

### Many Signs Show Axis Has 'Invasion Jitters'

LONDON, April 1 (AP)—Signs of increasing Axis invasion jitters from the Balkan frontier to the Scandinavian peninsula were highlighted today by a roundabout report that Allied parachute troops had established a base in the Norwegian mountains and had sallied out in raids on Nazi-controlled factories.

The story came to London in Stockholm dispatches which said the parachute base was somewhere in the Hardanger Vidda mountain lakes area, an ideal district for an airdrome and that it was equipped with a meteorological station.

The London press quoted the German radio as announcing that Nazi troops were hunting the parachutists, said to be British and Norwegian.

On the southern border of the Allied invasion area, meanwhile, Italian Propaganda Minister Alessandro Favolini announced that Sicily, off the toe of the Italian boot, had become "a fortified outpost of the European continent itself against any and all attacks coming from the Mediterranean." Only yesterday Italy announced a new mobilization law to be applied in event of invasion.

The Daily Mail said in a dispatch from Madrid that 350,000 tons of French shipping immobilized in Mediterranean ports since the German occupation of southern France had been ordered sent to Genoa, Spezia and ports in Sardinia and Sicily.

"The obvious inference is that a Dunkerque fleet is being collected for Rommel," the Mail said. Emergency crews of Italians would man the ships, the paper added.

From London, same reports that military quarters there had received intimations the Germans were organizing an "army of the Balkans" for any invasion thrust into southeastern Europe.

A brief Reuters report from Stockholm said without elaboration that the inner political tension in Berlin never was so great as at present, adding "and it is not entirely due to the air raids."

The Paris radio announced that from now on persons charged with being communists and anarchists in France must accept court-designated attorneys instead of choosing their own. The same source also said that officials helping refugees and Jews to escape the German dragnet would get 10-year prison terms and be fined double the amount they collected from any one they helped.

### Would Like To See A Short Campaign

Demo Leader Says Prosecution Of War Comes First

WASHINGTON, April 1 (AP)—Frank Walker, democratic national chairman, said today it was too early to discuss presidential candidates but that he would like to see an agreement between the two major parties for late national conventions and a short 1944 campaign.

Reporting to a press conference on a trip through a dozen western states, Walker was asked if he wanted President Roosevelt to run for a fourth term.

"I'll not discuss candidates at this time," he replied. "I think it is a mistake to discuss them now. It is too early from the standpoint of the country and we should devote all our time to prosecution of the war."

Walker added, however, he would like to see the campaign next year limited to September and October and said further he would like to see it "conducted on a very high plane."

Walker told newsmen he heard many complaints from democratic leaders during his tour of "too many republicans" in government offices, particularly in OPA and farm agencies in the field.

Asserting he had made no promises to correct this, Walker recalled that at a recent White House conference between the president and a group of national committee members some complaint had been made about having two republicans—Knox and Stimson—in the cabinet.

He added that he (Walker) told those who raised the question that both the war and navy secretaries were "doing a good job."

Walker said he heard some discussion on his western trip of the possibility of Governor John W. Bricker of Ohio or Wendell Willkie being the republican candidate next year. Asked who he believed would be that party's nominee, he replied it was too early to talk candidates in either party.

Walker reported that democratic party prospects for 1944 "looked very good to me."

Asked his opinion of anti-fourth term resolutions adopted by four midwestern legislatures, he replied that he did not take this "very seriously," adding:

"It is just a maneuver of the opposition and a natural policy for them to pursue."

# TUNISIAN NOOSE IS TIGHTENED

'Invasion Springboard' Zones—British coastal black have been declared "regulated areas" and, beginning April 1, their use by civilians may be restricted or banned at any time by military authorities. Use of the areas as springboards for the promised invasion of Europe was foreshadowed in the announcement by Home Secretary Herbert Morrison.

### Bad Weather Hampers Red Offensives

German Base On The Kerch Strait Is Occupied

MOSCOW, April 1 (AP)—Overcoming the worst kind of transportation difficulties, the Red army struggled today to increase the tempo of its offensives despite the bad weather.

In the Kuban valley of the western Caucasus, the Soviet troops drove on from Anastasevskaya, one of the Germans' last good-sized bases on the eastern side of the Kerch Strait. The Soviet midnight communique announced its capture yesterday. The strait is but 43 miles from the town.

There was evidence along other sectors that the Russians, by their great effort at quick consolidation of their gains, were beginning to give the Germans fresh worries. The Nazi commanders had been confident that mud and slush resulting from the spring thaw would halt all operations. Now they are beginning to wonder if their wishes would come true.

(The German communique said today that the Germans had repulsed Russian attacks at the Kuban bridgehead and that only local engagements were being fought in other sectors of the eastern front.)

The midday communique said that on the western front, after artillery duels, the Russians cleared the Germans from some positions, although there was no material change in this front before Smolensk.

West of Rostov, activity increased as warmer spring weather made the area better for military operations, and Soviet big guns battered the German positions.

Anastasevskaya is only 10 miles from a road leading south to Novorossiysk, the former Russian naval base on the Black Sea coast and principal supply center now for what is left of the Nazi Caucasus army. If the Russians can seize the road junction they could trap a sizable German force in that area.

Russian aviation was making itself felt again in the sector west of Rostov, the midday war bulletin asserting that an enemy ammunition dump was destroyed by bombers, and that 11 German planes were shot down and six more damaged by Red army airmen and anti-aircraft batteries.

### FORTRESSES POUND THE AXIS SHIPPING BASE OF SARDINIA

ALLIED HEADQUARTERS IN NORTH AFRICA, April 1 (AP)—British and American troops squeezed tighter the vise upon Axis divisions in Tunisia today while it was disclosed that the largest single force of U.S. Flying Fortresses ever massed had blitzed the shipping and air fields of southern Sardinia, to which Field Marshal Erwin Rommel looks for aid.

Nearly 100 Fortresses, escorted by strong formations of Lightnings, struck yesterday at the Sardinian port of Cagliari and three airdromes, hit five merchant ships and 21 smaller craft, spread acres of fire across industrial targets, damaged or destroyed 57 aircraft aground and shot down 14 enemy fighter planes on a mission from which every raider returned.

Gen. Sir Bernard L. Montgomery's eighth army patrols began preliminary skirmishes against a line of Rommel's rear guards newly dug in about 24 miles north of Gabes on the coastal highway north of Sfax.

Military sources here said the line was about 12 miles north of newly-captured Oudref, flanking the coastal highway north to Sfax and well above the Gabes bottleneck.

To Montgomery's left, United States armored units from the command of Lieut. Gen. George S. Patton, Jr., pushing eastward in the El Guestaria Pass area encountered deep mine fields which made progress difficult, but the junction with the eighth army appeared near.

British and French infantrymen pushed forward in the sector of Sedjenane, itself 40 miles southwest of Bizerte. The Tebuna line, overlooking Sedjenane and the Mateur-Tabarca road from the south, was captured by a British battalion of the first army after a series of eight bayonet charges. Making good progress east of Sedjenane, the first army has captured much enemy war equipment, a communique said.

(The Rome radio said in a broadcast recorded in London that the battle of Tunisia was approaching a climax. The announcer said it was probable that "the British first army and the American army in their turn will soon assume tasks of no less importance than those of the eighth army.")

(The Russian army newspaper Red Star said that Rommel was in serious danger, adding that "our Allies possess sufficient power and battle means to squeeze the ring of their troops around the Italian and German units and exterminate them."

It was officially announced that the axis lost 21 aircraft in combat yesterday with the Allied North African air forces, while 12 Allied planes failed to return.

"In the Gafsa sector (held by United States troops of Lieut. Gen. George S. Patton Jr.) Allied forces continued their attacks on the enemy and made progress," it said. "Our armor was engaged."

### 48-Hr. Work Week Goes Into Effect In Many Areas

WASHINGTON, April 1 (AP)—The 48-hour work week went into effect in 23 labor-short areas today and a survey of affected cities indicated these general results:

- 1. Compliance, as described by area directors of the war manpower commission, was "good" to "100 per cent," and employers are cooperating.
- 2. No cases of open defiance had been reported to the WMC.
- 3. Requests for exemptions were comparatively few, and came principally from concerns with a small number of employees.
- 4. Few workers will be released for other jobs, largely because virtually all war plants and many other concerns in the affected areas already had gone to a 48-hour week, but employers' demands for additional workers will be eased.

The area directors' reports bore out predictions by national WMC officials that do not necessarily mean the novel presidential order is gaining perfect results because:

- 1. Employers adopting the 48-hour schedule are not required to report, and it is too early to determine whether silence means compliance, evasion, or unspoken defiance.
- 2. All requests for exemptions are not in yet, since the deadline for making such requests did not pass until last midnight.

The order, which affects lumber and non-ferrous metals mines throughout the nation as well as business and industry in the 23 areas, is one of three manpower actions carrying April 1 deadlines. The two others require:

- 1. Draft boards to begin reclassifying men in non-deferable occupations as available for immediate induction, regardless of whether they have wives or children. Those registered with U. S. employment offices for other jobs will get a 30-day stay of induction.
- 2. The army to cease granting outright discharges to men 38 years and older. Instead, men released for work in agriculture or essential industry are to be transferred to the enlisted reserve. This means they can be recalled to active duty at any time.

Detroit, one of the greatest war production centers, expected immediate release of 500 workers for other jobs, according to the area WMC office, which added that more gradual releases eventually would release 10,000 for more essential jobs or the armed services.

The Baltimore WMC office, reporting general compliance, said that out of 1,500 requests for exemptions, 500 were withdrawn voluntarily before the deadline, 900 were given partial exemption (covering individuals or departments), and the 100 others were granted total exemption. But few workers were expected to be released.

### Car Tag Buyers Swamp Clerks

Long lines of car owners, taking advantage of the last day to purchase 1943 license tags, were still filling the courthouse halls Thursday.

Clerks were too busy to estimate the number of car tags they had issued during Wednesday but it was after hours when the doors finally closed and workers burned the midnight oil getting caught up.

After today, it was advised, car owners must pay a twenty percent late penalty charge or sign an affidavit that their cars have never been driven.

### Ration Book For Food Establishments

WASHINGTON, April 1 (AP)—OPA said today it plans to issue a special type of ration book for use by small food serving establishments.

The new book will be similar to the most-common goods book now in use by householders, and will eliminate a complicated certificate system of ration points for the small eating establishments, although larger places will continue to use the certificates.

### Meat Prices To Be Fixed

WASHINGTON, April 1 (AP)—The Office of Price Administration today polished up new standardized retail prices for beef, veal, lamb and mutton, which along with rationing, are expected by officials to iron out many of the kinks in the meat distribution machinery.

These price rules, which probably will be released Monday, will be similar to the standardized retail pork prices that go into effect today, although they probably will not be effective until about April 15.

As in the case of today's pork prices, the new rules of beef, veal, lamb and mutton will set up two prices, one for small independent stores and the other for large independents and chains, in each of 11 zones into which the country has been divided. The two prices probably will be a cent to a few cents apart, with the small stores permitted to charge the higher prices because of higher relative operating costs.

Under the new system, all small stores and all large or chain stores in the same locality will have the same maximum prices, enabling the public to detect illegal charges easily.

### Jeffers Reports Great Success In Synthetic Rubber

WASHINGTON, April 1 (AP)—Rubber Director William M. Jeffers told senate investigators today synthetic rubber has been perfected to the point where its quality answers virtually all requirements without the need of mixture with crude, then proudly displayed what he called the nation's first all synthetic heavy duty truck tire.

Conceding that the outlook in terms of quantity had not passed the critical stage, he nevertheless defended curtailment of guayule planting on the ground that the projected acreage was more sorely needed now for food crops than for this natural rubber.

Presentation of the tire—built by Goodyear with butadiene produced from alcohol manufactured at an Institute, W. Va., plant which utilizes guayule—created excitement at the hearing, called to study an order drastically curtailing the guayule program.

### House Votes To Adjourn, Then Changes Its Mind

AUSTIN, April 1 (AP)—The house of representatives today voted to end the general session of the legislature on May 11—and then reversed its mind.

The result was that it wiped out the vote for adjournment and laid on the table subject to call the adjournment resolution. It can be brought up at any time after 24 hours notice is given.

Here's what happened: The resolution was adopted 67 to 65.

### Airmen Must Lead In The New Era Bombardiers Told

Aviation has projected a new era in which isolationism cannot exist, and refuse to let the fact that the world will be wholly different "sour you." Too, he reminded, the very existence of the nation depended upon alertness of thought and action. "There is," he added, "no time to be at ease."

Lieut. Col. David Wade, director of training, compared the training the new officers had received to "life insurance for yourself and for your country."

From 2nd Lieut. W. H. Siehr, wing commander for the class, came the response. "Our giving is only beginning," he said. Appreciation of officers and instructors, and especially for help given by the enlisted personnel will be expressed in "the dedication of our fee and his principals," asserted Lieut. Siehr.

Marcia Nell Patterson, soloist for NBC and wife of 2nd Lieut. William C. Patterson, member of the graduating class, sang "The Old Black Magic" and "He Wears a Pair of Silver Wings." Sgt. Joe King sang "Bombs for the Enemy," and like Mrs. Patterson, was accompanied by the post orchestra. Diplomats were presented by Lieut. Col. Wade and wings by Lieut. Col. William R. Boutz, assistant director of training. Invocation and benediction were pronounced by the Rev. J. E. McCoy and by Chaplain James L. Patterson. Capt. Richard T. Allen administered the oath of office.

Special mention went to 2nd Lieut. Jim Biggerstaff, son of Mr. and Mrs. Earl Biggerstaff of Nashville, Tenn., winner of the athletic award for the class; 2nd Lieut. Leonard A. Dwell, son of Mr. and Mrs. Bert Swelle of Chesley, N. Dakota, who held top rank in scholarship; and 2nd Lieut. Cliff M. Dekie, son of Mrs. Marie Dekie of Marianna, Florida, who was the top bombardier of the class.

### County Short On Bond Quota

For the first time in perhaps a year, it appeared that Howard county is dangerously near to failing in its monthly war bond quota.

A check of issuing agencies for the month revealed sales of \$28,096, a sum \$2,564 under the March allotment of \$30,660. The sales figure may vary a little, and payroll deductions for larger companies that are handled in home offices away from here will account for a considerable sum. It may be that the final tabulation from Austin will show sales equal to the quota.

The fact that only the series E bonds are now counting on the quota made considerable difference in the March credits. F and G bonds formerly were included, but the treasury is attempting to meet quotas with wider sales of the smaller denomination bonds.

The month of April may bring an exceptionally large quota, since it marks the treasury's second big drive. The nation will be asked for 13 billion dollars, more than the nine billion white was subscribed in the December loan drive.

Chairman Ira Thurman of the war bond committee and Chairman Chester O'Brien of the special Victory Fund committee for April are to conduct meetings soon to map the April effort.

### One Dead, One Hurt In Crash

An AT6C trainer from Ellington Field crashed north of here, killing the pilot, Lieut. James H. Brown of Ellington Field, and seriously injuring 1st Lieut. Wesley W. Harris of the Big Spring Bombardier School.

The plane "crashed some three miles north of Big Spring" while on "a routine flight," said an announcement from the public relations office of the Big Spring Bombardier School. "Cause of the crash is being investigated by a military board."

Body of Lieut. Brown was to be shipped Thursday evening by Nalley Funeral home to Dallas, where rites will be conducted.

Lieut. Harris, 27, whose wife and daughter reside in Big Spring, was given a chance to recover. He is the son of C. B. Harris, 2709 N. W. 17th, Oklahoma City and a graduate of Classen high school in Oklahoma City and of Oklahoma University.

### Stevenson Ready To Act On Labor Bill

AUSTIN, April 1 (AP)—Governor Coke R. Stevenson said today he had reached a decision on whether he will sign the Manford labor union registration bill but will not announce it until tomorrow.

The bill, signed by the speaker of the house yesterday, probably will reach the governor today after it is signed by the lieutenant-governor.

### Red Cross Week Will Be Observed In Theatres

In conjunction with the rest of the nation's theatres, the R&R in Big Spring today start a week-long salute of the American Red Cross.

Officially known as Red Cross Week and organized by the War Activities committee of the motion picture industry, the period is being observed by some 17,000 theatres.

A feature of the local celebration is the showing of a specially prepared screen tribute entitled "Somewhere In This World" in which the commensurate is made by Capt. Eddie Rickenbacker. The tribute explains the functions of the Red Cross as the only national auxiliary of the American Red Cross.

The Red Cross has been the backbone of the war effort since the beginning of the war.

### Chinese Open New Attacks On Enemy

By The Associated Press

Generalissimo Chiang Kai-shek's Chinese armies have crushed a series of 13 Japanese attacks and launched 17 of their own during the past week, a Chinese spokesman said today, while on other fronts the Allies struck at the Japanese by air from Burma to the south sea.

The Chinese spokesman's report indicated that Japan was making little headway in her new all-out offensive to knock China out of the war.

An official summary declared that the situation in southern Hupeh, in central China where the Japanese have been attacking in an eight-column drive, had been "very much stabilized and improved" since last week.

A Japanese force on the Yangtze-Kiang river has been "more or less destroyed," the spokesman said.

Far to the west, at China's "back door" along the Yunnan-Burma frontier, severe fighting was reported in progress as the Japanese attempted to capture the town of Tolo south of the Burma Road.

On the Burma front, RAF warplanes blasted railway yards at the Japanese-occupied temple city of Mandalay and set off fires raging at Bhamo on the Irrawaddy river.

In the southwest Pacific, Gen. Douglas MacArthur's headquarters announced that Allied planes carried out a devastating three-hour assault on the big Japanese base at Salamaua, New Guinea, and also attacked Lae, Trukha and Babo.

### Movie Stars Honor China's First Lady

LOS ANGELES, April 1 (AP)—Madame Chiang Kai-shek changed the stars in their courses today as 400 of movieland's galaxy reversed their usual roles to become spectators and gave upon the famed first lady of China.

Out of deference to her delicate health—guarded even more closely in view of a slight cold—arrangements for today were confined to a private luncheon and the tea for screen celebrities.

### Churchill Silent On U-Boat Campaign

LONDON, April 1 (AP)—Prime Minister Churchill again refused to give details about the progress of the war against U-boats when he was asked in the house of commons today for information on "the great improvements recently effected."

"I deprecate the discussion on this matter," Churchill said. "Certainly it would be quite impossible in public and even in a secret session I should feel very much hampered in stating the full truth. I must ask for a measure of confidence."

## Miss Gene Tingle And Sgt. Hamilton Marry

### Calla Lilies Used In Room Decorations

Before an improvised altar of palms, ivy and fern, Miss Gene Tingle, daughter of Mr. and Mrs. Clyde Tingle, became the bride of S/Sgt. Marvin Lewis Hamilton in the home of her parents.

Baskets of calla lilies and Pearly gladioli marked the place where the wedding party stood and cathedral tapers in silver candelabra flanked the altar.

Chaplain James L. Patterson of the Big Spring-Bombardier School read the single ring ceremony at 9 o'clock last evening in the presence of the family and close friends.

The bride wore a street length frock of "best girl" blue and her accessories were pink and black. Her flowers were arranged into a shoulder corsage of pink rosebuds. Katherine Hughes was bridesmaid and was dressed in a printed crepe ensemble with black accessories. Her corsage was of yellow rosebuds.

Mrs. Hamilton was graduated from the Big Spring high school in 1939 and was a member of the pep squad and other organizations. The bridegroom, formerly of Shelbyville, Tenn., is stationed at the Big Spring-Bombardier School. The couple will be at home at 507 Gregg.

### ENGAGEMENT OF COLORADO GIRL IS ANNOUNCED

COLORADO CITY, April 1. — Mr. and Mrs. Henry Pond of Colorado City announce the engagement and approaching marriage of their daughter, Sara Ann Pond of Abilene, and 1st Sgt. W. C. Patterson of Camp Barkeley. The wedding will take place Saturday evening, April 3, at the home of the bride's parents.

The Rev. A. E. Travis, pastor of the First Baptist church, will perform the ceremony at 8:30, and the wedding music will be played by Mrs. Oscar B. Price, aunt of the bride. Mrs. Oren B. Trulock will sing the nuptial solo.

The bride will be attended by Mrs. Bill Carter of Abilene who will be matron of honor. Sergeant John Schaffer of Camp Barkeley will be best man.

Miss Pond is a graduate of Colorado City high school and of business college. The bridegroom-to-be is the son of Mr. and Mrs. Claude Patterson of Fort Worth.

### MARY WHALEY

ISN'T IT AWFUL? ... Just got the word that there won't be any chocolate Easter bunnies this year. How can civilization go on with such tragedies taking place and think of the little children, the innocent victims of it all.

On Easter morn when the quiz kids come trooping downstairs to see what the Easter rabbit left them during the night, imagine their pitiful little faces when they look high and low but find no chocolate bunny.

We can imagine that their day will be darkened by the sadness of it all, and that though they go to church and Sunday school in their Easter frocks and little suits, their hearts will beat at a disappointed pace.

The consequences of such drastic action by the war boards is too horrible to contemplate for very long at a time. No doubt it will destroy the children's illusion about the Easter bunny and they'll end up their lives being little doubting Tommies.

The only hope is that the board announced in an effort to win back the love and goodwill of the people, that there will be plenty of Easter egg dye this year. And if you can find an egg to put it on, then you can color the eggs, just as in the past.

But when the kiddos look for the chocolate bunny, be brave, parents, you'll just have to explain that there is a war on.

## Couple Married In Methodist Parsonage Here

Miss Billie Bradley, daughter of Mr. and Mrs. P. M. Bradley, and Harold Merrill were married Wednesday evening in the parsonage of the Wesley Memorial Methodist church with the Rev. W. L. Porterfield, reading the ceremony.

The bride, attended by Norma Neil Burrell, was attired in a black and white ensemble. She was graduated from the Big Spring high school and for the past year has been employed by Albert M. Fisher company.

The bridegroom is stationed at the Midland Flying School.

## Big Spring Student Attends Entertainment For College Art Club

DENTON, April 1. — Preceding the presentation of an all-soldier show staged by the 84th Infantry Division Special Service from Camp Horze, Gainesville, at Texas State College for Women last week, members of the college Art Club, including Miss Lorelle Marlin of Big Spring, entertained the cast and staff with a buffet dinner.

Following the performance the group danced in the ballroom to the music of the Camp Horze Railpitters Orchestra, which was also part of the show.

## MOTHER SINGERS PRACTICE FOR CONVENTION

The P.T.A. Mother Singers met at the First Methodist Church Wednesday afternoon to practice musical selections which the group will present at the P.T.A. convention to be held in San Angelo April 19th and 20th.

Among the songs which the group will sing are "All For You" and "Three Little Maids."

Those present were Mrs. M. A. Cook, Mrs. G. W. Chowna, Mrs. Randle Pickle, Mrs. B. E. Winterrowd, Mrs. Bernard Lamun, Mrs. C. W. Norman, Mrs. Dick O'Brien and Mrs. R. C. Clarke.

## Waste Fats To Be Collected

Mrs. V. A. Whittington, president of the Girl Scout Leader's association, announced today that the scouts would sponsor another fat collection drive in Big Spring Saturday to be carried on in the same manner as previous collections. Around 800 pounds was collected in the last drive and Mrs. Whittington believes that collections will exceed the amount despite meat and shortening rationing.

The Girl Scouts are assisting Boy Scouts this week in collecting books for soldiers at the Big Spring-Bombardier School and magazines for troop trains and the USO center.

## Amazing results in building STURDY BODIES!

1—Promote the flow of vital digestive juices in the stomach

2—Energize your body with RICH, RED BLOOD!

YOUNG people, especially those of grammar and high school age, are prone to be deficient in stomach digestive juices and red-blood. A growing person who is operating on a 65 to 70% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped. In such cases Nature needs extra help. Organic troubles or focal infection, if they exist, must be corrected. These foods must be digested and rich, red-blood must be present to build sturdy bodies.

SSS Tonic is especially designed to build up blood strength when deficient... and to promote those stomach juices which digest the food so the body can make proper use of its tissue building and repair.

These two important results enable the body to make use of the food as Nature intended. Thus you may gain a lean appetite... firm flesh... body energy... mental alertness.

Build Sturdy Health so that the Doctors may better serve our Fighting Forces.

Thousands and thousands of users have testified to the benefits SSS Tonic has brought to them. And scientific research shows that it gets results—that's why so many say "SSS Tonic builds sturdy health—makes you feel like yourself again." At drug stores in 10 and 20 cent sizes. SSS Co., S.S. Co.

## White Collar Class Works Extra To Help Plant's War Production

BURLINGTON, Ia., April 1 (AP) — Teachers lay aside their books and shoulder heavy ordnance articles, a newspaper reporter writes the first story of the day and goes out to help push box-cars, students give up football and baseball to load carts.

That is the situation in this city of 27,000 today as white collar workers try to relieve the shortage of manual labor in the Iowa ordnance plant.

Fifty students and men who hold white collar jobs during the day now work from 6 to 10 at night in the storage warehouses of the plant. They work one to six nights a week; the average is four.

The short-shifters are called "dudes" by their fellow employees, but the plant management avers they are a far cry from the usual conception of a "dude." They work hard, don't complain and

take the rough work like veterans.

One foreman declared "the greenhorns do more work in their four-hour shift than the same number of regular laborers in that time."

The short-shifters answered the call for laborers because, they said, they wanted to help the war effort. Except for the students, all of them hold daytime jobs which pay \$1 or more an hour. They get \$2 1-2 cents an hour for the night work.

## Buildings Damaged As Land Sinks Over Mines

PITTSBURGH, Pa., April 1 (AP) — Residents of this northeastern Pennsylvania anthracite city of 18,000 were on the alert today after a section of land sank 80 feet in another of a series of mine subsidences that has damaged more than 100 homes, wrecked a high school building and forced a war plant temporarily to close. An area 50 by 75 feet in a city park dropped late yesterday, snapping a gas main and cracking the foundations of 12 nearby homes.

## Miss Maribel Menger Honored With Shower At The Settles Hotel

An arrangement of snapdragons, sweetpeas and iris intermingled with lacy fern centered the refreshment table at a crystal, china and silver shower given at the Settles Hotel Wednesday evening for Miss Maribel Menger, bride-elect of Lieut. Roy Harlan Black. Hostesses were Mrs. Harry Hurt, Mrs. Harry Middleton, Mrs. Nat Shick, Mrs. J. D. Biles and Mrs. Fred Keating.

Others in the houseparty were Clara Pool, Lillian Shick, Mrs. William Menger, mother of the bride-elect, Mrs. Ira Thurman, Miss Menger's sister, and Mrs. Dewey Martin.

The refreshment table which was laid with an Italian outwork cloth, was centered with the floral arrangement in a crystal bowl and flanked with triple candelabra. Wreaths of pink and white sweetpeas encircled crystal platters of open-face sandwiches and individual cakes.

Redbuds, plum and peach blossoms with panies and orange blossoms were placed at vantage points about the entertaining rooms. Gifts wrapped in white and topped with miniature corsages of sweetpeas in pastel shades, were displayed on two tables.

Guests registered in the bride's book which centered the register and was ornamented with panies. Miss Shick presided at the book.

Miss Menger and Lieut. Black will be married in a formal candlelight ceremony which will be read at the First Baptist church Saturday evening.

The guest list included Mrs. J. G. Garner, Mrs. Ebb Hatch, Mrs. M. H. Bennett, Mrs. Eul Robb, Mrs. Ben Carter, Mrs. Worth Peeler, Jewell Barton, Mrs. W. W. Inkman, Mrs. Shine Phillips.

Mrs. Fred Stevens, Mrs. H. W. Leeper, Mrs. M. M. Edwards, Nell Hatch, Mrs. Shirley Robbins, Mrs. Albert Fisher, Gertrude McIntyre, Mrs. Carl Strom, Vivian Nichols, Mrs. Agnes V. Young, Mrs. V. # Hardest Hit By War, Bossox Win Pennant For Optimism

## Midland Wins AAFBS Cage Championship

The 14th squadron from Midland's air field boasts the basketball championship of the AAFBS loop today, by virtue of a 44-20 victory over the 16th squadron of Big Spring.

The local lads, champions of their own field, were held down all the way by the Midlanders in a game at the post Wednesday night. The 14th boys were in front from the start, and led 22-14 at half time. They were paced by Baranowski, who scored 16 points, and Pierce who hit the loop for 10. Barbour and Moon scored seven apiece to top the Big Springers.

The Midland team gets its name inscribed on a special trophy, and will keep the trophy at their own air base. The game marked the end of the cage season for the force boys.

## Former Tex. League Player Succumbs

FARMERSVILLE, April 1 (AP)—Funeral services will be conducted here today for Charles (Tex) McDonald, 55, infielder who played with Texas league teams from 1910 to 1927. He died in a Houston hospital yesterday after an illness of several days.

McDonald was on the Dallas roster in 1910 and '11; Wichita Falls '21 and '22; Houston, '23 and '24; Dallas and Shreveport, '25, and Fort Worth in '26 and '27. He batted left-handed, and his average was above .300 during much of his baseball career.

## Cronin Thinks Team Might Finish Second

By JUDSON BAILEY  
MEDFORD, Mass., April 1 (AP)—The Boston Red Sox could win the pennant for optimism in any baseball league.

They have been hit harder by the war than any other club in the majors, yet they figure they are a cinch to finish at least second in the American league again this year.

Since the 1943 season closed the Red Soxers have lost their entire first string outfield, Ted Williams, Dominic Dimaggio and Lou Finney; the rookie shortstop sensation of the season, Johnny Pesky; and a pair of pitchers who combined to win 20 games, Bill Butland and Broadway Charley Wagner.

The Red Sox were the first team to announce that they were going to train at home this spring. This decision was supposed to super-charge the players, who reported in incredibly good shape for the curtailed conditioning program.

The team is in fine fettle for its first exhibition game day after tomorrow with the Brooklyn Dodgers in Brooklyn.

Manager Joe Cronin has a mound corps every bit as strong as last year and there is no reason to think that Cecil (Tex) Hughson, who won 22 games last season to top every hurler in the big time, cannot do it again. Little Eddie Lake, up from Sacramento for another fling at fame, looks like he can do an adequate fielding job at shortstop and Bob Doerr, Jim Tabor and Tony Lupien round out a formidable infield.

The question that everyone here is asking is the outfield. Aging Pete Fox, who was selling for a considerable part of the 1943 campaign and played in only 77 games, is the one certain regular. Al Simmons, even more aging (almost 40 years old in the record books) is making a valiant effort to get into playing shape.

This means that the brunt of the patrolling must fall on three rookies—Tom McBride, who batted .331 for Little Rock; John Lazor, a .309 hitter at Louisville; and Bob Garrison, who had a .295 average at Fort Worth. This trio together produced a mere 13 home runs against minor league pitching last year, which indicates that even if they get their hits this season they are not going to provide much power.

**One Of Favorites Withdrawn From The Big Races**  
NEW YORK, April 1 (AP)—Trainer Cecil Wilhelm announced today that W. E. Boeing's Devil's Thumb, one of the four top favorites for this spring's rich stakes, definitely would not run in the Kentucky Derby, the Preakness or the Wood Memorial because of a cracked foot.

Wilhelm said he noticed the crack in the colt's right front foot after Devil's Thumb had completed a five-eighths of a mile workout Tuesday. Wilhelm said the injury, while not serious, was large enough to prevent the colt from running in the early spring stakes.

**Fort Worth Track Meet Is Cancelled**  
FORT WORTH, April 1 (AP)—One of the major track and field features of any season in the southwest will not be held this year.  
It's the Southwestern exposition meet.  
When the fat stock show was suspended because of the war it was decided not to hold the annual track meet. Later, there was considerable demand from schools in Texas and the city recreation department investigated the possibilities on staging the big meet.  
Now Supl. R. D. Evans of the recreation department says no date suitable for a majority of the teams can be found.

## Cowboy And Indian Clash To Conclude Basketball Season

NEW YORK, April 1 (AP)—They'll play a game of cowboys and Indians at Madison Square Garden tonight to wind up the basketball season and collect about \$20,000 for the Red Cross.

The game, of course, pits the Wyoming Cowboys, winners of the National Collegiate A.A. tournament, against the Red Men of St. John's University in Brooklyn, victors in the National invitation tournament.

The runners-up in the two events, Georgetown and Toledo University, will clash in the first

half of the charity doubleheader which is expected to attract some 15,000 spectators.

Wyoming, which averaged 60 points a game during the regular season in which it lost only to Duquesne, breezed through the Western N.C.A.A. sectional tourney, then took the National title Tuesday by whipping Georgetown, 46 to 34. Meeting the hardest kind of competition, the Brooklyn Indians won 21 out of 23 regular-season games and then eliminated, in turn, Rice, Fordham and Toledo.

## This Is Something—Chemical Warfare Bowlers Have To Roll With Gas Masks

SPOKANE, Wash., April 1 (AP)—The Chemical Warfare Service team, tops in the Fort George Wright officers' league, wasn't fooling about bowling under a handicap.

The team wore gas masks—and they proved so hot and stuffy that the opener of a three-game series was lost to the adjutant general's department squad.

**SPORTS ROUNDUP**  
By HUGH FULLERTON, JR.  
NEW YORK, April 1 (AP)—Although the National A. A. U. swimming championships this weekend are packed full of record-breakers, about the only chance of busting a record will be in the opening event on some program. Reason is that the New York A. C. pool is too narrow to be called "fast." Coaches say the same races at Yale would produce times one fifth or two fifths of a second faster.

**TODAY'S GUEST STAR**  
John Mooney, Salt Lake Telegram: "Any way, the rookie crop which blooms so nicely in the grapefruit loop, ripens so nicely the first weeks of the season and then either rots or drops from the limb about midseason, may be retarded enough by the northland's cold to insure a better yield this fall in the major league apple orchard."

**THE IOWA SYSTEM**  
Football coaches likely will be keeping a close watch on spring football practice at the Iowa prep school—and not with the idea of picking up a couple of good running guards. . . . The school will put a dozen squad teams in the field and Lieut. Col. Bernie Bierman plans to give half of them offenses patterned after his own Minnesota system and to teach the other six "T" formation plays. . . . They'll wind up a round-robin schedule with an all-star game between the two groups.

**ONE-MINUTE SPORTS PAGE**  
Having won practically everything else in sight, Greg Rice likely will get the New York track writers' award as the outstanding performer of the winter season for the third time in four years. . . . Eric Tipton, the old Duke footballer who is No. 1 candidate for the Cincinnati Reds' left field job, still is trying to get into some branch of the armed forces although he has been turned down by all of them because of a perforated eardrum.

LONDON, April 1 (AP)—The Nazi-controlled Dutch radio said in a broadcast recorded by the Associated Press today that 120 persons were killed, 400 injured and thousands made homeless by the U. S. Flying Fortress raid yesterday upon Rotterdam, chief port of call for German coastal convoys.

## Training Camp Briefs—Bucky Walters Improving After Injury

BLOOMINGTON, Ind.—Bucky Walters, the Cincinnati Reds pitcher who sprained an ankle the first day of training, is beginning to be a bit more active after a long rest period. "Those four hotel walls were beginning to ump at me," he said.

WALLINGFORD, Conn.—Beginning today, the Boston Braves plan to hold all their workouts outdoors, regardless of weather. Manager Casey Stengel blames the soft soil in Choate school cage for three injuries on his squad.

MEDFORD, Mass.—The Boston Red Sox wind up drills in the Tufts college cage today, then head for their opening exhibition game in Brooklyn Saturday. Bobby Doerr, whose first workout was a good one, insists he'll be ready to start at second base.

FRENCH LICK, Ind.—Chicago's Cubs and White Sox squared off today for the second of their "this one doesn't count" spring training games. The Sox wrote a familiar fit to the first clash when Rookie Frank Kalin clouted a two-run homer off Lon Warneke in the last of the ninth for an 8-7 decision.

ASBURY PARK, N. J.—Charlie Keller and Bill Knickerbocker, two late arrivals in the New York Yankees camp, haven't played any baseball yet but they're beginning to feel the rigors of training. Knickerbocker reached here yesterday in time to work out with the advanced class in calisthenics while Keller, a later arrival, got his exercise carrying his bags up three flights because the hotel elevator was out of order.

LAFAYETTE, Ind.—Joe Heving and Otto Denning were the only Cleveland Indians who showed much in yesterday's 12-3 victory over Purdue. The only earned runs made by the Tribe regulars came in the eighth inning when Ray Post, loaned to the collegians, issued six walks, five in succession. Having pitched three hitless innings for the Indians and Denning got two doubles, one with the bases full.

NORFOLK, Va.—It looked like a plot against the pros as the Washington Senators opened their exhibition series against the Norfolk naval training station today. The Senators' squad includes Phil Rizzuto, former Yankee; Don Padgett, ex-Cardinal fence buster; Dom Dimaggio, late of the Red Sox; Murray Franklin from Detroit; Vincent Smith, one-time Pirate catcher and Jimmy Gleason, who played with the Reds and Cubs, and Pitchers Freddie Hutchinson, who won 23 and lost one for the Tars after leaving Detroit last season. Charlie Wagner of the Red Sox, Walter Masterson, a former Senator, and Tom Earley of the Braves.

## Chicago Boxers Plaster Gotham Golden Glovers

### Janiro Looks Like Canzoneri

CHICAGO, April 1 (AP)—So far as New York Golden Glovers were concerned there was no fooling today—no fooling that the Midwest grows its amateur boxers tough.

The Manhattan fighters have been trying to whip the midwesterners at Chicago ever since the 1928. Even in their own backyard, the New Yorkers encountered astounding resistance, winning only four times in the 16 year rivalry.

But last night their efforts reached a climax of futility. The New Yorkers won only two of the 16 bouts in which a champion and an alternate from each team fought in the eight weight classes. Their lowest setback previously was in 1931 when Chicago won 15 to 2.

Chicago presented baby faced Tony Janiro, 18 year old Youngstown, Ohio, lad who never has lost a fight, and Leroy Jackson, Cleveland, who won the National AAU title in 1942.

The crowd waited through 15 fights to see Young Janiro, a brown eyed, wavy haired Italian boy whom many maintain looks and acts like Tony Canzoneri, former lightweight king. Janiro satisfied them with a masterful job against New York's George Cooper for the 126-pound championship.

Last night's victory was his 26th consecutive, and he says he wants to go on to become a professional. Last night's knockouts came from the fists of Hy Bronstein, attached to the Rosencrans Air Field at St. Joseph, Mo., and Reedy Evans, 19 year old Chicago negro. Both are light heavyweights.

Bronstein picked himself up after a first round knockout to floor Joe Rochester in three frames. Minutes later Evans swarmed at and dropped the bewildered New Yorker in 87 seconds.

## Winning Basketball Girls Of China Ready To Contest For State Crown

CHINA, Tex., April 1 (AP)—When you hear of a long winning streak in Texas basketball you can put it down that C. C. Alexander had something to do with it and chances are nine to one you'll be right.

Alexander has been setting records ever since he started coaching girls squads.

When he was at Kildare, Alexander produced a team that went 115 straight games without defeat.

Now Alexander is superintendent and coach of China high school and his first season in this town of 350 inhabitants finds him with a team unbeaten for the season in 22 consecutive games.

Right now Alexander is trying to arrange for a series with Menquite high school, which claims the state title although it lost three games to an Independent team.

Already to China's credit are titles of the Chambers county invitational tournament, the Beaumont invitation tournament and the Southeast Texas championship.

In addition, he's serving as physical instructor for 20 youths enrolled in the Huntsville CAA school.

## Six Clubs Lined Up For Semi-Pro Loop

HOUSTON, April 1 (AP)—Six clubs will play in the south coast victory semi-pro baseball league this season.

Entered are Houston Shipbuilding, Freeport Dow Chemical, Elvington Field, Southern Select, La Porte Coast Guard and Hughes Tool.

The season opens April 25.

Smith, 147 and 112 pound New York champions respectively, accounted for the only eastern triumphs.

# Nutrition Battle To Be Won Through The Use Of Cereal In Every Day Cooking

By MRS. ALEXANDER GEORGE, AP Food Editor

If you want to bet on anything at all, it's a pretty safe wager that this country won't ration cereals. Our fields of waving grain will continue to produce vast quantities of their products, packed full of rich food values. We must learn to make far greater and better use of them than we've ever done in the past.

Cereals contain starch, one of the carbohydrates so necessary to maintain our energy. They are a good source of protein, but must be supplemented by other protein foods for proper balance. Cereals also have valuable minerals, and contain some vitamins. Just looking at that record, anyone can see

balls. Brown in heated margarine. Add onions and cook, covered, until onions brown. Season to taste. Add balance of water and cook 15 minutes. Drop on dumplings and cook, covered, 20 minutes. Don't lift cover until cooking time is up.

**Oatmeal Dumplings**  
1 1/2 cups enriched flour  
1 teaspoon salt  
2 teaspoons double-action baking powder  
1-3 cup quick oats  
1 cup milk  
1-3 cup finely chopped celery

Sift flour, baking powder and salt. Add oats and celery. Add milk a little at a time mixing lightly with fork. Drop by tablespoons onto the meat.

that we're foolish if we don't make every possible use of them. And that doesn't mean just eating them for breakfast.

Any kind of "mush" is good to use in place of potatoes or other starchy dishes at dinner. "Mush" takes kindly to gravy, whether the base is hominy, hominy grits, or white or yellow corn meal. Speaking of those last, SPOON BREAD is a main dish fit for the gods, if it's accompanied by a

MEAT BALL STEW WITH OATMEAL DUMPLINGS

good gravy. (There doesn't even have to be any meat.) Here's a good southern recipe for spoon bread:

Stir 2 cups milk gradually into 1 cup white or yellow corn meal in saucepan and cook, stirring constantly, until a thick mush forms. Add 1/4 tablespoon fat and 1/4 teaspoon salt. Cool 15 minutes. Add 2 egg yolks, one at a time, stirring well. When all are used beat thoroughly. Fold in stiffly beaten egg whites. Turn into large, deep, buttered dish and bake at 275 degrees F for one hour and fifteen minutes.

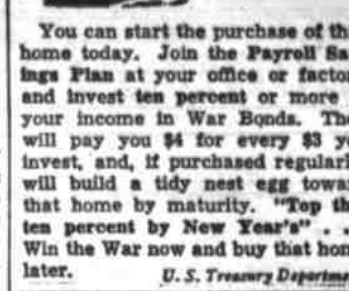

Croquettes can be made of any left-over cereals, though I think hominy, corn meal and rice are best. After you've shaped the croquettes roll them in flour, dip in egg and then in crumbs, and fry. A tomato or mushroom sauce and good seasoning with these will make you forget the absence of meat.

GOOD THINGS TO EAT  
Corner Gregg & 4th

For extending meat, the addition of left-over cooked cereal is excellent. Uncooked oatmeal, substituted where bread crumbs are called for in a meat loaf or patties, gives a nutty flavor and a lot of extra nourishment.

Any of the finer cereals, like wheat or corn meal, can be poured into a dish, cooled, chilled, and sliced for frying. Stir a little flour into left-over cereal you intend to use this way, while it's still hot. It will fry better. These fried mushes are delicious with syrup.

Muffins or bread are excellently flavored by the addition of left-over cooked cereal. For each cup of cereal used, decrease the flour in the original recipe by 1-4 cup and the milk by 2-4 cup. Stir the cereal hard to take out any lumps, mix it with the milk, and add it to the other ingredients required.

Oatmeal bread is one of the best - especially with nuts in it, thus adding further protein value. And if anyone knows a better food than corn bread (or pone, depending upon where you come from) I'd like to hear about it.

Cereals are good in desserts, too. Indian pudding is made from corn meal and is as thoroughly American and delicious as anything we eat. Cooked oatmeal makes good pudding, layered with apples which have been glazed in brown sugar and butter or margarine, and well sprinkled with cinnamon. Either oatmeal or rice, cooked, can be used to stuff apples, having first been well mixed with brown sugar or cinnamon. Then bake them and serve for dessert with cream. Oatmeal cookies and macaroons are among the easiest to make and eat of any dessert I know.

Cereals are not just for breakfast. They are for any meal you can name and the number of their uses is limited only by your imagination.

**Pension Board Inquiry Is Continuing**

AUSTIN, April 1 (UP)—With latest testimony developing that key employees of the department of public welfare got salary raises last year, a special house committee today planned to continue its investigation of old age assistance administration.

When the house ordered the investigation it was told salaries were increased but pension grants were less than the law authorized. This week the committee's authority was broadened to include a study of more efficient welfare administration.

G. L. Avriett, department auditor, last night gave the committee figures on some of the raises: J. S. Murchison, executive director, was raised from \$416 a month to \$500 in June.

Garth Daniel, assistant director, was raised from \$333 to \$380 in April and \$385 in July.

Mrs. Bertie Malone, director of public welfare and field operations, was raised from \$300 to \$330 in April and \$350 in July.

# War Board News

A weekly column contributed by members of the Howard county USDA War Board.

## Permits Issued To Meat Handlers And Slaughterers

The War Board issued permits to 15 dealers in livestock at its called meeting last Friday. Permits were also issued to eight butchers in Big Spring, and to six farm slaughterers. D. & C. Packing company is the only firm whose volume of business is large enough to classify as a city slaughterer. Their permit was ordered at the regular meeting of the Board Saturday.

Farm slaughterers are farmers who sell on dressed weight to markets in Big Spring. The animals are custom slaughtered in Big Spring. All farmers who use this method of sale will require permits. Also any person who buys and sells livestock will need a permit to operate. However, if a farmer buys animals and keeps them on his farm more than 30 days, he is presumed to have raised them and will not need a permit to sell them.

and having some sort of cover—otherwise a frame garden—can be depended upon as a source of home-grown vitamins. The cover, designed to protect young plants from cold, should be tacked securely to one side of the frame and means provided to hold down the cloth over the other side and ends. Small props should be available for providing ventilation when the cover is kept over the bed for two or three successive days.

Low-growing vegetables like mustard, turnips, lettuce, beets, carrots and onions are best suited for growing in frame gardens.

Spading is the first step in preparation. Mix rotted manure with the soil, but if this not available add five to ten pounds of 4-12-4 commercial mixture, spading it about 18 inches deep. Pulverize the soil if it is cloddy. Planting crosswise of the bed, put in four rows of leaf lettuce spaced about eight inches. Use Black Seeded Simpson. Then plant a half dozen rows of leendegreen or giant southern curled mustard for quick greens, and 10 or 1 row of carrots of the Chanteny variety. Beets sowed at the rate of one or two to the inch in rows 10 inches apart, and a half pint of onion sets in rows spaced eight inches are desirable products of a frame garden.

All of these vegetables should be planted now. In 20 or 40 days make a second planting of mustard and radishes. This keeps fresh tender greens coming along throughout the spring.

## Use Of Fertilizer On Victory Gardens

There is danger of making your garden drouthy if you use the wrong method of applying fertilizer. If manure is used it should not be "turned under," but should be applied to the surface after breaking, and then mixed with the upper layer of soil so that it will not be under the seed bed. Rain or irrigation water will carry the plant food down to the roots of the plants.

In the application of commercial fertilizer it should be broadcast somewhat in the same manner, or placed along the row and mixed with the soil over an area at least one foot wide. Our scant rainfall here is likely to cause failure from fertilizer placed in the drill under the plants, as is done in more humid regions.

SAN JOSE, Cal. (UP)—Two seventh-grade pupils of Shoulters school, Marysville, Wash., a half century ago, accidentally met here and reminded. One was Dr. Robert Brady, University of California economist. The other was Henry Storm of this city. Storm asked Dr. Brady if he remembered being sent home from school for fighting another kid. Brady remembered. "Well, I'm the kid you were fighting," said Storm.

## Winter Feeding Profitable, Steer Tests At Spur Show

Wintering steer calves is a profitable undertaking, especially if light steers are used in the venture. Tests completed at the A.&M. College sub-station at Spur indicate. All in all, use of winter (wheat) pasturage proved the most practical method of establishing gains, for not only did it keep the animals within striking distance of those on a higher nutritional plane, but it set them up for much more rapid gains during summer feeding.

During the 84-day winter feeding period, lot No. 2 (fed cotton seed meal and kafir silage) had 164 pounds average gain, greatest of four pens. Yet, this was accomplished at a cost, including price of steer, of \$9.15 per cwt, the cheapest cost of the four groups.

Second greatest and yet second most economical gains were made by lot No. 4 (fed sumac bundles with wheat pasturage and no meal), which had 126 pounds average gain with a cwt cost of \$9.24. But when it came to spring and summer feedings, the wheat pasturage paid off. The first 32 days of the period the wheat lot gained 70 around while the kafir silage lot could only 18. Similarly, native pasturage, which produced small gains, set up for a 61 pound gain on the average. For the entire summer period the wheat lot gained 352 pounds, the kafir lot 350.

Extension service specialists conclude that "steers on a high plane of nutrition during winter make smaller pasture gains than steers wintered on a lower plane of nutrition. Steers on low and medium planes of nutrition during winter, however, do not ordinarily quite catch up with those on the high plane of nutrition. However, good winter pasturage such as provided by a wheat patch returns most practical and profitable gains.

## Texans Play Major Role In Attacks

AT A U.S. BOMBER STATION IN ENGLAND, April 1 (UP)—Texans again were prominent as Flying Fortresses continued their hammering of continental targets. When bombers unloaded explosives and incendiaries yesterday on the harbor and Schidam suburb of Rotterdam it was the ninth in a busy month for heavy American craft.

Capt. C. D. Clark of McAllen piloted the bomber "Bloody Tanager Show." Competing in his 13th raid was Second Lieut. William Springfield, 21, of Big Lake, Texas, pilot of "What's Cooking?" Sgt. James L. Stafford of Cisco, Texas, a tail gunner making his 17th raid, was credited with shooting down another FW-190.

"He came within 500 yards of us with his cannons blazing before I gave him a long burst," Stafford said. "He dropped off in a spin and the last I saw of him before he disappeared in the clouds he was going down out of control."

Other members of Stafford's crew included Sergt. Gerald Brockman, Wichita Falls, Texas, top turret gunner.

## Name Orchestras May Be Casualty By End Of Year

FRESNO, Calif., April 1 (UP)—The American scene, minus its top name orchestras, is more than just a probability by the end of the year, says Tommy Dorsey, one of the nation's best known band leaders.

"The armed services and defense plants are taking the waders and musicians right and left," said Dorsey, "and before you know it there will be no more top bands."

The sentimental gentleman of swing said he has lost 27 of his men to the services and defense jobs during the past eight months. Dorsey, married and has two children, is classified 3A but he expects to trade his trombone for a gun by June.

## Proper Cookery Is Major Way To 'Extend' Meat

What homemakers learned about "extenders" during the Share-the-Meat program will stand them in good stead now that meat rationing has come, according to Hazel Phipps, specialist in food preparation for the A. & M. College extension service.

This is especially so since cheese, butter and margarine have been placed under ration, too. Thus, it becomes even more important for housewives to know the different kinds of cuts of meat and to know how to prepare each, said Miss Phipps.

The two most important helps in meat cookery are: Use moderate heat; and second, cook according to cut and fatness. Miss Phipps explains that cooking meat at moderate temperatures will save juice and flavor and help prevent costly meat shrinkage. In regard to cooking according to cut and fatness, the specialist advises roasting or broiling tender well-fatted cuts in an uncovered pan with no water added. Tough meats should be given long, slow cooking in a covered pan with a little water or other liquid. Grinding tough meats enables the homemaker to prepare them as the tender cuts are cooked.

Flavor of meat may be "extended" in several ways—with cereals such as rice or hominy, with bread as in meat loaf and stuffing, with vegetables as in stews, and with sauces and gravies.

## Girl Gets Her Third Plane

MOSCOW, April 1 (UP)—Lily Litvink, a pretty, apple-cheeked blond who is a junior lieutenant of the guard but looks more like a junior high school student, is credited tonight with the destruction of a German plane—her third—in fighting on the southern front.

A dispatch said German fighters headed for a city along the Donets and Lily was the first fighter pilot to take off. She was wounded early in the attack but continued to fight, finally sending a Messerschmitt spinning to the ground in flames.

Another famous girl fighter pilot is Katya Budanova, tall and dark. She and Lily took part in the air defense of Stalingrad. Both live in Moscow and each has fought 150 sky battles.

## Need For War Replacements Spurs Developments In Field Of Chemurgy

Hats and coats from milk, cork from native oaks, plastics strong as steel and lighter than aluminum, varnish oils from castor beans, use of cattails for insulation purposes, cork from native oaks—these are some of the wonders described by scientists at the ninth annual Chemurgy Conference at Chicago last week.

Oil from castor beans, in dehydrated form, was reported to be the equal of tung oil for rapid drying paints and varnishes, and for waterproofing of boats, electric cables, etc. A powerful insecticide from castor ricin poison also is on the market.

With no substitute for cork in sight, Dr. Giles B. Cooke, of a bottling company, urged the south and southwest to plant cork tree acorns. In Texas the goals would be 50,000 acres.

Life preservers made from milkweed were declared to be superior to some other products and to be non-sinkable.

Strips of paper were pressed into thin strips with strength as great as steel. An inch thick plank was treated with weak acid and subjected to heat and pressure to become so limp that it could be molded into any shape. On cooling it became fixed never to become liquid again.

More wonders have been done with soybeans than with any other crop, and those attending the conference declared it was a four billion dollar crop last year.

A new world seemed to be shaping under the stimulus of finding replacements for shortages of war materials formerly imported from Asia, Africa and South America. Thus chemurgy not only seemed to be contributing to winning the war but of producing a higher scale of living when peace returns.

Adulterated merchandise may be seized by an enforcement officer and held pending final disposition in court.

The state chemist is designated as the proper agency to make analyses of products offered for sale. When cotton leaf worms hit, carloads of adulterated products have been foisted on farmers and some of them have either harmed the cotton or failed to halt the ravages of the insects.

"It Ain't Hay"

Universal presents their box-office aces, Abbott and Costello in another laugh riot with Grace MacDonald, Patsy O'Connor, Leighton Noble.

Abbott and Costello are a couple of hungry gentlemen. Patsy O'Connor takes pity, and although she is driving a horse-drawn cab, invites them to a good meal.

Lou saves a piece of candy, all he could save from the dinner, and shares it with the horse. The horse dies and Lou offers to take the horse's place.

The boys go to Saratoga, where according to information received, the track is giving a broken down race horse. At the track they "borrow" one horse.

They later find out that the horse is a favorite in the coming races. Not wanting to be discovered they hide the horse in hotel room.

The horse runs in disguise with Lou as jockey. The winnings bring happiness to every one concerned, including Grace MacDonald and Leighton Noble.

## Fashion Scene

By Margaret McKay

Color is rampant with the arrival of the milder days and is being used in interesting combinations. There are also many variations of basic shades we haven't seen before. Vanilla is the delectable name of a new off-white shade. Paulette Goddard has a cocktail frock in this color which has a soft cream my beige cast to it. She wears tawny brown accessories with it.

Bette Davis chooses bronze for an interesting evening coat and combined it with a dinner dress in terra cotta, another new shade. Terra cotta is a yellowish red, not unlike the color we used to wear called tile.

Desert purple is a heather colored purple seen recently on Irene Dunne. It's a purple with a misty grey mixed in it. Irene has a flannel suit in the color and combines it with a blouse and scarf of fern green—a pale, yellowish green.

Topaz is a color well liked by Metro-Goldwyn-Mayer's lovely Susan Peters. It is just the tone of the gem topaz. Susan has a heavy pebble crepe afternoon dress in this shade which buttons on the side and has a peplum flounce at each hip, but not all the way around. She carries out the topaz motif by wearing a topaz and diamond clip in gold scroll work at the plunge neckline of the dress.

Ann Sheridan's new hat is a large cartwheel affair in brown and is faced with powder blue ribbon—luscious color combination. She swatches the hat in brown veiling and clips it to her left shoulder.

**BEST DRESSED GIRL OF THE WEEK:** Martha O'Driscoll in a Lanz of California designed heart play dress. The pockets are shaped like hearts and are wool embroidered in little hearts in scarlet wool and the skirt is pale blue crepe. She wears a cotton peasant blouse with it and a little heart-shaped hat. A diamond heart clip accents the blouse, carrying out the sentimental motif.

**AROUND TOWN:** Ginny Simms at the Brown Derby in a black silk crepe frock with Chinese kimona cut sleeves and a large red apple print applique at her shoulder. . . . ## Reviews of Previews

By Jerry Cahill

Claire Trevor bids fair to take the place of Mae West as the representative of the hour-glass figure among the glamour ladies of the Hollywood cinema.

In "Desperados," Columbia's new film story of early days in Utah, Miss Trevor appears as the proprietress of the frontier hotel and gambling casino, and the gowns she wears and the form she displays put many a preview observer in mind of the heyday of the curvaceous Miss West.

Although the previewers caught their breath at several of the scenes in which Miss Trevor appears, most of the excitement in "Desperados" is provided by gun fights, fist fights, bandit chases and bank robberies. The fighting is done mainly by Randolph Scott and Glenn Ford, the one cast as a sheriff, the other as a good bad man who wants to go straight but who finds it difficult to do so because of an old murder charge hanging over his head. Scott and Miss Trevor both help him go straight, but the greatest help of all comes from the bright-eyed Evelyn Keyes. Miss Keyes, being clad most of the time in cowgirl garb, cannot compete with the more buxom Miss Trevor in the exhibition of daring feminine fashions, but in the end she's the one who claims the love of Glenn Ford.

Most of the filming of "Desperados" was actually done in the wide-open Utah desert country where the story has its main locale. The picture is in Technicolor, and the desert scenery, filmed in its natural colors, is often marvellously beautiful. A highlight is the magnificent camera depiction of a great stampede of wild horses. Hidden in the thundering herd is Hero Ford himself, for with an armed posse waiting for him in the streets of the frontier town, this is the only way he can make his way to the city jail to rescue an incarcerated friend.

Edgar Buchanan is importantly cast as the father of Miss Keyes, and Porter Hall is the miscreant who is really responsible for the bank robberies.

He finds them quite easy to do in the film story, because he is the banker.

Republic, which is justly proud of its western films, has one of the best the studio ever made in "Idaho," starring the singing cowboy, Roy Rogers.

With Rogers in the picture, and sharing the starring honors, is the rotund Smiley Burnette, who was the partner of Gene Autry before the latter joined the armed services.

Virginia Grey is the heroine. The story is that of a judge who, bent on ridding his community of gamblers and crooks, is faced with the prospect of having his own past as a criminal revealed. Rogers, Burnette and Miss Grey join to help the judge solve his problem.

"Idaho" is a modernized western, but it still makes good use of the never-fading chase scenes for thrills, and there is enough gunplay to satisfy the devotees of the old-time horse opera. The picture is notably musical, and a half a dozen good song numbers are included in the score.

## On the Sets

With Irwin Allen

The Moscow Airport floated in the backwash of eighteen inches of rain while overhead the California sun snickered in tolerant indifference. Some twenty-five tired looking Russians wheeled out a much-wetted down "Star Spangled Banner" to the wild obligation of someone screaming in, what sounded very much like, Russian with an English accent. A huge plane taxied to a roaring stop and the guys on the fiddles started all over again.

It was 4:30 in the afternoon and ever since eight that morning, the rain, the Russians, the plane and the obligate staccato had run riot with each other in a potpourri of performances. The rain was too thick or the rain was too thin; the music was too low or the music was too loud the plane was too fast or the plane was too slow. This was Ratoff at his best and the confusion was lovely to behold.

Metro-Goldwyn-Mayer is saying "thank you" to our Russian Allies with a million dollar production of "Russia" starring Robert Taylor with Susan Peters and Bob Benchley. This is Taylor's last picture before going into active Naval Service for the duration and is very likely to be one of his best, because Gregory Ratoff is the director and his unorthodox use of screaming, pleading, threatening and crying has been most productive in getting performers to hit the high water mark in their careers.

Ratoff is an institution in Lulu-had and has won as wide a reputation as a funster as he has as a director. The Ratoff touch was much in evidence the very first day of shooting. Every Russian extra in Hollywood had been hired to lend the proper atmosphere. Their gutturals were so purely Russian, you could have cut the atmosphere with a cardboard knife and serve as caviar. And yet on every wall, Ratoff had posted signs, "No Russian is to be spoken on this set." To top it off, Ratoff spoke nothing but Russian all day on the pretext he couldn't read English and therefore didn't understand his own orders. Small wonder that the confusion was lovely to behold. Small wonder that the sun snickered in tolerant indifference.

## Quiz Box

Q. Miss Carmella Catania, 366 Oriana Ave., Long Beach, Calif.: Can you tell me the life history of Walter Pidgeon, and what pictures he has been in from beginning to the present?

A. That's quite a large order, since Walter Pidgeon has been in too many pictures to be able to enumerate them here. However, here is a brief biography. He was born in St. John, New Brunswick, on Sept. 23. Attended public school there and also college. He came to Hollywood via the New York stage where he was a favorite. His first picture was "Mannequin," with Dolores Costello. From then on he has been active, as that picture established him, both as an actor and a singer. Some of the pictures he has appeared in are, "Bride of the Regiment," "Mlle. Modiste," "Faded Lady," "Big Brown Eyes," "Girl Overboard," "Saratoga," "Too Hot to Handle," "It's A Date," "Society Lawyer," "Dark Command," "Flight Command," "Blossom in the Dust," "How Green Was My Valley," "Design for Scandal," "Man Hunt," "Mrs. Miniver," and at present is working in "Madame Curie," opposite Greer Garson. Walter is 6 feet 5, weighs 185 pounds, has black hair and blue eyes.

Q. Charlie Snow, Jr., Box 204, Gordon, Ga.: Was there a picture made from the book by Robert Service "The Trail of '98"? If so, could you tell me who starred in it?

A. Yes, Metro-Goldwyn-Mayer produced it in 1928. The stars were Dolores del Rio and Ralph Forbes.

Q. From Louise Smith, Long Beach, California: I wish you would tell me what studio "Arabian Nights" was made by.

A. This is a Universal picture, produced by Walter Wanger.

Q. Miss June Franchi, 1639 Vagades, Fresno, Calif.: Could you tell me if the play "Junior Miss" is to be made into a picture? Will "Best Foot Forward" be made into a picture, too, and is Priscilla Lane to star in it? Will you send me the address of Clark Gable and can I get a picture of him in uniform? Will you please send me Dennis Morgan's address?

A. "Junior Miss" will be made into a picture in the near future. "Best Foot Forward" has just been finished with Lucille Ball as the star and will be released in the early summer. It's against Army regulations to send photos in their uniforms, but you can write Clark Gable care of Metro-Goldwyn-Mayer, Culver City, Cal. You can also write to Dennis Morgan at Warner Brothers Studio, Burbank, Calif.

## Inside Hollywood

With Edith Gwynn

The parting of Ilona Massey and Alan Curtis was evidently "pleasant." You should see the set of gorgeous photos she just sent him of herself—in those costumes she's wearing in the "Follies" in New York. . . . Did we tell you about "the battling Bogart's going of all places to BRAWLEY, Calif., on location?? Humphrey is making scenes for "Sahara" there. . . . The millennium: Hedda Hopper has finally gotten herself a hat that lights up at night! Promises I can have it next month. . . . A broken pelvis, sustained while sking some years ago, is what is keeping Sonny Tufts (Paramount's answer to Sterling Hayden) out of the Army. . . . Susan Peters is now wearing a stupendous ring put on the right finger of her left hand by Richard Quine. . . . Pal of Lon Chaney's gave him a huge going-away party (including every leading lady who had ever worked with him) just before his Army induction. Few days later Lon was rejected. Now he's looking for a place to give the party back! . . .

Linda Darnell was saying she met up with the tops in Dumb Dora's the other night. With her friend Anne Gabe, she went to a neighborhood delicatessen to get some things for a late snack, because they were expecting several people in. Linda promptly ordered three dozen assorted sandwiches, and the gal behind the counter asked, "To take out?" (!) . . .

Gag: Hear that the chorus girls working in those scanty costumes for "Lady in the Dark" are now sending out their laundry in tea-bags! . . . The troubles of the Jack Dempsseys will probably never reach court. Hear they're settling things outside—to save any further unpleasant publicity for the sake of the children. . . . Al Jolson is paying all the doctor and hospital bills for a crippled fan whom he doesn't even know. . . . John Roselli, June Lang's ex, is going to try again with Anne Corcoran, who looks like Rita Hayworth. . . . Douglas McLain has formed a company to plug a pill that you drop into your gas tank with the assurance that it will increase your mileage about thirty per cent. . . . Most disappointed guy in Hollywood is George Murphy. He thought he was headed for some overseas entertaining of the soldiers with Cary Grant, but was called back here at the last minute to take Joe Cotten's place in "This Is the Army." Murph loves working in the picture, but had his heart set on that trip. . . . If you hear any rumors linking the names of Phyllis Brooks and Clark Gable, ignore 'em. They had exactly one dinner date together—to go to a party at the Walter Lang. And that is all. . . .

Friend of ours strolled onto the "Jane Eyre" set where Orson Welles and Joan Fontaine are working together, and was flabbergasted at Orson's dark make-up for the part of Rochester (that's the name of the character he plays) in the picture. Said he looked more like Othello, the Moor. In fact, his make-up was sooo dark, you couldn't tell which Rochester he's playing! Heh, heh—what I'M waiting for, is to see Rochester play Orson Welles!

Bob Hope is about to get a citation from Washington for the wonderful bond-selling and Camp work he's been doing. . . . And Joel McCrea is in line for an important Washington post. Probably in the Agricultural department. Incidentally, the McCrea live so quietly, that most of Hollywood forgets that these two know and entertain social and public figures of importance that would make a lot of them green with envy. . . . In "Above Suspicion," the new Joan Crawford-Fred McMurray picture, Brittish Basil Rathbone is playing a Nazi; Conrad Veidt, an Austrian, is playing an Englishman; George Glagori, a Russian, is playing the Gestapo chief. The only one missing is Keye Luke—who is NOT playing a Jap! . . . Paulette Goddard just told me she's trying to rent her house in the canyon and is leaving for a trip that she hopes will take her all the way overseas to entertain the boys, before she heads toward Hollywood again. . . . Marjorie Gatenon, down at the Red Cross Blood Bank for the third time. And spends her spare time, digging up new "recruits." Have you given your pint yet?

Both Ingrid Bergman and her husband have taken out their first American citizenship papers—their waiting time being up. . . . Hear there's a "Fox Follies" in the wind. To star Jack Benny, Betty Grable, Carmen Miranda, Alice Fay, et al. . . . Over at Warner's they're going to give Joan Leslie a terrific build-up as a dramatic star, after her work in "The Hard Way" with Ida Lupino. . . . Hear that Errol Flynn's main souvenir of that trial is a little legal bill for fifty thousand dollars! . . . The Xmas Cugats will tell it to a judge. . . . Hey fellows! If plans now afoot with the Men's Stylists are carried through, you'll be wearing shorts (but snappy!) for street wear, come summer. . . .

## Meet the Stars

With Luis Rosado

Jean Brooks, the girl with the "Come up and see me" eyes, walked into the room where I waited for her. She wore a pale blue tailored suit which accentuated her red hair and her green eyes. Our greeting was conducted in Spanish, a language that Jean speaks fluently and which is responsible for her being in pictures today. When Jean came to Hollywood, she heard that the industry was considering making pictures in Spanish, so she walked into a producer's office at Paramount, said she wanted a job as she spoke the language to perfection. The producer was so taken with her, as she started rattling off in the foreign tongue, that he gave her a contract. But not much came out of that. She played in several pictures, but never with too much success.

Recently RKO needed a beautiful girl who could rattle off in Spanish. Jean heard about it, went into the producer's office and did her act once more. She got the role in the picture, "The Falcon Strikes Back." She appears in the end of the picture, tells her plight to Tom Conway in Spanish. So thorough was her work, that the little scene got her a long-term contract with the studio. Realizing that she was a good bet, RKO immediately gave her the feminine lead in the horror drama, "The Leopard Man."

"I had lots of fun making that picture," she said. "Many of my friends warned me against working with a real leopard, but I dismissed their warnings. There are some people who remarked that I would change my mind after working with the animal a couple of days. They should have seen me. The first day the trainer told me a few things about the handling of the leopard. I listened, because I realized that not only my career depended on this role, but my life as well. You may think I'm bragging when I tell you that I managed that leopard with the greatest of ease. I think I better prove it to you. Let's go down on the set and I'll show you what I mean."

We walked to the set. As soon as the leopard saw Jean he let out a coy cry. Jean called him over, introduced me to the animal. (Yes, I was scared). But the leopard licked my hand and did as Jean told him. That was enough to convince me that she had a way with the jungle pet.

In a few days Jean is leaving for New York to arrange a series of personal appearances, which will take her to the best theaters in the nation. Her appearance will be with the leopard and arrangements are being made for the animal's accommodations in the different cities where she will appear.

RKO executives are very pleased with her work and many are the ambitious plans that are being drawn to star her in the near future. "However, Jean will make her mark in future pictures without the aid of animals. Of course she may appear in a picture once in a while with a dog, but it will be her acting ability that will finally get her a star rating," said an executive with great pride.

On her first song, the sound system cut out momentarily, and later in the program when she had scarcely begun her second song, the amplification gave up the ghost. When Marcia realized what had happened, she turned on more power and got a big hand. Also drawing a round of cheers from the audience was Wong Chew Dip, a young San Francisco man of Chinese ancestry. NEW YORK, April 1 (AP)—Rail stocks, after considerable early irregularity, swung to another 6-year peak in today's market and helped steady many shaky industrial issues by profit taking on the lengthy push.

Prominent on the upside were Southern Railway, Atlantic Coast Line, Texas & Pacific Railway, Northern Pacific and Southern Pacific. At tops for 1943 or longer were Twentieth Century-Fox, Bullard, Standard Oil (N.J.), International Telephone, Sears Roebuck and Howe Sound. Laggards included Douglas Aircraft, Dow Chemicals, Westinghouse, Chrysler, Eastman Kodak, U. S. Gypsum and Du Pont.

## Wife Swapping, More Children; Judge Just Throws Out The Case

INDIANAPOLIS, April 1 (AP)—An innocent petition for the support of children filed recently in Marion county superior court revealed today a wife-swapping agreement rivaling an old Balzac tale for frankness.

Judge Emsley W. Johnson, Jr., identifying the couples only as Mr. and Mrs. A and Mr. and Mrs. B, said he had learned this story in a hearing on the petition: Four years ago, Mr. and Mrs. B, who were childless, canvassed orphanages looking for a child to adopt, but without success.

Mr. and Mrs. A, friends of the B's, had three children. The couples signed an agreement drawn up by a lawyer and stipulating that Mrs. B would live with Mr. A, while Mrs. A would live with Mr. B, "until such a time as the B home would have two children."

The terms of the agreement were carried out and now Mrs. A, now the mother of five children, has returned to live with her husband, Mr. A.

But Mrs. A refused to leave the two youngest children in the B home, and filed the petition demanding that Mr. B pay for their support.

"The evidence being what it was," Judge Johnson said, "I threw the whole case out and refused judgment to anyone."

## Volume Up Again At L'stock Sale

True to form, stock classes showed strength in the wake of recent showers and paced the Wednesday sale of the Big Spring Livestock Commission Co. to a \$39,000 day, the biggest volume since March 10 when an all time record was established.

The head volume for the day was 750. Meat rationing appeared to have little effect on bidding.

Bulls went up to 12.50, and fat cows commanded 12.00. Butcher cows were worth 9.50-11.00, good butcher yearlings from 13.00-14.00, and common butcher heifers 11.00-12.50.

Stocker steers were up to 16.25 in strong bidding while stocker heifers were up to 15.00. Stocker cows with calf drew as high as \$17.50.

A few hogs were sold from 13.00 to 14.00.

## Scout Leadership Training Sessions To Start Tonight

First in a series of Boy Scout leadership training sessions will be held at 8 p. m. today in the First Baptist church basement with the Rev. Jim Moore, First Presbyterian pastor, serving as scoutmaster in the absence of the Rev. P. D. O'Brien, chairman of training.

W. D. Berry and J. A. Selkirk will aid in the operations as assistant scoutmasters, and other troop officers will be Sam Winham, scribe, George Welser, quartermaster, and Barkley Wood, senior patrol leader.

John A. Coffey, who is to talk about "the boy," and the Rev. Moore, who will discuss troop leadership, will be the faculty members for the opening session.

Attendance will be in charge of patrol leaders—Boyd McDaniels, Jake Morgan, Garrett Patton, and C. S. Edmonds.

Subsequent instructional periods will be handled by the Rev. R. Elmer Dunham, Selkirk, W. C. Blankenship, Ira Thurman, George M. Boswell, the Rev. O'Brien, Charles Watson, Joe Pickle, the Rev. W. L. Porterfield, Dr. P. W. Malone and the Rev. H. W. Smith.

## Morgenthau Looks To A 'Complete' Tax Measure

WASHINGTON, April 1 (AP)—Treasury Secretary Morgenthau said today he is hopeful new and "complete" tax legislation, embracing both additional revenue and a withholding plan, can be enacted by fall.

He expressed doubt, however, that the withholding levy can be put into operation before January 1, as a result of house action earlier this week in sending back to the ways and means committee its bill providing such a collection system.

Saying he was sorry the house had taken that action, he added: "We had hoped by July 1 to have a 20 per cent withholding program in operation which would have been a most helpful instrument in curbing inflation."

Nevertheless, he told his press conference, he was pleased that the house rejected the so-called Ruml skip-a-year plan embraced in the Carlson bill, which also called for a withholding levy.

## Local Youth Has Miraculous Escape As Plane Crashes

A miraculous escape from death is the story that Francis Smith, son of Mr. and Mrs. Frank Smith, 509 Gregg, told in Abilene Wednesday afternoon after his plane crashed southeast of the Elmdale community. Smith, a naval aviation student stationed at Abilene Christian College.

He went up Wednesday afternoon to do some practice rolling with his Aeronca training ship but when his motor showed hot he dropped down to around 1,000 feet. At that height he throttled down and came on lower, to around 600 feet, then gave the motor the gas.

According to Smith the motor instead of picking up, died and the left wing dropped to start a twirling nosedive.

"The ground came up too darned fast," Smith commented at Hendrick Memorial Hospital. "Don't think it didn't come rushing. I thought of my father, mother and my sister, and a little of everything else. I don't know what all I did think."

After his plane hit in a rocky creek bed, bounced about five feet and settled down a few feet away among the rocks, Smith crawled out of the plane and looked for help. A farm family brought him to the hospital where he is being treated for bruises. Doctors said Smith was a solid mass of bruises from the top of his head to the bottom of his feet but not a bone was broken.

Smith, 20, was flying alone. He is a former student at the University of Kansas and his parents moved here a few months ago where Mr. Smith is a dealer in oil drilling equipment.

Wanda Griffith (J&L) was high individual in game at 183 with Olive Cauble (Anthony) next with 182 and Mary Staggs and Elouise Haley, both with Club, close behind with 179.

Mrs. Cauble had 500 to lead the series parade. Miss Haley and Mary Staggs were next with 499 and 462 respectively. Top games for teams were by Schlitz with 737, Club Cafe with 721 and Billy Simons with 712.

## P. O. Receipts Running High

Postal receipts rocketed during March to give the Big Spring federal postoffice its second greatest quarter of business on record.

The \$10,096.20 grossed by the office, reported Postmaster Nat Shick, was \$3,624 or 85.5 per cent up over March a year ago. It ran the quarter receipts to \$29,211.19, a gain of \$9,282.88 over the same period in 1942 and accounted for a 48 per cent gain during the period.

Only the record volume during harvest and Christmas last year produced a greater volume of business than did the initial quarter of this year.

Construction, pinched to small job stuff, managed to struggle on to a slight gain over February. The total was \$5,054 for 39 building permits, the largest of which was for \$350. Included was \$1,054 for new construction, mostly for one-room houses. February permits had totaled \$4,423 and March of 1942 had turned in \$11,512.

## Over A Score Will Take Military Tests At High School

More than a score of senior boys will take qualification examinations at 9 a. m. at the high school Friday.

John A. Coffey, principal, and Pat Murphy, diversified occupations instructor, who will conduct the tests, said that application blanks could be secured in advance, but that the tests would be started promptly at the appointed time with no additions being made after that time.

From those who successfully complete the tests candidates for the army specialized training program and the navy college training program will be selected to attend colleges under contract to the respective services. There is nothing binding about the tests, however.

# "Is it true, what they say about War Bonds?"

THEY SAY—"Hey, Bill, I heard that in order to pay for the planes and tanks and guns America needs for Victory, each of us should be putting at least 10 percent of our pay into War Bonds."

IT'S TRUE—"That makes sense to me, Joe. Those things cost plenty of dough."

THEY SAY—"Sure, I know that. And I've got a hunch our soldiers are going to need more and better equipment than any fighting men ever got before!"

IT'S TRUE—"You bet they will! And here's the way I look at it, Joe. Us guys who can't tote a gun or fly a plane can at least do our share by helping to pay for the things our fighters need."

THEY SAY—"Yeah, you're right, Bill. But we're really not paying that money to the Government, either. It's just a loan to Uncle Sam, as I see it."

IT'S TRUE—"That's right as rain, Joe! You get it back—with interest. Every 3 bucks you put in brings you 4 at maturity."

THEY SAY—"It would be hard to beat that as a sweet investment, wouldn't it? And when you lend your dough to old Uncle Sam, you know he'll make good on his I O U."

IT'S TRUE—"Say! War Bonds are better than dollar bills in your pocket, Joe! Not only is each one an ironclad promise to pay, backed up by the strongest Government in the world—but it makes more money for you all the time!"

THEY SAY—"Supposing a fellow loses some of the War Bonds he buys—or somebody swipes 'em. I guess you want me to believe Uncle Sam will pay off on 'em then."

IT'S TRUE—"He sure will, Joe! Every War Bond you buy is registered in Washington—either in your name, or your wife's name, or whomever you pick. Nothing can happen to prevent your getting that money back—with interest."

THEY SAY—"One of the boys in the forge shop was trying to tell me that if everybody buys a lot of War Bonds, it helps keep prices down."

IT'S TRUE—"He's right, Joe. Look! Now that the United States is making war goods instead of cars and radios, peacetime goods are getting scarcer. So, if people with a lot of cash in their jeans start bidding against each other for those scarce goods, up go the prices!"

THEY SAY—"My wife has the idea, now that I'm earning more money, that War Bonds should be the Number One item on our budget—sort of a savings plan for us and the kids."

IT'S TRUE—"She's a smart woman, Joe. You're going to need a lot of things when this war is over. And there's no better way on earth to get the money for them than to save regularly now—by buying War Bonds."

THEY SAY—"Must be a lot of people owning War Bonds by now, aren't there, Bill?"

IT'S TRUE—"A lot of people? Listen! Fifty million of 'em have bought War Bonds—and I'm one of 'em. Fifty million Americans can't be wrong!"

THEY SAY—"Our plant has a Pay-Roll Savings Plan. I'll sign up tomorrow for 10 percent. Hmm—maybe I can make it more than that. I'll see."

IT'S TRUE—"Believe me, Joe, you're not making any mistake when you put every dollar you can into War Bonds—and then a little more!"

Education In A Democracy

At a time when we are either concerning ourselves with rosy dreams of a post-war world and the problems it will pose or with the more realistic job of winning an all-important war, it is well to call for a public evaluation of our educational program.

Dr. Willis A. Sutton, in a series of addresses before the West Texas Teachers association, has declared that faith in democracy is essential to victory, and that education is the best means for insuring that faith.

Attachment for democracy must exceed the fanaticism of axis forces for their way of existence. Democracy is, we believe, founded upon the precept of human freedom which must first of all issue from free minds.

Isolation Island

Chapter 23 The sight of the festival Jim took his turn at the crude shower and shaving basin he shared with Fuzzy and Cass in the native shack.

O'Shannesey watching them with benevolent smiles. "I'd rather wear the native costume, but he will never let me at a native party," Landa said lightly.

Forced Marriage Policy Assailed By The Bishops

By THOMAS F. HAWKINS BERN, Switzerland, April 1 (AP) German Catholics have spoken "loudly and emphatically against the introduction of forced marriage and immorality, especially among young women, so that more children may be produced to build the race," the Catholic International Press agency said today.

By ROBBIN COONS HOLLYWOOD — Pictures in tune with our times: On a rain-drenched stage representing a Russian airport a great American conductor was arriving by plane for a concert tour.

from Greenville, S. C. and Broadway, told how his screen test was made by Gregory Ratoff. Jess appeared on the test stage, along with two other leading man candidates, both of whom proceeded to get Ratoff's goat.

Washington Daybook— Army Works Hard In Getting Mail To The Military Men

By JACK STINNETT WASHINGTON — For the first time the Army has set up a school for postmen. Officially, it's the Army Postoffice School at Pennsylvania State Teachers College, West Chester, Pa.

letters from home to the men on the firing line. By the time World War I came around, the morale value of a message from mama or the girl friend was an established fact and the APO went to town.

will be graduates of the West Chester school and possibly other schools to be opened. They'll be fighting men as well, for there will be none who gets in there who hasn't had his basic training—and knows how to handle his rifle as well as he does his scales and cancellation machine.

The Manpower Push Getting Under Way

By JAMES MARLOW AND GEORGE ZIELKE WASHINGTON, April 1 (AP) — The manpower "push" is on. "Today is the deadline for 'non-deferables' to get into other jobs, or sign up with the U. S. Employment Service (and so get a 30-day extension of deferment).

How To Torture Your Wife

Why, it's out of this world, Fuzzy gasped. "Sure," Jim said sourly. "It's a story monument to a stubborn old man's backward dreams."

He was ashamed of his barbed remark a minute after when O'Shannesey met them at the entrance, overwhelming them with his genial welcome. As he led them into the lighter-filled castle, pointing out the hanging bunch of bananas, the loaded tables of island delicacies, the commodious bar, the crewman's faces took on the dazed, relaxed joy of the natives about them.

She laughed. "They begin training from childhood for these festivals," she told him. "Where's Jim?" Fuzzy jerked his head. "Hansen lured him into the library for a game of poker. Fine way to waste an evening!"

The bishops deplored a growing tide of free love, adultery, divorce, "forced marriage" and the Nazi doctrine that virginity is "treason to the race."

The letter declared that "whoever places legitimate and illegitimate motherhood on the same level places a burden on the ideal of motherhood and the value of woman does the worst possible service to female youth."

Changes Made In Air Raid Regulations

AUSTIN, April 1 (AP)—Local defense coordinators today were receiving from the governor's office new air raid protection regulations issued by the eighth service command.

The warning system adopted in February is not changed by the new regulations. It was pointed out. This provides for a yellow, blue, white sequence of warnings, all but the yellow being public signals.

The service command regulations, it was emphasized, ended speculation on possible use of radio for transmitting red, blue and white signals.

All except emergency radios will be silenced by the air force third fighter command during alert periods, and even when a blackout is ended the white signal may not be transmitted by radio, the governor's office informed coordinators.

Counties designated as military areas under terms of the regulation include: Aransas, Brazoria, Calhoun, Cameron, Chambers, Dimmitt, Galveston, Harris, Hidalgo, Jackson, Jefferson, Kleberg, Kennedy, Kinney, Liberty, Matagorda, Maverick, Nueces, Orange, Refugio, San Patricio, Starr, Val Verde, Victoria, Webb, Willacy and Zapata.

Eight counties in West Texas are also affected but are not at present in the third fighter command's activated area. They include Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Pecos, Presidio and Terrell.

The governor's office is communicating with the fighter command for details on applying the regulations there.

MINISTER TO RUSSIA  
MOSCOW, April 1 (AP)—Luis Quintanilla, Mexico's first minister to Russia in 10 years, arrived in Kubyshov by plane yesterday and was greeted by Soviet foreign office officials and western hemisphere diplomats.

Commercial fisheries of the United States and Alaska provide nearly five billion pounds of fish.

TIME AROUND THE WORLD

IS ANYTIME YOU USE CAMERON'S COMPLETE BUILDING SERVICE

World Time-Table—The clock-board shown above is making the rounds of cities where Wm. Cameron & Company Lumber and Building Material offices and stores are located. It has arrived in Big Spring and will be on display for balance of this week in the show window of Westernman Drug Company, 221 Main. Each of the clocks shows the time in one or more nations around the world. Comparison of the time between this city and the other nations is shown by arrows running from the local time clock to those showing the time of the other nations. By indicating the difference in time through a system denoting plus hours it is easily determined whether the compared time is ahead of, or behind, our local time.

THE WAR TODAY: Invasion Has To Come This Summer

By DEWITT MacKENZIE  
Spring's terrible mud and slush which are torturing the battle-line in Russia probably are bad news for the unfortunate troops, who have to struggle through them, but they're good news for the Allied cause as a whole. Anglo-American Allies need a chance to get set to deliver a powerful blow against Hitler somewhere in western Europe by the time the good weather makes it possible for him to inaugurate another great drive against the Red army.

It would be unsafe to permit the Nazi Fuehrer to employ all his striking power on the eastern front again. His position is becoming increasingly difficult and he is likely to try some daring gamble this summer to extricate himself. The Allies have maybe two months in which to finish off Tunisia and pull up their socks for another big show. Their offensive should go down the ways by June first if they are to be in position to deal with the fast moving Nazis.

There's only one possible offensive which, if successful, could force the Hitler war to a speedy conclusion—that is the invasion of France across the English Channel. The Russians continue to call for this second front in the west, the latest appeal being from Alexander Troyanovsky, former Soviet ambassador to the United States.

So far as one can see everything is being done which could be done at this moment to prepare for an invasion of western Europe if it is feasible when an appropriate moment arrives. We are speeding up the Tunisian battle so as to release men and equipment, and free the shipping lanes of the Mediterranean. We are giving Germany and occupied territories an awful raking from the air.

When I was in England last October I was told in informed quarters that if the Anglo-American bomber force could be trebled—not an excessive figure at all—the job could be completed by this spring. The task is unfinished, and this probably means that the necessary bombers haven't been available.

However, the British-American team has been getting ahead with the business recently. And informed London observers expect an immediate expansion of the United States air service to follow Major General Ira C. Eaker's statement that the experimental phase of daylight precision bombing had been passed successfully. If this expansion materializes, we have a right to expect that the combined air-forces will have time in the next couple of months to reduce the Nazis sufficiently to permit of invasion. The good bombing weather is coming on. What we need is the bombers.

Army's Homing Pigeons Have Their Specialties, 'Just Like Humans'

PORT BLISS, April 1 (AP)— says Staff Sergeant Robert Jones of Austin in whose hand lies the training of Fort Bliss' homing pigeons. "We have to know them all. When we send them out on a job, we have to pick the one best fitted for the particular work at hand. They have their specialties."

Move To Limit Presidency To Two Terms

WASHINGTON, April 1 (AP)— Republicans angled today for democratic support preparatory to introducing in the senate a resolution proposing a constitutional amendment limiting a president's tenure in office to two four-year terms. Senator Butler (R-Neb) said he and other republicans planned to join in offering the resolution soon and hoped to have some democrats listed as co-authors. An informal canvass indicated, he said, that "several" democrats would support the measure.

Says We'll Reach Our Airplane Goal

CHICAGO, April 1 (AP)— The United States will reach its 1943 production goal of 90,000 planes, believes Lieut. Gen. William S. Knudsen, director of production for the army. Asserting that "you can't hold American industry back," Knudsen told a press conference last night. "I am confident we can handle any task required by us."
