Mr. Don Hayes, band director for the Littlefield schools, in presenting a part of the program, told the group of members present that Littlefield has one of the largest band programs in the state for the size of school. There are over 400 band students in the school system. There are five bands beginning with the 6th grade beginner's band.

General objectives of the band program are to make music a vital part of the educative process. The emphasis is placed upon education through music rather than in music; and secondly, to help develop a clear thinking American citizen through self-discipline, proper sense of values, good work habits, responsibility, cooperation, proper competitive spirit, leadership, fellowship, and participation in the social experiences afforded.

Several students in the 6th grade band demonstrated various types of instruments the beginners use. There are 80 in the 6th grade band. The band group played two selections.

Forrest Martin, Junior High principal, spoke on what the parents and students could expect when they enter the seventh grade. He pointed out that the teaching is more specialized, and they would have several teachers instead of one or two. He said it is his and the school's goal to keep the academic standards high in the school system.

He explained to the parents the 7th grade requirements, what subjects are required and what subjects are electives. In order to encourage students to make good grades, honor certificates are presented each year at the honor festival in conjunction with the high school.

Teachers winning the plaques for having the most parents present were Mrs. Loda Hardin from the Primary School and Mrs. Nell Taylor from the Elementary School.

The newly elected officers will be installed at the next meeting on May 4th. Coffee and donuts were served by the hospitality committee.

craft bases. "The important thing is that we keep our defense perimeter as far away as possible."

He echoed Senator Goldwater's recent charge that the Democratic administration has not developed any new military weapons and sharply criticized of for what, he charged, was lack of a get tough attitude in world affairs.

"The brinkmanship of John Foster Dulles was a better world course," he declared. In response to another question of "Do we need a civil rights program?" the senator affirmed "I don't think we do, and let me add that I am a segregationist."

He expects perhaps six weeks of debate on the present civil rights program before the Senate -- and for which Sen. Tower blamed the administration -- and passage of it with perhaps a watering down of the fair employment features.

He also expects the public accommodations section to stay in the civil rights bill, "perhaps with some watering down."

President Johnson does not need to negotiate with Panama over the Panama Canal, he declared strongly, adding that Panama "was created by President Roosevelt . . . Theodore Roosevelt, that is," and that the economy of Panama depends largely on U.S. expenditures and support.

He holds negotiation with the Panamanians unnecessary and sees no analogy in the Suez Canal situation of 1956 and the Panama Canal dispute of 1964, the senator said in answer to questioning.

Sen. Tower ended his session with an appeal to "all Republicans" to vote in their own primary on May 2, to voice a choice for the presidential candidate and their candidate for senator.

Tower was introduced by Ray Keeling of Littlefield. The senator was traveling in company with Dr. Milton S. Davis of Dallas, one of four Republican candidates for U.S. Senator in the May 2 first primary.

CHEVY II by Chevrolet

How to get away from it all including the high cost of travel!

If you're looking for a way to get the whole family there and back on a small vacation budget, this is the station wagon that can do it. You see, a Chevy II is one of the most inexpensive wagons you can own. It goes so many miles between gas stops you'll think we built in a spare tank. Garage stops, too, are far, far apart. And you get 76 cu. ft. of cargo space for less money than you'd expect to pay for most sedans. Big enough to handle fat rowboats and tall fishing poles. Powerful enough to tote fully loaded trailers. And all Chevy II's come with Chevrolet's money-saving, easy-care features. Like Body by Fisher, rust-resisting flush-and-dry rocker panels, battery-

saving Delcotron generator and self-adjusting brakes. Besides wagons, of course, there are Chevy II sedans and coupes. The Super Sport Coupe comes with a wide range of engines, bucket seats, door-to-door carpeting and either an extra-cost floor-mounted Powerglide or 4-speed transmission. So although Chevy II's are economical to buy and own, they certainly don't look it. And now that it's Trade 'N' Travel Time at your Chevrolet dealer's, you'll never find a better time to look into Chevy II. Look under its hood. Slam its solid doors. Bounce on its thickly padded foam-cushioned seats. But above all else--try it on the highway. It'll give you a good run for your money.

JIM LANGDON
Texas Crude Sales Bright, Langdon Says

STILL—Texas crude oil is selling for more than any year since the crisis in 1957, Railroad Commissioner Jim Langdon re-

Langdon said this should be some news to the people of Texas because the Texas oil and dollar pays for 42 per cent of the state's cost of public education, and almost 60 per cent of the state's cost of teacher retirement, old-age assistance, and assistance and aid to dependent children.

Langdon stated that oil production is up three per cent over the previous year, and "an even more encouraging" jump is expected for 1964.

Langdon said the fact that the petroleum industry was in a healthy state after more than half a century of intensive development could be laid to two factors: (1) There was a lot of oil to begin with; and (2) it has not been wasted promiscuously.

Langdon is the newest member of the Railroad Commission, having been appointed in the spring. Now he is seeking voters' approval to serve the remaining four years of a year term. He resigned as district judge for West Texas counties. While on the bench and as a practicing attorney in a large oil producing area, he gained vast knowledge of the oil and gas business, as well as transportation matters, which the commission regulates.

THE SOCIALISTS' OMNIBUS BILL OF 1963 NOW BEFORE THE SENATE

The American people are being set up for a blow that would destroy their right to determine for themselves how they will live.

What is being piously presented as a humane effort to redress past wrongs—the "Civil Rights" bill—is, in fact, a cynical design to make even the least of us, black and white alike, subject to the whim and caprice of government bureaucrats.

Unless American workers, farmers, business and professional men, teachers, homeowners, every citizen awakens now, harsh Federal controls will reach into our homes, jobs, businesses, and schools, into our local and State elections, and into our municipal and State governments.

\$100 BILLION BLACKJACK

You should know, through this bill you are to be struck by a \$100 Billion Blackjack—almost the total Federal budget. Your tax money is to be used as a weapon against you.

That is the meaning of the Civil Rights bill:

- (1) It would amend every Federal law (hundreds of them) that deals with financing so that each Federal department or agency could make its own regulations to manipulate Federal funds: Each Federal department or agency would define for itself what is "discrimination" and apply its own penalties (Sec. 601-602).
- (2) It would empower Federal political appointees—through the use of the blacklist, cancellation of contracts, foreclosure, and other punitive means—to use almost \$100 billion a year to force our people to knuckle under to Executive dictation (Secs. 601-602).

You should know this.

TOTAL FEDERAL CONTROL

The bill now pending in the United States Senate would

- (a) Allow people to be jailed without trial by jury (Titles I, II, III, IV, and VII).

It would

- (b) Allow the government to hold Star Chamber sessions and to imprison those who disclose, without permission, what went on behind its closed doors (Sec. 501).

It would

- (c) Deny an individual the right to freely seek employment without Federal interference as to race or religion—it would deny this right (Titles VI and VII).

It would

- (d) Deny the employer the right to hire, fire, promote and demote without Federal interference as to race or religion—it would deny this right (Titles VI and VII).

It would

- (e) Deny to School Boards (public and private) and to colleges the right to determine, unhampered by the Federal government, how their students and teaching staffs should be handled—it would deny this right (Titles IV, VI and VII).

It would

- (f) Take from local and State officials their right, without Federal interference To handle local and State elections (Title I); To regulate local parks, swimming pools and other recreational facilities (Title II); To regulate hotels, restaurants, motion-picture houses, stadiums, etc. (Title III); and To regulate employment practices (Titles VI and VII).

THE MYSTERY WORD: "DISCRIMINATION"

The bill now pending in the United States Senate would:

- (a) Allow each Federal department and agency to determine for itself what is and what is not "discrimination" (Titles V, VI, and VII)—the bill, itself, does not define the word.
- (b) Allow each Federal department and agency to determine for itself what is and what is not "race" and "religion" (Titles IV, V, VI and VII)—the bill, itself, does not define either word.

Therefore, there would be no uniformity of interpretation. What might be classified as a "discriminatory practice" by one agency, might not be so classified by another agency.

OMNIPOTENT PRESIDENT

And always—if this bill becomes law—there will be the Omnipotent President or his appointees to rule, thumbs up, thumbs down. Sometimes, yes. Sometimes, no.

Only a Dictator has such prerogatives.

It follows, then, under the Socialists' Omnibus Bill—misnamed the Civil Rights Bill—those who enjoy political favor may expect political favors. Others may expect something else.

Such is the significance of the bill now pending in the United States Senate: It would establish the Rule of Man and abolish the Rule of Law.

Six members of the House Committee on the Judiciary, each an attorney and each an expert in this sort of legislation, have said: "The reported bill is not a 'moderate' bill and it has not been 'watered down'. It constitutes the greatest grasp for executive power conceived in the 20th Century."

If you wish this bill defeated, you can defeat it: Write your Senators, both of them. Write them, now, today, and tell them you oppose it. Tell them why.

There is no other way. If you want this bill stopped, write your Senators, now, and tell them so.

Two sheets of this ad, suitable for reproduction in other newspapers, may be had upon request.

DICTATORIAL ATTORNEY GENERAL

This bill would make the Attorney General a virtual dictator of America's manners and morals. It would grant him unprecedented authority to file suits against property owners, plain citizens and State and local officials, even though the supposed grievant has not filed suit. The Attorney General would become the grievant's lawyer at the taxpayers' expense. The bill grants to the Attorney General—

- (1) The unprecedented power to shop around for a judge he prefers to hear a voting suit (Title I).
- (2) The right to sue an owner of public accommodations before the owner is accused of a "discriminatory practice" (Title II).
- (3) To sue State or local officials concerning public facilities, without an individual having filed suit (Title III).
- (4) To sue local school boards, although no suit has been filed by any school child or other person (Title IV).

Last fall, when broad authority to sue in Civil Rights matters was first proposed, the Attorney General said: "Obviously the proposed Federal executive authority into some areas which are not its legitimate concern and vests the Attorney General with broad discretion in matters of great political and social concern." This bill falls within that condemnation.

Whitharral Exes Hold 17th Banquet

WHITHARRAL—James Davison named as new president, the annual scholarship was presented to highlight the 17th Whitharral Ex-Students banquet here Saturday night. More than 125 exes, guests and teachers met in the new cafeteria for the get-together. J.B. Harbin presided and announced that Carroll Sexton was this year's recipient of \$50 scholarship to the most promising senior.

A gift was also presented to Veva May Anderson as the best teacher present, and went to Mrs. Lillie Thetford and Robert Avery as the best graduates.

Johnson, president of the board welcomed the guests and the invocation was given by Rev. Langford. Mrs. Rob Wright presented a trio of young Lovelland girls in a program of comedy skits.

Arrangements of orchid and flowers decorated the banquet, which was served by Sandra Gage, Lynn Timmins, Velma Skiland, Sharron Wade and this Dukatnik.

Officers elected include president; Rafe Rodgers, vice president, and Mrs. Gene Williams, secretary. Committees named for the meeting, scheduled the last day in March, were: — Mrs. Becky Keeney Mc-

Gregor, Mrs. Bobbie Butler and Mrs. Joy Oden Hicks; program — Mr. and Mrs. Ralph Wade, Mr. and Mrs. Bob Crank and Mr. and Mrs. George Wade Jr.; invitations — Mr. and Mrs. Norman Thetford, Mr. and Mrs. Kenneth Polk, Mr. and Mrs. Loy Lewis, Mr. and Mrs. Leslie Hulse; moving tables — Ervin Sadler, Robert Avery, Don Redding; decorations — Mrs. Billy Williams, Mrs. Bobby Grant and Mrs. Harry Williams; advertising — John R. Davis; copy Grant and Don Avery.

Mrs. Boyce Anderson and Ervin Sadler were named as new directors.

the rate of payment for land owners whose property is being crossed by the pipeline and along whose property the line passes in the road.

Finally, on questioning by Feagley, one of the condemnation board, as to "what damages you feel right, ice?" Cummings asked for \$5 a rod for the 168 rods the pipeline will run in front of his labor of land. This would have come to \$840.

Cummings made the point through Harrison that most land owners along the roadway — which the pipeline travels for perhaps 10 miles — were receiving either \$160 cash payment for each labor of a water tap into the line and a water meter for service to their homes.

The tap and meter would be equivalent to \$160 in cash, Harrison said.

He agreed, however, that on one labor that two owners the city had paid each of the owners \$160 and, additionally, had a tap built into the line along each half of the labor although the owners have not indicated any desire for the city water.

Having the taps built into the pipe sections in advance is substantially cheaper than breaking the pipe later to insert a tap, the city manager added. For this reason, the city council decided to provide the pipe entry "should it someday be wanted by the land owner."

But a land owner who ties on to the line later will be charged \$160, Harrison pointed out.

Councilman B.D. Garland was a witness late in the hearing and was quizzed on the method by which the council arrived at right-of-way offers to land owners.

The condemnation board apparently based their figure for Cummings on the payment for the divided labor.

Ice and Winston Cummings have two labors facing along the north-south road. Ice Cummings sought damages only to the west labor, which fronts on the side along which the pipeline will be laid in the roadway or bar ditch.

the term of Chester Jones expired at Anton, but he is not seeking reelection.

Two terms expire at Whitharral and five candidates, including one incumbent, have filed for election there. Rafe Rodgers seeks reelection while Driscoll Bryant, Clinton Fagan, B.E. Hayes and Clifford Williams are also seeking one of the posts. Robert Strickland is not running again. Voting will be in the Lions Club building.

On the countywide level, George E. Bohner is unopposed in precinct 1, and incumbent Drew Watkins is the only candidate in precinct 4. Voters in these precincts will also ballot for the county trustee posts.
