HOUSTON Livestock Show and Rodeo

RALYNN KEY

A 1,179-pound medium weight steer, "Cadillac," took the Reserve Champion award to the surprise of his owner, Ralynn Key, 17 of Gail, Texas. Ralynn is the daughter of Roland and Karen Key and is a member of the Borden County 4-H. With tears in her eyes, Ralynn said her father really helped her pick out a good steer since it was her last year to show.

HOUSTON LIVESTOCK SHOW AND RODEO POSTS HIGHEST GENERAL ATTENDANCE IN SHOW HISTORY

Great weather, an additional number of rodeo performances, new attractions and improved traffic flow combined to draw a record number of spectators to this year's Houston Livestock Show and Rodeo. A general attendance

figure of 1,194, 179 reflects the highest attendance ever recorded in Show history. This figure represents an increase of 7.8 percent over last year's total of 1,107,822.

Total auction sales were \$4,076,986.25, reflecting an 8.5 percent increase over the 1987 total. Of this figure, \$2,235,901.25 was spent in the junior show sales category for commercial steers, market steers, market lambs, market swine and market poultry. This figure represents a 14 percent increase over last year's figure of \$1,962,254.80.

Exhibitors of the five grand champion animals fared extremely well at the junior market auctions and excellent prices were paid for all the animals who made the market sales. Jay Dee Johnson of Elgin, Texas, took home \$85,000 for his grand champion steer while the grand champion lamb brought \$31,000 for exhibitor Sheffield Wise of Brownwood, Texas. Buyers paid Julie Thornberry of Conroe, Texas \$38,000 for her grand champion pen of five broilers while Kyndra Kolodziej of Poth, Texas, received \$31,000 for her grand champion turkey. Brandon

AMANDA ANDERSON

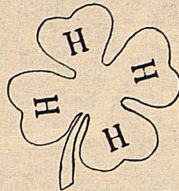

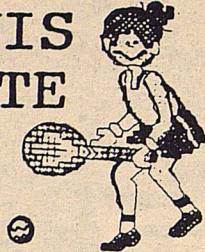

Topping the light weight class was a 1,074-pound Angus exhibited by Amanda Anderson, a Borden County 4-H member from Gail, Texas. Amanda is an eighth grader and a member of Borden County 4-H. She is the daughter of Dolores Anderson of Gail.

Kent of Pottsboro, Texas, was awarded \$30,000 for his grand champion barrow.

Philip Fournier of Bowie, Texas, won the all-around Houston Rodeo cowboy champion award and Charmayne James, an 18-year-old contestant

from Clovis, New Mexico, won the 1988 champion barrel racer award for the fifth consecutive year. A total of 827 cowboys and cowgirls competed for their share of \$336,085 in rodeo prize money.

JR. HIGH TENNIS GIRLS DOMINATE KLONDIKE

4-H
NEWS

Borden traveled to Klondike last Tuesday to meet Klondike girls in a dual tennis match and came away with 10 wins and only one loss. In singles, Amanda won her match easily with an 8-0 pro set win. Kristin Kilmer won her singles match by an 8-1 score. Tina Blacklock played two singles matches and won both easily in identical 8-0, 8-0 scores. In doubles competition, Shara Dee Woodward and Shayne Hess won their first pro set 8-1 and then won their next set 8-2. Kristin Monger and Kelly Jo Ogden played doubles for the first time together and won easily 8-1, 8-0. A'Lise and M'Lys Lloyd also played doubles together and won their first set 6-4 before dropping their second set 2-6. Due to a large number of participants on this year's tennis team, playoffs are now being conducted to determine the six players who will represent Borden at the District Tennis Meet. Borden swept the

district competition last year in girls, winning 1st and 2nd in singles and 1st and 2nd in doubles. Five of the six players return for Borden, with Leslie Fryar, last year's district champion in singles, being forced to sit out the tennis season due to a knee injury. Returning to defend their titles will be Amanda Anderson, Shayne Hess, Shara Dee Woodward, Kristin Kilmer, and Kristin Monger.

All 4-Her's wishing to try out for the Share The Fun Talent Contest or would like to participate in a Method Demonstration or Illustrated Talk at the District 4-H Roundup will meet Tuesday, March 22.

Jr. 4-Her's (3rd. grade or 9 to 13 yrs. old) will meet at 3:45 at the Exhibit Building.

Senior 4-Her's (14 to 19) will meet at approximately 5:30 p.m. or right after One Act Play Practice.

Hope to see you all there.

ELANA HIMES MAKES ALL-REGIONAL TEAM

In a recent meeting of the TABC Board of Directors and the All-State committee made up of coaches from around the state, Elana Himes, a Junior at Borden County High School, was selected to the fifteen member unit. The squad was dominated by usual high school powers Nazareth and Sudan, who have claimed 11 of the last 12 state champion-

ships between the two of them. Nazareth claimed this year's state championships with a 64-28 win over LaPoynor in the state finals. They placed three members on the team and Sudan, who defeated Borden in the sub-regional game, placed two members. Below is a list of the Region I all regional team with their school and classification.

NAME	SCHOOL	CLASS
Rachel Huseman	Nazareth	Senior
Traci Hill	Nazareth	Senior

TREATING MINOR SPORTS INJURIES

There's something about the warm spring air and sunny Texas skies this time of year that brings out sports enthusiasts. The Texas Medical Association knows that this zest for exercise can result in many minor injuries. Knowing how to treat these injuries will ease your pain and hasten the healing process, says TMA.

Pulled muscles, sprains, and strains are the most common recreational sports injuries. They happen most often when the athlete tries to do too much too soon. Pulled muscles occur when the muscle is over-stretched and some of the fibers tear. Recovery usually is quick, although the muscle is painful in the meantime.

Sprains occur in joint areas such as the knee, ankle, and wrist. Ligaments, the tissues that connect neighboring bones and keep the joint in place, are torn. When you sprain a ligament, it is painful to use that joint, and there may be swelling

and skin discoloration. When tendons are stretched or torn, it is called a strain. Tendons are the tissues that connect muscles to bones and other tissue.

The key to treating these injuries is to act fast. Apply ice to the injured area as soon as possible. Ice dulls the pain and reduces swelling because it reduces blood flow. Do not put ice on an open wound. First, wrap the wound with a bandage or towel to apply pressure and then apply ice.

After the first 48 hours, or once swelling has subsided, use heat to help relieve the pain. It will relax your muscles, reduce joint stiffness, and speed healing.

Do not apply ice or heat to any injury for more than 20 minutes at a time. Excessive exposure to ice or heat can damage the skin and nerves.

Of course, if the injury is severe, or if it does not heal, see your doctor for further treatment.

TEXAS LEGISLATURE

PASSES ATV

REGULATION LAW

DIAMOND

SHAMROCK

SPONSORS MDA

FUNDRAISER

ATVs, especially popular among children and teenagers, have recently come under attack from concerned parents and safety experts. After a two-year study in response to the large number of riders and passengers who have been injured or killed, the U.S. Consumer Product Safety Commission has banned the sale of three-wheel ATVs. In 1986, three-wheeled ATV sales share dropped to 18 percent yet accounted for 70 percent of ATV-related deaths. Four-wheel ATVs are still on the market but are required to carry warning labels.

Wearing an approved safety helmet can greatly decrease the likelihood of serious injuries if an accident should occur. Linda Lloyd, Director of the Injury Control Program at the Texas Department of Health stated that nearly three out of every four persons killed in an ATV mishap suffer a devastating head injury. Not surprisingly, only 20 percent of ATV riders do wear safety helmets while operating an ATV.

Exercise extreme caution when operating an ATV. While it may look like a large motorized toy, operating an ATV is not child's play.

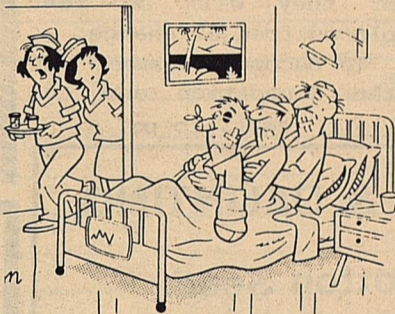

If you plan on operating your all terrain vehicle (ATV) on public property take note: effective January 1, 1988, a new state law went into effect which requires any ATV operated on public property to be registered with the state and have attached to it a current numbered decal stating so. In addition, anyone operating an ATV has to have completed a safety training course as approved by the Texas Parks and Wildlife Department, carry proof of completed certification, and must also wear a safety helmet. This recent regulation has come about as a result of increasing public awareness of the dangers inherent in ATVs.

As of September 21, 1987, a total of 883 deaths and 86,400 injuries were attributed to ATV accidents since 1982. Twenty eight of the deaths occurred in Texas. What is especially alarming about these statistics is that more than half the accidents involve children under 16 years of age. To address this situation, the law also requires all children under the age of 14 to be under the direct supervision of a parent or authorized guardian.

Diamond Shamrock Chairman and CEO Roger Hemminghaus says, "Due to the enthusiastic response from our retail employees and the excellent results of our 1987 "Shamrocks Against Dystrophy" campaign that resulted in total donations of \$47,430, we are again happy to assist the MDA in its quest to conquer muscular dystrophy.

For the second consecutive year, Diamond Shamrock is participating in the Muscular Dystrophy Association's "Shamrocks Against Dystrophy" fundraising campaign Feb. 29-March 17.

Employees at about 750 Diamond Shamrock stores primarily in Texas, Colorado, New Mexico, Louisiana, and Oklahoma will invite customers to buy shamrocks for \$1 each.

OBITUARY

George Billeck

Leakey - Services for George Billeck, 64, of Leakey was held Sunday, March 13, 1988 at 3:00 p.m. at the Church of Christ in Leakey, Texas with the Minister-Pastor Joe Barker officiating.

Burial was in Capitol Memorial Gardens in Pflugerville, Texas Monday, March 14, at 2:00 under the direction of Nelson Funeral Home.

He died suddenly on March 10, 1988 in route to Kerville.

He was born in Weimar, Texas, August 5, 1923.

He is survived by his wife Deda, two daughters Brenda Grist of Kismet, Kansas and Cheron Singleton of Edmon, Oklahoma; one son, Charles Billeck of Hobbs, New Mexico; his mother, Tillie Billeck; one sister, Myrtle Litte of Barton Rouge, Louisiana; and six grandchildren.

The Billecks had

resided in Borden County for twelve years before moving to Skellytown, and then to Leakey where he had lived for the past four years.

PREPARING FOR EASTER PRESENTATION

Preparation has begun for the annual Easter presentation by the First Baptist Church Lubbock, Sanctuary Choir and drama cast to be presented April 1-3, cut Sanctuary Choir and drama cast to be presented April 1-3, 1988 in the sanctuary at 2201 Broadway, Lubbock.

The all-volunteer crew has begun building the set that will transform the choir loft of the church into a market street in Jerusalem during the last days of Jesus' life on earth. Costumes are also being prepared to make this presentation as authentic as possible. The choir and drama cast have begun preparing the music and drama presentation that will tell the story of Jesus' walk down the Via Dolorosa; His love for the people around Him; His death on the cross; and His glorious resurrection.

Mr. John B. Lee, Mini-

ster of Music at First Baptist, has arranged this musical/drama presentation which will tell of Jesus' death on the cruel cross and of His resurrection on the third day.

FREE WHITE DOGWOODS

Ten free white flowering dogwood trees will be given to each person who joins The National Arbor Day Foundation during March, 1988.

The free trees are part of the nonprofit Foundation's efforts to encourage tree planting throughout America.

"The White Flowering Dogwoods will add year-round beauty to your home and neighborhood," John Rosenow, the Foundation's executive director, said. "Dogwoods have showy spring flowers, scarlet autumn foliage, and red berries which attract songbirds all winter."

The trees will be shipped postpaid at the right time for planting between March 1 and May 31 with enclosed planting instructions. The six to twelve inch trees are guaranteed to grow or they will be replaced free of charge.

BIG SPRING, TEXAS

HOUSTON, TEXAS...Superintendent Willie Tallant (LEFT) and Field Engineer Larry Bryant (Right) are busy preparing Tidal Wave, AstroWorld's newest water ride, for the theme park's scheduled March 19th opening. When completed, Tidal Wave will send guests through a series of twisting, splashing turns before sending them over a 65-foot waterfall, plunging into a 20-foot wall of water! Tidal Wave is currently under construction in AstroWorld's Plaza de Fiesta section.

TIDAL WAVE TO HIT HOUSTON

Tidal Wave will be as popular as Thunder River and the Bamboo Shoot are," Stressed Holland, "since it is a ride the whole family can enjoy together."

AstroWorld will be open weekends March 19 through May 29 and during Spring Break Week March 28-April 1. Adult one-day tickets are \$16.95. In celebration of 20 years of family fun AstroWorld is introducing a child's ticket. One-day tickets for children under 48 inches are \$12.95. For more information, call 799-8404. AstroWorld is located off Loop 610 at the Fannin exit.

Tidal waves don't hit Texas very often, but when guests visit Astro-

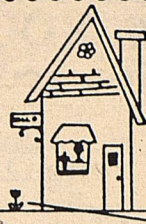

World this spring, during the park's 20th Anniversary, they will get to experience their first Tidal Wave, AstroWorld's newest and wettest ride.

Tidal Wave is currently under construction at the Houston-based Six Flags theme park in the Plaza de Fiesta section. When completed in early spring, the ride will carry guests in 16-passenger boats through a series of twisting, splashing turns before sending them over a 65-foot waterfall, plunging into a 20-foot wall of water.

"It may seem chilly now to think about splashing into 330,000 gallons of cool, refres-

hing water as Tidal Wave does," said AstroWorld President Del Holland, "but we know guests will enjoy the ride during Houston's warmer months."

"Water rides are definitely park favorites, continued Holland, "which works out well for AstroWorld, since we set the industry standard for one of the most popular water rides--Thunder River. AstroWorld was the first park in the Six Flags system to design and install the river rapids ride. We are optimistic that

NATIONAL AGRICULTURE DAY

National Agriculture Day will be observed March 20, which officially ushers in the 1988 spring season. Agriculture Week is scheduled March 20-26, with the theme of "Honoring America's Providers."

This is a good time to recognize the people, organizations and businesses responsible for producing the good food and high quality fiber we enjoy each day as we set down to eat or dress to go out.

As a result of agriculture many jobs and payrolls keep the wheels of our economy turning. These jobs include production, storage, processing

plants, transportation, offices, wholesalers, retailers, and supermarkets needed to move food and fiber from farm or ranch to consumer. 25% of the state's retail trade business is directly associated with the selling of food and fiber products.

Presently, the average American spends about 15% of his income on food. Today's spending for food in China amounts to 52% of income, 36% in Korea, and 32% in Mexico.

One U.S. farm worker today supplies enough food fiber for 80 people, 21 of whom live abroad.

We SALUTE YOU!

ROYALE (R. D.) LEWIS

Candidate for

Sheriff - Tax Assessor and Collector

Borden County, Texas

Your Vote and Influence Will Be Appreciated

WHEAT LEAF RUST THREAT

COLLEGE STATION---The threat of wheat leaf rust is not as great this season as it has been for the past several years.

Disease incidence in South and Central Texas is considerably less than it was one year ago. This does not mean, however, that no threat exists. Growers should be aware that the organism is present and that future conditions may be ideal for rapid development.

Factors that may explain why wheat leaf rust is less threatening this season, include less wheat acreage planted in south and Central Texas, more varieties being planted as opposed to one predominant variety, more slow-rusting varieties being used, and rather dry weather conditions.

Producers should watch their fields for increases in wheat leaf occurrence. There's still plenty of time for an epidemic to develop if weather conditions favor such an event.

There may be more reason for some producers to use fungicides this year than in the past.

Wheat prices have increased and another highly effective fungicide is on the market. Chemical control will not likely pay for everyone, but it may pay handsomely in many situations.

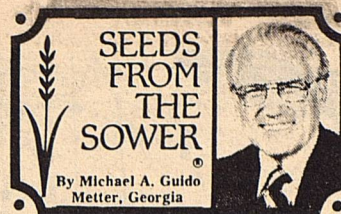

Growers considering use of a fungicide should make sure that they have a 40-bushel yield potential and that leaf rust represents a serious limiting production factor. They also should be sure

that they have a wheat variety that will respond to fungicide use. Slow rusting varieties, such as Sturdy, are not as likely to give favorable returns as non-slow rusting varieties, such as NK-812.

When one determines that fungicides will pay, make sure that timely applications are made properly according to the product label.

The object is to protect the flag-leaf (the last leaf produced and located just below the head) and insure its full function until grain filling is completed. It also is recommended that the labeled rate of fungicide be used in five gallons of water per acre by air. Growers who use ground application equipment should apply 20 to 25 gallons of water per acre.

Producers should watch their wheat fields closely from now until heading time to determine the potential for leaf rust damage. Fungicides are available if yield levels warrant and potential disease

A man stopped for a red light at a downtown intersection. The car ahead of him had a bumper sticker that read, "Honk if you love Jesus." He got the message and happily honked his horn.

The driver of the car with the sign stuck out his head and yelled, "What's the matter, ya fool? Are you blind? Can't you see the light's red?"

There are many who say one thing with their signs but say another thing with their speech. They profess one thing with their lips but practice another thing with their lives.

It's not good to advertise unless you can deliver the goods. Either be what you seem to be, or else be what you are.

Are you all that you ought to be?

Scripture Corner

"Remember your Creator in the days of your youth, before the days of trouble come, and the years approach when you will say, "I find no pleasure in them" - before the Sun and the Light and the Moon and Stars grow dark, ... then man goes to his eternal home and mourners go about the streets

Remember Him - before the silver cord is severed, or the golden bowl is broken; ... and the dust returns to the ground it came from..."

Ecclesiastes
12:1-2a, 5d, -6, 7a
