## Littlefield Will Stage City-Wide Dollar Day Monday

**Many Concerns Are Offering Special Prices**

**May Hold Event Each Month On First Monday**

Several of Littlefield's leading business concerns are co-operating in putting on a city-wide dollar day in Littlefield Monday.

Fourteen of the concerns are offering many dollar specials for the day and are advertised in this week's issue of the Leader. It is likely that the first Monday of each month will be observed as dollar day in Littlefield throughout the remainder of the summer.

Those concerns co-operating in the affair are:

Cuenod's Dry Goods Store, Ellis & Ward Dry Goods Company, Cobb's Department Store, Higginbotham Bartlett Company, Modern Beauty Salon, W. M. Cameron Lumber company, Jack Henry Tailor Shop, Evina Dry Cleaning, Littlefield Tailor Shop, James Courtney Tailor Shop, Farmers Produce and Grocery, Bob & Will Grocery, Camp Dixie, Jones Bros. Motor Company, and the Lamb County Leader.

**QUALIFYING IN GOLF TOURNAMENT IS COMPLETED**

**FIRST CONTEST WILL BE COMPLETED SUNDAY**

Qualifying rounds for the Littlefield Golf Club tournament were completed Sunday afternoon and the matches are to begin at once with the first match being completed not later than Sunday afternoon.

Bob Badger, professional of the local club, requested that results of all matches be turned in to C. H. Grow not later than Sunday night in order that the other matches might get under way at once. Four weeks will be required to complete the tournament, it was said.

Following are the pairings for the first matches:

M. M. Brittan vs. Chas. Glenn, Bob McCaskill vs. Ross Mayhew, J. H. Ware vs. Jim Bartlett, Pryor Hammons vs. Carl Arnold, C. H. Grow vs. Bud Estes, Dick Johnson vs. S. B. Phillips, Clyde Barron vs. L. W. Dobbs, Bob Bigham vs. S. T. Hodges.

High cooking temperatures make cheese tough and less easily digested, so always avoid spreading it on the top of baked dishes where it is subjected to greater heat than when it is mixed with the food. Cheese is a concentrated food and consequently it is best served with bread or other cereals accompanied by tomatoes, lettuce, spinach, or fruit.

Beautiful trees are to be found all over our city. Many have been grown in just a few years. The A. P. Duggan home has a wealth of trees, the oldest of which is only fifteen years, also the E. G. Courtney property have many varieties of trees adaptable to this section of the country.

Let's plant trees, and let's make Littlefield our home town, the most beautiful town on the South Plains.

### PROCLAMATION

WHEREAS, Saturday, the Fourth of July marks the one hundred and fifty-fifth anniversary of the Declaration of Independence; and

WHEREAS, this day is a reminder of the struggle and sacrifice made by our forefathers in order that we might enjoy personal liberties; and

WHEREAS, this day is celebrated throughout this great Republic, not to boast of our strength, but to display patriotism and in memory of those who gave their all in order that we might live on in peace;

NOW, THEREFORE, I, T. S. Sales, Mayor of the city of Littlefield, Texas, do hereby proclaim the 4th of July, 1931, a legal holiday in the city of Littlefield.

Given under my hand and seal of office, this the 2nd day of July, A. D., 1931.

T. S. SALES, Mayor of Littlefield.

### HEARING ON HOSPITAL PROPERTY TO BE HELD IN LUBBOCK JULY 27; PLANS FOR MODERN HOSPITAL PROGRESSING

A hearing will be held before W. D. Girard, of Lubbock, federal referee in bankruptcy, July 27, on a \$7,500 note held against the Littlefield college property which a citizens' committee of Littlefield contemplate converting into a modern hospital.

Local business men, with C. O. Stone acting as trustee for the body, recently paid off a \$1,525 note against the property. Following the hearing before referee in bankruptcy, it is believed that the affair can be settled and a clear title be given the city on the property.

The tract which is involved in the plans of the hospital committee includes 68 acres of agricultural land and a campus tract together with improvements.

The committee is now negotiating with parties in an attempt to sell ten acres of the land and all improvements to erect a modern hospital.

To seek shelter under an oak tree during a thunder storm is almost as dangerous as to search for gasoline with a lighted match. Of all trees, the oak is most susceptible to lightning.

### EXCEPTIONS SENT TO T. P. OFFICIALS ON REPORT TO ICC

**OFFICIALS CONFIDENT ENTIRE ROUTE WILL BE APPROVED**

Opposing Examiner Weed's recommendation to Interstate Commerce Commission, which is accepted, would exclude Littlefield from the proposed Texas and Pacific North on railroad in to the Panhandle section of Texas, the Littlefield chamber of commerce has wired exceptions to officials of the Texas and Pacific railroad company and to D. A. Bandeen, manager of the West Texas chamber of commerce.

The railroad officials' reply to Littlefield's exceptions, indicated that the company was as confident as ever that the commission would grant permission to build over the entire 333 miles proposed route which would include Littlefield.

The part of the proposed route approved by the Examiner to the commission includes a line from Big Spring to Brownfield and from Lubbock Junction to Lubbock. The remainder of the route which includes Littlefield and disapproved by the examiner, would operate from Brownfield to two miles beyond Vega and from Dimmitt to Amarillo, and consists of approximately 207 miles.

Exceptions will be filed by Texas and Pacific attorneys, to the examiner's recommendation to the commission, it was said. Twenty days are allowed in which to file the exceptions.

### Local Unit Urges Large Attendance At Health Conference Monday and Tuesday

#### Material For New Depot Here; Actual Work Is Underway

Actual construction on the new depot got under way Monday last, when eight cars of lumber, gravel and sand were unloaded at the location.

According to H. C. Pumphrey, Santa Fe agent, it is the plan of D. N. Leaverton, the contractor, to work the men in shifts, so that all the men needing work in this district will at least get part time employment.

Mr. Borden, building inspector for the Santa Fe of Amarillo, is expected in Littlefield this week to supervise the building for the railroad company.

Mr. and Mrs. Flo Curry of Plainview spent Sunday in the home of Mrs. T. Wade Potter.

Parents throughout the Littlefield section are being urged to bring their children six years of age or younger, to the health conference to be held at the Littlefield high school building, Monday and Tuesday of next week, according to announcement made by Mrs. C. O. Stone, chairman of the local health unit.

Free physical examinations will be given all of the children brought to the conference during these two days and those found needing treatment or operations will be taken care of at a meeting of the clinic at a later date, with no charge to the patient.

The examinations will be made by Miss Evelyn Richter, district nurse, who will be assisted by the various doctors of the city.

Both morning and afternoon sessions will be held from 2:00 until 5:00.

Special hours have been arranged for the various doctors of the city. Drs. J. R. Coen, T. B. Duke, D. T. Jordan and C. C. Clements are sched-

### Bumper Crops Predicted For This Section

**Wednesday Night's Rainfall Averages Three-Fourths Inch Over County**

Following light showers throughout the South Plains during the early part of the week, a rain estimated at ranging from one-half to one inch covered the majority of Lamb county last night.

Up until ten o'clock, Wednesday night, Pep, 16 miles southwest of Littlefield, reported no rain. The other sections of Lamb county, with the exceptions of a few scattered spots report from three-fourths to an inch of rain, Olton reporting the heaviest with approximately one inch of rain Wednesday night. Lubbock reported no rain Wednesday night. However, they received light showers during the early part of the week.

R. T. Badger, of the Yellow House Land company after going over most of the company's lands Wednesday, stated that all crops were in excellent condition. Even during the heat of the day the cotton failed to show signs of need of rain, he said.

According to Mr. Badger's belief, with one or two more general rains in the next two weeks, the Littlefield section will be assured of a bumper crop.

### LOCAL STUDY CLUB PLANS CITY-WIDE FLOWER SHOW

#### INTEREST IN YARD AND GARDEN CONTEST GROWING

Plans for a city-wide flower show are being contemplated by the Yard and garden contest committee of the Littlefield Woman's Study club.

No definite action has as yet been taken on the project; however, should present plans now being discussed by the committee materialize it is likely that the show will be staged during the late summer or early fall.

Favorable comment is being received on the results of the yard and garden contest sponsored by the man's Study club, and much interest is being created even by residents participating in the contest, members of the contest committee reported.

Closing date of the contest has not been announced by the committee but it will likely continue in the middle of September rather than the first of the month as last year.

Aiding in beautifying of the park, weeds were cut around the section of the park near the study club.

### Good Progress being Made On W. J. Chesher Brick Tile Building

### THINK

do you think?

BY M. B. D.

Think that H. C. Pumphrey is as good a trader as can be found among any horse men in the country. Reports are that two years ago when Clay bought his place from John Stehlik that there were five milk goats on the place, which nobody seemed to want, and which Clay after doing his darndest to convince the seller that they weren't worth much, bought them for \$5.00. Just like taking milk from a baby — this trader walked over to H. C. Arnold and traded the goats in on a Ford, which he afterwards sold for \$75.00. Of course, we haven't heard just how much Carl derived from the goats, but we have to hand it to Clay. We think somewhere back in his career he must have been a horse and mule trader before taking up railroad work.

### MORE FLOWERS FOR THE LIVING

We think we are receiving splendid cooperation from the Littlefield residents in the furnishing of news items to the Leader which is much appreciated. We are endeavoring at all times to furnish the public with as much news as possible, and to do so by the public in sending and bringing us news has helped us considerably. We have noticed this interest growing, and the number bringing and phoning us news is increasing all the time — We thank you — Folks!

Our citizenship appreciate this fact and worthy mention should be made of any we have not room to mention here. ## GOOD NEWS

Good news is a word fitly spoken. It has value beyond that of gold and precious stones. The power of good news is as evident as the air we breathe, as necessary as meat and potatoes, and is as nourishing.

A word of approval, a smile of appreciation, and simple praise releases within us something briskly regenerative which kindles to flame the smouldering fires of ambition and aspiration. It is as though a weight has been taken from one's back.

Reality springs from the hard core of the impossible. Real accomplishments in this world have been inspired by the voice of a silver trumpet sounding good news.

Have you such a word for us? You, our friends and neighbors, have you a good word for us who are struggling to do a day's work well before the sun goes down? Say something to hearten us. Give us the word that will set us afire with resolution to do better and to go farther than ever before.

Be generous, spread your good news far and wide so that none within the sound of your voice will go untouched, uncomfited. Sing us a song of the first robin of spring delayed. Speak to us of the good we have done aforesaid, and prophesy of the great things we are to do by and by. Feed us with faith and arm us with courage, and we will go out and accomplish the impossible, and return singing songs of praise for the sustaining strength of your good news.

Be a harbinger of good news. Forget the bad news. Many of us are too conscious of our earth-bound condition. It is ever present, weighing us down. Doubt and fear have tied clogs to our feet. Ignorance and misunderstanding have laid heavy burdens upon our backs.

We look to you who know us, who work beside us, sharing the fortune of the day, to speak good news while our ears may still hear. Speak and set wings to our heels. Our great need is the words that tear away the leaden sky and let the stars shine.

Could you perform a greater service than this? Is there a higher calling than that of trumpeter of good news? Great is he who hews out the way, but greater still to the hearts of men is he who whispers the right word of inspiration and courage. Every good deed, every worthy action, every pleasant thought that has graced and blessed the world, has been born of the good news that some shining soul passed along the line.

When you start out tomorrow morning, try to see how much good news you can pass along, and the help you give your fellow men, will help you. —Senator J. V. Weber, Herald, Slayton, Minnesota.

## "UNFAITHFUL," RUTH CHATTERTON'S LATEST PICTURE, OPENS AT PALACE WITH SATURDAY NIGHT PREVIEW

"Unfaithful," written by the popular playwright, John Van Druten, starring Ruth Chatterton, will open with a midnight preview at the Palace Theatre Saturday night and run Sunday, Monday and Tuesday. This amazing story of a woman forced to choose between love and reputation, takes every advantage of Chatterton's blazing genius to put across an emotional, shock-punch, such as even Chatterton has seldom equalled.

"Unfaithful," the story, was written especially for Chatterton by John Van Druten, the English playwright whose "Young Woodley" won him fame and a first prize on the New York stage. Into the story, Van Druten has injected an action series of a worthy of Chatterton's power.

She is the centerpiece of a brilliant whirl, Ruth Chatterton is seen in a glamorous setting, in gorgeous clothes, a woman madly in love with the hero-husband fate has given her, assured in her position. All the more surprising is the transformation into a startling incident works in this beautiful heroine. Disillusioned in love, with her ideals smashed, she is helpless to free herself of the fetters of a marriage which has become intolerable.

## "A RIGHT TO BE CHESTY"

Then as the scandal-daring and reckless woman of the world, Chatterton truly reveals her unequalled power of portrayal. Rash living, foolish-loving, this aristocratic girl touches the heights and depths of a thrill-mad society. At the heights she meets Paul Lukas to give her a new faith and add a new meaning to her life. How they, together, work out her salvation is the absorbing story "Unfaithful" reveals.

"Unfaithful" is the third Chatterton starring vehicle in which Lukas has played the leading male role. He was seen in "Anybody's Woman" and "The Right to Love" so advantageously, and played his difficult roles with such skill that a popular demand gave him this third opportunity to play with Chatterton. John Cromwell, who has been making a series of smashing hits, "Street of Chance," "For the Defense," "Scandal Sheet," during the past year, directed Chatterton for the first time in "Unfaithful." The brilliant star and virile director have made a picture of sustained power.

In addition to Chatterton and Lukas, the cast includes Paul Cavanagh, seen as the erring husband, who played important roles in such pictures as "The Devil to Pay," "Grumpy," "The Storm" and "The Virtuous Sin."

Hoax—"Doesn't Jim the barber have a serious face?"  
Joax—"Well, looking in the mirror at it so often you could hardly expect him to enjoy it."

### ONION DISEASES

In a publication on onion diseases and their control, the U. S. Department of Agriculture says the vegetable grower can control onion smut by applying formaldehyde solution (1 pint to 16 gallons at the rate of 200 gallons an acre or 1 quart to 16 gallons at the rate of 100 gallons an acre) by a drip attachment on the seeder. Control blight, the department advises, by avoiding excessive soil moisture, by crop rotation, and by thorough cultivation. Spraying should be done early and thoroughly. Reduce pink root by avoiding diseased soil, especially for seed beds, and rotate onions with other crops. Fusarium rot can be controlled by crop rotation or abandonment for a time of old onion soils. Sort out diseased bulbs at harvest. To keep white rot from spreading, steam sterilize infected areas and don't use bulbs from diseased soil for propagation. Care of the crop during harvest and curing are the chief control measures for neck rot. Sanitation, sorting out of diseased bulbs at harvest, protection from rain after harvest, thorough curing, and storage in a dry, well-ventilated place at 35 degrees F. lessen storage disease, says the department. You can get the publication, Farmers' Bulletin 1060-F revised, from the Department of Agriculture, Washington, D. C.

FIRST BAPTIST LADIES HAVE BUSINESS MEETING

All circles of our W. M. U. met Monday afternoon June 22, in the ladies class room, First Baptist Church, for a business session and devotional hour. Mrs. Hathman gave a very inspirational talk on "Stewardship," which was greatly enjoyed by all present. We are sure that each lady who had the pleasure of hearing this wonderful appeal (and they were many) silently reconsecrated their every talent to the service of the master. The keynote of the evening program was service, loyally and gladly rendered, whenever and wherever we may honor our Saviour or promote his cause.

WEATHER WISDOM

A shrinking ring around the moon indicates rain. Bright and unusual colors at sunset and hard, sharply outlined clouds bring rain and often wind.

Red sky at morning, the shepherd takes warning.

If the sun goes down cloudy Friday, sure of a clear Sunday.

If a rooster crows standing on a fence or high place, it will not clear. If on the ground, it does not count.

PECAN TREE IS WORTH \$5,000 There is a pecan tree in Gonzales county which is valued at \$5,000. The tree is not over-valued, for it returns annually a good rate of interest on that sum.

It yields a greater sum than many realize from 100 acres of cotton. This tree is probably 200 years old and has been producing an abundant yield of nuts from generation to generation, ever on the increase. — Plains Progress.

month of June... to H. B. Hatch, Chevrolet... zone manager.

"Detroit registrations during the first ten days of this month show an increase of 128 per cent over the same ten days of last", Mr. Hatch said.

"Dealers' reports, substantiated by a careful survey of conditions, indicate that Chevrolet business in this city during the past month will exceed the sales of June, 1930, by one hundred per cent."

Although sales last month in Detroit show an expected slight recession from the sales of May, there has been no pronounced and abrupt decline such as marked the early part of June, 1930.

Sales in other communities, throughout the Detroit zone have maintained a proportionate satisfactory volume, Mr. Hatch reported.

Money Prizes Will Be Awarded Winners South Plains Fair

One thousand two hundred dollars in cash will be awarded to winners in the county exhibit class at the Panhandle South Plains Fair this year at Lubbock, Sept. 28 to Oct. 3, inclusive.

The winner of first place will be awarded two hundred dollars. Second place gets \$175, third \$150, fourth \$125, fifth \$100 and sixth \$75.

The winners of seventh, eighth, ninth and tenth places will receive fifty dollars each and other winners will receive twenty-five dollars.

"There is a prize for every exhibitor in this class," A. B. Davis, manager of the fair says. "These premiums will more than take care of the expense of placing the exhibit here if the matter is handled in an efficient manner."

The Dodson's world's fair shows, one of the largest carnival shows in the South has been contracted for the fair. The carnival will be the largest that has ever played on the South Plains. It has thirty shows, sixteen rides, and a number of unusual features that ordinary carnival shows cannot afford to carry.

Six free football games, free circus acts, and other amusements will be enjoyed by fair visitors.

Farmers Get \$1.20 Per Bushel For Wheat. By Feeding To Hogs

Wellington — W. D. Durfey and sons of Collingsworth county sold their 1930 wheat crop of 1200 bushels at \$1.20 per bushel by feeding the wheat to hogs, C. C. Stinson, county agent, reports. Other home-grown feed was charged in at market prices and the ration balanced with tankage and cottonseed meal. The wheat was of low quality. Steers are to be fed along with hogs this year and the owners expect to market most of their wheat crop through livestock again.

WHEAT AT CLAUDE TESTS 66 POUNDS

CLAUDE, June 28.— Bruce Cobb, farmer residing 14 miles south of here, sent in a load of wheat to Claude yesterday which tested 66 pounds. He is harvesting on a 150-acre field which is averaging 43 bushels to the acre. Harvest work is in full swing and most fields are turning out well. Many farmers are storing away their wheat or a part of it to await a better price. — Fort Worth Star Telegram.

A & M college... ginning July 27. This part of... program will be directed by Miss Inez Derryberry, specialist in landscape gardening in the Extension Service of the college.

"In bringing shrubs through the dry, hot summer it is more important to keep the moisture in the ground by frequent cultivation and the maintenance of a dry mulch on top than to irrigate," Miss Derryberry says. "All small plants and roses should be worked at least once a week."

"If the soil becomes so dry in spite of frequent cultivation that the plants do not thrive, then water the beds, if water is available. Do not sprinkle them but water them. The sprinkling of water will never reach the roots, but the roots will have a tendency to reach up for the water and this is likely to bring about the freezing of the roots in the winter. Sprinkling plants every day or two is one of the surest ways of spoiling them. One good watering should last at least ten days or two weeks. Wet the ground clear through at evening, then in the morning when the earth begins to dry, loosen the surface to keep the water from getting away."

YOUNG COUNTY WOMAN HAS PROFITABLE GARDEN

GRAHAM — In her year around garden, Mrs. J. T. Hamilton, Murray home demonstration club member of Young county, has had an abundance of swiss chard, beets, onions, spinach, radishes, lettuce, cabbages, mustard, turnips, green, carrots, collards, and sage for family use and a surplus to sell and feed to livestock. She furnished 175 heads of lettuce, and large quantities of cabbage, carrots and turnips for the banquet served by the 41H clubs to a convention in Graham in March, and an equal amount for a luncheon given during another convention there. She has also sold 75 bunches of radishes, canned 116 quarts of greens, given many quantities of other vegetables and an addition fed green stuff from her garden to five cows and calves, three hogs and 126 chickens and turkeys.

PANTRY DEMONSTRATORS PLANT FRUIT IN NACOGDOCHES CO.

Nacogdoches — In order to assure well filled pantry shelves the members of the home demonstration clubs in Nacogdoches county are planting fruit trees, berry vines, grape vines and year around gardens. With a definite goal for the year of six fruit trees and six berry vines for each member, 16 members of the Oak Flat club have planted a total of 220 fruit trees, 123 berry vines and 18 grape vines.

### Home Demonstration Notes

Just at this time when farmers and every one else, are asked to use cotton to help us up the surplus and lift the financial depression, there are other farm products that can be used just as well. For example, wheat is very cheap at this time. It can be used in many ways on the table. If properly prepared it makes a very delicious and appetizing breakfast food. It contains more nutrition than any of the prepared breakfast foods, and is so cheap that the cost is almost nothing excepting the work.

Every club woman in the county is urged to buy wheat now while it is cheap and can it for future use. Thus she makes a saving for herself and gives the farmer a present market for the wheat.

—Ruby Mashburn, C. H. D. A.

### STANDARD RECIPE FOR CANNED WHEAT

Clean and wash thoroughly. Soak over night in twice the amount of water as wheat used. Next morning drain and wash wheat again to remove some of the dark brown color. Cover with hot water and boil for five minutes, stirring constantly.

Fill No. 1 cans with 9 oz. of wheat. Add 1-2 teaspoon of salt and cover with water at 15 pounds pressure.

Fill No. 2 cans with 17 oz. drain wheat, add 1 teaspoon of salt, cover with water in which wheat was boiled. Seal and process for 40 minutes at 15 pounds pressure.

Remove from cooker and place in cold water. When cool, clean, dry, label and store.

Note—It is much easier to get wheat cleaned at the mill.

### Suggestions Regarding Use:

1. Whole wheat may be substituted for rice or macaroni, and served with meats and gravy.
2. Whole wheat may be added to soups as a substitute for rice or macaroni.
3. Use any good rice pudding recipe substituting amount of wheat for rice and make a delicious dessert.
4. For a breakfast food add a little water, cook 4 or 5 minutes and serve with whole milk and stewed or fresh fruit.

(Take out all half grain. Do not fill cans too full.)
