Relief Set-Up Operation Soon

Plan Incomplete as Yet—
County Retained in Favored
Area—CWA Ends April 1

Official advices have been received from W. Veale, administrator under CWA relief program, that a relief set-up will become effective, beginning Friday of this week.

Instructions also direct that cases active, new and re-opened must be investigated and full information compiled, including complete history. All cases are to be placed, whether employable or unemployable. Those unemployable are to be directed relief; employables are to be given relief according to budget.

Effective April 1, CWA will be operated by the work program arranged on a budgetary basis. Details of the plan to be supplied local administrators in the near future.

Vital Statistics

A survey of vital statistics records at the court house indicates a healthy population increase in Wheeler county for the past two years. The records are incomplete, it is said, in reports of deaths, though the error is small. Those responsible sometimes forget to turn in death reports.

For 1932, the records show 357 births and 130 deaths in the county. Two murders and two suicides are recorded for that year.

In 1933, births totaled 437 and deaths 136. No murders, suicides nor accidental deaths.

Turning to records of precinct No. 1, in which Wheeler city is located, the figures are: 1932—Births, 127; deaths, 25. 1933—Births, 163, deaths, 41. No murders, nor suicides; three accidental deaths.

MRS. W. E. JACKSON DIED FRIDAY AFTER LONG ILLNESS

Mrs. Annie Wright Jackson passed away Friday, March 9, at Pampa, following a long illness. About a month or six weeks ago her condition became serious and she was taken to a hospital in Pampa, where she underwent an operation, from which she never recovered.

Mrs. Jackson was born June 22, 1892, in Little Rock, Ark., and died March 9, 1934, in Pampa at the age of 41 years, 8 months and 17 days.

She was married to W. E. Jackson on July 26, 1907, at Bowie. To this union three children were born, Otis and Miss Thelma of Wheeler and Mrs. R. I. Snyder of Pampa. Besides the children she is survived by her husband, W. E. Jackson of Wheeler, and one grandson Don Otis Snyder of Pampa, and one sister Mrs. J. M. Elkins of Freeport.

Mrs. Jackson was converted and joined the Baptist church at Bowie when a young girl and was an active member in all church work as long as her health would permit. She has lived in Wheeler county since 1920.

Funeral services were conducted by Rev. Alamo Starkey Sunday, March 11, at the Baptist church in Wheeler, with burial in the Wheeler cemetery.

Large Sum For County Schools

Word has just been received by O. B. Miller, county superintendent, that rural aid in the amount of \$12,092 has been granted Wheeler county schools for the 1933-1934 term. This sum exceeds by approximately \$4,000 previous similar grants. This is in addition to the \$16 per pupil scholastic apportionment of state money. Rural aid help is based on the needs of each school and the number of teachers employed.

Twenty-two out of the 34 eligible Wheeler county schools applied for aid, and 18 of the applications were allowed. Those benefited are: Hay Hollow, Briscoe, Centerville, Bethel, Myrtle, Locust Grove, Corn Valley, Mt. Zion, Sweetwater, Union, Twitty, Center, Dixon, Liberty, Mt. View, Kelton and Mobeetie.

Fifty per cent of the money is immediately available. The balance will be paid on a percentage basis; that is, should a deficit develop, each school will bear its proportionate reduction.

Transportation aid, which a number of schools are eligible to receive, is not included in the foregoing figures. This aid assures an average school term of 8½ months for the county. Incidentally, this is the highest average ever attained.

Mrs. Sylvia McCracken of Pampa arrived Saturday to spend a short while with her son, Neil McCracken, who lives northwest of Wheeler.

Interscholastic Meet Postponed One Week

Later Date Set for Annual County
Event Because of Conflict
With Conference

In a special communication to The Times, issued Tuesday by B. T. Rucker of Magic City, general director of the 1934 interscholastic meet which was to have been held at Mobeetie on March 23 and 24, a postponement of one week for the event is announced. The new dates, therefore, will be Friday and Saturday, March 30 and 31.

Because the original dates conflicted with those of the Northwest Texas Teachers Conference at Canyon on March 23 and 24, is given as the reason for postponing the Wheeler county meet. It is stated that a number of teachers from this county expect to attend the Canyon conference.

According to Rucker, word has also been received that the district gathering for District No. 2, of which Wheeler county is a member, has also been delayed a week. The new date is April 20 and 21, and has been noted before in these columns, the place this year will be Pampa.

No decision has been reached on where to place the two county Class A high schools, Wheeler and Shamrock. It is possible, says the communication, that they will be included in the Class B high school group.

ANGLIN REPORTS MANY NEW CARS DELIVERED

Walter Anglin, local salesman working with the Ewton Chevrolet company of Shamrock, reports that his organization delivered nine new Chevrolets on Wednesday of this week.

The new owners are: J. H. Jackson, Shamrock, five, including a sedan, three coaches and a coupe; A. G. York, Shamrock, a truck; Jeff D. Mankins, Shamrock, a coupe; Lois Bolton, Wheeler, a coach; Clarence Lee, Mobeetie, a sedan; Wes Hill, Shamrock, a demonstrator. Two used cars were also placed.

The Ewton sales force consists of Homer Ewton, manager; Crofford Howell and Wes Hill at Shamrock, and Walter Anglin, Wheeler.

Members of the firm attended a session of the Oklahoma City zone district, held at Amarillo, Monday night. Between 250 and 300 dealers and salesmen of the district were present. An educational film, showing Chevrolet points of superiority, tests of cars and other important details, was a feature of the meeting.

Enthusiasm was high at the gathering and plans were made to reach a high mark of coverage throughout the entire zone.

FUNERAL HOME OPENING ATTRACTED LARGE CROWD

As a means of introducing the newly decorated quarters occupied by the Wheeler Funeral Home, D. A. Hunt, manager, invited the public to visit the place last Saturday. Mr. Hunt was elated with the response to his invitation, and reports that between 250 and 300 people called during the day. Favors were distributed to the guests.

Visitors found a truly beautiful home, decorated and furnished in excellent taste. Caskets and accessories were displayed for inspection.

Mrs. W. H. Lee of Briscoe was in Wheeler Tuesday, shopping.

Good Interest Shown In Methodist Revival

Deep Spirit of Worship Evidenced at
Each Service—Series to End
Sunday Evening

Good interest and fine attendance continues to feature the revival meeting in progress at the First Methodist church. A deep spiritual attitude prevails at every service.

Rev. Johnston of Wellington, who is leading the meeting with the assistance of Rev. J. Edmund Kirby, pastor of the local church, has made many ardent friends during his stay here. Rev. Johnston is a calm, clear thinker who appeals to the intellect as well as the spiritual emotions of his hearers. He does not resort to sensational methods to reach and hold attention of an audience.

While his discourses are thus marked by quiet, logical reasoning, delivered in a pleasing, conversational tone, the speaker presents in a forceful manner the great spiritual values contained in the lesson under discussion.

But it would be distinctly misleading to create the impression that Dr. Johnston teaches a sad, solemn sort of religion. On the contrary, he emphasizes the cheerfulness and joy that should distinguish the Christian man or woman. Gifted with a charming personality, the speaker is exceptionally well qualified as a minister of the Gospel.

The revival series come to a close with the Sunday night service. The Church of Christ and Baptist congregations will be dismissed from their respective churches so they may attend the revival.

During the remainder of the week, morning worship will be held at the Methodist church, beginning at 10 o'clock. Evening services begin at 7:40.

Assemblies of the young people are scheduled for 4 and 6:30 o'clock each afternoon, at the church.

L. M. Goodrich to Seek Second Term

Has Pursued Activities of Office with
Vigor, Fairness and Careful
Attention to Duty

Lewis M. Goodrich, District Attorney, has signified his intention of seeking a second term.

In placing his name before the voters of the Democratic primaries of the 31st Judicial District, Goodrich said that he had diligently sought to carry on the activities of his office with vigor, fairness, and constant attention to duty.

He has assisted every grand jury faithfully in all the counties of the district and has placed before juries for final disposition many cases involving felonies, and he will appreciate your inquiry of the manner in which he has handled the duties of his office.

Goodrich believes that his work and experience have justified his asking for a second term as District Attorney. He appreciates your support in the last election and solicits your vote at this time for a second term.

DR. REYNOLDS, NEW DENTIST ESTABLISHES OFFICE HERE

Arriving in Wheeler the latter part of last week, Dr. F. N. Reynolds, dentist, stopped a few days at the Lott Hotel. This week he has established his office in the G. C. Wilkinson home, south of the Gunter Hotel. The doctor expects to maintain his quarters there until suitable office is available in the business district.

Dr. Reynolds has been practicing his profession 19 years, finishing Baylor in 1915. Most of the time he has been located at Miami and Clarendon. He has a family which he expects to bring to Wheeler at the close of the current school term.

Dr. Reynolds declares that he selected Wheeler from several favorable locations and believes it is a good town in a good community, with future possibilities. He is for Wheeler and its institutions and has expressed a desire to do his share in making it a better place in which to live. As a resident of the Panhandle for nearly 20 years, Reynolds has many friends throughout this area. Already he is enjoying a nice practice and in time expects a sizeable clientele.

Attention of Times readers is called to the doctor's card, appearing elsewhere in this issue.

BOY BALL PLAYERS TO MEET FRIDAY AFTERNOON

The Times is requested to announce that all boys of Wheeler and vicinity under 17 years of age who wish to try out for the American Legion baseball team, are invited to meet at the legion hall at 4 o'clock Friday afternoon.

Bill Genthe will be present to discuss the proposition. Genthe is an ex-ball player who attained some prominence in big league circles. He held positions with the Western League and also the American Association.

Present plans include organization of at least two boys' teams in Wheeler. One will be an American Legion team, including boys up to 17 years old, and another will be a Boy Scouts team, with 18 years as the age limit.

Weather permitting, a preliminary workout for the legion team will start Saturday afternoon at the old ball park.

DISTRICT DEMONSTRATION AGENT VISITS IN COUNTY

Miss Ruby Mashburn, district home demonstration agent of District 1, with headquarters at College Station, made her first visit to Wheeler county Monday and Tuesday of this week. She was the guest of Viola Jones, county home demonstration agent.

In attending the bosses' banquet given by the B. & P. W. club Monday evening, Miss Mashburn was able to meet a number of people, with whom she hopes to become better acquainted in the near future.

She attended a meeting of the Allison 4-H and women's clubs. Commenting on her impressions of Wheeler and Wheeler county, Miss Mashburn declared: "This has been a delightful visit. I have met so many nice people and enjoyed every demonstration I have seen, as well as the drives up and down the hills."

According to Miss Jones, who is somewhat inured to "Panhandle showmen", the district agent did not complain, even when Tuesday's severe sandstorm prevented her visiting other demonstrations.

LOCAL DECORATOR READY FOR SPRING CAMPAIGN

Signifying his readiness to assist with the usual spring paint-up and clean-up campaign, W. E. (Bill) Genthe of this city, offers his services through an advertisement printed elsewhere in this issue of The Times.

Genthe came to Wheeler 15 months ago from the west coast, where he was connected with the Powers Studio, one of the largest interior decorating concerns in Los Angeles. He was employed on some of the finest buildings in California and Arizona, including the Fox Theater chain of 59 fine show houses.

Genthe has had ample experience in his profession as a painter, paper hanger and interior decorator.

Ernest Lee Buys City Drug Store

Consummation of a deal was announced Monday, whereby Ernest Lee, Wheeler hardware dealer, becomes the owner of the City Drug store. Mr. Lee purchased the store from Glen Porter, proprietor for the past year, although the business has belonged to members of the Porter family for several years.

No change will be made in the name of the store, the new owner preferring to retain the name by which it has been known for more than 30 years.

Every effort will be made to not only keep the service up to the same high standard heretofore maintained, but to make improvements wherever possible.

Purchase of the drug business will not make any change at the hardware store, which will continue under personal supervision of Ernest Lee.

Lonnie Lee, a brother of Ernest, has assumed management of the drug store. He will be assisted by Melvin Howe, a registered pharmacist, who accepted a position there one year ago today, March 15. John Wofford is also employed as a clerk.

Glen Porter, recent purchaser of the Wheeler water system, expects to devote his time to that enterprise since disposing of the drug business. Porter has secured space for office quarters with the Wheeler Abstract company, where business of the water company will be conducted.

B. & P. W. Banquet A Signal Success

Large Crowd Enjoyed a Delightful
Program, Including Addresses
by Club Dignitaries

"Service is the debt you owe for the space you occupy", said Irene Huber, past director of District One, of the Texas Federation of Business & Professional Women's clubs, to the members of the Wheeler B. & P. W. club and their guests at their first Annual Bosses Banquet, Monday evening at the Lewis cafe.

Miss Viola Jones, chairman of public relations, serving as the able toastmistress that she is, opened the program with all singing the "Doxology". Honored representatives of other organizations and officers of the Shamrock B. & P. W. club were then introduced. "The Bosses Poem", read by Vinita Creekmore, was an interesting feature of the program.

Judge R. H. Forrester gave a very instructive version of the Boss' Viewpoint, after which each member of the club introduced her boss or guest with clever rhyme and tribute. "Johnny at the Circus", a humorous reading, with local references, presented by Willetta Templeton, was a highlight of the evening's entertainment.

The address which was looked forward to by all who had heard her for the first time was delivered by Irene Huber of Vernon, Texas.

Greeting you as you entered the cafe was the large B. & P. W. insignia done in black and gold, the club colors, forming a background for the "U" shaped banquet table which was gayly decorated with unique place cards and favors, together with the club bulletins containing the program of the evening and pep songs which were intermingled with the various numbers.

Occupying a place of vantage was the large loving cup bearing this inscription: "Presented to the Texas Federation of Business & Professional Women's clubs by Ollie Mooty in Memory of Daisy Herty Leake, 1933, District One — 1933 — Irene Huber, director".

An event of lasting importance in the memory of the Wheeler club members was the presentation of their membership charter in the National Federation of Business & Professional Women's club, by the state president of the Texas Federation, which was received by our local president, Miss Blanche Adams, to whom due thanks and praise are given for her untiring efforts in the forming and organization of such a club in Wheeler.

At the close of the presentation Mrs. Faye Gordon, state president, was presented with the basket of red sweet peas and roses interspersed with gay garden flowers.

Attending were Faye Gordon and T. L. Gordon of Amarillo; Irene Huber, Vernon; Mary Mashburn, College Station; Mr. and Mrs. Glen Pool, Pampa; Helen Stevens, Stella Hise, Robbie Wells, Nell Adams, Allie Williams and Ruth Rolater, Shamrock; Ima Scott and M. OUR BOYS

Consider the Boy Scout. There isn't much for a boy to do these days—no kindling to cut, no cows to milk, no coal to bring in, and in this section there are no skunks to trap, and few trees to climb.

Boys don't just naturally go around tying knots, learning signaling, studying the meaning and proper display of the American flag, considering courtesy, patriotism, and bravery. First aid isn't talked on the street corners. Hundreds of useful accomplishments would be unknown to Wheeler boys were it not for Scouting.

Scouting is championed by men in every walk of life. The roustabout's son and the scion of wealth meet on a common ground in Scouting. President Roosevelt is the No. 1 Scout of America and he is a veteran of nearly two decades in the movement. Scouting begins before the "teen" are and never ends as long as a man is interested in boys.

AFTER THE CWA, WHAT?

Any thoughtful, far-seeing person knows that there is something dangerously wrong with business when farmers are being forced to produce less, and when factories are closing down their operations because of no consuming power on the part of the people.

With approximately 10,000,000 people out of employment and working at jobs which will not more than pay for what they have to eat to live, it shall be necessary to limit factory hours to the production of just what goods is being consumed, and to limit the farm to the production of just what is needed to feed and clothe those who are able to buy what they need.

When production is curtailed, when factories stop, and when general movements cease, more farmers and laboring people will be added to the non-consuming list.

Why not turn all attention to providing adequate employment for the unemployed at living wages, as per the original NRA plans, relieve the whole situation instead of curtailing production which is the farmer's only means of livelihood and adding 30,000,000 farmers to the list of unemployed and half employed people of the nation?

Excessive profits on popular modern machinery, chiefly automobiles, is turning all the money into the hands of just a few manufacturers and traders and is bankrupting the rest of the world. If the situation is remedied, it shall have to be remedied by correcting the basic economic evil of the present time.

The McLean band, declares the McLean News, entered the Amarillo contest with only 20 pieces, winning over the Amarillo band of 50 pieces, the McLean band being the smallest band in the contest. That this is an excellent showing, no one familiar with the requirements of band instrumentation will deny.

Which raises the query, "Why can't Wheeler have a band?"

FREE PUBLICITY

Take any small community in which there exists a newspaper and print-shop. If every business or professional man who sells the owner and operatives in such a plant anything during any given year, would set aside what he earned from this little group as the basis of his printing and advertising appropriations, it would enormously enhance the community newspaper's capacity to serve that community in promotional work—not only promoting purely business progress but likewise civic work of all descriptions.

Practically every kind of local activity, business, social, church, and school, depends for its success very greatly upon publicity. And the newspaper is the community's instrument of publicity. It would be an undoubted advantage to any small town if its newspaper plant were able to set aside out of its annual earnings yearly, a definite fund, much as banks set aside surplus funds, to fight any community tendency toward stagnation—have the means at hand to take up the cudgels, aggressively, in behalf of those things and activities which require intelligent publicity to enable a progressive community to express itself by effective, united action in any given direction. The average country newspaper plant meets this need, not out of a maintained community fund of its own to cover the cost of spreading information throughout its pages, to print promotional placards, and encourage church and educational activities, but meets the community's requirements out of its own bare and woefully insufficient earnings. "Free Publicity" is the rock upon which many an ambitious newspaper institution has foundered. It is almost universally the heavy drag which prevents this useful and potentially powerful institution from carrying on the promotional community work which it is so admirably fitted to do. And which no other individual and no other single business institution can successfully achieve.

And yet there must be and should be "Free Publicity". No newspaper can dodge this necessity, nor should it. Churches, or social and civic organizations should not be required to pay of their own funds, any considerable sums of money to carry on their activities insofar as publicity is concerned. Publicity is most effectively and economically achieved by the community's newspaper. It is the newspaper's primary function.

But the successful carrying out of this function must necessarily be limited by the newspaper's financial resources. It would surprise people to discover what a difference it would make, both to the newspaper and to the community, if, in some way, it should be possible for the paper to create a community promotional fund of its own, out of which to defray its expenditures classified under the head of "Free Publicity." In our own case such expenditures have ranged all the way from \$200 to \$500 annually, and still we haven't done nearly as much as could be done, and as we would wish to do, under favorable circumstances. The suggestion made at the beginning of this editorial is only one way in which much could be accomplished.

"Free Publicity" is a function of a truly community newspaper which we believe to be entirely legitimate under the stated circumstances. It is not curtailment of this practice for which we are now appealing, but rather an expansion of it, by bestowing upon the newspaper the complete patronage and support by means of which, and by no other possible means, it can hope to "carry on" as it should and as the community has a right to expect.—Brillon News.

Our Exchanges

Items of interest culled from newspapers on The Times' exchange list.

Judge H. E. Hoover and M. W. McIntyre of Canadian and Frank Rasor and Paul McMeans of Miami have received much praise for their work as representatives of the Northeast Panhandle Feeders Association. These gentlemen have been untiring in their efforts to line up West Texas cattlemen to support the bill to include cattle as a basic commodity. Not only has their work taken a thorough effect throughout West Texas, but also in New Mexico and Southeastern Arizona. These four men have become the "Four Horsemen" of the Panhandle cattle industry.

Judge Hoover, lawyer, banker and cattleman of Canadian, recently remarked, "We used to put cattle thieves in the pen, but now we put them in the asylum." This assertion very neatly sums up the cattle condition at present, but with the good work continuing, it is predicted that it won't be long now.—Miami Chief.

Last week's issue of the Pampa Advocate was published under new management, Elton Jones having purchased the newspaper and plant of the Pampa Publishing company, Inc., from Hudson Meador and Mrs. Rachel Black of Wichita Falls, the transaction being completed March 5.

Jones, formerly connected with the Pampa Daily News, is business and advertising manager, and Dee C. Blythe, for the past eight months city editor of the Childress Daily Index, is editor.

While returning from Amarillo Tuesday afternoon, G. J. Teel fell asleep at a point between Washburn and Claude. His new Ford struck a road grader and turned over three times according to the grader driver.

When Mr. Teel awoke, he and his Ford were on their backs, the Ford badly damaged and its owner unhurt even to a scratch. He purchased a new car after his damage to the old one being assessed at \$250. Speaking of luck, who can match this one? —Donley County Leader.

APPROVAL GIVEN FOR SIX USES OF "RENTED" ACRES

According to recent rulings received by Ralph R. Thomas, county agent, from Associate Chief Geo. E. Farrell, of the wheat section in regard to use of contracted wheat acreage, says the Pampa Post, it will be deemed a violation of his contract for a producer who has executed a contract to shift food crops grown for home consumption on the farm or feed crops grown for the production of livestock or livestock products for home consumption or use on the farm, to the contracted acreage, thereby releasing other lands on the farm for the planting of crops for sale or for feed for the production of livestock or livestock products for sale.

The contracted acreage of 1934 and 1935 must not be used to produce feed for dairy cattle, beef cattle, hogs, sheep, or poultry kept for sale or kept for the sale of their products.

It is advised that each contract signer should practice one of the following uses of his contracted acres:

1. Let the land lie unplanted.
2. Summer-fallow the land.
3. Plant the land to permanent pasture.
4. Plant the land to meadow crops.
5. Practice weed control on the land.
6. Plant soil improvement crops, for plowing under.

If the contract signer does not handle his withdrawn wheat acreage in one of the above mentioned ways, but handles it in some other way, the burden of proof will be on him, and it might be that his adjustment payments will be delayed, or he may not be able to get them at all. Therefore, every contract signer should adopt one of these practices, which are approved by the Agricultural Adjustment Administration, for his contracted wheat acres.

A Word of Appreciation

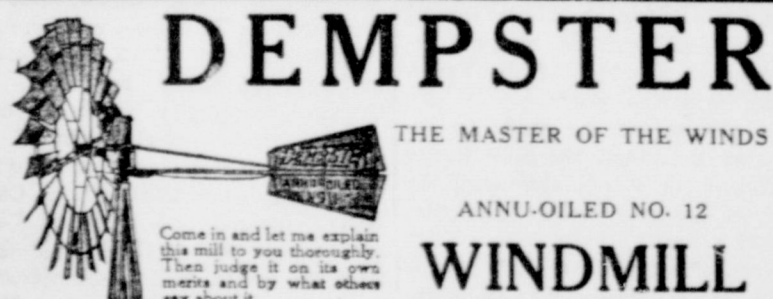

Feeling that a word of appreciation and farewell is just what is due, Miss L. Dempsey and J. W. Allmond, former owners of the Variety store, take this method to express to the public of Wheeler and Wheeler county sincere thanks for the fine patronage and support which they have received.

Miss Dempsey, as active manager of the store for eight years, extends her personal appreciation to the many friends and customers whom she has had the opportunity of serving. Her deep appreciation for leaving so many valued friends is tempered by memories of the past.

To the new owner, R. E. Brazil, is commended the cordial and patronage of former customers, believing he will serve them well.

DEMPSTER

THE MASTER OF THE WINDS

ANNU-OILED NO. 12

WINDMILL

Come in and let me explain this mill to you thoroughly. Then judge it on its own merits and by what others say about it.

Just the slightest breeze and your Dempster Mill starts humming. It assures plenty of water for many years. Note the following points assuring superior performance:

Positive Oiling Feature—The internal working parts of the Dempster Mill are constantly oiled by a simple system of "drip and carriage." Keeps every working part properly oiled all the time.

Perfect regulation assures proper speed at all times. The Dempster No. 12 Mill pumps in the lightest wind and takes care of itself in the strongest. Turns out of the wind according to the variation of the wind, responding quickly without jerking or racking.

Double Spring Bumper—Two short, stiff, yet flexible, springs instead of the usual long springs on the bumper absorb the shock caused when the mill goes into the wind.

Weather-Proof Hood of galvanized sheet steel fits snugly over working parts, keeping out dirt and moisture. Cannot come loose.

The Sturdily Braced Angle Steel Vane Stem will not sag nor buckle. Thoroughly galvanized, it will not rust. Provides ample support for vane.

The Dempster is DOUBLE, not single, geared. Has roller-bearing turntable, equipped with Timken bearings. Runs in a bath of oil. Drain and refill only once a year.

King of The Arena

Once again it's Ken Maynard in a swift action type story of the open spaces. You saw him in the Fiddlin' Buckaroo a couple of weeks ago. Now the question is not: Do you want to see him? Rather the question is: Are you going to make your plans to see him? The story this time is the "King of the Arena". The Rogue believes that this one will compare favorably with the former one.

Also Harry Langdon, the craziest galoot that ever walked, will make his appearance in "Marriage Humor", a two-reeler. Friday-Saturday and

Saturday matinee.
 42nd St.

Now don't laugh when we tell you we are going to show 42nd St. We already know that one about it being a year old, and it is true. But a number of our patrons have asked us to run it here in Wheeler since we ran Gold Diggers of 1933. And since we know it is good, and since we would like to give those who did not see it a chance to see it now, we are showing it next Mon.-Tue., March 19-20.

Some say that a good show is good, no matter whether it is new or old, and look at this cast: Warner Baxter, Bebe Daniels, Geo. Brent, Una Merkel, Ruby Keeler, Dick Powell, Ned Sparks, Geo. Stone, Allen Jenkins and hundreds of hot-hoofing beauties. This is probably the last chance in a life time to see this musical extravaganza. Be ye there! Monday and Tuesday.

TERRACING DONE ON MANY FARMS OF STATE IN 1933

More Than Half Million Acres Prepared to Withstand Erosion— Work Valued at \$1,814,582

An all time high record for the number of farms on which terracing was done in one year showed up when the 1933 reports of the extension service disclosed that 15,465 individual farms had had some terracing done on them last year in the 173 counties reporting, according to a statement made by M. R. Bentley, extension agricultural engineer, after a study of the annual report figures.

County agents actually assisted in terracing more than half of the state's total for the year, 604,386 acres, mostly at the same time training on or more farmers or club boys to use the level, run the lines, and make the terraces themselves, Bentley said. This has been done in spite of the fact that the year has been heavy with emergency agricultural adjustment work.

Texas now has 6,895,584 acres of land protected from erosion by terraces. The valuation placed on terraces made last year is \$1,814,582. Estimated values for this type of work were substantiated last year in the cotton plow-up campaign when it was proven again and again that yields on terraced lands were so much higher than those of unterraced fields that the cash difference in the checks received from the government would have gone far to pay the cost of terracing, leaving the soil saving and future profits almost clear gain.

The South Plains district led the state with 114,274 acres terraced in 1933. Next came the North Central Texas blackland district with 99,678 acres. The Coast district was third with 84,711; West Texas from Waco to El Paso came in with 81,765; Northeast Texas terraced 77,101 acres; Southeast Texas 43,763; the Panhandle district 38,640; the Hill Country 33,058; and South Texas 31,396 acres.

MONTHLY ALLOTMENTS FOR PENNSYLVANIA VETERANS

The county administrator's office is in receipt of a letter from the veterans division of the United States Department of Labor advising that the state of Pennsylvania has passed an act providing for the payment of money in monthly allotments to veterans from that state.

This classification includes all members of the nation's military and naval forces, beginning with the Spanish-American War and including the World War, who enlisted from Pennsylvania.

It is not known whether any such ex-service men reside in this county or not, but if so, they are directed to communicate with the county administrator's office in Wheeler at an early date.

4-H Club Girls Discuss Plans For Gardens

"A new dress will not be so successful if a well planned pattern has not been used", states Miss Viola Jones, home agent, in her demonstration given to the Wheeler 4-H club girls in their meeting Monday afternoon.

Continuing she says, "A garden cannot be a success unless a well laid plan has been followed." Each member present made a garden plan and the two garden demonstrators filled out a budget card for their pantries. Those present were Naomi Johnson, Elizabeth Joss, Velma Pillars, Helen Flynt, Mildred Plattor, Lillie B. Meadows and Exie Creekmore.

Apology to "Fish"

In a feature in the "Corral" last week a senior was suing a senior for steppin' out with a "fish". It was termed "Joss Suing Creekmore for Robbin' the Cradle." Since publication of the item several freshmen have demanded an apology. Well, here it is: don't take it so hard, "Fish". Maybe you'll grow up some day and then you can tease the little folks too. Sorry, but you see we have to tease someone and it is just natural to pick on the "fish". You say that you can't take it? Well, well and well! It won't be long before you will be a senior.

The story referred to only one freshman while an entire group was complaining about it. Next time don't holler if you are not hit. This means you.

IS THIS YOUR HABIT?

Good books, good magazines, newspapers and all of these are to be read if you look between the covers. It seems that there are two classes of almost everything. Good and bad people, good and bad animals, good and bad cars, good and bad houses, and good and bad literature. Are you interested in finding the best types of reading matter or do you take the first book that you come to regardless of the kind of material that it includes? Do you read "trashy" novels and "True Confession Magazines"? If so, why?

Good literature is easily found and is more enjoyable to everyone. Good literature plays a large part in your daily life. Do you like to read "junk" literature such as "Ballyhoo", "Smokehouse", "Snappy" and "Whizbang" magazines instead of the American, Good Housekeeping, American Boy, Geographic, the American Girl, and many other clean books? There are magazines for girls and boys or for both. If you are in the habit of reading "trash", why not stop right now and change to good literature? Good literature is one of the best friends that a person can have.—A. M. P.

OKLAHOMA FRESHMAN IS POPULAR STUDENT

Hey, wait a minute. Yeah, I know you are busy but, say, how would you like to get your name in the paper? You'd like it? Goody! Now if you just answer the questions I ask you we'll make this an interview story. Huh? What's that? Oh, I guess you know just about as much about it as I do. You ask somebody some questions and then put it in the paper.

What's your name? Ray McCollum? Oh, gee, thanks a lot. I've been wondering who that tall, handsome freshman was that all the senior boys are running around with. Gee, it must be nice to play with all the big boys like that. They tease you a lot? Well, that just shows they like you.

You used to go to school in Oklahoma? Gee, that's a great place. I've been there. You like English and history best of all? I don't like history. It's just about a lot of men. Well, anyway I'm sure glad you like school here and say, why don't you come up and see me sometime?

Cole Frames Pictures For High School Rooms

Two of the high school rooms have been improved by the hanging of six new pictures. This work was completed on Wednesday of last week. H. E. Cole did the framing.

There are four new pictures in the senior room including "The Pilgrims Going to Church", two scenes and a picture of "The Rheims Cathedral".

In the English room there are an ocean view and "The Spring" by Mauve.

These pictures were purchased by Miss Winona Adams and Miss Bernie Addison for their respective rooms.

Blossoming flowers have added to the appearance of classrooms for the past few days. In the home economics room is an amaryllis, in the senior room a geranium and in the sophomore room a hyacinth.

MY HIGH RESOLVE—MENTAL BATHS

I refuse to live a cheap life and think chaffy thoughts. I resolve to bathe my mind with the waters of peace and love. I anoint my mind's garden with the dews of heaven's truth.

I refuse to permit anything small, mean, coarse or vulgar to remain in my heart and mind. I will keep my mind sweet, clean and wholesome. My soul shall breathe only the breath of God.

Note: Learn to bathe the mind fully. You need not keep about you ugliness of any sort. Live only in the atmosphere of kindness, consideration, tenderness, thoughtfulness and peace.

—From "Quests and Conquests."

Coy, as I was reading in my book of Quests and Conquests, which I try to do every day, I found the High Resolve which I copied on the preceding page. I thought of you and of our little talk the other day and I wanted to pass it on to you. I think it is a wonderful resolve, don't you?

I am trying to change my personality and disposition by committing to memory some of the good thoughts I find in my book. I feel that I need to. How much better it would be for you—with your life before you and your character yet unformed for the most part—to begin to try to change now instead of waiting so long.

Although I won't be able to buy you a gift for graduation, I should like to give you something, because I delight in acknowledging accomplishments of my friends. It would please me if you would accept mentally the contents of My Resolve and try to adopt it in your daily life. Will you? —Bernie.

CAUGHT in the LASSOO'S NOOSE

This is the dearest ole town. I wish someone would get married or something so we would have something to talk about. How about some of you students taking a hint and helping us out?

I just saw C. L. and Florene on the stairs talking about love but I'm afraid it wasn't very serious.

Did you see Dewey at Briscoe Friday night? I hear he was with a girl whose last name is Hendricks. What will your girls at Wheeler say if they find it out, Dewey?

Exie believes in showing these boys she knows how to work. Why, last week she started planting a garden.

Sivage changed his mind rather quickly the other night. He started to go to see a girl but just as he reached the house he changed his mind and quickly left. Maybe he saw (or thought he saw) his girl friend leaving the house with another boy. How about it, Sivage?

Charlie seemed glad to see Vice this morning for she chose a seat by him without delay.

Our high school boys who are always making the weekly trip to Canadian took Carlisle and Herbert with them this week or was the taking just vice versa?

I hear that two senior girls stayed at home from church Monday, night to make candy. Oh, my, what's this world coming to?

Exie and Inez went to Mobeetie last Saturday night. If you wish to know what time they got home just ask Mrs. Porter.

Did you know that Creekmore hasn't been the same since Janette left?

Wonder why Florene sits with Augusta the seventh period? Could it be because of the person in front of Augusta?

Ruth, stop it. If you don't quit making eyes at Bill it will interfere with his studies.

Wonder if someone's heart isn't going pit-a-pat since Warren came back.

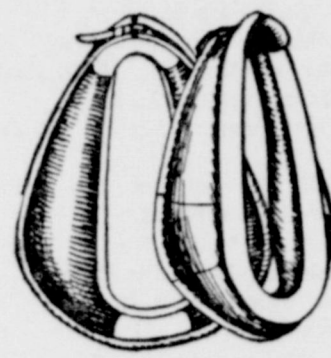

Forest was seen playing hands Monday in the study hall and it wasn't with a girl either.

AERMOTOR Windmills

The Windmill with Outstanding Features

A strong wheel with only six bolts . . . Round tension wheel arms which screw into the hub—they will never work loose . . . Extra large wheel shaft . . . Removable bearings easily replaced . . . Quiet gears . . . Adjustable stroke . . . Adjustable brake . . . Self-oiling pump pole swivel . . . Smooth regulation in high winds.

The Auto-Oiled type of Aermotor was first made in 1915. It solved in a very practical way the problem of windmill lubrication. The general system adopted by the Aermotor Co. has never been improved upon, but some changes in details of construction have been made from time to time as experience has shown the way to betterments. The latest improvements are the most important that have ever been made and will surely make the Aermotor more decidedly than ever the outstanding windmill of the world.

The performance of a windmill depends much upon upon which it stands. In buying a windmill like the Aermotor is going to last for many years, it is important that it be on a strong, rigid tower which will last as long as the Aermotor Towers are wonderfully strong and durable.

Aermotor towers are made in various sizes to meet every

THE STORY

CHAPTER I.—Following the splendor of her niece, Cintra, to Leister, which she has financed, the lovely "Smif" by her insistence, youngest and physically the lightest of the four Lovelys, finds herself in decidedly good circumstances. She has her plans for the future, however, she refuses to divulge to her prominent figures in New York.

CHAPTER II.—The historic Lovely Lovelys, in Virginia, is owned by her brother, Bill-Lee, but, financially unable to maintain his position as a Lovely should, he is living in Chicago, while the estate is rented to Mr. Johnstone Nesbit. Smif's wish is to own Lovelys, and she feels sure her brother will turn.

CHAPTER III.—Under the name "Madame Saitou" Smif establishes herself as a "Little Sister of the Rich," a business promise to remunerative, but there is contention among the other Lovelys, in the idea that one of the should, as one tartly expresses some "advantages."

CHAPTER IV.—Smif has a client, a she does not require her callers (we their names) who desires to the lovelike pursuit of an ex-ordinarily stout lady, his neighbor, he refers to as "Mercy." Later, the in question, Miss Martha Washington (Mercy, for short), her story is that because of some weight she has lost her "Johnny," Smif, recognizing the of her caller, advises her to try she has reduced. Mercy pro-claims that Smif, who is herself ad-orned with an overabundance of flesh, try the "cure," and if the re-sults are satisfactory Mercy will fol-low her example. For a generous fee, she consents.

CHAPTER V.—On his next visit by Smif, she discovers the identity and is himself recog-nized by Smif as the tenant of Love-lys, Johnstone Nesbit. She also learns that the owner of an ad-joining Lovelys, Smif feels she must know more of Nesbit and him to call on her that evening. Smif tells her a story of her past-her unhappy childhood, makes a strong appeal to Smif's own heart.

CHAPTER VI.—Born abroad, but the American parents, circumstances Nesbit, the lessee of Lovelys, is a Virginia boy, his edu-cation having been English, he utters a bitter cry, feels him-self "having been cast into darkness by his neighbors as a gentleman." He has a miniature great-grandmother which bears a striking resemblance to Smif, and her the portrait is that of Lor-lovely, also an ancestress of Smif. According to Virginia tradi-tion, she and Smif are "cousins," and she does not feel in any way inclined to claim the relationship.

CHAPTER VII.—Smif's "reducing" gives promise of splendid re-sults. She takes an apartment in New York. His real name is Rockwell, or family reasons he took the name of Nesbit, Johnstone Nesbit, fa-ther "Stone."

CHAPTER VIII.—Smif does not fal-ter her idea to some day have Love-lyer her own, though Nesbit does not wish. Pamela Phelps, young-est of Smif, becomes the threat-ening victim of a blackmailing plot, Madame Saitou's ingenuity as a ser-out of troubles bids fair to a thorough test.

CHAPTER IX.—With Nesbit's help she utters the blackmailers, the in-terest finally bringing Smif and closer.

CHAPTER X.—Smif becomes some-what ill her occupation. The ex-act cause is absent. A client she has signally failed to help herself out of the world and her, and that is about the last she announces to her sisters. She is "going out of business," enough money to buy Lovelys, going there to live and die. She had arranged to have her brother for the purchase of late are conclusive.

This affair signed Smif's re-lease was a failure after all. She would persuade her that she was "fallen down on" her job. Newbold used every argument. The man was fore-doomed. If she had married him, it would have postponed the evil day. She toward her clients in the post-poned a doctor. Suppose a doctor p his practice because he lost a ? You won't be in a hurry to make an irrevocable decision? Go to Virginia as you planned and see the place. In all probability the tenant has ruined it." "I can't promise," Smif told her, with due regard for her feelings. "I really can't, darling. You see, I've already written to Bill-Lee to find out how he wants the payments made. The matter is settled."

CHAPTER XI

Her elder sisters had finally given up open opposition to Smif's plan of bury- ing herself at Lovelys. Among themselves they had agreed that her purchase of the plantation was unim- portant, since if she made the sort of marriage they meant she should, she would be in a position to indulge her sentiment for the old home of her family and have other "more suitable" establishments elsewhere as well.

As usual, Smif understood them per- fectly; but it suited her to be freed from nagging arguments while she brought her plans to completion. Doc- tor Blanton's ready acquiescence in her arrangements came as a complete surprise, however; until, of a sudden, she suspected that he was about to propose another occupation for her. In a panic, she hurried her prepara- tions and left for the South without the formality of good-bys. Once she was settled, she would write to every- body. Meanwhile she was annoyed that she heard nothing from Bill-Lee. He must realize her eagerness to have the preliminaries definitely over. She did not know exactly when Stone's tenancy terminated but had vague plans that might enable her to assume possession of her property almost at once. She was sure that Stone at least would understand and sympa- thize with her desire to own the home of her fathers however disappointing it was to him personally. But what could Bill-Lee be doing to prevent his acknowledging her letter?

So far, she had told Stone nothing, although her plans were more or less elaborate, including first his reconcilia- tion with his neighbors and next, find- ing him a desirable plantation near enough to Lovelys to permit of his continued use of the track and other improvements he had installed on its acres. Before she saw him, she pro- posed to clear up the entire situation as regards the Hoxton Hunt club. With this in mind, she went directly to Culthorpe, the home of her cousin, Christopher Culpeper. Both he and his wife were delighted that Smif had elected to stay with them out of the large number of relations she had to choose from.

"Who was it told you Smif was not in the least good-looking?" Cousin Kit asked his wife as they stood side by side at a window and watched her shepherding along the drive toward the house their son Jeff's twins, fugi- tives with their grandparents from whooping-cough among their brothers and sisters.

"Cally Peter's oldest girl, the one who came from New York with her cheeks painted white and her mouth painted purple, and vowed that make- up was all the rage in the North," Cousin Mab replied. "I never believed her. All the Lovelys were handsome." "Smif's a picture," her husband roared so loudly that she heard her name, looked up and waved her hand to them. "Why some man hasn't snapped her up before this beats me. In my day she'd not have been single this long."

Smif soon decided that she was sufficiently established in the favor of her family to advance the cause she had at heart. She came in and sank into a chair, laughing. "Madame and sir," she said with a final chuckle, "your grandchildren are adorable but exhausting. I have re- turned them to Mammy undamaged, al- though it was touch and go. They al-

ready to go to Lovelys to live and die," Smif declared. "How can you say anything so frightful?" Louise was near to tears. "Of course it's better than Borneo and the Head Hunters; but why should you want to die?" "I don't want to die. I'd be willing to live a thousand years—in Virginia," Smif assured her.

Lucy's mathematical mind was mean- while busy with the problem of Madame Saitou's finances. She knew nothing of the fee from Martha Wash- ington Mercedes nor would she ever learn that Charles and Susan Phelps had finally persuaded Smif to accept a generous portion of what she had saved them when she had succeeded in destroying all chance of an aliena- tion suit against Pam. It had sudden- ly flashed over Mrs. Stannard that here was a veritable gold mine—and she was not one to stand by indiffer- ent while it passed from the grasp of the family.

"You mean you are going to retire? To give up your business absolutely?" she asked with unconcealed eagerness. Smif nodded her head emphatically. "I'm going to Virginia—to live," she added, with a reassuring smile at Louise. "And you aren't selling out?" "Neither Doctor Blanton nor I know of any one competent to act as my successor."

"Then I shall take over the con- cern," Lucy stated firmly. Smif was aghast. To her mind, Lucy had none of the qualifications essential to success in a majority of her cases. Sympathy—when had Lucy ever shown any sympathy for weak- ness? Then her face cleared as she thought of Doctor Stannard. "Does my memory play me false, or do I remember a time when I was urged to give up my disgraceful pro- ject to spare Cyril's ethical con- science?" she asked with a small grin. Lucy was ready with her reply.

"You have shown us that such a business can be conducted in a digni- fied manner, and naturally I don't intend to devote all of my time to it. I shall engage a capable assistant, even if I have to pay a high salary."

Plainly Lucy would hear and heed only what she wished. Short of an absolute refusal of consent to allow her to succeed to the business, diplo- matic handling of the situation would be necessary if she was to be dis- suaded from carrying out her plan. "Madame Saitou is too well known personally for another person to take over the name. Already I have re- fused a large sum for the use of it." This was bound to be unwelcome news to Lucy who had hoped to acquire gratis all the prestige attached to Smif's enterprise. "Moreover, even the premises must be vacated. Madame Georgette is on her feet again and will

most convinced me that the two colts in the near pasture were their prop- erty and ought to be exercised." "The little devils," said their grand- father proudly.

"Have you looked through the cards of the people who called yesterday while we were at your Aunt Fanny Madison's?" Cousin Mab asked. Smif accepted this as her chance. "Yes," she said, "and that reminds me: Don't you think it strange that Stone Nesbit hasn't called? After all, he is occupying Lovelys and I want to see the old place again."

Who Is Smith That He Shouldn't Go To Church?

Who is this man Smith, anyway? Perhaps he is a Chinaman. Then every little girl of China who has suf- fered the torture of foot binding would pray for Smith to go to church. When Smith goes to church in China his daughter's feet grow naturally.

Does Smith live in Tibet? Then let him follow fourteen Tibetan of- ficials to a little native chapel on the roof of the world, and hear them asking that the church, the hospital and school be enlarged. Smith should go to church in Tibet for the good of the children.

"But", you say, "Smith is an Amer- ican". Well, then let Smith take note of America's progress. When Columbus discovered America he landed on his knees and thanked God. The discoverers of America, of the Mississippi, of the Pacific, were all churchmen. Church buildings were among the first buildings of the Pil- grim fathers. The colonists in Vir- ginia laid down the scriptural law that "The man who does not work shall not eat". If Smith had been an early American, he would have gone to church. The writers of the Declaration of Independence and the makers of the constitution of the United States were men who believed in the church and who went to church.

But this man Smith is an up-to- date Smith—a twentieth century Smith! Is he? Well, of which band? Perhaps he is a boozier. Then he is ashamed to go to church. All the little Smiths who go to Sunday school

The Wheeler Times—\$1.00 a Year.

clothed in rags are an argument for Smith to cut out his booze and go to church.

Smith is not a boozier—he's a re- spectable business man. Well, I know a man who moved from a western Kansas town to an eastern Nebraska town. He gave as his principal reason, "No church for his children to attend, and he wanted them to be under the influence of the church." He did not go once in two years, nor did he support the church, but he demanded that other people supply religious influence for his own chil- dren. A square deal would demand that such a man go to church.

But Smith is a highly intellectual man—well educated. Good for Smith! Then he has enough brains to have heard of Roosevelt, Bryan, Garfield, Woodrow Wilson, the great majority of congressmen and governors, the large majority of university presi- dents and professors who believe in the church and who are not too top- heavy to go and enjoy religious wor- ship.

But Smith is busy all week—he works long hours, and needs to spend Sunday with his wife and children. Yes, but his wife and children want to go to church. If Smith won't go with them, he is selfish. If he keeps them at home for his sake, he is still more selfish.

But what's the use? The fact is that nearly every Smith who does not want to go to church has a selfish

reason. He is an egotist. He is self centered. He has the mental mumps, or has taken a bath in the dead sea of French infidelity. If Smith is a pessimistic, stingy old bachelor, who has no social obligations, who is liv- ing for himself and for himself alone, who sees the hole instead of the doughnut, who thinks the world is go- ing to the dogs and doesn't care if it does—if Smith is that kind of a for- lorn creature, then for the sake of his contaminating moral influence it might be well for him to stay away from church.

But the church is a social institu- tion. Prayer is social. Religion is social. Our hymns are social. Sal- vation is social. Worship is social. To try to make it individual is pagan.

To be sure the church has her faults, but so have the school and the government, and so has Smith. Shall we desert the government because it has a few faults? Shall we secede from Smith because of his shortcom- ings?

Come out of it, Smith, old man; you are singing a selfish song.

Come on, Smith, help your wife to get those little kiddies ready next Sunday. Then you take them by the hand and go to Sunday school and church. Sit by your wife, and squeeze her hand a little during the dry part of the sermon, and I prophecy that before a month goes by you'll be sing- ing a new song. It's a big, fine world. It's great to be alive.

Bert Wilson.

SEEKING DONATIONS FOR TIPTON ORPHANS HOME

Next Sunday, according to Rev. Flavil R. Yeakley, the pastor, will be cookie day at the Church of Christ. And the crispy, crunchy dainties will be put to mighty good use, too. Rev. Yeakley requests members of the church, also friends so disposed, to bring cookies which will be sent to the Tipton orphans home. Anyone wishing to donate cookies may bring them to the church or to the parsonage.

The pastor expects to take several children from Wheeler county to the home in the near future. Already a number of children from this county are included in the enrollment of 250 members of the institution.

Donations for this worthy cause will be greatly appreciated.

PRAIRIE DOG ERADICATION APPROVED CWA PROJECT

Word was received the latter part of last week by County Agent Jake Tarter that an application to make prairie dog eradication in this county a CWA project had been approved. The application was made several weeks ago.

Operations to rid farms of the dogs through the use of poison began last Monday. Tarter states that owners of dog-infested land may have the benefit of this service by making application to him. Cost of the poison will be the only charges. The poison can be obtained at the court house at the actual cost of 5 cents a pound.

The plan followed will be similar to that used in 1931. A group of workmen, under supervision of a foreman approved by Tarter will visit farms where dogs are to be found and put out the poison. However, it also pointed out that a land owner may obtain the poison and apply it himself if he wishes.

MUCH FARM LAND UNDER TERRACE IN THIS COUNTY

Elsewhere in this issue of The Times will be found an article on farm land terracing for the state. Statements therein show remarkable achievements.

However, a comparison of facts and figures discloses that Wheeler county has not lagged in this soil conservation program. Records in the county agent's office shows that Wheeler county has a total of 42,119 acres of farm land under terrace.

Up to four years ago only a small acreage, comparatively speaking, had been treated. In 1931, terracing was

done on 14-881 acres; in 1932, 19,000 acres prepared to receive water and wind.

Jake Tarter, county agent, states that 2,652 acres have been brought under irrigation treatment.
