BORDEN COUNTY SCHOOL'S ENROLLMENT INCREASES

Borden County School began classes on September 2 for the 1986-87 school year with about 221 students enrolling. Approximately 221 students enrolled with 158 of these in elementary and junior high and 63 in high school. There are about 21 students enrolled in kindergarten.

The administration expects a good year in 1986-87. House Bill 72 is almost implemented at this time, taking some weight off the teacher's shoulders. The Coyote Band had close to 60 members the first day of class. The Coyote Football team has been looking very good at scrimages and Coaches Bond and Frisbie are optimistic about the team's chances this year.

Borden County has an excellent staff of teachers in all grades. Parents are welcome to come to school and see the superintendent, principals, are teachers if there is a problem or if you just want to check on the progress of your student this school year. **YOU ARE WELCOME at Borden County School.**

Mrs. Joleta Edenburgh, a counselor from Plains, gave an in-service workshop for Borden County teachers last Friday. Mrs. Edenburgh also has a private Crisis Counseling Business. The In-service training, culminated a week of In-service training sessions and workshops for local teachers.

COYOTES VS McCAULLEY

BORDEN COUNTY COYOTES — The Borden County Coyotes find themselves under the new leadership of head coach Joe Bond and are anticipating a fine season. The Coyotes include (front row, left to right) Fuzz Herridge, Harold Barnes, Michael Murphy, Gerry

Smith, Ray Martinez, James Smith and Brian Bond. Pictured on the back row (left to right) are Randall Hollis, Bobby Squires, Rockie Harbor, Kerry Fryar, Mickey Burkett, Brice Key and Shannon Bond.

LAMESA PRESS REPORTER Photo

Borden Coyotes may fire with aerial attack in 1986

A new coach and a new district are the keynotes prior to the season start for the 1986 Borden County Coyotes.

A new schedule faces the incoming coach. No longer will Borden County have Ira, Highland and Hermleigh as key rivals. As members of 4-1A West Zone, the Coyotes are pitted against Dawson, McCaulley, Wellman, Loop

and Grady, and two newcomers to six-man ball, Klondike and Sands.

Probably the emergence of a stronger air attack, due in part, to the graduation of fleet running back Chris Cooley, who had been the Coyotes' mainstay on offense for the past three years.

"But now, we're going to try to throw the ball a little more. I don't have any formula, like 60 per cent running and 40 per cent passing, but after watching several of their films from last year, I think I can say we'll definitely be throwing the ball more. We've got some good depth at running back and end and we've got some kids that do a pretty good job of catching the ball."

Mickey Burkett and Brice Key, holdovers from last year's campaign, will take the running back positions. Burkett, a 6-1, 180 senior, moves in from an end role, where he earned second-team all-district honors a year ago. Key, a 5-10, 158 senior, was honorable mention as a running back.

Starting at quarterback for the Coyotes will be one of coach Bond's two sons, Shannon, a 5-11, 162-pound junior. Shannon Bond started at quarterback for Carbon the past two years and brings experience to the new offensive and defensive systems Coach

Bond will use.

The ends will likely be seniors John Stevens (5-9,

165-sr.) and Rockey Harber (5-10, 148-sr.), who Coach Bond expects will also alternate at running back. The center will be Gerry Smith, one of three centers the Coyotes used last season. Smith, 5-9, 175, started for Borden a year ago, but was lost to an injury early in the season.

Also expected to see a lot of action is 5-5, 180 sophomore Ray Martinez, who will work both at fullback and center.

The Coyotes' are more experienced defensively, where Burkett returns as first-team linebacker. Harber was second-team linebacker and Stevens was a second-team defensive end.

Martinez and Harold Barnes, a 167-pound junior, look good as the Coyotes' down linemen. Burkett will be at middle linebacker and Key and Shannon Bond will be at the outside linebacker positions. Harber is a good choice for the safety slot.

Stevens should also see a lot of playing time at one of the outside linebacker slots, along with Kerry Fryer, a 6-1, 171-junior, and Patrick "Fuzz" Herridge, a 5-6, 130-freshman.

A proven Randell Hollis lends 5-10, 211 size as a down lineman while Lance Telchick, a 5-10, 210 freshman, will be used on the

Bond latest Coyote coach

Joe Bond didn't start out in teaching to coach six-man football. In fact, he didn't start out to be a coach.

But 1986 finds him beginning his 20th year of coaching, and he's glad to be at Borden County High School.

"I enjoy six-man football. It's an exciting sport and the student body is small. I think you get a better working relationship between student and teacher," said Bond, who took over this season

Bond attended Bullard High School and Ranger Junior College before graduating from North Texas State University. He began his teaching career at Arlington Junior High. He taught there for eight years, then coached girls sports and scouted for the football team at Gorman High School. After three years there, he moved to Carbon where built the program into respectability.

He coached for eight years at Carbon.

He and his wife, Glynda, have two sons, Shannon, who will be a junior, and Brian, who will be a freshman. Both play football.

Bond will teach social studies and coach track in addition to football.

line also. Other players include Michael Murphy (5-6, 135-sr.) at quarterback and safety; Brian Bond (5-7, 122-fr.) at quarterback and safety; James Lewis (5-7, 135-fr.) at running back; James Smith (5-9, 160-fr.) at end; and Bobby Squires (5-10, 151-sr.) at end.

"I think we'll be stronger defensively than offensively right now," said the coach. "We don't have a lot of experience on offense. Defensively, we'll be stonger more quickly. Burkett can be an excellent linebacker. He's intelligent and he is a hard hitter. Martinez is doing a good job as a down lineman and Harbor has been giving us an excellent two weeks of workouts. I think Key and Shannon (Bond) are going to do well at outside linebacker too.

"And, we've got good people to back them up. I think we have some good depth on defense and we'll use it to give some people some rest," he added.

The team's weakest area is depth at the quarterback spot.

"Shannon has started since the third game of his freshman year, although he was injured some last year, so he knows how to run the offense. He is throwing the ball fairly well and he does a good job of blocking in front of the ball," said the coach. "Backing him up is Murphy, and he hasn't played since the eighth grade so we're hoping he will catch on quickly and give us some depth there."

Parents lined up in the cafeteria to buy lunch cards on the first day of school. Shown are Betty Dennis and Pam Cooley. Betty and Joel Dennis have one son in school. Jeffrey began kindergarten class this year. Pam and Joe Cooley have three children in school, Tammy, Cody and James.

Very few great Flamenco guitarists can read music. They learned their art from childhood.

Vows exchanged...

Double-ring ceremony unites couple

Kristine Lee Mack became the bride of Van Lee York, Jr. of Gail in a double-ring ceremony at 2:00 p.m. June 21 in the sanctuary of First United Methodist Church. Officiating was Rev. Bob Metzger.

The bride is the daughter of Mr. and Mrs. Randy Mack of Snyder. The groom is the son of Mr. and Mrs. Van York of Gail.

Grandparents of the couple are Mr. and Mrs. Bill Heard of Arlington; Mr. and Mrs. I. J. Mack of Lancaster, Calif.; Mrs. Johnnie York of Lubbock and Mr. and Mrs. L. D. Smith of Lubbock.

Vows were exchanged before an altar centered with peach and white gladioli and an arched candelabrum. The candelabra on each side were decorated with white spider mums and greenery. Peach bows marked the pews.

Lighting the candelabra and white candles on the altar was Mrs. Sherry Garrison of Burleson, aunt of the bride.

Pre-nuptial and wedding piano selections were played by Kathy Omenson. The bride entered the sanctuary to "The Bridal Chorus" by Lohengrin.

Given in marriage by her father, the bride wore a gown of white organza. The high neckline and English net yoke featured sequins, pearls, and re-embroidered Chantilly lace. The bishop sleeves were cuffed with matching lace. The skirt had tiers of Chantilly lace that cascaded to a cathedral length train with wide ruffled edges. Her fingertip veil of illusion was gathered to a Juliet cap covered with lace and pearls.

The bride carried a bouquet of flowing Stephanotis, peach bridal roses, white spider mums, and white roses. White netting intermingled the flowers.

Keeping with tradition, the bride's dress served as something new. Something blue was a blue garter, a gift from Jean Wright; borrowed was a pair of diamond earrings from the bride's mother. For something old, the bride carried her mother's bride's Bible. The Bible was covered with Chantilly lace and special passages on love and marriage were marked with ribbon and tied with love knots. The Bible was prepared by the bride's great aunt, Mrs. Fay Hoffpauir of Arlington, who had also covered the Bible for the bride's mother's wedding.

Serving as maid of honor was Ann Wright. Bridesmaids were

MRS. VAN LEE YORK, JR.
(Harley Bynum Photo)

Kelly Cruse of Lubbock and Cathy York of Gail, sister of the groom. The bridal attendants wore floor-length dresses of peach taffeta. The dresses featured an off-the-shoulder ruffle of moir'e taffeta trimmed with peach ribbon and lace. They wore dyed-to-match satin shoes.

Each attendant carried a bouquet of peach baby roses, peach gladioli blossoms, white spider mums, and baby's breath intermingled with white netting.

The groom wore a white tuxedo with a white tucked shirt, white bow tie and cummerbund. His boutonniere featured a single white rose and baby's breath.

Mark Erwin served as best man. Groomsmen were Bryan Cade of Lubbock and Steven Mack, brother of the bride. They wore white tuxedos with peach bow ties, peach cummerbunds, and boutonnieres of peach baby roses with baby's breath.

A reception was held in Wesley Hall of the church immediately following the ceremony. Billie Smith registered guests. The registry table was marked by a large single peach bow and displayed the bride's book and throw-away bouquet.

The bride's table was covered with white lace embroidered cloths accented with peach ribbon and bows. Displayed on the table was the bride's Bible and bouquet. A fruit bowl was offered; mint candies and coffee were served from silver appointments. Servers were Cindy Brewster, Diane Arnold and Joyce Dow.

Centering the bride's table was a three-tiered cake made by Tori Lyons. It was decorated with fresh flowers of white and peach roses, white spider mums, and greenery.

The groom's table was centered with a chocolate cake styled after the bride's cake and was also made by Tori Lyons. It was topped with fresh flowers of peach mums and greenery. Serving at the groom's table were Sandra McDonald and Sara McDonald. Sara presented each guest with a long-stemmed peach rice rose.

Individual tables for seating were decorated with arrangements of peach mums. Kathy Omenson played bridal selections during the reception. Coordinating the reception were Mrs. Sherry Garrison of Burleson and Mrs. Sydney Marty of Gainesville, Ga., aunts of the bride.

Out of town guests were from Gainsville, Ga.; Lawrenceville, Ga.; Lancaster, Calif.; New Mexico; Burleson, Arlington and Lubbock.

The bride is a graduate of Snyder High School and attended the University of Texas at Arlington.

The groom is a graduate of Borden County High School and is currently employed with Hendricks Electric of Lubbock.

The couple will make their home in Lubbock.

First Baptist to hold fall revival

First Baptist Church of O'Donnell will hold a fall revival beginning at the Sunday morning services September 7.

The evangelist will be Dr. Jack Terry of Fort Worth. Song director will be J. D. Meeker of Fort Worth.

Services will begin Sunday morning and continue through the evening services September 14. There will be noon services with meals Monday through Friday. There will be no services Friday night.

Ernie Waggoner is the pastor and Rick Flournoy is the youth and song director.

Nursery will be provided.

Methodist Church Resumes Services

The Dorwood Methodist Church in Gail will resume regular church services on September 7.

Obituaries

Beno Hendricks

Services for Beno F. Hendricks, 67, of Gail were held at 10 a.m. Friday in the Bell-Cypert-Seal Chapel with the Rev. Pat Ray, pastor of First Baptist Church, officiating.

Burial was in the Gail Cemetery under the direction of Bell-Cypert-Seale Chapel Funeral Home of Snyder.

He died at 8 a.m. Tuesday in the Big Spring Veterans Hospital after a lengthy illness.

He was born in San Saba County. He married Donna Hodges Dec. 10 1943, in Malden, Mo. He served in the U.S. Army Air Corps in World War II. He was a retired ranch foreman and has resided in Borden County for the past 40 years.

Survivors include his wife; a son Bo of Big Spring; two sisters, Monterey O'Neal of Lampasas, Joyce Isham of San Saba; three brothers, Paul of Nacogdoches, Bernes of Eden, Taylor of Goldthwaite; and grandson.

Jack Wolf

Services for Jack D. Wolf, 53, of Vincent were held at 4 p.m. Friday in Rosewood Chapel with the Rev. Greg Jensen, pastor of Vincent Baptist Church, officiating.

Burial was in Trinity Memorial Park under the direction of Nalley, Pickle & Welch Funeral Home.

He died Thursday morning at his residence. Justice of the Peace Willie Grant ruled natural causes in the death.

He was born in Iraan and moved to the Vincent area in 1942. He married Wanda Branon Dec. 27, 1951, in Big Spring. He was a farmer and rancher. He graduated from Coahoma High School in 1951 and played football at Baylor University. He served as director on Maine-Anjou Association for 10 years. He was a producer-director of the Plains Cotton Growers Association. He was a member of Vincent Baptist Church.

Survivors include his wife; two sons, Jack Jr. of Dallas, Steve of Vincent; a brother, Vernon of Vincent; and two grandsons.

Pallbearers will be Jimmy Taylor, Don McDonald, Tom Neff, R. L. Hodnett, James Barr, Warren Wise, Bobby Cathey and Bill Wilson.

The family suggests memorials to the Lubbock Methodist Hospital Cororary Care Unit.

Thanks

We wish to Thank all Borden and Scurry County residents who helped during the recent tragedy and fire at out ranch house.

Extension Home Economics Report

By: Kandy K. McWhorter

A FALL CALENDAR OF FOOD SAFETY TIPS

SEPTEMBER--GO BACK TO SCHOOL WITH LUNCHES SAFELY PACKED

When school starts this month, send your child to school with a satisfying, nutritious and safe lunch:

--Fix lunch the night before. Freeze sandwiches on coarse-textured breads that will not get soggy on thawing.

Include a cold or frozen item or commercial freezing gel with the packed lunch. A termos will keep beverages cold, or pack nkgaged in wazed-paper carton that need no refrigeration.

Wash out lunch boxes or totes every night. Never use a bag that is wet or stained for packing a lunch; it could contain bacteria that might contaminate food.

OCTOBER--FIGHT FOOD POISONING AT TAILGATE PARTIES OR COVERED DISH SUPPERS

Cooler weather does not guarantee food safety.

--Use a termos to transport a hot supper. Check the seal to be sure it fits tightly. Rinse the termos with boiling water right before use. Heat foods to boiling before filling the termos.

A thoroughly cooked casserole will usually stay safe (and warm) in cool weather if well insulated. Try several layers of aluminum wrap, followed by newspapers and a towel. Discard any leftovers.

NOVEMBER--LET'S TALK TURKEY

Always thaw frozen poultry in the refrigerator or covered with cold water outside the refrigerator. Change water frequently.

Turkeys should be stuffed just prior to cooking.

Cook turkeys to 190 degrees F. internal temperature; stuffing should reach 160 degrees F. Always completely roast a turkey at one time at an oven temperature of at least 325 degrees F.

Refrigerate leftovers in small, shallow containers. Store stuffing and gravy separately from the meat.

DECEMBER--LET FOOD SAFETY BE THE CENTERPIECE OF YOUR HOLIDAY BUFFET

Buffet entertaining is great for the holidays when friends and relatives drop by. But be sure to follow these food safety tips:

Never allow perishable foods to stay out longer than 2 hours.

Keep buffet servings small and replenish the empty serving dishes as needed with food that is hot or cold.

Heated serving dishes should keep cooked food at temperatures of at least 140 degrees F.

NEW OFFICERS OF STATE 4-H AGENTS ASSOCIATION

These six county agents with the Texas Agricultural Extension Service will direct the activities and programs of the Texas Association of Extension 4-H Agents for 1986-87. Left to right are Garza County Extension Agent Colleen England of Post, past president; Borden County Extension Agent Kandy McWhorter of Gail, treasurer; Liberty County Extension Agent Lori Naylor of Liberty, secretary; Gregg County Extension Agent Malcolm Davis of Longview, vice president; Tarrant County Extension Agent Norman McGlohon of Fort Worth, president-elect; and Galveston County Extension Agent Janie Squier of Dickinson, president.

Lynn County plans annual Fall Festival

The 11th annual Lynn County Harvest Festival has been scheduled for Saturday, Sept. 20, with participants from a wide area expected to participate.

The festival, held the past 10 years on the courthouse square in downtown Tahoka, will begin early Saturday morning as organizations begin setting up booths in preparation for the full day of activities.

Lynn County encompasses Tahoka, O'Donnell, New Home and Wilson, but booths can be rented for \$10. on a space available basis to interested parties outside the county area.

A homecoming-Harvest Festival Parade will kick off the weekend events on Friday, Sept. 19 before the Tahoka-Wilson football game.

Co-chairmen for this year's Harvest Festival Committee are Nadine Dunlap and Juanell Jones. The committee will meet every Thursday night at 7:30 p.m. until the week of the Festival.

Parent's Club Meeting

The Borden County Parents Club held their first meeting of the year Tuesday September 2 in the exhibit building.

President Sue Mize brought the meeting to order introducing a charter for the members to sign changing the club's name from Borden Elementary Parent's Club to Borden County Parent's Club.

The scholarship fund was discussed. Cindy Balaque received the clubs scholarship lans year. She is attending Western Texas College.

Room mothers were elected for the classes to organize functions during the school year. Kindergarten- Kim Doss, Regina Rogers and Kelly Merritt

1st-Tricia Rice, and Jean Wolf
2nd-Deidre Smith
3rd-Carla Hensley
4th-Beverly Herring
5th-Sherry Jobe and Sheryl Monger

6th-Judy Jones
7th-Delores Anderson and Nona Woodward
8th-Brenda Kemper and Debra Lusk
9th-Nanette Belew
10th-Sue Lloyd
11th-Sandy Fryar
12th-Terry Smith

All room mothers are asked to please attend the next meeting on September 18th at 2:00 p.m.

The Parents club Carnival plans were discussed. October 25 is the date set for the Carnival. The Fall Festival will be the new name for the Carnival. A Sequicentennial theme will be used.

Sew It With Cotton Contest

The contest judging will be held September 13 at 2:00 p.m. at the Big Spring Mall. he awards will be presented at the style show which will be held at the (Howard County Fair Barn-Ag show arena) September 17th, at 8:00 p.m.

Awards will be presented to first, second, and third place winners in each category of the three divisions. The Divisions are:

1. Adult divisions
 - a. children's clothing
 - b. adult's clothing
2. Senior Division (ages 13-19)
3. Junior Division (ages 9-12)

If less than five entries are received for a category or division, they will be entered in another division or category of comparable age. Any questions or requests for additional information should be directed to Debra Lancaster at (915)353-4441 or Loray Jeffocat 353-4395.

Rules:
1. The complete garment must be made by the seamstress. The material must be aw least 60 percent cotton. An additional bonus point will be given for 100 percent cotton material. Linings, belts, lace, and trims are not considered in the fiber content.

2. Garments entered in this contest cannot be entered in the Howard County Fair.

3. Seamstresses from surrounding counties are eligible to enter.

4. There is a limit of one entry per category.

5. All garments entered must be worn for judging and style show to be eligible for awards.

6. First, second, and third place winners in each category will be determined by a panel of judges. The judges' decisions are final.

7. Contestants's modeling ability will not be judged.

8.. In case of a tie, garments will be re-judged on the model with the entire category reshown.

Each entry must include the fiber content of the materials, the name of store where the material was purchased, and the verification from the salesclerk. Each entry must also include a small swatch of the material one inch wide and two inches long. A complete description of the garment, and the name of the model.

TOMI SUBJECTS FOR SEPTEMBER

Updates on agricultural price trends, prospects for the '87 farm bill, food safety, the cotton situation, cattle on feed, the grain situation, hog and pig

outlook, the dairy picture and the soybean outlook will highlight the TOMI program for September.

"TOMI" is the Telephone Outlook and Market Information program of the Texas Agricultural Extension Service, the Texas

A&M University System.

Information provided by TOMI is designed to help keep agricultural producers updated on commodity markets and other vital information useful in planning and managing their operations.

More detailed information on September topics is available by dialing 409-845-8664 (TOMI), according to this schedule:

Sept. 2 - 4	Agricultural Price Trends - Roland Smith
Sept. 5 - 8	Prospects for '87 Farm Bill - Ron Knutson
Sept. 9 - 11	Food Safety Issues - Dick Edwards
Sept. 12 - 15	Cotton Update - Carl Anderson
Sept. 16 - 18	Cattle on Feed - Ernie Davis
Sept. 19 - 22	Grain Situation & Outlook - Ed Smith
Sept. 23 - 25	Hogs & Pigs - Ernie Davis
Sept. 26 - 29	Dairy Update - Bud Schwart
Sept. 30 - Oct. 2	Soybean Situation - Johnny Feagan

Messages for TOMI are prepared by Extension Service economists, who provide the

latest information available to aid producers in making decisions.

The telephone information system operates seven days a week on a 24-hour basis.

Cut Firewood Now

It's not too early to cut firewood for the coming winter.

Firewood cut now will be dry by the time cold weather rolls around.

It takes as much as a year for split and stacked firewood to reach an 'air dry' condition. This is when 20 percent of the wood's weight is water. However, four to six months storage will dry wood enough for use.

Stacking the wood off the ground, in an open area to allow air circulation. Covering the wood pile to keep off the rain will speed up the drying process.

When cutting firewood, safety should be a primary consideration. A chainsaw is probably the most dangerous piece of equipment most people ever handle. Chainsaws cause more than 30,000 accidents each year, mostly due to operator carelessness.

If buying firewood, be sure you know what you're getting.

First, ask if the wood is green or dry. Then, check on the amount and price. Firewood is often advertised for sale by the cord, but the seller usually means a 'face' cord.

A cord of wood is a stack 4 feet wide by 4 feet high and 8 feet long. A face cord is a stack 4 feet high and 8 feet long, but the

pieces are only 18 to 24 inches long. From the front, or "face," it looks like a cord, but is only one-third to one-half a cord. A pickup load of wood is generally equal to a face cord.

Plan to cut or buy your firewood early, so that it will be ready to burn once the winter season sets in.

County Horseshow

Con't. from Pg. 1

The participants in the 4-H Horse Project this summer competed in three Mock Horse Shows with points counting toward all-around winners at the end of the summer. The High Point winners were PeeWee Monte Cheatham, Junior-Shayne Hess and Senior-Dana Douglass. These winners were given beautiful buckles.

The leaders of the 4-H Horse Project would like to thank Koda County of Snyder for the nice discount given on the purchase of the buckles. Thanks is also given to Lisa Ludecke and Steve Hess for their contributions to the project.

Thanks is also sent to each and every parent, friend and helper that plowed the arena, set up barrels, poles, etc. You are the ones who make the project possible.

Borden County 4-H cowboys and cowgirls participated in the final point night and county horseshow. Back row- Cody Cox, Kristi Stone, Shane Hess, Dana Douglass and Jason Sharp. Front row-Monte Cheatham, Will Cheatham, Grant Key, Kaci Poole, Corey Cox, Jill Voss and Carey Cox.

Livestock Association Annual Meeting

The Annual Membership Meeting of the Borden County Jr. Livestock Association will be Wednesday, September 10, 1986 at 7:30 p.m., at the Vocational Agricultural Classroom at Gail High School.

This meeting is open to anyone interested in the Borden County Jr. Livestock Association. All parents and supporters of Borden County youth are invited and encouraged to attend.

Officers and directors elections will be held, rule change proposals will be considered, financial report will be presented, and plans for the 1987 Jr. Livestock Show will get underway.

This is an open meeting and your assistance and ideas would be welcomed and appreciated.

Looking forward to your attendance.

Team Roping Re-Scheduled

The team roping which was originally scheduled for Labor Day was cancelled due to rain. The roping has been rescheduled for October 4 in the Gail arena.

As previously advertised it will be a 3 head for \$30, progressive, dalley, only. Entries will open at

9:00 a.m. and the first steer will be run at 10:00 a.m.

A concession will be available with barbeque brisket as the special of the day, served straight off the pit.

Contact Rex Cox at 915-856-4415 for more information.

News Needed

Remember-- We want to make this paper an interesting and informative paper, one which will be looked forward to receiving each week. Don't forget, we know nothing until someone tells us, or gives us a lead. If you know of someone who does not receive the Star and would enjoy reading it, let us know. One year subscriptions are only \$8.00 and would make excellent gifts.

ASCS NEWS BY Jerry Stone

1987 WHEAT PROGRAM

The following is just a short rundown of some of the preliminary details of the 1987 wheat program.

1. Bases will be computed from planted and considered planted history from 1982 thru 1986.
2. 1987 yields will be the same as 1986 yields.
3. There is a 27.5 percent reduction from your base.
4. The 50-92 provisions will apply.
5. Limited Cross Compliance will be in effect. This means if you participate in the program on any crop on a farm, other crops planted on that farm cannot exceed their respective base.

6. ACR can be grazed except during the 5 month growing season and no mechanical harvesting will be allowed any time.

DISASTER AFFECTED CROPS

Cotton or grain sorghum that fails due to conditions beyond your control should be reported before you plow up the crop evidence.

ADDITIONAL ADVANCE PAYMENTS

We are in the process of making additional advance payments to participants of the 1986 farm program. These payments will amount to 10 percent of the projected and will bring your total advance up to 50 percent for wheat and feed grains and 40 percent for cotton. If you didn't request an advance back earlier and want it now, let us know. These payments will be made in "generic" commodity certificates unless the payment computes out less than \$100. and then it will be made with a check--less 4.3 percent Gramm-Rudman-Hollings.

SODBUSTER REGULATIONS

Producers who are currently farming land that is classed as highly erodible by SCS will be required to develop and apply a

conservation plan for that farm by 1991 to reduce the excessive erosion. This is applicable if you want to stay eligible for farm program benefits.

USDA EXTENDS COMMENT PERIOD ON HIGHLY ERODIBLE LAND AND WETLAND CONSERVATION PROVISIONS

The closing date for comments on the proposed Highly Erodible Land and Wetland Conservation provisions--commonly referred to as cross-compliance, sodbuster and swampbuster--of the Food Security Act of 1985 has been extended from Aug. 26 to Oct. 25.

These provisions are designed to reduce soil loss due to wind and water erosion, protect the nation's long-term capability to produce food and fiber; reduce sedimentation and improve water quality; assist in preserving the nation's wetlands; and lessen the incentives to produce agricultural commodities on highly erodible farmland.

The comment period was extended because of the complex issues involved in implementation of the new provisions.

Comments should be sent to: Director, Cotton Grains and Rice Division, USDA-ASCS, P.O. Box 2415, Washington, D.C. 20013 and must be received on or before Oct. 27 to be assured of consideration.

Contact: Bruce Merkle 202-447-6787.

ACR MAINTENANCE

We realize that this has been another unusual year. However, one of the ACR requirements is that weeds be controlled. Your farm benefits could be jeopardized if you fail to control weeds.

Listing and discing is not an approved maintenance control practice on set aside acres. Discing is authorized where wheat is being plowed up and stubble will be left on top to control wind erosion. Discing can also be used if you are in the process of planting a small grain.

AERIAL COMPLIANCE

It looks like the plane will be

flying around the second week of September. If you have any adjustments that need to be made, please make them between now and then.

Accent On Health

--Vaccinations Still Needed in Disease Control

Immunizations save U.S. citizens an estimated billion dollars a year in health care costs--more than any other preventive health care practice.

These savings illustrate the remarkable effectiveness and good sense of immunizations, according to Dr. Robert Bernstein, Texas Commissioner of Health. "The widespread use of vaccines in the U.S. has had a tremendous impact on disease prevention. We have seen the number of diphtheria cases reduced from 206,939 cases in 1921 to no cases in 1985, and polio cases have decreased from 21,269 cases in 1952 to none in 1985," Dr. Bernstein said.

He added that our past success in controlling these diseases does not mean that immunizations are unnecessary. "Quite the contrary, if children are not immunized, we risk new epidemics of infectious disease," he said.

In Texas, 1,211 cases of vaccine-preventable disease were reported in 1985. These included: 450 cases of measles, 321 cases of mumps, 52 cases of rubella, 379 cases of pertussis, and nine cases of tetanus.

To help prevent cases of vaccine-preventable disease, Dr. Bernstein advised parents to check family immunization records to be sure they are complete and up-to-date.

"Parents whose children are not immunized should call a doctor or local health department to make arrangements to receive the vaccinations," he said.

In Texas, state law requires immunizations for polio, tetanus, measles, rubella, mumps and diphtheria before children may register in public schools. In addition, the Texas Department of Health and American Academy of Pediatrics recommend pertussis shots for children beginning at two months of age.

ANTELOPE PASSES AID MOVEMENT

By Ricky Linex
Range Conservationist

Net wire or barb wire fences with the lowest barb less than 16 inches above the ground restricts free-ranging antelope. Their hesitation in jumping fences and lacking an area to crawl under can result in antelope being trapped in a pasture.

If antelope are forced to remain in a pasture with one vegetative type, such as a tobosagrass flat, the potential for reproduction and growth is greatly reduced in the herd. The ranch manager should take steps to provide access through these fences for the antelope. Adults will walk or hop over cattle guards to cross into fresh pastures, but fawns have trouble negotiating these passes.

For ranchers who no longer have sheep in their operation an improvement to net wire fencing can be made. A quick and inexpensive adjustment to allow movement of antelope through net wire fences is to fold the bottom of the fence off the ground. In this way, 100 yard distances of net wire can be raised at one-half mile intervals or where antelope are going under now. This only requires pulling staples from the bottom, folding the wire up and restapling the wire to the post. Watergaps in net wire fences can be replaced with barb wire to allow additional passes.

Barb wire fences can be modified as well. Raising the bottom wire a minimum of 16 inches will allow free movement by antelope as well as less frequent repairs by the rancher. An excellent example of new fence construction with consideration for existing antelope trails is shown on Bob Beal's cropland adjacent to the Willow Valley road. During construction Bob raised the bottom barb in 4 places where

antelope tracks indicated active trails.

Antelope in Texas are not migratory but will move about during seasonal food shortages. The strong home-range instinct prevents antelope from permanently leaving an area and they will return when forage conditions improve. Average movement for adult antelope varies from 2 to 6 miles. These movements occur during the change from summer-fall range to winter-spring range and from dry to wet areas.

Ranch managers should consider the yearly movement pattern and try not to restrict antelope to a certain pasture or ranch. Water troughs should be kept full in pastures where antelope frequent even if the pasture is being rested from cattle grazing. A cooperative agreement between neighboring ranches sharing the same antelope herds could provide for free movement of the animals and benefit all parties involved.
