100 MILE CARVAN TO AL DENSON CONCERT

by Susan S. Stephens, Youth Director
First Baptist Church, Gail, Texas

Borden County, Texas isn't exactly a place where thousands and thousands of teenagers live. Not even hundreds and hundreds. In fact, there are only 96 teenagers residing in this West Texas farming ranching county.

In an area where driving 30 miles to shop (besides the Coyote Country Store) is considered normal, 100 miles to a Christian music concert doesn't make kids from Borden County bat an eye-especially if it's to see Al Denson!

First discovered by Borden kids at a conference in Lubbock in 1986, Al Denson and his "Stand Up" tape became a local favorite. Soon, naturally, the name of Al Denson became a household word. They watched him on TV, hummed his tunes and loaned their tapes to unbelieving peers to spread the good news of a life with Jesus Christ.

When word came about the September 10th Al Denson "Stand Up" Rally in Levelland, the kids were ready to go! Piling into the Suburban, the gang set off.

All the Borden Kids participated in the fun and excitement of the concert, but on the long 100 mile return trip home that night, as the red Suburban ate up the miles, they shared the spiritual feelings awakened that evening. Julie said, "It's so easy to fall back and get off the path.

Things like this rally and seeing other kids that are following Jesus always helps me and makes me feel that I can do it too!" Lisha shared, "The rally made me realize that living with out the Lord, a person can have fun, but it's gonna end some day. Living with the love of the Lord, the fun a person can have is everlasting." Julie, a cheerleader, loves Al's positive musical message. Elvira, a senior, loved the way Al praised God and felt he was one of the kids in the audience.

Of all the songs Al sang, one in particular pricked the ears and heart of 16 year old Kristi. "Walking On Thin Ice" led me to give to the Lord some areas of my life I hadn't yet let Him take control of," she offered. Tracy, a junior and a new Christian, said that the rally helped her to "learn to pray and ask Him to help me." Brandon felt closer to the Lord after the Stand Up Rally.

So the Christian kids from Borden County returned home that night with another stack of Al Denson tapes plus a renewed and deeper commitment to Jesus Christ! When are you coming back, Al?

This article appeared in the Al Densons' "Celebration Minute" a newspaper networking with Youth Ministries Across America.

New attorney joins Snyder law practice

DANA COOLEY
...new attorney...

Dana Cooley was a schoolteacher who couldn't forget that what she had really always wanted to do was

become a lawyer.

The Big Spring native grew up in Borden County, graduated from high school there and earned a bachelor's degree in education at Abilene Christian University before teaching kindergarten in Monahans for a year and home economics for four years at Borden High School.

"I just couldn't forget that I'd like to be an attorney, and we made the decision to go for it," Cooley said this week.

She received her oath for admittance to the State Bar last Monday in Austin. In Snyder,

she will be an associate with the Rosser & Armstrong law firm.

She gained admittance to the Texas Tech University Law School and commuted from Tahoka while her husband Ted drove daily to his Borden County job as a hunting lease manager, hunting guide and bird dog trainer for Fina Oil & Chemical.

Cooley, whose maiden name was Westbrook, is from a ranching family. Her husband's family farms.

The couple has moved to 2708 48th St. in Snyder. They have a 4 year old daughter, Erin.

LOCAL ACS

VOLUNTEER

With help from local volunteers, the American Cancer Society continues its efforts to serve West Texas communities.

In Gail, Carolyn Stone works as an American Cancer Society volunteer coordinating deliveries from Permian Medical of Odessa. In some instances, the ACS has arranged for medical equipment and supplies to be donated by Permian Medical due to the patient's financial need.

According to Marcy Tull, ACS District Executive Director, "Volunteers help the American Cancer Society accomplish so much. We are fortunate to have such an excellent working relationship with Permian Medical.

FFA NEWS

Buddy Wallace,
Vo. Ag. Teacher

The Gail FFA Leadership teams have been very active this month by being involved in their district and area contests.

Several of the FFA students participated in the various contests and placed well in each event.

There were 6 teams from the Gail FFA Chapter who travelled to the District contest at Snyder on Nov. 8. They are listed as follows:

RADIO

Cody Stone
Lance Latimer
Marc Latimer
James Lewis - Alternate

JUNIOR SKILLS

Kristin Kilmer
Patsy Underwood
A'Lise Lloyd

SENIOR SKILLS

James Smith
Jon Herring
Jeff Lewis

SR. CHAPTER CONDUCTING

Cody Stone
Randell Hollis
Brian Bond
Eric Lusk
Paul Sturdivant
Cole Vestel

Patrick Herridge
Shane Kemper

JR. CHAPTER CONDUCTING

David Buchanan
Amanda Anderson
Kelly Jo Ogden
Shayne Hess
Juve Balaque
Billy Howard
M'Lys Lloyd

EXTEMPERANEOUS SPEAKER

D'Lyn Lloyd

The Creed Speaker placed 3rd at district, the Junior Chapter conducting team placed 2nd.

The Junior Skills team placed 1st and advanced to Area level competition.

The Extemporeous speaker placed 1st. and advanced to Area.

The Radio Team placed 2nd. and advanced to Area.

The Senior Chapter conducting team placed 3rd.

The Senior Skills team placed 3rd.

The Area advancing teams traveled to the Area contest which was held this past Saturday at Howard College. The top teams in the Area were present therefore the competition was stiffened.

The Junior Skills team consisting of Kristen Kilmer, A'Lys Lloyd, and Patsy Underwood placed second out of the top seven teams in the Area.

EXTEMPERANEOUS SPEAKER
D'Lyn Lloyd

D'Lyn Lloyd who was the Extemporeous speaker placed 3rd from a field of the top 10 speakers in the area.

The Radio Team Consisting of Cody Stone, Marc Latimer, and Lance Latimer placed Seventh out of the top 12 area teams.

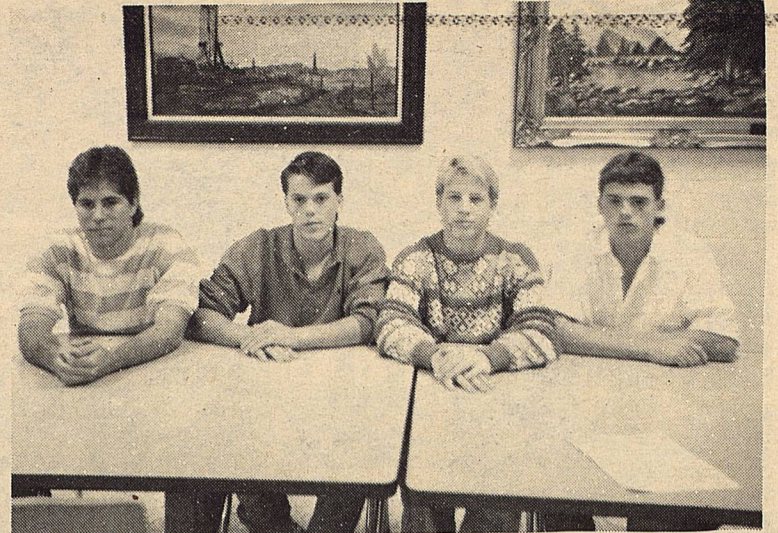

Mr. Wallace said that he was very proud of all of these students who worked long and hard to do so well in these contests. The students performed very well and the effort put in is shown by the end results.

Basketball News

Coyotes Lose Heartbreaker 46-44

The Borden County Coyotes played host to the Forsan Buffaloes and lost a very close game. The lead changed several times during the course of the game, but the Buffaloes outscored the Coyotes in the fourth quarter to win the game. The Coyotes started out slow in the opening quarter and were outscored 14-8. In the second quarter the Coyotes exploded for 22 points to Forsan's 8 points. The third quarter was the Coyotes downfall as they only scored 4 points, and those did not come until after 5 minutes of play. The Coyotes were again outscored in the fourth quarter 14-10, but they were playing without starters Jimmy Rios and Paul Stuardivant who had fouled out.

The Coyotes scoring was led by Brian Bond who had 27 points. He also had 7 steals, 4 offensive and 4 defensive rebounds, and 1 assist. Shane Kemper and Cole Vestal scored 6 points each. Shane had 3 steals and an assist. Cole had 2 steals, and 2 offensive and 7 defensive rebounds. Jimmy Rios scored 3 points, made 2 steals, and pulled down 1 offensive and 3 defensive rebounds. Paul Sturdivant scored 2 points, had 1 defensive rebound, and an assist. Lance Latimer had 1 steal, 4 offensive and 1 defensive rebound, and 2 assists. Eric Lusk had 1 steal and 2 defensive rebounds.

JR. HIGH COYOTES WIN

The Borden County Jr. High Coyotes defeated the Grady Wildcats 44 to 24 Monday night to bring their season record to 3 and 2 and their district record to 2 and 1. The Coyotes used a half-court press to quickly gain a first quarter lead of 12-1. In the second quarter the Coyotes' reserves also played. The halftime score was 21 to 9. The third quarter was another big quarter for the Coyotes as they scored 13 points to Grady's 8 points. The fourth quarter also looked good for the Coyotes as they outscored the Wildcats 10-7.

The Coyotes played very aggressive defense that caused the Wildcats to turn the ball over many times. The Coyotes also did a good job on offensive end as they made very good passes to the open man. J.J. Kincheloe led all scorers with 13 points. John Paul Harris followed closely with 10 points. Klint Kemper scored 6 points. Clint Anderson scored 5 points. Clint Wills, Ross Hataway, Kirk Jones, Brandon Adcock and Richard Buchanan scored 2 points each. Shawn Lewis didn't score, but he played well.

JR. HIGH GIRLS VS GRADY

Borden traveled to Grady Monday night and after a slow start, finished strong to make a respectable showing in the girls basketball game. Falling behind 12-4 at the end of the first quarter, Borden was also outscored 6-14 in the second. In the third quarter, Borden held their own with a 4-4 score and then outscored the Wildcats in the last quarter 6-4 for the final 36-21 total.

Melody Harrison led in scoring for Gail with 11 points followed by Jacquelyn McPhaul with 8. Mendy Hensley added a field goal to

LADY COYOTES CONQUER QUEENS

Forsan came to town Tuesday and left town with a couple of losses in the girls basketball program. The J.V. girls delt the Queens a 48-23 loss before the varsity continued the assault with 44-28 win. This kept both teams undefeated entering the Thanksgiving holidays.

In the J.V. game, six people got into the scoring column, but it was Amanda Anderson who gave the Queens the most misery as she connected for 24 points and numerous rebounds and steals. Shayne Hess also hit in double figures as she hit 10 points. Also scoring were Shara Dee Woodward with 7 points and Kristin Monger and Kristin Kilmer with 3 points each. Kelly Jo Ogden added 1 point to the total. Also playing were Heather Armstrong, A'Lise Lloyd and M'Lys Lloyd. Borden jumped out to a 13-7 first quarter lead and held a

commanding 32-10 half-time lead outscoring Forsan 19-3 in the second stanza. Borden then outgunned their opponents 10-5 in the third stanza 10-6 to hold a 42-15 lead entering the last quarter of play.

The Varsity game seemed over after the first quarter with the Lady Coyotes holding an 18-3 lead at the buzzer. Forsan never gave up and never let Borden extend its lead much more. A 28-12 half-time lead was cut to 32-18 entering the last quarter in the low scoring game. Cold shooting from the floor and foul trouble hampered the Lady Coyotes scoring output, but the defense kept the Gail girls in control. Elana Himes led in scoring with 15 points followed by Lisha Sternadel with 8 and Vida Balaque with 7. Amy Lewis came off the bench to hit 6

points followed by Kristi Adcock with 4 and Kate Phinzy and Elizabeth Garcia with 2 each. Amy led in field goal percentage with 100%, hitting both of her attempts. Vida and Kristi each hit 50%. Lisha, Amy and Elizabeth all hit 100% from the free throw line to lead in that category. Elana and Kate tied for honors in steals with 4 each. Elana also led in rebounds with 11 followed by Kristi with 8. Amy was next with 6. Kate led in assists with 4.

The Lady Coyotes will play in the Garden City tournament this weekend against Garden City J.V. Game time will be 3:30 Thursday. They will then play Friday, against the winner-loser of Sterling City and Water Valley. Borden then plays Jayton at Jayton Tuesday. The J.V. girls will begin action at 5:00 followed by the Varsity at 6:30.

J.V. Boys Defeat Forsan 51-39

The Borden County J.V. boys won their first game of the year. They played an aggressive group of young boys that gave them a hard played game. James Lewis led the Coyotes scoring with 12 points. Cody Stone followed closely with 11 point. Patrick Herridge scored 9 points. Juve Balaque scored 6 points. David Buchanan and Lance Telchik scored 4 points each. Jon Herring also played an aggressive game.

the total. Also playing for Borden were Gloria Portales, Mandi Herring, Erica Nance, and Bobbie Armstrong. Jana Kincheloe tuarned in a fine defensive performance as she came up with many rebounds and steals.

Next game for Borden will be at home, Monday night, December 5. The Coyotes will be facing Dawson with the game time set for 6:00.

Humpback whales sing in accents which indicate where they're from—the Virgin Islands, Bahamas or Puerto Rico, for instance.

Prussic Acid Poisoning In Livestock

Grazing of certain frost-damaged pastures and forages can lead to rassic acid poisoning in livestock.

Although many plants contain the toxic material that causes poisoning, those causing the highest mortality in livestock when grazing after they have been frozen and wilted are Johnson and Sudan grasses and sorghum or hybrids of these.

The most dangerous time as far as the grazing of theses plants is concerned is following frost when the plant material begins to wilt. Livestock should not be allowed access to the wilted material until it has dried completely. This unually thakes three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

As far as the actual poisoning is concerned, the poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10-15 minutes after eating toxic material and can die in two to three minutes.

Symptoms of prussic acid poisoning may include a brief period of stimulation followed by depression and paralysis. Signs of

colic may be present. stupor (loss of sensibility), difficult breathing and frequent convulsions may result.

Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues. This also causes the blood to apear bright red.

Here are some steps to prevent prussic acid poisoning in livestock:

1. Allow plant material affected by frost to dry thoroughly before grazing. this may require a week or more of good sunlight.

2. Feed animals hay or a supplement before turning them in on plants that may contain prussic acid. Animals that are not hungry will not be affected as seriously by toxic material since their intake will be limited.

3. Remove all animals from the pasture if one in the herd shows any signs of poisoning.

4. Call a veterinarian immediately if an animal appears to be poisoned. An antidote to treat affected animals is highly efficient if given early. This product is available from veterinarians.

5. Have suspect plant material checked by the Texas Veterinary Medical Diagnostic Laboratories at College Station or Amarillo.

Local veterinarians will be happy to submit samples for you.

The overall key to prevent prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then to keep cattle from grazing such plants until a safe period has passed.

The Liver and Lung Show

On Thursday, December 1, 1988, 6:30 p.m. a program on round-worm larval migration on growing pigs will be presented at the County Show Barn in Tahoka, Texas.

The "Liver and Lung Show" as it is reffered to will demonstrate one of the major threats to growing pigs and its adverse effects on profit and performance.

A complimentary meal will be served and door prizes will be awarded.

For more information and RSVP if possible call Brett Cypert, Lynn County Extension Agent at 806-998-4650.

This should be a good opportunity to gain more insight on the importance of threating your animals for internal parasites.

Borden County Jr. Livestock Meeting

November 15, 1988

A meeting of the Borden Co. Jr. Livestock Association Board was held Tuesday, November 15, 1988 in the Commissioner's Court room, Gail, Texas.

The minutes of the previous General Membership meeting of Sept. 20, 1988 were read and approved.

Kenny Hensley, President of the Association, informed the board of his desire to conduct the meeting in parliamentary procedure methods. It was his desire to have open discussion by the board and officers on all items on the agenda. The President would vote, only in the case of a tie, on any business brought before the board.

The Treasurer's report, given by Jerry Stone, was read and approved. The present balance was \$5,226.68. Outstanding bills were:

Telepone bill \$21.87
Stock Show Awards \$1,209.17 (plaques & trophies)

Lisa Ludecke, committee member looking into the payment procedure of the Association,

presented a report on billing and payment procedures. The Premium Sale for the Borden Co. Stock Show was held on January 30, 1988. A meeting was held the next day by the directors and officers to organize billing procedures for the sale. Total amount to be billed after the premium sale was \$26,970. Lisa stated she had contacted the present bank about billing and payment procudures. According to Bruce Griffith of the First National Bank in Big Spring, the billing of the premium sale Buyers begins no less than 3 days after the receipt of the billing material. Second and third billings are sent out as well. The February 1988 Bank Statement revealed bank deposits beginning on February 23, indicating that the bills were sent out from the Bank sometime prior to February 23.

The exhibitors checks were dated March 7, anticipating that enough of the money would be collected by this time. By this date, \$19,295.00 had been deposited, leaving a balance of \$7,675.00 still to be collected. According to the earliest endorsement dates on the back of the cancelled checks in the

NOTICE TO POKA-LAMBRO SUBSCRIBERS

END-USER CHARGE INCREASE

Effective December 1, 1988, the interstate subscriber line charge will increase by 60¢. This charge is mandated by the Federal Communications Commission. This 60¢ increase will be followed by the final increase of 30¢ in April, 1989, and will complete the \$3.50 cap set by the FCC in 1985. This \$3.50 has been phased in over a 5 year period as required by the FCC.

The end-user charges are designed to recover a portion of costs of connecting telephone customers to the Nation-wide telephone network that in the past were recovered through interstate long distance charges.

Due to the changes in the telephone industry and increasing competition in long distance telephone service, the FCC determined that it is no longer appropriate to recover certain local network costs through long distance charges, thus the end-user charges were implemented.

Liverstock Meeting

cont. from pg. 5

March Bank Statement, the checks were passed out to the exhibitors sometime before March 24th. Deposit slips show that between March 8 and March 24 \$5,700 had been deposited, leaving a balance of \$1,975.00 still to be collected at the time the checks went out to the exhibitors.

The endorsement dates on the back of canceled checks that were discussed by parents at length during the Annual meeting in September were April 12, indicating these checks were held by the exhibitor for an extra 20 days after they received payment from the Junior Livestock Association.

This report indicates that the problem with the time element in getting the exhibitor's checks to them so they can get deposited in their accounts is their own personal procrastination rather than the banking process. After the checks are distributed from the Association it is the payee's responsibility to get them deposited timely. Based on her findings, Lisa Ludecke will recommend the First National Bank in Big Spring to continue their service to the Association.

The Treasurer also announced the success of the Coyote Opry. The total amount netted from the event was \$3,290.67. a special thanks was given to Ben Miller for his diligent efforts on such a successful event. The Truf Fund account now totals \$4,655.97.

Dennis Poole reported to the board that he had contacted several firms regarding the Show Ring carpet. After lengthy discussion it was agreed upon to receive carpet samples from Jack Harvey Carpet in Lubbock. The board agreed to inspect these samples before making a final decision at the next meeting.

Due to the raising number of barrows and the recent decline of

lambs, the board unanimously agreed to switch the dates of the two shows. The lamb show will be held on Thursday night, January 26, 1988, at 6:00 p.m. The barrow show will begin at 9:00 a.m. on Friday, January 27, 1989.

The validation of show barrows was brought up for discussion. A motion was made and seconded to validate barrows with white numbered ear tags bearing the Logo "BCB 89". A motion was made to have barrows validated on the farm before December 1, 1989, provided the ear tags are available. Motion carried. an amended motion was made and seconded to have the barrows validated on the farm, no later than December 15, 1989. By general consensus, it was agreed upon to have a director or directors accompany the County Agent and Vo Ag Teacher to the farms during validation.

The weight limits of the barrow show were set at a minimum of 180 pounds and a maximum weight of 270 pounds.

Motion was made and seconded to schedule the next meeting for December 7, 1989. Motion carried. There being no further business, the meeting was adjourned.

Ample Supply of Yule Trees Seen

Consumers should find an ample supply of Texas-grown Christmas trees at local markets this season.

We expect that about 650,000 real Yule trees produced in Texas will be marketed this year, that number will compare with 565,000 trees that were produced in the Lone Star State and marketed last season.

Most trees are sold when they reach four or five years of age.

The estimated value of the crop to Texas producers is around \$8 million, and the economic impact on the state is more than \$25 million.

The crop of Texas-grown Yule trees is "coming into its own" some 20 years after Extension Service specialists conducted many demonstrations in East Texas to select best adapted trees and study and recommend cultural practices. The demonstration work began in the early 1970's.

This season some 193 tree farms in 73 Texas counties will have Christmas trees for sale.

Both Virginia and Afghan pine trees are grown for the Christmas market in Texas.

Virginia pine trees are grown primarily in the eastern half of Texas, and the Afghan pine in the more alkaline soils of western Texas, with Interstate Highway 35 serving as the basic boundary line.

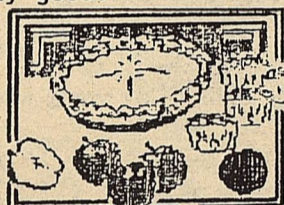

The majority of Texas Christmas tree growers have choose-and-cut operations, where families can inspect, select and cut their own trees to assure freshness and the exact size and shape desired.

About 50 % of the Texas grown Yule trees will be offered wholesale, about 44 percent

will be choose-and-cut and the remaining 6 percent will be offered in retail lots operated by the tree farmers.

About half of the Texas Christmas tree farms are now producing marketable trees.

The drought has severely affected seedlings planted this season. Older trees also have grown more slowly, but quality of trees being marketed is very good.

4-H FOOD SHOW

BROCCOLI-RICE CASSEROLE
Mendy Hensley

½ cup onion, chopped
1 TBSP. margarine
1 10 oz. package frozen chopped broccoli
1 can Cream of Mushroom Soup
1 cup cooked rice
1 cup grated cheese

Cook broccoli in microwave for 7 minutes on high, turning when needed. Saute onions in small amount of butter in pan on stove.

Mix broccoli, soup, rice, onions, and cheese in 1 quart casserole dish. Cook in microwave for 2

Texas Pecan Crop One Of Best Ever

While not a bumper harvest, the 1988 Texas pecan crop has the makings of one of the best ever. And that should be good news for consumers.

This year's pecan crop should total about 50 million pounds and be of high quality. That projected yield does not include backyard trees that are not harvested for commercial sale.

The 1988 crop came a long way from a poor start in the spring and a season-long drought that caused considerable nut shedding in July and August.

However, disease and insect problems were only minor in this year's crop. For example pecan scab disease was virtually nonexistent due to the dry weather. And pecan nut casebearer, pecan weevils and aphids did not cause major problems.

The dry weather early in the season reduced nut size, but, because of this, the kernel filling or percent meat is generally good over most of Texas.

Because this year's crop is plentiful, of good quality and at a favorable price, consumers should stock up on the tasty morsels

minutes on High; turn and cook for 2 minutes. Check to see if cheese is melted and that the dish is heated through.

Makes 4 servings.

for the coming year. Should a dry winter follow this year's drought, pecan production would suffer in 1989. So consumers may want to buy larger

amounts and store them in a refrigerator or freezer.

With proper storage, pecans will maintain their quality almost indefinitely.

DRUNK DRIVING AROUND THE WORLD

If you think U.S. drunk driving laws are tough...

In Australia the names of the drivers are sent to local newspapers and are printed under the heading, "He's drunk and in jail."

In Malaya the driver is jailed; if he's married his wife is jailed too.

In South Africa the penalty is a 10-year prison sentence and the equivalent of a \$10,000 fine or both.

In Turkey drunks are taken 10 miles from town by the police and forced to walk back under escort.

In Norway the penalty is three weeks in jail at hard labor and one year loss of license. Second offense within five years, the license is revoked for life.

In Finland and Sweden there's automatic jail

for one year at hard labor.

In Russia license is revoked for life.

In England one-year supervision and \$250 fine and one year in jail.

In France three year loss of license, one year in jail and a \$1,000 fine.

In Poland jail, fine and enforced attendance at political lectures.

In Bulgaria a second conviction results in execution.

In El Salvador your first conviction is your last - execution by firing squad.

CORRECTION

Shaina Isaacs and Leslee Hunt placed 1st. with fruit salad and chocolate-covered marshmallows in the Cloverbud Division. We regret that this was incorrectly printed in the last issue.

Kids with Asthma Can Exercise Normally

A daily dose of exercise is important for the physical and emotional well-being of all children. Yet, many of the 3.2 million American kids under 18 years old sit it out because they suffer from asthma, one of the most common chronic lung diseases in school age children. Recent research has shown, however, that most asthmatic youngsters can fully participate in athletics if they take their medicine beforehand, says the American Lung Association—the Christmas Seal People®.

Exercise is one of the many triggers of an asthma attack in all asthmatics. Although trouble usually does not start while exercising, at least two-thirds of asthmatic adolescents develop breathing problems during the following cool down period. Recovery for the most part is complete within two hours, although medications can speed it up.

The best preventive medications are inhaled cromolyn and beta adrenergic agonists, two of the more commonly used asthma drugs.

For more information about asthma, its triggers and all lung diseases, contact the American Lung Association of Texas at 1-800-252-5864 from any where in the state.

Christmas in Texas

Dec. 2-4 -- Christmas at Old Fort Concho, San Angelo. Each year this national historic landmark, one of the best-preserved Indian Wars forts in the nation, blends its historical heritage with the magic of Christmas. The Officers' Quarters, decorated to reflect various cultures of the area, will house merchants and artisans with unusual gift items. There will be wandering singers and entertainers, ethnic foods, chapel services, infantry drills, wagon rides and special events, highlighted each evening by a heritage pageant. Ticket and other information from Fort Concho, 213 E. Ave. D, San Angelo 76903 (915/657-4441).

ORANGE-AID

There's a new killer chemical on the horizon, devastating to household pests but apparently safe for humans, animals and the environment. And it smells great. According to National Wildlife magazine, the magic ingredient is citrus oil from orange peels. Researchers have found it to be a valuable replacement for poison in killing houseflies, fleas and fire ants.

THANKS
Many thanks to the
