State Supt. White Visits Texico In Interest of State Democracy

Thursday evening the first political drive swooped down on Texico. It was composed of State Superintendent Alvin N. White, and a motor party from Clovis as follows:

L. C. Mersfelder, ex-County Superintendent, and present candidate for State Senator 23rd district; Ambrose Ivy, tax assessor; Dick Moye, sheriff; Sam Bratton, attorney; A. B. Wagner, postmaster; and John McMinn.

Their coming was unheralded, but the local loyals bestirred themselves and assembled an attentive small audience to hear the state official and the senatorial candidate. The speaking was open air at the corner of Garwood and Wheeler. Doctor McClellan presided, and with democratic eulogy presented the speakers.

Mr. Mersfelder led, with a plea for tax reformation in the state, and laid bare some startling data showing the great inequalities. His plea for his own advancement was exceedingly modest.

State Superintendent White was the speaker of the evening. He is not a candidate for re-election, but is out personally for the democratic cause. He told his hearers that the election of the Democratic National ticket was already assured; but he is urging activity in behalf of the State Democratic. He calls on Curry county to roll up its usual good vote for democracy. And he plead for effacement of race prejudice, by voting for a real man rather than against a foreign-sounding name. His eulogy of De Baca was in terms of strongest confidence. That a true American of Spanish or Mexican

extraction was the peer of an American or Norwegian or other foreign extraction. It's the man, he plead, and not the ancestral lineage that voters should look to in choosing officials.

His address was along the reform line in taxation, improvement in schools, and progress in road building. Referring to taxes, he cited that Curry county stood at the head in New Mexico—paying 95 per cent of its assessed taxes, while in Grant and Socorro counties the rate of tax collection was as low as 65 and 72 per cent. And Curry county renditions exceed in per cent the others.

Politicians will be in Texico again on Nov. 4.

The Civic Spirit

The civic spirit is rooting itself in Texico-Farwell. On the Texico side the News is pleased to refer to Mr. J. F. Deats as being a most progressive booster, and an ardent worker for civic advancement. In the city council he is a leading force for street and other public improvements, and he is an advocate of every civic measure. If his lead is followed, we will soon note a beautiful Texico-Farwell.

DO YOU WANT PEACE WITH WILSON,
OR WAR WITH HUGHES?

There is only one choice as against peace, and that is war. Some of the supporters of that (the Republican) party, a very great body of the supporters of that party, outspokenly declare that they want war; so that the certain prospect of the success of the Republican Party is that we shall be drawn in one form or other into the embroilments of the European war, and that to the south of us the force of the United States will be used to produce in Mexico the kind of law and order which some American investors in Mexico consider most to their advantage. * * *

There is a more serious aspect even than that. There is an immediate result of this thing, my fellow citizens. From this time until the 7th of November it is going to be practically impossible for the present Administration to handle any critical matter concerning our foreign relations, because all foreign statesmen are waiting to see which way the election goes; and in the meantime they know that settlements will be inconclusive.—From President Wilson's address to the Young Men's Democratic League at Shadow Lawn, Sept. 30.

ELEPHANT BUTTE DAM

HON. A. A. JONES REPRESENTS
PRESIDENT AT DEDICATION.

Great Irrigation Project, Completed at
Expense of \$15,000,000, Turned
Over to Association.

Western Newspaper Union News Service.

Elephant Butte, N. M.—Three hundred and fifty delegates to the International Irrigation Congress and International Farm Congress, accompanied by A. A. Jones, personal representative of President Wilson, and other guests, arrived here to attend the dedication of the Elephant Butte dam which has just been completed at a cost of \$15,000,000.

Brig. Gen. George Bell, Jr., and Brig. Gen. Charles G. Morton, commanders of the Eleventh and Tenth divisions, United States army, accompanied Mr. Jones to the dam. A company and band from the Twenty-third United States Infantry acted as escort for the representative of the President from Cutter, N. M.

Immediately upon the arrival of the special train carrying Mr. Jones and his party the formal dedication of the dam was begun. Standing on a platform built over the spillway of the dam and in the shadow of the stone elephant, which gave the dam its name, Mr. Jones, for the President, delivered his dedicatory address to the crowd which lined the banks of the artificial lake and stood on the top of the concrete dam.

That reclamation through irrigation was the first need of the arid regions of the West was declared by Mr. Jones. The reason for this statement, Mr. Jones said, was that all other resources of the West depended upon the presence of human beings in this section, and the fact that soil products made possible by irrigation were necessary for the support of the inhabitants.

"I am told," said the President's representative, "that this dam at the top is sixteen feet in width, 1,600 feet long, that the base is 205 feet thick and is anchored to a foundation 318 feet below the crest; 610,000 cubic yards of concrete are bound together by interlacing bars of steel. This million tons of material is sufficient to construct on a city lot twenty-five feet by 125 feet a pillar of concrete lacking only fifty feet of being a mile in height. In its bosom are fixed attachments for the generation of the equivalent of 35,000 horsepower in electrical energy. The reservoir in storage capacity surpasses any other ever constructed. When filled, it will contain more than 2,600,000 acre feet of water—enough to cover a depth of one foot an area of 4,200 square miles. This is two-thirds more than the combined capacity of all the reservoirs built or projected for the city of Greater New York. It will actually submerge more than 42,000 acres of land, and extend to a maximum length of forty-five miles. The project is designed to irrigate and enable the intensive cultivation of 180,000 acres of land."

To Enlarge Public Library.

Santa Fe.—At a special meeting of the Woman's Board of Trade it was decided to make additions and alterations to the public library building so as to enlarge the kitchen and dining facilities in time for the convention of the New Mexico Educational Association.

Fine 200,000-Acre Ranch Brings \$90,000. Cimarron.—A deal that involved the changing hands of \$90,000 was consummated when J. Van Houten of Raton purchased the ranch and livestock interests of Rich Brothers, twenty miles north of Cimarron in the Ponil country.

To Propose New Bounty Law.

Albuquerque.—The bounty law, the ineffectiveness of its results and its temptation to fraud, were thoroughly discussed at a meeting of the New Mexico Cattle and Horsegrowers' Association and members of the Forest Service, the local Game Protective Association and Director James of the Taxpayers' Association. After a month or more of discussion these interested parties feel that they are now in a position to propose really adequate legislation to supplant the old costly bounty system.

Road Board Members Appointed.

Santa Fe.—The State Highway commission appointed Fred Sherman and Cal Baker members of the Luna county road board, to succeed Dr. Swope and Harry Kelly, resigned. The commission also named C. C. Lewis of Wagon Mound, a member of the Mora county road board and Tom Tillotson of Roswell, a member of the Chaves county road board. Tillotson takes the place of Captain de Bremond, now at El Paso with Battery A.

Appoint Committee for Pageant.

Santa Fe.—The Chamber of Commerce at its meeting, which was the best attended this year, authorized the president, Supreme Court Justice R. H. Hanna, to appoint a finance committee in conjunction with the School of American Archaeology to take charge of the proposed pageant and festivities in connection with the dedication of the new Museum building. Dr. Edgar L. Hewett presented to the chamber the outline for the proposed festivities.

W. B. WALTON.
Democratic Candidate for Congressman.

W. B. Walton, Democratic candidate for congressman, is one of the most widely known Democrats in New Mexico, having been prominently identified with the activities of the party in his own county and in the state for many years. He is likewise known throughout New Mexico and in the Southwest generally as a lawyer of exceptional ability and a thorough student of government and governmental affairs, and he is pre-eminently fitted for the position for which he has been nominated. Mr. Walton will represent New Mexico in Congress ably and energetically, giving to the state the maximum of intelligent and faithful service.

Mr. Walton was born in Altoona, Pa., January 23, 1871, and received his education in the public schools of his native town and at the South Jersey Institute at Bridgetown, N. J., from which he graduated in 1891. He came to New Mexico in August of the same year and located at Deming, and the following year he purchased the "Deming Headlight," conducting this newspaper until 1898. In the meantime he studied law and was admitted to the bar in 1893, and in 1895 was ap-

pointed clerk of the District Court of the Third Judicial district, serving in that capacity until 1898. Mr. Walton removed from Deming to Silver City in 1895, and has since resided there. In 1898 he purchased the "Silver City Independent," Democratic in politics, and was actively in charge of the paper until 1903. He was elected and served as representative from the Thirteenth district in the Thirty-fourth Legislative Assembly, 1901; was a member and secretary of the board of managers of the Louisiana Purchase Exposition, 1903; served as Probate Clerk, Grant county, 1903 to 1907; delegate from New Mexico to the Democratic national convention in Denver, 1908; Democratic state chairman, 1910; elected and served as state senator from Grant county in the First and Second State Legislatures; member Board of Regents New Mexico Normal School, at Silver City, and president thereof for some years; chairman Grant county Democratic central committee from 1906 to 1916. Mr. Walton was married in 1893, and has three children. He is a member of the Silver City law firm of Wilson & Walton.

Care Of The Teeth.

A recent investigation made by the U. S. Public Health Service in connection with studies of rural school children showed that 49.3 per cent had defective teeth, 21.1 per cent had two or more missing teeth, and only 16.9 per cent had had dental attention. Over 14 per cent never used a tooth brush, 58.2 per cent used one occasionally and only 27.4 per cent used one daily. Defective teeth reduce physical efficiency. Dirty, suppurating, snaggle-toothed mouths are responsible for many cases of heart disease, rheumatism, and other chronic affections. The children are not responsible for the neglected state of their teeth. The ignorant and careless parent is to blame for this condition—a condition—deplorable which hampers mental and physical growth and puts a permanent handicap on our future citizens. School teachers can and are doing much in inculcating habits of personal cleanliness among school pupils.

Singing Convention.

Union District Singing Convention met at Locust Grove, Sunday Oct. 22, with great success, large attendance and a well spent day by all. The greater part of the entire day was spent by singing.

Next regular meeting will be at Farwell-Texico, January 25, 1917.

Remember the place and date. Prepare in due time for a most successful singing.

Enterprise Echoes.

Quite a number of people from this community attended the Union District Singing Convention at Locust Grove last Sunday.

The big frost and freeze last Thursday night found quite a bit of feed not cut and lots of it not matured on account of so much rain the past two or three weeks.

Rev. J. T. Lewis and daughter, Miss Grace spent Saturday night and Sunday, at Lincoln.

Ed Homan has sold his farm to a man from Oklahoma. The consideration was \$2,600 without the crop. Mr. Homan will not leave the country.

Mrs. J. K. Dunlap and Mrs. J. Holden visited with Mrs. D. M. Simmons, of Clovis, Saturday.

R. M. Hudson, of Texico, made the News office a fraternal visit Wednesday. Mr. Hudson is establishing the Texico-Farwell News and expects to get out his first paper this week. Mr. Hudson is a newspaper man of many years experience and the editor of the News had the pleasure of making his acquaintance several years ago while Mr. Hudson was editor of the Irving (Texas) Index.—Clovis News.

Home From Santa Fe.

Hon. L. C. Mersfelder and wife are here this week from Santa Fe where Mr. Mersfelder has been filling his position of State Director of Industrial Education. Mr. Mersfelder is democratic nominee for state senator from this district and will be home until after the election.

Advertising Costs Nothing.

Non-advertisers or indifferent advertisers make the claim sometimes that advertising costs too much. They regard it as an expense, something to be eliminated when times are tight or when they feel the need of cutting the corners in their business. Such have never looked upon advertising from the right angle. Advertisers cost nothing, for the reason that it more than pays for itself. The returns from advertising are many times greater than the outlay, bringing more trade, selling more goods and constantly increasing the demand. Hit-or-miss advertising, the kind produced by the advertiser who runs an advertisement in one issue and drops out for six, produces just in proportion to the amount of thought and money put in. It is like a carelessly made investment that brings returns as luck wills. The kind of advertising that brings the big results is that which is constant, steady and the result of system and logical thinking and planning. Advertisers who study and plan are always ready with their copy, and that copy is designed to command attention from the reader because it is thoughtfully and carefully prepared, and is a part of a general all-the-year campaign the advertiser is conducting. Such is the advertising that brings the big returns, as it contains an appeal resulting from a study of human nature.

A Good Speaker.

This section does not have to send off to the four corners of the country to get men to speak on national issues who can make convincing political speeches—this was thoroughly demonstrated at the regular meeting of the Woodrow Wilson Club last week when Judge J. D. Hamlin, of Farwell, addressed that body at its regular meeting.

Judge Hamlin said in part that this was a fight for the man and advised his hearers to ally themselves with either Hughes or Wilson as one of these men would be president. And right he is. We have the utmost respect for every man's political views but believe that this is a time when each man should stand strongly for the president if he can indorse what he has done for the country the past four years.

Many men who possibly contemplate voting the socialist or prohibition national tickets would consider it a near calamity for Hughes to be elected, and as Judge Hamlin says, the voting strength of one county in New Mexico might change the national ticket.—Clovis News.

Praises Our Efficient County Superintendent.

From the County Seat:
R. F. Asplund, who is connected with the New Mexico Tax Payers' Association, with headquarters at Santa Fe, was here this week in conference with County Superintendent Bickley in regard to school matters and gathering data in regard to the school apportionment budget of the county. Mr. Asplund complimented our county superintendent very highly and says that Curry county schools are run on a business-like and economical basis.

Wires Crossed Somewhere.

Mr. Bursum makes the statement, in an interview with the El Paso Herald, that he will carry Curry county for governor, week after next. If his other claims for election are as grossly inaccurate as his claims about Curry county, there will be a Republican nominee for governor most awfully licked at the battle of ballots on Nov. 7th.

FRIDAY, OCTOBER 27, 1916

Come to Texico-Farwell and live happily ever afterward.

The Plains country is teeming with prosperity and bright promise

Just a visit to Texico-Farwell—and a whiff of this pure plains air—determines the future home of the prospector.

Texico-Farwell is the phoenix of the Plains country. Well may others wonder—even quake—at the risen twin cities.

There is more building construction of permanent character under way in Texico-Farwell than in commercial Dallas Texas—in proportion to population.

Wheat farmers of Curry and Farmer counties are wearing smiles of the greatest satisfaction. The splendid rains of last week made certain another bumper crop.

Boosters smile, knockers frown, drones sit listless. Which are you? Be a booster for Texico-Farwell—meet strangers and greet them with a home like welcome.

TEXICO-FARWELL NEWS

Texico-Farwell News is not here to "fill a long-felt and yawning want." It is "here because it is here." Its promoters believe that in looking forward they see Texico-Farwell not as dormant twin villages, but as one thriving, pulsating commercial city of this great plains country. And it is the wish of its publishers to make the News a useful factor in the growth and development to the city of this favored location and this sun-kissed stock and agricultural broad acres of which Texico-Farwell is the polar magnet. He who looks upon the charm of this expanse and inhales its pure and vigor-giving atmosphere, is convinced—and sighs to dwell here. Isn't this sufficient apology for being here and plying the newspaper avocation? Anyway, that's all.

Texico-Farwell News will strive to impartially be a "newspaper," and solicits the co-operation of every citizen of Texico-Farwell and those of every community in Curry and Farmer counties. Its columns will be open alike to every church, fraternal order, social club, or public association for that which is of public interest. In short, the aim will be to render all the service that a newspaper can to all the people who constitute the citizenship of these counties.

Politically, the News will tend to Democracy, but it will liberally respect contrariety opinions. It is neither an "organ" in politics, or otherwise.

A WORD BUSINESS

Texico-Farwell News will be conducted as a business institution. It will endeavor to give value in service to Texico-Farwell for every dollar it receives in recompense. It will brook no subsidy, or "contribution" just to help the publishers; but they invite those interested in the upbuilding of these twin cities to extend such

patronage as they deem the News of service in this progress—or of value in reaching the citizenship of this area.

The advertising columns of a newspaper are its stock of trade, as much so as is the commercial stationery upon the shelves of its job department, and advertising space in the News columns is available to every legitimate business concern, without discrimination.

The News printing plant is one of the most complete in the plains country, and this office solicits printing orders of any size or character.

Respectfully,
R. M. HUDSON & SONS,
Owners and Publishers.

Every good citizen should be a politician. Take an interest in the coming election—vote the dictates of your best judgment, be it for democratic, republican or socialist government. The News editor believes the old democratic ship is safest.

Capitalists of Texico-Farwell should ponder and loosen up. Fifty houses could have been rented and as many families added to the population here the past ten days. Some are building their homes, some have taken to tents, and still others have passed on to other fields. Stop this waste, ye who can.

Texico-Farwell has caught the eye of far-a-way investors and homeseekers as the best located town of the Plains—with the brightest future of any. They are here every day inspecting and investing. A boosting pull together will make the two towns one great commercial and industrial city. Be a non-jealous booster.

Texico-Farwell is forging forward more rapidly than any other Plains city. There is a reason.

Texico-Farwell has the location and the foundation of enterprises laid to become a commercial center. Let the citizenship here unitedly push. And the altitude and climate is here most inviting for a city of homes. Lets tell the outside world about it. Send copies of the Texico-Farwell News to friends left behind.

Court House Construction

Excavation, foundation and other preparation work for real construction work on the Farmer County \$50,000,00 court house is being pushed along as rapidly as the weather conditions will permit and with the available force. And soon the brick laying will be begun. This is giving added impetus to the stir and activity of Farwell.

.. ..

Western Tire and Garage Company Plant Progressing

Realization of a factory plant in Texico-Farwell is drawing nearer and looking brighter—dispelling skepticism, and muffling the hammer of the pessimistic knocker. Not many months hence and the full dinner pail toasters will be happily engaged in this rubber plant. The large reservoir with one million gallons capacity for water is completed. The rubber storage and engine and hoisting cellars are concreted and cemented; the concrete work on the general walls is completed to the height of four feet, and the brick laying on these will be started next Monday. The wall inclosing this section of the first unit of the plant is 120 x 250 feet, and will be 16 feet tall.

cement foundation is completed and after a few days seasoning the brick laying will begin. This building will be 30 x 115 feet. The building was begun as a one story building, but the builders have under advisement the change to a two-story. A large basement will furnish storage room and be equipped with heating apparatus—either steam or hot air. The structure will have face finish of red Coffeeville brick. This adds attractive appearance to this corner.

Farwell Inn Growing in Popularity.

Since its recent opening to the public with its splendid modern appointments and service, and under the management of the genial and trained hotel man, Capt. H. W. Herndon, the Farwell Inn has gained high favor with the traveling public and home appreciatives. Its forty rooms, with steam heat, private bath, and all comforts, are taxed to capacity most of time. And the cuisine pleases the particular epicurean. The register shows visitors here from widely separated points of the state and nation—some on business, many prospecting. The R. H. Kemp Lumber Co., recently established at Texico-Farwell, are enlarging their yards and storage facilities for big business at this place. This is to become their head yard and general distributing point for the western plains of Texas and the eastern plains of New Mexico. This is another link in the progress of Texico-Farwell, and shows that the business eye is turned to these twin cities.

Mrs. M. A. Jenkins has been here since Texico was put on the map. And she has conducted the Jenkins Hotel in such pleasing manner to patrons as to win and retain popularity. The real home cooking served here reaches the tender and yielding nature of man as no other catering will. For the past three weeks this hotel has been crowded to its limit in rooms; and the table has fed from 20 to 40 each meal.

SUFFRAGISTS CERTAIN OF DEMOCRATS' HELP

Leaders Resent Efforts to Turn the Cause into an Adjunct of Republican Party.

WON OVER BY PRESIDENT

Have Come Here to Fight WITH YOU," He Tells Them—"Wilson Voted for Suffrage; Has Hughes?" Asked One.

Western women who have had the ballot equally with the men for several years resent the interference of one of the factions of suffragists and the attempt to turn the suffrage cause into an adjunct of the Republican party. They believe they know how to vote without being told by women who never had the vote; and they refuse to turn against the Democrats who have done so much for their cause in their respective states.

This attitude is brought out clearly in an interview by Nikola Greeley-Smith, nationally prominent as a writer on the staff of the New York World, with Mrs. Alexander Thompson, Democratic National Committee-man from Oregon, and Mrs. Theresa M. Graham of Coeur d'Alene, Idaho.

"One would think," observed Mrs. Thompson to Miss Greeley-Smith, "that if any instruction in suffrage matters had to be given it would come from the women who have won the vote and do vote rather than from Suffragists in the East who are still disfranchised. I am a young woman, but I have been through three campaigns for the vote in Oregon. In the final campaign we won through the co-operation and help and belief in us of the men of Oregon.

Aided by Democrats.

"We have been voting only five years and we are still grateful to our men. So, when the Congressional Union sent speakers to Oregon to tell us to vote against all Democrats we laughed at them. Why, at the last election they campaigned against George E. Chamberlain, who introduced the first Suffrage bill in Oregon and who had been the friend of the women all through their fifteen years' fight.

"I agree with every word that Mrs. Thompson has spoken," declared Mrs. Graham. "The conditions in my State are the same as in Oregon, except that we have had the vote for twenty years, and it was given to us without our having to fight for it. The Congressional Union has speakers in Idaho now urging us to slaughter the Democrats and free our sisters in the East. How silly that is! Are women in the East so foolish as to be led away by the mere declaration of a candidate, unsupported by his party, that he's personally in favor of a Federal amendment? Woodrow Wilson voted for Suffrage. Has Charles E. Hughes ever voted for Suffrage? Wilson has done everything consistent with a belief in State rights, one of the fundamental principles of Democracy. Suffrage can never win as a partisan issue. Alienate the Democrats en masse and you have killed every chance Suffrage has."

Won by Wilson's Speech.

It is admitted by practically all suffragists that their cause has been helped greatly by the speech President Wilson made before the convention of the National Woman's Suffrage Association at Atlantic City recently, on Sept. 8th. When the President told them he had "come here to fight with you" the 4000 suffragists gathered in Nixon's Theatre arose and cheered him enthusiastically.

This pledge by the President led Mrs. Carrie Chapman Catt, president of the association, to say:

"You touched our hearts and won our fealty when you said you had come here to fight with us."

"The astonishing thing about this movement," said President Wilson, "is not that it has grown so slowly, but that it has grown so rapidly. . . . I get a little impatient sometimes about the discussion of the channels and methods by which it is to prevail. It is going to prevail, and that is a very superficial and ignorant view of it which attributes it to mere social unrest. It is not merely because the women are discontented, it is because the women have seen visions of duty, and that is something which we not only cannot resist, but, if we be true Americans, we do not wish to resist."

"I have felt as I sat here tonight the wholesome contagion of the occasion. Almost every other time that I ever visited Atlantic City I came to fight somebody. I hardly know how to conduct myself when I have not come to fight somebody, but with somebody.

"I have come to suggest, among other things, that when the forces of nature are steadily working and the tide is rising to meet the moon, you need not be afraid that it will not come to its flood. We feel the tide; we rejoice in the strength of it."

On every hand we hear the statement that the democratic nominees for county office are among the most competent and efficient that have ever been nominated in the county. That they will all be elected, of course, is a forgone conclusion, but now let's see how big a majority can be rolled up for each nominee.—Clovis News.

LOOKS ENCOURAGING FOR A BIG VICTORY

Hon. Harry L. Patton, candidate for attorney general on the Democratic ticket, spent Saturday at his home at Clovis.

In a talk with the News man Mr. Patton said that he had covered most of the state during the past few weeks and things sure looked to him like a democratic victory for the entire state ticket. On every hand, he said, he had not only received encouragement in regard to his own candidacy, but voters were flocking to the support of the other state nominees and to the national ticket. Mr. Patton will be a busy man during the remaining days of the campaign, and left again the first of the week to resume his speech-making tour.—Clovis News.

Halloween at Farwell School

Friday night the children of the Farwell school, under the supervision of Prof. White, participated in a Halloween festival. A small charge was made for the benefit of the Farwell High School Library.

The school house, the walls of which were a mass of black cats and pumpkins, was filled to overflowing with people. Ghosts and witches were on every hand.

A fishing pond was a drawing side attraction. Fortune-telling booths were entered by many who wished their future fate made known to them. Bluebeard's wives were among the witching attractions of the evening.
