

# State Capitol NEWS

AUSTIN — Legislators have received two proposals for spending the state's money during the two years starting September 1.

One came from Gov. John Connally, the other from the House Appropriations Committee.

Governor Connally's suggestions marked the first time a new governor had tried to work out a budget after taking office. In his message he dealt in detail with 19 of the major state departments. These are mainly the ones over which the Legislature has direct control.

Connally trimmed fat out of some agencies to provide new money for others. His stress came on higher education. Here he suggested \$14,000,000 worth of salary increases for faculty members and more research and library facilities, as a means of holding good professors and attracting new ones.

To finance his program, Connally suggested that the "temporary" corporation franchise surtax, which has been extended twice before, be retained. It would provide about \$11,000,000 a year.

He also suggested that the 1961 sales tax law be revised to begin taxing clothing under \$10, farm implements and all sales of food by restaurants, and to raise the sales tax on cars and trucks from 1.5 to 2 per cent.

Clothing tax proposal would bring in \$10,000,000 a year. Motor vehicle tax increase would provide

about \$2,500,000. Farm implements tax would run \$1,000,000.

Fire quickly developed from rural legislators over the proposed farm implements tax.

Both Connally and the House Appropriations Committee proposed expenditures totaling about \$3,100,000,000 during the coming two years.

Before Connally laid out his proposals to the Legislature, he invited Texas newspaper editors to Austin to show them how the state's complicated fiscal structure works. His "illustrated lecture" revealed that the Legislature has actual control over only 15 per cent of the \$3,100,000,000. Rest already is earmarked by constitutional and statutory provisions.

### WILL FARMERS FOOT EDUCATION BOOST?

When Rep. Don Garrison of Houston spread before the House Revenue and Taxation Committee his bill to boost the Available School Fund by \$3,000,000 a year, a spokesman for Texas farmers and ranchers registered a strong protest.

Garrison plans to get the additional \$3,000,000 by amending the state law that allows a 98½ per cent exemption refund from the State Motor Fuel Tax for gasoline not consumed on the highways. His bill would cut the refund to 73½ per cent.

That 25 per cent cut then would be credited to the school fund.

Charles H. Huff of the Texas Farm Bureau said almost half

of the new school fund money—about \$1,500,000 a year—"would be coming out of the pockets of farmers and ranchers."

They get motor fuel refunds of about \$5,700,000 a year — or 49.11 per cent of the usual total refunded. Much of their refund comes from motor fuel taxes paid on farm machinery.

Airlines and private plane owners, who get about 30 per cent of the refunds, would be the second biggest contributor to education under Garrison's bill.

Four members of the subcommittee named to study the bill are from ranch or farm country — Reps. George Cook of Odessa, Ben Barnes of De Leon, William Davis of Midland, and James L. Sluder of Naples. Rep. F. Lee Duggan Jr. of Houston is the fifth member.

### HOUSE VACANCY ELECTION

As soon as government officials began recovering from the shock of the news of the sudden highway death of Rep. James L. Lattimore of Corpus Christi, they began studying the election code to see what must be done about filling the seat he left vacant in the House of Representatives.

Customarily, if a vacancy occurs in the legislature when it's not in session, the governor leaves the calling of a special election up to local officials.

But since the 58th Legislature will be in regular session until May 27, Governor Connally is expected to move fast to provide Nueces County with a needed voice in legislation. A late-April election date has been predicted.

Law states that the governor must call an election within 20 days. But it also provides that candidates must file 30 days before the election.

Last time a tragic death crippled the Legislature was on March 23, 1957, when the late Charlie Heitmann, representative from the Nacogdoches area, died. Gov. Price Daniel gave election notice on March 28 of that year. A new representative was elected in May, in time to spend some three weeks with the 55th Legislature.

### MINERAL ESTATE TAX PROPOSALS

Proposals to set up tax procedures on mineral estates, severed from the land, have been filed by Reps. Emmett Lack of Kountze and Clyde Haynes of Vidor.

Proposals are part of a package that should be favored by small-tract landowners and independent oil and gas producers.

One piece of the package is a constitutional amendment to increase the Railroad Commission from three to five members.

Second would give the Legislature the authority to "establish the duration of any interest in an undeveloped mineral es-

tate."

Texas Landowners and Independent Oil & Gas Operators Association contends that some major oil companies hold onto undeveloped mineral interests for an unreasonable length of time.

Two other bills by Lack and Haynes are aimed at forcing development of mineral interests:

One provides that mineral interests would revert to the owner of surface land if no development attempt is made for 10 years.

Second provides for a county tax assessment of no less than \$5 an acre, if the mineral estate isn't developed.

Rep. Bob Bass of DeKalb proposes a 25-cent minimum tax assessment on each acre of undeveloped mineral estates.

### STRONG SUPPORT FOR SCREWORM BILL

Rep. Jack Crain of Nocona had 50 co-signers lined up when he introduced a bill to provide \$2,840,837 as the State's matching share of the \$12,000,000 federal - state - private screwworm eradication program.

Since it is backed by Governor Connally's strong recommendation the bill should be off to a good start.

But the House Appropriations Committee didn't include a provision for screwworm eradication in its 300-plus page appropriations bill.

Crain said Legislators would seek a separate appropriation to cover the proposed state contribution.

### CARS FOR COMMISSIONERS

When county commissioners stopped asking the Legislature to authorize horses and wagons and won the right to drive pickup trucks on their appointed rounds, they thought they were thoroughly mechanized.

As their operations became more streamlined and pickups no longer were necessary, some switched to automobiles. But a pickup is not an automobile. Atty. Gen. Waggoner Carr ruled. So Williamson, Cochran, Hockley, Terry and Yoakum counties are asking authority from the 58th Legislature to buy cars for their commissioners.

Harris, Tarrant and some Panhandle counties discovered the difference for themselves some time ago. They already have authority to decide whether pickups or autos would be best for commissioners' transportation.

### BLANKET HOSPITAL BILL

Last November, Texas voters decided to let the Legislature authorize the creation of hospital districts. Already many bills have been filed to create individual districts.

Now Rep. H. G. Wells of Tulla proposes legislation to give every county the right to create a hospital district within its own boundaries.

### LICENSE PLATE PRICE HIKE ASKED

Sen. Criss Cole of Houston proposes to increase the annual motor vehicle registration fee by \$1 with the income going to our state parks.

If the Legislature approves

Cole's license plate cost increase, the question will be submitted to voters at the general election of November, 1964.

### MOTOR EXPRESS SERVICE PROPOSED

Sen. Franklin Spears of San Antonio has introduced a bill to expedite freight shipments in Texas.

Bill permits the creation of a special class of motor vehicle carriers to be known as "Restricted Motor Express Common Carriers."

Service would follow regular routes and schedules, using van-type equipment. Special emphasis would be on small shipments from one to 100 pounds. Rates would be substantially higher than those of existing motor carriers. However, a complete "pick up-and-deliver" service would be provided.

Supervision would be in the hands of the Railroad Commission.

partment plans to do it by posting "Trail Blazer" signs pointing the way to the Interstate highways.

Mindful that many more miles are being completed on the Interstate Highway System each year, the Texas Highway Commission recently announced a new service for the traveling public.

Trail Blazers will be erected at strategic locations to direct traffic to Interstate highways and other controlled access highways.

Whether you're visiting the State Fairgrounds in Dallas, the international airport at Houston, or the shopping districts of El Paso or San Antonio, finding the way through the streets of a strange city to the Interstate highways will no longer be a puzzle when the Trail Blazers are eventually erected.

Trail Blazer "assemblies" will be erected at major places of public gatherings which often attract out-of-town traffic, such as the business districts, municipal airports, universities, auditoriums and fairgrounds.

Texas A. and M. College furnished more officers to the Army in World War II than did West Point.

## It's Time For... EYE CARE

Dr. Newton K. Wesley  
OUR EYES AFTER 40

After we reach the age of 40, most of us must wear glasses or contact lenses to help our eyes focus correctly. In many cases, bifocals are necessary.

Once we face this fact, the thing to do is to visit a reputable eye doctor for a complete eye examination. Notice I said "complete." By that I mean the health of the eye should be examined as well as your ability to see. A complete eye examination will reveal the presence of an eye disease, and if one is detected, proper treatment can prevent blindness.

The eye specialist you should see is an optometrist or an ophthalmologist. The optometrist cannot treat the eye, but if he finds a disease, he will send you to an ophthalmologist. Don't believe you have had a complete eye examination if all you have been asked to do is read a chart. This determines your ability to see, but has nothing to do with the health of your eyes.

By all means, don't buy a pair of glasses you find displayed on the counter of a store. Remember, you are not qualified to determine how well your vision is working. If you are sick, you go to a doctor; if your teeth ache, you go to a dentist. You go to both for an occasional check-up. Why not do the same for your eyes?

Have your eyes examined soon!

God shows his love for us in that while we were yet sinners Christ died for us. (Romans 5:8.RSV.)

The minister's wife was discussing sin with some juniors. She explained that God could not be holy and overlook sin. Neither could He tolerate it. To be certain they understood, she repeated once more, "Everyone sins."

Bill looked stunned. "Does everyone sin?"  
"Yes," she replied.  
"Does even your husband sin?"

"Yes."  
"Well," he said desperately, "how are we going to get to heaven then?"

We could never be saved from our sins were we dependent upon any human being, no matter how goodly. God Himself came in the person of His Son, Jesus Christ. He is the sinless one.

We may not be able to understand how Christ can save humanity from its sins, but our part is to accept in faith that Christ died for us. This is an individual matter. Do you and I believe in Christ as our personal Savior?

### Game Officers Get Careful Selection, Through Training

Austin — Today's game and fish law enforcement officer is a versatile man, whose duties include many activities besides writing citations, according to J. B. Phillips, law enforcement coordinator for the Game and Fish Commission. "To perform his myriad conservation duties, the officer must be well trained in facts and methods," explains Phillips in his article, "Game Guardians," in the February issue of Texas Game and Fish.

"The Commission carefully selects each candidate and trains him thoroughly before he goes into the field as a qualified law enforcement officer," said Phillips. "The first step in selecting a trainee for the enforcement function is taken by each prospective officer." he continued. "An application form, which may be obtained from the office of the Personnel Director in Austin, must be completed and returned to the personnel office. A photograph must be attached to the application."

The Commission is now accepting requests for applications, at its Austin office. Applications should be filled out and turned in by May 1. Following this, exams will be given in various cities across the state. A list of the dates and locations where exams will be given will be provided at a later date, according to the law enforcement coordinator.

### FARMERS URGED Follow Directions Carefully When Applying Poisons

College Station (Spl) — The "secret" of avoiding poisoning farm animals, or any other crop, with agricultural chemicals is to follow directions on the container, a Texas A&M College veterinarian says.

This tongue-in-cheek advice comes from Dr. R. D. Turk of the Veterinary Parasitology Department, a speaker, at the 12th annual Texas Agricultural Aviation Conference held at A&M.

Dr. Turk paraphrased the old axiom: "when everything else fails, try following the directions." But then there are always persons who feel that a little bit is good, a little more is better, he said.

"We have the crop duster who turns over a lake without shutting off the spray or dust, and dead fish result," he said. "We have them turn over pastures where cattle are grazing, or over fields of forage crops, and we even have some who poison themselves. However, these incidences are becoming fewer and fewer."

Referring to current unfavorable publicity about alleged effects of pesticides upon humans, livestock and wildlife, Dr. Turk posed this question to the 200 persons attending the conference: "Do we need chemicals?"

"If you have ever seen a mangy bull, a bollweevil infested cotton field, or a good pasture eaten up by army worms, the answer must be yes," he said. "Some persons say we don't need chemicals. Actually, we don't need meat, clothing, automatic washers, and many things."

The veterinarian cited statistics showing how chemicals have made U. S. farm production the world's best, and how chemicals have improved human health. But he added that chemicals can be improperly used.

"Certainly chemicals are dangerous. So are automobiles, airplanes, electricity and even bathing. Did you know that last year twice as many deaths were caused by misuse of aspirin as from agricultural chemicals. There were a few dozen people killed by chemicals. More than 35,000 deaths were caused by automobiles," Dr. Turk said.

#### TAX-MAN SAM SEZ:

In country towns everybody knows the Postmaster is Uncle Sam. (He just doesn't wear whiskers and striped pants.) Most Postmasters carry tax forms to take care of uncle's business. If your local office doesn't have the tax forms you can get them by mail from Internal Revenue Service, 2101 Pacific Avenue, Dallas, Texas. You may want to order a copy of "Your Federal Income Tax" or the "Small Business Tax Guide" (Both are priced at 40c each) while you are getting your forms.

#### Frozen Car Locks

Hunters in the northern sections of Texas sometimes find the door locks on their cars frozen stiff when the car remains outdoors for any great length of time.

This can be remedied by heating the key in the flame of your lighter or a match for a moment before inserting the key in the lock.  
Lock will respond instantly.

## About Your Health

Today is not only the Space Age. It is also the Chemical Age.

One of the main benefits of living in this chemical age is availability of numerous pesticides. They have been essential for the improvement of our agricultural output and therefore for raising our standard of living. Also, these pesticides have been helpful in the control of many insect borne diseases.

Unfortunately, the most effective pesticides are often the most toxic and precautions against them the most difficult to enforce. In 1962, 13 Texans died as a result of mishandling of these toxic materials.

With the increased use of highly toxic materials, both at home and in industry, it is essential that we stress safety measures at every opportunity. Listed below are some important points to remember when handling and using toxic insecticides.

1. Follow the instructions on the manufacturer's label to the smallest detail.
2. Store toxic sprays and dust away from children and irresponsible individuals, as well as livestock, foods and animal feeds.
3. All regular handlers of phosporous insecticides should have cholinesterase tests at intervals not greater than 10 days during the periods they are working with the materials.
4. All applicators should avoid breathing dust, vapors, or spray from the insecticides.
5. Respirators, which meet the specifications of the U. S. Bureau of Mines, should be worn when handling or working around highly toxic insecticides.
6. Freshly laundered protective clothing and gloves should be worn when sprays and dust are being applied.
7. If toxic insecticides are

spilled on the skin or clothing, work should be suspended and the person involved should bathe and change clothes.

8. Individuals handling toxic insecticides should bathe and change clothes immediately after completing jobs or during any extensive breaks.

9. All personnel and livestock should be protected from drifts of spray or dust.

10. When toxic insecticides are applied to agricultural plants such as cotton or grain the fields should not be reentered for three days after application.

11. Toxic insecticides should be kept away from flames and sparks when being diluted for application since many solvents used in preparing insecticides are highly inflammable. (Feature from the Division of Public Health Education, Texas State Department of Health.)

Save Frayed Shells  
Many hunters discard pocket-worn shells when using pump or auto loading shotguns.

This is a wanton waste of shells.  
Usually these worn, scuffed shells are good and will perform perfectly if fed directly into the gun chamber, rather than into the magazine.

12. Toxic insecticides should be kept away from flames and sparks when being diluted for application since many solvents used in preparing insecticides are highly inflammable. (Feature from the Division of Public Health Education, Texas State Department of Health.)

MRS. DAYTON JACKSON

### Mary Ford And Dayton Jackson Exchange Vows

On Friday, March 8, at 8:00 p. m., Miss Mary Ford, daughter of Mr. and Mrs. Marion A. Ford of Trickham, became the bride of Dayton L. Jackson, son of Mr. and Mrs. O. D. Jackson of Santa Anna. They were married on the 40th wedding anniversary of the bride's parents.

The double ring ceremony was performed in the Trickham Union Church, with Rev. James Ford, brother of the bride, officiating.

Mrs. Bruce Hornell, pianist, played the traditional wedding march and accompanied Miss Patricia Davis, who sang, "Wither Thou Goest" and "Wedding Prayer."

The bride's chosen colors of aqua and white were carried out by the use of white stock and white carnations in a milk

glass container. Aqua tapers were accented by aqua bows and were flanked by baskets of jade.

The bride was given in marriage by her father. She wore a floor length gown of white lace over satin with a bateau neckline, pointed waistline, and long sleeves that were pointed at the hands. She wore a shoulder length veil with a band of pearls. She carried a white Bible, topped with a white orchid and carnations.

Matron of honor, Mrs. Brown Brooke, wore an aqua cotton satin dress with scoop neckline and a bell skirt. She carried a bouquet of white carnations with aqua ribbons.

Miss Sandra Yancy, cousin of the groom, and Ted Ford, brother of the bride, lighted candles. Best man was Clayton Jackson, brother of the groom. Ushers were Terry McIver and Tinker Dockery.

The bride's mother wore a dusty rose tweed suit and a white flower. The groom's mother wore a open blue dress with a white flower.

Following the wedding a reception was held in the church annex. The bride's table was covered with a lace cloth over aqua with a center piece of white carnations, stock, and aqua candles.

Mrs. Morris Straughan and Mrs. James Lancaster, sisters of the bride, served cake and punch. Mrs. Wilburn Anderson, sister of the groom, was at the register.

For traveling the bride wore a yellow tweed suit with gold accessories and a white orchid.

#### ROCKWOOD WMS MONTHLY SOCIAL

The Woman's Missionary Society met at the Rockwood Community Center Monday afternoon for the monthly social. Mrs. Henry Smith gave the devotional. Mrs. R. J. Deal and Mrs. Joe Wise directed recreation and served cake and punch to the guests. St. Patrick's Day theme was carried out in all appointments.

Members present were Mrs. Lee Miller, Mrs. Matt Estes, Mrs. Evan Wise, Mrs. Ray Caldwell, Mrs. Claud Box, Mrs. Smith and the hostesses, Mrs. Deal and Mrs. Wise and Hank Wise.

New Hampshire originally was called the Province of Laconia.

### Cooper - Densman Vows Exchanged

Mr. and Mrs. Elec Cooper of Rockwood announce the marriage of their daughter, Aima Louise, to Denny Lynn Densman, son of Mr. and Mrs. Ellis Densman of Santa Anna. The wedding vows were read at the First Baptist Church in Santa Anna Saturday, March 9, at 7:30 p. m., with the Rev. Raymond Jones, pastor, officiating.

Mr. and Mrs. Bob Densman of Junction were the only attendants.

The couple will make their home in Santa Anna.

### Observes Golden Wedding Saturday

Mr. and Mrs. Sam Rutherford observed their golden wedding anniversary Saturday, March 9, at their home here.

A group of friends from Comanche, Goldthwaite and San Angelo gathered at the home and enjoyed singing. Including members of the family, there were about 40 people present.

### Members Requested To Pay Dues To Band Boosters Club

Mrs. Roy Stockard, chairman of the membership committee of the Band Boosters Club, requests all members who have not paid their \$1.00 dues, to please do so by the next regular meeting.

Mrs. Stockard said the dues could be handed to her or Mrs. Raymond Jones or Mrs. Dorothy Watson, other members of her committee.

The dues are needed now in order that the organization can meet its obligations.

### ENSIGN ALLYN BARNETT IN PACIFIC FLEET

Coronado, Calif. (FHTNC) — Navy Ensign Allyn Barnett, son of Mr. and Mrs. Artie A. Barnett of Coleman, Tex., is serving on the staff of Vice Admiral Howard A. Yeager, Commander Amphibious Force, Pacific Fleet, which celebrates its 21st anniversary this month.

The force, with units spread throughout the Pacific area, was established in 1942. It landed troop and equipment on islands throughout the Pacific theater in a revolutionary scale of amphibious assault.

The theme for this year's celebration is "The Amphibious Force — 21 years as Freedom's advance guard."

### SOCIAL SECURITY NUMBERS

Be sure to list your social security number on your 1962 Federal income tax return. If both have income, husband and wife should list their numbers on a joint return. If only one has income, only his number is required.

Ellis Campbell Jr. of the Internal Revenue office said some returns are being filed in which one or both social security numbers are omitted. Along with checking other entries on the return, taxpayers should double check to make sure that social security numbers are complete and accurate.

### Don't Change Ammunition

You may ridicule the idea, but experts tell us that guns are highly sensitive to ammunition change.

For instance: If you have carefully sighted-in your rifle before deer season, using Brand X, then switch to Brand Z for the actual hunt, even though Z is of equal quality, your gun is apt to shoot off-target.

So the best bet is to stick to the same brand of cartridge throughout the season — unless you intend sighting-in the weapon again.

### ASSEMBLY

Freddie Cullins, Vice-President of the Student Council, opened the assembly Monday morning with the pledge to the flag. Mr. Mathews announced this week would be "Western Week." He asked that students please co-operate as much as possible with the theme and try to dress as western as possible. He asked that we not let this extra curricular activity interfere with our studies. This should be a week of good times. Mr. Tindol reported on the tennis tournament at San Saba. Coach Smith reported that Santa Anna won the Track meet at Hamilton last Saturday. Sherman Stearns received an award from the Coleman Exchange Club as the senior boy of the month. This award is based on grades, citizenship, extra curricular activities, and many other qualifications. Rev. Raymond Jones, minister

from the First Baptist Church, spoke to the students on the subject, "The Cause of Defeat." Assembly was closed with the Alma Mater.

### TENNIS

The tennis players participated in the tennis meet at San Saba last Friday. Although they didn't win any matches, they made a good showing.

In the girl's doubles, Donna Walker and Ruby Buse lost to Mason. Clara Wright lost her single match to a girl from Llano.

Terry Moore and Pete Simmons, the boys' doubles team lost their match to Brady. Stanley Hartman was defeated in the boys' singles by a boy from Llano.

### STUDENTS TAKE TEST

Saturday, March 9, Mrs. Chandler gave the National Merit Scholarship Test to nine students from Santa Anna. The students were: Arlene Welch, Donnie Neff, Donna Walker, Frances Davenport, Sandra Davis, Sherry Drake, Clayton Jackson, Jerry Ellis and Sherman Stearns.

### S. A. H. S. WINS TRACK MEET

Saturday at Hamilton the SAHS track team won the meet with a total of 42 points. Coach Smith said it was the greatest team effort ever put forth by Santa Anna. No one boy won the meet for us; it was a united effort.

Randy Brown and Tommy Stewardson were the high point makers for SAHS. Randy placed 3rd in the 100 yard dash, 1st in the broad jump, and was on two winning relay teams; the 400 relay and the mile relay. Tommy won the high hurdles, tied for first in the high jump, placed 2nd in the low hurdles, and was on the winning mile relay team. Others on the 440 relay and mile relay teams were Tinker Dockery, on both teams; Bill Horne, on both teams; and Freddie Cullins, the 440 relay. Charles Allen placed seventh in the 880. Coach Smith is very pleased with Charles, as he is with all the boys, because this was only Charles' second time to run the 880. In the pole vault, Pete Simmons and Donald Ma-

kuta tied with three other boys for fourth.

All of the student body is very proud of our team and our coach. Keep on winning! —SAHS

### SUMMER SCIENCE TRAINING PROGRAMS

Four of our students have applied for scholarships in the summer science training program. They are Leland Williams, Glen Gilbreath, Jerry Ellis and Freddie Cullins. These scholarships are sponsored by the National Science Foundation. Participating colleges and universities and the special fields of study are: Astronomy and Astronautic, Pan American College, Edinburg; Biological Sciences, A & M, College Station, University of Texas, Austin, and Wiley College, Marshall; Biology and Mathematics, Texas College, Tyler; Chemistry, Prairie View Agricultural and Mechanical College of Texas, Prairie View, Texas Women's University, Denton; Mathematics, A & M, College Station, Southern Methodist University, Dallas, and the University of Texas, Austin; Physics, A & M, College Station.

Students who are selected have to make a certain score on three tests in order to qualify for the scholarship. This program will provide opportunities for selected students to study and work with experienced scientists and mathematicians.

### BAND TRIP

Friday, the Senior Band went to San Angelo to participate in the rodeo parade. After the parade they were served dinner at the Town House Hotel. At three o'clock the band members were given free tickets to the San Angelo rodeo.

### SPOTLIGHT

Freddie Colough is freshman student in SAHS. He is carrying four subjects: English I, Algebra I, Physical Science and Agriculture I, plus a course in physical education.

Freddie is active in school. Though only a freshman, he played a great deal of football for the Mountaineers. Freddie is vice-president of his class. He is a member of FFA. After high school, Freddie's plans are indefinite.

Edwinna McCarrell is a busy Junior. She takes part and is good in many sports activities; track, basketball and volleyball. Her courses include Homemaking III, English III, American History and Typing. Edwinna plans to attend either ACC or McMurry to prepare herself to teach school.

### ONE ACT PLAY FROM MOZELLE

Friday, at one o'clock, the Mozelle High School presented its one-act play for the student body. This is the play they will

present at the Interscholastic League meet.

The play was about a typical family going on a Sunday drive to see the married daughter. The family, which included the mother, father, daughter and son, had several incidents happen along the way.

The students enjoyed the play and wish the Mozelle students the best of luck in Interscholastic League competition.

### PARENTS' NIGHT

Thursday night of last week, which was during Public School Week, Santa Anna School held their annual Parents' Night. The parents were invited to visit the school and see for themselves what their children are doing at school.

A program was presented in the high school auditorium by the band, a grade school quartet, and the grade school choral club. Parents visited the various rooms before the program. The Homemakers served coffee and cookies.

### WESTERN PARTY

The SAHS Student Council will sponsor a Western-Twirp Week Party on Friday night, March 15, 7:30 p. m. Everyone is to dress in western clothes. There will be food, music and games. Admission will be 50 cents for couples and 50 cents for single.

This will be the last all-school party sponsored by the Student Council this year, so come on kids, and join the fun. We'll try to keep the juke box working this time.

### ASSEMBLY

On Monday, March 18, the Student Council will sponsor another school assembly program. This time we will see the Augspurgs who are Jungle Wonders. The time is nine o'clock and the admission is ten cents for grade school students and fifteen cents for high school students.

The Augspurgs have spent much of their time studying Zoology. As representatives of the United States Society of Zoology, they have presented their program to student groups all over the United States.

The children will enjoy the cute antics of the monkeys, and the clever tricks the dogs perform. Gus and Casey bring to their audiences a perfect example of what kindness, patience, and training can do with animals.

A real trouper is Boon, a Hamadryas Baboon, an unusual animal who does a variety of tricks... even a ball game. Watch for the surprises in the Boon's act.

You will be amazed at the dogs... among them Irish Setters and others of not so certain ancestry. These little dogs sit up, shake hands and do all sorts of tricks.

Even the grownups will join the kids in their enjoyment of Judy, a Rhesus monkey and Mary Jane, a Guenie Baboon—as they go to school and have a baboon tea party.

Add entertaining monkeys, plus remarkable baboons, plus amazing dogs, plus all the charm and showmanship of Gus and Casey and you have a show no one will want to pass up.

### ALL IN FUN

Fourscore and seven years ago, someone's father brought forth on this continent, a new subject, Algebra, conceived and dedicated to the proposition that not many men (or women) can work it. work it. We are met on a great battlefield of that war. (Our Algebra teacher's class.) We have come to dedicate a portion of those classes for those who could not work it and did not pass. It is altogether fitting and proper that we should do this. But in a larger sense, we cannot concentrate, we cannot understand, we cannot work Algebra. The brave men, passing and not passing, who have struggled here, have understood it better than our poor power to add or subtract. The world will little note nor long remember what we say here, but our algebra teacher will never forget our failing grades. It is for us, the living, rather to be dedicated here to the unfinished work of those before us that fought hard to pass. It is rather for us to be here dedicated to the great task of working those algebra problems remaining before us that from these honored falling, we take increased study to that cause of passing. These failing shall not have failed in vain that these classes under the algebra teacher shall have a new birth of freedom. It shall be a class of the students, by the students, and for the students that students should not perish from class, but Mr. Smith shall.

By MRS. E. S. JONES

The monthly community supper is to be Saturday, March 16. Everyone is invited to attend, bring a meat and vegetable or a salad or sweet.

Mrs. Bobbie Orr and Mark of Coleman visited Sunday with her parents, Mr. and Mrs. H. C. McClure and attended morning services at the Baptist Church. Mr. and Mrs. E. D. Jones of San Angelo spent Friday with Mrs. E. S. Jones.

Mr. and Mrs. Roy Bledsoe visited the A. D. Eppler family at Rockwood Friday evening.

Our deepest sympathy to the children of Mrs. J. W. Barton, who was buried in Coleman Friday. The Bartons were formerly of our community.

Mr. and Mrs. Carter Dalton and Lee of Irving and Mr. and Mrs. Wayne Walker of Wichita Falls visited with Mrs. Sam Dalton.

Weekend visitors with Mrs. Ura Dillingham were, Mrs. Kahler Wheatley, her son, Clifford, his wife and daughter, all of Kerville and Mr. and Mrs. Don Barton of Palestine.

**SOCIAL SECURITY NUMBERS**

Social security numbers should appear in the space provided on page 1 of your 1962 Federal income tax return, Ellis Campbell Jr. of the U. S. Internal Revenue Service cautioned Dallas taxpayers today.

Sometimes husbands and wives filing joint returns neglect to enter both their social security numbers when both have income.

It's an understandable oversight, but we'd like to ask taxpayers to check this entry carefully.
