## Stacy Suzanne Wilson and Hugh Michael Putman Unite In Marriage

Stacy Suzanne Wilson and Hugh Michael Putman were united in marriage August 9th, 1986, at 4:00 p.m. in St. Mary's Church of Big Spring. Father Robert Bonnington officiated at the ceremony.

The bride is the daughter of Mr. and Mrs. Chesley Wilson of 2607 Rebecca Dr. Parents of the groom are Mr. and Mrs. Hugh T. Putman of Dallas.

Stacy is the grand daughter of the late Mr. and Mrs. J. C. Wilson of San Angelo, and the late F. B. Wyatt and Mrs. F. B. Wyatt of Eola, Texas.

Two large arrangements of white roses accented with greenery adorned each side of the alter.

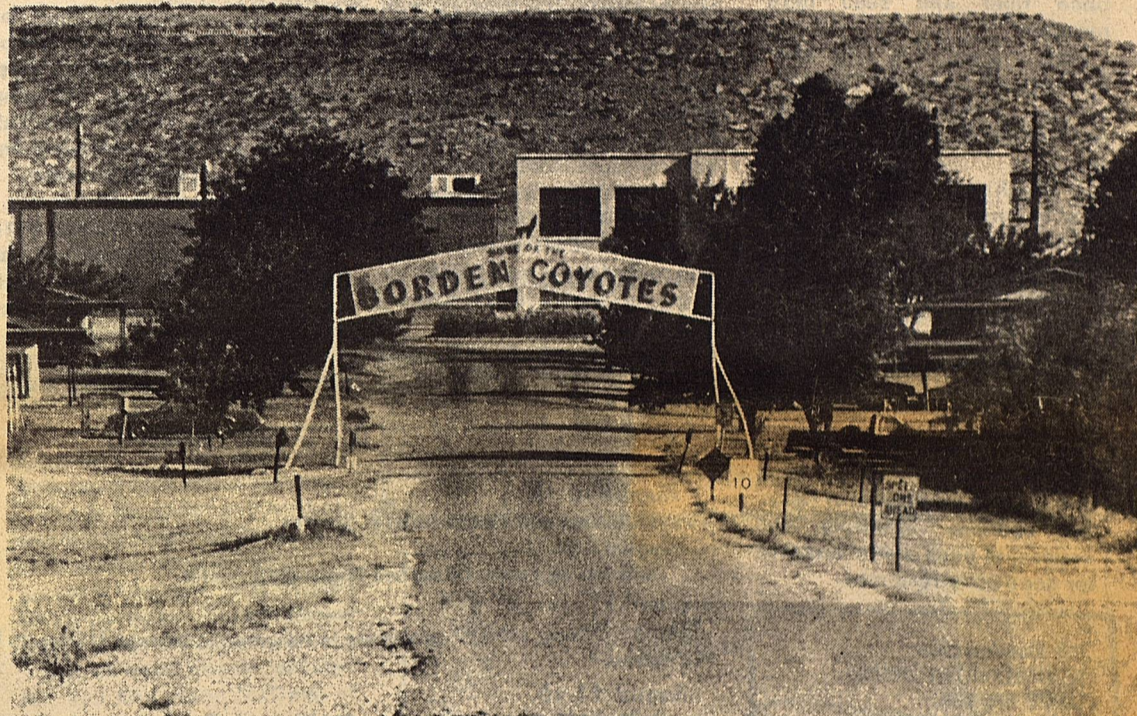

Pre nuptial music was provided by Harpist, Mary Hutto of Austin, and Flautist, Martha Wristen, also of Austin. Gene Adkins provided the organ music.

Presented in marriage by her father, the bride chose an original gown of white bridal satin and imported lace. The fitted bodice was elongated and

## McLeroy begins 21st year at Borden County

(Lamesa Press Reporter)

Enrollment is expected to remain about the same this year at Borden County School, according to Superintendent James McLeroy, who expects the student body to number about 210.

McLeroy, who this fall will begin his 21st year with the school district, said they should have about 65 students in the high school level, with another 55 in the middle school grades. The elementary grades, including kindergarten, he said, should have about 100 students.

The increase in the number of kindergarten students, along with the state-mandated 22-1 student-teacher ratio, will require them to have not one but two kindergarten classes this year, stated McLeroy.

Assisting McLeroy in running the school system are high school Principal Mickey McMeans, who has 27 years'

experience at Borden County and Ben Jarrett, who has been with the school for 23 years.

A newcomer to the school's staff this year is Joe Bond, who will serve as the Coyotes' new head football coach. A graduate of North Texas State University, Bond has 18 years' coaching experience and comes to Borden County from Carbon, where he was head coach for seven years.

Teachers at Borden County School are paid \$1,500 above the state base salary of \$15,200, said McLeroy, and their benefits include school-provided teacherages. Personnel is the key to providing a good curriculum, said McLeroy, and he placed the number of professional educators at the school at 28.

The school district serves the students of Borden County, a task which entails sending a fleet of 12 buses out onto routes which result in round-trip

mileage of 1,500 miles per day.

Few changes are foreseen in the curriculum this year, said McLeroy, as they expect to continue administering the curriculum and programs initiated last year as a result of state wide school reforms. Language arts are the strongest part of the school's curriculum, which is aimed at preparing students for college, he said.

"We had 100 percent of our students pass the TEAMS exam (last spring), so I feel that we've had a marked improvement in mathematics," commented McLeroy. The school also provides courses in vocational agriculture and homemaking, he added.

The budget for this year is down about \$200,000 from last year, said McLeroy, giving them about \$2 million to work with this year. The value of their tax base, which is dependent on oil,

## HARVEST PREPARATIONS CAN REDUCE BARKY COTTON

A lot of hard work during the growing season can go down the drain if cotton farmers fail to take the proper steps to get their crop ready for harvesting.

Lack of proper harvest preparations can lead to barky or trashy cotton which, in turn, can result in price discounts.

Giving attention to the following practices can help reduce barky cotton:

--Use chemicals to prepare cotton for harvesting to suit your schedule. Waiting too long for a frost when the crop has matured can result in yield and quality losses in the field.

--Use harvest-aid compounds according to label instructions once fiber and seed have matured.

--Start harvesting only after harvest-aid chemicals (or frost) have caused adequate defoliation and plants have dried out.

--Defoliant used before desiccation can reduce foreign material going to the gin, especially in rank cotton. This practice can improve grades and reduce ginning cost.

--Don't spray more acres than you can harvest before regrowth starts or stalk deterioration sets in.

--Don't spray when there is clear evidence that the next four or five days will be cool or rainy; boll openers, defoliant and desiccants need warm weather for good plant response.

minerals and real estate, has dropped from a high of \$613 million three years ago to its present level of \$395 million. Despite the drop in values, the tax rate will be the same as last year, 40 cents per \$100 valuation.

"We were prepared for the drop in oil prices, we had our business in order," explained McLeroy. However, he added, the district will have to deal with a loss of an estimated \$300,000, in funds this year because of the drop in oil revenues.

Fortunately for the budget keepers, this will be the last year of payments on \$1.2 million worth of buildings, as their 10 year bond payment comes to an end in 1987. The total value of buildings and physical plant at Borden County school, said McLeroy, is about \$3 million.

New construction at the school this year includes a new activity room, completed during the 1985-86 school year and valued at \$128,000, to be used by physical education students. The roof of the school building is being replaced with a single-ply "Dura Last" roof, an undertaking which will cost \$194,000.

## PUBLIC NOTICE

TEXAS UTILITIES ELECTRIC COMPANY hereby publishes NOTICE that, pursuant to the provisions of the Public Utility Regulatory Act and the Public Utility Commission's Substantive Rule 23.23(b)(2), it filed an application on August 8, 1986 with the Public Utility Commission of Texas seeking authority to refund to its customers an overrecovery of fuel cost revenues in the amount of \$64,779,640 as of June 30, 1986, which includes applicable interest.

Texas Utilities Electric Company has proposed that the refund be made with customer billings in October 1986, or as soon thereafter as the Commission orders. All customers and classes of customers whose electric service rates include charges for fuel cost pursuant to Texas Utilities Electric Company's Rider FC, entitled "Base Rate Fuel Component", and all territories in which Texas Utilities Electric Company provides electric service through its Dallas Power & Light Company, Texas Electric Service Company and Texas Power & Light Company divisions will be affected if the application is granted.

A complete copy of said application is on file with the Public Utility Commission of Texas.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Public Utility Commission of Texas as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. was of imported re-embroidered Alencon lace.

A lace neckline and Victorian sleeves of Austrian net and satin rest on her neckline. Her bouffant skirt with matching train fell into a hemline of illusion. A wreath of lace, silk roses, and baby breath held her long imported veil. To complete her ensemble, the bride carried white roses sprinkled with baby's breath.

Serving her sister as maid of honor was Miss Joan Wilson of Big Spring. The bridesmaids were Allison Guster of Wichita Falls, Marka Pepper of Borger, Jenny Putman of Fontana, Calif., and Becky Russell of Big Spring.

Robin Edmund of LaPalma, Calif., was best man, with groomsmen Ken Sanek of Irving, Rick Scott of Garland, Chris Putman of Baltimore, Md., and John Putman of Dallas, brothers of the groom.

Ushers were Steve Wilson, brother of the bride, Todd Nichols, cousin of the bride, from San Angelo, Rowland Lawson of Wichita Falls.

Flower girl was Mary Vanderwedge of Lubbock.

Immediately following the wedding, a reception was held at the Big Spring Country Club. The brides cake featured a three tiered cake with a flowing fountain, accented with white roses trimmed with green.

The bridegrooms table featured a chocolate cake decorated with chocolate roses.

The bride and groom are both recent graduates of Texas Tech in chemical engineering. The groom is employed with Nuclear Utility Services. The couple will reside in the Houston area.

Out of town guests included Mr. and Mrs. Tedd McCann of Washington, D.C., Mark Neumann of Oklahoma City, Mr. and Mrs. Jerry Pierce of Bartlesville, Mrs. Hugh A. Putman from Oilahoma City, Mr. and Mrs. Fahra of Midland, Mrs. F. B. Wyatt of Eola, Tx., Mrs. G. H. McLaughlin of San Angelo, Mr. and Mrs. Bobby Daniel of San Angelo, Mrs. Abbey Jones and Miss Lorene Jones of New Baaunfels, Mrs. O.R. Davis of San Antonio, Mr. and Mrs. John Caudle of Houston, Mr. and Mrs. Abe Cauldle of Odessa, Mr. and Mrs. Zack Scott of Bridgeford.

Two showers were held in honor of the bride and groom Saturday, July 12. One was held at Gail. Hostess were Francis Burkett, Delores Wolf, Verna Ogden, Doris Stedman, Ann McLeroy, Shirley McMeans, Gwen Ray, Barbara York, Sue Smith, and Melba Rhinehart.

The second shower was held at the parlor of the First Baptist Church in Big Spring. The hostesses were Iris Hecker, Virginia Allen, Michelle Darden, Dorothy Arhelger, Billie Christie, Lucille Sterling, Bernice Cason, and Bonnie Mims.

### OCTOBERFEST-- CAMP FOR PEOPLE 55 AND OVER

Where can a person over 55 "get away" for:

- three days and nights of fun-filled activities,
- learning opportunities,
- fantastic food and special events
- in natural lakeside surroundings
- with all the modern conveniences?

There may be other places in Texas that offer such fare, but not many can match "October fes", an Extension Camp for people 55 and over, says Kandy K. McWhorter, Borden County Extension Agent-Home Economics. Five sessions are scheduled for this fall--Septembjr 30-October 3, October 7-10, October 14-17, October 21-24, and October 28-31.

Some of the featured educational presentations will include: insurance options, cooking demonstrations, family

life, gardening, health, wardrobe coordination, food and nutrition, and plant survival tips.

Although each camp is different, they all offer a variety of learning centers to give "hands on" experience in areas such as oil painting, wind chime making, archery, needlecrafts and chair caning.

Participants will also have opportunities to go for boat rides, nature hikes, or fish on the waters of Lake Brownwood. Card and table games, tennis, horseshoes, billiards, and volleyball will be available at all times.

Evenings will filled with such special social events as dances, a special theme party and games.

Each camp is limited to the first 100 participants and cost is only 985. per person for three days of activity, so contact your county Extension agent, Kandy K. McWhorter, for details now!!

### CONSERVATION RESERVE PROGRAM

A signup for the 1987 Conservation Reserve Program (CRP) will begin August 4th and go through August 15, 1986. If you are interested in placing highly erodible cropland into a ten year program and convert the land back to grass, and if your bid is accepted, you will receive cost share payments of up to 50 percent of the eligible costs to establish a cover crop, not to exceed \$55. per acre, plus your rental payment (rental payments cannot exceed \$50,000. for any fiscal year). If your bid is accepted, you will be allowed to harvest your 1986 crops before the contract becomes effective, if necessary. If you need more information concerning this program, please check with the county office.

### 1987 WHEAT PROGRAM

The provisions for the 1987 wheat program have been announced and in very brief form we will give a few of the provisions: Be a required 27.5 acreage reduction from the farm's wheat base; wheat bases will be an average of planted and considered planted from 1982 to 1986, and 1987 yields will be the same as 1986; target price is \$4.38 a bushel; 50-92 provision will be in effect; limited cross compliance, which means that to be eligible for benefits on a participating crop, the acreage planted for harvest of any other program crop may not exceed the crop acreage base of these crops. The enrollment period for the 1987 wheat program will begin October 1 and end March 30th.

### NONGRAZING AND NON HAYING ON ACR

The nongrazing and nonhaying period on ACR acres in Borden County ends August 31, 1986. You can begin grazing or haying your ACR acres effective September 1, 1986.

### FOREIGN INVESTORS

Foreign persons who acquire, transfer, or hold interest in agricultural land are required by law to report such transactions and holdings to the Secretary of Agriculture. Any foreign investor who does not report these transactions is subject to penalties.

### 1986 WOOL REFERENDUM

A referendum will be held August 18 thru August 29, 1986, to determine whether wool producers approve of a new agreement between the Administrator, AMS, and the American Sheep Producers' Council, Inc., (ASPC) for the advertising and sales promotion of lamb and wool. If producers indicate approval in the referendum, deductions will be made from shorn wool and

unshorn lamb payments for the 1986 thru 1990 to finance the ASPC's activities.

The location of the polling place for Dawson County wool producers will be at this office. Ballots will be mailed to each known producer of wool or lambs in Dawson County around August 18, 1986. Any individual, corporation, partnership, or legal entity is an eligible voter if: (1) producer had an interest as owner or partial owner in one or more sheep, (2) sheep were 6 months old or older for at least 30 days during 1985, (3) ownership was for at least 30 days during 1985.

There will be no voting by proxy or by agent.

### COTTON LOAN DEFICIENCY PAYMENTS

The Food Security Act of 1985 authorizes cotton loan deficiency payment. Producers who are eligible to obtain a price support loan on the farm and agree to forego the loan are eligible to receive a loan deficiency payment. Producers cannot receive a loan on any portion of this production. Loan deficiency payments must be requested by producers before title is transferred and requested on or before May 31, 1987.

The quantity of the crop eligible for loan deficiency payments is the actual farm production not to exceed the farm program acreage times the farm's program yield. Sufficient evidence must be submitted to

this office that include the grade, staple, micronaire, and net weight of the bales. Warehouse receipts, class cards, or lists with gin bale numbers and gin code is acceptable evidence.

Producers who do not submit acceptable documentation showing the grade of the cotton will receive a loan deficiency payment based on Strict Good Ordinary spotted 1 inch, micronaire 2.6 and below. The net weight of eligible bales of cotton must weigh at least 325 pounds, but no more than 600 pounds. Bales that weight more than 600 pounds can receive a loan deficiency payment, but payment will be on 600 pounds instead of what the bale actually weighed.

The loan deficiency payment is figured on a per bale basis. The loan deficiency payment rate is the difference between the loan rate (55.20 cents) and the loan repayment rate (80 percent of the loan value for the bale of cotton).

Payments will be paid in 50 percent cash, subject to Gramm-Rudman reduction, and 50 percent in CCC-6's (certificates).
