## Where'd The Geese Go?

Early this week two geese disappeared from the Santa Anna Hospital. Dr. Henner would like very much to have them returned.

Dr. Henner said he kept these white geese and some ducks at the hospital for amusement of children and adults, too. A lot of people have long waits around a hospital and need something to help pass the time. They seem to enjoy watching the geese and ducks, and if who ever borrowed them would please return them he would appreciate it very much.

The doctor said the geese were not of much monetary value, about \$5.00 each, but in order to get some more of them he would have to drive several hundred miles.

He said no questions would be asked and no hard feelings would be held against anyone if the geese were returned, but he asked the borrowers to please consider the purpose they were used for and if they can see fit, please return them.

## Texas Leads In Polled Hereford Registrations

Texas again takes the lead in Polled Hereford registrations for the past year, it has been revealed by D. W. Chittenden, Executive Secretary of the American Polled Hereford Association in the secretary's annual report to Association members.

Registrations for the past fiscal year show the greatest increase in the 52 year old history of the organization. A total of 71,560 certificates was recorded as compared with 57,055 for the previous year. This is an increase of 14,525 registrations, or 26 per cent, a greater increase on a percentage basis than any other beef breed.

The top ten states in registrations were as follows:

Texas, 7,870 head; Illinois, 4,878; Kansas, 4,436; Missouri, 3,803; Nebraska, 3,642; Mississippi, 3,436; Oklahoma, 3,067; Georgia, 3,034; Tennessee, 2,863; and Iowa, 2,713.

## Pleasant Birthday Surprise

Last Monday was my 79th birthday. It has been a happy road. Many blessings have come along the way. Many times friendly and helpful hands have been extended. Sympathy has made sorrow more easy to bear and flowers have covered the rough places. On this birthday the people of Santa Anna greeted me with good wishes and many good things for the pantry, yes, there was money. A neighbor with his handy hammer, did a fine piece of work, his kindness shines in his work. Words cannot express my gratitude. Your friendship makes me rich in that which is far above silver and gold.

You have opened the 80th door with my cup running over with your kindness.

The Lord bless you. Again I thank you.

M. L. Womack.

## Gene Smith On The Way Home

Mrs. W. B. Allison received a call Tuesday from her son-in-law, A. C. Gene Smith, somewhere in Mass., that he was back from overseas duty, and would be home in a few days. He has been in France 16 months. He will not have to go back, but will be reassigned duties in the U. S.

Relatives of this area were informed last week of the sudden death of Porter Clark at Delano, California. He was a brother-in-law of William and Elmer Capps, a brother of Joe Clark, and a brother of Mrs. Laughlin W. Frickman.

## New Ordinance Prohibits Use Of Amplifiers After 10:00-p. m.

A new Ordinance, passed by the Board of Commissioners of the City of Santa Anna is being published this week in The News. This ordinance prohibits the use of any device or machine that amplifies any sound, whereby the sound is cast upon the public streets of Santa Anna. The hours that this ordinance is in effect are from 10:00 p. m. to 10:00 a. m. on all week days and all day on Sunday.

## Cecil Hall Motors To Hold Open House in Coleman

Cecil Hall, formerly of Snyder, Texas, has recently purchased the M. K. Witt Motor Company at Coleman, and Saturday, November 15, will hold open house in the newly remodeled building.

Three big gifts will be given away during the day and music will be furnished by the Farren Twins.

The new concern will be operated as the Cecil Hall Motors. They will retain the same service personnel.

The entire county is invited to Coleman to attend the open house observance.

The Statue of Liberty holds in her left hand a tablet inscribed with the date of the Declaration of Independence.

## American Legion Enjoys Chili Supper

There was a good attendance of members when the American Legion put on a chili supper at their headquarters in the Ranger building on Monday night, November 10th, Armistice eve.

Dr. Charles Henner, a member of the Legion, opened the meeting with prayer and offered the benediction.

The chili supper proved to be just the thing for the cold raw night. With the chili were served crackers, onions, pickles, coffee and milk.

John Guthrie was the chief cook for the occasion and Earl Irick, Sr., Post Commander, and others helped where needed.

Business was attended to and some plans for the future discussed.

The Legion will lead a movement to encourage all business firms to provide themselves with U. S. Flags, if they don't already have them. They will order without profit, the flags for those desiring them. There were not many flags in evidence down town on Armistice Day.

The box supper, given by the Christian Youth Fellowship, Monday night, in the annex of the First Christian Church, was quite well attended. All enjoyed a pleasant evening, and the financial returns were quite satisfactory. These young people with Mr. and Mrs. James E. Polard as sponsors, have as a project, some worth while work, for the Sunday School and church.

Mrs. R. Nettleship of Richland Springs, is visiting this week with her sister, Mrs. J. F. Goen.

## Jr. Mountaineers To Play Wylie Here Friday Night

The Santa Anna Ward School Junior Mountaineers will play hosts to the Junior Wylie Bulldogs on the local field Friday night. The game is scheduled to begin at 7:30 p. m. and admission prices will be 15 cents and 25 cents. The Senior Mountaineers go to Wylie on Thursday night.

Last week the Juniors won over the Wylie Juniors by a 19-20 score. The local boys scored two times in the first half, once by returning a kickoff for the TD and the next time on the first play from scrimmage. They only had the ball the two times during this first half.

This will give football minded Santa Annans a real opportunity to see what the future has in store for them. There is no other game of much interest to Santa Annans on Friday night and a good crowd is expected out.

## Lions Club Skips Tuesday Meeting

Due to the regular meeting day being a holiday, the local Lions Club skipped the meeting this week. Tuesday was observed by most of the local business firms as a holiday.

Rev. M. L. Womack filled the pulpit of the First Methodist Church at the morning service Sunday, in the absence of the pastor, Rev. Jack Payne, who was in a revival meeting in San Antonio.

## Mountaineer Journey To Wylie Thursday Night; Lose To DeLeon Bearcats 42-14

### GO TO WYLIE

The Mountaineer's football game this week will be on Thursday night, November 13 at the Wylie Football Stadium. The game is scheduled to begin at 7:30 p. m. This will be the next to the last game for the Mountaineers.

Coach Behrens stated this week that he was changing his entire offense line-up this week and that he would play all of his next year's team as much as possible for the next two games. He said he was still going all out to win both of the remaining games, but because we do not have any chance to win the district now, he is looking forward to next year and is going to give the boys all the experience possible. For complete change in the line-up see the full page ad elsewhere in this issue of The News.

At present Wylie stands in third place in season competition. The most important game for them was the Wylie-Dublin game which Dublin won by the narrow margin of 21-20. However, Wylie fell to Rising Star by a 14-20 count. Santa Anna will be the favorite in the game, but it is expected to be close.

The season record for both teams is as follows:

Santa Anna 12 — Junction 19  
Santa Anna 29 — B'wood 'B'  
Santa Anna 19 — Early 6  
Santa Anna 32 — Bangs 19  
Santa Anna 13 — Dublin 33  
Santa Anna 27 — Eastland 41  
Santa Anna 33 — Rising Star 7  
Santa Anna 14 — DeLeon 42

Wylie 39 — Knox City 18  
Wylie 25 — Aspermount 13  
Wylie 19 — Clyde 8  
Wylie 24 — Bangs 19  
Wylie 20 — Dublin 21  
Wylie 14 — Rising Star 20  
Wylie 13 — DeLeon 37  
Wylie 15 — Cross Plains 7  
Wylie 31 — Eastland 42

### DISTRICT BRIEFS

No particular upsets were noted in the week end District 7-A football games. DeLeon lambasted Santa Anna to the tune of 42-14; Eastland won over Wylie 42-31; Dublin coasted to a 38-6 win over Rising Star; and Cross Plains won their first game of the conference play by defeating Bangs 7-6.

The top game of the season will be played Friday night at Dublin, when the two top teams, Dublin and DeLeon meet to see who will represent the district this year. We are going to predict Dublin will win this game by two touchdowns, say about 27-14. Other week end games will see Santa Anna at Wylie on Thursday night; Rising Star at Cross Plains on Thursday night and Bangs at Eastland on Friday night.

### LOSE TO DELEON

The Santa Anna Mountaineers took a terrible beating in the second quarter of the Santa Anna-DeLeon game last Friday night and lost to the tune of 42-14 in a game that the score certainly does not indicate the game. No scores were made in the first period, but in the second period DeLeon scored four times and made the extra point on each occasion. In the third period both teams scored and also in the final period both teams scored and both teams made all their extra points.

Statistics show Santa Anna 11 first downs, DeLeon 11; yards gained rushing show Santa Anna 153, DeLeon 310; yards lost Santa Anna 13, DeLeon 37; passes attempted, Santa Anna 14, completed 5 for 50 yards; DeLeon attempted 14, completed 9 for 79 yards; DeLeon intercepted 4 Mountaineer passes; returned one for a TD and two were returned to within the five yard line; Santa Anna fumbled 2 times and they were recovered

by DeLeon; Santa Anna punted one time for 18 yards; DeLeon one time for 41 yards; Santa Anna received 3 penalties for 15 yards; DeLeon 5 for 45 yards.

We hate to criticize officials of a game because usually they do their best, but during the immediate past few years we have seen two sets of officials that we thought should have stayed at home. One of them was on the DeLeon-Santa Anna game last year (they were rotten) and the others were on the Santa Anna-DeLeon game this year (they were not quite as rotten). When officials let defensive holding, backfield in motion and unnecessary roughness go without calling it or at least cautioning about it, there is something wrong with them, and that is just exactly what was going on in this Santa Anna-DeLeon game. There are four officials on the field and they are paid \$20.00 each plus mileage and they should do a good job of calling games for that money.

### THE GAME

In the first period the Mountaineers kicked to DeLeon and a

As most of the players that attend the 42 games on Saturday night are Sunday School goers, the games are stopped at nine so that late hours will not interfere with Sunday School attendance.

**Parents Need To Teach Children Rules Of Safety**

Austin — While parents shift much responsibility for safety of their children in traffic to teachers and safety patrol members during school months, the closing of school returns the responsibility to Mother and Dad — with the situation now worse than ever.

"More cars and drivers on our streets and highways, and a mounting toll of traffic accidents recently revealed in New York State," Paul R. Kulp, manager of the Texas Division of the American Automobile Association, said here today.

"Insistent proof of the need for greater parental attention to child safety especially during July and August was shown in a report of the New York Department of Motor Vehicles that indicates like conditions in other parts of the country. While three children were killed in New York State traffic accidents in October and November, 30 died in traffic accidents in the two summer months of July and August. Moreover, accidents involving children under 14 in

the Fall months were 852 and in the Summer months, 1,935.

"If parents fail to give proper attention to child play, fail to instruct their children in safe walking practices, fail to set a good example, our Summer months will bring unnecessary tragedy," Kulp added. "My plea is that all parents assume greater responsibility for the Summer safety of their children."

**Hunting Boat Rule Changed**

Austin — The Executive Secretary of the Game and Fish Commission called Texas hunters' attention to a 1952 change in the waterfowl regulations affecting power boats.

He said gunners may now use a boat with an inboard motor or boats with an outboard motor providing the boats are tied or secured to a permanent blind.

The law covering this phase previously forbade use of inboard motor boats altogether and stipulated that boats using outboard motors had to have the motor immobilized and placed in the bottom of the craft when it was kept in a duck blind.

The Executive Secretary said the liberalizing regulation is expected to accommodate many hunters in the coastal area where power boats are commonly used.

He cautioned hunters that use of motor boats to disturb or

chase waterfowl is unlawful, although motors may be used to retrieve dead or crippled ducks or geese.

The Executive Secretary said the regulation governing baiting waterfowl has been tightened in that shooting over baited areas is forbidden altogether.

### Ruthless Methods Used On Victims By Texas Sharks

Austin — Thousands of small borrowers in Texas are paying 140 per cent, 200 per cent, and even 250 per cent to loan sharks but there is yet more to the evil than this, declares Senator George Nokes of Corsicana, chairman of the anti-usury committee of the State Junior Bar Association.

Even worse than the loss of money to the borrower through unconscionable usury is the effect on his health and happiness, the committee has found. A borrower becomes so burdened with the high payments that, in most instances, he gets behind and then he is subjected to harassment which grows more and more severe.

At first, he receives dunning letters which threaten his credit rating. Then he is called over the phone at his place of employment several times a day and at his home so frequently that he may quit answering the phone entirely. Then he will receive special delivery letters and telegrams late at night in order to break into his rest.

As a result of this hounding, the victim becomes extremely nervous and his working ability is impaired to such an extent that he may be demoted or even discharged. In one instance, a borrower who had been subjected to this scientifically calculated cruelty collapsed at his work bench. Numerous cases of nervous breakdown have been produced. Nerves wrought up as the result of financial difficulties and such harassment have caused homes to be broken up. Such tragedies represent losses which can not be measured in mere dollars.

The State Bar of Texas has recognized the need for regulating the small loan business and limiting the charges to a fair amount and the State Junior Bar Association is urging legislation similar to that adopted in 30 states.

The wedding song, "O Promise Me" comes from "Robin Hood," the comic opera by de Koven.

SCRIPTURE: Matthew 10:1-11:1. DEVOTIONAL READING: John 15: 8-20.

**Immortal Twelve**

Lesson for November 16, 1952

If the twelve Apostles wanted to join your church, would you let them in? Peter Marshall thought not. Books of sermons are often dull reading, but Dr. Marshall's book called Mr. Jones, Meet the Master is as fascinating a book as you are likely to find anywhere. One of his famous sermons goes over an imagined application of the twelve Apostles for membership in a typical American church. One by one each man is rejected—all but Judas! As a man of money the church wants his services.

Dr. Foreman

**Unpromising Material**

Not to steal Peter Marshall's sermon, nor to spoil your appetite for it in case you do read it, but just to explore the possibilities, let's imagine yourself passing on the application of these men for church membership. There is Simon Peter . . . Well! He is a fisherman and a sailor, and you know what sailor's language is, sometimes. A man noted for talking before he thinks. Not among our best people (they would say in Capernaum); lives down by the docks somewhere, smells of fish. No education, very limited background. Better wait. Maybe he could find a little chapel down nearer his work he'd be happier there. And then there's James and his brother John. Hot-tempered and ambitious, in fact so conceited they're hard to live with. They would certainly want to be at the top—if thrones are passed out they will want one apiece in the front row. If they are crossed they are likely to call down fire from heaven—not that they'll get it, but that's the kind of young men they are. No, they will be too hot to handle. Let them go join some sect that will give their emotions a chance. We'll be too slow and too cold for them.

**Nobodies**

Then there is Thomas, for instance. Just the opposite of Peter. A cold, gloomy man. Takes the dark view of everything. What you want in the church is men of faith, and this is a man who is sure to be called the Doubter. Skepticism is contagious, we have enough doubters now without electing another one. Let's leave him out. Then there is Phillip, a stupid man if ever you saw one. You can say a thing to him over and over and he still won't get it. And Bartholomew and Thaddeus or Lebbaeus or whatever his name is, and another James and another Simon—their names are common and so are they. Just who are they, the whole lot of them? Nobodies, that's all you can say. Can you name one that has made a name for himself outside his native village—or in it, for that matter? What have they got to contribute? Haven't we got enough dead wood in the church as it is without adding some more people who will be nothing but names? Seems to me the pastor must have been scraping the bottom of the barrel—these men certainly didn't come from the top.

**Jesus Made Difference**

Even worse than all that could have been said of some of the Twelve. There was one very doubtful character among them, the man Matthew the Publican. Publicans were tax-collectors for the Roman government. No one respected them; Jesus himself used the name Publican as meaning the lowest class of men. Who knew how sincere Matthew was when he joined the Twelve? There was also Judas, immortal for another reason; who was and who remained a devil. Jesus called two of these men devils at different times; Judas stayed one, but Peter changed. That lets us in to the secret of why Jesus chose these particular men. It was not for what they were at the time, not for anything they had accomplished, but for what he could do with them, that Jesus chose these men. He selected them for a particular reason: that they should go out and tell other men about him. To be ready to do this, they were to spend some time in close contact with him. When these men went out to speak for Jesus and the Kingdom of God they knew what they were talking about . . . and they were different men. All but Judas, who missed his life's great chance. For these other men had let Christ have his way with them. That is what the Church is and ought to be: the community of men and women who are being transformed, by Christ, for service in his name.

**LAWYER'S CHALLENGE NO REFLECTION ON PROSPECTIVE JUROR**

When involved as a party to litigation everyone wants, and is entitled to, a jury of 12 disinterested and completely impartial persons—men who will try the case fairly on the law as stated by the judge, and on the evidence admitted at the trial. This kind of jury is what lawyers and judges are trying to secure when they orally examine members of a jury panel.

To be questioned and challenged by a lawyer and excused by the judge is not a reflection upon the prospective juror's integrity or intelligence. It simply means that, in one particular case, the judge may deem it proper to excuse that person. There are many reasons why a person originally called for a jury panel might not be a fair and impartial juror. He may be closely related to one of the litigants, have a business relationship with one of the lawyers, or have personal knowledge of the case to be tried. He may show some leaning, one way or the other, regarding the type of case being tried that would make it difficult for him to render a strictly impartial verdict.

Even where there is no condition producing a conscious or readily apparent bias, a lawyer may ask that a panel member be excused under the peremptory challenge allowed his client. He usually does this because he feels there is something in that person's background which might unconsciously sway his judgment, even while honestly attempting to be absolutely fair. Many apparently irrelevant questions may be asked by an attorney in reaching a decision regarding this unconscious fac-

**VALLEY FRUIT PROSPECTS**

Mother Nature certainly knew what she was doing when she fashioned the southern end of Texas!

Have you noticed? She shaped it just like an inverted cornucopia. And the abundance of agricultural products grown there

Under the law each juror must be a citizen of Texas and of the county in which he is to serve. He must be qualified to vote in such county, except that he need not have paid his poll tax. He must own land within the State or he must be the head of the household within the county. He must be of sound mind and good moral character and able to read and write the English language.

A juror is not qualified for service if he has served as a juror within a certain specified length of time. No one who has been convicted of a felony is qualified to serve as a juror; nor is an individual who is under indictment or other legal accusation of theft or of any felony.

The statutes of Texas exempt certain persons from the obligation of serving as jurors. Persons over sixty years of age, civil officers of the State of the United States, ministers, physicians, attorneys, publishers of newspapers, school masters, druggists, undertakers, telegraph operators, railroad station agents, ferrymen, millers engaged in grist, flouring and saw mills, certain railroad officials, firemen and certain state Forestry employees may claim exemption from jury duty. The exemption must be stated and claimed under oath.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

**VALLEY FRUIT PROSPECTS**

bare out South Texas' resemblance to the "horn of plenty." But what first comes to the average Texan's mind when he reads of the Rio Grande Valley is "fruit". The crop suffered a severe setback after two consecutive years of hard freezes. Yet Texas still sends a considerable volume of citrus products to the nation's markets and is more than holding its own against California and Florida competition.

The citrus opened in early October this year when an estimated crop of a million and a half boxes or more of oranges and grapefruit began moving out of the Lower Rio Grande area. The crop is short of pre-freeze production but it is greater than in 1951, indicating the citrus industry is getting back on its feet.

Between 3 and 4 million trees are still standing and 1,117,000 excellent trees are in the nurseries this year. Soon the Texas housewife will once more have her pick of fine fruits from our own state.

Future predictions are based on present nursery stock. This year it is in better condition than usual. Many nurseries re-

port they are sold out and inquiries on sales have increased tremendously since the early rains in the eastern part of the valley. Many growers who cleared their orchards after the freeze in favor of cotton have indicated they want to replant their trees.

Heavy pink bollworm damage and the drouth this year are big factors in the switch back to fruit. One grower observed he can't get cotton up without moisture but citrus could withstand drouth and still make a fair crop. Other farmers believe resetting the orchards will help solve the water shortage. Vegetables and cotton crops are heavy water users, they claim, while citrus can survive with comparatively little moisture.

The 1,117,000 budded trees now in nurseries will be ready for fall and spring delivery in the Valley. About 3,500,000 seedlings are in the seed beds for future needs.

Texas citrus is well along the road to recovery.

**1200 Texas Bridge Unsafe For Traffic**

Austin — There's an old saw about not crossing a bridge until you get to it, but Texas has some 12,000 that are unsafe to cross. A minimum of \$304 million dollars is needed to bring these water-way spans to a point of safety, according to Highway Department estimates now being studied by the Texas Good Roads Association.

More than half of these structures, which total 276 miles in length, are inadequate for traffic demands made on them every day. One of every ten is incapable of supporting the legal load limit, while half of them are too narrow to permit passing, too low for clearance or too weak to accommodate today's modern traffic load.

Many of these bridges, particularly on through highways, now are being widened. Many more, however, are not on the new surveys and will not be widened. Meantime, only precaution by the drivers will prevent many serious accidents.

Relatives brought Mrs. Dessie Rushing home from Ft. Worth last Friday where she had been staying in the home of a niece and receiving medical treatment. She is reported to be considerably improved.

An Electric Freezer saves time and trouble in many different ways, and provides better meals. For the holidays, mince pies, puddings and the like can be baked in advance and frozen. Chili con carne, spaghetti and chop suey can be packed in metal-size containers, and frozen for future use.

**Fresh from the Freezer**

"Life is simpler, Judy, since we've had this Electric Home Freezer, full of fresh frozen things to eat — and the meals are better! Look at the variety in there! Corn on the cob, strawberries, peaches, snap beans — meat, cakes all baked and ready to warm in the oven — your school lunches for a week, all wrapped and frozen so I just have to take a package out in the morning when you leave for school.

"And we're never 'out of things'. When they have bargains at the stores — in frozen foods or in meats — I can stock up on them. I never have to throw leftovers away — just freeze them to use weeks later. So you see, this freezer saves me time and saves your Dad money, too!"

With an Electric Home Freezer you can shop every couple of weeks instead of every day or so. Buy meats, fruits and vegetables when they're on sale, save money that way. You simply freeze and store until needed.

A complete Sunday dinner, prepared weeks in advance and stored in the freezer, is ready to heat and serve when needed. Hamburgers, wieners, and lunches for picnics can be frozen in advance.

**DID YOU KNOW...**  
with an Electric Home Freezer you can:

- Freeze bread slices until needed, keeping them fresh and firm...
- freeze large quantities of cooked beans, stews, etc., and store for later use...
- freeze and store cakes...
- freeze waffles, warm in electric range oven as needed...
- store ice cubes for parties...
- save enough on food to pay for the freezer in a relatively short time?

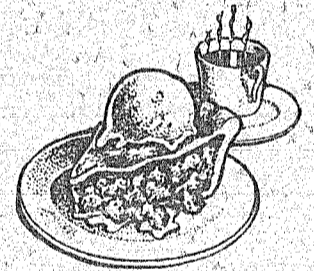

**MOTHER KNOWS BEST...**  
of course, it's *Electric!*

LET'S TALK LIVESTOCK BY TED GOULDY

Ft. Worth — Some of the highest selling calves of 1953 are being redied for market right now. Yep, that's right — I said Nineteen-Fifty-Three!

Now we do not own a crystal ball, and fear nothing worse than making a guess as to what is going to happen — but unless every past performance fails the really thick fat calves that sell during February, March, April and perhaps May in 1953, will be

brief this week. Please send me your news.

some of the highest priced calves seen all year.

This has been the case in virtually every year of record because that is a time of year in which relatively small numbers of really FAT calves are available. It is a season when large amounts of heavy fed steers are on hand but there is always need for more good and choice fat calves than the supply offered during this period of the year.

Right now the calves that are going to cash in on these high prices and that will top the market at Ft. Worth time after time during February, March, April, and May are eating just a few handfuls of feed each day from creepfeeders on the farms where they were born this Fall.

These calves will gain more weight and will attain a bloom-like finish that will make the buyers at Ft. Worth eager to own them for their packing houses.

Some of these calves are eating a home-mixed ration out of the creep. Others are eating one of several really good creep feeding rations made by reputable feed manufacturers. But, all of them, regardless of quality are putting on EXTRA pounds and putting on EXTRA dollars to the selling price when they come to Ft. Worth — regardless of quality.

Sometimes even the half dairy bred types — the kind that would be called common or plain for quality — sell for as much or more than a highly bred ani-

mal. Lots of times that "plain" mother cow gives EXTRA milk that is EXTRA rich.

It looks like another season in which creepfeeding will pay off in weight and dollars and it will get the calves off the cows earlier and give drought-seared pastures a chance to re-seed and come back faster in the summer and fall of 1953.

Look ahead to 1953 and think seriously about creep-feeding those calves, especially if you own plain cows!

**Most People Have At Least Two Colds Each Year**

Studies show that most people have two or more colds a year, each lasting about two weeks and causing a considerable amount of stuffy discomfort, said Dr. Geo. W. Cox, State Health Officer.

The danger of the common cold lies mainly in the other infections that may follow after it. A cold lessens resistance, and is likely to pave the way for other more serious respiratory ailments.

Sinusitis, ear infections, bronchitis, and the various forms of

DR. PEBBLE PURCELL

pneumonia are frequently ushered in by a cold. Pneumonia, particularly, is likely to attack a person who is overtired, or run-down because of a severe cold.

Fortunately, many of the respiratory diseases are not as dangerous as they used to be. Modern infection-fighting drugs, such as penicillin and the sulfa drugs, offer highly effective treatment for many cases. But, of course, it is always better to prevent a serious illness whenever possible.

If you have a cold, it's just good sense to stay away from people, to avoid spreading the infection; and to get plenty of rest — in bed if possible.

Look what some figure-happy statistician just found out. From kindergarten through high school, school kids have to plow through a pile of books 18 feet high. A photograph taken of this pile of books would make your eyes ache.

Close visual work is hard on the eyes, A New York State survey of 83,000 students showed only one in 20 kids had vision defects at kindergarten age. By senior high, eye troubles affected six students in 20.

Good lighting is one readily available means of making seeing easier for these students. Lighting engineers find that over half the schools still use old, globe-type fixtures that give only one-sixth the light that ought to be on the desks.

In those schools that have installed modern lighting, teachers report that students are more eager to study, are happier and require less discipline. The teachers find their jobs easier.

To help schools analyze what light is needed, General Electric engineers work out various lighting systems in model classrooms where effects can be demonstrated and compared. A booklet is offered, "Making Schoolwork Easier on the Eyes," in which current practices are summed up. (Write the Lamp Division, Nela Park, Cleveland, Ohio.)

It is the aim of General Electric to translate its engineering help into public service at the community level.

**LET'S MUZZLE THOSE BULLDOGS, MOUNTAINEERS**

### Who Has The Right-Of-Way?

Austin — Ever get caught in the middle of the street when the traffic light turned red?

Lots of pedestrians have, and there's always been a question who has the right-of-way in that case. The question was recently presented to the U. S. Court of Appeals in a case involving an accident in the State of Louisiana.

About dusk on a rainy afternoon, a man undertook to cross from the east to the west side of Scenic Highway at a point where there were traffic signal lights. He started across on a green light, but as he reached the center of the street the light turned amber and when he was a few feet from the west side it changed red against him. He was struck by a taxi.

He filed suit against the company insuring the taxicab and secured a judgment in his favor. The defendant insurance company appealed. The Court of Appeals sustained the judgment, holding that he continued to have the right of way over opposing traffic until he had a reasonable opportunity to reach the opposite curb. So if you're caught in the middle, you still have the right to cross the street, even though the traffic light turns red against you while you're crossing.

But the Texas Division of the American Automobile Association warns that having the right to cross doesn't necessarily mean you're safe. The drivers of the cars against you may not be aware of this most recent court decision. Watch your step even when you're in the right, the AAA safety experts advise.

### Humble Week End Football Broadcast

All seven Southwest Conference teams will engage in exciting play this week end, in four great football games — all to be broadcast by Humble Oil & Refining Company on its networks of more than seventy stations. The schedule includes three Conference games and one inter-sectional battle.

In Conference play, T. C. U. challenges Texas, Texas A & M meets Rice, and Arkansas faces S. M. U. Baylor and the University of Houston meet in inter-sectional competition.

Airtime for all games is 1:50 p. m. Saturday.
