FIRE DESTROYS RESIDENCE OF MRS. SPENCER

Dwelling House and Contents In Carbon Total Loss. Two Narrow Escapes.

CARBON, June 13.—The six-room frame dwelling house of Mrs. W. L. Spencer here was destroyed by fire Tuesday morning and Mrs. Spencer severely burned on right hand and arm and less severely on the body. Her daughter, Marjorie, who helped her mother escape from the flames, was painfully burned. The house with contents was valued at about \$2,500 and was a total loss. Insurance, if any, is said to have been small. A fine piano and a valuable violin were also claimed by the flames.

The fire was started by the boiling over of a pot of tar that had been placed on the kitchen stove to be softened for use to paint a cistern. It burst into flames as it spread over the floor and set fire to the woodwork. In an incredibly short time the house was in flames. Mrs. Spencer, who was in the kitchen at the time, tried to put out the blaze and her dress caught fire. Her daughter, Marjorie, came to her rescue, and her dress, too, caught fire. A son rushed in and got his mother and sister out of the house. Neighbors tried to put out the fire, but their efforts were unavailing. One garden couch and one rug were saved; nothing else.

Mrs. Spencer is a widow. She is a sister of Mrs. S. P. Rumph of Eastland, with whom she and the children are staying temporarily. Her mother, Mrs. J. T. Lawrence, and a sister, Mrs. C. E. Hill of Dallas, are also guests of Mrs. Rumph, and all are busy at work making clothes for the fire victims, for all their clothing was burned.

Mrs. Rumph was attending a Methodist zone meeting at Gorman when she received a message telling of the fire and her sister's injury and left at once for Carbon.

NEGRE TENANT CHARGED WITH SHOOTING LANDLORD HILLSBORO, June 13.—A negro tenant on a farm owned by Walter Mahoney, farmer, living near Aquilla, was held on an attempt to murder charge today, pending the outcome of wounds received late yesterday by Mahoney.

According to officers, Mahoney was shot during a quarrel with the negro over a debt. Mahoney's condition was reported to be serious.

DEEPER PAY DISCOVERED IN GORDON POOL

Tee Pee Gets Production At 3942 Feet From Ellenberger Lime.

Discovery of a deeper pay in the Gordon pool, northwest of Eastland, has been made by the Texas-Pacific Coal & Oil company's No. 2 Higginbotham which is producing 130 barrels a day in a pay that was struck at 3,927 feet and was drilled to 3,942.

Oil men are discussing whether the well is producing from the Ellenberger lime. Some think that it is. If this is correct, it is something never before known in the county. Whenever the bit has reached the Ellenberger, further drilling has always been deemed futile.

However, other oil men are of the opinion that it is the same pay that was hit in the Gholsen pools by the Duffer wells below the Ranger pay depth.

The well will cause several other wells in the pool to be deepened as the new production was found only 170 feet below the Ranger. Two wells will be deepened at once.

Finding of a new producing level opens another chapter in the history of an interesting pool. During the boom a number of good wells were drilled but after production dwindled and then ceased, no new activity was begun for several years. Then nearly two years ago Col. Robert D. Cordon drilled the Ramsower No. 1 going 165 feet deeper than the old wells had gone, and found splendid production in the Ranger sand. This was followed by the drilling of fully 20 producers, half of them ranging from 800 to 2,200 barrels a day, flush. And now that a still deeper pay has been found, a well drilled in that territory has a chance for production in the Caddo, the black lime, the Bond, the Ranger and the Duffer, or Ellenberger, or whatever the newest stratum is designated—five chances in all.

For several hours Tuesday night an electrical and wind storm raged in Eastland. The wind blew in gusts, the lightning flashed brilliantly and the thunder growled. After awhile the rain began falling and it fell slowly and steadily until more than a half-inch had fallen.

This morning dawned cloudy, but within a few hours the clouds had cleared away and the air was clear and cool.

Leuders Baptist Encampment Opens Tuesday, July 10

The sixth annual session of the Leuders Baptist encampment will be held at Leuders, opening Tuesday, July 10.

Last year the Leuders Baptist Encampment was the largest attended of any encampment in the South. It is better equipped than most encampments. The grounds are well watered and lighted. The north fork of the Brazos affords ample opportunity for fishing and swimming.

Miss Mary Estcher Cheshire, a graduate of the Training School of the Baptist Seminary of Fort Worth, will have charge of the recreational features of the encampment.

The encampment leaders believe there is a time for all things, time for study, worship, and for play, and with this in view arrangements have been perfected.

There is a splendidly equipped cafeteria on the ground and the lowest possible prices will be maintained.

The Y. W. A. girls are building a commodious camp house and at least one hundred are expected. Mrs. Geo. G. Flourney of Stamford will be in charge of this feature.

Thirty-two Scouts will be on hand for patrol duty. Everything is ready for the encampment to begin in a great way on July 10 and to extend through the 22nd.

Superintendent W. Z. Bates and Mrs. Bates left today for Boulder, Colo., driving through in their car. They expect to be back about September 1.

Mr. and Mrs. T. L. Fagg are driving around in a handsome new Chrysler sedan.

UNIVERSITY DEVELOPMENT TAKES TIME

Warner Memorial Will Be Ready To Receive Students By September 1929.

At the meeting of the Trustees of Warner Memorial University held Tuesday, June 12, J. H. Meyer, the contractor, stated that it would be impossible to complete the buildings in time to open the University this fall. With this statement before them the board of trustees passed a resolution deferring the opening of the University till September, 1929, at which time everything can be in readiness.

Dr. Wilson, president of the University, expressed disappointment that the school could not be opened this year. However, he said: "We wish to inform the people of Eastland and all concerned that we shall proceed as rapidly as possible with our plans, and we expect to start construction of buildings within the next few weeks. This necessary delay will enable us to make more thorough preparation and will insure greater success from the start."

Dr. Wilson leaves today for Anderson, Indiana, to attend the International convention of the Church of God, and to consult with some members of the church who are helping to finance the university.

Chang Tso Lin Manchurian War Lord, Is Killed

United Press. WASHINGTON, June 13.—A message received by Chinese Nationalists here confirmed to them the death of Chang Tso Lin, Manchurian war lord, in Mukden, of a wound received when his special train was bombed. Chang's death occurred June 5, it was stated. The Nationalist cable also alleged the bomb was of Japanese manufacture.

Suit Filed For \$500,000 Alleged Commission Due

United Press. FORT WORTH, June 13.—A suit for \$500,000, alleged to be due in commission on the sale a year ago of the 58,270 acre McElroy ranch, in West Texas, was begun in the 48th district court here today.

M. D. Cerf and Andrew Allseng of Fort Worth, George Anderson of Dallas and Edgar Banta of Brooklyn, N. Y., claimed the money due them as brokers in the transaction in which J. T. McElroy sold his ranch in Crane county, Upton County, Pecos and Ector Counties, for \$2,500,000.

Attorneys for McElroy, who now lives in El Paso, denied that the sale was obtained through the plaintiff's brokers.

DRILLING TWO NEW WELLS IN SIBLEY POOL

Deeper Sand Yielding Larger Production, Sought By Prospectors.

Two wells are starting in the vicinity of the splendid producer just brought in by A. H. Rhodes, Eastland operator, in the Sibley pool. The new producer probably will cause yet other wells to be started, as it is producing from a deeper sand than the earlier wells in the pool are yielding from.

The Louis Henning No. 1 of A. H. Rhodes has settled down to 350 barrels a day.

Gravity of the well is 42—an unusually high grade—and this of course makes the well even more significant. The pay was struck at 3,175 feet and it has been drilled in only one foot. The production in this field heretofore has been found at 2,990 ft. The last important completion in the pool until the Rhodes' well was the 900-barrel gusher of the Operators Oil & Gas company, the No. 1 Williamson, in which a quarter interest was owned by the drillers and tool dressers.

Dublin Man Drowns While Attempting To Make Rescue

United Press. MEXIA, June 13.—Sam L. Wolfe, 37, superintendent of the schools at Dublin, for the past 7 years, was drowned last night in the San Saba river, near San Saba, relatives living near here were advised.

Lalrue Shillingburg, 9, of Dublin, one of the girls, was also drowned. Her companion was rescued.

The families of Wolfe, J. T. Shillingburg, and Harvey Fisher, had gone to the river Monday for a 10-day fishing trip.

Boy Recovering From Snake Bite

Garland Campbell, the little son of Mr. and Mrs. C. M. Campbell, who was bitten on the ankle by a rattlesnake Tuesday, was reported greatly improved today, although not considered entirely out of danger.

"His progress is satisfactory and we are very hopeful that he will pull through," said Dr. F. T. Isbell, attending physician.

President Leaves For West Today

United Press. WASHINGTON, June 13.—President and Mrs. Coolidge plan today to leave tonight for their four month's summer vacation in Wisconsin.

The decision to start was made after the two White House physicians decided that Mrs. Coolidge has recovered sufficiently from her indisposition to start. She was much stronger and more cheerful today, following the relapse which caused the start to be postponed Monday, less than two hours before the presidential train was to leave.

Grisham Favored In Burnet Area

Special to the Telegram. BURNETT, June 13.—Judge R. N. Grisham of Eastland is the most frequently mentioned candidate here in the race for Congress. He recently visited this city, which is in the extreme southern part of the 17th Congressional district, and made a favorable impression among the citizenship.

Nobile's Party Drifts On Ice Close To Shore

By United Press. KINGS BAY, June 13.—Drifting slowly on a great ice bed their one tent pointed red as a signal to any searcher, Commander Nobile and five comrades today were within sight of the coast of Northeast Land.

Nobile's radio was silent last night and at 9:10 a. m. today communication had not been restored. It was feared that the radio accumulators of the set had become exhausted, as communication had been frequent since last week-end.

There was some hope, however, that Nobile had severed communication voluntarily to conserve power. Nobile and his companions are suffering severely. Their hands are frost bitten and their food supply is limited. Only the tent protects them from the rigors of the north.

United Press. KINGS BAY, Spitzbergen, June 12.—Hopen Island, 280 miles away from the silk tent which is sheltering commander Nobile and other known survivors of the disaster that overtook the dirigible Italia, was selected today as a permanent base for rescue airplanes.

Russian and Swedish planes, already assigned to rescue work, are already on the island.

J. L. Whisenant, whose farm-home near Olden has become one of the largest truck gardens in the Eastland territory, was exhibiting here this morning a turnip weighing three and three-quarter pounds, beautifully formed and looking very tempting. He said he had 200 dozen bunches of turnips raised this year in his garden and many of them measured up to the sample he was showing.

Mr. Whisenant has raised this year cabbages, carrots, beets, squash, cucumbers and many varieties of fruits. He said that he is becoming more devoted to his farm-home every day.

VERNON MAN SHOT AND KILLED, SLAYER HELD

VERNON, Texas, June 13.—Ira Smith, 33, service car driver, was shot to death Monday afternoon a mile and a half east of Vernon on the road running alongside the Fort Worth & Denver Railway. F. R. (Pete) Metcalf surrendered to authorities here soon after the shooting and was charged with murder. He waived preliminary trial in Justice W. D. Hollar's court and his bond was set at \$5,000.

Officers report that Smith apparently was shot while in or standing by the side of his automobile. According to information Mrs. Metcalf was the only witness to the shooting.

Metcalf came to the Sheriff's office here soon after the shooting in search of Sheriff Edmondson. The sheriff was not in and Metcalf proceeded to the county jail where he gave Jailer Creek Brown six empty shells and a fully loaded pistol.

Smith had lived here several years. He was not married, but is survived by his mother and two sisters. One of the sisters is said to live at Electra.

Mrs. Frank G. Hoffman of Dallas is greeting friends in Eastland among whom she is spending a few days. She is now the guest of Mrs. Frank Ourts, and Mrs. Ligen. She will return home Monday, via Fort Worth, where she will be the week-end guest of Mrs. S. S. Noblett, formerly of Eastland.

PLATFORM OF REPUBLICANS IN THE MAKING

Will Have Strong Dry Plank and Condemn Campaign Deficits, Delegations Seated.

By United Press. KANSAS CITY, June 13.—The platform sub-committee of the republican convention broke up in a row over the farm relief plank at 4 a. m. today.

In an all-night session, the committee was able to complete the entire platform except the farm relief plank. It decided to go back to work at 10 a. m. in the hope that after a rest some agreement might be reached.

The sub-committee unexpectedly adopted a plank condemning the policy of incurring campaign deficits like that of Will Hays, chairman of the Harding campaign in 1920, which resulted in Hays soliciting a \$100,000 post-election contribution from Harry Sinclair.

A prohibition plank much stronger than those of previous conventions also was adopted among lines laid down by Senator Borah of Idaho.

KANSAS CITY, June 13.—In a session lasting from 3:15 a. m. to the republican credentials committee virtually completed its work setting contests in Mississippi.

Final action on the tangled Porto Rican situation was deferred pending report of a sub-committee.

The "Howard delegation" consisting of 12 delegates with one-half vote each, uninstructed but committed to Hoover, was placed on the temporary roll by the national committee without a roll call vote.

CONVENTION HALL, K. C., June 13.—The farmers' march on the republican national convention came off today, but two large policemen by the door, backed by an order of the sergeant at arms of the convention kept them out and then turned away with their leader mumbling "We will resist this."

CONVENTION HALL, K. C., June 13.—The Republican National convention, which yesterday began as a cut and dried event, all set to slide over a greased path to a quick finish, was caught in a tangle of the stubborn farm relief today.

The platform sub-committee, after meeting all night was so widely split over farm relief that it was not expected to complete its work until late today and perhaps not until tomorrow.

The convention paper, therefore dozed through a dreary routine session. Senator George Moses, slated for permanent chairman, sat patiently for hours upon the platform while a hot speech to the convention, which was designed to jerk the delegates upon their chairs, grew cold in his coat pocket. The delay was caused by the failure of Mrs. Mabel Walker Willebrandt, chairman of the credentials committee to get to the hall promptly when the convention met today. After a long wait, she finally arrived and started reading to the convention the names of delegates recommended for permanent seats in the convention.

Herbert Hoover won the contests of the Texas delegation on a showdown early this afternoon. The convention voted down a minority report which would have taken from his delegates awarded by the credentials committee. This was the first test of his strength.

The name of Senator George Moses as permanent chairman was next placed in nomination and approved. Moses was escorted to the platform and after being given a big ovation delivered his speech.

The session was held in the Methodist church and conducted by the Zone president, Mrs. S. P. Rumph of Eastland. The program was published in Sunday's Eastland Telegram.

During the social hour, when the Gorman Methodist church women were hostesses, a charming little musical number was presented by two small nieces of Mrs. J. T. A Bible contest was also enjoyed.

Prescription He Wrote in 1892 is the World's Most Popular Laxative

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

Girl Loves

TER VIII... ogized that slow... lo" instantly. It... voice that had an-

swayed her early that morning when she had called Nathaniel and been told that she had the wrong number.

What could it mean? Surely it was not possible that she would get the same wrong number a second time.

Virginia was stunned into silence, held in the grasp of a great fear. Then her faith in Nathaniel reassured itself, and she felt herself pricking with shame at the thought that had flashed through her mind.

"Oh, I'm sorry," she said politely. "I'm afraid I have the wrong number."

She started to replace the instrument on the stand when the other voice stopped her. "Are you Miss Brewster?" it asked.

Virginia's hand paused in mid-air. She was, for an instant, unable to move. Again doubt of Nathaniel was filling her mind with torturous conjectures.

Then she lifted the instrument and brought herself to say with a brave measure of calm, "Yes, I'm Miss Brewster; may I speak to Mr. Dean?"

"Niel is out," the other voice returned brightly. "This is Chiri Mond. I recognized your voice, Miss Brewster. Shall I ask Niel to call you when he comes in?"

Ad Valorem State Tax May Be As Low As 20 Cents

AUSTIN, June 12.—Prospects that the ad valorem state tax rate will be set next month at as low as 20 cents and possibly 18 cents, draws attention to the frequency with which a low rate occurs in election year and a high rate in off years.

Elections are held in even years. Most of the high rates have been in the odd years, as State Treasurer Hatcher asserts.

Going back 20 years the records show:

- Election years: 1908—6 1-4 cents. 1910—4 cents. 1912—10 cents. 1914—12 1-2 cents. 1916—20 cents. 1918—30 cents. 1920—22 cents. 1922—35 cents. 1924—35 cents. 1926—25 cents.
- No election years: 1909—5 cents. 1911—12 1-2 cents. 1913—25 cents. 1915—30 cents. 1917—35 cents. 1919—35 cents. 1921—22 cents. 1923—35 cents. 1925—35 cents. 1927—25 cents.

In seven out of the ten instances the election year tax rate has been lower than in non-election year.

Governors say the reason is that debts left by preceding administrations make it necessary for them to have a high tax rate in the opening year of an administration and that their economies make possible the low rate in the succeeding year when they are again candidates. Most administrations have passed on such debts by low rates, according to the tabulation.

Theoretically, the tax rate is fixed automatically. The theory is that the tax board shall take the amount of appropriations for the year and using a specified scale estimate the revenues from those of the preceding year. If it is done accurately the tax rate should produce an income balancing the expense.

Practically it works this way. Closing years of an administration have the appropriations pared so low that deficiencies must be allowed. These deficiencies do not operate on the tax rate adopted by the new administration. They are carried over into the next year for the new administration to settle. Deficiencies have run as high as \$2,000,000. That means 4 cents in ad valorem tax rate. Now they are limited to strictly \$200,000.

Another reason for variation between taxes and the revenue needed is that income does not always live up to the record of previous years, so the estimates vary. The tax board is composed of the governor, state treasurer and state comptroller.

This year State Treasurer Hatcher estimates that the rate can be at 18 cents; preliminary figures sent to the comptroller from tax assessors indicate a 20 cent rate, it is said. Governor Moody says he will wait on definite figures before deciding what rate he will vote.

Moody says the fair way to estimate an administration's tax rate is to take the two years and compare them with other two years periods. With a 20 cent rate adopted this year, he claims the Moody two-year rate will be the lowest since 1913-14.

In recent years special taxes have been provided to take care of some things formerly cared for by the ad valorem tax.

For instance a special highway tax is levied on gasoline. That in itself would not affect the general revenue tax but one fourth of the gasoline tax goes to the schools. The schools are not supported by the general fund so even that should not affect the ad valorem tax rate. But it has been the custom to supplement the regular school fund by appropriations from the general revenue.

By giving them a big sum from the gasoline tax, the amount that has to be given them from the general fund is reduced. When the general fund demands are thus decreased the tax rate can go down.

The gasoline tax income is estimated at \$20,000,000 a year. Five million of this goes to schools. If that \$5,000,000 was not provided in that way it would have to come from somewhere else. To raise it would take 10 cents of ad valorem tax rate.

Besides the variable ad valorem tax rate, the state has a 35 cents regular tax for schools and 7 cents for Confederate pensions.

The tax board will meet to fix the rate between July 15 and July 20.

All Men Are Flirts Says Woman Barber Of 'Vainer' Sex

By United Press.

ATLANTA, Ga., June 12.—Five years of barbering has convinced Miss Patsy Gregg, who annually shaves and haircuts upwards of 1,000 Atlanta men, that: Men are the vainer sex. Married or not, they are all flirts.

Married men don't talk about their wives much. Miss Gregg is in charge of Atlanta's only shop where a man can get shaved by a woman. Six women barbers are in her employ.

In an interview she hazarded the guess that while women know more about men than men know about themselves, a woman barber knows more than anyone the oddities of the male.

"Everybody knows that a barber chair is the most likely place in the world to tell your troubles. Men barbers will agree with that. When a man shuts his eyes and feels a smooth razor against his face, he always wants to unfold his troubles.

"The majority of men, as I have shaved them, are amusing. Especially traveling men and married men. Most men don't mean to hurt their wives' feelings but they are flirts, whether married or not.

"It is surprising how vain men are. They make a fuss over their wives' dressing and primping when really they are worse. I know. I've waited on both. I'll bet there are more men today who get marriages than women. And a good many get permanent waves. Lots of them want paint and powder on their faces. They'll take a mirror and criticize the slightest flaw in their haircut, especially if you cut their pet curl or side-burns too short."

The name of each sponsor as she is presented will appear in electric lighted letters more than three feet long, while the crowning of Miss West Texas will take place in one of the beautiful settings and mediaeval garden scenes that is possible to plan.
