Ginger Rogers

Texas Electric Cooperatives, Inc. Austin, Texas. Ginger Rogers was named winner of the Miss Texas Rural Electrification Contest during the 33rd, annual meeting of Texas Electric Cooperatives in Houston. Miss Rogers represented the electric cooperatives in the lower Rolling Plains section of Texas. The State winner is a graduate of Mozelle High School and is the daughter of Mr & Mrs R. V. Rodgers of Coleman. Miss Rogers served as a member of the basketball, volleyball and tract teams, as well as 4H and Future Homemakers, and plans to attend Texas Tech. The new Miss TRE will represent Texas during the Miss National Rural Electrification competition next year in San Francisco.

TV PROGRAM

The T.V. Program "Issues and Answers", were presented on Channel 4, Monahans-Big Spring, on Sunday Aug. 12, from 5:30--6:30 p.m., featured interviews with representatives from 15 of the Permian Basin Museums Institute. Interesting artifacts were shown and much history was reviewed. The Program was hosted by Don Scott of KVOM-TV and was monitored by Dr. Roger M. Olien of the University of Texas of the Permian Basin. Museums' representatives from Odessa, Midland, Pecos, Alpine, Colorado City, Big Spring, Borden County, Fort Davis, Sand Hills State Park, Lamesa, Seagraves and McCamey were interviewed. The tale of the Willow Springs Massacre, a story reflecting much area history, was told by Prof. Elton Miles and Prof. Earl Elam of Sul Ross University, who showed wagon hubs, cow bells and implements discovered near Willow Springs by the late Judge Hayes of Monahans when he was a young cowboy riding across the sandhills. These articles were from the remains of a train of about 40 wagons which had been attached and burned by Indians at this watering place, and the travelers apparently massacred. Mrs Edith Grissom of the Monahans State Park gave interesting information about the glistening white dunes which stretch for some 80 miles across West Texas and often have moisture just below the surface.

Mrs Nancy McKinley of Midland, displayed a rare running iron, reminiscent of the days of the open range, and Edna Miller, in pioneer costume, told of Borden County history and displayed the rare cork-reducer from the Dorward Drug Store display in the Borden County Museum. Pauline and Vivian Clark were in the studio audience at KMOM-TV.

HONORED

Mrs Pauline Clark, of Gail, representing Borden County Museum, has been invited to serve on the Executive Board of the Permian Basin Museums Institute.

A vacation is what you take when you can no longer take what you've been taking.

FIRE

Most of the citizens of Gail turned out to fight fire on the Dewey Everett Ranch Friday evening. Rich Anderson was near by when lightning struck and set the grass on fire. He immediately sent out for help and the fire was brought under control. They were getting ready to go fight another fire near the Joe Canon Ranch, but one of the Highway Patrol men came by and reported it under control also.

PRESIDED

Mrs. Carolyn Long, Gail, presided last Wednesday San Antonio at the annual Luncheon - Fashion Show program for the wives of the Vocational Agriculture Teachers of Texas. It was annual conference time for the teachers and some of the activities hosted by Mrs. Long for the ladies included a coffee Tuesday morning; American Airlines program "Travel Tips" by Elissa Danna, Dallas; and other activities which were coordinated by Mrs. Long through the Hospitality Room in the Gunter Hotel, San Antonio. The annual luncheon is the highlight of the week and one hundred and thirteen ladies attended. Carolyn is the wife of Sidney Long, Vocational Agriculture Teacher, Borden County High School, Gail, who just completed his year as president of the VATA (Vocational Agriculture Teachers Association of Texas).

COYOTES LISTEN ATTENTIVELY AS COACH EXPLAINS NEW OFFENSE

Head Football Coach Bob Dyess and Assistant Coach Van Kountz started the Borden County Coyotes in regular workouts Monday, A.G.L.#. That means fall is just around the corner and the excitement of school and football is just begun!

Leading the mighty Coyotes as 1973 captains are Joe Hancock and Doug Isaacs. These two fine athletes were elected by team members last spring in hopes of another successful football season. The

Coyotes are striving for their fourth straight district championship, besides being Regional Champs in 1970 and BI-District Champs in 1971. Approximately twenty athletes are out for this season. All games will be district, as was last year. The first game will be September 7, at 8:00 p.m. with the Wellman Wildcats coming to Borden County territory. "We have some very strong competition ahead of us" relates Coach Dyess, "but the-

TIPS FOR OUTDOORSMEN

by Vern Sanford

Touching Up the Lures

Any angler who fishes around rocks, boulders, bluffs or gravel beds subjects his artificial lures (especially the top-water plugs and floating "sticks") to real punishment. As a consequence the lures become scarred, the paint cracks and the hooks get broken or dulled.

But, that's where the fish are, so don't avoid these areas. Keep after 'em, even if you have to buy many new lures.

Of course you can replace the hooks on the old lures. Also you can repaint some of the lures, especially the ones with the wood bodies... and wood is now being used again after being replaced with plastic for a

long, long time.

While you have the hooks off just dip the lure in a paint bucket and hang the bait up to dry. A bit of old fishing line tied to the eye of the bait, and with a loop on the other end, makes both painting and hanging easy.

After the paint dries, you can give it additional protection and waterproof it at the same time by dipping it in a can of varnish or epoxy.

Kinda fun to do.

If you have decorative ability or artistic talent—and a few different colored cans of spray paint—you can come up with some very colorful combinations.

Who knows—the fish may even like 'em better.

School News

Borden County School Teachers returned to school Monday, August 13, 1973 in preparation for the 1973-74 School term.

Superintendent James McLeroy began the morning with an overview and introduction followed by a Texas Association Meeting led by Mr. Van Kountz. Teachers were then divided into elementary and high school led by Mr. Ben Jarratt and Mr. Mickey McMeans.

In the afternoon, a Pilot School was held for DESIRABLE STUDENT OUTCOMES: A FRAMEWORK FOR CRIME PREVENTION AND DRUG EDUCATION IN TEXAS. THIS Pilot Program was led by Mrs. Marilyn Dooley of the Texas Education Agency in Austin. Immediately following was a Question and Answer Period, followed by Mrs. Inez Moore of the Education Service Center in Lubbock on RESOURCES AVAILABLE.

There was then a brief Training Session for the Facilitating Group Discussions.

On Tuesday, Borden County School teachers traveled to Howard County Junior College in Big Spring for a small group Inservice Meeting. Wednesday, Borden County Schools will host a Teachers Conference for the District schools, entitled DRUG EDUCATION AND THE WHOLE PERSON... THE INNER, AS WELL AS THE OUTER DIMENSIONS OF LIVING. Lunch will be served to

area school teachers by the fine Borden Elementary Parents Club. On Thursday, Borden County Teachers will have a workshop in Gail. Friday will consist of another workshop and preparation for classes beginning Monday, August 20. Also registration is scheduled for that day for Borden County High School students.

Kitchen triangle

A most reliable check for a kitchen plan is what is called the work triangle.

Measure the distance from the front edge of your sink to the front of the range, the range to the refrigerator, and the refrigerator to the sink. This path across the floor should not be less than 4 feet nor more than 7 feet with the exception of the path from the refrigerator to the range, which could be 8 or 9 feet.

Those who bear in mind the work triangle when planning a new kitchen will have a beautifully planned kitchen.

DANGEROUS

Watch the bull in front of you, the goat behind you, the donkey at your left, the car at your right, and men from all four sides.

PHASE IV

Texas A&M University. CONSUMERS AND PHASE IV. College Station- Having been raised in a society where food has been abundant and low-priced relative to most of the countries in the world, Americans have come to take their food supplies for granted. But now the picture has changed!

The Phase IV program to halt inflation begins Aug. 12, and will directly affect the food industry as well as most every aspect of the United States economy, says Dr. William Vastine of the Texas Agricultural Extension Service. In spite of publicity emphasizing beef shortages in warehouses and retail stores, there has been little evidence that the continued beef pricefreeze of Phase IV will be compromised before the Sept. 12 deadline, he notes. However, consumer pressure to remove the price freeze combined with that being exercised by retailers, processors and produce groups would appear to be forthcoming. According to the specialist in marketing and food distribution, consumers will feel the impact in several ways. "The most direct will be in the unavailability of beef in some locations. Consumer hoarding in anticipation of price increases following the removal of the beef price freeze is also evident. Continued high prices for most meat items during the coming months can be anticipated. "Indeed there is little hope of any staple commodity be-

ing truly abundant in the near future," the Texas A&M University System specialist points out. Meanwhile the only bright hope lies in the fall harvest, believes Vastine. "If the 6 per-cent increase in the corn crop over last season and the 24 percent increase in soybeans, 5 percent increase in grain sorghum and 8 percent increase in the wheat crop is realized, some price relief by late 1973 or early 1974 would be expected."

Glue facts

When using an adhesive—glue, paste, rubber cement, epoxy—clean the surfaces to be bonded thoroughly. A film of wax or grease causes a weak bond.

We like someone because. We love someone although.

Aging doesn't cause loss of brainpower

Among myths about the aged is one holding that after the age of middle sixties one loses intelligence.

Research has shown there is no drop in intelligence provided the person is free of high blood pressure. Among those with a history of hypertension there is some falling off of brainpower. The high blood pressure many have damaged the blood pipelines. This diminishes their oxygen transporting capability.

Sand Dredging

Austin--A public hearing by the Texas Parks and Wildlife Department on an Application from Pennwalt Corporation of King of Prussia, Penn., to dredge sand from the Neches River in Jefferson County will be held at 2 p.m. June 12 in the John H Reagan Building in Austin.

Interested parties may make either written or oral statements concerning the application.

....REUNIONS....

Hendricks

Descendants of Jym Hendricks and Alta Taylor Hendricks met for a family reunion Saturday, Aug. 4. The group gathered at the picnic area of Ellis pecan bottom for a day of visiting and a basket lunch served at noon.

Those attending were Naomi Hendricks and Clay Gail Hendricks of Channelview; Myles and Amy Brown, Ballinger; Mrs. Monterey O'Neal, Lampasas; Jym L. and Madge Hendricks, Mrs. Melba Rinehart, Eurdist, Travis and Jym, of Gail; Taylor R. Hendricks, Goldthwaite; Clive and Pat Cagle, Abilene; William and Fayne Matchett, Huntsville.

And, Ruth P. Hendricks, Lou Dove Christensen of Elgin; Bernes Hendricks, Eden; Jim and Doris Harris, Karen and Terry Thibean, Aline Hendricks, Buddy and Pat Hendricks, Helen Hendricks, Austin; Kelly Hendricks, Houston and friend of San Marcos; William E., Sharon and Rainey Maultsby, Ft. Worth; Mrs. Billy J. McGuffin, Mona, James and Jeff, Granbury; Mr. and Mrs. J. B. Spurlock, Mr. and Mrs. Bob Taylor, Richland Springs.

And, Mrs. Jessie Powell, Mr. and Mrs. Ward Ellis Jr., Wade, Sherry and Roger, Mr. and Mrs. W. Owen Parks, Kelli and Carter, Joyce and Sam Isham, Mrs. Cecil Taylor, Thomas Smith and O. W. Taylor, San Saba.

Short Course

There will be a ten week Spanish course taught at the Borden County Schools beginning August 28, 1973 at 8:00 p.m. The course will be taught by Mr. Jarrell Edwards of the Plains Community. All interested persons should be present at the first session to enroll. Classes will be in session each Monday evening from 8:00 p.m. to 10:00 p.m.

Baby Shower

A pink and blue shower was held Aug. 12, in the Borden Homemaking Room for Sandra Evans. Her color was yellow and the table was decorated in yellow and white daisies with many "Goodies". Between 25 and 30 people many lovely gifts, including a big old rocking chair "For Grandma Bonnie". Hostesses were: Fran Bennett, Dotty Wills, Iva Reeder, Pauline Clark, Doris Rudd, Dorothy Browne, Dorothy Canon, Bess Smith, Wanda Smith and Jean Taylor.

WE ARE KEEPING OUR FINGERS CROSSED FOR A GIRL.

Jay Smith was using a very sharp knife to open sacks of feed. The knife slipped and almost cut one of his fingers off. Jay still remains in the hospital in Lubbock where he has received several blood transfusions. He will return to Lamesa Hospital when he is released from Methodist in Lubbock.

Doris Rudd attended the John Taylor reunion in Andrews.

Mr & Mrs. Ray Griffin, Mary and Robin from Carrizo Springs and Mr & Mrs Hary M. Nix and Debbie from Denver Colorado have been visiting Mrs Gizzie Nunnally and the C. C. Nunnally's. Mrs Griffin is the former Alene Nunnally and Mrs Nix is the former Almarene Nunnally. While here they visited the Museum and enjoyed it very much. This is the first time since her father passed away. They said the country was very pretty all the way from Denver and like the rest of us "They hadn't never seen such a cotton crop".

Mr & Mrs Joe Gilmore visited in Coahoma Saturday Eve with the Rusty Birchfields and the Bill Lewis family.

Mr & Mrs Doyle Newton visited Sunday with Ruby Miller who is in the Andrews Hospital.

Among recent visitors at the Rafter Cross ranch were Dr. and Mrs K. R. Russell and family of San Antonio and Mr & Mrs Dean Butemeyer and family of Rosenberg. Edna Miller and Mrs K. R. Russell Sr. accompanied Dr. and Mrs Russell and family to Red River for a week-end in the cool pines. The Russells returned by way of Taos and Santa Fe and along with Mr Butemeyer and sons enjoyed several days of fishing at the ranch. Mrs Butemeyer and daughter Linda were on their way to Flagstaff, Arizona where Linda will start work as a Dental Technician.

We are pleased to hear that Don Wills is recuperating nicely after having surgery in the Snyder Hospital.

Frank Torez who has been working for Herman Ledbetter for about 5 years was swimming in the White River Lake between Crosbyton and Post when he hit a rock while diving and broke his neck. He was rushed to the Post Hospital and then transferred to Lubbock and finally back to the Veterans Hospital in Big Spring. His son, Frank Jr. was on hand to pull him out.

Gay Sealy is visiting her son Joe, in Andrews, for a few days.

New Arrival

Mr & Mrs Bobby Burrus of Miles, Texas are the proud parents of a son born Wed. Aug. 1, at 11:55 AM. He weighed 8 lbs. 14 oz. and 21 inches long. He has been named Deen Ray after his grandfathers Dee Burrus and the late Raymond Urban. Grandparents are Mr & Mrs Dee Burrus of Borden County and Mrs Raymond Urban of Miles. Great grandmother is Mrs. L. D. Monroe of Nolan.

Most Couples Wed

NEW YORK UPI
There is still the traditional June bride, but many brides in July and August. In fact, the historical concentration on June weddings is a thing of the past. "Modern Bride" reports

In Autumn Months

that June accounts for only 11.8 per cent of the total. In fact, there are more marriages in the second half of the year, which doesn't include June. The bridal market truly is a market for retail sales round the calendar.

Fire Extinguishers On Boats

Austin--Man's best friend may be his dog on land, but or the water his best friend could be a fire extinguisher

Fire Extinguishers are required by law on man outboard motor boats and all in boards.

Your boat is required to have a fire extinguisher on board if it has:

1. Closed compartments under the thwarts and seats where-in portable fuel tanks may be stored.
2. Double bottoms not sealed to the hull or which are not completely filled with flotation material.
3. Closed living spaces.
4. Closed storage compartments in which combustible or flammable materials are stored.
5. Permanently installed fuel tanks.

Some boat owners consider the extinguisher a superfluous piece of equipment until their boat, worth several thousand dollars, catches fire.

Fires on boats are especially terrifying since there is usually no place to run. You can either fight the fire, or swim for your life. If you have no fire extinguisher on board, your alternatives are cut in half, say department officials.

Splashing water on boat fires won't help since they usually involve spilled gasoline. Water merely spreads the flames.

Four types of extinguishers are available for the boater--foam, carbon dioxide (CO₂), freon and dry chemical.

Boat owners should make sure the fire extinguisher they purchase has B-L or B-II classification required by the coast guard. This classification will be stamped on the fire extinguisher.

Boat owners should make frequent checks to be sure their extinguishers are in their proper stowage brackets and undamaged. Cracked or broken hose should be replaced, and nozzles should be kept free of obstructions.

Locking pins and sealing wires should be checked to assure that the extinguisher has not been used since last recharged.

Extinguishers should never be tried merely to see if they are in proper operating condition because in many cases the valves will not properly reset, resulting in a gradual discharge.

Those fun fake furs go right on, shown most often as novelty numbers worn over pants or pantsuits.

HANDY IDEA

Wearing an old pair of gloves helps save hands while painting and staining around the home.

OPEN SUGGESTION

Ventilation is important when painting or staining. Be sure windows are open to be safe.
