house he stayed over night. Two or three years later he called on him again. He was met at the door by the farmer's wife. "You're that alfalfa man, aren't you?" she queried, after taking a look at him. "Yes, I'm the alfalfa man," replied Cottrell. "Well," slowly replied the woman, "I don't know whether to ask you into the house or not." "Why so?" asked Cottrell. "Because," she said, "when you were here before, you talked my husband into putting in 40 acres of alfalfa, and we have been haying ever since."

### Indignation Meeting at Marshall.

An indignation meeting has been called in Marshall for tonight to take action in reference to certain articles published under a non de plume signature during the recent prohibition election, which are said to reflect on the ladies of that and other counties. This meeting will be in conjunction with committees who have been appointed by like meetings in several other counties, who arrived in Marshall yesterday afternoon.

### TOO SLOW.

He reached out as if he would take hold of her, but she eluded his grasp. Again he made an equally feeble attempt and again she eluded him. Once more he made a feeble attempt and she had no difficulty in escaping. This time she became indignant, almost angry.

"What do you mean, sir," she exclaimed, "by thus trying to catch me?"

"I—I—I presume," he hesitated, "that I meant to kiss you."

She drew herself up proudly and then gazed down on him defiantly.

"Well," she said, "why in heaven's name don't you do it?"—Woman's World.

An editor who was running a daily paper in a small town in Pennsylvania had a tussel to "make both ends meet"—and then very often "meet" was mostly rind. He was extremely anxious to get some business from a firm that was doing considerable newspaper advertising in his territory and he wrote soliciting an order for his paper. The reply came: "Where does your paper go?" To this the editor answered: "North and South America, Europe, Asia and Africa, and it's all I can do to keep it from going to h—l." He got the contract.—Ex.

Here is a good thing for prohibitionists to know. It is clipped from the Waco Times-Herald:

"The long distance injunction" is having quite a run in Texas just now. When a county goes pro the next thing in order is to find a district judge who will 'hold up' the publication of the fact until the case can be heard on its merits. This is strictly legal. At the same time it is almost ludicrous for a district judge at El Paso, for instance, to interfere in the concerns of the people at Texarkana. Even an anti can't suppress a smile—not the regulation sort, either. But a decision by Judge Surrat, upheld by the higher courts, can be used to shut off the long distance fellows as fast as they show up. The local district judge can dissolve the grip of the outsider and it will stand. For instance, the district judge at Texarkana can write n. g. across the face of an order from the El Paso district judge, the former's territory being involved, and it's all over—the game is up—the injunction is dissolved.

"Man's inhumanity to man" is sometimes terrific when the "man" happens to be a negro that a mob has captured. See account of lynching in West Virginia.

### Supposed to be Funny.

#### NOT TOO PREVIOUS.

Johnes—Let me shake your hand, dear boy; you'll never see such a happy day as this again!

Algy—Oh, that's too previous, old man—I shan't be married until tomorrow.

Johnes—That's what I mean—you'll never see such a happy day as this again.

#### A GENEROUS JUDGE.

Judge—You must reform and stay sober.

Prisoner—I will, your honor; only give me time.

Judge—All right; thirty days.—Comfort.

"Do you pay for poems?" asked the poet.

"I do," replied the editor. "Lose six subscribers every time I publish one."

#### REGRETS TOO LATE.

Mamma—Johnny, I'm disappointed in you.

Johnny—Oh, well, you ain't just the mother I thought you'd be. But it's too late now to cry about it.

#### HE WAS ONE.

Biffley's wife was a tarter, and she had been giving it to him hot one day. She had called him a good for nothing, trifling, lazy, chicken-hearted, knock-kneed snipe, and had snatched the morning hand, struck him twice with the carpet stretcher and scalded his bird dog. After supper she sent him down to the street.

Biffley got on the street with hard feelings against the world and the female sex in particular. A few blocks away a vinegary-looking woman got on the car. When paying her fare she chose to fancy herself offended by something the conductor said. "Are there any gentlemen in the car," she called out, "who will stand by and see a woman insulted?" "Madam," said Biffley rising eagerly, "I will."—Boston Journal.

#### HUNTING.

The new law against hunters is very strict. Any one who hunts within the enclosure of another or fishes therein is subject to a fine of from ten to one hundred dollars unless he has first obtained the consent of the owner. This law does not apply where there is more than 2000 acres in one enclosure. It isn't a bit safe to hunt on another's land these days, and under the new law posting is not required.

Nothing would add more to the appearance of the business part of the city than for all our business houses to have neat fronts and awnings, the latter as nearly uniform as possible. Some of our stores have unusually attractive fronts, show windows and signs, while some of our best business men are very negligent or thoughtless in this regard. A neat appearance has as much to do with a store as a suit of clothes with a man.

## A Million Immigrants.

It is estimated that in the twelve months ended with June, about 1,000,000 immigrants flocked to our shores to share in our glorious liberties and partake of our large wage fund. If they brought with them on an average \$10 a piece—and that is a moderate estimate—they added \$10,000,000 to our money supply.

In May the influx was one hundred and forty-five thousand persons, an increase of 17 per cent over 1902. The year makes a new record, exceeding even the figure for 1882, when seven hundred and eighty-nine thousand came over. Not a few of the newcomers settled in the Atlantic coast region, but it is believed that the great majority went west to speed the development of that section.

To take them west would require twenty thousand passenger cars, to say nothing of baggage and freight cars for their belongings. It has been supposed that the incoming foreigner competed with native American labor and kept down wages. But wages are seldom higher than now. In fact, our foreign born workers, with their habits of subordination, support their unions very faithfully in fights for higher wages and appreciate an improved income, as much as anybody. There are indeed, kinds of employment for which the native American does not care much, and these fall naturally to the immigrant.

But for him not a little difficulty would be encountered in getting certain kinds of work done at all.—Baltimore Sun.

## Baseball Players and Foot Racers.

Louis J. Druger, ex-champion long-distance foot racer of Germany and Holland, writes Oct. 27, 1901: During my training of eight weeks foot races at Salt Lake City in April last I used Ballard's Snow Liniment to my greatest satisfaction. Therefore I highly recommend it to all who are troubled with sprains, bruises or rheumatism. 25c 50c 1.00 bottles at Phillips'.

Comanche Chief: Two cases were tried in court this week, both of them testing the ability of the courts and the willingness of juries to protect the girls of our homes from the brutality of grown men—in these instances married men with children of their own. The proof of their guilt was overwhelming, the only question considered by the juries being the age of the unfortunate orphan whom they inveigled into sin. We have in this country clubs of women for the improvement of shrubbery, and for social pleasure, women's societies for the protection of boys from the evils of drink, but where is there an organization of women for the protection of their girls?

## GLOBE SIGHTS.

A woman's laundry bill in summer must be something enormous.

Potatoes threaten to be so high this winter that they will be afforded only for refreshments at women's parties.

As many people get older they regard any change in their condition to be apt to prove the fire after the frying pan.

An Atchison man is so polite and agreeable that he reminds people of California's fine climate; they tire of it.

A whistle to an engine is like the vermiform appendix to a man; it is of no earthly use, and serves only to annoy.

This is the season when the summer girl goes visiting, and becomes a nuisance to the mother of the girl she is visiting.

Nearly every man, after reaching middle life, has a desire to write a book, and tell how people should change their habits.

It is generally admitted when a crowd of young people get together, that it is easier to work mother than it is to work father.

These days, when a girl dresses cool, her mother screams, "Go right back and put on another skirt, I can see clear through you."

If you want to get up a row with a man, say his wife doesn't know how to make coffee. But in fifty cases out of a hundred it is true.

When a fly gets on a man's face, and he doesn't brush it off, all the nervous women present clench their hands to keep from screaming.

It has been decided that a shirt waist and a dark skirt is the acceptable costume for every girl except as a bride, corpse or amateur performer on the stage.

It is related that in a country town recently, when there was a procession wedding, the bride wished to have the groom meet her at the altar. As there was no vestry room for him to emerge from it was arranged for him to hide behind the cabinet organ till the bride reached the altar.—Atchison Globe.

## INDIGESTION.

With its companions, heart burn, flatulence, torpid liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, salivary skin, foul tongue, offensive breath and a legion of other ailments is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle at Phillips'.

"Indictment squashed" is the way the Daily Oklahoma heads an account of quashing an indictment at Lawton. "Well we must acknowledge 'the corn,'" says the Blackwell News, "that squashing" an indictment beats anything we ever saw turn up in a court before. Lettuce hope however, that peace will reign from now on, but let us not overlook the fact that the lawyers who cabaged that decision pulled their client out of a pickle." And the Oklahoman asserts this 's'nuff and that the Blackwell editor artichoke it off.

## Catarrh of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the gland to secrete mucus, instead of the natural juices of digestion. Reflections of a Bachelor.

New York Press.

First, women give their neighbors a good character so as to be able to take it away.

It would be real interesting if the young women who go bare-headed in summer would start the fashion of going bare-footed.

When a girl asks a man to guess her age he doesn't deserve her confidence unless he guesses lower than her youngest sister's.

The inconsistency of things matrimonial is that women say a man should not lead a single life, yet condemn him if he leads a double life.

The man who talks about the weather is an angel of mercy compared with the man who talks about all the smart things his children say.

Next to her minister's opinion on the stock market, a woman has the most faith in the ice man's knowledge of how to make the furnace work.

A woman never laughs because she is amused; she laughs to amuse some man who thinks he is amusing her.

When a man coughs on a hot summer night his wife gets out of bed and goes up into the attic to get out his heavy underwear for him to wear in the morning.

The stupid man infuriates a woman by telling her she reminds him of somebody else when he might tickle her to death by telling her the other woman reminds him of her.

A man can be almighty mean to his wife and yet win out the score if he will only remember, when they are dining in a swell restaurant, to say he can never eat roast beef except at his own home.

A ruling in the postoffice department of late declares a husband has no right to open letters addressed to his wife contrary to her wishes. A father has preference over the mother in opening the child's letters. This ruling was made by request of a large number of postmasters who did not know what to do when a husband demanded, through curiosity or other reasons his wife's letters. Under this ruling a husband has no more right to open his wife's letters than any other person.

GET READY

FOR THE BIG MEETING!

THE

Christian Church of Brownwood Will Hold a Revival Meeting

Beginning Thursday, July 30th.

A TABERNACLE

Will be erected at rear of the Church building where the Patterson meeting was held. It is the purpose of this congregation to hold these meetings annually and to secure the services of the ablest evangelists at their command. For this meeting we have a treat in store for all who attend. The Rev. R. R. Hamlin, of Fort Worth, who will conduct the services, is an especially strong preacher, an earnest worker and one of the leading pulpit orators of the state. We had despaired of having him with us this year, but the congregation at Ft. Worth having granted him a month's vacation he has kindly agreed to take up this work for us in place of the recreation offered. We have changed our arrangements accordingly. This year it will be The Hamlin Meeting,

BEGINNING JULY 30th.

We believe the greatest good is done by a united effort of all the Christian people in revival work, and we hope to have the co-operation and help of all who feel an interest in religious work that great good may result. We especially invite those living in the country and neighboring towns to attend the meeting. We want to see the people from the country and town get better acquainted and enjoy the good work together. We have selected a date that will be most convenient, when all can enjoy a much needed rest from the season's labors. Come out and make yourselves as comfortable as possible. Shirt sleeves and calico dresses will be strictly in order. Bring the grandfathers and mothers and do not stay away on account of the babies. Seats will be reserved in the church building for mothers and little children, so arranged that the little ones can be comfortable and the mothers can enjoy the preaching and music and at the same time be separated from the general congregation.

CAMPING ARRANGEMENTS.

For the convenience of all those who may wish to attend from a distance we have arranged camp grounds with good shade convenient to the tabernacle, where will be combined all the pleasures of a camp with the conveniences of the town. Water works, electric lights, and telephone service will be extended to the camp grounds for the free use of campers. Fresh bread, meats, ice, etc., can be ordered at any hour of the day. Pasture for horses can be had at reasonable rates. Those wishing to camp will please notify B. E. Hurlbut in advance by letter or otherwise so necessary arrangements can be made.

GOOD MUSIC.

We will have good music with special songs each service by the choir, but we wish to make the congregational singing the leading feature of the song service. The members of the different choirs in the country and town are invited to take seats with the choir. Let every one who can take part in the song service. The rest will do you good. Come and spend a few days at the meeting.

People drawn to Brownwood by her advertising are disappointed in her lack of sidewalks and dark streets. These ought to be remedied. The city council says there is no money to light the streets but our citizens can build sidewalks and plant shade trees.

The recently appointed board of legal examiners under the new law, for the third supreme judicial district, consists of Judge Rice of Marlin; Judge Barber of San Marcos; and Judge C. H. Jenkins of Brownwood. This is a very high compliment to the legal ability of these gentlemen, only the best lawyers being appointed.

The Menard Enterprise says: If you are all run down, worn out, thin and emaciated; if you are troubled with hay fever, lumbago, dyspepsia, sweaty feet, rheumatism or tooth ache, accompanied by fainting spells, pay up your subscription. It will tone up your liver, invigorate the heart and make you feel like a new being. Don't put it off another day.

My son, follow not in the step of the loafer, and make no example of him who is born tired, for verily I say unto you that business is overstocked and seats on the corner are all taken and whittling places all occupied. It is better to saw wood at two bits a cord than to whittle in a loafing match and cuss the government. My son, if thou hast left in thy skull the sense of a jay bird, break away from the cigarette habit, for lo thy breath smelleth like a glue factory and thy whole appearance is less intelligent than a store dummy. Yes, thou art a cipher with the rim knocked off.—Snaked.

Remember that each little child which comes to you is not yours, in the sense of ownership, but that it is a little soul committed to your keeping and care in order that it may be helped as it progresses along the paths of life. It is not alone your offspring but it is a fellow soul, a comrade traveling along the same path, destined to the same end. In a few years the slight difference in your respective ages will be wiped out, and perhaps the child will be the one to lead. The relation of parent and child is but relative and temporary; but there is a stronger bond between you—you are kindred souls, both children of the same universal parent. The little one is your brother or sister, as well as your child.—New thought Magazine.

### Harvard Graduate a Hermit Forty Years.

Rescued from starvation and exposure, a graduate of Harvard college is dead in the county almshouse at Bethany, N. Y. He was James C. Hall, and during forty years he bore the name of the Alexander hermit.

No one ever knew what drove him from society, but during two score years he lived absolutely alone on his farm of 16 acres near Alexander. The place ran to weeds and brambles; barns and sheds rotted away; every room in the house but the kitchen was closed, molded and in decay. In one of the rooms was found a library of 300 or 400 volumes on philosophical works, many of great value.

Early in March a rural mail carrier, not having seen any signs of life about the house for several days, entered and found Hall, who was 75 years old, propped up in a chair. He was greatly emaciated and said he had eaten nothing for several days. The authorities removed him to the almshouse against his vigorous protest and succeeded in saving his life for a time. Hall died without revealing the cause of his strange life.

A short time ago a Topeka young lady was troubled with a boil on her knee which grew so bad she thought it necessary to call in a physician. She formed a dislike for the family physician so her father suggested several others, and finally said he would call in the physician with the homeopathic case, who passed the door every day. They kept a sharp lookout for him and when he came along he was called in. The young lady modestly showed him the disabled member. The little man looked at it and said: "Why, that is pretty bad." "Well," she said, "What must I do?" "If I were you," he answered, "I would call in a physician, I am a piano tuner."—Ex.

### TOO SMART.

"Once when I was a Mississippi pilot," said Mark Twain, "I got out of work and had to hustle for a new job. I talked to a number of captains, but none of them wanted a pilot. Finally I met a man who said there was a vacancy on his boat that I might fill if I could qualify. He asked me about my habits, my religion, my birth, my schooling and so on. Then he said: 'Do you know where the snags in the river are?' 'No, captain,' I said, 'I don't.' He swore. 'Wants to be a pilot,' he muttered, 'and don't know where the snags are.' 'I know where they are not,' said I. But my smartness cost me the job.

### Resolution Passed by Farmers' Congress to Introduce Study of Farming.

From Ft. Worth Register:

Will H. Mayes, editor of the Brownwood Bulletin, passed through Fort Worth yesterday from the meeting of the Farmers' Congress held at College Station. He was accompanied by a number of farmers and business men of Brownwood and vicinity. Mr. Mayes was enthusiastic over the work of the congress and believes that much good to the farmers and others of Texas will come as a result of the discussion of many subjects which vitally affect the farm interests of the state. Especially was he pleased with the interest taken in the deliberations of the congress by the farmers and business men in his party, and also those from other sections of the state. Mr. Mayes thinks that the influence which will go out as a result of that congress will play an important part in the adoption of modern methods by the farmers of Texas in the future.

During the day yesterday Mr. Mayes chaperoned his party in a visit to the packing house and stock yard district.

President Houston made a scholarly and able address on "Education of Farmers" which sounded the keynote to the situation, as will be seen by the following resolution which was passed:

### RESOLUTIONS.

1. That rural communities be urged to more liberal support of their schools, through special local taxation.

2. That they secure modifications of the courses of study so that the elements of agriculture and live stock may be provided for and theoretical and practical instruction therein be given.

3. That where the means are not available to employ a separate special teacher of agriculture that arrangements be made among school districts to secure a teacher, who shall give instruction in the several schools in rotation.

4. That this congress urges each community to demand of its school board that it make provision at the earliest possible moment to secure competent teachers in agriculture and related subjects.

5. That we demand of our representatives that they make more adequate provision for the higher technical training of farmers, horticulturists and stockmen through the Agricultural and Mechanical college and the farmers' institutes.

6. That the president of the Farmers' Congress appoint a press committee whose special duty it shall be to keep this matter and other things emanating from this congress permanently before the papers of Texas.

### MR. HOUSTON'S WORK.

In compliance with the above resolutions the president appointed the following committee to car-

ry out its provisions: W. H. Mayes, E. N. Gray, R. D. Hudson, J. H. Connell and W. D. Gibbs.

Mr. Mayes speaks very highly of the efficient manner in which President Houston is preparing to handle the work outlined in the resolutions.

### WHY IT COST.

Patient (who had just had his eyes operated on)—Doctor, it seems to me that \$5 is a high price for that job. It didn't take ten seconds.

Eminent Oculist—My friend, in learning to perform that operation in ten seconds, I have spoiled more than two bushels of eyes.

### TWO FRUITS.

"What two fruits go best together, Miss Summergirl?" said Cholly Piprite as they bent their steps in the direction of the rocks.

"I 'don't know," replied the sweet one unsuspectingly. "What is the best combination?"

"Why, a date with a peach, of course," returned Cholly, with the air of a man who was making the hit of his life and knew it.

### HIS SADDEST EXPERIENCE.

"Poor man," she said, stooping over the victim who had just been dragged out from under her automobile, "have you a wife?"

"No," he groaned, "this is the worst thing that ever happened to me."

Those who have journeyed far amid the varied scenes of life, and have tasted its sweets, borne its burdens and felt its pains, know in reality what it contains; and we all know that whatever its beauties, its endearments, or its sorrows and disappointments, it must come to a close. But it seems hard when just turning the hill for the other side, life's sun has just crossed the zenith of her day and turned her shadows eastward, while still in the bloom of manhood, having put behind him all that goes to teach true way of life, and in the primeval years of the light of that experience, to hear the call that hope had dreamed was far away, to turn away and die. Yet he who guards and guides the destiny of man, and at whose bidding all that is must come, knows best. Leaves have their time to fall, the beauteous round of nature obeys in turn a regular succession in change; but death to man comes unawares, regarding not his claims to the full measure of his three score years and ten.—Ex.

## POPE IS DELIRIOUS.

Dispatch sent from the pope's bedside at 2:15 p. m., yesterday afternoon, says:

"The pope's condition developed features which the doctors regard as the most alarming since the illness began. Their judgment is based upon the patient's having brief but frequent recurring spells of delirium.

Monday's hallucination was not considered as of the same character, the delirium being clearly of nervous prostration. Today's hallucinations, however, convinced the doctors that the disease has advanced beyond the nerves and has affected the brain. During periods of delirium the patient's mind wanders and he mutters incessantly. He insists that shadows are flitting about the room. In lucid moments the pope for the first time showed complete realization of the gravity of his condition. He asked for the Franciscan benediction which was given by Cardinal Vives Y. Tuto. He especially asked to see Cardinal Rampolla, to whom he gave what it is thought might be his final words."

## Did You Ever See the Cherokee Strip?

An Oklahoma paper prints this story: She was from Boston, he from Oklahoma. "You have traveled a good deal in the west have you not, Miss Bacon?" "Oh, yes, indeed—in California, Arizona and New Mexico." "Did you ever see the Cherokee Strip?" There was a painful silence, but finally she looked over her glasses at him and said: "In the first place, sir, I deem your question exceedingly rude; and, in the second, you might have been more refined in your language by asking me if I had ever seen the Cherokee disrobe." — New York Tribune.

## A QUARREL ON PAPER.

They were sitting at a tea table and were on the very verge of that dreadful first quarrel which the young wife had prayed might never come. The husband had uttered a criticism which she thought unkind and undeserved.

I can find fault with many things too, she flashed out.

Oh indeed, he said coldly; and what are they pray?

She paused a moment. If she gave utterance to the sharp speech on her lips, she knew that the opening wedge of discord would be entered. On the other hand, it was a severe trial to curb her impetuous spirit and receive the husband's rebuke meekly. But her good angel triumphed. After a short silence, she said, frankly:

I'm not sure that I ought to say what I thought. I believe I'll keep it till tomorrow and see how it looks by the light of day. Then if I think it worth while I'll write and leave the note on your plate.

He smiled at her whimsical answer and the cloud disappeared.

After tea she came to her place on his knee and said coaxingly:

I have a proposition to make.

What is it? he asked gayly.

We nearly had a quarrel, and, of course, it must not happen again. Hereafter if either has any criticism to make on the other, let us wait a day; and then if we still wish to make it, write it out instead of saying it. I believe petty anger would evaporate in the mere act of reducing into writing and then some heartaches would be spared.

He laughed, but in his heart he acknowledged the wisdom of her plan and so agreed to it. They have been married three years now and both are still waiting for the first letter of criticism.

The quarrel on paper has never begun.

Most of us might use the bride's plan with profit. If we could wait and write the unkind speeches, I wonder how many of them would ever be delivered to wound loving hearts? Of course some people would quarrel by telegraph if in no other way, but doubtless they are very few; and three-fourths of our vexing, undignified and unloving disputes might be avoided if we would wait to quarrel on paper.—Margaret Zella Walters.

## RESOLUTIONS.

As the Brownwood Bulletin's excursion car was leaving Ft. Worth on its eastern trip the following resolutions were adopted and handed the editor for publication:

Whereas we have become acquainted and had such an enjoyable time together, and whereas we feel greatly indebted to some of our friends for the good part they have done for the pleasure and entertainment of our party;

Therefore, Resolved that the delegates to the Texas Farmers' Congress from Brown, Comanche, Eastland, Coleman and Mills counties do offer a vote of high esteem, respect and thanks to Mr. Will H. Mayes, of the Brownwood Bulletin, for the appreciated service he has done in securing special car, and low rates, and in looking carefully after our comfort, convenience and enjoyment, which he has so courteously and ably done.

We further tender our thanks to Mr. and Mrs. C. L. Giddens for the very pleasant manner in which they have helped in looking after our party and for the nice lunch served us en route.

The papers of Brown, Comanche, Coleman, Eastland and Mills counties are requested to publish these resolutions as a special favor to us.

What does the Belton Board of Trade mean? Is it giving us straight facts or is this thing done to tempt the men folks to come over to their carnival? In its advertisement of the Belton mid-summer carnival the Board of Trade says: "Belton is inhabited by about fifteen hundred wide-awake energetic men and thirty-five hundred women, talented, refined and fair to look upon—with the usual complement of pretty little girls, and boys galore of the James Whitcomb Riley type, all of whom will help you to have a good time at our carnival." This gives a proportion of two and one-third as many women as men. Evidently the thing that Belton wants to do is to induce male immigration.
