The Gorman Panthers will open the '96 season on Friday night, September 6th at 8 p.m. when they travel to Water Valley.

The Panthers have shown some fine plays in their scrimmage games against Perrin and Tolar. The Panthers have shown much improvement during the workouts and the two scrimmages have

given the same playing experience as they go into the season opener at Water Valley.

The Water Valley team consistently fields very good football teams and are expected to have another good aggressive squad this year. Water Valley is located north of San Angelo on Hwy. 87.

The Panthers are picked to finish second in the district race this year behind the Baird Bears who have moved down into Class A.

Gorman will be bolstered by a heavy front line, both on offense and defense and are looking forward to a very good season. With a few positions to be filled this season due to graduation, the

Panthers should field a very aggressive team and do well in their district.

Be sure and follow the Panthers this Friday night to Water Valley and back them to Victory.

Go Big Red !!

### Following Traffic Laws For The New School Year

New clothes, backpacks, lunch boxes, school buses. The first day of school is exciting for students, but the new school year can bring tragedy if school bus safety rules are not followed. The Texas Department of Public Safety rules are not allowed. The Texas Department of Public Safety reminds motorists to obey traffic laws and watch for children boarding or exiting school buses. Parents and teachers should talk to children about school bus safety.

In 1995, no school bus drivers or passengers were killed while riding on school buses in Texas, but 1,370 people were injured while traveling on them. Seven people were killed in accidents directly or indirectly involving school buses, while 2,556 were injured.

The most common time for accidents is when school buses are loading or unloading students. Students should be taught to follow safety rules and to watch for traffic before crossing streets. Students also should watch for vehicles illegally passing stopped school buses on either side of the bus. According to the National School Bus Loading and Unloading Survey, most children injured or killed while getting on or off buses are under the age of 10.

A safe, reliable and efficient system for transporting children to and from school is part of the total educational program. To ensure the proper operation of school transportation systems, the DPS oversees and updates the state's school bus driver training program.

"Practicing good school bus requires a combined effort of the motoring public obeying the traffic laws, parents and teachers educating children to be safe and school bus drivers being properly trained to decrease the number of school bus related accidents," said Debbi Goertz, DPS program administrator for school bus transportation.

**Reminders for motorists:**  
\*Drive with care when near a school bus. If you approach a school bus from either direction and the bus displaying alternately flashing lights, you must stop until the school bus has resumed motion, until you are signaled by the driver to proceed, or until the red lights stop flashing.

## MAMMOGRAPHY CAN SAVE YOUR LIFE!!!

If you are a healthy woman over 40 who never has had a mammogram, the American Cancer Society recommends that you have this simple life-saving procedure now. Since one woman in 10 develops breast cancer at some point in her lifetime, the urgency is real.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually compared to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination. These images are then interpreted by a Board Certified Radiologist, and a report is sent to your own doctor. It takes only a few minutes, and can detect incipient breast cancer as small as the period at the end of this sentence.

Early detection (18 months sooner than a lump can be felt) not only permits treatment before the problem becomes serious, but the cure rate is over 90 percent. Mammography cannot only save your life, but help you avoid the need for disfiguring surgery, too.

You don't need to have been a previous patient of our to receive this screening, but you do need to make an appointment at a time convenient to you.

## Two Countians Graduate TDOPS Training Academy

Lancer Shane Morrow and Christian S. Ledbetter, both of Eastland were among 106 trooper cadets who graduated from the Texas Department of Public Safety's 110th Training Academy.

Rep. Rob Junnell, D-San Angelo, addressed the graduating class at the Frank Erwin Center on the University of Texas campus in Austin. DPS Director Col. James R. Wilson and Lt. Col. Dudley Thomas also participated in the ceremony along with DPS training officers.

The cadets entered the Academy in February and completed 1,182 hours of instruction - more than twice the training required by the Texas Commission on Law Officer Standards and Education. The cadets received instruction in criminal law, traffic law, arrest procedures, accident investigations, first aid and other law enforcement subjects as well as classes aimed at developing self-esteem and goal setting skills.

"Getting into the Academy is not an easy task," said Capt. Mark Warren assistant commander of the DPS Academy. Every recruit school receives about 4,000 applications from men and women all across Texas and the United States. Those applicants are narrowed to about 500. Troopers then personally investigate those who made the first cut. Personality and psychological tests were given to narrow the applicants to the 106 who graduated.

Troopers Morrow and Ledbetter will be assigned to the Highway Patrol in Eastland on September 3rd.

## Melon Patch Tour Another Great Year

You should have been there. It was an amazing sight to see 480 cyclists gathered at the Senior Citizen's area waiting for Deral Brown and Mayor Norma Locke to welcome them and then hear the shot from Cliff Coan's gun to get them on their way. The riders came from 107 cities with 6 states represented: Texas, Oklahoma, Missouri, New Mexico and Connecticut. It is always such a festive event and everyone seems so excited to be involved. Prizes were given to the first single rider to register, as well as the first tandem, the oldest rider (a 77 year old lady) and the youngest (a 5 year old girl who loved the red tractor, which was her prize). Also, George Epp was the winner of the BBQ grill from Higginbotham's. It was our best year ever, and it couldn't have gone more smoothly. Dr. Pepper brought an inflatable Dr. Pepper can that stood 30 feet tall, and that helped everyone know where to come. The weather was overcast and cooler and there was even fog on the road, which the riders seemed to love.

Everyone talked about the perfect "course" that we had and raved about the volunteers at the rest stops as well. All the intersections were manned so that no one went the wrong way, and Gorman had someone at each turn—the riders said that nowhere had they been treated so royally. No one seems prepared for all the different foods that are offered at the rest stops: Frozen peaches, oranges, bananas, frozen Dole pop-sickels, roasted peanuts, peanut butter, and crackers, cantaloupes, watermelon, snickers candy, fresh baked cookies, and squincher sports drink. By the time that the ride was over, many said that they had gained weight, but no one was complaining. At each of the rest stops, drawings were held for over 450 prizes, from cold drinks to watches, and that always seems to be a great hit. There were 9 rest stops along the way, and there were riders who stopped at each and everyone so they could join the camaraderie. There were signs along the road which pointed out crops, etc., that the riders might not recognize, such as sesame, cotton, and peanuts. There also was a newly wed couple from Austin, so one sign showed a heart with a sign saying "Fred Loves Nancy" and they even stopped to have their picture taken with it. There were nurses and Doctors at each of the rest stops, and luckily all that happened were a few scrapes and bruises, which were quickly patched up. Unfortunately there were stickers and grasshubs along the grass by the side of the road, and they penetrated some of the skinny tires and caused some flats, but those were quickly handled by the San Angelo Bicycling Association that always sends riders who cruise the roads helping repair any problems that the riders have.

There were riders who came in on Friday night and enjoyed the Peach and Melon Festival events, and then camped at the start/finish area. There was a tractor-pulled trailer that came to the Bike ride area and took riders and

## TAAS and TEAMS Test To Be Taken October 22 - 24

The TAAS and TEAMS tests will be offered this October at Gorman High School. By state law, student who are now enrolled in high school must pass all sections of the test in order to receive a high school diploma.

Anyone in the community who has completed all graduation requirements except for passing the TEAMS or TAAS may take these tests to try to earn a high school diploma. A person only has to take these tests to try to earn a high school diploma. A person only has to take that portion of the test that he or she did not pass in high school. Individuals who are no longer enrolled in a Texas public school and who wish to retake a portion of the TAAS or the TEAMS may pick up a registration packet at any high school campus. Forms must be completed and are to be received in Iowa City, Iowa, no later than September 20, 1996. Students who are currently enrolled in Gorman High School do not need to register for this test.

Persons who have not finished high school and who are interested in obtaining their diplomas, must fulfill the requirements for graduation that were in effect when their class graduated. Therefore if the TAAS was not required for a person's class it would not be required today. Texas Tech also has a correspondence program enabling a person to receive a high school diploma through correspondence courses. For more information on any of these areas contact Linday Glover, GHS Counselor.

their families to Golden Saturday downtown, and it was always crowded, so everyone seemed to want to enjoy all that the town had to offer. There were many who have come every year of the ride, and continue to say that it is one of the best little rides in Texas. The Committee members were certainly pleased at how well it turned out, and that is thanks to all the volunteers and supporters.

The ride continues to grow every year, from 227 in 1994, to 380 in 1995 and now 480. This in a year when most of the rides are showing a decline in attendance. So now it is on to next year.
