our HERITAGE

The Human Side of War

It has been 125 years since the fate of America was decided on two battlefields. Near Gettysburg, Pennsylvania two great armies met on a field of battle in July, 1863. Simultaneously, across the country, the siege of Vicksburg was coming to a close as battered and starving defenders made ready to surrender the Confederacy's major fortress on the Mississippi River.

In the years since, thousands of books have been written about the War Between the States or Civil War. Americans are endlessly fascinated with those dramatic days. Even this year, the latest history of the war has spend weeks on the best seller lists.

There was more to the war than the grand strategies of the generals. There was a human side of the war at the private's level. Although it was a time of heated emotions and animosities, these "unofficial" meetings of the troops were often quite friendly.

One of the key reasons for this diplomacy between privates was trade. Because of the blockade of Southern ports, Confederates found coffee to be almost unobtainable. On

the other side of the line, Union troops desired tobacco, most of which was grown in the Southern states. A flourishing commerce soon developed to the benefit of privates wearing both the blue and the gray.

When the armies were separated by the Rappahannock River near Fredericksburg, Virginia great ingenuity was used to continue the barter. Small boats, a foot or two in length, were constructed and sailed across the river. On the Northern shore, Billy Yank would load his craft with a sack of coffee and sent it into the stream. Johnny Reb on the other shore would receive the cargo, reload the tiny boat with tobacco and push it back into the stream.

Newspapers were also swapped so each side could read how the "enemy's" reporters were covering the battles.

Opposing bands alternated concerts which could be heard by both armies. The night before the battle of Murfreesboro, Tennessee, Confederates listened contentedly to a Union band play such Northern favorites as "Yankee Doodle." The Southerners

COYOTE BAND WINS 2ND PLACE TROPHY

THE COYOTE BAND MAJOR'S Kristi Adcock and Amy Lewis, with 2nd. Place Trophy

The Coyote Band attended the 4th Annual Klondike Marching Band Invitational. The Coyote Band received 2nd place in the contest

Each band was critiqued for 45 minutes and then did the show for a rating.

The final results were:

- 1st. Loop
- 2nd. Borden County
- 3rd. Klondike
- 4th. Tahoka

TWO VOTES FOR 69th LEGISLATURE SEAT

One To Decide End Of 1988 Term

The naming of new state representative for the 69th District will prompt two separate ballots on November 8th.

One ballot will be the General Election ballot and it will have the 69th District Legislative race thereon to fill the post effective January 1st. The second ballot, for the Special Election called last week by Governor Bill Clements, will fill the legislative post for the remainder of this year.

Candidates for the special election had to file by October 10th and the winner will get to serve until December 31.

At that time, this winner will be replaced by one of the two leg-

ally declared candidates whose names will appear on the regular November 8 ballot - either Johnnie Lou Avery, Democratic Party Candidate or Troy Fraser, Republican Party Candidate, both residents of Big Spring. Counties represented by the 69th District include Borden, Howard, Glasscock, Reagan, Upton, Crane, Winkler, Ward, Reeves, Loving, Culberson, Hudspeth and Jeff Davis.

Assistant Secretary of State Randall Erben explained that Clements required to call the special election since Larry Don Shaw "abandoned or resigned as a matter of law" the post.

The governor has called some eight

special elections since being in office, the main difference in the November 8 ballot being that it "happened to fall on the same date as the General Election.

The 78th Legislative District, that is East of Borden County is also involved in a "Special Election." Steve Carriker was elected State Senator in another "Special Election" in August and his replacement for the remainder of the year will be named Nov. 8 as well as the one to take office January 1st. The Counties in the 78th District are Scurry, Cottle, Fisher, Garza, Jones, Kent, King, Knox, Lynn, Nolan, Stonewall and portion of Taylor County.

JR. HIGH COYOTES BURN SANDS

The Borden County Jr. High Coyotes opened their 1988 season Sept. 29 against the Sands Mustangs.

The Coyotes won 39-20 in an impressive offensive and defensive performance. Shannon Smithie opened the Coyotes scoring with a pass from Klint Kemper. The same combination was used on the PAT. John Paul Harris scored next on a run behind some good blocks by the Coyotes. The PAT failed and the score at half-time was 13-0. In the second half the Coyotes exploded for 4 touchdowns. John Paul Harris started the scoring on a good run. Clay Miller caught a pass from Klint Kemper to make a successful PAT. Shannon Smithie

scored again, but this time on a run. J.J. Kincheloe caught a pass from Klint Kemper for the PAT. Brandon Adcock scored on a good run, but the PAT failed. Shannon Smithie scored again as the Mustangs tried an on-side kick, and Shannon picked up the ball and raced into the endzone.

The Coyotes played a very aggressive defense as they held the Mustangs scoreless with the starters. Everyone played and had a great time. Other Coyotes who played were Clint Anderson, Clint Wills, Armando Carrizales, Kirk Jones, Guy Zant, Andy Adams, Ross Hataway, Jeremy Mize, Richard Buchanan, Cody Cox, Jim Evans, and Seth Vestal.

COYOTES DEHORN LONGHORNS 31-13

The Jr. High Coyotes scored the second victory in 2 games last Thursday at Loop. The defense held the Longhorn offense at bay all of the game. In the first quarter Shannon Smithie rushed to block a punt. John

Paul Harris quickly converted the blocked punt into a score as he raced 10 yards on the play to paydirt. Klint Kemper passed to Shannon for the PAT. Again in the first quarter, John Paul scored on a 1 yard run. The PAT failed.

In the second quarter John Paul recovered a fumble. Next he raced 28 yards on a punt return. The PAT failed.

In the third quarter, Klint Kemper passed 38 yards to Shannon Smithie for the touchdown. The PAT failed.

Brandon Adcock ended the Coyotes scoring in the fourth quarter on a 35 yard run, the PAT failed.

Everyone played and had hundreds of stories after the game.

The other Coyotes playing were: Armando Carrizales, Clint Wills, Clint Anderson, Guy Zant, Clay Miller, Kirk Jones, Andy Adams, Ross Hataway, Jeremy Mize, Richard Buchanan, Cody Cox, Jim Evans, and Seth Vestal.

The Coyotes will host the Klondike Cougars this Thursday night at 6:00 p.m.

COYOTES OPEN DISTRICT PLAY

The Borden County Coyotes opened district play with a tough loss to the Loop Longhorns 34-22. The Coyotes played a very tough game, but two big plays doomed them. Loop's first play resulted in a 54 yard touchdown run. The other big play occurred after the Coyotes scored to close the late third quarter score to 14-22. Following a dead ball personal foul assessed on Loop on the kickoff, the Longhorns returned the kick 80 yards for another quick score.

Chris Kilmer scored two of the Coyotes touchdowns on runs of 7 and 2 yards. Marc Latimer scored the other touchdown on a 21 yard pass from Brian Bond. Randell Hollis kicked two PAT'S.

Jimmy Rios, who is coming off an ankle and wrist injury, led the Coyotes rushing with 101 yards on 14 carries. He picked up 51 yards on one carry, after Brian Bond recovered a Loop fumble on the 3 yardline.

Marc Latimer rushed for 52 yards on 6 carries. Lance Latimer rushed for 46 yards on 3 carries. Chris Kilmer had 20 yards on 8 carries.

The Coyotes's defense was also led by Jimmy Rios, who had 22 assisted tackles, 2 unassisted, and a blocked PAT. Lance Latimer also had a good defensive game with 13 assisted, 3 unassisted, and 1 interception. Marc Latimer played a good defensive game also as he made 12 assisted and 4 unassisted tackles. Brian Bond, made 7 assisted and 2 unassisted, caused a fumble, and recovered a fumble. Chris Kilmer made 5 assisted tackles, 3 unassisted tackles, and 1 interception. Paul Sturdivant made 8 assisted tackles, and 1 unassisted touchdown saving tackle. Cole Vestal made 5 assisted and 1 unassisted tackles. Randell Hollis made 4 assisted and 1 unassisted tackles. Cody Cooley made 2 assisted tackles.

The Coyotes showed a lot of improvement

after coming off 3 games in which they did not play well in the second half. The Coyotes rushed for 215 yards and passed for 101. These are the best totals that we've had in several games.

The Coyotes had another play that turned against them when the officials ruled a touchback on a punt into the endzone. The punt was fielded by a Longhorn who tried to run away from the Coyote Marc Latimer. Marc tackled the ball carrier after he had run laterally for six steps. The official ruled that the ball carrier had not moved forward so therefore the play resulted in Loop getting the ball on their 20. With a safety the Coyotes would have scored 2 points and would have received the ball after a free kick by Loop.

The Coyotes will travel to Klondike this Friday night. The Cougars are playing well so the Coyotes will have another tough game.

Delta Plane Crash Claims 14 Lives

Thirteen people were killed on August 31 when Delta flight 1141 crashed on takeoff just beyond the runway at DFW airport. Sunday claimed the life of the fourteenth victim.

This story splashed the headlines across the country and grabbed people's attention for

days. Another plane crash. A story such as this instills tremendous fear in some people to ever travel by plane again. It is tragic, there's no doubt. But, there are days when fourteen or more people are killed on Texas roadways, yet the events pass almost without notice.

TO THE VOTERS OF SCURRY AND BORDEN COUNTIES OF TEXAS:

This district needs conservative, competent and conscientious officials in our local governmental positions.

National and state-wide campaigns primarily rely upon publicity in identifying the more qualified candidates.

Rarely do these candidates come to your home and solicit your vote; however, often you vote for the politician who came to your home or business and asked for your

vote without regard to the qualifications and experience of the candidate.

Many of you never know who the most qualified candidate is to vote for in state-wide judicial races; you merely guess or mark your ballot because of name recognition or place on the ballot. Often you are embarrassed after an unqualified candidate is elected who takes office; and, you generally must suffer for four years before correcting your mistake.

Please support Pete

Greene, along with his wife, Donna and six-year-old daughter, Erin, in his campaign for 132nd District Judge. Pete is a life-long resident of Scurry County, Texas, a practicing attorney, a stock/farmer and businessman.

He attended Texas Tech University and is a 1968 graduate of Baylor Law School and served in the United States Army.

He was appointed as 132nd District Attorney in February, 1971, at the age of 25, a position he served you in for almost 14 years.

Traffic accidents and fatalities have become so commonplace that they are seen as the price you pay to play. But driving is no game. The fact that people are killed everyday proves it.

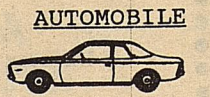

Texas should not become complacent with accidents and deaths on the roads we travel.

And remember, safe driving Pro-Tex-Us.

The Human Side of War

Cont. from pg. 1
 yelled to the band to "play some of ours" and were rewarded with the sounds of "Dixie" and "The Bonny Blue Flag."

This friendly serenade happened on several battlefields. The evening concerts often ended with an band playing "Home, Sweet Home." At first a few, then scores and finally hundreds of voices from both sides joined together to sing the wistful ballad. At song's end, silence would cover both camps as men brushed the tears away and returned to their tents. In the morning, the same soldiers would be fighting for their lives. But for a few moments at least, their minds and their hearts were united.

An old lady said to a stranger, "If you're going to give me a pitcher of milk, don't skim it first."

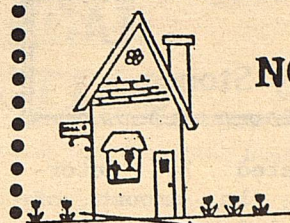

What she meant was: If you're going to do a favor, don't spoil it by an ungracious word or deed.

Some people give, but they give grudgingly. They do you a favor, but they never let you forget it. They want you to look up to them for help, but they look down on you when they help you. But a person who looks up to God never looks down on man.

Don't expect to enjoy life if you keep the milk of kindness all bottled up. And if you're going to serve someone, don't skim the sweetness from service.

The Bible says, "Whatsoever you do, do it heartily, as unto the Lord."

NOTES FROM HOME

By Debra Pollard

Home Demonstration/CEA

WHY WASHABLES ARE LABELED DRY CLEAN ONLY

When a plain, untrimmed cotton blouse or a polyester garment are labeled "dry clean only," it seems to defy common sense. Most consumers are well-aware that these are washable items.

But there is a reason for this direction. Federal Trade Commission laws require that manufacturers provide care labels after testing which care procedures are safe for the garment. But they only need to give one method, even if others are safe.

As a result, many manufacturers choose the safest method, which is usually dry-cleaning, to put on the clothing label. This protects them against complaints and legal claims.

So what's the consumer to do? To avoid large drycleaning bills, you have to use your judgment. If the item is expensive, take it to your drycleaner and ask for advice. The cleaner may want to try wetcleaning, depending on the garment and the type of soil and stains, or you may need to protect your investment by having it drycleaned each time.

If it's an everyday cotton, synthetic or blended garment, you may want to wash it using standard procedures for those fabrics. Or you could have it drycleaned when it's new and then switch to washing the garment as it gets older and you're less concerned about possible damage.

EXTENSION SERVICE TO CONDUCT WORKSHOP ON FUTURES, OPTIONS

Livestock Marketing

West Texas livestock producers interested in exploring new marketing alternatives will have an opportunity to learn about "futures" and "options" at a special workshop in Gail (Borden County) next Feb. 21-22.

Conducted by the Texas Agricultural Extension Service, the workshop at Borden High School will provide in-depth information on how livestock producers can use futures and options in their marketing scheme.

Instructors will be Dr. Ernest Davis, livestock marketing economist with the Extension Service, and Janice Clark Extension assistant in livestock marketing.

The first session of the two-day workshop will feature discussions on factors affecting cattle prices, sources of market information, pricing and marketing strategies, hedging

mechanics and localizing futures.

Focus of the second day's session will be agricultural options, including options decisions as they relate to livestock marketing.

Producers interested in attending the workshop are asked to immediately contact Borden County Extension Agent Dennis Poole at 915-856-4336 or Scurry County Extension Agent Marvin Ensor at 915-573-5423 for registration information.

Because of the in-depth nature of the workshop, various study materials will be sent to registrants for their review prior to the actual program. These self-study guides are designed to give workshop participants a general understanding of the terminology used with futures and options marketing and some of the basic relationships in working with brokers and lenders.

1988 DISASTER ASSISTANCE PROGRAM

Emergency crop loss assistance is a major part of the multi-billion dollar package of federal aid made available by the Disaster Assistance Act of 1988.

The program provides for payments for losses in excess of 35% of production of specialized crops.

Highlights of the program are:

--Disaster payments will be available to eligible producers on losses which are greater than 35% of normal production. For wheat, feed grains, and cotton minimum yields have been established and, if production is equal to or less than this yield, any crop production will be considered zero.

--Eligible producers with crop losses greater than 65% must agree to purchase multiperil crop insurance under the Federal Crop Insurance Act for the 1989 crop for which disaster payments are made. This requirement may be waived by the County Agricultural Stabilization Committee under certain conditions.

--The total amount of payment and benefits a person may receive for combined crop and livestock emergency losses in 1988 may not exceed \$100,000. Emergency livestock program benefits may not exceed \$50,000 in any calendar year.

--Disaster applications for crop losses must be filed no later than March 31, 1989 at the county Agricultural Stabilization and Conservation Service office, together with crop acreage reports and acceptable crop production evidence.

--Payments will be

calculated by determining the amount of loss below 65% of normal production and multiplying the eligible loss by the applicable disaster payment rate.

--There are two payment levels: 90% of the payment rate for losses in excess of 75% of normal production and 65% of the payment rate for losses between 35 and 75% of normal production.

--For computing payments the target price will be used for producers of wheat, feed grains, and upland cotton who are participating in the 1988 program and for producers who are not in these programs, the county loan rate will be used.

Eligibility for participation in all programs administered by ASCS is established under law without regard to race, color, religion, age, sex, handicap, or national origin.

The basis for payment yield are:

--For wheat, feed grains, and upland cotton, the ASCS farm program payment yield.

--For other eligible crops, proven yields

based on actual production from the three previous years with the established county yield being used for any year that actual production evidence may be missing.

Participants in the annual programs for wheat, feed grain, and upland cotton will be allowed to retain advance deficiency payments for crop losses up to 35% of their normal production.

NOTICE TO PRODUCERS

The Disaster Assistance Act of 1988 (the Act) reopened the opportunity for requesting advance 1988 deficiency payments for program crops (wheat, corn, grain sorghum, barley, oats, and upland cotton). Under the Act, producers who previously did not request these payments have until October 27, 1988 to request the advance payment. Payments are computed by multiplying the planted acreage of the crop, times the farm program payment yield, times the producer's share, times 40% of a projected deficiency payment rate.

Because this rate was projected before the drought, it is possible that the final payment rates determined for the crops will be less than the advance rate. If this occurs, pro-

ducers who have suffered a loss because of a 1988 disaster will not have to refund any advance payment, with respect to the smaller of the loss or 35% of the total expected farm production. Producers who receive disaster payments under the Act for a portion of the crop will be required to refund the advance deficiency payment for that portion of the crop.

The Act also permits producers to choose between designating an acreage as prevented planting for the purpose of qualifying for a 1988 disaster payment or as conserving uses (CU) for payment under the 0/92 programs. This choice must also be recorded at the county office by October 27, 1988. The acreage for prevented planting credit cannot exceed the intended planted acreage minus the acreage actually planted in 1988.

It is important that you take action by contacting this office by October 27, 1988 in order (1) to receive an advance payment for which repayment may be forgiven if you qualify for a disaster payment or (2) choosing to use the prevented planting provision to possibly qualify disaster payment.

Moonstruck

The next full moon might cause some strange goings on. But if you're daring enough to brave the werewolves, you might try planting a garden. National Wildlife magazine reports that many vegetables, particularly tomatoes, corn, and sweet peas, grow better when planted under a full moon.

SECOND ANNUAL PRODUCTION SALE
MONDAY, OCTOBER 17, 1988, AT 1:00 p.m.

Producers Livestock Auction
San Angelo, Texas

FEATURING:

- 17 - 2 year old Registered Bulls
- 60 - 2 year old Commercial Heifers
- 22 - 1 year old Registered Heifers

Use
ANGUS Bulls
for more efficiency,
more profit.

Solid, practical research proves Angus bulls produce more calves in shorter time with less labor:
Fewer calving problems
More calves weaned from your cow herd
Strong feeder and packer demand
No horn problems
