NEW TEACHERS

RECOGNIZED DURING ASSEMBLY

New teachers and students were recognized during an assembly on the first day of school at Borden County Schools. Each Kindergarten student received a red ribbon which was pinned on their shirts by Mr. James McLeroy, Superintendent of Schools. There are four new teachers. Mrs. Carol Lewis, Mrs. Jan McCathern, Mr. Buddy Wallace, and Mrs. Mary Ann Murphy have joined the school staff.

MRS. JAN McCATHERN

Mrs. McCathern is a Master of Arts graduate of Texas Tech. She received her Bachelor of Science from North Texas State University in Communication.

She attended Pampa High School. She attended college on a debate scholarship; was Outstanding Public Address Student at North Texas State; graduated magna cum laude.

She taught 2nd grade for 1 year; high school English for 2 years; high school speech and drama for 2 years. She also taught at Western Texas College in Snyder for 6 years in speech communication.

Jan enjoys traveling, reading, sewing and playing tennis.

Jan's husband, Glenn McCathern, is Minister of Education at Colonial Hill Baptist Church in Snyder. They have 2 children Lee, a Freshman at SHS), and Durtis, a second grader. She is active in the church as director of High School Sunday School Department and director of the Bible Drill (Speakers Tournament Competition).

MRS. CAROL LEWIS

Carol is an Associate Science graduate of L.C.C. She received her Bachelor of Science from West Texas State University. Her major was Teacher Education.

She attended Borden County High School. She taught at Amarillo Public School and Seminole I.S.D. She has been a substitute teacher at Borden County, Virginia and California.

Carol enjoys reading, sewing and cooking. She grew up in Borden County and married Royale Lewis from Ackerly, Texas. They gave three children: Shelly-14; Amy-11; and Shawn-8.

MR. BUDDY WALLACE

Mr. Wallace is a graduate of Texas Tech University where he majored in Ag. Education. He graduated from Robert Lee High School where he was student council president for four years. He was also president of the Robert Lee FFA for four years and participated in the judging teams. Mr. Wallace also played Football and ran track in high school.

His student teaching was in Roosevelt High School. He has been a summer carpenter, security guard for City of Lubbock. He enjoys roping, hunting (all types), fishing, carpentry and wood work.

Buddy was born and raised in Robert Lee where he attended school. He received his B. S. in Agricultural Education.

MRS. MARY ANN MURPHY

Mrs. Murphy is a graduate of Texas Tech University where she was an undergraduate major in P.E. and History. Her graduate majors were Psychology (Guidance and Counseling) and Special Education.

She was a cheerleader;

editor of the newspaper and annual; played in the high school band; and lettered 4 years in basketball. She also participated in other sports while in high school such as swimming, softball, tennis, and badminton. Mrs. Murphy also played intramural sports in college-basketball, swimming, softball, tennis, and badminton. She received stipend for teaching severe-profound students at Texas Tech University in 1981-82.

She has been Diagnostician in the Abernathy Co-op for the past two years. She served as coach, counselor and teacher in the Lubbock I.S.D., the Houston I.S.D., Corpus Christi, and Cypress Fairbanks I.S.D. She was Graduate Research Assistant in Special Education at Texas Tech University. She was also a teaching assistant while working on her Masters at Texas Tech. Holds Internships at Lubbock State School and Milams Children's Training Center in Lubbock. She Modeled in Dallas for approximately 5 years. She has organized

SPADE RANCHES PLACE 3rd

The Texas Ranch Round-Up included 14 ranches. The Ranch Rodeo is held annually at the Wichita County Mounted Patrol Arena in Wichita Falls, Texas. The all ranch hand rodeo benefits the West Texas Rehabilitation Center, the North Texas Rehabilitation Center and The West Texas Boys Ranch.

The Lewis Ranch of Clarendon placed first in the 1983 event with 51 points. Second place went to Cowan and Son of Seymour with 44 points while the Spade ranches, including Borden-Spade of Borden County and Renderbrook Spade of Mitchell County earned 38 points, placing third.

Other ranches invited to participate this year included: Waggoner of Vernon, 35 pts; Pitchfork of Guthrie, 31 points, Rob A. Brown of Throckmorton, 6666, Colewater of Amarillo, Double U, Levelland, Moorehouse, Borden County, Scharbauer Cattle Co, Midland, Swenson Ranches, Stamford, Tongue-River Ranch, Dumonte and the U Lazy S of Garza County.

Sam Whitley of the U Lazy S was named All Round Cowboy.

Mrs. Betsy Brown Bellah of the Rob A. Brown ranch was named Rodeo Queen-1983. Second place went to Borden County's Susan Stephens of the Moorehouse Ranch. Susan wore the crown from last year.

Not quite lucky enough to be on top, the Spade Ranches certainly made a respectable showing in all events. Neal Overton of

con't on pg 3

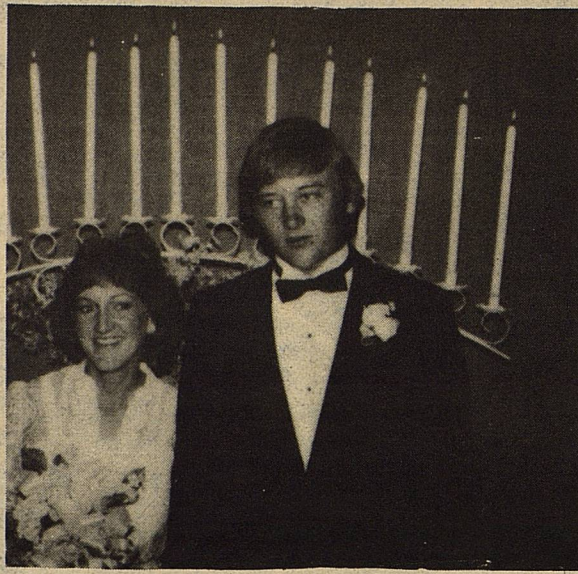

COYOTES SCRIMMAGE

The 1983 Borden County Coyote football team traveled to Loop to scrimmage the Longhorns last Thursday and played very well according to Coach Frisbie. Having eighteen boys out really helps especially when most of them are football players. "Our offense scored four times and Loop failed to score so we were pleased with our offense and defense", said Coach Frisbie.

The Coyotes scrimmage Whitharral at Coyote stadium on Thursday August 25th at 6:00.

Team members are:

NAME	GRADE
Sammy Williams	12
Charles LaRue	12
Robin Hood	11
Dennis Buchanan	11
Doug Adams	11

ANNE NEELEY-DARRELL GREEN

Neeley-Green

Anne Neeley and Darrell Green exchanged wedding vows during a Saturday afternoon ceremony at 14th and Main Church of Christ. Doug Morris, youth minister, officiated the 2 p.m. rite before an altar decorated with peach flowers and candles.

The bride is the daughter of Dorothy Neeley of Sarasota, Fla. Mr. and Mrs. Charles Green, Vincent, are parents of the bridegroom.

A group from the church sang during the ceremony. The bride was given in marriage by her brother Byron Neeley of Abilene. She wore a candlelight gown and carried a bouquet of peach roses with baby's breath. Beth Neeley served her

sister as maid of honor. Charles La Rue was best man.

Following the ceremony, the couple was feted with a reception in the church's Fellowship Hall. The bride's table featured a cake trimmed with peach-colored flowers.

The bride is a high school graduate from Sarasota, Fla. She also graduated from Abilene Christian University in Abilene. She is employed by Getty Oil Co.

The bridegroom is a graduate of Borden High School in Gail. He is employed as a contract welder.

Following a wedding trip to Ruidoso, N.M., the couple will make their home in Big Spring.

Your County Agent Says by Alan Day

The 74th Annual Field Day at the Texas Agricultural Research and Extension Center in Lubbock will be held Tuesday, September 13 from 1:00 p.m. to 5:00 p.m. The Extension Center is located 7 1/2 miles North of Lubbock on Highway 87. Gett off the Shallowater exit and go east 1 mile to the center.

Tours, conferences and displays will be held all afternoon. Tour highlights will include cotton bleeding, weed research, sorghum variety research, soilfertility, grape research and drought tolerant research in cotton and grain sorghum.

Make your plans to attend this field day. It will be an excellent opportunity to visit with specialists and see first hand research on High Plains agricultural crops.

PRUSSIC ACID POISONING

Plants of the sorghum group (Johnson grass, sorghum, sudan and hybrid sudan) have a high potential for prussic acid poisoning. These plants have cyanide-containing compounds which are converted to prussic acid when the plant cells are disrupted due to drought, hail, harvesting, frost, etc. Prussic acid is liberated in the rumen, absorbed into the blood and carried to the tissues where this potent

toxin interferes with oxygen utilization. If absorbed rapidly, it can cause respiratory paralysis. Early symptoms are labored breathing, frothing at the mouth, irregular pulse and staggering.

Stressed plants should be checked for prussic acid before they are grazed. When growth conditions change due to rainfall, drought, frost, etc., analysis should be conducted to head off problems. If prussic acid is detected, cattle should be removed until analysis shows the prussic acid has dropped. Delay feeding hay or silage for 4-6 weeks to allow time for breakdown of the prussic acid.

A sodium nitrite-sodium thiosulfate combination can be administered as an antidote. It must be injected intravenously very slowly. The dosage and administration are critical. The toxic principal works very rapidly, so speed of detection is important.

Suspect forage can be checked for prussic acid at the Texas Veterinary Medical Diagnostic Lab, 6610 Amarillo Blvd. West, Amarillo, Texas 79106 or at many local labs. About a 1 pound sample that is representative of the forage should be submitted through your local veterinarian. Costs for the prussic acid test is \$3.00 per sample.

SPECIAL EMERGENCY GRAZING OF CONSERVATION USE ACREAGE

We just received word that Borden County has been approved for emergency grazing (not haying) of Conservation Use Acreage.

Requests for permission to graze would be made at the county ASCS office by certifying to the number of livestock owned, as of August 1, 1983, that will be grazing on CUA. Only livestock owned by the applicant on August 1, 1983, may be grazed on CUA during the remainder of the 6-month non-grazing period. Only CUA operated by the applicant may be grazed, grazing shall not remove the cover to the extent that the acreage is not protected from weeds and from wind or water erosion. No livestock purchased or leased after August 1, 1983, may be grazed on CUA under this provision.

A producer may not let another use his Conservation Use Acreage, it must be his livestock on his land.

UPLAND COTTON PURCHASE PROGRAM

There seems to be some confusion as to the New Upland Cotton Purchase Program reopened by Commodity Credit Corporation on August 8, 1983. Anyone with outstanding 1980, 1981 or 1982 Cotton Loans are eligible to make offers on all cotton in excess of PIK needs. This is not for PIK participants only. There is no limit on the number of bales you can offer for purchase, but CCC will evaluate the offers and determine how much they will accept by crop years. They will accept offers up to a point as needs exist. Time is a determining factor. Producers who submitted offers under the previous Upland Cotton Purchase Program may submit a new offer on the previously offered cotton. If a new bid is submitted, the previous offer will automatically be nullified, whether or not the

new bid is accepted. Loans maturing on July 31, 1983 and August 31, 1983 will have no forfeiture action taken until after August 31, 1983. During this period producers will be permitted to repay their loans upon request. The starting date for taking bids was August 8, 1983 until close of business August 24, 1983.

CONSERVING USE ACREAGE (CUA) MAINTENANCE

The Conserving Use Acreage (CUA) must be maintained and must be free of wind and water erosion. Weeds on CUA need to be controlled to the extent that they will not spread and be erosion controlled to the extent possible. I know it is nearly impossible to do them both as dry as the county is, but your designated acreage needs to be kept in an acceptable manner. If the CUA acreage is not properly maintained, you will be ineligible for any payments, including your PIK entitlements. Spot-checks of the CUA acreages are now being made, so please make every effort to properly maintain these acres.

FAILED ACRES

Once again let us remind you to report failed crop acres before destruction of the evidence of that crop. In order to keep your program planted acres eligible for Deficiency Payments, you must file an application for Disaster Credit before any other use is made of the program crops.

1984 FEED GRAIN PROGRAM

The Secretary of Agriculture is gathering information for the 1984 Feed Grain Program. Producers wishing to send comments concerning loan rate, target prices, voluntary acreage reduction percentage, set aside, etc. can send them to Dr. Howard C. Williams, Director, Analysis Division, USDA-ASCS Room 3741, South Building, Box 2415, Washington, D.C. 20013. The comments are welcomed but must be

received before August 23, 1983.

ACP SIGN-UP

There will be an ACP sign-up August 22 through September 2. If you are interested in carrying out cost-sharing practices before September 30, 1983, come by and make your request for we have a small amount of funds available.

PROGRAM COMPLIANCE

We were scheduled to be flown for Measurement Service and Spot Checks this week but due to heavy cloud cover every morning we have not yet been able to be flown. As soon as you receive your notice on Measurement Service, make all necessary adjustments, if any. Then come in and certify. Spot checks will be made in the field and by aerial compliance.

SUSPENSION OF HARVEST FOR PIK

The "Harvest for PIK" requirements are suspended. After CCC has determined the quantities acquired under the new purchase program further instructions will be provided if producers are required to "Harvest for PIK".

HOLIDAY

This office will be closed Monday September 5, 1983 in observance of Labor Day. Hope you have a good one.

Obituary

IVAN HODGES

Ivan Hodges, 82 of Amarillo, died Sunday August 21st. He will be buried Wednesday, August 24 in Harrisonville, Missouri. Mr. Hodges was a native of Missouri and moved to Amarillo 8 years ago.

He is the father of Donna Hendricks of Gail and Grandfather of Beno Hendricks, Junior.

THOUGHT: One should concentrate first on what he can give to life, rather than what he needs or can get from it.

MR. JOHN STEPP

REVIVAL SERVICES

Revival Services will be held August 28-31 at the Gail Baptist Church. Dr. John Stepp will be the Evangelist in charge of services. He is the Director of Christian counseling ministries in Dallas, involved in evangelism and Bible conferences. He has served a Southern Baptist missionary to Brazil, Professor of New Testament Greek at Criswell Bible Institute, Pastor of First Baptist Church, Terrell, and Associate Pastor, First Baptist Church of Dallas.

The Revival will be held at 11:00 Sunday morning and at 7:30 each evening.

The Gail Baptist Church has Sunday School each Sunday at 10:00 a.m.; Worship Service at 11:00 a.m. and Evening Worship at 6:00 p.m. each Sunday.

"Behind an able man there are always other able men." Chinese proverb

Bake Sale Aug. 29

The Fluvanna Vol. Fire Dept. will have a bake sale Aug. 29, 1983 at 7:00 p.m. at the Fluvanna Community Center. This will be followed by a pancake supper.

Spade Ranches

con't from pg 1

Borden County had hard luck in the 1st go of the Saddle Bronc riding when his billet broke. Butch Gass, also of Borden-Spade made a good ride in the 2nd go, placing 5th. Rudy Gabaldon and Ray Wilson of Renderbrook-Spade placed first in the 2nd go of the team roping.

Other points earned by the Spade ranches were: Tooter Jameson, Gary Swan, Bob and David Northcutt, second in 2nd go in Team Branding; Northcutt, Jameson and Clark, 4th in 1st go of Wild Cow Milking; Northcutt, Bubba Swan, and Wilson 2nd in 1st and 2nd go of Team Penning, and Wild Horse Race, 3rd.

Third place also went to the Spade Ranches in the Ranch Roping Contest with their team of Fried Steak, Beans, and Gumbo.

The following events produced these 1st place results:

Saddle Bronc-1st go-Rob A. Brown-2nd go Lewis
Team Roping-1st go, Cowan and Son; 2nd go Spade
Team Branding-1st go Cowan and Son; 2nd go Cowan and Son
Wild Cow Milking-1st go Waggoner; 2nd go Scharbauer
Team Penning-1st go Scharbauer; 2nd go U Lazy S

Wild Horse Race-1st go Lewis; 2nd go Pitchfork

In the talent contest, the Waggoner ranch of Vernon placed 1st in Music and Craft. The Pitchfork ranch placed 1st in photography.

Approximately 1500 spectators were on hand during this popular two day event.

The average car uses 1.6 ounces of gas idling for one minute.

THE KANDYLAND EXPRESS

Pickles add zest and excitement to meals, not to mention eye appeal, flavor and an irresistible crunch! Scores of Texans make their own pickles each year from cucumbers grown in their own gardens, given to them by friends or purchased from local farmers markets.

Pickles fall into three basic categories: fresh pack, salt pack or brined and genuine dill.

Fresh pack pickles are made from fresh cucumbers to which vinegar and salt, sugar and spices are added. The jars are sealed and pasteurized. The characteristic flavor of the pickle develops in the jar. Fresh pack pickles are the most popular variety for home canning because they are easy to prepare yet high in quality when prepared with modern recipes, good ingredients and proper processing.

Salt stock or brined pickles are more difficult to produce at home because it's difficult to maintain a cool brining temperature in our hot Texas climate and the brining process is lengthy. However, brined pickles do have a unique and delicious flavor.

Genuine dill pickles are

cured in salt, dill and other spices and have a unique mellow flavor which is different from quick dill varieties.

There are a number of steps home picklers should take to assure a quality home-prepared pickle. First, select a cucumber that is a pickling variety such as National Pickling, Explorer, Salty or Crispy. Do not make the mistake of trying to pickle salad cucumbers by selecting the fruits when they are small. Small salad cucumbers are immature fruit and will not yield a quality product.

Process as soon as possible after pickling. If fruits and vegetables cannot be packed immediately, store them in the refrigerator and pickle within 24 hours. Use high quality, four to six (40 to 60) vinegar, fresh spices and soft water. Heat processing in a waterbath canner is recommended for all pickle products to destroy spoilage organisms and enzymes.

Whether you enjoy making your own pickles or prefer to purchase them at your local supermarket, refrigerate them after opening to maintain their best quality.

LOCAL NEWS

Lois Jackson left July 21 and returned August 14 from Brownstown Indiana. Mrs Jackson was coming for her Mother, Mrs. Perry who has quad surgery. Her Mother is very much improved.

Betty Eppers and the girls, DeLane, LaDon, and Jeri visited in the County this past week-end. They also attended the AJRA Finals Rodeo.

Lance Telchik was bitten by a rattlesnake last week. He was given shots and sent home and attended school Monday.

Coach Roemisch, who coached in Gail, is coaching in Welch at the present time.

Mr. Lackey has been in the hospital.

Reagan presents Texas A&M scientist medal of science

COLLEGE STATION—A Texas A&M University scientist who once said researchers have more bad days than good had a good day to remember when President Reagan presented him the National Medal of Science in a recent White House ceremony.

Dr. F. Albert Cotton, Welch Distinguished Professor of Chemistry and the second most-published scientist in the world, is the first Texas A&M University researcher to receive a National medal of Science while serving as a faculty member.
