Bobbie Rehm Queen Of Texas Turkey Federation

MISS BOBBIE REHM

Miss Bobbie Rehm of Rockwood, daughter of Mr. and Mrs. Tony Rehm, was elected Queen of the Texas Turkey Federation at the state meeting held in Dallas last week. Miss Rehm, a student at Tarleton State College, will attend the National Turkey Federation in Chicago, January 4, 5 and 6. She will be presented with a Western Costume and evening gown by the Texas Federation. All her expenses to the convention will be paid by the state federation.

W. B. Griffin of Santa Anna, who had served the organization for the past year as president, was elected a member of the Board of Directors of the National Federation. Rupert DeLaney of Marlin, was elected president of the Texas Federation.

Other Coleman County turkey men elected to posts in the state organization were Tom Stewardson of the Shields Community and Buddy Simpson of Coleman. Stewardson was re-elected to the board of directors and Simpson was elected as a new member of the board.

Chester House, president of the National Federation, of Elkton, Va., was honor guest of the Texas meeting and crowned Miss Rehm as the Queen of the Texas Federation.

The women present organized an auxiliary to the state federation and elected Mrs. Rupert DeLaney as president. Each year the wife of the president of the state association will serve as the president of the auxiliary. Mrs. Buddy Simpson of Coleman, was elected secretary of the organization.

National Director

Pictured above are the Junior Mountaineers of the Santa Anna Elementary school and winners of their district in football competition. These boys lost one game in nine starts and won their final game Tuesday night, November 8, from Early, the only team they had lost to. Pictured are, front row left to right:

Kenneth Shields, Joe Riley, Byrl Fellers, Eddie Reid, Tony Tucker, Gene Close, and Kenny Haynes; Second row, Milton Drake, Jerry Haynes, Author Windham, Roy Payne, Eddie Hartman, Freddie Walker and Emmett Stiles; Third row, James Hodges, Weldon Haynes, Jimmy Blanton, Robert Pritchard, Bill Tucker, Bennett McClure, James Beasley and Lloyd Eubank; Fourth row, Jimmy Niell, Collin Steward, Bob Markland, Coach A. D. Donham, Edward Foster, Loyd Rutherford and Travis Buse.

Coach Donham started the season with five returning lettermen and will have two returning to the team next year. These two are Jerry Haynes and Freddie Walker. Eddie Hartman, Roy Payne and Joe Riley have earned three letters during their elementary school days.

Coach Donham and his boys deserve a big pat on the back for their fine efforts this year. We are proud of these boys and feel every citizen of this area should let the boys and their coach know you are proud of them.

Final Football Game of Season To Be Played on Local Field Friday Night

The final football game of the season for the Santa Anna Mountaineers will be played on the Mountaineer Field Friday night, November 18, beginning at 7:30 p. m. The Mountaineers will entertain the Mason Cowpunchers in a conference 23-A game.

At the present time, the loop title is in a three-way tie, with Mason, Burnet and Llano being the leaders each with one loss. Llano beat Mason, Burnet beat Llano, and then Mason beat Burnet. It looks as though that is the way the district competition will end.

There is expected to be little contest between Santa Anna and Mason on Friday night. Bangs goes to Burnet and an upset here is hardly expected. However Llano goes to Goldthwaite and there could be an upset there with Goldthwaite having the home field advantage.

If the district play is completed as expected, a district committee will decide which of the top three will represent District 23-A in BI-District competition.

Last week the Mountaineers dropped their ninth straight game of the season. Llano won by a 26-6 score.

The boys played a good game

man, was elected secretary of the organization.

State Director

Mystery Farm Unidentified

The Mystery Farm published last week still remains a mystery as far as we are concerned. Although we are almost sure it is the Leslie Riordan farm, located just east of the Coleman-Brown county line, it has not been identified by the owner or whoever is working the place. We understand Mr. Riordan died several months ago and his wife is living with some of her children in another part of the state.

However, we are going to award the free subscription and the lucky person this week is Mrs. J. B. Weathers. Her name was drawn from 34 who guessed the Mystery Farm to be the Riordan place.

Lucretia Herring Has Surgery Mon.

Lucretia Herring, 5 year old daughter of Mr. and Mrs. Vernon Herring of Santa Anna and Kermit, had surgery in the Methodist Hospital in Dallas Monday for the removal of a brain tumor. She had been treated in Kermit, Monahans and El Paso before going to Dallas. Lucretia stood the 4 hour operation quite well and is reported to be doing as well as could be expected. Relatives with her at the time were her parents and grandmother, Mrs. Preston West and her uncle and aunt, Mr. and Mrs. Danny Bryan of Abilene. Friends who were with them Monday were Mrs. Billy Joe Harvey, Mrs. Earl Erick Jr., and Mrs. Tom Wristen.

Other friends went Tuesday and Wednesday.

When Lucretia is able to be moved the parents will bring her to their home here.

Remember when the only difficulty in parking was getting the girl to agree to it?

Assortment of Floats Needed For Annual Christmas Opening Parade

Pancake Sale Tickets Going At Good Rate

Admission tickets to the annual Santa Anna Lions Club Pancake Sale are on sale by every member of the club and indications are the sales are going fairly well.

The club has been divided into two teams, with Kenneth Bowker heading one team and Bill Talley, heading the other. Members of the club have been assigned to each team and the loser in the contest will have some forfeit to pay on the day of the Pancake Sale.

The pancakes will be served in the Kelley Building at the corner of North First Street and Wallis Avenue. Members of the club will do the cooking and serving. Coffee, milk, plenty of syrup, bacon and butter will be served with each order of pancakes and every one is invited to eat all they want.

The pancake batter will be furnished by the Quaker Oat Company and Aunt Jemima will be here in person, to oversee the cooking and serving of the pancake mix which carries her name.

Money derived from the sale of the pancakes will go into the Lions Club Charity Fund, a part of which will be used to purchase Christmas Baskets for the needy families of our community. All the money will be used in charity cases which call on the Lions Club for help.

Besides doing a good deed, you will be buying yourself and family a good meal when you purchase your tickets to the Lions Club Annual Pancake Sale.

Band Boosters To Sponsor Game Party Tuesday Nite

The Santa Anna Band Boosters organization will sponsor a Game Party in the School Lunchroom Tuesday evening, November 22, beginning at 7:15 p. m. The program will consist of about two hours of entertainment for those who attend.

Admission prices will be 25 cents for all who want to participate in the games and door prize to be awarded. Games of "42", Dominoes, Bridge, and Canasta will be played. Everyone is urged to attend.

Refreshments of cake, pie, coffee and cold drinks will be sold during the evening. Also those attending will be given an opportunity to purchase their cakes and pies for the Thanksgiving weekend at an auction sale to be held during the evening. F. C. Williams will be the auctioneer and maximum and minimum prices will be set on all items to be auctioned.

No admission will be charged students who do not wish to participate in the door prize contest or the games to be played.

The Band Boosters plan several entertainments throughout the school year for the purpose of making money to help the finances of the bands. They will appreciate your attendance at the Game Party Tuesday evening and at other entertainments as they are announced.

Mrs. J. Frank Turner left on Tuesday for El Paso for a visit in the home of her son-in-law and daughter, Dr. and Mrs. Dodson Garrett. She will care for the Garretts two children while they take a trip to Arizona.

Mr. and Mrs. Buster Winn of Coleman have rented the Zachary place, formerly the Lovelace place, near the high school and will be moving in in a few days. The place has had extensive improvements in recent months.

Early this week the Community Chamber of Commerce had not been notified of any club or organization that was planning to enter a float in the annual Christmas Opening Parade on Friday, December 2. There is \$200 in prize money to be awarded in the float division and organizations should begin to make preparations to enter floats in the parade.

Fifty dollars has been set up as first prize in the float division and that is enough that any club or organization could make some good money for their treasury. At present six prizes have been set up with the smallest one being \$10.00.

The Community Chamber of Commerce would like to have at least one float from every community in the Santa Anna area. Actually, every school, club, or other organization in the Santa Anna area is invited to enter a float, all along the line of the Christmas Theme.

The parade is scheduled to begin at 2 p. m. on Friday, December 2. Several high school bands from neighboring towns have been invited to participate in the parade, along with the children of our local schools. Ten prizes have been set up for the best decorated bicycles or the most unique costumes carrying out the Christmas Theme.

Some of the local merchants are planning to enter floats in the parade but will not compete for the prize money.

Every organization in the Santa Anna area is urged to get busy at once and make plans to enter a float in the Santa Anna Christmas Opening Parade.

W. F. Barnes, manager of the Community Chamber of Commerce, announced all the store windows have been cleaned and are ready for the organizations that are going to decorate them. He suggested these organizations get to work on their windows as soon as possible.

Dr. C. M. Henner To Return Here This Weekend

W. Tilden Jones, Administrator of the Santa Anna Hospital, said early this week that Dr. Charles M. Henner, former owner and operator of the hospital, would return to Santa Anna the latter part of this week and would be ready to begin the management and operation of the Hospital and Clinic by the first part of next week.

Mr. Jones reported Dr. Henner leaving the State of Washington on Tuesday. His plans were to make the trip to Santa Anna straight through by car. He said Dr. Henner had been released from his overseas assignment and would be here for at least one year and possibly longer.

ANTIBIOTICS IN AGRICULTURE

Use of antibiotics in production and marketing of meat animals may have a profound effect on Texas livestock industry.

Definite proof has been established that use of certain of the "wonder drugs" can do everything from bringing more pigs per litter to keeping beef, poultry, fish and even whales fresh.

In tests using aureomycin feed supplements, growth of pigs has

been improved an average of 36%. Similar benefits are gotten from use of this antibiotic in beef cattle, sheep and dairy cattle.

This could mean a tremendous saving in feed and labor costs, since animals would get to market sooner. Use of the feed supplements also has results in a saving of about 20 lbs. of feed per 100 lbs. of gain due to increased efficiency of food utilization.

This speeded-up growth is probably brought about as antibiotics keep down germs of some diseases, create good conditions for organisms which produce vitamins, suppress intestinal germs which compete with the animal for vitamins in its food, and regulate important growth functions in the animal body.

DELAYS FOOD SPOilage

More pigs per litter can be produced when the mother sow's diet is supplemented with aureomycin during pregnancy. Although the number of embryos and birth weight of

pigs could not be increased by using the feed supplement, it is known that more pigs are born live and an "inborn" resistance enables more of them to survive until weaned.

Remarkable results have been found in preserving meat with aureomycin. Such action of antibiotics in keeping meat fresh longer is to prevent formation of spoilage bacteria for a longer period. It is not a substitute for refrigeration, but a supplement to it.

The ratio of antibiotics used in most of these processes is very small. If these test situations can be considered an accurate measuring stick for the world livestock industry, then a dramatic increase in the world food supply is possible.

Last Warning About Fake Fire

This is the last warning that will be published concerning the "fake" fire being planned by the Santa Anna Volunteer Fire Department, for the purpose of determining just who follows the trucks too closely and gets in the way of firemen while they are doing their fire fighting duties.

Just when the fire will be "faked" is not known. Only three or four persons will know about it. And there is a good possibility that more than one fire will be staged.

You are urged to stay away from fires and stay out of the firemen's way while they are fighting the fire. When the alarm is sounded, streets should be cleared until the trucks have passed or until you are sure which direction they are going.

The bride given in marriage by her father, was arrayed in a gown of ivory satin with lace applique on the fitted bodice, which had long fitted sleeves. The full skirt was fashioned with a cathedral-length train. Her finger tip veil was caught to a tiara of seed pearls and iridescent palleets. Her bouquet was of white carnations and stock.

Following the wedding a reception was given in the church parlor by the brides parents. Two hundred guests registered.

Self Culture Club Has Good Meeting

The Self Culture Club met on Friday afternoon, November 11, in the home of Mrs. C. D. Bruce. The attendance was fine and the consensus was that the program was one of the best the club has ever had.

In a continuing study of Great Women a program on Women in Creative Arts was given.

Pearl Buck, Nobel Prize Winner, was Mrs. Sam Colliers subject and this was well done. Mrs. Buck, writer of many books, among them, "The Good Earth", has lived abroad a large part of her life, but has always called America home.

American Costume Designers was Mrs. Wylies subject and she told of a number of outstanding costume designers in our country. A few of those mentioned were: Cile Chapman, Irene of Hollywood, and Valentino.

Mrs. J. C. Mathews told of Texas Designers, the three Frankfort sisters of Dallas, who have won fame and fortune with their maternity dresses. The one most important to us perhaps, is Elizabeth Dibrell of Coleman, now an outstanding designer in New York City. Designing wedding clothes for a friend landed Miss Dibrell in her career.

Some of the designers began their careers by designing and making doll clothes.

Mrs. Pritchard was in charge of the business meeting. It was decided to have a supper in the Annex next Saturday night, November 12th, at 7 o'clock. The plan is to feature the Thanksgiving theme in the food, with plenty of chicken and dressing and kindred foods. All members of the church and others connected with it are urged to come and bring any food of their choice.

It is likely no meeting will be held on Wednesday, November 16, as a group of women are

20th Century Club Regular Meeting

The 20th Century Club had an enjoyable meeting with Mrs. W. E. Vanderford on Friday afternoon, November 4th. Because of illness among members and some being out of town, attendance was not quite so good as usual.

There was an interesting discussion of the U. N. as a program feature. We learned that the organization observed its 10th birthday on October 24th. The U. N. began with 50 nations being members, now has sixty with twenty-two nations on the waiting list.

A committee was appointed to purchase a gift for Mrs. W. A. Standly, Club Mother, who has been quite sick, and will be having a birthday next Sunday.

It was voted to decorate a window for the Christmas parade and the window has been secured. A pleasant social period followed the business and program with the hostess serving very enjoyable refreshments of German pound cake, two kinds of ice cream, and coffee. Candy was passed from the coffee table. It was voted to have a chill supper at the home of Mrs. Clifford Stephenson. The date will be announced later.

Those present were: Mrs. Vanderford, Mrs. Eva Conley and granddaughter, Sherry Lynn Conley, of Temple, Mrs. Warren Aldridge, Mrs. Bill Pritchard, Mrs. Doug Moore, Mrs. Sam Rutherford, Mrs. Edd Jones, Mrs. A. L. Oder and Mrs. Arthur Talley.

All the women took sack lunches and these were served by the hostesses, Mrs. Zachary, Mrs. Charles Mosley and Mrs. J. L. Boggus, who furnished coffee and orange drinks. The meal was served from small tables on the breezeway. The occasion was enjoyed by all.

From where I sit... by Joe Marsh

Seen Monk's "Better Half"?

Monk McCarthy's latest creation has the town talking again. You can see it parked in front of Monk's auto repair shop on Maple.

Remember last year Monk cut two cars in half, and put their front ends together? You couldn't tell if the thing was coming or going. Sure attracted attention.

Now Monk's taken Tog Morgan's old sedan and completely restored one half of it. One side is as good as new, the other looks like — well, Tog's old car. "Sort of a before-and-after demonstra-

tion," Monk told me, "shows folks the kind of work I do."

From where I sit, some of Monk's ideas may look a little wild sometimes . . . but I wouldn't want to tell him how to run his business any more than I'd like him to tell me what beverage to enjoy. He always keeps a hot pot of tea in his garage — I'd rather have a cold glass of beer — but respect for each other's opinion is "auto"-matic with us both.

CHRISTIAN SCIENCE LESSON-SERMON

What purposeful living and intelligent consecration to God can mean for mankind will be explained at Christian Science services this Sunday.

Scriptural selections in the Lesson-Sermon "Soul and Body" will include the following from 1 Peter (1:22-23): "Seeing ye have purified your souls in obeying the truth through the Spirit unto unfeigned love of the brethren, see that ye love one another with a pure heart fervently: being born again, not of corruptible seed, but of incorruptible, by the word of God,

which liveth and abideth for ever."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following passage will be among those read (428:15-19): "We should consecrate existence, not to the unknown God whom we ignorantly worship, but to the eternal builder, the everlasting Father, to the Life which mortal sense cannot impair nor mortal belief destroy."

Powers of God

Lesson for November 20, 1955

JESUS no doubt did many ordinary things, such as paying his bills and eating his breakfast. It may well be that he "never did an ordinary thing in an ordinary way." How would he pay you what he owed for lumber for his carpenter shop? How would he be as a breakfast companion? But it is also true by all the records that he did some extraordinary things, so extraordinary in fact that no one word could quite describe them. The Gospel writers, all of whom of course used Greek, used sometimes a word meaning "Sign," sometimes one meaning "wonder, miracle," and sometimes one that means "power." The same Greek words is translated in different ways. For example: the Greek word "dynamis" (power) is translated in the old King James version "power" in Luke 5:17, "virtue" in 6:19, "mighty works" in 10:13, "miracles" in Acts 2:22.

Dr. Foreman

No Show-off
You can get into all kinds of stupid and endless arguments over the "miracles" of the New Testament. They are not always labeled as such, or labeled with any word. The Gospels will just tell what Jesus did, and let the reader draw his own conclusions. What they all agree on is that Jesus performed acts of power which no one else could match. He did these things as naturally as you would pick a blackberry—as naturally but perhaps not so easily. As he himself expressed it, he could perceive "power" going out of him. (Luke 8:46, R.S.V.) However hard it may be to understand Jesus' miracles, we can confidently say three things about them: One is that he did not do them "just to be doing them." They were never similes, or at

random. Further, they never had the aim of showing off. To the end of his days Jesus was beset by demands from the Pharisees and others, to show a "sign from heaven." One of his early temptations was to cast himself down from a pinnacle of the Temple and expect God or his angels to see that he did not get hurt in the fall. But he did not yield to that temptation.

Never Too Much
Another striking fact about his miracles is that he never wasted power. He never did what others could do. When he fed the five thousand, he got the people to sit down in orderly fashion and got his disciples to help distribute the food. One would suppose it would have been just as easy for him to arrange for every person present to find a loaf and a fish suddenly in his hand; but Jesus did not work that way. Or again, after the tremendous miracle of restoring to life the little daughter of Jairus, Jesus—instead of producing lunch for her himself by a miracle—gives orders to the family to get the little girl something to eat. When he healed the paralytic, he told him to pick up his pallet and go home.

He Went About Doing Good
Simon Peter, who was far more impressed by Jesus' miracles than by what he said, summed up a great deal when he said that Jesus, endowed with divine power, "went about doing good." (Acts 10:38.) Our Lord's acts of power were always done for the help of other persons. This is the great distinction between Christ's miracles and those done, or allegedly done, by magic. Your typical magic-worker makes a doll and sticks pins in it, hoping by this means to inflict pain or death on some one. Whether or not magic is anything real, magic is malicious by intention. Jesus' miracles on the contrary were never malicious, but the exact opposite—they were acts of goodness and generous help. Jesus never called up genies out of bottles, he never created fire-breathing dragons, he never produced potions of love or death. All his miracles simply restored health, life, strength, gave food to the hungry, eyes to the blind... yes, and good news to the poor. For in listing for John the Baptist's benefit the acts of power he was doing, he names as climax not the raising of the dead, but the coming of good news to the poor. That is a miracle we still too seldom see!
