PRINCESS EASTLAND IN PARADE AND PAGEANT

Princess Eastland—Miss
Daphna Grisham—will appear
in a beautifully decorated
Pierce-Arrow in the great pa-
rade of the West Texas Cham-
ber of Commerce Convention,
Tuesday afternoon in Fort
Worth.

Each of the many West Tex-
as cities will be represented in
the parade, which will be miles
long. Most of the cities will
have floats or cars and the
citizens will march behind the
car representing their city.

It is hoped that at least 50
Eastland citizens will be in the
parade, which begins at 1
o'clock.

Miss Grisham will take part
in the beautiful pageant Mon-
day night. Numerous social af-
fairs have been arranged in
honor of the princesses. Miss
Virginia Weaver is the maid
of honor and Tom Matson is
Grisham's escort.

Rescuers Keen On Trail of Nobile, Lost In Arctic

By United Press
BOARD STEAMSHIP HOBBY.
off Spitzbergen, June 16.—The
Hobby, after many days, has suc-
ceeded in casting loose from the
ice which held her and now is en
route to North Cape, trying to
reach the relief steamship, Bra-
ganza.

Captain Riiser Larsen succeeded
yesterday in making a start in his
plane on another flight in search
of the crew of the Italia. However,
dense fogs along the coast of
Northeast Land forced him to re-
turn almost at once.

Commander Nobile, who, with
five companions from the Italia, is
adrift on the ice, raids that dur-
ing 24 hours he had drifted five-
eighths of a mile nearer the coast.

By United Press
ONSLOM, Norway, June 16.—
Ronald Amundsen, Arctic explorer,
told the United Press today that
he and Lieut. Dietrichson, with
Swedish aviators, would start on
an immediate search for Nobile and
the crew of the Italia.

Amundsen said he and Dietrich-
son would leave for Bergen, Satur-
day and would take off from there,
Sunday, in a French plane for
Spitzbergen.

By United Press
KINGS BAY, June 16.—Two dog
teams rushed through the frozen
Arctic today searching for Nobile
and his crew. The steamer Bra-
ganza, chartered by the Italian
Italian government arrived today
at King's Bay and put out a land-
ing party consisting of a dog crew
to go to the relief of the Italia's
crew.

Curtis May Bring Healing Peace To Wounded Feelings

United Press.
KANSAS CITY, June 16.—The
last of the republican convention
delegates were scattering to the
four corners of the country after
nominating Hoover and Curtis as
presidential and vice-presidential
candidates.

The convention had left behind
some battered feelings, but in
general harmony prevailed after
one of the bitterest prenomination
struggles of recent years.

Nomination of Curtis was re-
garded as the crowning move in
bringing back to the party the
harmony which had been distur-
bed by the break between the al-
lies and Hoover.

CONNELLEE HOTEL, EASTLAND'S NEW HOSTELRY

Connellee Hotel Opens Its Doors To Receive and Entertain Guests

Bushing through last-minute
preparations, the management of
the Connellee Hotel, latest hos-
telry of the Jesse H. Jones Hot-
els, was formally opened Satur-
day for the reception and en-
tertainment of guests. John T. Jones
brother of Jesse H. Jones, who
conducted negotiations with the
local committee for the construc-
tion of the eight-story, 94-room
hotel, arrived in Eastland late
Saturday, driving through from
Houston in company with N. E.
Meador, president of the Jesse
H. Jones Hotels, and George
Rick, furniture man.

B. E. Morton, vicepresident and
general manager of the organiza-
tion, has been here several days,
assisting Dan Garrett, local man-
ager, in the final plans. Due to
delay in transit, the hotel beds
failed to arrive until late Friday
and a large force was busy Sat-
urday placing them in the rooms,
which were ready for occupancy
by six o'clock.

First guests to register as
guests of the hotel were C. U.
Connellee, who gave the site for
the hotel, it being where his log
house, in which all his children
were born, was built more than
fifty years ago. Mrs. Connellee
and her two children, Jim and
Jane, were the next to register;
then W. A. Martin, banker and
pioneer citizen C. R. Starnes of
San Antonio, former county judge
here, and Billy Murray of New
York. "They are coming in fast
and we have promised to be
ready to care for them by night,"
(Continued on Page 8)

Beautiful Exhibit of Wild Flowers Beside Highway

Are you thinking about going for
a pleasant drive this afternoon?
Why not drive over to Cisco,
down to Rising Star and on to
Pioneer—a distance of about 36
miles?

An Eastland man who returned
from an extensive trip over much
of West and Southwest Texas a
few days ago declared that the
wild flowers between Rising Star
and Pioneer are the most beautiful
and in the greatest numbers that
he saw on the entire journey. There
were masses of flowers so glow-
ingly red that it looked as though
a prairie fire had started. There
were hosts of gold flowers and
blue flowers and there was one
led of white flowers that looked
like a light snowfall. Most of the
floral beauty is on the southern
side of the highway.

Test Well To Be Drilled On Block Close To Gorman

Special to the Telegram.
GORMAN, June 16.—Another
block of 1000 acres has been
formed north of town for a drill-
ing contract and a well will be
put down on it soon.

It almost joins the city limits
and is in territory that needs to
be drilled out. There is a chance
anywhere drilling is done in this
section and the boys are going to
continue until they get something
in that neighborhood. The block
was formed for Ranger parties
and they will soon drill.

The Thompson well south of
town three miles is still
down as is the Perry, east of
town.

The Cooper well, six miles to
the south, is reported to have
struck the pay and to have a
nice well at around 2600 feet.
They are in semi-wildcat country
and would open a nice play if
they get real production.

Lions To Lunch At the Connellee

The Eastland Lions Club will
hold its luncheon each Tuesday
at 12 o'clock at the Connellee
Hotel. Announcement of the
change of location from the East-
land Country Club was made Sat-
urday.

Donald Kinnaird, elected vice-
president of the Lions, is now
president of the Lions, Sterling
Holloway, who was recently elec-
ted president, having resigned be-
cause of moving to Brownwood.

Delinquent School Taxes Are Needed

Having completed an audit of
the books and accounts of the
Eastland Free School incorporation
the school board has decided to re-
double their efforts to collect de-
linquent taxes. It is stated by the
secretary of the board that, while
it is not desired to cause anyone
unnecessary trouble, the board
feels that if the citizenship gen-
erally would take the trouble to
familiarize themselves with the
needs and resources of the schools
of the city they would co-operate
more universally in the collection
of such delinquent taxes.

C. H. COLVIN MAY BE NAMED C. C. SECRETARY

Stephenville Man Is Agreed
Upon By Nominating
Boards To Manage
Chamber of Com-
merce.

C. H. Colvin, who has been serv-
ing Stephenville as secretary of the
chamber of commerce there, has
been agreed on by the nominating
committee of the Eastland Board of
Development directors and the mem-
bers of the Eastland school board
as secretary of the Eastland Cham-
ber of Commerce, he to give ninety
minutes of his time each day to
the teaching of vocational agricul-
ture in the Eastland high school.
An announcement by Green Hazel,
secretary of the school board, says:
"Stes have been taken to co-
operate with the chamber of com-
merce in the employment of a
teacher of vocational agriculture
in the high school for the next
year. It appears quite likely that
this may be done without any ex-
pense to the school in the opera-
tion of such department of the
work."

Mr. Colvin is said to have been
highly recommended and his em-
ployment in the dual capacity is
understood to await only final
action by the full board of direc-
tors of the Board of City Develop-
ment.

THREE BANDITS CONFESS PART ROBBING BANK

Four In Gang Looting Home
Trust Co., Kansas City,
Yet To Be Arrested.

By United Press
KANSAS CITY, Mo., June 16.—
Tony Mangiarino, a member of
the bandit gang which Thursday
robbed the Home Trust Co. of \$20,
000 and fatally wounded James
Smith, patrolman, in making their
escape and shot three other per-
sons, today confessed to local po-
lice.

Two other members of the gang
confessed early this morning.
Mangiarino, known to the police
as "Lollypop," after hours of ques-
tioning told how the hold-up men
assembled at 8 o'clock on the morn-
ing of the robbery. John Messino
was the driver of the car, accord-
ing to the confession. A machine
gun, a sawed-off shot gun and five
automatic weapons were in the
car, he told officers today.

According to the confession, seven
bandits parked near convention
hall to watch the throngs gather,
and then drove for a few minutes
until the bank opened. The car
was parked in front of the bank
and all except the driver got out.
Three climbed into the cages and
scraped up the money while the
other three remained on guard.
When bank employees threw gas
bombs at them the bandits fled to
a house near the Eastwood Hills
addition, where the loot was divid-
ed.

Mangiarino and Messino, who is
also under arrest have revealed
the names of only one of the re-
maining five bandits. He, accord-
ing to the confession, is Carl Na-
selle, who is under arrest. Both
he and Mangiarino are under
charges for the \$50,000 City Bank
holdup, February 24.—The other
members of the gang were impor-
tations from St. Louis and Chi-
cago, it was said.

PASTOR OF CHRISTIAN CHURCH ASKED TO STAY

The pastor of the Christian
church is called from year to
year. The Rev. P. W. Walthall,
pastor of the First Christian
Church of Eastland, has been
asked to remain another year.
The matter will be presented to
the congregation following the
service this morning.

CONGRESSMAN'S WIFE IS SEEKING DIVORCE

United Press.
KANSAS CITY, June 16.—A
suit for divorce from George H.
Coombs, Jr., representative in
congress from the 5th Missouri
district, has been filed by Mrs.
Halsel Combs.

Curtis Is Given Great Ovation By His Home People

By United Press
TOPEKA, Kans., June 16.—An
old-fashioned celebration marked
the return to his home town of
Senator Charles Curtis, Republican
vice-president nominee.

When news of his nomination
reached Topeka the citizens turned
out and hastily decorated the
streets. Flags and bunting went
up everywhere and in the space of
just a few minutes the town took
on a carnival atmosphere. A
speaker's stand was erected on the
steps of the state house and two
bands were mobilized. Thousands
of persons joined in the celebra-
tion and shouted their praise for
the honors which a native son had
brought Topeka. After a brief ad-
dress by the governor and other
state officials, Senator Curtis made
a brief address to his home town
friends.

GORDON'S WELL REAGAN NO. 1, FLOWING OIL

Producing 150 to 200 Barrels
Daily and Also Making
Million Cubic Feet
Of Gas.

Estimated as good for 150 to 200
barrels a day, the Reagan No. 1
of Col. Robert D. Gordon in the
Gordon pool is the latest well in
that area, eight miles northwest
of Eastland.

The well was shot with 90 quarts
in the black line and began filling
up immediately. The oil is 38
gravity. The well is also making
1,000,000 feet of gas.

This well will cause activity in
a new section of the pool as it is to
the east of the original Ramsower
well and is considerably south of
the big wells drilled by C. M.
Root on the Thorp.

As a good showing was also en-
countered in the Caddo by the Re-
agan, it can later be shot in that
level with a good chance for pro-
duction there. The Texas-Pacific
Coal & Oil company, by deepening
its No. 2 Higginbotham to 3925,
struck a new producing level that
may be the Ellenberger—but at
any rate it offers still another
chance for production to the wells
in the pool after the Caddo, black
line, Bond and Ranger sand po-
tentialities are exhausted.

Missouri-Kansas Floods Are Raging

By United Press
KENNETT, Mo., June 16.—Two
breaks in the east wing of the St.
Francis river levee, five miles
north of here, flooded 30,000 acres
of Dunklin county farm land and
sent between 150 and 200 families
into Kennett for safety. The dam-
age was estimated at \$750,000.

Rains during the recent week had
swollen the St. Francis river to the
point where the tops of the levees
were awash. Efforts to strength-
en the levees north of here proved
futile. Warnings previously had
been sent and officials expressed
the belief that no casualties have
occurred.

ATHLETIC FIELD FENCE IS ORDERED REPAIRED

Looking ahead to the rodeo an-
nounced for July 4th as a benefit
for the Eastland high athletic fund,
the school board has ordered re-
pairs made to the fence around the
athletic field. The work is to be
done at once.

If the rodeo on July 4th is any-
thing like the success that is an-
ticipated, another rodeo is to be
held on Labor Day.

7,000-BARREL WELL COMES IN NEAR STAFF

Rhodes Gets Record Produ-
cer On Henning Lease
From Sand 3,175
Feet Deep.

Seven thousand barrels a day!
The mightiest gusher in the his-
tory of Eastland county since Pioneer
was at its height in 1922 be-
gan pouring forth 300 barrels an
hour of 43 gravity oil, Saturday
at noon, and hours later was still
spouting at that terrific rate.

To an Eastland operator, A. H.
Rhodes—smiling, popular "Andy"
—goes the honor of bringing in
this record-breaker.

The Prairie Pipe Line company
could not handle the flood of golden
treasure. It was reported as
taking more than 100 barrels hourly
while, in order to save the re-
mainder, an army of 40 men work-
ed feverishly to throw up earthen
banks.

"Running wild" was the way one
veteran oil executive expressed it.
And his enthusiasm was character-
istic of the excitement that the
gusher produced. Hundreds rushed
to the scene.

The oil is exceptionally high
gravity and, at the rate the well
was flowing Saturday, it would
produce \$10,000 worth of oil a day.
It is the Louis Henning No. 1
and it virtually opens up a new
pool. It is in the Sibley pool north
of Staff, but it is at a lower depth
than the other wells hit production.
Rhodes failed to get oil around
2900—the regular pay—so he went
on to 3175 and hit the Ranger sand.
And he got a gigantic gusher that
equals and perhaps exceeds any-
thing that the famous Merriam
district witnessed during the boom
10 years ago.

In fact, the well will rank near
the top among Eastland county
gushers since the McCleskey back
in 1917 marked the discovery of oil
in the county. The Norwood was
bigger and there were two wells
at Pioneer nearly six years ago
that exceeded it.

The biggest well around East-
land during the boom—until the
Henning well—was the Martin well
of the Eastland Oil Co., south of
town, which produced 3200 barrels
flush.

This well five or six days ago
hit the sand at 3175 and began
making \$5 barrels an hour. It was
later drilled three feet in and re-
sponded with 70 barrels an hour.
Near noon Saturday it was aggr-
ated and then the rush came—esti-
mated at 300 barrels hourly.

"Stop" Signs Must Be Obeyed, Says City Manager

Failure to observe the "stop"
signs at all street entrances to
the Courthouse square and at
some streets where they meet the
Bankhead highway or Seaman
street will be punished by arrest
and fine, according to City Man-
ager J. H. Cheatham. "The ordi-
nance was passed some time ago
and the people have been duly
notified and instructed, and now,
if they fail to observe the ordi-
nance, they will be punished,"
said the city manager.

Miss Mitchell To Teach 3rd Grade In South Ward

Miss Ruth Mitchell of Eastland,
a graduate of the Texas Woman's
College, has been elected teacher
of the third grade in the South
Ward school. This action was tak-
en at the last meeting of the school
board. For the last two years
Miss Mitchell has been teaching at
Electra.

WELCH TANK CO. TEAM TO PLAY AT CROSS PLAINS

The Welch Tank Company has
a fine ball team that has made a
splendid record on the diamonds.
The team will go to Cross Plains
today to meet a team there that
has won a high rating and an
interesting game is expected.

THURSDAY AFTERNOON CLUB OFFICERS REPORT

The annual reports of Thursday Afternoon Club officers follow:
The librarian, Mrs. A. H. Johnson, reports to Thursday Afternoon Club showing for the year: Average number of books loaned each library day was 55. Average receipts each month, \$40.00. Five hundred books added during year, and 2,959 books in library. Postage expended in notifying persons of overdue books, \$2.00.
Mrs. Earl Conner, treasurer's since May 18, 1927, to date, \$1,154.33, balance last year \$171.77; disbursed, \$1,165.59 from both funds, leaving balance of \$160.51. Total dues collected \$222.50. Total fines \$4.20. Five unpaid dues \$20.00. Balance in library fund, \$163.55 and \$32.86 in general fund.

Annual report of Mrs. Carl Springer, recording secretary of 1927-28, to June 14: Club meetings held; and attended, by secretary 15; Active members at beginning of year 28; resigned 2; moved away 4; transferred to associate list by request 4; new members 13; total active members as of June 14th, 31; associate members 22; September, 1927-28, new associate members, 3; gained from active list, 4; total on June 14, 1928 is 15. Average attendance per meeting 20 4-5; average absentees, 9 14-15. Percentage of attendance 67%. Fines for absences, \$4.20. Absent with excuse \$1.13; absence unexplained, 24.

Mrs. C. U. Connelley, treasurer clubhouse board, submitted an itemized statement of receipts, totaling \$896.63 paid in by the club pledging their support to the Community Clubhouse; dues, benefits and by rentals, for Key and Bible Classes and Musicales. Checks covering disbursements, \$1,009.49, leaving a deficit of \$110.86.

The report of Mrs. James Horton, chairman of the Year Book committee, for committee, Mmes. J. M. Perkins, and J. M. Armstrong, show course of study for year, American Culture, in literature, art and music, as presented through libraries, and given geographically with ancient European library as background, and America's tour in the east or New England States, progressing westward, then south, concluding with Our Home Town, Eastland Library, and art pilgrimage contest by Eastland school children. Observance of Federation, Art, Texas, and Drama Days, met all requirements of state federation. The assigned roll call met departmental requirements of the federation; size of year book met requirements of state federation. Having met all requirements of federation, and carried out a continuity of thought throughout the program, the year book, won first prize in the Sixth District T. F. W. C.

Mrs. John D. McRae as auditor, reported treasurer's books in most excellent condition, with work admirably done.

Mrs. W. E. Stalter gave the club her interesting report made at District T. F. W. C.
The Thursday Afternoon Club is devoted to the purpose of maintaining the Eastland Public Library, and all club dues, outside legitimate expenses, are devoted to this project.
A list of the most recent acquisition in library books, was published in Friday's Eastland Telegram.

PIANO RECITAL

On Monday evening, June 18, at eight thirty o'clock, at the community club house, Grover C. Morris will present his pupil, Miss Bernice Johnson in piano recital.
She will present a well-balanced program of classical music. Every body is cordially invited to hear this talented pianist.
Her program will be: Gavotte, Bach; Sonata No. 1, Mozart; Menuet, Paderewski; Dance Caprice, Greig; Cabaletta, Lask; Coppelia, Delibes; Marche Fantastique, Wilson G. Smith.

MISS ZULA OVERBEY IS BRIDE OF TURNER COLLIE

Miss Zula Overbey, daughter of Mr. and Mrs. T. L. Overbey, was married at 10 o'clock Saturday morning at the family residence; 511 South Walnut Street, to Turner Collie, a leading young business man of Eastland, a brother of B. M. and W. B. Collie, of this city. The ceremony was witnessed by immediate members of the families of the bride and bridegroom. The ring ceremony was performed by the Rev. Daniel L. Collie of Fort Worth, an uncle of the bridegroom, the marriage vows being taken before an improvised altar of pink roses and ferns. Lovely groups of flowers were used throughout the rooms.
The bride, a beautiful girl, was daintily robed in pale pink georgette, and carried a shower bouquet of white carnations. Miss Faye Overbey, in pink taffeta frock, and carrying a bouquet of white flowers, was maid of honor, and Wayne Jones was best man. Mendelssohn's wedding march was played for the entrance of the young couple by a sister of the bridegroom, Mrs. J. T., who also played Traumeri during the cere-

mony.
Immediately after receiving congratulations, Mr. and Mrs. Collie left on a wedding trip which is to take them into Southern Texas and through portions of New Mexico. They drove in their car.
The bride, who has a host of friends, is noted for her charm, talent and beauty. For several years she was on the accounting staff of the Oil Belt News, the Eastland Tribune and the Eastland Argus-Tribune. Mr. Collie is connected with the Earl Bender Insurance company, coming to Eastland from Gorman. Both the young people are prominent in the activities of the Eastland Methodist church.

Attending the wedding were: Mr. and Mrs. T. L. Overbey and their daughters, Faye and Bess; Mr. and Mrs. H. C. Overbey, Mr. and Mrs. B. M. Collie, Mr. and Mrs. W. B. Collie, Mr. and Mrs. T. J. Haley and their son, Mrs. L. V. Reese, Mrs. I. E. Bashani, Mrs. Ella Rainwater of Fort Worth, Mr. and Mrs. George B. Rhoads of Brokenridge, Mrs. J. E. Walker Jr. of DeLeon and her daughter, Miss Willie Merle Walker; Mrs. T. F. Morrow of Gorman, Mrs. A. M. Allen and children of DeLeon.

EASTLAND NIGHT CONNELLEE HOTEL OPENING

Eastland night, the second of the series of beautiful affairs that mark the informal opening of the Connellee Hotel, was a brilliant success Friday, and attested the appreciation felt by our citizens for this latest and greatest proof of Eastland's growth and increasing civic strength and beauty. There was an immense throng present of Eastland's social element. Young married people, many older ones, all the younger dancing set, guests, with families, here for the hotel opening. A perfect jam. The music of six instruments of Worth Hotel orchestra was divinely inviting. The buffet supper delicious, and everybody happy.
The formal opening of Saturday night, a dinner dance, was termed West Texas night.

MISSIONARY LESSON TO BE DRAMATIZED

The social and literary meeting of the Missionary Society of the Methodist church, on Monday afternoon, to be held at the home of Mrs. I. J. Killough, will have a novel program presented of the missionary lesson for the day, in that the subject, "Medical Missions After Fifty Years," has been dramatized, and will be played by a nurse, a doctor, a native and a visitor from the Methodist Missionary Society of Eastland, and presents a scene in a hospital, in Shanghai, China. Those taking part will be Mmes. Frank Singleton, Castleberry and J. A. Caton, directed by Mrs. Frank Crowell, leader of the program.

POLITICAL ANNOUNCEMENTS

The Eastland Telegram is authorized to announce the candidacy of the following, subject to the action of the Democratic primaries in July:

County Tax Assessor—
MRS. FANNY BURKETT.
ELMER COLLINS.

Sheriff—
LOSS WOODS.
VIRGE FOSTER.
JOHN HART.

County Superintendent of Schools—
H. A. REYNOLDS.
MISS BEULAH SPEER.
J. C. CARTER.

County Judge of Commissioners' Court—
R. LEE POE.
CLYDE GARRETT.
WILBOURNE B. COLLIE.

County Tax Collector—
A. M. (OTT) HEARN.

District Clerk—
W. H. (BILL) McDONALD.

County Attorney—
J. FRANK PARKS.
JOE H. JONES.

Member of Congress From 17th District—
R. Q. LEE, OF CISCO.
R. N. GRISHAM,
Of Eastland.
T. P. PERKINS,
Of Mineral Wells.
W. HOMER SHANKS,
Of Clyde.

For Judge 91st District Court—
GEO. L. DAVENPORT.

Member Texas Legislature for 106th District—
OSCAR F. CHASTAIN.

Associate Justice, Place No. 2, 11th Court of Civil Appeals—
B. W. PATTERSON.

County Commissioner, Precinct One—
V. V. COOPER (Re-election).
J. T. SUE.
LON TANKERSLEY.

County—Clerk—
R. L. JONES.

The session will open with the Jubilee song, with devotional period "Discipleship Motives," led by Mrs. George Brogdon. The discussion question, is an interesting one, "What Motive Should Accurate Disciples of Jesus in Their Work?"
A most original and delightful afternoon is anticipated. Mrs. Killough will have as assistant hostesses Mrs. Frank Davis, Mrs. W. G. Bull, and Mrs. June Kimble.

MISS MARTHA STIPE MISS BICKERSTAFF'S GUEST

Miss Martha Stipe of Dallas, editor of Holland's Magazine, is a guest for the week-end in the home of Mr. and Mrs. B. B. Bickerstaff. Miss Stipe and Mrs. Bickerstaff were girlhood chums in the University of Texas. On Sunday Miss Stipe and Mrs. Bickerstaff will visit Lexie Dean Robertson, the famed Texas poet, in Rising Star.

FRIDAY BRIDGE CLUB MEETS

Mrs. John M. Knox Jr. entertained the Friday Afternoon Bridge Club in a most charming manner at her residence, adorned with bouquets of roses and gladiolas for the occasion, with three tables arranged for auction appointed in rose tally and score pad effects. Club members present were: Mmes. John D. McRae, Earl Conner, W. H. Taylor, George A. Davison, A. H. Johnson, John Turner, W. S. Poe, E. Roy Townsend, W. E. Chaney and Milton Lawrence. Guests substituting for absent members were Mrs. Frank Knox,

EASTERN STAR DELEGATE TO BE ENTERTAINED

The Eastland Chapter of the Order of the Eastern Star, has been actively engaged the past week in rounding up plans for the entertainment of the two hundred and fifty delegates expected in this city from thirty-four towns, to attend the school of instruction to be held all day next Wednesday in Masonic Temple, opening at 9 a. m. The sessions will be conducted by the Worthy Grand Matron of the State of Texas Mrs. Lula Le Fan, and Worthy Grand Patron, L. E. Tenison.
Later in the week, committees will be named to serve on reception, by the district assistant grand

deputy worthy matron, Mrs. L. J. Lambert, and the matron of the Eastland Chapter, Mrs. F. W. Miller.
Through the offices of Mrs. W. Z. Outward, chairman for the Eastern Star refreshment arrangement, the delegates, visitors and local Eastern Star members who attend the school, will be furnished an appetizing noon dinner, and a six o'clock tea, by the ladies of the missionary Society of the Methodist church, represented by Mrs. E. C. Satterwhite, general chairman in charge of the dinner and tea, with her appointed assistant chairmen.

Several long tables will be arranged in the intermediate department assembly room of the Methodist church, for the guests, and one table will be reserved for the grand officers.
All tables will be decorated in the colors of the Eastern Star, and appointed in designs to conform with the observance of the order.

At noon a delicious chicken plate dinner will be served, with several vegetables, condiments, bread and butter, tea and pie with coffee for dessert.
The evening meal will consist of a variety of sandwiches, potato flakes, and tea, iced or hot. Seventy-five cents will be the charge for the dinner and thirty-five cents for the tea. Mrs. Satterwhite has requested that each chairman be responsible for the serving

of the food in her department.
The committees will be as follows: General, Mrs. E. C. Satterwhite; of chicken supplies, Mrs. Jones; chairman to provide tables, Mrs. W. E. Coleman; man for condiments of kinds, Mrs. L. A. Constable; man for pies or dessert, Mrs. Satterwhite; chairman for (Continued on Page 1)

Frigidaire sales break all records
Surplus power . . . rapid ice freezing . . . beauty and convenience of design . . . greater value at low prices . . . and proven dependability win overwhelming preference for Frigidaire
Again Frigidaire sales have broken all previous records. In the past three months more have been sold, and more installed than in any previous three months in Frigidaire history. More than ever before the nation is swinging to Frigidaire. For Frigidaire, with all its overwhelming tangible advantages, carries in addition the prestige of twelve years of proven service and twelve years of constant experiment and improvement.
Frigidaire has the surplus power which freezes ice . . . always
You are going to buy an automatic refrigerator for one hundred different reasons and there are fully one hundred different reasons for your having one. But how much are you taking for granted? It requires surplus power to freeze ice quickly and regularly and it requires the highest mechanical efficiency to freeze ice economically.
In its many years of experience in the perfection of fine mechanical products General Motors has learned the secret and the necessity of surplus power. There is power in Frigidaire for every emergency. Power to freeze a fresh supply of ice cubes for every meal even on the hottest days. And in Frigidaire, mechanical efficiency has been carried to the highest level. For Frigidaire uses current only when the motor is running.
Frigidaire requires but one electric connection. There's nothing simpler to install or use.
Frigidaire has a powerful "V" type drive and a fan to lower operating costs. Frigidaire mechanism can be placed wherever you wish it . . . out of sight and out of the way. Frigidaire is quiet and stays quiet. Frigidaire need never stop refrigerating . . . for it can be serviced on the spot. Frigidaire can be kept clean . . . inside and out. And remember that Frigidaire is made and guaranteed by General Motors, the World's largest makers of mechanical products.
Small down payment
Point by point compare Frigidaire value. Then compare Frigidaire's low prices. Place your order now and have Frigidaire in your home at once. The smallest model can be bought for a first payment . . . as little as \$25.

A new Tu-Tone Frigidaire with a storage capacity of 9 cubic feet. Note the practical beauty of the cabinet. There are four ice trays in this model which will produce an abundance of large ice cubes . . . 10 pounds at a time, a fresh supply for every meal

GO TO CHURCH SUNDAY

Churches in Eastland earnestly request that you go to church of your choice. The various churches have special programs and the public generally is in-
terested in the same.

Episcopal Church

Worship with the Methodist last Sunday was most pleasant one. The service was very good and the sermon could have expected to be needed today in our separate loyalties and abandonment of the primacy of spirit and service dimension of fellow-

ship of faith is rapidly and it will come all the more to exonerate our great his fellowships rest not and are not held to be alone. They are, at communions, united sentiments, united loyalty, and by vital re-

W. Walthall, Pastor

embodied in their life. There is a spirit of a leader and though a letter in every detail of the spirit we fail to see our Lord. The best steps toward progress in the construction of those concrete virtues which are at the better way of life, though to protect the old, to denounce the wrong, to build like giant towers, from within out, working its way while the forester prunes and creates and gives direc-

tion will be held next Sunday usual hours—Sunday morning, preaching 11 o'clock; 8 o'clock. We will like very much to member of the church at Sunday morning. The church has asked the pastor with church for another year, I am not myself into the work strength and ability I crave the full co-operation entire church. We are very glad to have any one to do so to worship

for the morning "Every Man His Work." place in the church for there is a work each in a way no other can welcome—you will enjoy come.

Methodist Church

Memorial Supper" will be the sermon by Rev. T. Turner at 11:00. A Symbol, will be of the message at two messages, following of the revival, will their object to give the teaching concerning supper and baptism new converts who have themselves church may know the true of the ordinances. These will be delivered in a spirit and to all who wish the church ordinances. baptizing of the re-take place at the evening.

Day School meets at Ed T. Cox, superintendent. We have four Adult for men and two We have a Young department with three young men and woman and Intermediate for boys and girls sixteen meet at the

Departments for all children church. The Primary and Begin-

Rev. W. T. Turner

under nine meet at the Episcopal church.

We have four Unions in our B. Y. P. U. Department. The Seniors meet at the cottage at 6:30 p. m., under the direction of Miss Moore and Mr. Carlisle. The Intermediates and Juniors meet at the church at 6:30 with Mrs. Turner, Mrs. Rains and Mrs. Williams as leaders.

Concerning Our New Church Building

The congregation voted unanimously to enter a building campaign. A committee of ten has been appointed to recommend to the church the building plan and the financial plan to be followed. The church asked this committee to make all haste to the end that we may enter the campaign to raise funds not later than Sept. 1st. The committee is already at work considering plans conferring with builders, etc. and will possibly be ready by July first to submit plans to be adopted by the church. If plans are adopted at the July business meeting the church will then decide as to the exact date to begin the campaign for subscriptions. The date will not be later than Sept. 1st.

A Word of Appreciation

The pastor desires to express his appreciation of the fine spirit of loyalty and cooperation shown by so large a number of the members of the church during the recent revival. He also wishes to express his appreciation of the fine spirit of fraternalism shown by the other pastors and members of their congregations. The attendance was good throughout the two weeks. Thirty have joined the church, to date, twenty-three of that number joining for baptism. This makes a total of forty-eight additions since the pastor came to the field two and a half months ago.

Our trip to the Baptist World's Alliance

We are indeed grateful to the congregation for making it possible for both pastor and helpmate to attend the Baptist World's Alliance at Toronto, Canada. If nothing providential hinder us we will leave Monday, June 18th. Stop first at Detroit, Mich., on Wednesday and Thursday, where we will attend the closing sessions of the Northern Baptist convention. Then on to Toronto for the opening session of the Baptist World's Alliance, Saturday, June 23rd. Will remain in Toronto attending the daily sessions of the Baptist Congress until Thursday the 28th. Will return to Eastland Saturday, June 30th, thus being absent from the pulpit only one Sunday.

The Baptist World's Alliance is composed of representatives from the various Baptist bodies of the world. It is a fraternal congress which meets for exchange of ideas and for fellowship. It has no boards, conducts no co-operative work of any kind. The various bodies may not all be in full accord on all doctrines and practices. It is what its name indicates, an Alliance of Baptist from the various brotherhoods of the earth. A ship load is coming from Europe. Among them will be Baptists who have suffered persecution in Russia and Roumania for preaching the gospel. Visitors will be present from China, Japan, Australia So. America, from the United States and Canada. Many will go from Texas. Large delegations will go from Dallas, Fort Worth, Waco and other Texas cities. The pastor of the church at Breckenridge, Rev. Shirar, and his wife will attend from this section, with Abilene and other places west represented.

First Baptist Church

Mother: "Willie, why is little sister crying?" Willie: "I just dug a hole and she's crying 'cause she can't take it into the house."

Church of Christ SUNDAY SCHOOL LESSON FOR SUNDAY, JUNE 17, SUBJECT, "THE CRUCIFIXION"

Sunday School 9:45 a. m. In addition to the regular class work by the several teachers, Mrs. Boggs will have a special demonstration of the lesson in the object room. The crucifixion of Jesus is the climax of our six months study of His life. The lesson will be taught impressively by experienced teachers.

Communion 11 a. m. Preaching 11:15 a. m. Theme "Immortality." Evening service 8 o'clock. Subject, "Repentance." Spirited singing by the congregation, J. E. Meroney leading, will feature each service. Ladies' Evangelism class, Tuesday afternoon 3 o'clock. The "Tabernacle" with a blackboard illustration, will hold the interest of this active group for the hour allotted. The special question, "Why do you believe the Bible to be inspired?" will be answered. All the ladies in the city and community are cordially invited. Wednesday night 8 o'clock, "The Law a Schoolmaster," will be carefully studied and illustrated. Friday night, song practice, J. E. Meroney, director. Sunday morning sermon, "Im-

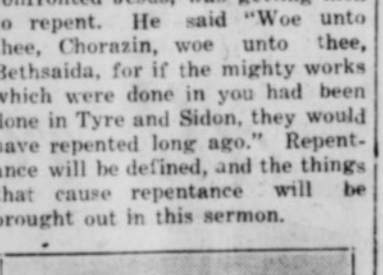

H. W. WRYE, Minister.

mortality." The thought of deathlessness; imperishableness, should stir us all to a happy anticipation and energy to make our calling and election sure. "I have immortal longings in me," is the voice of Shakespeare for all making. "If a man die, shall he live again?" "Immortality" is the voice of God in the soul. God has not planted a desire in the heart of man for which He has not made ample provision—music for the ear, beauty for the eye, fragrance for the nostrils, food for the body, thought for the mind, love for the heart. Immortality proves a spiritual fact. "Dust thou art, to dust returnest," was not spoken of the soul. The philosophy of repentance: The doctrine of repentance is sadly needed today. We need a John the Baptist with the courage of Elijah to thunder against the Ahab and the iniquities of the world. The difficult problem that confronted Jesus, was getting men to repent. He said "Woe unto thee, Chorazin, woe unto thee, Bethsaida, for if the mighty works which were done in you had been done in Tyre and Sidon, they would have repented long ago." Repentance will be defined, and the things that cause repentance will be brought out in this sermon.

St Francis Xavier Catholic Church

Methodist Church

Rev. F. E. Singleton.

Rev. D. L. Collie of Fort Worth will occupy the pulpit of the Methodist church at the 11 o'clock service Sunday morning. The Rev. Dr. B. M. McGowen of Abilene, dean of the McMurray College, will preach Sunday evening at 8:15 o'clock. Special music has been arranged for both services. The Rev. Frank E. Singleton, pastor of the church, is confined to his home with an infected eye. A substance lodged against the eyeball and had to be removed, but an infection set in and the eye is very painful.

Apprentice System Servant Solution GENEVA, June 14.—Fourteen Swiss cantons have now formally adopted the system of apprenticing girls to housewives in order to become qualified housekeepers. In most of the cantons a period of one year's service for the apprentice is required. Ten of the cantons have introduced apprenticeship contracts and examinations at the end of the apprenticeship with certificates showing that the young girl has become a qualified housekeeper. Assistance is then given her, if she desires, in finding a place to work as such.

Mrs. M. L. Keasler was called Tuesday to Mineral Wells by the death of her father, Judge R. W. Patteson. Judge Patteson had been a resident of Mineral Wells for twenty-four years, and his passing is mourned by thousands of Palo Pinto county residents. The Sunday School convenes at 9:45 a. m., with a class for all ages. The Daily Vacation Church

BY H. W. WRYE Golden text: "God commendeth his love toward us, in that, while we are yet sinners, Christ died for us." (Rom. 5:8).

Being sentenced, Jesus was delivered to the soldiers to be executed. Before starting on the death march with their distinguished prisoner, the officers amused themselves by removing His clothing and arraying Him in a scarlet robe. A crown of thorns was then put on His head and a reed in His hand for a scepter. In mockery, they bowed the knee to Him, saying "Hail, King of the Jews." Then they spat on Him, and took the reed and struck Him on the head. This period of tantalizing was to show their scorn, and to hold Him up to ridicule. This all over, His own clothing was put on Him, and the march to Golgotha began; He, bearing the heavy cross, was so exhausted from the unmerciful cruel treatment received since His arrest in Gethsemane, that He sank under the load, and another man was required to assist in bearing the burden. Our Lord's physical strength gave way, but His marvelous love for man, yea; even for

us into sin; and if we have unjustly taken from our neighbor or helped in any way to defraud our fellowman we must make restitution. Otherwise there is no forgiveness. Restore in this life or be punished eternally in the next. We must have charity for our fellowman because without charity it is impossible to please God. "In the course of justice none of us deserves salvation." Christ forgave Peter who denied Him. He forgave the penitent thief and we now He played for His persecutors. Hence Christ has mercy and forgiveness for all who repent and resolve to mend their ways. REV. M. COLLINS, Pastor.

His tormentors was never shaken. "Golgotha," is a Hebrew word meaning "something round." "Calvary" is used only once in the English version (Luke 23:33) and it means "skull." It is not known why it was called "skull," neither is it definitely known where it was; but it was near the city, and in the place there was a garden (John 19:20-41), and was on a public road (Matt. 27:39; Luke 23:26).

Arriving at the place of execution, after the enactment of many startling horrors on the way, the brutal and revolting crucifixion of Jesus Christ began. He was stripped of His clothing and laid down upon the implement of torture—the cross. His arms were stretched along the cross beams, and at the center of the open palm, a huge nail was driven home into the wood. Then through the feet another long nail tore its way through the quivering flesh. To prevent the hands and feet being torn away by the weight of the body, there was a wooden projection about the center of the cross strong enough to support at least in part, the body which soon became a weight of agony. At this point the beam was lifted, the end of which was dropped into a hole with a dull thud that gave the sufferer a shock indescribable.

Judge Patteson had been a resident of Mineral Wells for twenty-four years, and his passing is mourned by thousands of Palo Pinto county residents. The Sunday School convenes at 9:45 a. m., with a class for all ages. The Daily Vacation Church

At Calvary

"Golgotha," is a Hebrew word meaning "something round." "Calvary" is used only once in the English version (Luke 23:33) and it means "skull." It is not known why it was called "skull," neither is it definitely known where it was; but it was near the city, and in the place there was a garden (John 19:20-41), and was on a public road (Matt. 27:39; Luke 23:26).

Arriving at the place of execution, after the enactment of many startling horrors on the way, the brutal and revolting crucifixion of Jesus Christ began. He was stripped of His clothing and laid down upon the implement of torture—the cross. His arms were stretched along the cross beams, and at the center of the open palm, a huge nail was driven home into the wood. Then through the feet another long nail tore its way through the quivering flesh. To prevent the hands and feet being torn away by the weight of the body, there was a wooden projection about the center of the cross strong enough to support at least in part, the body which soon became a weight of agony. At this point the beam was lifted, the end of which was dropped into a hole with a dull thud that gave the sufferer a shock indescribable.

On the Cross Crucifixion is the most horrible form of execution the malignity of man has yet devised. It involved an unnatural position and tension of the whole body so that the least attempt at movement caused exquisite pain. The nails through the hands and feet that are full of nerves and tendons, brought about acute suffering, while the lacerated members were at such a distance from the heart that no speedy results followed. The exposure of so many wounds in His body produced inflammation. There was a general interruption of the circulation with the result that the blood vessels of the head became pressed and swollen. This caused unbearable excitement, headache and nausea. The nerves being shocked did not function, which resulted in the whole body being convulsed in a raging flame of indescribable pain. And it must be remembered that all these symptoms were of gradual increasing school closed Friday evening. We had a very successful school. More than one hundred registered, and most of them attended regularly the entire time. A good demonstration of the work done was given on Friday evening.

Presbyterians are now looking forward to Buffalo Gap, July 10-17, when "The Presbyterian Encampment" will be held. A number have already decided to go, including some of the junior boys. It is a great place to spend a few days. Buffalo Gap is located on the west look of the main highway from Abilene to Ballinger and on the main line of the Santa Fe, twelve miles south of Abilene. Beautiful and scenic for situation—one of the most scenic drives in West Texas. The Workers' Council appointed a committee on last Monday night to work up a delegation.

severely, and to all this was added a raging thirst. Through all this physical suffering, between two thieves to intensify the ignominy, and with the awful heavy load of human sin on His own innocent heart, Jesus was at no time unconscious. His profound love and heaven born sympathy for humanity never diminished as is evidenced by His brutal and pitiless murderers in their ignorance heard Him plead "Father, forgive them, for they know not what they do."

This the first word from the cross illustrates His teaching—"Love your enemies, do good to them that hate you and despitefully as you." From nine o'clock to noon the mocking crowds relentlessly kept up their torture. While the soldiers gambled for His clothing, one of the thieves appealed to Him to remember him. Jesus replied, "Today shalt thou be with me in paradise." The second word showed His great anxiety to save even to the uttermost. Jesus had a right to forgive sins while on earth and gave penitent believers, and He did this more than once before the law was nailed to the cross and thereby annulled. On Pentecost the Christian law of pardon was ushered in and a new birth was required.

Following this our Lord beheld His mother. She was probably a widow at this time, she would need a comforter and a home. He said, "Woman behold thy son," and to John, "Behold thy mother." The third word from the cross. It was the noon hour. The sun was riding high in the heavens, not a cloud to mar the beauty of his effulgent rays, the moon on the opposite side of the earth, making an eclipse an impossibility. The sun ceased its brightness and the land was enveloped in utter darkness. The moon and stars unable to shine, as they are empowered through reflex influence of the sun, an unparalleled event is recorded. Three hours of raging human passion, endured with Godlike patience were succeeded by three hours of drakness described as a place of torment for the devil and his angels. Certainly it was a miniature hell, and Jesus cried, "My God, my God, why hast thou forsaken me." Death, means separation. Human guilt borne by the Lord had sunk Him into the fathomless depths of that awful night to tread the wine press alone fulfilling prophecy by Isaiah 63: 2, 3. He was separated from God, experiencing death the penalty for sin as decreed 4000 years before. Thus the fourth word from the cross, was the bitterest cry that ever smote human ears.

The end was at hand. Jesus

ed. Then He said "Father into thy hands I commend my Spirit," and having said this, Jesus uttered a loud voice, and gave up His Spirit. "It was His dying cry, the triumphant note of a conqueror." The veil of the temple was rent in the midst of an earthquake the rocks were rent, and the tombs were opened; and many were raised, and came into the city and appeared to many. Then the chief officer, the centurion said, "Truly this was the Son of God."

SOCIETY

MURRAY-RICE WEDDING AT STRAWN

Before an audience that filled the beautiful Methodist church at Strawn, at eight o'clock Tuesday evening, Miss Cleo Rice, daughter of Mr. and Mrs. G. L. Rice, became the bride of A. W. Murray of Dallas. The choir left and altar were banked with ferns, trailing vines and pink roses. The chancel was interwoven with foliage, vines and shasta daisies. Large baskets of daisies added beauty and charm to the bower of green. The pews for the families were marked with pastel shades of sweet peas and tulips.

Miss Wilda Dragoo of Eastland played most perfectly Nocturne, Chopin, as the first number of a violin program, accompanied at the piano by Mrs. L. R. Hogan, also of Eastland. Mrs. Victor E. Echols, of Strawn, sister of the bride, sang very charmingly "I Love You Truly," accompanied by Miss Dragoo and Mrs. Hogan. Miss Dragoo played "At Dawning," just preceding the wedding march. The wedding party entered to the strains of Lohengrin's Wedding March, and as a recessional Mendelssohn's wedding march was given.

Miss Maggie Cato and O'is Rice, the bride's brother, were the first of the wedding party to enter. They were followed by Miss Montez Cato and Jack Echols. Then little Frances Marie, who carried the rings in white Calla lilies, Mrs. Roy Jones and Mrs. Charley Watson, matrons, entered next, followed by the flower girls, Cecelia McDowell and Doris Jones. The bride entered on the arm of her father, and the groom came from the pastor's study with his best man, T. S. Graves, of Dallas. The double ring ceremony was performed by the Rev. Frank Blackburn in a most impressive manner, during which Miss Dragoo played "At Dawning."

The bride was beautiful in a gown of white crepe chiffon and lace, made bouffant fashion, with uneven hemline. Her long, flowing veil, which was also worn by her sister, Mrs. Echols at her wedding, was worn coronet fashion and caught with orange blossoms. Her slippers were white moire. She carried a shower bouquet of bride-roses and lilies of the valley.

The bridesmaids and matrons wore taffeta frocks in pastel shades, large picture hats to match, and carried bouquets of pink rosebuds and a fern. After the ceremony a reception was held at the home of the bride's parents for the wedding party, relatives and out-of-town guests. Mr. and Mrs. Rice and the wedding party formed the receiving line. The bride's book was presided over by Mrs. Elmer Cook. A large white wedding bell was suspended over the table, which held the beautiful three-tiered wedding cake. The table was laid with white lace over pink, and covered with sweet peas. Streamers of maline extended from the bell to the four corners of the table. The bride cut the cake, which, together with fruit punch was served to the guests by Mrs. Sanford Tunnel of Dallas and Mrs. Thelma Longbottom of Abilene. The punch was served from a huge block of ice in which were frozen bride's roses and sweet peas.

The bridal couple received many handsome gifts, attesting the love and esteem in which they are held by their many friends and relatives. A beautiful and thoughtful feature of the wedding was the fact that the attendants at the wedding with the exception of Mrs. Watson and Mr. Graves, were either related to the bride or groom.

Following the reception the bride and groom drove to Fort Worth, where they left the next morning for points in Colorado. Her going away frock was a French model suit of tan, with accessories to match. They will be at home in Dallas.

The bride, who is known and loved for her many lovable traits of character, was educated in the public schools of Strawn and the Texas Woman's College at Fort Worth. She was a popular and successful teacher at the South Ward in Eastland two years ago. Mr. Murray, who formerly lived in Eastland, is a young man of many sterling qualities. He holds a responsible position with the Missouri & Pacific Railroad in Dallas. Eastland friends attending the wedding were Mr. and Mrs. Chas. C. Robey, Mr. and Mrs. Roy Allen, Mrs. L. R. Hogan, Norman Caton, and Misses Wilda Dragoo and Frances Hefley.

MARRIED George Johnson and Miss Paul Felterson, both of Abilene, were married Friday afternoon by the Rev. Frank E. Singleton, at the Methodist church parsonage. They will live in Abilene.

EASTERN STAR STUDY CLUB

An interesting lesson was conducted by the Order of the Eastern Star with Miss Sallie Morris as teacher, Friday afternoon in the Masonic Temple, when members, attending were Mmes. L. J. Lambert, J. A. Beard, R. L. Young, C. E. Sikes, B. L. Mackzell, Lindsley, Karl F. Page, D. J. Fiensy, Ed. Bills, Guy Patterson, Harry T. Johnson, Clair McCormick, W. Z. Outward, The Worthy Matron, Mrs. W. F. Miller, and Miss Sallie Morris.

Drill practice was held in preparation for the coming School of Instruction, when the Eastland chapter will have a part on the drill program.

Charles Fagg, the son of Mr. and Mrs. T. L. Fagg, a student at the West Texas Tech., in Lubbock, came to Eastland for the week-end and to attend the opening of the Connellee Hotel.

Mr. and Mrs. Campbell, and Mrs. Flint of Abilene and Pat Campbell, a nephew of Mrs. Fagg were guests of Mr. and Mrs. T. L. Fagg at the dinner given donors to the Connellee Hotel by the management.

NEW WHIPPET SIX PROVING VERY POPULAR

Lowest Priced Six In World Enjoys Wide Acceptance Among Car Buyers.

In the immediate acceptance of the new Whippet Six which made its initial appearance in the showrooms of all Willys-Overland merchants a few weeks ago, indications are that interest and popularity of this new light six will be as outstanding as that of the Whippet Four when it was introduced two years ago.

Well informed men in the automobile industry declare that the Whippet Six strikes a new achievement for design, quality, and performance in the light six cylinder field as the Whippet Four did in the light four group two years ago. Both cars set a new trend in their separate price classifications since they embraced characteristic features of design and construction which were new in their classes.

The introduction of the new Whippet Six brought to the automobile market the lowest priced six cylinder car in the world. Equipped with a seven-bearing crankshaft, full force feed lubrication and other features and a performance rating that is said to equal that of many higher priced cars, the Whippet Six has found a ready market.

Buying Demand. Willys-Overland merchants all over the nation report that the new Whippet Six is registering the greatest buying demand in the history of the light six field and every effort is being made at the company's factories to maintain production of this model at capacity to fulfill the volume of orders that have been received by the sales department since the car was first placed on display.

Although the Whippet Six has been on the market but a few weeks, it already has established an unusual performance record

which has resulted in a continually increasing demand from buyers. This of course has necessitated heavy production schedules on this line of cars.

Building Whippet Four.

Production of the Whippet Four also is being maintained at capacity, officials of Willys-Overland declare, with no evidence of the demand for these low priced cars showing any signs of diminishing. This demand has been constant since the first of the year when John N. Willys, president, announced the drastic price cuts which brought the Whippet four in direct price competition with the lowest priced fours in the world.

Willys-Overland has considerably enlarged its production facilities at all its plants to meet this record buying demand which has set daily, weekly and monthly production records during the current year.

Executives of the company said that despite the high production program and the record shipments that have been maintained for months, the company went into June with approximately 30,000 unfilled orders for immediate delivery of Whippet Fours and Sixes and Willys-Knight Sixes.

When A Girl Loves

THIS HAS HAPPENED Nathaniel Dann, an artist, is engaged to Virginia Brewster, whose father dies after losing his fortune in speculation.

Clariisa openly snubs Mrs. Farley, who is angling for the Deans millions, by giving Virginia the seat of honor next her father at a dinner party.

NOW GO ON WITH THE STORY CHAPTER XI Nathaniel rose and greeted his host politely but distantly.

"Then will you order it, my dear? Let us make a little occasion of the afternoon," he said smoothly.

When a servant responded to her ring Virginia gave the necessary instructions.

They talked desultorily of commonplace matters, each occupied with personal thoughts, until tea was brought.

with personal thoughts, until tea was brought.

Nathaniel was furious at the interruption, and Virginia was disturbed. She was wondering if Dean had overheard her wild words as he entered the room.

None of the trio wanted tea. Each simply went through the motions of taking it.

As the afternoon dragged on Nathaniel was about to despair of an opportunity to tell Virginia of his splendid offer and beg her to consent to go west with him.

"Virginia, you look as if a brisk walk in the fresh air would do you a lot of good.

"I'm sure you're much too tired to think of it," Dean put in hurriedly.

"No, I'm not! I think it would be fine. I'll be down in just a moment, Niel," Virginia said, brightening perceptibly.

Dean glowered at Nathaniel when she was gone.

"It's taking advantage of me to ask me that out here on the street, Virginia."

"We can go back to the house," she answered smiling slyly.

"Probably he's gone, if you mean Mr. Dean. I think I'd better go back, anyway; I'm feeling just a little bit tired."

A few minutes after Virginia returned to the drawing room, Clariisa ran upstairs to dress for dinner.

"She'll be an hour," Russell grumbled, "putting on no more clothes than a hula dancer. What'll we do? Have a drink?"

"No," she said. "I don't want one. You'd better not take any more if you're driving."

"Think I've had too many, huh? Well, say, you wouldn't blame me then if I did something I'd be afraid to do if I wasn't lit, would you?"

He came over to her and smiled with delight at what he considered his cunning.

Virginia made the mistake of smiling back at him. She knew instantly that it was a mistake, because he had her in his arms, kissing her on the lips before she could even suspect what he meant to do.

A tremor of disgust shook her from head to foot and she jerked violently to release herself.

"You have no right to make me a stumbling block in your career, Niel. I don't want you to go on doing pot boilers, always."

"They will permit us to marry, Virginia. And even at that you will find it hard enough to endure the loss of your money.

"I'd not let you do it. But I can't let you drop your morals, either."

"Well, I won't go west without you. But I'm going on with the pot boilers after I do the morals, because I can't stand this, and I won't let you starve for art."

"I've told you—"

"Yes, but you've never starved before. And you aren't happy where you are, so it's up to me to do something. Besides, you know, I expect to like being married to you."

"You started to tell me about something or someone you were afraid of, just before Mr. Dean came in," he said seriously.

"What was it, Virginia?"

"It wasn't anything. I was nervous," Virginia answered evasively.

"You named Chiri as one of your fears. That's ridiculous, Virginia, but if you want me to break with her entirely—"

"You don't think I'd be so priggish do you, Niel, as to want that I can't imagine why I said I was afraid of her, but just for the moment I felt sort of helpless and at everyone's mercy. And she did fail to give you my message, you know. That wasn't friendly."

"I only hope all my fears are as groundless as any on Chiri's account," Nathaniel told her.

"I know I was a silly, but it's easy to imagine things when you are unhappy. You do forgive me, don't you, Niel?"

from his lips. The movement brought her eyes in line with the door. For one horrified instant she ceased to resist her captor and lay still in his arms.

Clariisa stood in the doorway. (To be continued.)

EINSTEIN THEORY Of Relativity Is Declared Correct

By United Press CHICAGO, June 11.—The Einstein theory of relativity is correct, according to Charles E. St. John of the Mount Wilson observatory, who says he has proved it.

St. John's final and complete presentation of researches extending over six years, is published in the May Astrophysical Journal, edited by Professor Edwin B. Frost of the Yerkes observatory of the University of Chicago.

In explaining the paper recently Professor Frost said, "if the Einstein theory is correct, rays of light emanating from a body which is under strong gravitational forces will be slowed down as a result. The researches were to decide whether or not the theory complies with one of the searching tests which were proposed by Einstein himself."

The slowing of these rays or vibrations of light, Professor Frost said, "will produce a minute displacement of the dark lines in the spectrum of the body toward the red end of the spectrum, which has the longer wave lengths. A similar result would follow when

the rays from a star graze another star on their way to earth. Such was the case of the famous Einstein effect during the total eclipse of the sun.

"The amount of displacement sought, and found by St. John, is very minute, being a trifle less than one one-hundredth of a ten-millionth of a millimeter, which is one twenty-fifth billion of an inch. It was a small thing to look for, but a big thing to find."

Until Einstein announced his now-famous but little understood theory, it was generally believed that light rays traveled in waves, but in a straight path, and that an interruption of this path would stop the ray.

Most chewing gum is made from chicle, a gum obtained from the sapodilla tree.

Forensics Will Have Big Place At Summer School

DELIGHTFUL LITTLE CITY IN SOUTHERN EASTLAND COUNTY FINE NOW, HAS GLOWING FUTURE

Gorman, in the heart of one of the best farming regions of Central West Texas, reinforced by oil and gas development, is the most flourishing town of this part of the state.

When you find, in a city of 3,000, a hotel that would be a credit to a city tenfold that population; a hospital that ranks among the best in this part of the State; a golf course, a Country club with a beautiful lake; and a swimming pool of exceptional equipment and natural advantages—we repeat, when you find all these features in one city you have found a place that is remarkable and where life is filled with enjoyments.

Gorman, on an average, will give more cotton than any other city in Eastland county. It is the peanuts metropolis of the county. Other products of the soil including, vegetables, fruits, pecans, forage crops, corn and wheat. Poultry is another important activity. With such a variety, the prosperity of the Gorman section is not difficult to understand.

Westmoreland Pool.
From two to five oil tests are continually being drilled around Gorman and the possibilities of the field have scarcely been touched. The Westmoreland pool north of town, where a lease with one well brought a quarter of a million dollars, exemplifies the potentialities of Gorman, from an oil and gas standpoint.

Three natural gasoline plants are operating in the Westmoreland field and these plants provide an excellent industrial payroll.

Approximately 175 carloads of peanuts were shipped from Gorman last year. Two gins, consisting of 22 stands—the equivalent of four ordinary gins—are located in Gorman. Other industries include a bakery, ice plant and printing office.

The Gorman Progress is one of the best known newspapers in Central West Texas. J. W. Coakley is editor and publisher and he uses his columns to advance civic movements.

Modern Advantages.
Natural gas, electricity, telephone system, telegraph office and sewerage system are utilities found in Gorman.

The city is on the Missouri Kansas & Texas railroad and has excellent rail facilities.

Highways are a priceless possession that Gorman has. The city is located in the southern edge of Eastland county, near the extreme southeastern corner. Gorman is linked to Carbon, 10 miles away, and Eastland, the county seat, 10 miles still further on by a splendid paved highway. Desdemona, seven miles east of Gorman, also is reached over a paved road. Thus it can be seen that this city has an important place on the \$4,500,000 highway system of Eastland county.

There is a paved road to DeLeon, in Comanche county, and on to Dublin, in Erath county—with the exception of only four miles.

Gorman will reap a great benefit from the vast improvement project that the State Highway department is placing in effect in Eastland county. This is the widening of the State highways. A concrete shoulder, a foot and a

half wide, will be added on each side of the pavement and then, on each side of this will be a dirt shoulder, 10 feet wide.

The school system is a strong one and the enrollment is more than 500. Gorman is always represented by a football team that is a contender for the title in the Class B district and 25 candidates were out for spring grid training this year.

As an illustration of diversified development that is going on, D. J. Jobe has set out an orchard covering 80 acres. Pecans, peaches, plums and apples have been planted. This orchard is a quarter of a mile west of town. There are several handsome new orchards east of town. Gorman ranks high in the use of commercial fertilizer on the farms. Gorman has five churches and is the scene of the summer encampment of the Church of God. The Blackwell sanitarium ranks among the very best in this part of the State. The sanitarium is a beautiful building, splendidly equipped, in the edge of the city. The clinic is one of the finest buildings in the business district. Drs. George Blackwell, Fred Blackwell and M. L. Stubblefield compose the clinic.

Gorman is famous throughout the State for its splendid hospitality—the Gorman hotel, a beautiful four-story building, with spacious lobby, luxuriously furnished rooms with all modern conveniences, a dining room where the meals have gained more than local renown. The furnishings alone for the hotel are reported to have cost approximately \$30,000.

New business buildings have been constructed in recent months, two notable ones being the Haile & Kirk automobile agency building and the grocery store of E. T. Jones.

The recreational facilities of Gorman are remarkable. An excellent golf course was recently completed. The Country Club lake completed some time ago will have a depth of 26 feet when full. It has reached a depth of about 18 feet now. It covers 14 acres and will offer excellent fishing.

Famous Swimming Pool.
Bass lake, long famous as a swimming pool, is fed from clear, sparkling springs and the water is continually flowing through it and the pool is endlessly refreshing. The pool is surrounded by a beautiful grove. Many devices for the swimmers and bathers are provided, including the longest slide in the county. Below the dam of the pool, another dam has been built and the little lake will cover two or three acres and will be highly attractive to fishermen. A Boy Scout troop was recently organized in Gorman.

Reverting to the commercial and financial phases of the city, Gorman has the oldest bank in Eastland county—a financial institution whose long and successful history covers 30 years. Gorman also has probably the biggest store in Eastland county. In fact, the city may well pride itself on the presence of large stores, stocked with up-to-date merchandise, and conducted by merchants who are striving to rebuild the Gorman territory.

MOM'N POP

FRECKLES AND HIS FRIENDS

important position and Desdemona has a cotton gin.

Schuman Conducts Successful Store in Desdemona

Although A. C. Schuman, progressive Desdemona merchant, has taken charge of the Texas Pacific Coal & Oil company's agency and gasoline and oil at LeLeon and Comanche, his enterprising store in Desdemona will continue and the shoppers will find the same high quality merchandise, the same smiling service and the same attractive prices that have always been found at Mr. Schuman's store.

"I appreciate the patronage that has been given in the past and the same effort to please you will be given at the store as has always been the case," the owner said.

Mrs. James Schuler and Mrs. May Clark are in charge of the store. The duties of representing the Texas Pacific company in the sale of its products have made it necessary for Mr. Schuman to move to De Leon. He entered business in Desdemona over four years ago. It was his first venture in business. He enjoyed a good patronage from the start and the policy of "satisfied customers" has resulted in a steady growth in the volume of sales ever since.

Clay Lumber Co. At Desdemona Has Variety of Lines

The Clay Lumber company is much more than its name implies—for it renders a service far wider than most lumber companies.

Furniture, refrigerators, carpets, firearms and ammunition are some of the wares in stock. In fact, in addition to builders' and rigbuilders' hardware, the place of business carries a complete line of hardware and furniture.

H. H. Roe, an alert and accommodating business man is the manager.

The yard was opened when the boom started and it is the only one surviving—a tribute to its progressive policies. The new building—one of the handsomest in the county—was occupied two years ago and the hardware and furniture lines were then added.

ANNOUNCING THE ADDITION OF THE BRUNSWICK PANATROPE LINE

To Our Music Department We Invite You To See and Hear These Instruments at Our Display Room.

This new line gives us the two leading phonographs as well as the two leading radios which are on display in our show rooms.

LEGAL NOTICE

AN ORDINANCE

An ordinance providing traffic rules and regulations for the operation of vehicles within the corporate limits: Requiring the police force to be uniformed and to enforce such rules; requiring the public to comply with the directions given by the members of the police force; prescribing what vehicles have the right of way; prohibiting the use of sirens; prescribing a speed limit; forbidding the reckless operation of motor vehicles; forbidding the operation of motor vehicles with defective brakes and steering gears; providing for the erection of stop signals; prohibiting the malicious driving over of said signals; requiring all traffic to come to a full stop at said signals; fixing an age limit for drivers of vehicles prohibiting double parking; prohibiting parking in reserved and restricted space; prohibiting the driving over fire hose; prohibiting the driving through blocked or closed street; prohibiting parking near fire plugs; prohibiting the parking of a car with motor left running; prohibiting the obstruction of side walks; defining the manner of parking; prohibiting the holding on to moving vehicles; providing that this ordinance shall be cumulative with all other traffic ordinances except where in direct conflict with the provisions hereof, and providing that in the event of such conflict, that all prior conflicting sections or portions of ordinances shall be and are hereby repealed in so far as such conflict exists; and providing a penalty for violation hereof; and providing that the holding of any portion hereof to be invalid shall not affect the validity of any other portion or provisions; and creating an emergency.

WHEREAS, the constant increase of vehicular and pedestrian traffic in the City of Eastland has made traffic conditions so congested that it has become imperative as a police regulation to protect the life, safety and convenience of its citizens to enact rules and regulations for the operation of vehicles within the corporate limits, according to the terms and provisions of the following ordinances:

Now, therefore, be it ordained by the City Commission of Eastland, Texas:

- Section I. Definitions—Unless it appears from the context that a different meaning is intended, the following words shall have the meaning attached and applied to them by this section:
 - (a) The term "curb" shall mean the edge of a roadway or street, marked, designated or otherwise commonly understood to be such.
 - (b) The term "vehicle" shall mean and include any automobile, truck, wagon, cart, buggy or conveyance of any kind or character, motorcycle or motor vehicle, and shall also include a horse.
 - (c) The term "to park" as herein used, means to stop, stand, remain or occupy a certain position on any portion of the street designated.
- Section II. Each member of the City police force shall be furnished with a distinctive uniform and a traffic whistle, said uniform to be worn

while on duty, and each member of said police force shall at all times be charged with the duty of enforcing these regulations while on duty.

Section III.
Drivers of all vehicles at all times must comply with any directions by voice or hand of any member of the police force as to stopping, starting, approaching or departing from any place, the manner of taking up or setting down passengers, the loading or unloading of goods in any place, and the failure to comply with any of such directions upon the part of any driver of any vehicle shall be a violation of this ordinance.

Section IV.
Police, fire department, emergency repair vehicles of the public service companies, United States mail vehicles and ambulances shall have the right-of-way on any street, and through any procession when in the regular course of their proper duty. All vehicles going in an easterly or westerly direction shall have the right of way over all vehicles going in a northerly or southerly direction.

Section V.
It shall be unlawful for any person to use a siren on any vehicle except those used by the fire or police department or ambulances on emergency calls.

The driver of any vehicle upon hearing the siren of any approaching fire or police apparatus or ambulance shall immediately drive said vehicle as near as possible to the right hand curb and bring it to a standstill, and remain stopped until such apparatus or ambulance shall have passed.

Section VI.
All vehicles must keep as near to the right hand curb as possible at all times. Any vehicle overtaking another and seeking to pass same shall first signal and then pass to the left, and shall not pull over again to the right until entirely clear of the vehicle passed.

Section VII.
There shall immediately be installed, at the following street intersections, a rubber "Stop" sign, placed in the center of the street on the line of intersection, to-wit:

- (a) The West line of South Lamar at Commerce.
- (b) The South line of West Commerce at Lamar.
- (c) The South line of West Commerce at Seaman.
- (d) The East line of South Seaman at Commerce.
- (e) The East line of North Seaman at Main.
- (f) The North line of East Main at Seaman.
- (g) The North line of West Main at Lamar.
- (h) The West line of North Lamar at Main.
- (i) The South line of West Commerce at Daugherty.
- (j) The North line of West Commerce at Daugherty.
- (k) The West line of South Seaman at Plummer.
- (l) The South line of East Main at Rosswood.

Section VIII.
All vehicles approaching a "Stop" sign shall come to a full and complete stop before passing such sign. This stop must be within ten feet of the white line marker placed at such intersection. It is not enough to slow down an automobile and change

gears. Every vehicle must come to a complete stop.

Section IX.
It shall be unlawful for the driver of any vehicle or any other person to deface, molest, damage or maliciously drive over the "Stop" signs herein provided for when installed.

Section X.
Any person in charge of an automobile or motor vehicle on any street shall drive the same at no speed greater than is reasonable, and proper, having regard to the traffic and use of the public street or drive way by others, or so as to endanger the life or limb of any person thereon, and in no event shall any motor vehicle within the city limits be driven at a rate of speed in excess of twenty-five miles per hour.

Section XI.
Any person in charge of a motor vehicle shall drive the same on no public streets, the brakes and steering mechanism of which vehicle are not in good repair and capable of keeping said vehicle under the absolute control of the driver at all times and at all speeds.

Section XII.
No person under the age of sixteen years shall operate a motor vehicle within the city limits of Eastland, and it shall be unlawful for the owner of any motor vehicle to permit the same to be driven or operated by any one under the age of sixteen years. The fact that an older person is with the driver does not prevent a violation of this section.

Section XIII.
No vehicle shall be driven over any street where there is a sign that said street or a part thereof has been closed by the police or the street departments.

Section XIV.
It shall be unlawful for any vehicle to drive over a fire hose.

Section XV.
No vehicle shall be parked where there is a police department sign prohibiting parking. All reserved spaces shall be plainly marked with white paint on the curb, and a plain stenciled sign with letters at least four inches tall shall be painted over the white paint, as follows, "No Parking Here," "One Hour Parking Limit," or words of similar import.

Section XVI.
No vehicle shall be parked abreast of another vehicle.

Section XVII.
No vehicle shall be parked within ten feet of a fire plug.

Section XVIII.
No vehicle shall be left parked on the streets of Eastland with its motor running, unless some person capable of driving the same be left in charge thereof.

Section XIX.
It shall be unlawful to leave any vehicle parked in such a manner as to block or obstruct any public alley, street or sidewalk within the city limits of Eastland.

Section XX.
All vehicles shall be parked with the right front wheel and the rear right wheel not more than twelve inches from the curb except where there is a sign allowing head-in parking, in which case the front of the vehicle shall be against the curb and the body of the vehicle shall extend at an angle of forty-five degrees from the curb.

Section XXI.
It shall be unlawful for the rider of any bicycle, tricycle or motorcycle, or any person on skates, to hold or hang on to any moving vehicle.

Section XXII.
It shall be unlawful to throw tacks, nails, broken glass or trash in and upon any street, sidewalk or alley of the City of Eastland.

Section XXIII.
Any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by fine of not exceeding Two Hundred (\$200.00) Dollars.

Section XXIV.
This ordinance shall be cumulative with all previous ordinances, except in so far as such previous ordinances or sections thereof shall be in direct conflict with this ordinance, and as to such portions, sections or ordinances which are in direct conflict the same are hereby repealed in so far as such conflict exists.

Section XXV.
Should any section or part of a section of this ordinance be declared to be invalid by any court of competent jurisdiction, such decision or judgment shall not affect the remaining sections or parts of sections, but the remaining portions, parts or sections shall continue to be in full force and effect.

Section XXVI.
Whereas, the facts set forth in the preamble to this ordinance are such as to create an emergency to the extent that the rule requiring ordinances to be read at three separate and several meetings of the City Commission should be suspended; said rule is hereby suspended, and this ordinance is placed on its third and final reading and finally passed, and the same shall be in full force and exist from its passage and publication as required by the City Charter, and it is so ordained.

Passed by unanimous vote on the 6th day of June, A. D. 1928. I, E. W. Craig, Clerk of the City of Eastland, Texas, hereby certify that the above and foregoing is a true and correct copy of an ordinance passed by the Commissioners of the City of

Eastland on the 6th day of June, A. D. 1928. (Seal) E. W. Craig, City Clerk

June 7, 8, 10, 11, 12, 13, 14, 15, 1928.

and tea, Mrs. Lola Mitchell; chairman in charge of securing witnesses, Rainbow Girls, and others, Mrs. Charles C. Robey.

MRS. MAHON'S POEMS GAINING PUBLICITY

Mrs. Nora Hefley Mahon's (R. D.) poems, "Fantasy" and "Snow Magis," have been published in the June issue of the Poets' Scroll, just out. The pages of her verse bear a notation, that "Fantasy," was the prize winning poem of the sixth district, T. F. W. C.

Mrs. Mahon's verse is gaining wider publicity with each passing month. In the quarterly issue of the Torch Bearer, appeared her verse, "I Stand A-Tip-Toe." This magazine is published at Baylor University, and its columns are open to amateur writers, with the high purpose of encouraging such talent. "To a Cardinal" was one of her poems read before the meeting of the Poetry Society of Texas, on June 9. Mrs. Mahon read "Fantasy" in person at the May meeting of the Society. There is undoubtedly a real future in the world of poetry for this earnest little lady, whose talent is expressed in original and unusual terms and whose unabated enthusiasm in her chosen life work is well justified.

MRS. TAGGART WILL ENTERTAIN VISITORS

Mrs. George K. Taggart will be hostess to a few friends on Monday afternoon, at her residence on South Seaman Street, when bridge will honor Mrs. Schenck of Graham, who is visiting her son, Roland Schenck, and Miss Coyner of San Antonio, the guest of Mrs. B. D. Hampton. The party will be a small and intimate affair.

CATON FAMILIES ENTERTAIN TOURISTS

Mr. and Mrs. T. S. Caton, and Miss Katherine Caton of Parksville, Texas; Mrs. Willie Holt of McKenzie, Tennessee, and Richard Morgan of Detroit, Texas, were the guests this week of Mr. and Mrs. J. A. Caton, and Dr. and Mrs. J. H. Caton, who entertained them with a chicken barbecue, at City Park, Wednesday evening at seven o'clock, the party including Miss Nell Caton, and Norman Caton. The visitors resumed their motor journey Friday morning.

NOTES AND PERSONALS

(Mrs. Charles G. Norton writes her family that she is having a lovely time in San Antonio, and is being entertained by many former friends. She expects to return home the latter part of next week. Miss Eleanor Norton will remain in San Antonio next winter with her aunt, Miss Norton.

(Frank M. Woods of San Antonio, is the guest for a few days of the F. M. Root family.)

(Geraldine Debnay left Friday for a week's visit with Mr. and Mrs. E. T. Spence in Fort Worth.)

(Mrs. Sallie B. Bishop of Gorman was the week-end guest of Mrs. Allen D. Dabney.)

(Miss Agnes Harwood of Dallas is a guest at the Alhambra Hotel.)

(A. C. Simmons was a Dallas visitor Saturday.)

(Miss Beulah Frost of San Antonio is here for a three or four weeks' visit and was the guest last week of her brother, Cyrus Frost, and will visit Mrs. W. S. Poe, this week.)

(Mrs. H. L. Brammer returns home Monday, from a week's visit in Enid, Oklahoma, with Mrs. Dowell, her sister-in-law.)

(Joe H. Ogden, scout for the Prairie Oil & Gas Co., with headquarters in Breckenridge, was an Eastland visitor Friday.)

Mr. and Mrs. Frank Lovett are entertaining Mrs. L. E. Cates of Olney, their daughter, her to attend the opening of the Connellee, and to spend the week-end. Poe Lovett, their son, arrived home Friday, from the Chicago Medical School to spend his vacation.)

(Mr. and Mrs. P. L. Parker left this morning for Paris, Texas, and will then resume their motor trip to Arkansas, on their ten days' vacation.)

(Frank Zelfel, with the Jarecki, who has spent the past week at their store in Trent, Texas, was in town Friday, and left that same afternoon for a motor trip to Muskogee, Oklahoma, and St. Louis, Missouri, for a week's stay.)

(Mrs. H. M. Law and daughter, Mrs. Ernest Standifer of Killeen, Texas, guests of Mrs. Hamner last week, left for their home Friday morning. Mrs. Hamner entertained, and Mr. and Mrs. F. J. Sparks, Miss Erin Stafford, and the Sparks children, with a picnic supper and swim at Olden Lake, Thursday night.)

(Judge Allen D. Dabney was a Dallas visitor Saturday.)

(Mrs. Henry L. Bray of Santa Anna, was the week-end guest of Mrs. W. S. Poe.)

(Wanda Gayle and Wayne Covington, who have been visiting their grandparents, Mr. and Mrs. J. O. Wheat during the last two weeks, have returned to their home in Plainview.)

Development Of Diesel Crude-Oil Engine For Practical Automotive Use Appears Nearing Accomplishment

One of the outstanding developments in the automotive industry during the last year is the adaptation of the Diesel internal-compression engine to automobiles and airplanes. For use in automobiles this power plant has not passed the laboratory stage, but airplanes in use have successfully demonstrated the efficiency of an engine using a low grade of fuel.

The first Diesel engine, invented by Rudolf Diesel, a German inventor, back in 1897, was a crude affair, which weighed so much it was impractical for ordinary use. Gradually he brought it down to a size and weight so that for marine use, no other power plant could operate so economically and at the same time satisfy the exacting requirements of large vessels.

Not much thought was given to the Diesel in America until 1919, when various engineers seemed suddenly to realize its possibilities. The opening of the various oil fields in the western states and the piping system employed to carry the fuel from the wells to the refineries situated in or near the large cities, required a power plant where an immense amount of power was needed at a low cost of operation.

Where Weight Was Not Important.

Weight was not a disturbing factor, so the employment of the Diesel engine for this purpose was a natural consequence. Today all through the oil fields can be found Diesels in various sizes operating smoothly and efficiently. This type of engine, being practically tireless, can run day in and day out at either high or low speed, as the occasion demands.

In every harbor along both the Atlantic and Pacific coasts, together with seaports all over the world, the development of the tow boat and fishing smack industries has been remarkably noticeable since 1919. Very naturally the Diesel engine has fitted into this picture and more there than anywhere else, have automotive engineers realized that its use in automobiles and airplanes was coming into the near future.

It would be hard to imagine an engine weighing 1,100 pounds in an automobile. It would also be hard to imagine one man trying to drive such a piece of mechanism at 50 miles an hour. And it would be ludicrous to even think of 23,000,000 motor vehicles, equipped with such a power plant, trying to operate in traffic. This is why, previous to 1919, automotive engineers did not take the Diesel seriously.

The first Diesel engine developed by Dr. Sperry in America, weighed just 22 pounds per horsepower. Its efficiency was unquestionable but the weight for automotive use was out of the question. Within the last year he has brought out a Diesel that weighs about 3 pounds per horsepower and has in preparation an engine of this type weighing 1 1/2 pounds per horsepower. These last sizes and weights are considered practical and worthy of attention by automotive engineers.

2 1/2 Pounds Per Horsepower
Dr. Treibel, one of the outstanding American authorities on Diesel engines has succeeded in building a power plant operating on the compression idea, which weighs 2 1/2 pounds per horsepower. At the present time 40 concerns throughout the United States are experimenting with Diesel engines for automotive use.

Within a few months, a German inventor, H. Buschmann, has been granted a patent for electrolytically generating gases for injecting fuel of Diesel engines. The object of this method is to relieve the strain on the walls of the cylinders where compression takes place. In Europe the value of this patent seems to be realized more fully than in America as the former continent has always been the great automotive experimental ground.

The basic idea of the Diesel engine is simple. Air is pumped into cylinders into which fuel oil has been injected. The air is compressed to a heating point where the ignition of the fuel oil is a natural consequence. To obtain maximum results the walls of the cylinder are subjected to tremendous strain. Obviously the metals used in building this power plant must have the greatest possible strength of resistance, yet cannot be too weighty else the economy of operation be overcome by the capacity over-all.

Up to within a few years cast iron cylinders were the only ones used in Diesel engines. There came into the automotive field a aluminum alloy which had extreme strength and lightness. Automotive engineers have been experimenting with Diesels built with aluminum and reports from

them are very satisfactory. For airplanes there is no question but that the aluminum compressor type engine will be almost universally employed within a few years.

No Spark Plugs.

The Diesel engine can operate at about one-fifth the cost of the gasoline power plant now employed in automobiles. No spark plugs are necessary and the control is smooth and easy. The danger of imperfect ignition timing is done away with altogether, as each cylinder is charged and timed automatically.

A few years ago ethyl gasoline was invented for the purpose of utilizing every bit of fuel in the cylinder with each plunger operation. This fuel costs more than the ordinary gasoline and while extremely efficient, does not appeal to every motorist. Similar results are obtained in the Diesel, using a fuel that costs much less than ordinary gasoline.

The cylinders of the Diesel engine are completely scavenged after each operation, being forced to the highest point of efficiency by the compressed air. Low grade fuel being used, metals must be employed which will stand up under the intense strain. That is the problem which is occupying the attention of automotive engineers all over the world. With prices of automobiles coming down each year and airplanes coming into more general use than ever before, it is a natural consequence that any power plant which satisfies the requirements of economical, efficient operation will be adopted by automotive engineers for quantity production.

"Look Babs! It's all mine. A financial expert gave it to me."

But when he discovers the money is bank loot!... well, you'll laugh at this chap's embarrassment. He's the hero of the funniest drama about a sleek and slippery fingered crook that Owen Davis ever wrote for stage or screen.

MRS. J. M. PERKINS ENTERTAINS THE THURSDAY CLUB

most interesting, and showed that every rule and regulation of both state and General Federation had been complied with.

At close of the business session the guests were asked to adjourn to the lawn, and the gallery was used as a stage for the presentation of a part of the pageant, "Texas Under Six Flags," directed by Mrs. L. R. Hogan.

Across the green lawn came trippingly, the little folks, in costumes of Texas bluebonnets, goldenrod, wild roses and violets, making a colorful and brilliant picture.

Flag bearers were Horace Horton and Jack Shaw, who proudly bore the Stars and Stripes. The tabloid playlet opened with the singing of "The Eyes of Texas Are Upon You."

Gwendolin Jones gave a spirited reading "How Betsy Ross Made the Flag," and Joseph Adams, two historical sketches of "History of Texas."

Patriotic songs and readings were given by little Betsy Perkins, Ruth Harris, Margaret Belle Wynne. A rousing number was that of Mrs. Maude Garrett Targgart, and Maude Schick Leonard's, "In Texas," song and choruses.

A charming background was provided the speakers in the pretty, bright costumes of the children and the white linen suits of the Glee Club attractively emmentitee next year.

The finale was a spirited scene "Texas Honoring Her Heroes," when each outstanding name in Texas history, painted on a white cross, was borne to the front of the stage, to the singing of the national anthem. All arose, and embraced the flag.

The delightful little episode was in harmony with Flag Day, and the study of Texas history new paramount in club circles, abetted by the reflected enthusiasm of the recent biennial in Texas.

The hostess presented each club member a copy of the General Federation News, of May, which she brought from the biennial for their pleasure. Her little daughter, Dorothy, distributed souvenirs of wee American silk flags.

Dainty refreshment of fruit salad, with olives, cheese wafers and potato chips were served by the hostess at the close of a most delightful afternoon. Guests of the occasion were Mrs. Gleason of Gleasondale, Mass.; Mrs. M. M. Hazaman of Ranger, Mrs. E. Q. Lee of Cisco, and Mrs. B. B. Bickerstaff, E. Roy Townsend, John D. McRae, O. F. Chastain, V. T. Seaberry, J. A. Caton, W. P. Leslie, B. M. Collier, A. H. Johnson, James Horton, Marshall McCulloch, W. E. Stallter, Carl Springer, Earl Conner, Theodore Ferguson, C. U. Connelley, A. C. Simmons, Mrs. P. H. Gates of Italy, guest of Mrs. Collier, and associate members, Mrs. L. D. Hilyer, W. A. Mar-

tin and W. K. Jackson. The musical feature was arranged especially for the pleasure of Mrs. Gleason, keenly interested in things musical.

Mrs. Joseph M. Perkins, who is most successful in her efforts in affiliating the activities of the music federation with that of the State T. F. W. is president of the Sixth District, Texas Federation of Women's Clubs, as well as Sixth District Chairman of Fine Arts of the Texas Federation.

CONNELLEE HOTEL OPENS ITS DOORS

said J. N. Jarrell, auditor of the hotel.

Vice-President and General Manager Morton viewed with a critical but pleased eye the completed Connellee Hotel. "It is not so large as the other Jesse H. Jones hotels, but it is a splendid and attractive structure, beautifully furnished, comfortably arranged and will be a credit to the Oil Belt and to all West Texas," said Mr. Morton.

The hotel coffee room was opened Thursday and has been getting a fine run of business day and night. The hotel management entertained Thursday night for those who donated to the building of the hotel and more than two hundred persons were served. Eastland Night was celebrated with a buffet supper and dance in the roof garden, and an elaborate opening dinner was served Saturday night, followed by a dance until midnight. Many guests from various places in West Texas and from Houston, Dallas and Fort Worth were here for the opening events.

Mr. Jones arrived about mid-afternoon and went over the hotel from the basement to the roof. He appeared to be pleased with it.

"There is no doubt but this will prove a very satisfactory investment," said Mr. Jones. "While the hotel is small in comparison with others of the Jesse H. Jones Hotels, it is as beautifully furnished as any of them and better than some of them, and I am delighted with it. There is every reason to believe that it will prove one of the most popular hotels in the Oil Belt."

Hail Does Damage To Kansas Wheat

MEDICINE LODGE, Kan., June 16.—A terrific hail storm which cut a path 10 miles wide and 50 miles long caused \$1,000,000 damage to the wheat crop in Barber county, it was estimated by farm bureau agents here today.

The hail beat 50,000 acres of wheat into the ground. The grain was nearly ready for harvesting when the storm struck.

Coolidge Proves He Is Fisherman

SUMMER WHITE, HOUSE, Cedar Island Lodge, Wis., June 16.—President Coolidge has caught the first fish of his summer holiday, a trout from the picturesque Brule river, on which the vacation White House is situated.

The president landed his game late yesterday. Announcement of the catch was not made until today by Col. W. W. Sterling, of the executive staff, who was commissioned sometime ago to inspect the trout possibilities in the region.
