### Stenholm Proposes Simple Farm Bill

Congressman Charles W. Stenholm has introduced a bill which he feels will make farm programs simpler, more predictable and fairer.

The legislation simplifies and standardizes the way acreage bases and yields are assigned to producers. Stenholm has been working on the project almost a year, along with the Texas Agricultural Forum, a coalition of farmers and agribusinessmen in the state.

An acreage base, or number of acres to be planted, is assigned to farmers who wish to take part in federal farm programs. A yield measures how many bushels or pounds per acre the farmer is assumed to produce. Both bases and yields are important when farmers decide whether to participate in the programs.

"Right now, our system of bases and yields is a mess," Stenholm said. "It's not fair to many farmers; it's unpredictable for the rest; and it leaves too much discretion to USDA's bureaucratic whims. It needs to be changed and put into permanent law."

Bases and yields are now set by four-year farm bills, Stenholm said, which makes them subject to the political winds every four years. If the base and yield formulas were in permanent law, they would stay there unless repealed, and farmers would have a better idea how many acres they can plant.

"When unpredictable programs keep farmers from planning ahead," Stenholm

STENHOLM

said, "they often decide not to bother with the programs at all. But this usually means more production and that lowers prices, which drives up taxpayer costs for the farm program."

Stenholm's proposal assigns bases for both overall farm acreage and individual crops. It bases yields on actual records, and gives farmers more flexibility than they now have in deciding for themselves how much of a given crop they will plant.

## There is another solution

### Viewpoints

TO THE EDITOR:

Anyone watching Nov. 20th's showing of "The Day After" could have had one of two reactions. Obviously the producing media and the sponsoring businesses intent was the reaction of mass hysteria. It was meant to scare the pants off every man, woman and child who watched. Mass fear of a nuclear holocaust--kneejerk reaction to nuclear annihilation--hot lines to call in case of uncontrollable fear--all a hyp meant to brain wash all watchers to the potential horrors of a nuclear build-up.

I prefer to react in a positive way. Yes, nuclear attack is incomprehensible, although prophetic, but this telecast could serve as a warning of what could happen should the U.S. not step up their nuclear arsenal to surpass that of any aggressive enemy. I prefer to positively recognize the

need of a "high frontier" method of deterrence to nuclear attack. President Reagan touched upon this method in his telecast last March. Now is the time to pursue that safe method of nuclear deterrence--at the same time, we must at least stay abreast with any aggressor with a nuclear arsenal of our own.

I hope each viewer of "The Day After" chose to view it as a warning to prepare ourselves and to use the high frontier as a clean defense against attack rather than stampede into a defeatist attitude of laying down our arms and holocaust-unprepared and defenseless.

-S-  
Jere C. Hubbard  
Midland, Texas

.....AND MORE

ABC Television's "The Day After" is a searing drama that depicts the harrowing aftermath of a nuclear exchange between the superpowers. It's also been the subject of a spirited

political exchange.

Conservatives call it a \$7 million commercial for the nuclear freeze, and freeze supporters have indeed exploited the film. Its object lesson, they insist, is that a nuclear freeze is the only way to stop this madness.

The film is about nuclear madness, all right, but not simply in the sense that freeze boosters claim. The film's primary message, of course, is clear; life after nuclear holocaust would be nasty, brutish and short.

But the film is also about "Mad"ness as a strategic nuclear doctrine--mutual assured destruction. A nuclear freeze would do nothing to alter the fundamental principle that has driven this doctrine...and driven the American people to a rightful anxiety about our safety, our strategy, even about our sanity in the nuclear age.

The central premise of MAD is simple--and simply horrible. The way to deter

### WHITE OPPOSES INCINERATOR SHIPS Blames E.P.A.

Governor Mark White joined more than 1,500 Texans Monday in opposing the U.S. Environmental Protection Agency's plans to permit two incinerator ships to burn toxic wastes in the Gulf of Mexico.

"The entire proposal to burn deadly toxins in the Gulf poses an unacceptable level of risk to the natural environment and to the people of the region," Governor White said during the EPA's public hearing Monday in Brownsville.

"The Gulf of Mexico is a

semi-enclosed sea. Why, then has it been chosen as the incineration site?" the Governor asked. "Waste is to be loaded in Alabama, yet transported a considerable distance to a site off the Texas Coast, where possible dangers could affect both Texas and Mexico. The international implications could be far-reaching and are largely unexplored at this time."

The EPA gave Chemical Waste Management Inc. of Oak Brook, Ill., tentative approval last month to burn

toxic wastes, including PCBs, dioxins and DDT, aboard two incinerator ships--Vulcanus I and II--anchored 180 miles from Brownsville.

During test burns in December 1981 and August 1982, the EPA reported that more than 99 percent of the waste was destroyed by the ship's incinerators. Governor White strongly criticized the EPA for not holding public hearings prior to these test burns.

The Governor said the

# Borden County School News

## HIGH SCHOOL GIRLS WIN TWO GAMES

The Lady Coyotes opened their 1983-84 season with two wins last Tuesday night against Roby with the J.V. winning by one point, 33-32, and the varsity completely dominating Roby Varsity 60-23. In the Varsity game, pressuring man-to-man defense kept Roby off guard as Borden jumped out to a 16-3 first quarter lead. A continuous substitution kept the Lady Coyotes rested as they wore down their opponents outscoring them 38-13 the last half. Roxie Wolf and Kelly Williams dominated inside as they combined for 28 points, hitting 14 apiece. Teri Billington came off the bench to connect on 5 of 5 from the field and 2 of 2 from the free throw line for 12 points. Kelli Williams added 8 followed by Shana Bradshaw with 6, Shawna Vaughn with 4, and Becky Massingill hit 2.

The J.V. opened their season with a win also as a platooned system of 14 girls wore down the Lions. Substituting 5 fresh players every four minutes, everyone saw some playing time with seven players getting into the scoring column. The free throw line

proved to be the difference where even though Roby shot more, Borden made more. Borden connected on 11 of 19 free throws and Roby could only manage 8 of 34. Jeanette Massingill and Sherry Vaughn tied for scoring honors with 12 points each, followed by Mary Washington with 4, Samantha Porter hit 2 and Nancy Martinez, Cindy Balague, and Dana Douglass each hit one free throw.

Next game for the J.V. and varsity is at Loop, Tuesday, November 29, with J.V. game slated for 5:00 with Varsity to follow. This coming weekend, December 1, 2, and 3, the varsity will be playing in the New Home Hub of the Plains Tournament in New Home. The Lady Coyotes will meet McCamey first round 4:30 Thursday.

The Chinese developed the use of paper about 100 B.C.

## State Semi-Final Game

The State Semi-Final Football game will be played in Gail on Friday, December 2. Dawson will meet Highland at 7:30 p.m. in the Borden Coyote Stadium.

The winner of the above game will play the winner of the game between Fruitvale and May for the State Championship.

## Grady Jr. High. Beats Borden 27-14

Will Phinizy and Randell Hollis scored ten of the fourteen points the Junior High boys put on the boards, but it wasn't enough as the Grady Wildcats out-distanced the Coyotes 27-14. David Holmes and Monty Floyd had two points each to close out the scoring.

Other members of the team that got playing time were Ray Martinez, Cody Cooley, Harold Barnes, Richie Anderson, Bill Massingill, James Smith, Pat Herridge, Jim Ridenour, Jimmy Rios, Cody Stone, and Wally Breazeale.

COLOR GUARD WINS FIRST

The Color Guard section of the Borden Coyote Marching Band won first place in its division in Levelland recently. The flags placed second-back row-Cathy York, Sherry Vaughn, Lyn Sternadel, Mary Washington, Elvira Balague and Susan Gwinn. Twirlers, Rene Telchik and Kristy Stone placed Second also. The percussion group-Brice Key, Samantha Porter, Billy Massingill and Sam Harris placed first. The color guard as a whole unit placed First and brought home a huge trophy.

## GIRLS WIN OVERTIME OPENER

In the opening of basketball play, the Borden County Jr. High Girls came away with a 28-26 win over Grady in the first district game of the year. First game nerves seemed to affect the girls as they repeatedly turned the ball over against the quick Grady press and fell behind by 10 points by halftime, 18-8. But in the third and fourth quarters, Borden began coming back

as Ralynn Key, Kate Phinizy, and Elvira Balague continually stole the ball and raced down court for the score. As Borden racked up 18 second half points, the defense held Grady to two field goals to send the contest into overtime. In the overtime, Elvira Balague sank the only field goal but it was enough for Borden to escape with the exciting win. Kate Phinizy led all

scorers with 7 points, followed by Ralynn Key and Mindy Williams with 6. Kim Turner added 5 points and Elvira Balague hit 4 to round out the scoring. Next game for the Junior High is with Greenwood there, Monday, December 5, with a "B" game to begin at 5:00 and "A" girls to follow. Support the Borden County Junior High Girls as they try for their 4th consecutive district title.

## Quick Roby Team Overreaches Borden 55-40

Roby's height and quickness were just too much for the Coyotes as Roby's 6'3" center scored twenty-three points and cleared all defensive rebounds, for his two quick guards.

"Keith Martin and Robin Hood did god jobs in playing position on the taller Roby team but were unable to get their share of rebounds. When Hood fouled out and Keith got his fourth foul we were in trouble on the

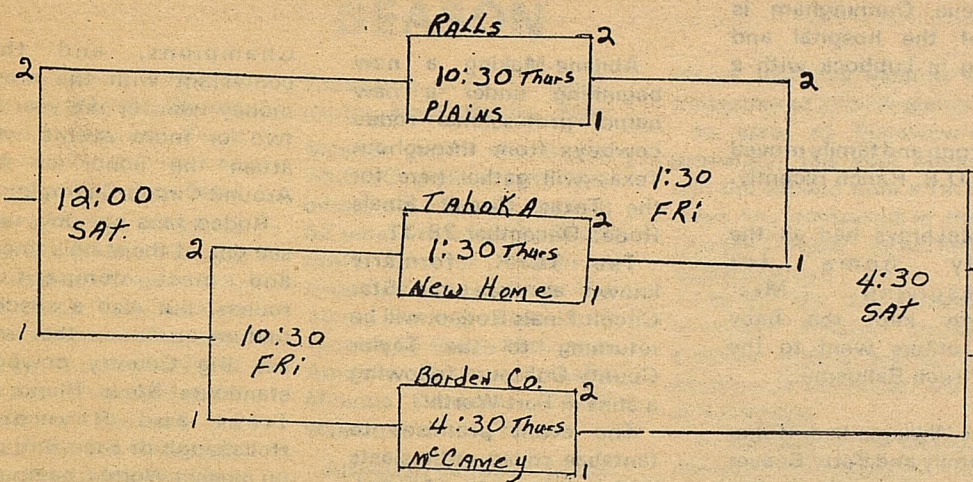

boards," said Coach Frisbie.

Chris Cooley lead all scores for the Coyotes with fourteen points. Hood followed with nine, Martin had seven, Sammy Williams had six, Bric Turner and Kirby Williams added two each.

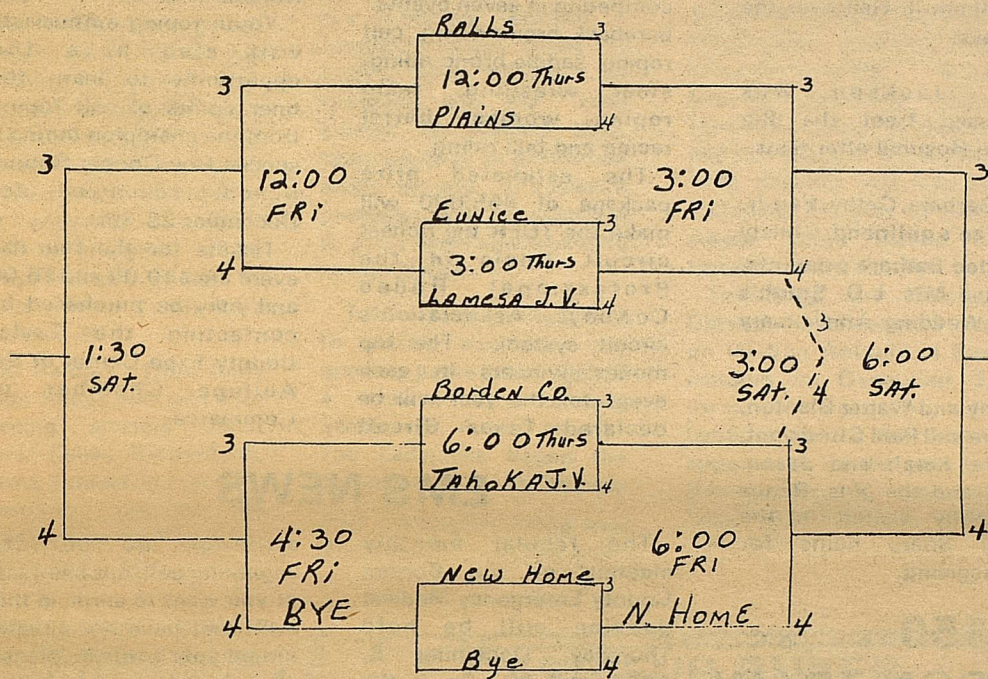

Phillip Benavidez and Mickey Burkett also got playing time.

The Coyotes shot 28 percent from the field and were 6 of 14 from the foul line.

## FORMER RESIDENT PRESENTS CANTATA

A Christmas Cantata will be presented Sunday, December 4 at 7:00 p.m. in Robert Lee at the First Baptist Church.

Mrs. Sid Long, formerly of Borden County, will conduct the hour long program of familiar Christmas tunes and sacred music.

The 20 voice choir of the First Baptist Church will be the nucleus of the program. Guest soloists will join the choir as well as guest instrumentalist.

Among those performing are Martha Anderson, flute, and Theresa Clayton, piano. Both are former students of Borden County Schools.

Martha graduated from B.H.S. in 1978. She was a piano student of Carolyn Long and later studied with Sally Wilson, piano teacher at B.H.S. in her 8th years. She studied Flute under Jim Parker and played in the B.H.S. band for seven years. She will be playing solo parts for flute as well as flute accompaniment for the choir.

Martha now lives in San Angelo and is employed by Angelo State School. She is the daughter of Mr. and Mrs.

Rich Anderson.

Theresa Clayton was an elementary student at Borden County, later moving to Lamesa where she studied piano with LaVoy Leach. She will be playing flute and voice, accompaniment on piano.

Theresa also lives in San Angelo and is employed by the Allen Ranch. She is the daughter of Mardes Clayton, Lamesa.

Mrs. Long is Musical Superintendent of the First Baptist Church in Robert Lee.

Carolyn, her husband Sid, and children Richard, Scott and Lin are all well remembered in Borden County. Sid was Vocational Ag. teacher in B.H.S. for ten years. The family moved to Robert Lee in 1976 when Sid accepted the position of Voc. Ag. teacher in the Robert Lee school system. Carolyn, who taught piano while in Gail, continued her teaching and music study after moving to Robert Lee.

Their son Richard, a 1978 graduate, is now Voc. Ag. teacher in Ira. Scott is a student at Tech and daughter Lin is a sophomore at Robert Lee.

## LOCAL FOLKS

Christene Cunningham is out of the hospital and staying in Lubbock with a sister.

Joe Kropp and family moved to the O.B. Ranch recently.

The McLeroys had all the family home for Thanksgiving. Mrs. McLeroy kept the baby while others went to the Texas Tech Ballgame.

Gladys Williams had Roger and family and Betty Beaver and Warren for Thanksgiving.

Janene Day's folks visited with them in Gail over the holidays.

O.D. Jackson was dismissed from the Big Spring Hospital after tests.

Van, Barbara, Cathy, Van Jr. and Van's girlfriend, Christy attended Barbara's parents, Mr. and Mrs. L.D. Smith's 50th Wedding Anniversary Party.

Beverly and Walter Blanton, Charlie and Paul Sturdivant, Ross, Sarah and Jason, Helen and the girls, Renee and Toby visited in the Buddy Sharp home for Thanksgiving.

## LONE STAR CIRCUIT GETS NEW NAME

Abilene-Making a new beginning under a new name, professional rodeo cowboys from throughout Texas will gather here for the Texas Circuit Finals Rodeo December 28-31.

The TCFR, formerly known as the Lone Star Circuit Finals Rodeo, will be returning to the Taylor County Coliseum following a stint in Fort Worth.

The event promises to tantalize rodeo enthusiasts with four star-studded, action-packed performances, featuring the top 15 contestants competing in seven events: bareback bronc riding, calf roping, saddle bronc riding, steer wrestling, team roping, womens barrel racing and bull riding.

The estimated prize package of \$65,000 will make the TCFR the richest circuit finals in the Professional Rodeo Cowboys Association's circuit system. The top money winners in each event for the year will be declared Texas Circuit

Champions, and the contestant with the most money won for the year in two or more events will attain the honor of All Around Circuit Champion.

Rodeo fans not only will see one of the state's finest and most competitive rodeos, but also a special feature attraction that will see Big Country cowboy standouts Steve Bland of Trent and Raymond Hollabaugh of Stamford go up against World Champion Calf Roper Roy Cooper in a match roping to determine the Texas Champion Calf Roper.

Youth roping enthusiasts will also have the opportunity to learn the finer points of calf roping from the champion during a special Roy Cooper Roping School scheduled for December 28-30.

Tickets for the four-day event are \$10.00 and \$6.00 and may be purchased by contacting the Taylor County Expo Center or the Abilene Chamber of Commerce.

## EMS NEWS

The regular monthly meeting of the Borden County Emergency Medical Service will be held Thursday, December 8, 1983, at 7:00 p.m. in the High School Conference Room. This will be our annual Christmas party. Each EMT should bring a covered dish for our supper. Officers for 1984 will be elected at this meeting. Please make an effort to attend.

Mrs. Judy Staggs from Ackerly will begin teaching a new EMT Course for all of those interested. The course will begin in January,

although no definite beginning date has been set. If you want to enroll in this class and have not already turned your name in, please do so in order to receive the enrollment information when it becomes finalized.

## TEXANS TO CELEBRATE 150 ANNIVERSARY WITH WAGON TRAIN

Austin, The Texas Sesquicentennial Commission gave its support to the Texas Wagon Train Association early in November, officially sanctioning the group's plans to make a 2,800 mile journey through Texas by wagon train.

Traveling with the theme "Circle Texas for the Past and Future," the Texas Wagon Train will link together from community to community a statewide celebration of Texas' 150th anniversary. The wagons roll on January 2, 1986, and an expected total of 1,000 wagons and 20,000 people will participate as the train circles the state.

The wagon train will originate in Sulphur Springs in Northeast Texas and

circle in a southwesterly direction to Austin, Houston, San Antonio and El Paso. The train will then journey north to Midland, Odessa, Amarillo, Abilene, Wechita Falls, and will arrive in Fort Worth July 3, 1986.

Executive Director of the Texas Wagon Train Association Jan France describes the trip as 2,800 miles of Texas fun and friendship. Mrs. France has traveled in this fashion on previous occasions. During America's bicentennial, she represented the state of Florida in the Bicentennial Wagon Train, riding horseback for the 1,400 mile trip to Valley Forge. A charter member of the National Wagon Train Association, Mrs. France also organized the 1980 Centennial Wagon Train for

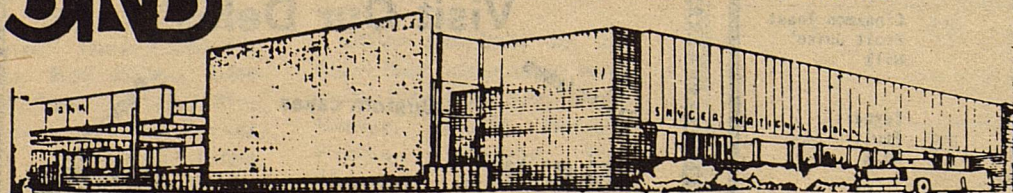

Archer County Texas. Her husband, Garry France, is a native of Northeast Texas, a cattle ranch manager, licensed farrier and horse trainer who is highly qualified to fulfill his position as Wagon Master for the Texas Wagon Train.

"As our plans formalized, the Texas Wagon Train has become a bonding agent for Texans, as well as many states and countries who have become interested in joining us," said Mrs. France.

"We have reached the point in time when we as Texans, and as Americans, no longer have with us the many people who came by wagons to settle the west. As this historical event takes place in 1986, we will have achieved a living exhibit of our western heritage."

## LADY RAIDERS OPEN SEASON

The moment of truth is quickly approaching for the 1983-84 Texas Tech basketball team as preparations continue for a season opening match-up against Street and Smith's 20th ranked Stephen F. Austin State Ladyjacks in the Queens Classic, Thursday, November 24 at 10:00 a.m. The eight-team tournament, hosted by Wayland Baptist University and the Plainview Chamber of Commerce, annually attracts some of the best collegiate teams in the nation to Hutcherson Center. This year is no different as Wayland and Grambling, Clemson and Oklahoma State, defending champion Missouri and Oklahoma Baptist, and Stephen F. Austin and Texas Tech comprise the first round pairings. The championship game is slated for Saturday, November 26.

The Raiders' 1984 early season hopes will rest with returning starters Janet Mears, Kellye Richardson, Sabrina Schield and Carolyn Thompson. In all, the foursome boasts nine years of starting experience.

Thompson, a 6' 1/2" senior center from Hobbs, New Mexico and unanimous All-SWC pick a year ago, enters the Classic needing 52 points to reach the 2000 mark in her career. Expected to assume the other starting post spot vacated by Gwen McCray is Amarillo College transfer Melinda Denham, a 6'2" sophomore from Earth.

Although confident in her starting lineup, it is the depth on this year's Raider wquad that has Coach Marsha Sharp excited about the coming season. Freshmen Lisa Wood of Sudan, Lisa Logsdon of Levelland and 6'6" Julia Koncak of Kansas City, Missouri have all performed well during preseason practices and are expected to see a great deal of action at the Classic.

The Raiders' will be forced to quickly overcome any opening game jitters against a traditionally strong Stephen F. Austin squad. The Ladyjacks began the season with a 95-79 win over Oklahoma State and displayed a "run-and-gun"

attack that has become a trademark of all SFA teams.

In spite of Plainview's proximity, this year marks just the second time a Tech team has competed in the Queens Classic. In its first appearance back in 1978-79, the Gay Benson coached Raider squad finished eighth, losing to Southwest Louisiana, USC and Houston.

In addition to the college division competition, the Queens Classic also features some of the state's premier high school teams. In fact, four Red Raiders will get a chance to watch their alma maters in action (Lisa Wood--Sudan, Lisa Logsdon--Levelland, Janet Mears--Lubbock Monterey and Lori Gerber--Nazareth). Tech coaches will also be watching the play of early signee Darla Isaacs of Levelland very closely.

Following the Queens Classic, the Raiders will take on UT-San Antonio in San Antonio on December 3, prior to returning to Lubbock for the first home appearance of the year on December 5 against Wayland at 7:30 p.m. in the Coliseum.

## WHITE OPPOSES BURN

Con't from 1

tests were not extensive enough to determine whether damaging particulates are emitted from the ship's stack following combustion and if emissions could contaminate marine life and move upward through the food chain.

"It is not true that the proposed burn site is a nonproductive part of the ocean, as indicated in the company's contingency plan. Species of economically important fish, such as billfish, tuna, pompano, and flying fish, live and reproduce in this area," Governor White said.

The Governor said the public is suspicious of EPA's speedy processing and inadequate testing of the BVulcanus I and II permit applications. "Suspicion also surrounds the motives and the conduct of the company applying for this permit," he said.

"The waste-disposal operations of Chemical Waste Management Inc. are being investigated in a half-dozen other states.

There are allegations of influence-peddling by the company in its relations with the EPA and, by the company's own admission, it faces financial pressure to get this permit and proceed with the burning," Governor White said.

"Safety and environmental protection, not profit, should be the number one concern. No one ever believed the Titanic could sink, until it happened."

"Why should Texas set a precedent for accepting the risk of ocean incineration, when that burden is not shared by states on the Atlantic and Pacific coasts?" Governor White said.

The EPA has extended its deadline for accepting written comments on the Vulcanus project until January 15, 1984, and will make a decision to grant or deny the Vulcanus permits after March 14, 1984.

## Texas Delegation Commended for Defense Leadership

Washington, D.C.--As the first session of the 98th Congress drew to a close, The American Security Council and its Coalition for Peace Through Strength commended the Texas Congressional delegation for its strong support of the rebuilding of America's national security. John M. Fisher, President of the American Security Council said: "The support of members of both parties in the Texas delegation for a national strategy of Peace Through Strength reiterate the fact that a strong America is a secure America. Weakness only invites aggression."

The Council cited the leadership of such Members of Congress as Representative Phil Gramm and Senator John Tower, both of whom scored 100 percent marks in the Council's annual ratings on defense and national security issues. Tower is chairman of the Senate Armed Services Committee. Gramm holds a seat on the House Budget Committee and serves as the only Texas congressional co-chairman of the Coalition for Peace Through Strength.

Gramm was praised for his long standing, staunch support on defense issues in

general and in particular for authoring the two Gramm-Latta budgets "which reordered national priorities and took the first steps toward rebuilding American national security."

Tower was credited with having been the architect of the defense authorization measures that improved pay and working conditions and which provided the weapons for America's military to deter aggression and guarantee world peace.

The American Security Council has given the Texas delegation generally high marks in its annual ratings on defense issues, with seven current Texas Congressmen drawing perfect 100 percent scores for the most recent rating period. They are: Democrats Ralph Hall, Marvin Leath and Abraham Kazen, and Republicans Bill Archer, Jack Fields, Phil Gramm and Tom Loeffler.

Republican Senator John Tower received 100 percent and Democratic Senator Lloyd Bentsen scored 88 percent.

Only two Texans in Congress scored lower than 65 percent--Republican Ron Paul who was rated at 10 percent, and Democrat Mickey Leland, who drew a zero rating.

County Judge, Borden County

## SHOWMANSHIP CLINIC

The 1983 4-H Lamb and Swine Showmanship Clinic will be held Saturday, December 3rd at 9:30 a.m. The sessions will be held at the county show barns.

Lisa Ludecke, Borden County resident, will be in charge of the showmanship portion of the program. There will also be a local county agent from Tahoka here to talk about feeding and fitting of barrows for show.

The lamb showmanship will be handled by local Borden County 4-H members. Alan Day will discuss feeding and fitting of show lambs.

### ASC COMMITTEE ELECTION

Ballots for the 1983 Committee Election were mailed to all known eligible producers on Friday November 25, 1983. Note that the final date to return the voted ballots is December 5th.

**PLEASE TAKE THE TIME TO VOTE IN THIS IMPORTANT ELECTION**

### PIK COTTON FROM CCC INVENTORY

To all producers expecting cotton from Commodity Credit Corporation (CCC) Inventory, The Cotton has arrived in the County office, checking procedures have been completed, so come on by and pick up your PIK

### HARVEST FOR PIK

Producers with cotton planted are reminded of the "Special Harvest for PIK" provisions. Only 60 percent of your entitlement from inventory will be satisfied by CCC. You are required to obtain a "Special Harvest for PIK" loan on the balance of the entitlement. PLEASE don't make the mistake of selling all your cotton before these obligations are met.

### FARM NOTICES

Showing your crop bases and yield have been mailed to all producers. Please review all information in the notices and report any changes in farming operation, ownership, cropland etc. If you don't agree with your base or yield you have until December 31, 1983 to file an appeal.

### COTTON PRODUCTION RECORDS DUE

Your cotton production cards have been mailed out. You will need one card for each gin. If you need extra cards, give us a call. If you turn in production from more than one gin you will be required to certify to the total farm production on a separate form available at the ASCS office. REMEMBER Compress weights only, except for remnants.

### 1984 FARM PROGRAMS TO HAVE ACREAGE CONSERVATION RESERVE

Starting with the 1984 crop year, cropland removed from production to satisfy farm program acreage reduction requirements will be known as Acreage Conservation Reserve (ACR).

"Our goal in 1984 is to encourage farmers to continue the very important conservation practice of placing their more erosive land into an acreage conservation reserve, while balancing supply with demand."

This is a way in which farmers can control over-abundant supply situations similar to what they have just faced. The programs will also provide a degree of insurance for farmers against price fluctuations and adverse weather conditions.

The 1984 acreage reduction programs will require farmers to reduce their wheat planted acreage by 30 percent and their feed grain acres by 10 percent of the established base to qualify for deficiency payments and crop loans. Wheat program participants who divert an additional 10 to 20 percent of their wheat base will be eligible for payment-in-kind (PIK).

Farmers who participate in the 1984 wheat program must limit their planted acreage to no more than 70 percent of the farm's wheat base and devote to ACR eligible cropland equal to the PIK acreage plus 42.86 percent of their total planted and PIK acreages. Feed grain program participants must limit corn, sorghum, oats and barley acreage planted for harvest to not more than 90 percent of the farm's feed grain base and devote eligible cropland equal to 11.11 percent of the 1984 planted acreage to ACR.

Land designated for the acreage conservation reserve must have been devoted to row crops or small grains in two of the last three years except for a summer fallow farm. "Under summer fallow rules, the land must be acreage that would have been planted to a small grain or row crop in 1984 in the absence of the feed grain and wheat programs."

Haying will not be permitted on ACR acres. However, the acreage may be grazed except during the six principal growing months.

Farmers will have the opportunity to sign up for the 1984 feed grain and wheat acreage reduction program from January 16th through February 24th.

Those planning on attending this clinic are urged to bring a lamb or barrow. There will be a large portion of the showmanship devoted to "hands on" work. This will be done to improve your showmanship technique.

For more information, call the County Extension Office (856-4336).

## Tree Trimmings Get Personal Touch

Christmas ornaments 100 years ago were exclusively handmade. Bought from local craftsmen or made at home, they added a personal touch to holiday decorating.

Unfortunately, this great tradition has all but disappeared. You can bring it back for pennies through Play Clay made from baking soda. It is so easy that the whole family can join in.

Inexpensive Play Clay is a versatile and non-toxic clay medium. Just follow the basic recipe and let your imagination soar with Rudolph and his chubby friend. Here is the recipe:

**Basic Play Clay Recipe**  
2 cups baking soda (1 pound box)  
1 cup cornstarch  
1 1/4 cups cold water

Mix the dry ingredients in a saucepan and add water. Stir constantly while cooking over medium heat. When the mixture is the consistency of wet mashed potatoes, turn out on a plate and cover with a damp cloth. When the clay is cool, knead like dough until smooth. Seal unused portions in a plastic bag and keep in the refrigerator.

**Microwave Directions:**  
Mix dry ingredients in a 2 quart casserole and add water. Microwave on High for 4 to 6 minutes, stirring every 2 minutes until smooth and thickened and mixture pulls away from dish. Turn out on plate to cool. When cool, knead

dough until smooth.

### Play Clay Holiday Ornament Tips

--For flat ornaments, use cookie cutters or cut your own cardboard forms to make Christmas trees, Santa Clauses, snowmen, stockings, angels or wreaths.

--Mold clay free hand or, for thinner designs, roll out to 1/4 inch thickness. Cut into desired shapes. Insert wire in soft clay for hanging.

--Let the designs harden overnight; thick designs may need more time.

Drying time can be shortened by heating objects in a preheated 250 degree F oven for 15 minutes. If not fully dry, continue to heat in 5 minute increments.

--If desired, paint pieces after they have hardened with water colors, poster paints, nail polish or colored felt tip pens.

--Coat painted pieces with clear varnish or clear nail polish so they will last for years.

### Three-Dimensional Ornaments

--For three-dimensional ornaments, start with a hunk of clay and mold free hand into a ball or teardrop 2 inches in diameter. Roll in glitter or press colored string into the soft ornament.

--To make candlesticks, insert a candle in the soft clay to form a hole. Remove and let clay dry before finishing.

## MICKEY BURKETT AND CATHY YORK LOCAL YOUTH PRESENTED AT AREA BANQUET

Lubbock--Thirty-nine outstanding members of 4-H Clubs across the South Plains were honored here Monday night, Nov. 21.

In addition to receiving the Gold Star Award, highest honor presented at the county level, the youths were urged by State Sen. Bill Sarpalius to dream dreams of achievement and then set about making those dreams reality.

Joining the youths at the awards banquet in the cafeteria at Coronado High School were parents, government officials, extension leaders, fellow

4-H'ers, educators and other community leaders.

Honored from Borden County were Cathy York; daughter of Mr. and Mrs. Van York, of Gail, and Mickey Burkett, son of Mr. and Mrs. Jim Burkett, of the Plains Community.

"We live in a great country. We have more to be thankful for than anyone else in the world. Yet we take so much for granted," Sarpalius said.

The state senator said he was concerned about the decline in American family life as evidenced by an increasing divorce rate, our

lack of support for our churches, and increasing crime rate and other problems. But he said we are fortunate to have organizations such as 4-H Clubs, celebrating their 75th anniversary this year, to give youngsters the opportunity to learn by doing and develop leadership skills.

He told of hearing former President Lyndon B. Johnson tell a group of youths visiting Washington to dream dreams and then make those dreams come true. "I realized that was the purpose of America," Sarpalius said, to provide a place where that can happen.

Master of ceremonies was Dr. Kary Mathis, chairman of the department of agricultural economics at Texas Tech University. Guests were welcomed by James Hull, General Manager of the Deaf Smith Electric cooperative, one of 12 electric cooperatives which have sponsored the banquet for the past 26 years. The others are Bailey County, Caprock, Dickens, Lamb, Lea, Lighthouse, Lone Wolf, Lyntegar, Midwest, South Plains, and Swisher cooperatives.

The awards presentations were narrated by Earl Brose of Lockney, chairman of the district 4-H council, and Chris Caddel of Lubbock, council vice chairman. The awards were presented by Dr. Catherine Crawford and Billy C. Gunter, District Extension Directors.

Dinner music was presented by Kenley Powell, Yoakum County 4-H'er. Also on the program were 4-H members Bryan Shaw of Gaines County, Sharla Blay of Terry County and Kayla Gentry of Dawson County.

## \$600 SATELLITE SYSTEMS

O.K. I've been into electronics for nearly 20 years now so now is the time to get the REAL facts about satellite systems. Fact No. 1 Most all dish systems offer an astounding 18 to 40 DB gain, and fact No. 2 These companies get astounding prices of \$1500 to \$3000 or more. If you like real guts in your system, you can have "62" DB gain, for only \$600.00!

Order yours today before January price increases. Price includes everything except the TV to play it on! Other exciting offers. Call 573-9686 or write to Jim Davis, Route 2 Box 61-A, Snyder, Texas 79549

### Quality for Less

Signal strength doubles every 3 DB so 62 DB equals signal doubles 20 times!

## VIEWPOINTS

Con't from 1

aggression, the Madniks argue, is through the offensive counterthreat of retaliation.

Adversaries must guarantee that this threat of mutual annihilation is both believable and terrifying. Weapons that can kill millions contribute to peace, while a defense against those weapons is provocative and destabilizing.

To keep the peace, then, we must guarantee the slaughter. MAD's deterrent value rests on this "balance of terror." But, as *The Day After* shows, when the balance tips, terror reigns.

The film's deeper message is thus clear: MAD is not only immoral, it is ineffective. Members of the Soviet leadership are no bourgeois moralists, but they have nonetheless never accepted MAD as strategic doctrine.

The Soviets tell Western peace groups nuclear war is unthinkable, but their actions clearly demonstrate not only that they think long and hard about such a war, they are also planning and working long and hard to win it.

They have passed the point of parity with the United States. The ICBMs

they're building now at a phenomenal rate are meant not for retaliation but for a first-strike at our silos that would prevent our retaliation.

The *Day After* provides a clear moral imperative to end this doctrine of deterrence by mutual assured destruction. Logically speaking, however, this can not be done through a nuclear freeze.

Its proponents tell us explicitly we already have enough nuclear weapons to "make the rubble bounce many times over." In that case, a freeze won't change much; the threat of annihilation will still loom. We must go to first principles, and end our strategic distaste for building a defense against nuclear missiles.

Most Americans will be surprised to learn we've had the technology to build an effective defense against Soviet land-based missiles since the early 1960s, President Eisenhower's "Project Defender."

Now, President Reagan has taken up the challenge anew. In a speech to the nation March 23, the president underscored the necessity to break out of a

future that relies solely on offensive retaliation for our security," the future that is depicted in *The Day After*.

The president's speech also included a clarion call for a reduction in the level of nuclear arms. It's a call backed up by continued flexibility and forthrightness in our position in nuclear arms control talks in Geneva, as well as a strategic modernization program to lend credibility to that position.

But it was his vision of the future that was most impressive. He asked America to commit itself to the "formidable, technical task of developing a non-nuclear anti-ballistic missile network for space. This network would intercept and destroy strategic ballistic missiles before they could land on American soil.

The first phase of this long-term program is now complete. The president has on his desk several options for development of this ultimate goal of diminishing both the danger and the importance of nuclear

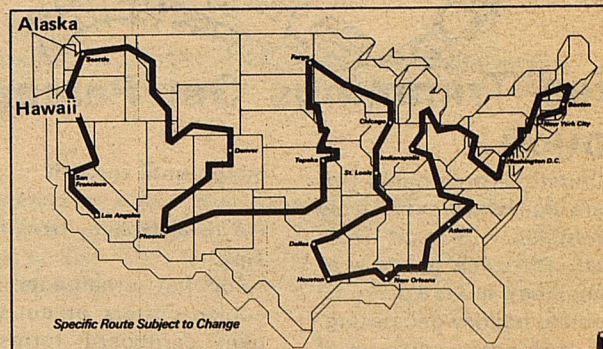

weapons.

This, together with real arms control in Geneva, is far superior to a simplistic and unworkable nuclear freeze. It can spell a true end

to nuclear madness, and it is our best assurance *The Day After* remains merely a Hollywood fantasy of nuclear holocaust.

By Rep. Gerald B. Solomon

## ROUTE OF THE 1984 OLYMPIC TORCH RELAY

In short, the 1984 Olympic Torch Relay is the longest run ever. It will cover 20,000 kilometers—nearly 13,000 miles—and pass through all 50 states and the District of Columbia. The event, sponsored by AT&T Communications, begins on May 8, 1984 and ends 81 days later at the Los Angeles Memorial Coliseum.

Any individual, group, corporation or organization making a tax-deductible commitment of \$3,000 can designate a torchbearer for one of the 10,000 "Youth Legacy Kilometers" available to the public. Proceeds will go to Boys Clubs of America, Girls Clubs of America and Family "Y"s.

A free brochure describing how you or your organization can participate in the relay is available by contacting your local youth club or by writing to: The Torch Relay Foundation, Los Angeles Olympic Organizing Committee, Los Angeles, CA 90084, or by phoning (213)GO-TORCH.

### Contractors' Notice of Texas Highway Construction

Sealed proposals for constructing .370 miles of Culvert and Br. & Apprs. At Approx. 0.3 Mi. S. of IH 20, At Eagle Creek, 1.2 Mi. N. of FM 1170 & At Gold Creek, 6.3 Mi. S. of US 180

on Highway SH 70, CR 181, FM 1054, covered by MC 264-1-21, BRO 8(8) X & BRS 3231 (6) in Nolan and Borden Counties, will be received at the State Department of Highways and Public Transportation, Austin, until 9: A.M., December 14, 1983, and then publicly opened and read.

The State Department of Highways and Public Transportation, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252) and the Regulations of the U.S. Department of Transportation (15 C.F.R., Part 8), issued pursuant to such Act, hereby notifies all bidders that it will affirmatively insure that the contract entered into pursuant to this advertisement will be awarded to the lowest responsible bidder without

discrimination on the grounds of race, color or national origin, and further that it will affirmatively insure that in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color or national origin in consideration for an award. Plans and specifications including minimum wage rates as provided by Law are available for inspection at the office of Billy E. Vernon, Resident Engineer, Big Spring, Texas, and at the State Department of Highways and Public Transportation, Austin, Texas. Bidding proposals are to be requested from the Construction Division, D.C. Greer State Highway Building, 11th and Brazos Streets, Austin, Texas 78701. Plans are available through commercial printers in Austin, Texas, 78701. Plans are available through commercial printers in Austin, Texas, at the expense of the bidder. Usual rights reserved.

### Public Notice

In order to implement the Modified Final Judgement entered in *United States v. American Telephone and Telegraph Co.* and the Plan of Reorganization which was approved by the United States District Court on August 5, 1983, Southwestern Bell Telephone Company and AT&T Communications of the Southwest, Inc., have jointly filed with the Public Utility Commission of Texas an Application for and Notification of the Transfer of Facilities and Voting Stock.

This application affects the provision of interLATA service throughout the State of Texas. Effective with the implementation of this transfer of facilities, which is expected to be on January 1, 1984, Southwestern Bell will offer telephone service only within certain geographical areas defined as LATAs (intraLATA) in Texas. Concurrently, interLATA communication service presently provided by Southwestern Bell will be provided by AT&T Communications of the Southwest, Inc.

For purposes of this application, AT&T Communications of the Southwest, Inc., has filed a Tariff with the PUC containing rates applicable to all of its services in Texas at the same level as Southwestern Bell's current Tariffs. Certain adjustments necessary to implement divestiture have been made to the structure of the Tariffs.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

### Aviso al Publico

A fin de cumplir la Decisión Final Modificada registrada en el caso de los *United States v. American Telephone and Telegraph Co.* (Compañía Americana de Teléfonos y Telégrafos) así como el Plan de Reorganización que fue aprobado por la Corte de Distrito de los Estados Unidos el día 5 de Agosto de 1983, Southwestern Bell Telephone Co. y AT&T Communications of the Southwest, Inc., han presentado en forma conjunta ante la Public Utility Commission of Texas (Comisión de Servicios Públicos: PUC) una Solicitud y Notificación de la Transferencia de Instalaciones y Acciones Votantes.

Esta solicitud afecta la suministro de los servicios interLATA en todo el estado de Texas. Con vigencia desde el cumplimiento de esta transferencia de instalaciones, presuntamente el 1° de Enero de 1984, Southwestern Bell solamente proveerá servicios telefónicos dentro de ciertas áreas geográficas, denominadas LATAs (es decir, servicio intraLATA) en Texas. Concurrentemente, los servicios de comunicación interLATA que actualmente provee Southwestern Bell serán provistos por AT&T Communications of the Southwest, Inc.

Para el propósito de esta solicitud, AT&T Communications of the Southwest, Inc., ha registrado un Arancel ante la PUC (Comisión de Servicios Públicos) que incluye las tarifas aplicables a todos sus servicios en Texas, al mismo nivel que el Arancel actual de Southwestern Bell. Se han realizado algunos ajustes en la estructura arancelaria, por ser necesarios para llevar a cabo el desposeimiento.

Toda persona que desee intervenir en el proceso o comentar la demanda debe dirigirse a Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, o llamar a Public Utility Commission Consumer Affairs Division, (512) 458-0223 o (512) 458-0227, o al (512) 458-0221 si requiere teletipo para sordos.
