### Whon News

By Mrs. Tom Rutherford

Cleburn Stanley stated he really killed a big rattlesnake (today) Monday close to the ranch house of Mr. and Mrs. Ben Yarborough here. The snake seemed to be settled down comfortably in a tool house. Just a warning to continue to look for the poison intruders. Lynda Rutherford of Abilene spent the week end with her parents, the Tom Rutherfords. Saturday night she spent with Mr. and Mrs. Lloyd Rutherford and baby girl, Tonna, in Coleman. Mr. and Mrs. Riley McFarlin were Saturday night visitors with Mr. and Mrs. Aaron Avants. They played dominoes. Mr. and Mrs. Hart Hamsley and children, Terry and Beth, of Dallas, Mr. and Mrs. Randy Brown and son, C. W., of Brownwood were week end guests of the ladies' parents, Mr. and Mrs. Cleburn Stanley. Dave Shields of Cross Plains, and Calvin Shields of Santa Anna visited with their brother, Sammy Shields, and also with Mr. and Mrs. Tom Rutherford Sunday afternoon. Mr. and Mrs. Aaron Avants were shopping in Santa Anna Monday morning. Sammy Shields visited with Cooter Fellers of the Trickham community Monday afternoon.

### Trickham News

By Mrs. J. E. York

Mr. and Mrs. Fred Haynes and Miss Janie Estes of Brooksmith spent the week end at Alpine visiting with Billy Don Haynes, a student at Sul Ross College. The group did quite a bit of sightseeing. They drove over to Marfa where some of the country was rather desolate, then over to the McDonald Observatory which was about 40 miles from Alpine high up in the mountains. They then drove on to Fort Davis where they enjoyed the many impressive sites, the remaining buildings with the old stone foundations, many ruins, etc. Fort Davis played a major role in the history of the Southwestern frontier. From 1854 to 1891, troops based at the post guarded immigrants, stagecoaches and freighters on the San Antonio-El Paso road and contended with the hostile Comanche and Apache Indians whose plunder trails scarred the desert east and west of the Fort. Mrs. Haynes says they thoroughly enjoyed their visit there, and all of this is a vivid

reminder of a significant chapter in the history of the western frontier. Mr. and Mrs. Royce McIver and family of Midland and Mr. and Mrs. Terry McIver of Abilene spent Saturday night and Sunday with their parents and grandparents, Mr. and Mrs. Grady McIver. Mr. and Mrs. John Richardson of Bangs and Mr. and Mrs. Walter Stacy visited on Sunday with Mr. and Mrs. Eugene James. Mr. and Mrs. Oscar Boenicke visited in Brownwood Wednesday with Miss Pearl Ford and Miss Pauline Boenicke. Sunday afternoon visitors with Mr. and Mrs. Boenicke were Mr. and Mrs. H. B. Dockery of Brownwood and Mr. and Mrs. Antone Boenicke. Mr. and Mrs. Marvin Whitley were night visitors. Mr. and Mrs. Joe Stacy and Mr. and Mrs. V. J. Martin drove to Bangs Sunday afternoon and picked up Mrs. Zona Stacy at the Twilight Nursing Home and drove to Gouldbusk where they visited with Mrs. Sammie Harris. Mr. and Mrs. Lonnie Sockwell and his sister of Eden and El-nora Eckerley of Kerrville visited on Wednesday with Mrs. Minnie Wilson. Paul Martin was a Sunday dinner guest of Pat McShan Jr. in the home of his grandmother, Mrs. Russie James.

## Highway Film Gives Valuable Information

A new Texas Highway Department film dramatizing progress and problems for providing an adequate highway system for Texas is available now for showing to schools, service clubs, chambers of commerce and others interested in better highways.

"Texas Builds a Highway" is a 16mm sound and color motion picture. Running time is 28 minutes.

The new film affords an informative, thought-provoking program for service clubs and other organizations interested in highway development.

It is available on a loan basis from Highway Department district offices throughout the state. It also may be booked by writing the Texas Highway Department, Travel and Information Division, Box 5064, Austin, Texas 78703.

Oilmen use a specially concocted liquid known as drilling mud while they bore through the earth's subsoil. This mud, according to Petroleum Today, flushes to the surface the rock chips loosened by the rotating drill bit.

NAME.....  
ADDRESS..... PHO. NO.....  
CITY.....

Austin.—Gov. John Connally has given 3 of Texas' leading universities a hurry-up research assignment — a detailed analysis of food costs in the state and the causes of recent price increases.

Connally set December 1 as target date for reports by the University of Texas, Texas A & M University and Texas Tech College. He gave the assignment to the heads of the three schools and left it up to them how to conduct the study.

"I share the concern of Texans with the dangers of inflation," Connally said in announcing the study. "And I am particularly disturbed about mounting food prices, and their effect on the homemakers of our state."

Connally said, "While rash judgments and emotionally based opinions as to blame are inevitable, they contribute little toward determining cause, or a

sensible course of action for improvement of the situation."

Detailing his request, the governor asked for a determination of what part of the consumer's food dollar goes to the producer or grower, to the retailer, and how much goes for such things as transportation, advertising, sales incentives, added services and whatever other costs are involved.

He asked for that determination both on long and short-term basis, expressed both in absolute dollars and in percentages.

He also suggested that the food cost study be related to other consumer costs.

**GAS TRANSMISSION**

Texas' big gas pipeline operators disagree with their smaller colleagues over whether the state should assume regulation of the pipelines so the Federal

Power Commission will not.

Major interstate transmission companies contend that they are doing well under the present regulations of the USA Standards Institute under sponsorship of the American Society of Mechanical Engineers. But the companies which transmit gas on a part-time basis want state regulation.

Both sides are to file written statements with the Texas Railroad Commission by November 25.

**COURTS SPEAK**

The State Supreme Court rejected City of San Antonio's appeal for supplemental water supply from Canyon Dam reservoir on the Guadalupe River. Decision backed by a 1958 award by the predecessor to the Texas Water Rights Commission (and affirmed lower court decisions) providing 50,000-acre-feet of water a year to Guadalupe Blanco River Authority for municipal use.

Cities of New Braunfels, Seguin, Gonzales, Cuero and Victoria, along with Calhoun and Refugio Counties, joined GBRA in fighting the San Antonio application during the prolonged, historic water fight.

High court reversed the lower courts and ordered a retrial of the Lubbock land condemnation case where the jury awarded \$48,000 to owners without holding a hearing.

Texas Court of Criminal Appeals set November 9 for hearing on whether it should uphold, rather than reverse, the death penalty for Jack Ruby in the slaying of presidential assassin Lee Harvey Oswald. On October 5 the court held that Ruby should get a new trial.

**ROAD REVENUE HIGH**

Texas Highway Department has been informed that Texas is expected to reap \$456,000,000 in State highway-user tax revenues this year.

This would make Texas third among the 50 states in road revenue. California is expected to take in \$941,000,000 in 1966. New York's income will hit \$497,000,000.

Road-used taxes include state fuel and vehicle registration taxes, but not toll fees or parking-meter money.

came up with a tentative plan for regulating air pollution to start in 1967.

Plan includes air quality surveys and continuing studies particularly in urban areas, assistance in developing local programs, procedure for investigating complaints and plans for public education on pollution hazards.

Board is thinking about a graduated set of standards for industrial emissions from cotton gins, petrochemical plants, dry cleaning establishments and any other that could possibly add pollutants to the air.

Although the plan is directed toward pollution from smoke and particulate matter, board members indicated it would be made to apply to other air pollution sources after six to eight months compliance notice.

**TEACHERS SEEK RAISE**

Legislative committee of the Texas State Teachers Assn. has proposed a new plan calling for \$61 to \$100 per month raises in teacher pay minimums.

Proposals would cost \$85,000,000 the first year with the state paying \$68,800,000 and local school districts \$17,000,000.

TSTA committee also recommended increased benefits to retired teachers, minor retirement system change, clear legal status for voluntary teacher-school board consultation agreements, sick leave benefits, and a continuing contract and professional employment practices law to strengthen job security.

TSTA spokesmen said proposals are needed to combat teacher shortage.

**SHORT SNORTS**

Governor Connally announced approval of \$112,607 Head Start project grant for Del Valley Independent School District in Travis County, and \$147,209 for South Park Independent School District in Jefferson County.

The State Building Commission announced plans to expand the State Capitol area eastward several blocks to Waller Creek. Property will be

beautified and used for recreational purposes until needed for building.

Western Fire and Indemnity Company and Mid-Continent Insurance Company, Lubbock, have been rehabilitated and released from receivership, says Insurance Commissioner Clay Cotten.

Two new opinions by the attorney general held that Childress County or its hospital district may have custody of interest and sinking funds to retire hospital bonds and that separate columns on the same assessment blank may be used for assessing values of different local taxing units.

Rep. Gene Fondren of Taylor will head a new House committee to investigate feasibility of group insurance for state officials and employees.

**A team for a better Texas for you!**

Governor John Connally and Attorney General Waggoner Carr have worked together for 4 years to give Texas and YOU a better state and better opportunities.

As a United States Senator in Washington, Waggoner Carr will co-operate with Governor Connally to work for better education, more jobs, benefits for our elderly, and better prices for our farmers, ranchers and dairymen. He will do what is right for Texas!

**TEXAS IS ON THE MOVE!**

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

**IMPROVED EDUCATION** — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

**WATER RESOURCES DEVELOPMENT** — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

**CONCERN FOR THE AGED AND NEEDY** — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

**OUTDOOR RECREATION** — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

**INDUSTRIAL EXPANSION** — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion.

Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

**INCREASED TOURISM** — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

**MENTAL HEALTH AND MENTAL RETARDATION** — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

**BETTER HIGHWAY TRANSPORTATION** — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

**COMBAT AIR AND WATER POLLUTION** — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

**NEW CULTURAL GROWTH** — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

**BUSINESSLIKE ADMINISTRATION** — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

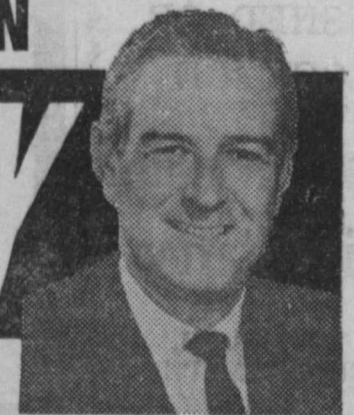

**HEALTHY, GROWING ECONOMY** — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!

### Official Asserts USDA Cotton Ruling Is Unfair

Farmers in the Rolling Plains are now receiving 1967 cotton allotment and projected yields. In 24 counties covered by the RPLC counties, 1967 yields exceed 1966 but not as much as they should. Most other counties in the State and other states are receiving increases of substantial amounts.

According to Charles Stenholm, executive vice president of the Rolling Plains Cotton Growers, some of the decreases in yield in a few counties in the Rolling Plains are justifiable but about 80% are not. "If you are a skip-row farmer and have been for the past five years, you are being unfairly, if not illegally, discriminated against by a ruling from the USDA. The ruling has the effect of saying that skip-row penalties in force during 1966 are also retroactively in effect from 1962 through 1965. In other words, if you planted cotton 2-1 (2 rows cotton - skip 1 row) in 1963, the Department is now saying that your planting pattern is now counted as 86% instead of 68% cotton as it was counted in 1963. When you divide this increased number of acres into your actual production, your pounds per acre must come down.

"If you are a skip-row farmer the pounds you have lost (1966 compared with 1967) plus the pounds you should have gotten in the new 1967 projection have been taken away from you by the ruling and given to solid planted areas of the State.

"The RPLC and the Fisher County Farmers Union have been actively working with the Department pointing out in the inequities of the ruling and the hardship it works on the skip-row farmer. The Department has re-opened the ruling but appears to be hesitant about making a change.

"The ruling will, if allowed to stand, decrease the amount of government payment to cotton farmers in the Rolling Plains by approximately 4 million dollars. Cotton growers should contact local ASCS offices to see

### Coleman Airman Gets Promotion

Ralph L. Dyer, son of Mr. and Mrs. Jack Dyer of Coleman, has been promoted to airman first class in the U. S. Air Force.

Airman Dyer is an aircraft instrument repairman at Hickam AFB, Hawaii. He is a member of the Pacific Air Forces, the nation's combat-ready air arm guarding the 10,000-mile Bamboo Curtain.

He is a graduate of Coleman High School, and his wife, Lisa, is the daughter of the Rev. and Mrs. Charles Mitchell of Glen Cove Rt., Coleman.

### FORMER RESIDENT VISITS ATOMIC ENERGY MUSEUM

Orville S. Allen of San Antonio, a former Santa Anna resident, recently visited the American Museum of Atomic Energy, Oak Ridge, Tenn, which features demonstrations and displays on peaceful uses of the atom.

The museum, operated for the U. S. Atomic Energy Commission by Oak Ridge Associated Universities, is the only institution devoted exclusively to nuclear science. Especially trained lecture-demonstrators show how the power of the atom is utilized in medicine, industry and agriculture.

how it affects them or their county."

"The unfairness of the ruling to our area has been admitted but thus far no corrective action. We lost the skip-row fight last year and we cannot afford to lose again. The economy of the Rolling Plains cannot afford to lose 4 million dollars because of some-one's mistake. We have tried to work the problem out diplomatically but it appears that it will take a grassroots rebellion from the Rolling Plains to correct it," Stenholm asserted.

### Widows Eligible To Collect Social Security At 60

Many widows may be unaware of a change in the social Security law and still think they have to wait until they become 62 to collect social security widow's benefits. This is the concern of R. R. Tuley, Jr., district manager of social security in Abilene.

Until the change in the law, effective September 1965, the widow of a man who had worked under social security could not qualify for monthly widow's benefits until she reached 62. Now, she can elect to have her payments start as early as her 60th birthday, but in smaller installments to take account of the longer time that benefits will be paid.

Tuley pointed out that generally women who choose to take these reduced benefits will collect about the same value in benefits over the years. He urged widows, who may have been waiting for their 62nd birthdays, to call or visit the social security office nearest their homes to find out how the age-60 benefits would work out in their particular cases.

The social security office in Abilene is located at room 2321 in the Federal Building. Office hours are 9 a. m. until 5 p. m. Mondays through Fridays. In addition, the office is open from 5 p. m. until 9 p. m. on Tuesdays to afford persons who cannot come in during regular hours an opportunity to discuss social security matters with a representative.

### WTCC Favors All 16 Amendments

Howard Rose of Midland, chairman of West Texas Chamber of Commerce State Affairs Committee, has announced that the WTCC supports all 16 of the Constitutional Amendments which will be voted upon by Texas voters Tuesday, November 8.

Special emphasis was called to Amendment 7, concerning the abolishment of the poll tax, and Amendment 11, which will provide additional money for the State's portion of various water projects.

"Amendment 7 should be favored," said Rose, "because it will provide for an annual system of registration rather than a permanent system of registration which could lead to voter frauds."

As for the "Water Fund" amendment the chairman said that although the WTCC has opposed certain features of the Texas Water Master Plan, this amendment has no relationship to the Water Plan itself. Support of this amendment and the increase of funds for water development is essential to the entire State, according to Rose.

John Ben Shepperd, president of WTCC, asked West Texans to give positive consideration to all the amendments and urge all of them to vote November 8.
