Donald Ray Wins Free Subscription To The News

Donald Ray, son of Mr. and Mrs. J. W. (Sleepy) Ray, won the free subscription to the Santa Anna News this week for correctly identifying Mystery Farm No. 16 as being the home of Mr. and Mrs. Tom Todd, five miles northeast of Santa Anna on the Buffalo road. Twenty-six persons correctly identified the Mystery Farm.

Through an oversight we overlooked the names of Mrs. Buddy Neff and Mrs. Jewell Owen as correctly identifying the home of Mrs. John R. Pearce. It seems these things just keep slipping up on us, but we do our best to prevent it.

Paving Started On Bowie Avenue

Work started last week widening the culvert on Bowie Avenue near the Campbell Gin and considerable other work is being done on the road this week. Base for the topping is being put on the road-way and packed.

The city hopes to get the road ready for topping by about the middle of September and get it completed before the end of September.

The roadway will be approximately 22 feet wide and it will be paved similar to farm to market roads. There will be no curb and gutter and the drain ditches will not be paved.

This week the right-of-way has also been cleared of brush and trees that have grown up over a period of years. This will be a big improvement to the southwest part of town when this new road is completed.

Community Bargain Days Will Be Next Week

Next weekend, August 12 and 13, will be Community Bargain Days in Santa Anna. The second weekend in each month was selected by the local merchants as the days when they would join together and offer the entire trading area many useful items at real bargain prices.

Most of these savings will be advertised in next week's issue of The News. Be sure to watch for them and plan your shopping in Santa Anna from the pages of The News.

STRANGE SQUASH

Rex Golston presented your editor with a very strange squash this week. It is a long green colored squash and looks like an overgrown cucumber, but Mr. Golston said they were good to eat.

They are known as Summer Squash and he obtained the seed from his son while he was visiting him in Chicago.

Mr. and Mrs. F. A. Parsons, Clara Lou and Lynn Wright attended the wedding of Barbara Parsons and Buddy Martin. Barbara is the granddaughter of Mr. and Mrs. Parsons. The wedding was at the home of Mr. and Mrs. N. W. Parsons.

John F. Irick Killed In Car Wreck Sunday

Funeral services were held on Tuesday, August 2, at 5:00 p. m. for John Franklin Irick, 25, who was killed instantly in a head-on collision 3 miles west of McGregor Sunday, July 31 at about 6:00 p. m. Services were held in the home of his parents, Mr. and Mrs. W. Earl Irick, Sr. Officiating was Rev. Scottie Griffin of Brownwood, supply pastor of the local Presbyterian Church.

Mr. Irick was a member of the First Methodist Church, having been converted during his high school days and joined the church. For the past several weeks he had been employed as a roughneck on a drilling rig that was drilling for oil 45 miles out in the Gulf of Mexico, directly out from the Louisiana-Texas line. The crews work ten days straight and then take five days off. When the accident occurred Irick was returning from a five day visit here with his family and at Grosvenor with his wife and step-daughter.

Irick was born at Vernon, Texas, September 17, 1929 and moved with his parents to Santa Anna about four months later. He left high school in his senior year and went to work. In February, 1951 he joined the Army and served two years with an anti-aircraft battalion. He was married to Mrs. Earlene Lancaster October 24, 1953, by his father, who is the Justice of the Peace of Santa Anna.

He is survived by his wife and five year old step-daughter, Karen; both parents, Mr. and Mrs. Earl Irick, Sr., one brother, Earl Irick, Jr., of Santa Anna, and two sisters, Mrs. Don Harlow of Dayton, Ohio, and Mary Frances Irick of Santa Anna.

Funeral services were held at Phillips, Arthur Dean Talley, Gene Smith, Henry Goodwin, Jr., Loy B. Minica, and Billy Wilkerson.

Women in charge of the floral tributes were: Pauline Eubank, Mrs. Chester Galloway, Mrs. Walter Holt, Mrs. Luther Talley, Mrs. Billy Joe Robinett, Mrs. Arthur Talley, Mrs. Walker Tatum, and Mrs. John Hensley.

Burial was in the Santa Anna Cemetery under the direction of the Hosch Funeral Home.

Farm Bureau Queen Contest Underway

The annual Coleman County Farm Bureau Queen Contest will be held on Thursday, August 25. The purpose of this contest is to give recognition to the farm and ranch girls and girls from Farm Bureau families of Coleman County.

This is not a bathing beauty contest. The entries are judged on appearance, poise and personality. Girls eligible for the contest must be between the ages of 16 and 22, single, and the daughter or sister of a Farm Bureau member. Contestants are judged in formal dresses by out of town judges. There is nothing personal in the project and the goal of the contest is to stimulate interest of the young people in the Farm Bureau organization.

Prizes are awarded the County winners and the County Queen is eligible for the District Contest in September. District Queens will compete for the State title which included prizes, television and radio appearances.

Committees for the county contest have been set up with members of the Contestant committee contacting the eligible girls personally. Entry cards are given the girls or will be sent on request. These cards should be in by the earliest possible date although the deadline for entries is not until August 20. Mrs. W. H. Pittard of the Liberty Community and Mrs. Tom Kingsbery of Santa Anna are contacting girls who are known to be eligible. Any girls in this area who are interested in entering this Queen

School Opening Set For Sept. 5th

Members of the Santa Anna Independent School District Board of Trustees met in regular session Tuesday night at the high school and set Monday, September 5 as the day for the opening of school for the 1955-56 term. September 5 is Labor Day, but will not be observed as a holiday in Santa Anna.

The board employed Mrs. Helen Hunter of Coleman for the position as Homemaking teacher. Mrs. Hunter, daughter of Mr. and Mrs. F. Z. Payne of Santa Anna, has been teaching homemaking in the Burkett and Centennial High Schools. There is

also a good possibility the school will have another teacher employed in the junior school by the end of this week.

James A. Mallow of Brownwood, was employed as the band director for the coming year. Mallow has a BS in Music Education from Hardin-Simmons in Abilene and attended Howard Payne College in Brownwood for three years. He also has three years of service with the Good-fellow Air Force Band. He is a graduate of Brownwood High School, and comes to Santa Anna very highly recommended.

However, there is still an opening in the high school for an assistant coach and history teacher combination.

The Negroes of Santa Anna had presented a petition to the school officials earlier and it was to be acted upon Tuesday night, but the spokesman for the Negroes, Joe Y. Wilson, was unable to attend the meeting. So the question of segregation or desegregation still has not been settled in Santa Anna. Three representatives of the Negroes were present: Joe Byrd, Mrs. Bernice Collins, and Mrs. Pearl Wilson, but they said they were unable to speak for the entire Colored section. Several courses of action were discussed and they will be gone into further before any definite decision is made. It is expected the board will have a called meeting in the near future to make their decision.

New Telephone Rate Schedule Gets Approval

The request of the Coleman County Telephone Cooperative, Inc. for increased rates was passed on the first reading on July 7th, at the regular meeting of the City Council.

Members of the Council voted unanimously in favor of the increase. The new rate schedule will become effective beginning September 1st.

The application for increase in rates was filed with the Council and was signed by Raymond McElrath, President of the Cooperative. Detailed figures citing reasons for the requested increases accompanied the application and members of the Council spent much time in study and discussion before voting.

The request said, in part, "Wages make up the major portion of the costs of furnishing telephone service and much of the increase in operating costs has been represented by the rising wage costs." An audit prepared by the REA auditor, showing a monthly deficit of approximately \$325.00 in operating expense, was filed with the application.

The new rate schedule will give an estimated monthly gain of \$427.00, thereby allowing a profit of approximately \$100.00 per month.

The new rate schedule is shown below:

Business: One party, \$6.00; Two party, \$5.00
Residence: One party, \$4.00; Two party, \$3.50; Four party, \$3.00.

The Board of Directors approved the increased rate for rural telephones, that is: Residence, \$3.00.

Dates Set For Salvation Army Drive

The 12 day period from November 14 through 25 was set as the dates for the annual Salvation Army Drive this year. The date was set early this week in a meeting with the state director for this area.

All rural directors are requested to begin making their plans for the drive now.

Last Rites For Charlie Eskridge

Tuesday, July 26th at McDonald Chapel. He is survived by his wife, Viola, and two sons, Charles Forrest and Max all of Lubbock, two grandchildren, his mother, three sisters and one brother.

BAIL IN CRIMINAL CASES

In the United States a defendant in a criminal action is presumed to be innocent until his guilt is established beyond a reasonable doubt. His guilt or innocence is established at his trial — not when he is arrested.

With this concept in mind it is not hard to see why the right to bail in criminal cases is guaranteed by the Constitution of the United States, with the exception of capital cases. A capital crime is one which the punishment may be death. In Texas murder, treason, rape and robbery with firearms are capital offenses.

All prisoners are bailable in Texas except where the proof is evident that a capital offense has been committed and it is probable that a jury will assess the death penalty.

An officer making an arrest is required by law to take the accused promptly before a magistrate. It is the duty of the magistrate to examine into the truth of the accusation made. He determines whether the accused should be discharged or bailed or held without bail. If bail is set for the defendant, the magistrate must determine the amount. The law provides a procedure for reviewing these decisions before the Court of Criminal Appeals.

When an accused is on bail when his trial commences he has the right to remain on bail during the trial of his case. Where the punishment of a defendant has been assessed at confinement in the penitentiary for fifteen years or less the defendant has the right to remain on bail pending the appeal of his case. If the penalty is more than fifteen years the defendant is kept in custody from the moment the jury returns its verdict.

The Constitution also says that bail may not be set in excessive amount. What is considered a reasonable amount depends largely upon the circumstances and the risk involved. Bail must be set high enough to assure the court and the state that the person will not run away, but will

return and submit to trial on the date set.

The judge usually will ask the prosecuting attorney for a recommendation as to the amount of bail. The accused's attorney may then ask that the amount recommended be reduced, giving his reasons. The judge will settle on an amount he believes reasonable to assure the accused's presence at the trial.

Occasionally we read of someone "skipping bail". This means that he failed to show up in court at the required time. In such cases the court can order his bail forfeited. The person is still subject to re-arrest and prosecution, however.

Our Visit With Mrs. Eva Conley

By Mrs. A. L. Oder

Accepting an invitation of long standing, a group of friends left Santa Anna at 6:30 on Friday, July 29, for a visit with Mrs. Eva Conley, and with her son, Winston and family at Temple. Those making the trip were: Mrs. Clifford Stephenson, driving her car, Mrs. J. F. Goen, Mrs. Doug Moore and Mrs. W. E. Vanderford; Mrs. Roy Stockard, who furnished her car, driven by Mrs. Bill Pritchard, with Mrs. Amos Taylor and Mrs. A. L. Oder passengers. We arrived in due time and soon we were served carrot juice and celery juice cocktails, which we saw produced by Mrs. Conley on their large electric juicer. Later those desiring were served doughnuts and coffee.

The dinner expertly cooked and seasoned consisted of barbecued chicken, baked beans, a variety of vegetables, salads, relishes, coffee and iced tea, and a dessert, pineapple filled, angel food layer cake, topped with whipped cream. Miss Oita Niell R. N., Santa Anna reared, brought an offering of food and we all enjoyed the meal together. Conversation and watching TV provided entertainment, also watching the Winston Conley's five and one-half month old twin sons, Ronnie and Donnie, getting about in their walkers was interesting. The boys never even whimpered while we were there. Mr. and Mrs. Winston Conley and Sherry Lynn, assistant in the hospitality features. In the afternoon several of us went to Miss Oita's to see her home and especially her great variety of flowers, many of them in bloom, also her nice collection of china, hand painted by her.

Later Miss Oita took us through the McCloskey Hospital grounds where she is employed. Later she took me to the bus station and I went to Waco and visited with my son, Javan and family, until Monday morning. All of us going to Temple enjoyed very much the hospitality of Mrs. Conley and the Winston Conley's. They are building on a large room to their home, which Mrs. Conley will occupy.

Sorry we didn't get to see Mrs. Oita Niell as she was visiting in Santa Anna.

Heard the other day about a fellow whose doctor advised him to cut his drinking in half — so he eliminated the chasers.

Letters To The Editor

Anson, Texas
Route 1
Dear Editor and Santa Anna Folks,

Greetings from an old timer. On July 3 of this year, I came down to the Homecoming of the old timers of the Cleveland Methodist Church and must say we enjoyed it very much. The dear friends that still call that their home say they mean to make it an annual affair and we are all invited back the 1st Sunday in July.

Indeed we are very happy to get such a warm welcome and a wonderful opportunity to see our old friends and school mates of yesterday. Also to enjoy the Christian fellowship of the dear ones who still carry on.

What we really want to say is "Thanks" to the ones who prepared such a wonderful meal. We realize the Coleman County people still have the welcome mat out to their old time friends.

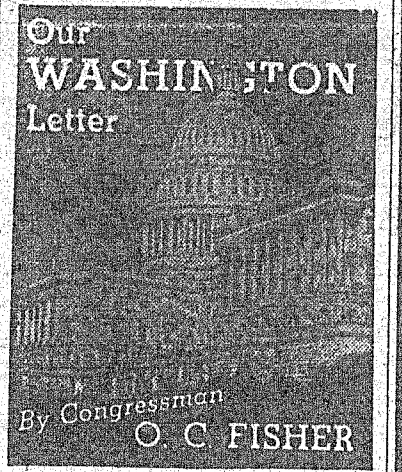

Also we want to thank some one, we know not whom, that was kind enough to send us the dear old Santa Anna News.

I have received 2 copies and I read it over two or three times trying to remember names of old friends.

Thanks again for a wonderful time the 3rd of July, also for the paper.

Your old time friend,
Mrs. Nora (Cupps) Jordan.

Our WASHINGTON Letter

By Congressman
O. C. FISHER

The First Session of the 84th Congress, just concluded, was just about the mildest one I have witnessed during my 12 years in the House. While there have been clashes here and there, in the main the tempers have been restrained and things have gone along rather smoothly. But next year it will be different; with their eyes on the national conventions both parties will, if history repeats, be weighing the effect of their actions on the approaching campaign.

Before Closing for the year, the House passed by a 6-vote margin the Gas Bill, designed to keep the sale of natural gas at the well competitive. If enacted into law, this measure will help restrain the hand of the Federal Government in local affairs and reduce concentration of power in Washington.

This Bill applies to gas that goes into pipe lines for interstate shipments. Uncle Sam does not have, and up to now does not claim to have, the right to fix gas prices at the well-head if the gas is to be consumed inside the state where produced.

A Year Ago the Supreme Court suddenly and very unexpectedly ruled that the Federal Power Commission in Washington had the right to fix the price that a producer of gas can get for his product, if it is to be sent by the purchaser across the state lines.

Many people wonder — if this power-grab trend is not checked — if the price of crude oil at the well-head will not eventually come within the price-fixing range of the bureaucratic guns on the Potomac. And, since lumber is often an interstate product, when will Uncle Sam want to set the price the producer can get for his lumber at the stump? So, what the House did last week in passing the Gas bill was to stop that trend and draw the line against unbridled exercise of Federal controls over problems that are local and not national in scope. The Senate will not act until next year.

This is Our Last Newsletter for this year. Many thanks to some 20 papers that have carried it each week, and thanks to all the readers. I will return to the district at once and will visit in each of our 27 counties. In the meantime our office in Washington will be kept open.

Mrs. Burgess Weaver took her grandson, Burgess Weaver, to Coleman on Thursday of last week where he took a plane returning to his parents, Mr. and Mrs. A. G. Weaver in Dallas.

NEWS FROM THE STATE HEALTH DEPARTMENT

Austin — Dr. Henry A. Holle, Commissioner of Health, stated today that the second inoculation of first and second grade pupils against poliomyelitis has been completed in most areas of Texas. Approximately 70 per cent of those receiving the first shots were on hand for the second group.

It is hoped that vaccine will be available soon for use by private physicians to immunize those not eligible under the National Foundation for Infantile Paralysis program; also that some arrangements can be made to secure vaccine for the medically indigent of the state. Under the Foundation program, use of vaccine has been limited mostly to children in the first and second grades.

Dr. J. E. Peavy, Chief of the Division of Communicable Diseases, says that polio occurs both sporadically and in epidemics at irregular intervals, with the highest incidence in Texas during the latter part of July and the month of August.

During the past five years 37.4 per cent of the reported cases of poliomyelitis in Texas occurred in the age group under five years; 26 per cent in the group 5 to 9 years; 12.6 per cent in the group 10 to 14 and 23.8 per cent of the cases reported were 15 years of age or older. During epidemic paralytic cases rarely exceed one per thousand of population. The most deaths from poliomyelitis are in the 20-29 year group.

Poliomyelitis can be recognized by your physician by clinical manifestations assisted by examination of the spinal fluid.

TOM TODD'S OWN MYSTERY FARM NO. 16

Mr. and Mrs. Tom Todd are the owners of Mystery Farm No. 16, as appeared in The News last week. The farm is located five miles northeast of Santa Anna on the Buffalo road. Their address is Route Two, Santa Anna.

Mr. Todd came to Santa Anna at the age of 14, from Navarro County and in 1919 went to work on the Upton Henderson Ranch, which was later divided up and his home place is a part of that ranch. In the winter of 1915-16 he met Miss Bettie Singletary, who was a school teacher in the Line Community and a courtship of about six years followed. They were married in 1922 in Waco and moved to the ranch. In 1924 he purchased the 268 acre farm he now lives on.

Their home was built in 1930 and because of a water shortage in 1934, he had a water well drilled and is still using water from that well. They have two 5000-yard stock tanks on the place now. He built the large broiler house in 1952 and for two years raised a large number of broilers. Mr. Todd said they did not make any money out of the broilers last year and decided not to attempt to raise them this year. However, he has raised two flocks of turkeys for the Griffin Turkey Farm this year.

Most land was put in cultivation in about 1905, while it was a part of the Henderson Ranch.

The Todds have three children: Jack Todd is staying at home and helping to operate the farm. He served in the army during World War II and was injured in the European Theater of operations. He was in the hospital for 120 days; Harrison Todd is married and lives in Snyder, Texas. He has one son and served in the Navy during World War II in the Philippine Islands; their only daughter is Bettie Sue Todd, a graduate of North Texas State at Denton and is now Librarian

THE HOME OF MR. AND MRS. TOM TODD

at the Lincoln, Nebraska Air Force Base. She was married last Friday in Lincoln.

Mr. Todd follows a diversified method of farming, rotating his crops by the year and attempting to keep his soil in good condition. He has 175 acres in cultivation and 71 acres of that was in wheat this year. His other acreage is in oats and grain sorghums.

Mr. Todd said his favorite crop was wheat. He raises some of it every year and always manages to make a little money out of it. He said taking it on the year-by-year basis, he always comes out better on his wheat than any other crop.

He used to raise cotton on most of his acreage, but this year does not have any cotton planted.

Mr. Todd runs about 20 head

of high grade Hereford cows and has a registered bull. Most of the cows have calves and his prospects are good for selling a number of Herefords later on this year. He raised some cattle each year.

He feeds supplements of cotton seed meal and steer fatina, mixed with home raised oats and other grains. Last year he had some calves that averaged a

gain of over 3 pounds per day while on feed.

Although he does not have any of his land terraced, because the land is fairly flat anyway, Mr. Todd is a firm believer in soil and water conservation and is favorable to most all the soil conservation practices being put into practice the past few years.

Asked if he had any future plans, Mr. Todd said he just

planned to continue living on his farm the rest of his life and keep things going as they have the past years. He said it was his belief that in the future every farmer will find he has to feed out some steers to supplement his income. His feeding program has helped his livelihood considerably in the past years.

CHRISTIAN SCIENCE LESSON-SERMON

The fact that spiritual understanding of God results in practical goodness, health, and power will be stressed at Christian Science services Sunday.

Readings from the King James Version of the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy comprise the Lesson-Sermon entitled "Spirit."

Among the passages to be read from Science and Health is the following (99:23): "The calm, strong currents of true spirituality, the manifestations of which are health, purity, and self-immolation, must deepen human experience, until the beliefs of material existence are seen to be a bald imposition, and sin, disease, and death give everlasting place to the scientific demonstration of divine Spirit and to God's spiritual, perfect man."

The Golden Text is from Ephesians (5:9): "The fruit of the Spirit is in all goodness and righteousness and truth."

Mr. and Mrs. Buster Woodard and Mr. and Mrs. James Perry visited over the weekend with Mr. and Mrs. I. V. Spann and Becky at Pottsboro. Mr. Spann has Ivy poison. The visitors brought Becky home with them.

ARMY RESERVE ADDS TO RETIREMENT OPPORTUNITIES

This Department of the Army decision affords reservists not assigned to units an opportunity to earn points which will qualify them for retirement.

Interested Army Reserve officers should contact their local U. S. Army Reserve Unit Advisor office for further information.

Mr. and Mrs. P. B. Stacy of Dallas spent Saturday night with his brother and wife, Mr. and Mrs. W. S. Stacy. On Sunday they went to Bangs, where Mr. and Mrs. Curtis Stacy joined them and all attended services at the First Baptist Church where they had formerly belonged. All had dinner together and in the afternoon the P. B. Stacys returned to their home in Dallas.

Mr. and Mrs. Tom Todd visited a part of last week with their son, Harrison Todd and family at Snyder, Texas.

Mrs. Chris Brimer and Bobby Curry of Goliad, Mr. and Mrs. Pete Curry and son, Jerry of Sweetwater, Mr. and Mrs. Odie Curry and family of Haskell, and Mr. and Mrs. Leroy Curry, Danny and Harvey, all had dinner with Mr. and Mrs. W. J. Curry in the Buffalo Community Sunday.

Loyalty Under Fire

Lesson for August 7, 1955

SOMETHING can be learned from history, even when it is the history of obscure men. Perhaps we can even learn more from the history of obscure, little-known, forgotten men, because we are mostly of that sort ourselves, than we can from the biographies of the rich and great. We are invited in this week's lesson to consider a little community of displaced persons more than 2,000 years ago.

Most of those displaced persons were citizens of Jerusalem, or had been. That city had been laid flat by Nebuchadnezzar's army. That little nation of Judah had brought the war on itself, that the prophets, and especially Jeremiah, had predicted exactly what happened,—all this did not soften the blow. Those people were exiles, but with a special bitterness. It is one thing to be driven from home hoping to go back some day; it is another thing to have no home to go back to. If those displaced persons could have been taken back to Palestine, to the exact spot where Jerusalem stood, all they would have found was rubble. They would have perished of starvation.

They knew this all too well. Yet in their memories Jerusalem still lived, a dream-city unchanged by time. They wept when they saw it in their mind's eye; but tears did not wash away the picture they loved. Did it do them any good, this remembering and remembering a city that was no more, a city they would never see again? Yes, it did. For even if that city were less fair than their homesick minds portrayed it, the good which they remembered would remain as an ideal. The community they would build in exile would be as near like the best they remembered as they could make it. A remembered glory that comes no more may become an ideal for

today's world. Loyalty to memory may be something better than laying posies on well-tended graves; it may be the channel through which the best of yesterday flows into today and tomorrow.

Loyal to Life's Must's

These exiled Jews often dreamed of going back. That was before Jerusalem fell, and before Jeremiah wrote them a famous letter. (Jer. 29.) You will never see your native land again, he told them. The captivity will end, but not in your lifetime. Meanwhile be good citizens where you are. Build houses, plant gardens, live with your growing families. Seek the welfare of the city where I have sent you into exile. . . . That may have been hard advice to take; but they took it. Dreams of the past can be slow poison if all they produce is tears. Dreams can make men crazy, they can keep people from looking at life's realities. Dream-wishes can keep men from doing what is possible under the circumstances. Jeremiah did not wish these people to forget Jerusalem. He wanted them to recognize the Must's of the situation where they were. There is such a thing as loyalty to the inevitable. "Shake hands with the inevitable" is a good rule, for the really inevitable is the hand of Providence.

Loyal to God

The story of the young men who chose death rather than be disloyal to God by worshipping Nebuchadnezzar's golden image, reaches one of its high points in what the young men said to the king. God will deliver us, they said; He is able to deliver us and we believe He will; but if not—if there is no God, or if He is not able to save us, or if He does not choose to save us, if He forsakes us altogether, we will not be disloyal to Him. The story is a kind of parable about all the loyal servants of the true God in great pagan Babylonia during those exile years. Many Jews must have been tempted to take over the religion of their conquerors, just as after the second World War there was a rush toward Christianity in Japan. Certainly there in Babylon there were many voices whispering or calling aloud, Bow down! Conform; be like everybody else, when you are in Babylon do as the Babylonians do. Don't be peculiar, don't be stubborn, leave your invisible God and come worship the golden gods to whom the nation prays! But the young men made the right choice, hard then, hard always: They would be loyal to the true God, even if his deliverance was delayed.

Price Campbell Elected Chairman Of WTU Board Of Directors

Price Campbell, new WTU board chairman, congratulates C. L. Young, president, F. W. Schroeder, executive vice president, J. F. Longley, vice president, and T. V. Grayson, a new director, on their promotions: The WTU executives were all elevated to their new posts by action of the board of directors Monday morning.

Ablene — Price Campbell, West Texas Utilities Company president since March, 1930, today was elected chairman of the board of directors and chairman of the executive committee. C. L. Young, vice president and assistant to the president since 1953 was elected president.

F. W. Schroeder, vice president and superintendent of operations, was promoted to executive vice president and general manager of district operations. J. F. Longley, superintendent of production and transmission, was named as vice president in charge of power production and transmission. T. V. Grayson, rate, contract, and cost analysis engineer, was named as a new member of the board of directors.

Acknowledging the congratulations of his associates, Campbell said, "In this rapidly growing West Texas, it just isn't the style for a man to decrease his activities." In assuming his new duties as chairman of the board and executive committee, Campbell stated that he would be less concerned with the day-to-day operations of the company and will have more time for the broad general supervision of company affairs mainly as to general policy affecting company welfare, corporate finance, organization, expansion programs, territorial development, public and governmental relations.

Prominent in the develop-

ment of West Texas, Campbell is widely known as a civic and business leader and for his work supporting and encouraging water and soil conservation. Serving on numerous regional and state committees, he recently was named a Director of Texas A & M College.

A native of Weatherford, Campbell graduated from A & M College in 1913 and after a graduate course with General Electric was employed as an engineer by the American Public Service Company at Marshall in 1915. The only interruption in his 40 years of work in the electric industry came during World War I, when he entered the Army's first Air Force Service.

Coming to Abilene in 1920, Campbell had served in almost every phase of the company's business when he was made president in 1930. Under Campbell's leadership WTU has experienced its greatest period of growth. In 1920 the company's properties — which then included ice, water, gas and street railways, as well as electric facilities — were valued under \$3,000,000.

During Campbell's 25 years as president the company has become a 100% operating electric utility with assets in excess of \$89,600,000 serving 167 towns and communities in a 52,830 square mile area, the largest area served by any utility in the Southwest.

Young, who observed his 31st anniversary with WTU this year, was born in Marshall. He holds electrical engineering degrees from both Alabama Polytechnic Institute and Massachusetts Institute of Technology. After completing the one year General Electric test course at Schenectady, New York, he worked for a short time in General Electric's District Engineering Department in Dallas.

Young, having previously served as an assistant to Price Campbell in Marshall, joined WTU as an electrical engineer in 1924. Later he was transferred to the Transmission and Engineering Department where he helped build many of the company's transmission lines and substations. Promoted to chief engineer in 1953, Young supervised the construction program doubling and redoubling the system generating capabilities. Since 1953, when he was made a vice presi-

dent and a member of the board of directors, he has served as assistant to the president. With his new duties as president, he will be the chief executive officer of the company.

Schroeder assumes his new duties as executive vice president with more than 37 years of service with WTU. First employed in Abilene in 1918, he has served as a construction engineer, chief engineer, vice president and superintendent of operations, and has been a member of the board of directors since 1923.

Leaving an assignment as an A & M College instructor, Longley was employed by WTU in 1926. He has served as load dispatcher, chief dispatcher, transmission superintendent. Elected to the board of directors in 1953, he has served as superintendent of production and transmission since that time.

Grayson, elected Monday to the board of directors, is also a

veteran utility employee. Shortly after attending A & M College, he began his career in the electric industry. He joined WTU in 1927 where he heads the Rate, Contract, and Cost Analysis Department.

Mrs. Brimer and Bobby and Jerry Curry, who have been visiting in the W. J. Curry home for two weeks, all will return to their homes this week at Goliad and Sweetwater.

Sam Collier returned home on Friday night from a two days trip to Temple, Dallas and Fort Worth.
