NUMBER 25

### Point Rows

Well, we have to blow our horn a little. As you read in a news story elsewhere on this page, our Point Rows column received the Texas Press Association award for being the best newspaper column in a paper of its size in the state during the year of 1964.

It is occasions like this that somehow pay for the long hours, the disappointments, disillusionments, and difficulties of putting out a newspaper. You quickly learn that no issue will ever be perfect, will ever come close to being as good as you would like. And you know, before you start, that no matter what you do or say, you will antagonize some people. To paraphrase Abraham Lincoln, "you can please some of the people all of the time, and all of the people some of the time, but you can't please all of the people all of the time." All you can do is try your best to make your newspaper as good as you possibly can, realizing that since you are not perfect, neither will your product be perfect.

You have to become a practical perfectionist. You want your paper to be perfect, but you are also aware of the limitations of staff, equipment, financing, time, and talent with which you operate. It is not surprising that this profession has the highest incidence of ulcers of any in the country.

Some time ago, we were re-reading a novel by one of the greatest writers the United States ever produced. In this book, the author describes the goal, the ideal, that keeps editors going in the face of all the discouragement. We don't know of any editor who has reached this status, but this is what Thomas Wolfe says about it in his monumental novel, "You Can't Go Home Again":

"He knew what it was like to be a great editor . . . and he knew what was needed: The pure flame living in the midst of darkness; the constant, quiet, and relentless effort of the will to accomplish what the pure flame burned for, what the spirit knew; the unspoken agony of that constant effort as it fought to win through to its clear purpose and somehow to subdue the world's blind and brutal force of ignorance, hostility, prejudice, and intolerance which were opposed to it—the fools of age, the fools of prudery, the fools of gentleness, foginess, and nicety, the fools of bigotry, Philistinism, jealousy, and envy, and worst of all, the simple, utter, sheer damn fools of nature!"

—0—  
This is quite a goal to set for oneself, and it is encouragements, such as the receiving of the Texas Press Association award, that keeps us poor, imperfect, all-too-human editors striving to try to fulfill such a high standard.

Who knows? Maybe someday we might make it.

—0—  
Our Rockwood correspondent, Mrs. John Hunter, brings in a report that the great battle of 1965, over who is the oldest resident of Santa Anna who was born here, may not be over. Seems Mrs. Hunter knows of a lady who will top all the previous contenders, but the lady, as is often the case with members of the sex, is hesitant to reveal her age.

More on this next week. Reckon you can hold your breath that long?

—0—  
A couple of weeks ago, in the Yesterdays News feature in this paper, we were wondering about "Cow Day." Well, we have had it explained to us. It seems that back some years ago, during the Depression as a matter of fact, the merchants in town would get together to promote business, and would hold special "Cow Days" during which a drawing would be held. Tickets for the drawing were obtainable from participating merchants with purchases, and the winner would receive a Jersey milk cow. So now we know. By the way, we were filled in on this situation by Bill French.

—0—  
Along with the more important information contained in the recently published Economic Base Report for Coleman County, there were some interesting and fascinating sidelights. For instance, did you know that there are 33 motorcycles in Coleman County? Bet you didn't.

The fact that fascinated us the most, however, is found in the breakdown of number of persons in the County by their professions. The chart lists one female person under the occupational heading of "Dancers and Chorus Girls." This is the first time we knew we had a chorus girl in Coleman County.

**THE FIRST PLACE AWARD** received by The Santa Anna News from the Texas Press Association, is held by editor/publisher Bob Parker and admired by production man Kenneth Minyard and advertising manager Nora Robinson. In addition to the first place award for column writing, the paper also tied for first in the statewide general excellence award. On the left is a certificate awarded to the paper by the Texas Press Association and the University of Texas School of Journalism in recognition of more than 50 years of journalistic service by The News.

## NEWS Receives First Place Award In Texas State Newspaper Competition

The Santa Anna News tied for first place in state competition for the Texas Press Association General Excellence award for 1964, and won first place in the Column Writing competition.

News Editor/Publisher Bob Parker received the award at the annual meeting of the Texas Press Association, in Dallas, Friday and Saturday, June 18-19.

The paper received a large plaque engraved with a replica of its front page, with the words: "Awarded—Santa Anna News, Santa Anna, Texas, For Outstanding Achievement In The Field Of Journalism, First Place, Texas Newspaper Contests, 1965, Column Writing Contest—Division VII, For Weekly Newspapers Published In Towns Of 2,000 Or Less Population. Sponsored By The Texas Press Association."

Only four other weekly newspapers in this size classification received first place awards in the competition: The Bovina Blade, in the Appearance category; the Clear Lake City Suburban Journal, in the Editorial category; the Elkhart Eagle, in the News Pictures category; and the Mount Vernon Optic-Herald, in the News Writing category.

Competition in the statewide contest is divided into seven divisions, based on the size of the newspaper entered. Division I is for daily newspapers published in towns of 15,000 to 150,000 population; Division II for daily newspapers in towns of less than 15,000 population; Division III for semiweekly (twice a week) newspapers; Division IV for weekly newspapers in towns of more than 6,000 population; Division V for weekly papers in towns of 3,501 to 6,000 population; Division VI for weekly papers in towns of 2,001 to 3,500 population; and Division VII for weekly newspapers in towns of 2,000 population or less.

Division VII, in which The News completed, had the largest number of entries of any of the seven divisions. In commenting on the award to The News, Parker said: "We are proud to receive this award, since we feel that a weekly paper is a reflection of the community it serves, and any recognition received by the paper is really recognition of the community. This award points up our efforts to give Santa Anna the best newspaper possible."

## Jaycee Fishing Contest Gets Underway Next Week; Entry Tickets Now On Sale

The Santa Anna Junior Chamber of Commerce is sponsoring a fishing rodeo, to last throughout the remainder of 1965.

Under the rules announced by the Jaycees, entry in the competition will be by purchase of an entry ticket, available from any Santa Anna Jaycee and at the office of The Santa Anna News. This ticket entitles the holder to compete in the contest for the rest of the year. Prizes will be awarded in two categories, bass and catfish. There will be three prizes awarded in each category, going to the fishermen who catch the three largest fish in each classification during the contest. Size of fish is to be determined by weight rather than by length, and all fish must be caught in fresh water within the borders of Texas.

A contestant must have purchased an entry ticket in the contest prior to the time the fish was caught. Every fish to be entered in the competition must be brought to the offices of the Santa Anna News for official weighing.

Any variety or specie of either bass or catfish is eligible under the rules of the competition.

Entrants must keep their entry ticket, as weight of fish and date caught will be entered on the back of the ticket when the fish is officially weighed in The News offices.

Photographs of the leading fishermen, with their catches, will be published in The News, along with information each week listing the current leaders in each category.

There will be an important meeting of the membership of the Santa Anna Junior Chamber of Commerce this Thursday, June 24, at 7:30 p.m. in the Santa Anna Lions Club Building. All

Jaycees are urged to attend in order to make final arrangement for the fishing contest and to receive their entry tickets for sale.

## County Guardsmen Back From Training

Coleman County National Guardsmen, members of Company A, 1st Battalion, 142nd Infantry, 36th Infantry Division, returned home Sunday, June 20, from Fort Hood, where they spent 15 days of fast-moving military training.

The County's Guard unit narrowly missed returning home again this year with the coveted "Outstanding Unit" trophy. The prized trophy was won this year by Company B of the 1st Battalion, Company B is located in Ballinger and Brady.

Specialist 4 Joe Faries, a rifle platoon member, received the trophy, awarded this year by Bob Turner's in Coleman, as the Outstanding Enlisted Man of Company A at annual field training. SP4 Faries is married to the former Faye Dobbins, and is employed in civilian life at Leslie Dobbins Service Station, in Coleman.

One of the highlights of annual field training for Santa Anna's weapons platoon, was a livefire range firing with their 105 mm. recoilless rifles. Many VIP's were present to observe this range, including the commanding general of the US Fourth Army.

Local Guard officials feel that the unit did well, rating high in their Army Training Tests, daily ratings by regular Army evaluators, and in their overall performance and ability to get the assigned job done.

Attend church regularly.

## Next Monday To Begin Operation Headstart Here

Cullen N. Perry  
Superintendent

The Santa Anna unit of Project Head Start will begin operation Monday, June 28, at the Santa Anna Elementary School. This program under the Office of Economic Opportunity was basically designed to aid children in orientation toward work and circumstances they will experience in school beginning the following September.

The local program will be operated and is planned for 25 students who will attend the Santa Anna schools during the 1965-1966 school year. The general supervision of the project will be under the Superintendent; and Mrs. Martha Perry and Mrs. Leta Parker will be the instructors for the four week period during which the class will operate. It is anticipated that the students will spend 30 hours per week in class and will be given instruction in the use of the tools of learning along with the general activities normally found in basic kindergarten classes. Mrs. Christine Pope will supervise the lunchroom where the children will be provided their noon meal without cost. Two bus drivers will be used to assist in transportation of out of town children to the school building and it has not yet been determined who these drivers will be; this decision waiting on a final study of the location of the children to be transported. Some voluntary assistants will be needed from parents and medical people. The school nurse will work with the children for a period of five days and the school counselor will work in the program when needed, but she will spend the majority of her time with the parents. A schedule is being prepared for volunteer workers, and it is hoped that this assistance will be readily available to the program.

It is intended that physical, dental, and eye examinations will be performed by qualified people during the period in order that any aid needed for the coming school year may be already determined and the opportunity be given for corrections to be made.

The office of Economic Opportunity contributes most of the cost of this program and there will be no charges to the students. The school district is required to contribute at least ten percent value in kind through service, supervision, facilities, and other aid to the program. It is planned that the special milk program will operate during the month of the program; however, the school may need to ask for the community's assistance on this project because the amount of aid available has not been made clear.

Parents of children who will participate in Project Head Start are requested to meet at 8:00 p.m. Friday, June 25, at the Elementary School. The purpose of this meeting is to make the parents fully acquainted with plans for the project, to complete plans for transportation, to organize a part of the volunteer help, and to have the parents visit the rooms planned for the project.

It is believed that this program is of great benefit to children who are entering school for the first time in September. Under the Office of Economic Opportunity it is probably that a pre-school program may continue for five year old students during the 1965-1966 school year and a successful operation under Project Head Start will provide encouragement for the program of the future.

The contestants of the recent Santa Anna bond election, whose suit against the city was decided in favor of the city last month by District Judge Joe Dibrell, in 35th District Court, have posted an appeal bond with 11th District Court of Civil Appeals, in Eastland. This is the preparatory step to filing an appeal brief.

The appeal bond, which is established to guarantee payment of court costs for the appeal, was set at \$1,000. Appellants listed were the five Santa Anna citizens who were involved in the original suit: Leland Thompson, Homer Goodgion, Maggie Culver, Lela Campbell, and Dan Blake. Sureties on the bond, persons guaranteeing the payment of the bond, are listed as C. D. Bruce and L. A. Welch.

Transcript of the hearing before Judge Dibrell, along with his decision in the case and his findings of fact, must now be sent to 11th District Court of Civil Appeals. This must be done within 60 days of the date of the original decision, which was May 24, making the deadline for submission of this material July 23.

At this time, attorneys for the

## Newspaper Cited For Free Job Ads

The West Texas Publisher Magazine, monthly publication of the West Texas Press Association, carried an article in its June, 1965 issue about the free student employment classified ads now running in The Santa Anna News.

Text of the article follows. "The Santa Anna News is offering a student-employer job exchange section in the classified department during the summer as a public service."

"The service will work both ways. Employers may advertise for jobs they have available and students may list their availability and qualifications. Limit is 20 words or less."

"Bob Parker, publisher, said he recognized that it is sometimes difficult for potential employer and employee to get together and this method is being offered as a public service."

This special advertising department is still being published in the classified section of the newspaper, and all persons having either regular or odd job employment available for students are urged to read the ads contained therein. The News will continue to list jobs available, and to publish ads for young people seeking employment, at no cost, throughout the summer. Call FT 8-3545 to place such an ad in this free section.

## BLOOD STILL NEEDED

Mrs. Bill Hunter, of Santa Anna, who underwent surgery for a liver condition on Tuesday morning, June 22, at John Sealy Hospital, in Galveston, is still in need of six pints of blood, which may be donated at the Abilene blood bank.

**NEW SEVENTH DAY ADVENTIST MINISTER** for Santa Anna, Elder H. B. Petry, is pictured here with Mrs. Petry, and daughters JoAnn and Virginia. The Petrys come to Santa Anna from Wichita Falls.

appellants will file a brief with the Court of Civil Appeals, setting forth their reasons for appealing, quoting such law and precedent as they feel applies to the case. Attorneys for the city will then file an answer to this brief, and a date will be set for hearing oral arguments. Following these arguments the Court of Civil Appeals will make its decision. This decision can take one of three forms. The court can uphold the decision of the lower court; it can reverse and remand, which means that the decision is reversed and the case is sent back to the lower court for rehearing; or it can simply reverse the decision, finding in favor of the appellants.

Hal Woodward, attorney for the city of Santa Anna, plans to request an early hearing on the appeal. Under law, election contest appeals take precedence over most other types of cases, and are moved to the top of the court's docket.

The election contest grew out of a bond election allocating \$264,000 for needed improvements to the Santa Anna water and sewer systems. Of this total, \$64,000 will be used to add another filter unit to the city treatment plant, guarding the city against water shortages and possible water rationing during dry months. The remaining \$200,000 will be used to construct a modern sewerage treatment plant for the city. The present city septic tank has been declared a health and pollution hazard by state health officials, and the city has been informed that other sewerage treatment facilities must be constructed.

The treatment plant to be built with revenue from the bond issue provides adequate present and future treatment facilities at the lowest cost to the city and its taxpayers. The bonds okayed by voters in the city election of February 26 will be financed under government loan, allowing the city to obtain the lowest interest rate possible, and saving taxpayers more than \$50,000 in interest payments over the life of the bonds.

The decision in the May 19 trial in 35th District Court states that no fraud was involved in the election, and that results of the voting would stand, with the subtraction of two unqualified voters from the total of those voting for the measures, and removal of one unqualified voter from the list of those voting against.

City officials expressed confidence Wednesday that the decision of 35th District Court would stand up in the 11th Court of Civil Appeals.

## Singing Convention Set For Next Sunday

The McCulloch County Singing Convention will meet at 2:00 p.m. on Sunday, June 27, at the Northside Baptist Church, in Brady. The church is located on North Walnut Street.

An invitation has been extended to everyone to attend this regular event.

## BEEN SHOPPING LATELY?

Sure! People go shopping for many things. Even a Church! But, then, they take Dad along!

Before you go shopping for a Church, make sure you know what you're looking for. For a Church isn't a theatre to provide entertainment, nor a club to fortify one's social position, nor a foundation to channel our charities.

A Church is a SCHOOL that trains whole families in spiritual perception. It is a FACTORY that makes earnest Christians. They're in evidence all over town.

A Church is a TOWER, giving a glimpse of life's horizons, far beyond the petty problems of each day.

A Church is a WORK-SHOP where one volunteers his talents in the most challenging tasks that confront humanity.

And, of course, a Church is HOME — the place where we're appreciated, where we're one of the Family!

But it doesn't hurt to admit that in one respect our churches are like our stores: There wouldn't be one in town if we didn't need what they offer!

## Local Assessor-Collector's Office Has Several Personal Plate Applications

Three or four applications for the new personalized auto license plates, recently authorized by the Texas Legislature, have been filed through the Coleman County Tax Assessor-Collector's office, John Skelton told The News Tuesday.

The new plates may be ordered in any combination of one to six letters or numbers. The licenses are issued on a first come, first served basis. They may be ordered in a number of combinations: One to six letters; two letters followed by one to four numbers; three letters followed by one number; four letters followed by one or two numbers; five letters followed by one number; one number followed by one to five letters; two numbers followed by one to four letters; three numbers followed by one to three letters; four numbers followed by one or two letters; five numbers followed by one letter; and any other combination of letters and numbers, providing that such combination does not conflict with the numbering system adopted by the state for regular vehicle registration.

Fee for the new personalized plates will be \$10.00 in addition to the normal registration fee.

Personalized license plates may be issued only to vehicles now registered in the state of Texas. When the plate has been approved, it will be shipped to the local tax assessor-collector and a letter will be sent to the vehicle owner, notifying him that the plates have been issued. He must then take his current plates to the assessor-col-

Mrs. Carmen Donham and H. A. Burden were installed in the highest position, in a subordinate chapter, of the Order of Eastern Star, on Saturday night, June 12, at an open installation in the Masonic Hall, when they

became worthy matron and worthy patron, respectively of Santa Anna Chapter No. 247. The Hall was decorated for the occasion. The setting, decorations, and appointments were in keeping with the worthy

matrons theme of "Love". Upon entering the hall, attention was focused on the background in the East, where a large red rose glittered in gold, and centered with a gold chalice, her "emblem" for the year. Red, blue, yellow, white, and green candles and red roses were on the altar. The secretary's desk was decorated with an arrangement of red roses. On each pedestal head, candles of star point colors, and flowers appropriate for each star point were in crystal holders. Baskets of red roses, white daisies, and red hurricane candles finished the decorations.

Mrs. Richard Bass entered with her retiring officers, in white floor length formal. Each carried a pink circle, emblem of eternity, centered with pink roses, and pink and white ribbon. The candlelighting ceremony was conducted by Marty Donham and Jessie Oakes, members of DeMolay. Marty Donham presented the Bible, a Masonic Bible, given to Mr. and Mrs. A. D. Donham in 1958 on their birthdays, by Mr. Donham's mother. Mrs. Margaret Mobley presented the musical prelude.

The Lord's Prayer was repeated in unison, then the Pledge of Allegiance to the Flag, and then the National Anthem was sung.

The welcome was given by Mrs. Richard Bass, outgoing worthy matron. Mrs. W. W. Polley, deputy grand matron of District 3, Section 5, was presented and escorted to the East. Mrs. Polley was introduced as installing officer, and she in turn introduced her assisting

officers, Mrs. Henry Newman, installing chaplain; Mrs. Zuda Henderson, installing marshal; Mrs. Fannie Bryon, installing organist.

The installing ceremony began with the march of the incoming officers led by Mrs. Zuda Henderson. Officers installed were: Worthy matron, Mrs. Carmen Donham; worthy patron, H. A. Burden; associate matron, Mrs. Roy West; associate patron, Richard Bass; secretary, Mrs. Cliff Herndon; treasurer, Mrs. Blanche Grantham; conductress, Mrs. H. A. Burden; associate conductress, Mrs. J. T. Avants; chaplain, H. W. Gray; marshal, Jack Bostick; organist, Mrs. Zuda Henderson; Adah, Mrs. Montie Guthrie; Ruth, Mrs. Murray Cooper; Esther, Mrs. Elroy Smith; Martha, Mrs. Richard Bass; Electra, Mrs. Jack Bostick; warden, Mrs. Nora Goen.

The newly elected worthy matron and worthy patron gave the address on "Love," using I Corinthians 13:13 as the scripture.

The Chapter jewels were presented to the outgoing worthy matron and worthy patron, Mrs. Richard Bass and Daniel Tindol. The officers retired.

An informal reception followed in Fellowship Hall, where pink punch, cake, and nuts were served. The refreshment table was laid with a cutwork cloth, centered by a star-shaped arrangement of white gladiolus, with a large red rose in the center. Mrs. Henry Newman served 23 members and the following guests: Mrs. W. W. Polley, Mrs. J. T. Laird, Mrs. Clifford Moore, Mrs. Mildred Pittard, Mr. and Mrs. D. H. Williams, Mrs. Bessie Bowen, Miss Jewell Copeland, and Mrs. Marion Lusk, all of Coleman; Mrs. Maggie Grady, Mrs. Victoria Cox, and Mrs. Eulalia Edington, of Indian Creek; Mrs. Marion Lafferty, of Richland Springs; Mr. and Mrs. Alvin Bostick, of Fort Worth; Mrs. Mary Lea Clifford, of El Paso, and Mr. and Mrs. Jessie Oakes, Rev. Don Rutherford, and Mrs. Calvin Campbell, all of Santa Anna.

## THE BIG INCH

The ruled box above is a one-inch ad. It measures one column wide by one inch deep. It costs advertisers 45 cents.

It looks kind of lonesome by itself.

But look at it this way:

What you get when you buy a one inch ad in **The Santa Anna News** is not just a single space in the paper, but one inch multiplied by more than 1,000 copies each week. And by more than 4,000 readers each week.

So you are really buying 1,000 inches, which (at 120 column inches per page) would be some eight and one-third pages of printed newsprint.

That is a mighty big chunk of space to cost 45 cents. Just imagine trying to reach all those **Santa Anna News** readers by postcard. It would amount to more than \$160 just for the postage. But **The News** does it for just 45 cents.

So you can see that a little one inch ad is a big inch when it is advertising space in **The Santa Anna News**. And two inches will tell your story twice as well as one, and four will get your message across four times as well, and so on. It is the most effective and economical way possible to let people in this area know that you have wares and services they could use.

Call FI8-3545 and let our advertising representative show you how our big inches of advertising space can be a big salesman for you.

**EDITORIAL**

**A City Divided**

Jesus Christ said, "Every kingdom divided against itself is brought to desolation; and every city or house divided against itself shall not stand."

Benjamin Franklin said, "We must all hang together, or we shall all hang separately."

And Abraham Lincoln echoed the words of Jesus: "A house divided against itself shall not stand."

It is indeed unfortunate that a small group of persons in Santa Anna cannot understand this simple truth, a truth that has been repeated by great men down through the ages.

But this small group has taken another step on the road to dividing Santa Anna against itself. Not content with their day in court, apparently determined to do all the damage they can, they have appealed the decision of District Judge Joe Dibrell to the Court of Civil Appeals.

They seem determined to divide our city, to cause it to fall. In fact, one local resident, a man who is a financial power behind this election contest trouble, but a man who has been careful not to allow his name to be publicly connected with the contest, was quoted recently as saying: "If this contest fails, I will do all I can to destroy Santa Anna piece by piece."

This is quite a responsible attitude for a citizen of our city! For one, **The Santa Anna News** does not want to see our city "destroyed piece by piece." And we are opposed to anyone who does.

Because of the discension stirred up by the group promoting the election contest action, Santa Anna has had approximately 40 job openings, in the new medical center, delayed for at least six months. These jobs would have been filled beginning June 1, with preference given to local high school graduates and other local people. The city, and the local economy, lost about \$50,000 in salaries that would have been paid to these workers because the election contest problem necessitated a delay in filling the jobs.

Because of the civic blackeye Santa Anna has received from the actions of this little clique of unhappy citizens, the city lost a three million dollar school that was to have been built here, a school that would have added \$750,000 more income to the businesses of Santa Anna every year. This school is now being built in the city of Crockett, where the citizens are more interested in improving their community and their way of life than in bickering over personal antagonisms and religious prejudices, which is what the bond election controversy has become.

It is sad when a small group can put their personal bitterness and prejudice before the good of the people as a whole.

It is time that the good people of Santa Anna put an end to all the foolishness that has been going on. If all the citizens of our city who are interested in the progress of Santa Anna would let it be known that they are opposed to the selfish actions of this little group that is putting personal hatreds ahead of civic responsibility, it will go a long way toward solving the dilemma in which we find ourselves today.

**FIVE YEARS AGO**

The Rattlesnake population has been taking a beating this week in 1960, as Roy Bible personally accounted for nine of the rattlers, according to the paper for June 17, of that year.

A case of rabies was discovered in a dog belonging to family living on the edge of Santa Anna, reports the paper, noting that the animal was disposed of, and that it is felt that no other animals have been infected.

H. B. James and Buck Mitchell caught a number of good-sized fish on Mukewater Creek, including two yellowcats, weighing 22 pounds and seven pounds, along with a number of bluecats weighing three to five pounds.

**TEN YEARS AGO**

The new Northside Church of Christ, in Santa Anna, will have its formal opening next week, with services on Sunday, Monday, and Tuesday, according to **The News** for June 24, 1955. Herb Swinney, of Abilene, is minister of the new church.

Private Aubrey R. Goodwin, son of H. C. Goodwin, of Santa Anna, is currently stationed in Germany with the 4th Infantry Division.

James Weldon Simpson, of Rule, has been hired by the Board of Trustees of the Santa Anna Independent School District to fill the vacancy left when Cullen Perry became Superintendent.

**TWENTY YEARS AGO**

Technical Sergeant Wyndell Rowe, son of Mr. and Mrs. Pierre Rowe, of Santa Anna, has been awarded the Bronze Star as a result of action in France, says the paper for June 22, 1945.

The Texas ExRangers Association will hold its annual reunion at old Ranger Park next week. All members of this group

saw service as Texas Rangers prior to 1900.

**TWENTY FIVE YEARS AGO**

Amze Gamlin, of Petrolo, and Royce Sewalt, of Brooksmith, have been selected as the match ropers for the Fourth of July Rodeo, in Brady, notes **The News** for June 14, 1940.

Grasshoppers must run in 25 year cycles, since the paper for this week 25 years ago tells of the distribution of poison in the County in an effort to control the hungry insects.

Congressman Charles L. South, of Coleman, is opposed for the Democratic nomination in this year's primaries. He has served this district in Congress since 1934.

Ratio of marriages to divorces in Coleman County so far this year is one in three.

**THIRTY YEARS AGO**

Dr. T. Richard Sealy has been elected first president of the new Fellowship Club at First Methodist Church, in Santa Anna, according to the paper for June 21, 1935.

George M. Johnson, D. L. Pieratt, Rev. Hal Wingo, A. G. Weaver, and J. J. Gregg were in Austin this week on city business.

The old days really were better, says the paper this week, because there were not so many of us around to start trouble.

**FORTY YEARS AGO**

Condition of the cotton crop are not very good in the Santa Anna area, according to the paper for June 19, 1925. The small grain crops were also poor this year.

Mrs. R. D. Kirkpatrick, and daughters Jettie and Dora, were visiting with the R. D. Kirkpatrick, Jr. family this week.

Sam Cupps has returned to his home in Tulsa, Oklahoma, after a visit with his brother, R. V. Cupps, here.

GULP!

**LAWYERS IN PETTICOATS**

Chief Justice Ryan, of the Supreme Court of Wisconsin, could hardly have been more scandalized. Think of it! A young woman—unmarried, at that—wanted a license to practice the ancient masculine profession of law. He rejected her application in no uncertain terms:

"It would be revolting to all female sense of the innocence and sanctity of their sex, shocking to man's reverence for womanhood, that women should be permitted to mix professionally in all the nastiness of the world which finds its way into courts of justice."

But the year was 1875, and the tide of feminism was starting to rise. Four years later, the same Wisconsin court (with Chief Justice Ryan still protesting) finally did accept the young woman as a lawyer.

By 1920, women were practicing law in every state in the land. Today, more than 7,000 are licensed to practice and many of them sit on the bench as judges. It was cause for only mild surprise that the judge who swore in Lyndon Johnson as president, 99 minutes after President Kennedy's death, was a woman.

True, women still play a relatively minor role in the legal profession. Many large offices flatly refuse to hire female attorneys. No doubt some of this hostility reflects the view expressed 2400 years ago by Euripides, that "a woman should be good for everything at home, but abroad good for nothing."

But men also argue that women don't stick to law, that they are too emotional, that they make clients uneasy, and even that they can't keep secrets.

Women reply that, if they do frequently quit practicing law, it is because of the hardships imposed by male prejudice. They point to impressive academic achievements, and contend that feminine qualities enrich, rather than obstruct, the administration of justice.

On the merits of these arguments, this column takes no position. As a practical matter, women have found their greatest

opportunities in certain areas of law: domestic relations, legal aid, research, insurance, taxes and estates, government. Some have even won fame (Chief Justice Ryan would shudder) in the field of criminal law.

And on one point, at least, there can be no dispute. In the law's traditional symbol, the scales of justice are held aloft by a woman.

Are you safe at home? Hardly.

You're safer at a nuclear reactor site than you are in your own home, according to statistics. The nuclear industry has one of the best safety records on the books, less than ten deaths in twenty years.

Accidents in the home and on the way there are, on the other hand, among the leading killers of people. Motor vehicle accidents, falls, fires and similar accidents account for nearly 6,000 deaths yearly in Texas, and over 90,000 deaths in the nation.

An industrial hygienist commented recently that a worker's chances of accidental injury increased when he left his place of work. One study found seven off-the-job accidents causing absenteeism for every one happening on the job.

Every four minutes someone is permanently disabled, and every 16 minutes someone is killed by an accident in the home.

Falls account for most fatal home accidents. Next in order of frequency are burns, scalds, explosions, mechanical suffocation, poisonings, gas, and firearms.

The only way to avoid accidents is to prevent them with forethought, planning ahead—simply using your head.

No one is immune to falls, burns, cuts, or other similar injuries. If you step on a chair to get dishes out of a top cabinet or to change a light bulb, your chances for a fall are considerably higher than had you used a sturdy stepladder.

Taking a chance on throwing gas on a smoldering fire, using a faulty appliance just one more time, or attempting to adjust power equipment while the motor is running aren't even "calculated risks." They are just chances unnecessarily taken.

And, among children and youth, accidents are the leading killer. As adults, it is our responsibility to protect a baby completely through about 14 months of age, and then begin to train a child—slowly but surely—to avoid accidents and to protect himself.

Give a little time and thought to making you and your family safe at home.

**State Capital NEWS**

A total of 33 interim study committees were created during the recent legislative session.

Meetings of these committees will bring most of the legislators back to Austin during the next 18 months.

Studies will cover a wide area, ranging from state and local tax policy to such subjects as livestock auctions, and restoration of Santa Anna's battle flag.

All but three of the legislators who are appointed to the interim panels will be eligible to draw travel expenses to and from meetings. In addition, some study panels are furnished staff funds.

Some committees will delve into: Election laws, juvenile crime, rights of news media in reporting on persons charged with crime, liquor laws, the nursing profession, problems of farmers and ranchers, feasibility of a Pleasure Island State Park, public education, facilities for the criminally insane, and need for modernizing state fair facilities.

**GOVERNOR VETOS SPENDING**

Governor John Connally red penciled \$2,600,000 of what he termed nonessential items in the \$3,600,000 state budget for 1966-67.

Connally said he felt the Legislature in general appropriated wisely, but he line-item vetoed:

- \$1,100,000 for one of three new buildings at Angelo State College, San Angelo.
- \$300,000 from a total of \$800,000 for a museum at Washington State Park.
- \$200,000 for state aid to airport construction.
- \$200,000 for further improvements at Dam B State Park, near Jasper.
- \$275,000 for boll weevil eradication.
- \$126,000 for salaries in the new Department of Mental Health and Retardation.
- \$138,000 for water system improvements at Rusk State Hospital.
- \$12,000 a year for a new special services director in the Parks and Wildlife Department.
- \$5,000 for stream flow measurement in Upper Red River Flood Control and Irrigation District.
- \$30,000 for John E. Connor Museum at Texas College of Arts and Industries, Kingsville.
- \$39,200 for doctoral-level instruction at East Texas State University, Commerce.
- \$110,000 for forestry research at Stephen F. Austin State College, Nacogdoches.

Connally also vetoed a bill which would have made the lieutenant governor a member of the powerful State Building Commission in place of the State Board of Control chairman.

**REDISTRICTING URGED**

Governor Connally has reluctantly signed new district court bills for Lubbock, Dallas, El Paso, Harris and Tarrant Counties. He said the next Legislature should address itself to the matter of judicial redistricting.

"While there is merit for new courts in these specific counties," Connally concluded, "when the state is taken as a whole, there are sufficient judges to carry the existing workload."

**RETARDATION STUDY SET**

Task forces soon will begin evaluations of recommendations by 55 mayors' commission on the new Texas Plan to Combat Mental Retardation.

Groups will study education, finances, legislation, health services, manpower, organization, coordination, public awareness and action, research and training, residential day care, vocational rehabilitation and employment, and welfare services.

Nucleus of task forces will come from members of the Governor's Advisory Committee, according to District Judge Herman Jones, of Austin, committee chairman.

**INTEGRATION QUICKENS**

School systems are integrating faster under threat of lost Federal aid, Texas Education Agency Reports.

To be eligible for shares of \$80,000,000 in Federal aid under the 1965 Civil Rights Act, districts must give assurances of having plans for integration. Total integration isn't required until September, 1967.

TEA official says 1,150 districts have signed promises to comply with the Civil Rights Act, and 125 more have filed plans for future racial desegregation.

**SUMMER PROGRAMS APPROVED**

Governor Connally announced approval of seven more Neighborhood Youth Corps projects for summer employment, at \$1 per hour.

Projects will employ 1,866 youngsters in schools, parks, offices, and hospitals in El Paso Independent School District, Rio Grande City Independent School District, City of Childress, Comanche County Board of Education, Taylor County Schools,

Stonewall County, and San Patricio County.

Connally also approved five additional Project Head Start grants from Office of Economic Opportunity for summer programs for underprivileged preschool children. Authorized grants now total 159.

Latest projects approved are in Amarillo, Hale Center, Paint Rock, Pleasanton, and Van Alstyne. Panhandle and South Plains Venture for Aiding Needy Children's Education, Inc. is in charge of Amarillo program. Schools will operate in the other four.

**COURT SPEAKS**

Third Court of Civil Appeals now has ruled that the Guadalupe-Blanco River Authority is entitled to 50,000 acre feet of water a year from Canyon Dam Reservoir, near New Braunfels.

Court of Criminal Appeals, overruling a Kleberg County district court, held Paul Eric Krueger, 17 year old Californian, is entitled to \$15,000 bail on each of three charges in a triple slaying.

**SHORT SNORTS**

A county can participate in cost of operating a zoo on property jointly owned by city and county, Attorney General Waggoner Carr held in an official opinion requested by District Attorney Don Hall of Waco.

Houston Research Institute, Inc. has been named to conduct study on feasibility of locating synthetic fiber plants in Texas, Texas Industrial Commission announces.

Texas Employment Commission is booming Youth Opportunity Month, with a state goal of 25,000 summer jobs for youngsters in the state.

Republicans are studying possibilities of testing new redistricting bills in court, according to State GOP Chairman Peter O'Donnell, Jr.

State draft quota of 908 for July, highest in early four years, will be filled mainly by men who are volunteers under 26 and nonvolunteers 19-25.

Chief Justice Robert W. Calvert announced that the nine new members of Supreme Court of Texas Advisory Committee are Clark Anderson of Lufkin; Joe Bruce Cunningham, Fort Worth; Frank L. Jennings, Graham; W. James Gronzer, Houston; George W. McClesky, Lubbock; Tom Sealy, Midland; Jack Skaggs, Harlingen; Russell Talbot, Houston; and James C. Watson, Corpus Christi.

Read Ephesians 2:1-10

Keep in the love of God, and wait for the mercy of our Lord Jesus Christ, to bring you to eternal life. Those whom you pity in their uncertainty save, snatching them out of the fire.—Jude 21-22 (Goodspeed)

In writing his classic book, "The Greatest Thing In The World", Henry Drummond gave us one of the most powerful analyses of love ever written.

To some missionaries leaving for their fields of work, he said: "You can take nothing greater... than the impress and reflection of the love of God upon your character. That is the universal language... From the day you land, that language of Love, understood by all, will be pouring forth its unconscious eloquence. It is the man who is the missionary, it is his words. His character is his message."

One ingredient of God's love is His compassion, His pity, His mercy. As we turn to Christ daily and ask for this quality for ourselves, we grow in compassion; and the spiritually needy around us will come to us, sensing our care. We are able to lead them to Christ, who can satisfy their every need.

**PRAYER**

Our Father, may we have divine compassion for others—compassion which will draw them to You for new life, new decision, new service. May You never diminish until Your will rules in the hearts of all men and nations. Through Jesus Christ our Redeemer. Amen.

**THOUGHT FOR THE DAY**

"The one great need in our Christian life is love, more love to God and to each other."

### 'Right To Keep And Bear Arms'

The following editorial appeared in the August, 1965 issue of Shooting Times Magazine. We think it outlines very well the dangers to all hunters, target shooters, and others interested in firearms found in Senate Bill 1592. Read it, and if you agree, a letter to your US Senator (John Tower and Ralph Yarborough) might do a lot toward protecting your right to "keep and bear arms" as guaranteed in the Constitution.

How will Senate Bill 1592 affect you? Look at the answers to these questions?

—Order a gun by mail? Absolutely not! You will not be allowed to order a gun of any kind by mail or even, for all practical purposes, from a store in another state.

—Ship a gun to someone in another state? No dice—you will be forbidden to send any gun to an individual in another state, even as a gift or loan to a friend or relative.

—Send a gun in for service? Maybe. However, just to send a gun to the factory or gunsmith for "authorized service" you would have to fill out such forms as the Treasury Department might require (remember that income tax return?) There is no provision for sending a gun away for a ventilated rib, choke device, rebarreling or restocking.

—Ship your gun ahead on a trip? Yes, but . . . If you wanted to send a gun or guns to your destination for hunting, a trap or skeet shoot, rifle or pistol match, you would have to fill out whatever forms might be required.

—Buy your ammo when you get there? Better take it with you! The small town store where you used to pick up a box or two of ammo probably won't stock it any more. The \$100 per year license fee will drive him out of the gun and ammo business—even .22 rimfires.

—Have your gun fixed by a neighborhood gunsmith? He'll be out of business too. Same \$100 reason.

—Buy reloads at your gun club? Not much chance! They'll be subject to an annual \$500 manufacturer's license fee, it would appear.

—Buy a new gun without red tape? Are you kidding? The dealer must be positive of your true identity and place of residence; that you're over 21 if buying a handgun, 18 for a shotgun or rifle; and that there is no state or local law that would bar you from buying the firearm. Are you prepared to prove all of this on the spot? The dealer will be a dope if he doesn't insist on proof. He's flirting with up to a \$2,000 fine, as much as five years in the federal pen, or both.

DID YOU KNOW THAT:

The first capitol building at Austin was partially built from logs and sawn lumber obtained at Bastrop, in the heart of the Lost Pine area, according to the Texas Forest Service. Today, wood production from the pine-hardwood area furnishes much of the economic life blood of the state.

## PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

How can we attract new business and industry to our town?

First, a town must have an active community development program.

Recent WTU ads have told the story of exceptional community development activities in Stamford, Childress, Robert Lee and Balingier. These towns, among others served by WTU, are engaged in continuing local development programs, which make them better places to live, work and play. Of more importance, these towns know that community development is the vital and basic first step in attracting tourists and industry for further economic development. They are all PATTERNS FOR PROGRESS. WTU is proud to be a part of these growth conscious towns. Your local WTU manager can obtain additional assistance for your towns.

WTU's area development representatives are available to assist communities in planning community development programs

### Four National Guardsmen To Aid Austin OCS School

Four members of Company A, local Army National Guard unit have been chosen for a short active duty tour, as support personnel for the annual Texas Army National Guard Officer Candidate School.

Each state is authorized to conduct their own Officer Candidate School (OCS) in compliance with Department of Army directives, as a means of obtaining, and training, their own supply of junior officers for their state National Guard program. Texas conducts this OCS program at Camp Mabry, in Austin, and obtains their cadre personnel, such as instructors, supply personnel, administrative personnel, cooks, and so forth, from the National Guard units within the state, to serve as support personnel in an active duty status for this school.

Technical Sergeant James G. West, Staff Sergeant Robert R. (Bob) Turner, Sergeant First Class Howard (Wayne) McDorman, and Specialist 4 Eddie F. Copeland, are members of the local unit that have been appointed to serve in this capacity as support personnel for this year's Texas state OCS program in Austin. This is a 15 day active duty tour, beginning this next Sunday, June 27, and running through the 11th of July.

Local Guard officials feel that this is quite an honor for the local unit to have four men chosen for this duty, since numerous units in the state will not be represented at all.
